Features of the Fund

UBS (Lux) Strategy Fund (hereinafter called the "Fund") offers investors various subfunds ("umbrella construction") which invest in accordance with the investment policy described in the sales prospectus. The specific details on each subfund, are defined in the sales prospectus, which will be updated on the inception of each new subfund.

The Fund was established as a legally dependent openended investment fund in the form of a collective investment fund (fonds commun de placement, FCP) pursuant to Part I of the Luxembourg law relating to Undertakings for Collective Investment of 30 March 1988 and adapted in June 2005 to conform to Part I of the Luxembourg Law of 17 December 2010 on undertakings for collective investment (hereinafter "Law of 2010").

The Fund's Management Regulations may be amended, subject to compliance with applicable law. Any amendments thereto shall be notified by way of a notice of deposit in the Recueil Electronique des Sociétés et Associations ("**RESA**"), as well as by any other means described below in the section entitled "Regular reports and publications". The new Management Regulations shall enter into force on the date of their signature by the Management Company and the Depositary. The consolidated version may be consulted at the Trade and Companies Register (Registre de Commerce et des Sociétés).

The Fund has no legal personality as an investment fund. The entire net assets of each subfund are the undivided property of all unitholders who have equal rights corresponding to the unit classes they hold. These assets are separate from the assets of the Management Company. The securities and other assets of the Fund are managed by the Management Company as separate trust assets in the interests and for the account of the unitholders.

As at 31 January 2022 the following subfunds are active:

Various unit classes can be offered for the subfunds. Information on which unit classes are available for which subfund can be obtained from the Administrative Agent or at www.ubs.com/funds.

Only registered units are issued.

"P"

Units in classes with "P" in their name are available to all investors. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 1,000, BRL 4,000, CAD 1,000, CHF 1,000, CZK 20,000, DKK 700, EUR 1,000, GBP 1,000, HKD 10,000, JPY 100,000, NOK 900 PLN 5,000, RMB 10,000, RUB 35,000, SEK 7,000, SGD 1,000, USD 1,000, NZD 1,000 or ZAR 10,000.

"P-C"

Units of classes with "P-C" in their name confer the right to an annual distribution. This distribution, however, is not paid out to the unitholder but instead is transferred in its entirety to the UBS Optimus Foundation, a foundation established on 13 December 1999 in accordance with Swiss law. Its purpose is to promote cultural, artistic, scientific and social initiatives and creativity in its widest sense in all possible forms, as well as to support people who are in need and to assist those suffering from a mental or physical handicap.

Distributions for the "P-C" unit class are paid in their entirety to the UBS Optimus Foundation, which uses these for its charitable purposes.

The entire issuing commission for units in class "P-C" is also paid to the UBS Optimus Foundation, together with the total all-in-fee chargeable on the portion of the net assets attributable to units in the "P-C" unit class. Units in the "P-C" unit class are obtainable only from the Management Company and UBS distributors. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"N"

Units in classes with "N" in their name (units with restrictions on distribution partners or countries) are issued exclusively through distributors authorised by UBS Asset Management Switzerland AG and domiciled in Spain, Italy, Portugal and Germany, or in other distribution countries insofar as this has been decided by the Management Company. There are no entry charges for these classes, even if they have additional characteristics. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"K-1"

Units in classes with "K-1" in their name are available to all investors. Their smallest tradable unit is 0.1. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 5 million, BRL 20 million, CAD 5 million, CHF 5 million, CZK 100 million, DKK 35 million, EUR 3 million, GBP 2.5 million, HKD 40 million, JPY 500 million, NOK 45 million, PLN 25 million, RMB 35 million, RUB 175 million, SEK 35 million, SGD 5 million, USD 5 million, NZD 5 million or ZAR 40 million.

"K-B"

Units in classes with "K-B" in their name are exclusively reserved for investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised distributors on investing in one or more subfunds of this umbrella fund. The costs for asset management are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

"K-X"

Units in classes with "K-X" in their name are exclusively reserved for investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. The costs

for asset management, fund administration (comprising the costs incurred by the Management Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"F"

Units in classes with "F" in their name are exclusively reserved for UBS Group AG affiliates. The maximum flat fee for this class does not include distribution costs. These units may only be acquired by UBS Group AG affiliates, either for their own account or as part of discretionary asset management mandates concluded with UBS Group AG companies. In the latter case, the units will be returned to the Fund upon termination of the mandate at the prevailing net asset value and without being subject to charges. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"Q

Units in classes with "Q" in their name are exclusively reserved for financial intermediaries that:

- (i) invest for their own account, and/or
- (ii) receive no distribution fees in accordance with regulatory requirements, and/or
- (iii) can only offer their clients retrocession-free classes where these are available in the investment fund in question, in accordance with written agreements or agreements on fund savings plans concluded with them. Investors who no longer meet the above conditions may be forced to redeem their units at the prevailing net asset value or exchange them for another class of the subfund. The Management Company is not liable for any tax consequences that may result from a forcible redemption or exchange. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"Q-C"

Units in classes with "Q-C" in their name are exclusively reserved for investors who fulfil the criteria for the unit class "Q" as described above. Units in classes with "Q-C" in their name confer the right to an annual

distribution. This distribution, however, is not paid out to the unitholder but instead is transferred in its entirety to the UBS Optimus Foundation, a foundation established on 13 December 1999 in accordance with Swiss law. Its purpose is to promote cultural, artistic, scientific and social initiatives and creativity in its widest sense in all possible forms, as well as to support people who are in need and to assist those suffering from a mental or physical handicap.

