## Goldman Sachs Funds II Investment Adviser's Report For the Year Ended 30 November 2020

#### **Dear Shareholders:**

Enclosed is the report