Distributions for the "Q-C" unit class are paid in their entirety to the UBS Optimus Foundation, which uses these for its charitable purposes.

The entire issuing commission for units in class "Q-C" is also paid to the UBS Optimus Foundation, together with the total all-in-fee chargeable on the portion of the net assets attributable to units in the "Q-C" unit class. Units in unit class "Q-C" are obtainable only from the Management Company and UBS distributors. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"I-A1"

Units in classes with "I-A1" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 1,000, BRL 4,000, CAD 1,000, CHF 1,000, CZK 20,000, DKK 700 EUR 1,000, GBP 1,000, HKD 10,000, JPY 100,000, NOK 900 PLN 5,000, RMB 10,000, RUB 35,000, SEK 7,000, SGD 1,000, USD 1,000, NZD 1,000 or ZAR 10,000.

"I-A2"

Units in classes with "I-A2" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000. The minimum subscription amount for these units is CHF 10 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above;
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one of its authorised contractual partners)

- or written approval by UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 30 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

"I-A3"

Units in classes with "I-A3" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000. The minimum subscription amount for these units is CHF 30 million (or foreign currency equivalent).

Upon subscription:

- (i) a minimum subscription must be made in accordance with the list above;
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one of its authorised contractual partners) or written approval by UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 100,000,000 (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

"I-B"

Units in classes with "I-B" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. A fee covering the costs for fund administration (comprising the costs of the Management Company, the administrative agent and the Depositary) is charged directly to the subfund. The costs for asset management and distribution are charged to investors under the aforementioned agreements. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000,

RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"I-X"

Units in classes with "I-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Management Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

"U-X"

Units in classes with "U-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Management Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. This unit class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 10,000, BRL 40,000, CAD 10,000, CHF 10,000, CZK 200,000, DKK 70,000, EUR 10,000, GBP 10,000, HKD 100,000, JPY 1 million, NOK 90,000 PLN 50,000, RMB 100,000, RUB 350,000, SEK 70,000, SGD 10,000, USD 10,000, NZD 10,000 or ZAR 100,000.

Additional characteristics:

Currencies

The unit classes may be denominated in AUD, BRL, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, PLN, RMB, RUB, SEK, SGD, USD, NZD or ZAR. For unit classes issued in the currency of account of the subfund, this currency will not be included in the unit class name. The currency of account features in the name of the relevant subfund.

"hedged"

For unit classes with "hedged" in their name and with reference currencies different to the subfund's currency of account ("unit classes in foreign currencies"), the risk of fluctuations in the value of the reference currency is hedged against the subfund's currency of account. This hedging shall be between 95% and 105% of the total net assets of the unit class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of unit classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Management Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits.

The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund's currency of account.

"BRL hedged"

The Brazilian real (ISO 4217 currency code: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. The risk of fluctuations is hedged as described above under "hedged". Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the subfund in accordance with the section "Liquidation and merger of the Fund and its subfunds or unit classes" of the sales prospectus.

"RMB hedged"

Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People's Republic of China (the "**PRC**"), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Units in classes with "RMB hedged" in their name are units whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

Convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors' investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund to make redemption payments in offshore RMB (CNH) would be subject to the subfund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company. The risk of fluctuations is hedged as described above under "hedged".

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the subfund in accordance with the section "Liquidation and merger of the Fund and its subfunds or unit classes" of the sales prospectus.

"acc"

The income of unit classes with "-acc" in their name is not distributed unless the Management Company decides otherwise.

"dist"

The income of unit classes with "-dist" in their name is distributed unless the Management Company decides otherwise.

"qdist"

Units in classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("capital"). Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"mdist"

Units in classes with "-mdist" in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -mdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation. The maximum entry costs for units in classes with "-mdist" in their name is 6%.

"UKdist"

The aforementioned unit classes can be issued as those with "UKdist" in their name. In these cases, the Management Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of the UK **reporting fund** rules when the unit classes are subject to these **reporting fund** rules. The Management Company does not intend to make taxable values for these unit classes available in other countries, as they are intended for investors whose investment in the unit class is liable to tax in the UK.

"2%", "4%", "6%", "8%"

Units in classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees

and expenses. The distribution amount is calculated based on the net asset value of the respective unit class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These unit classes are suitable for investors who wish for more stable distributions, unrelated to the past or expected returns or income of the respective subfund.

Distributions may thus also be made from the capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund.

Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist, -qdist, -mdist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"seeding"

Units in classes with "seeding" in their name are only offered for a limited period of time. At the end of this period, no further subscriptions are permitted unless the Management Company decides otherwise. However, these units may still be redeemed in accordance with the conditions for the redemption of units. Unless the Management Company decides otherwise, the smallest tradable unit, the initial issue price and the minimum subscription amount are those of the aforementioned asset classes.

The management regulations give the Management Company the authority to establish different subfunds for the Fund as well as different unit classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional unit class is launched.

There is no limit on the size of the net assets, the number of units, number of subfunds or the duration of the Fund.

The Fund forms an indivisible legal entity. With respect to the unitholders, each subfund is regarded as being separate from the others. The assets of a subfund can be used to offset only the liabilities which the subfund concerned has assumed.

The acquisition of Fund units implies acceptance of the management regulations by the unitholder.

The management regulations do not provide for a general meeting of the unitholders.

The financial year of the Fund ends on the last day of January.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

Information on whether a subfund of the Fund is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The issue and redemption of units of the Fund are subject to the regulations prevailing in the country concerned.

The annual and semi-annual reports are available free of charge to unitholders at the registered office of the Management Company and the depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Independent auditor's report

To the Unitholders of

UBS (Lux) Strategy Fund

33A, avenue John F. Kennedy L-1855 Luxembourg

Opinion

We have audited the financial statements of UBS (Lux) Strategy Fund and of each of its subfunds (the "Fund"), which comprise the statement of net assets and the statement of investments in securities and other net assets as at 31 January 2022 and the statement of operations and the statement of changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its subfunds as at 31 January 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standard Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund's management company is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund's management company for the financial statements

The Board of Directors of the Fund's management company is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund's management company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund's management company is responsible for assessing the Fund's and of each of its subfunds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund's management company either intends to liquidate the Fund or any of its subfunds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund's management company.
- Conclude on the appropriateness of the Board of Directors of the Fund's management company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its subfunds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its subfunds to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Luxembourg, 24 May 2022

Report of the Portfolio Manager

For most of Fixed Income, strongly rising inflation led to mostly negative performance, except for High Yield which rose as spreads tightened. Economic growth was strong driven by continued accommodative fiscal and monetary policies and an improvement in the Covid-19 situation. In January 2022, sentiment worsened though, as central bank policy turned more hawkish.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a negative performance.

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. For most of Fixed Income, strongly rising inflation led to negative performance, except for High Yield which rose as spreads tightened. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

Structure of the Securities Portfolio

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. For most of Fixed Income, strongly rising inflation led to negative performance, except for High Yield which rose as spreads tightened. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. For most of Fixed Income, strongly rising inflation led to negative performance, except for High Yield which rose as spreads tightened. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. For most of Fixed Income, strongly rising inflation led to negative performance, except for High Yield which rose as spreads tightened. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

Report of the Portfolio Manager

For most of Fixed Income, strongly rising inflation led to mostly negative performance, except for High Yield which rose as spreads tightened. Economic growth was strong driven by continued accommodative fiscal and monetary policies and an improvement in the Covid-19 situation. In January 2022, sentiment worsened though, as central bank policy turned more hawkish.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a negative performance.

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. For most of Fixed Income, strongly rising inflation led to negative performance, except for High Yield which rose as spreads tightened. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. For most of Fixed Income, strongly rising inflation led to negative performance, except for High Yield which rose as spreads tightened. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. For most of Fixed Income, strongly rising inflation led to negative performance, except for High Yield which rose as spreads tightened. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

 $^{^{\}rm 1}$ First NAV: 1.7.2020. During the period from 1.2.2021 and 3.5.2021 the share class I-A3-acc was not in circulation $^{\rm 2}$ See note 1

Performance

	Currency	2021/2022	2020/2021	2019/2020
Class I-A3-acc ¹	EUR	-	-	-
Class N-acc	EUR	7.9%	6.5%	10.0%
Class P-acc	EUR	8.0%	6.5%	10.1%
Class Q-acc	EUR	8.8%	7.4%	10.9%

During the period from 1.2.2021 and 3.5.2021 the share class I-A3-acc was not in circulation. Due to this fact, there is no data for the calculation of the performance.

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

Structure of the Securities Portfolio

Classification by Currency as a % of net assets	
USD	55.53
EUR	34.74
CHF	7.81
JPY	2.03
Total	100.11

Report of the Portfolio Manager

For most of Fixed Income, strongly rising inflation led to mostly negative performance, except for High Yield which rose as spreads tightened. Economic growth was strong driven by continued accommodative fiscal and monetary policies and an improvement in the Covid-19 situation. In January 2022, sentiment worsened though, as central bank policy turned more hawkish.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a negative performance.

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. For most of Fixed Income, strongly rising inflation led to negative performance, except for High Yield which rose as spreads tightened. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

Structure of the Securities Portfolio

Classification by Currency as a % of net assets

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. For most of Fixed Income, strongly rising inflation led to negative performance, except for High Yield which rose as spreads tightened. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

Historical performance is no indicator of current or future performance

Report of the Portfolio Manager

Equity markets rallied during most of the period under review, driven by a strong rebound in economic growth and continued accommodative fiscal and monetary policies. For most of Fixed Income, strongly rising inflation led to negative performance, except for High Yield which rose as spreads tightened. While the Covid-19 situation generally improved, the Omicron version and a more hawkish policy stance by central banks globally led to negative sentiment in January 2022.

Over the financial year, from 1 February 2021 to 31 January 2022, the fund generated a positive performance.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg.

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds under the going concern basis of accounting. The significant accounting policies are summarised as follows:

a) Calculation of the Net Asset Value

The net asset value and the issue, redemption and conversion price per unit of the different unit classes of each subfund are expressed in the currency of account of the subfund or unit class concerned and are calculated every business day by dividing the overall net assets of the subfund attributable to each unit class by the number of units in the respective unit class of the subfund.

In this context, "business day" refers to normal bank business days in Luxembourg (i.e. each day on which the banks are open during normal business hours) except for 24 and 31 December with the exception of individual non-statutory rest days in Luxembourg and days on which exchanges in the main countries in which the subfund invests are closed or 50% or more subfund investments cannot be adequately valued.

The percentage of the net asset value which is attributable to each unit class of a subfund is determined by the ratio of units issued in each unit class to the total number of units issued in the subfund, taking into account the fees charged to that unit class, and changes according to the issues and redemptions of units for each subfund.

b) Valuation principles

- Liquid funds whether in the form of cash, bank deposits, bills of exchange, sight securities, debt claims, prepaid expenses, cash dividends and declared or accrued interest that has not yet been received – are valued at their full value unless it is unlikely that this value will be fully paid or received, in which case their value is determined by taking into consideration a deduction that seems appropriate in order to portray their true value.
- Securities, derivatives and other assets listed on a stock exchange are valued at the last-known market prices. If these securities, derivatives or other assets

are listed on several stock exchanges, the latest available price on the stock exchange that represents the major market for these investments will apply. In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Management Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange or which are traded on another regulated market which operates regularly and is recognised and open to the public are valued at the last available price on this market.

- Securities and other investments that are not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Management Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- Derivatives not listed on a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation obtained will be verified by means of calculation methods recognised by the Management Company and the Fund's auditors, based on the market value of the underlying instrument from which the derivative originates.
- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCI) are valued at their lastknown net asset value.
- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. The valuation based on the curves refers to the interest rate and credit spread components. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying borrower. This credit spread is adjusted if there is a significant change in the credit rating of the borrower.
- Securities, derivatives and other assets denominated in a currency other than the currency of account of the relevant subfund and not hedged by foreign-exchange transactions, are valued at the middle-market rate of exchange (midway between the bid and offer rate) known in Luxembourg or, if not available, on the most representative market for this currency.

- Fixed-term deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations (based on models and market data made available by Bloomberg), and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the UBS Valuation Policy.

The Management Company is authorized to apply other generally recognized and auditable valuation criteria in good faith in order to achieve an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the above-mentioned regulations proves to be unfeasible or inaccurate.

In extraordinary circumstances, additional valuations can be carried out over the course of the day. These new valuations will then be authoritative for subsequent issues and redemptions of units.

Due to fees and charges as well as the buy-sell spreads for the underlying investments, the actual costs of buying and selling assets and investments for a subfund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per unit. These costs have a negative impact on the value of a subfund and are termed "dilution". To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per unit (swing pricing).

Units are issued and redeemed based on a single price: the net asset value per unit. To reduce the effects of dilution, the net asset value per unit is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the subfund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in a subfund or class of a subfund on a particular valuation day, the unadjusted net asset value per unit is applied. The Board of Directors has discretion to decide under which circumstances such a dilution adjustment should be made. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of units in the relevant subfund. The Board of Directors may apply a dilution adjustment if, in its view, the existing unitholders (in the case of subscriptions) or remaining unitholders (in the case of redemptions) could otherwise be put at a disadvantage. The dilution adjustment may take place if:

(a) a subfund records a steady fall (i.e. a net outflow due to redemptions);

- (b) a subfund records a considerable volume of net subscriptions relative to its size;
- (c) a subfund shows a net subscription or net redemption position on a particular valuation day; or
- (d) in all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the unitholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per unit depending on whether the subfund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the buy-sell spreads. In particular, the net asset value of the respective subfund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the subfund, and (iii) the estimated bid-ask spread for the assets in which the subfund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. Generally speaking, adjustments shall be limited to a maximum of 2% of the relevant applicable net asset value per unit. Under exceptional circumstances (e.g. high market volatility and/or illiquidity, extraordinary market conditions, market disruptions etc.), the Board of Directors may decide to apply temporarily a dilution adjustment of more than 2% of the relevant applicable net asset value per unit in relation to each subfund and/ or valuation date, provided that the Board of Directors is able to justify that this is representative of prevailing market conditions and is in the unitholders' best interest. This dilution adjustment shall be calculated according to the procedure specified by the Board of Directors. Unitholders shall be informed through the normal channels whenever temporary measures are introduced and once the temporary measures have ended. The net asset value of each class of the subfund is calculated separately. However, dilution adjustments affect the net asset value of each class to the same degree in percentage terms. The dilution adjustment is made at subfund level and relates to capital activity, but not to the specific circumstances of each individual investor transaction.

For all subfunds the Swing Pricing methodology is applied.

If there were Swing Pricing adjustments to the net asset value at the end of the financial year, this can be seen from the three-year comparison figures of the net asset value information of the subfunds. The issue and redemption price per unit represents the adjusted net asset value.

c) Valuation of forward foreign exchange contracts
The unrealized gain (loss) of outstanding forward foreign
exchange contracts is valued on the basis of the forward
exchange rates prevailing at valuation date.

d) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

e) Net realized profit (loss) on sales of securities

The realized profits or losses on sales of securities are calculated on the basis of the average cost of investments sold.

f) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities denominated in currencies other than the reference currency of the different subfunds are converted at the prevailing mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the prevailing mid closing spot rates at payment date. Profit or loss on foreign exchange is included in the financial statements.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at mid closing spot rate prevailing on the day of acquisition.

g) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for on the bank business days following the transaction dates.

h) Combined financial statements

The combined financial statements of the Fund are established in EUR. The various items of the combined statement of net assets, combined statement of operations and combined statement of changes in net assets as at 31 January 2022 of the Fund are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the closing exchange rates.

The following exchange rates were used for the conversion of the combined financial statements as of 31 January 2022:

Excha	ange r	ates	
EUR	1 =	CHF	1.043707
EUR	1 =	USD	1.121000

For the liquidated or merged subfunds, the exchange rate used for the conversion of the combined financial statements is the one as at liquidation or merger date.

i) "Mortgage-backed securities"

The Fund, in accordance with its investment policies, may invest in mortgage-backed securities. A mortgage-backed security is a participation in a pool of residential mortgages which is consolidated into the form of securities. The principal and interest payments on the underlying mortgages are passed through to the holders of the mortgage-backed security of which the principle reduces the cost basis of the security. The payment of principal and interest may be guaranteed by quasi-governmental agencies of the United States. A gain or loss is calculated on each paydown associated with each payment of principal.

This gain or loss has been included in "Net realized gain or loss on sales of securities" in the statement of operations. In addition, prepayments of the underlying mortgages may shorten the life of the security, thereby affecting the Fund's expected yield.

j) Receivable on securities sales, Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

k) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

1) Swaps

The Fund may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

Changes in unrealized profits and losses are reflected in the Statement of Operations under the changes in "Unrealized appreciation (depreciation) on Swaps". Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on Swaps" in the Statement of Operations.

Note 2 - Flat fee

The Fund charges a monthly flat fee for each of the subfunds resp. for each of the unit classes, calculated on the average net asset value of the subfunds resp. the unit classes as shown in the table below.

Out of the aforementioned flat fee the following fees are paid:

UBS (Lux) Strategy Fund Annual report and audited financial statements as of 31 January 2022 1. For the management, administration, portfolio management and distribution of the Company (if applicable), as well as for all the tasks of the Depositary, such as the safekeeping and supervision of the Company's assets, the handling of payment transactions and all other tasks listed in the section "Depositary and main paying agent" of the prospectus, a maximum flat fee based on the net asset value of the Company is paid from the Company's assets, in accordance with the following provisions. The maximum flat fee for unit classes with "hedged" in their name may contain fees for hedging currency risk. This fee is charged to the Company's assets on a pro rata basis upon every calculation of the net asset value and is paid on a monthly basis (maximum flat fee).

This fee is shown in the Statement of Operations as "Flat fee".

- 2. The maximum flat fee does not include the following fees and additional expenses, which are also charged to the Fund:
 - a) all additional expenses related to management of the Fund's assets for the sale and purchase of assets (bid/offer spread, brokerage fees in line with the market, commissions, fees, etc.). These expenses are generally calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the Swinging Pricing principle pursuant to the section entitled "Net asset value, issue, redemption and conversion price" of the sales prospectus;
 - b) fees of the supervisory authority for the establishment, modification, liquidation and merger of the Fund, as well as all fees of the supervisory authorities and any stock exchanges on which the subfunds are listed:
 - c) auditor's fees for the annual audit and certification in connection with the establishment, modification, liquidation and merger of the Fund, as well as any other fees paid to the auditor for the services it provides in relation to the administration of the Fund and as permissible by law;
 - d) fees for legal and tax advisers, as well as notaries, in connection with the establishment, registration in distribution countries, modification, liquidation and merger of the Fund, as well as for the general safeguarding of the interests of the Fund and its investors, insofar as this is not expressly prohibited by law;
 - e) costs for the publication of the Fund's net asset value and all costs for notices to investors, including translation costs;
 - f) costs for the Fund's legal documents (prospectuses, KIID, annual and semi-annual reports, as well as all other documents legally required in the countries of domiciliation and distribution);
 - g) costs for the Fund's registration with any foreign supervisory authorities, if applicable, including

¹ formerly UBS (Lux) Strategy Fund – Growth (CHF)
2 formerly UBS (Lux) Strategy Fund – Growth (USD)
3 formerly UBS (Lux) Strategy Fund – Growth (EUR)
4 UBS (Lux) Strategy Fund – Growth Sustainable (USD): Max: 0.940% / Eff 0.840%

- fees, translation costs and fees for the foreign representative or paying agent;
- h) expenses incurred through use of voting or creditors' rights by the Fund, including fees for external
- i) costs and fees related to any intellectual property registered in the Fund's name or usufructuary rights of the Fund;
- i) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary for protecting the interests of the investors;
- k) if the Management Company participates in classaction suits in the interests of investors, it may charge the Fund's assets for the expenses arising in connection with third parties (e.g. legal and Depositary costs). Furthermore, the Management Company may charge for all administrative costs, provided these are verifiable and disclosed, and taken into account in the disclosure of the Fund's total expense ratio (TER).

These commissions and fees are shown in the Statement of Operations as "Other commissions and fees".

3. The Management Company may pay retrocessions in order to cover the distribution activities of the Fund.

The Management Company may pay retrocessions in order to cover the distribution activities of the Fund. All taxes levied on the income and assets of the Fund, particularly the taxe d'abonnement, will also be borne by the Fund.

For purposes of general comparability with fee rules of different fund providers that do not have a flat fee, the term "maximum management fee" is set at 80% of the flat fee.

All costs which can be allocated to individual subfunds will be charged to these subfunds. Costs which can be allocated to unit classes will be charged to these unit classes. If costs pertain to several or all subfunds/unit classes, however, these costs will be charged to the subfunds/unit classes concerned in proportion to their relative net asset values.

In the subfunds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the relevant investment fund and at that of the subfund.

The following subfunds invested as at 31 January 2022 at least 50% of their net asset value into other UCITS:

the maximum fee of all other target funds was 0.00%

In the case of investments in units of funds managed directly or indirectly by the Management Company itself or another company related to it by common management or control, or by a substantial direct or indirect holding, the subfund's making the investment may not be charged with any of the target fund's issue or redemption commissions.

When the Management Company invests in the units of an Associated Fund, according to the above paragraph, which applies a lower actual flat fee than the actual flat fee of the investing subfund, the Management Company may, instead of the aforementioned reduced actual flat fee on the volume invested in the Associated Fund, charge the difference between the actual flat fee of the investing subfund on the one hand and the actual flat fee of the Associated Fund on the other, such that at all times, the total management fee payable by the subfund shall not exceed the amount stated in the sales prospectus applicable to funds that are not Associated Funds.

Details on the ongoing charges of the subfunds can be found in the KIIDs.

UBS (Lux) Strategy Fund

Annual report and audited financial statements as of 31 January 2022

Note 3 - Taxe d'abonnement

In accordance with the law and the regulations currently in force, the Fund is subject in Luxembourg to the subscription tax at the annual rate of 0.05% or a reduced taxe d'abonnement amounting to 0.01% p.a. for some unit classes, payable guarterly and calculated on the basis of the net assets of the Fund at the end of each guarter.

The Taxe d'abonnement is waived for that part of the net assets invested in units or shares of other undertakings for collective investment that have already paid the Taxe d'abonnement in accordance with the statutory provisions of Luxembourg law.

Note 4 - Other income

Other income mainly consist of income resulting from Swing Pricing.

Note 5 - Income Distribution

In accordance with article 10 of the Regulations, once the annual accounts are closed the Management Company will decide to what extent distribution should be made for each subfund or unit class. Distributions may not be so large as to cause the net assets of the Fund to fall below the minimum fund assets laid down by the provisions of the law. If distributions are made, they will be paid out within four months of the end of the financial year.

The Board of Directors is authorized to pay interim dividends and to suspend the payment of distributions.

An income equalisation amount will be calculated so that the distribution corresponds to the actual income entitlement.

Note 6 – Soft commission arrangements

During the financial year from 1 February 2021 until 31 January 2022, no "soft commission arrangements" were entered into on behalf of UBS (Lux) Strategy Fund and "soft commission arrangements" amount to nil.

Note 7 - Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) / Swiss Funds & Asset Management Association (SFAMA) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

Transaction costs and any other costs incurred in connection with currency hedging are not included in the TER.

The TER for classes of shares which were active less than a 12 month period are annualised.

Note 8 – Portfolio Turnover Rate (PTR)

The portfolio turnover has been calculated as follows:

(Total purchases + total sales) – (total subscriptions + total redemptions)

Average of net assets during the period under review

The portfolio turnover statistics are the following for the period under review:

UBS (Lux) Strategy Fund	Portfolio Turnover Rate (PTR)
– Fixed Income Sustainable (CHF)¹	183.44%
– Yield Sustainable (CHF)²	163.46%
– Balanced Sustainable (CHF) ³	157.93%

and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Fund.

Note 10 - Defaulted securities

There are a number of securities that - at the year end – are in default. These securities are disclosed in the portfolio.

Furthermore, there are securities that have defaulted in the past where no pricing quotes exists. These securities have been fully written off by the fund. They are monitored by the management company that will allocate any return that might still arise (ie dividend) to the subfunds. They are not shown within the portfolio but separately in this note.

Note 13 - Event

The war in Ukraine had and still has a material impact on financial markets, first and foremost on Russian and Ukrainian securities but also on the wider markets globally. The situation remains very volatile and the Fund Management Company is closely monitoring in order to quickly take appropriate action to protect the interest of investors in our funds.

The Management of the Fund regard these events as non-adjusting events after the reporting period for the Fund and any of its subfunds. The Fund has not had any direct or indirect exposure to any sanctioned securities.

Also, further to the assessment made by the Management of the Fund, neither the Fund's and any of its subfunds' performance and going concern nor operations, at the date of this report, have been significantly impacted by the above.

Note 14 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the unitholders, the Management Company and the depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Management Company and/or the depositary can elect to make themselves and the Fund subject to the jurisdiction of the countries in which the Fund units were bought and sold.

The German version of these financial statements is the authoritative version and only this version was audited from the auditor. However, in the case of units sold to investors from the other countries in which Fund units can be bought and sold, the Management Company and the Depositary may recognize approved translations (i.e. approved by the Management Company and the Depositary) into the languages concerned as binding upon themselves and the Fund.

Note 15 - OTC-Derivatives and Securities Lending

If the Fund enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Fund enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Fund is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Fund. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepositary/correspondent bank network may result in the rights or recognition of the Fund in connection with the security to be delayed, restricted or even eliminated, which would force the Fund to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as securities lending agent.

OTC-Derivatives*

The OTC-derivatives of the below subfunds with no collateral have margin accounts instead.

Appendix 1 – Global Exposure (unaudited)

Risk management

Risk management in accordance with the commitment approach is applied pursuant to the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed

The Fund engages in Securities Financing Transactions (hereafter "SFT") (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

Global Data

The following table details the value of securities lending as a proportion of the subfund's Net Assets Value as well as a proportion of the total lendable securities, as at 31 January 2022.

UBS (Lux) Strategy Fund	Securities lent in % of Net Assets	Securities lent in % of Total Lendable Securities
– Fixed Income Sustainable (CHF) ¹	13.47%	13.49%
 Yield Sustainable (CHF)² 	1.32%	1.35%
 Balanced Sustainable (CHF)³ 	1.60%	1.64%
 Growth Sustainable (CHF)⁴ 	1.44%	1.48%
– Equity Sustainable (CHF)⁵	2.42%	2.49%
 Fixed Income Sustainable (EUR)⁶ 	14.57%	14.54%
 Yield Sustainable (EUR)⁷ 	0.03%	0.03%
– Growth Sustainable (EUR)8	6.04%	6.20%
– Equity Sustainable (EUR)9	10.66%	10.93%
 Fixed Income Sustainable (USD)¹⁰ 	12.84%	13.06%
– Balanced Sustainable (USD)11	0.23%	0.23%

The total amount (absolute value) of the securities lent is disclosed in Note 15 – OTC-Derivatives and Securities Lending.

Data on collateral reused

Amount of collateral reused, compared with the maximum amount disclosed to investors: None Cash collateral reinvestment income to the Fund: None

Concentration Data

Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depositary.

Service providers that provide securities lending services to the Company have the right to receive a fee in line with market standards in return for their services. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received in the context of securities lending transactions negotiated at arm's lengths is credited to the relevant subfund, while 40% of the gross revenue are retained as costs/fees by UBS Europe SE, Luxembourg Branch acting as securities lending agent and UBS Switzerland AG providing securities lending services. All costs/fees of running the securities lending programme are paid from the securities lending agents' portion of the gross income. This includes all direct and indirect costs/fees generated by the securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

Appendix 4 – Remuneration Policy and quantitative disclosure (unaudited)

The Board of Directors of UBS Fund Management (Luxembourg) S.A. (the "Management Company" or the "AIFM") has adopted a remuneration policy (the "Policy") whose objectives are on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under:

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the "UCITS Law") transposing the UCITS Directive 2009/65/EC (the "UCITS Directive") as amended by Directive 2014/91/EU (the "UCITS V Directive");
- (ii) the Alternative Investment Fund Managers Directive ("AIFMD") 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive ESMA/2016/575 and ESMA's guidelines on sound remuneration policies under the AIFMD ESMA/2016/579 both published on 14 October 2016:
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EC of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) the CSSF Circular 14/585, transposing the ESMA Guidelines 2013/606 on remuneration policies and practices (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS Group AG (the "UBS Group") Total Reward Principles.

The Policy is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Policy of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html.

The Policy is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors. In March 2021, the Policy has been updated to integrate sustainability risks. Last approval by the Board of Directors took place on 4 November 2021. No material changes were made to the Policy.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration policy and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organization and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

Appendix 4 – Remuneration Policy and quantitative disclosure (unaudited)

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

The aggregate amounts of total remuneration, split into fixed and variable, paid by the Management Company/the AIFM to its staff and its Identified Staff during the financial year ended as at 31 December 2021 are as follows:

EUR 1 000	Fixed remuneration	Variable remuneration	Total remuneration	No of beneficiaries
All staff	9 262	1 338	10 600	95
- whereof Identified Staff	3 761	752	4 513	24
- thereof Senior Management*	1 465	350	1 815	8
- thereof Other Identified Staff	2 296	402	2 698	16

^{*} Senior Management includes the CEO, the Conducting Officers, the Head of Compliance, the Branch Manager and the Independent Director

Remuneration of delegates staff

As market or regulatory practice develops UBS AM may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

For the year ending 31 December 2021, the aggregate total remuneration paid by the delegated Investment Manager to its Identified Staff in relation to the Fund amounted to EUR 254 234, of which EUR 77 624 represented the variable remuneration (2 beneficiaries).

Article 8 (1):

UBS (Lux) Strategy Fund – Balanced Sustainable (CHF) [formerly UBS (Lux) Strategy Fund – Balanced (CHF)] UBS (Lux) Strategy Fund – Balanced Sustainable (EUR) [formerly UBS (Lux) Strategy Fund – Balanced (EUR)] UBS (Lux) Strategy Fund – Balanced Sustainable (USD) [formerly UBS (Lux) Strategy Fund – Balanced (USD)]

UBS Asset Management categorises these subfunds as a Sustainability Focus Fund. These subfunds promote environmental and social characteristics and fall under Article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. At least 70% of the assets of each individual subfund (without liquid assets and derivatives) are allocated to investment strategies that take account of environmental (E) and/or social (S) considerations in accordance with Article 8 of the Regulation on sustainability-related disclosures in the financial services sector, or to investment strategies that aim to make sustainable investments or to reduce carbon emissions in accordance with Article 9 of the Regulation on sustainability-related disclosures in the financial services sector.

Sustainable investments may include one or more of the eight ESG categories listed below:

- a) ESG engagement equities: In this approach, asset managers actively participate as shareholders in order to engage the management of companies to improve their performance with regard to ESG issues and opportunities
- b) ESG engagement high yield bonds: In this approach, asset managers actively participate as bondholders in issuers with a credit rating lower than BBB- in order to engage the management of companies to improve their performance with regard to ESG issues and opportunities.
- c) Development bonds: Bonds issued by multilateral development banks (MDB). MDBs are supported by various governments with the aim of financing sustainable economic growth.
- d) ESG thematic equities: Equities of companies that sell products and services which tackle a particular environmental or social challenge and/or whose businesses are particularly good at managing a single ESG factor, such as gender equality.
- e) ESG improvers equities: Equities of companies that are improving how they manage a range of critical ESG issues and opportunities.
- f) ESG leaders equities: Equities of companies that manage a range of critical ESG issues and seize ESG opportunities better than their competitors.
- g) Green, social and sustainability bonds: Bonds that finance environmental projects, social welfare institutions or sustainable issues. Issuers of this type of bond generally include companies, municipalities and development banks.
- h) ESG leaders bonds: Bonds issued by companies that are managing a range of critical ESG issues and seize ESG opportunities better than their competitors.

In addition, under Regulation (EU) 2020/852 (the "Taxonomy Regulation") a financial product categorised in accordance with Article 8(1) SFDR that promotes environmental characteristics must make additional disclosures as of 1 January 2022 on such objective and a description of how and to what extent its investments are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation. However, due to the absence of reliable, timely and verifiable data, these subfunds are unable to make required disclosures as of 1 January 2022. The subfunds do not commit to making a minimum proportion of investments which qualify as

environmentally sustainable under Article 3 of the Taxonomy Regulation. Taking into account the recent and evolving aspects of sustainable finance at the European level, such information will be updated once the Management Company has the necessary data. An update of the sales prospectus will be made where relevant to describe how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation.

UBS (Lux) Strategy Fund – Equity Sustainable (CHF) [formerly UBS (Lux) Strategy Fund – Equity (CHF)] UBS (Lux) Strategy Fund – Equity Sustainable (EUR) [formerly UBS (Lux) Strategy Fund – Equity (EUR)]

UBS Asset Management categorises these subfunds as a Sustainability Focus Fund. These subfunds promote environmental and social characteristics and fall under Article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. At least 70% of the assets of each individual subfund (without liquid assets and derivatives) are allocated to investment strategies that take account of environmental (E) and/or social (S) considerations in accordance with Article 8 of the Regulation on sustainability-related disclosures in the financial services sector, or to investment strategies that aim to make sustainable investments or to reduce carbon emissions in accordance with Article 9 of the Regulation on sustainability-related disclosures in the financial services sector.

Sustainable investments may include one or more of the eight ESG categories listed below:

- a) ESG engagement equities: In this approach, asset managers actively participate as shareholders in order to engage the management of companies to improve their performance with regard to ESG issues and opportunities.
- b) ESG engagement high yield bonds: In this approach, asset managers actively participate as bondholders in issuers with a credit rating lower than BBB- in order to engage the management of companies to improve their performance with regard to ESG issues and opportunities.
- c) Development bonds: Bonds issued by multilateral development banks (MDB). MDBs are supported by various governments with the aim of financing sustainable economic growth.

In addition, under Regulation (EU) 2020/852 (the "Taxonomy Regulation") a financial product categorised in accordance with Article 8(1) SFDR that promotes environmental characteristics must make additional disclosures as of 1 January 2022 on such objective and a description of how and to what extent its investments are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation. However, due to

the absence of reliable, timely and verifiable data, these subfunds are unable to make required disclosures as of 1 January 2022. The subfunds do not commit to making a minimum proportion of investments which qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation. Taking into account the recent and evolving aspects of sustainable finance at the European level, such information will be updated once the Management Company has the necessary data. An update of the sales prospectus will be made where relevant to describe how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation.

UBS (Lux) Strategy Fund – Fixed Income Sustainable (CHF) [formerly UBS (Lux) Strategy Fund – Fixed Income (CHF)] UBS (Lux) Strategy Fund – Fixed Income Sustainable (EUR) [formerly UBS (Lux) Strategy Fund – Fixed Income (EUR)] UBS (Lux) Strategy Fund – Fixed Income Sustainable (USD) [formerly UBS (Lux) Strategy Fund – Fixed Income (USD)]

UBS Asset Management categorises these subfunds as a Sustainability Focus Fund. These subfunds promote environmental and social characteristics and fall under Article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. At least 70% of the assets of each individual subfund (without liquid assets and derivatives) are allocated to investment strategies that take account of environmental (E) and/or social (S) considerations in accordance with Article 8 of the Regulation on sustainability-related disclosures in the financial services sector, or to investment strategies that aim to make sustainable investments or to reduce carbon emissions in accordance with Article 9 of the Regulation on sustainability-related disclosures in the financial services sector.

Sustainable investments may include one or more of the eight ESG categories listed below:

- a) ESG engagement equities: In this approach, asset managers actively participate as shareholders in order to engage the management of companies to improve their performance with regard to ESG issues and opportunities.
- b) ESG engagement high yield bonds: In this approach, asset managers actively participate as bondholders in issuers with a credit rating lower than BBB- in order to engage the management of companies to improve their performance with regard to ESG issues and opportunities.
- c) Development bonds: Bonds issued by multilateral development banks (MDB). MDBs are supported by various governments with the aim of financing sustainable economic growth.
- d) ESG thematic equities: Equities of companies that sell products and services which tackle a particular environmental or social challenge and/or whose businesses are particularly good at managing a single ESG factor, such as gender equality.
- e) ESG improvers equities: Equities of companies that are improving how they manage a range of critical ESG issues and opportunities.
- f) ESG leaders equities: Equities of companies that manage a range of critical ESG issues and seize ESG opportunities better than their competitors.
- g) Green, social and sustainability bonds: Bonds that finance environmental projects, social welfare institutions or sustainable issues. Issuers of this type of bond generally include companies, municipalities and development banks.
- h) ESG leaders bonds: Bonds issued by companies that are managing a range of critical ESG issues and seize ESG opportunities better than their competitors.

In addition, under Regulation (EU) 2020/852 (the "Taxonomy Regulation") a financial product categorised in accordance with Article 8(1) SFDR that promotes environmental characteristics must make additional disclosures as of 1 January 2022 on such objective and a description of how and to what extent its investments are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation. However, due to the absence of reliable, timely and verifiable data, these subfunds are unable to make required disclosures as of 1 January 2022. The subfunds do not commit to making a minimum proportion of investments which qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation. Taking into account the recent and evolving aspects of sustainable finance at the European level, such information will be updated once the Management Company has the necessary data. An update of the sales prospectus will be made where relevant to describe how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation.

UBS (Lux) Strategy Fund – Growth Sustainable (CHF) [formerly UBS (Lux) Strategy Fund – Growth (CHF)] UBS (Lux) Strategy Fund – Growth Sustainable (EUR) [formerly UBS (Lux) Strategy Fund – Growth (EUR)] UBS (Lux) Strategy Fund – Growth Sustainable (USD) [formerly UBS (Lux) Strategy Fund – Growth (USD)]

UBS Asset Management categorises these subfunds as a Sustainability Focus Fund.
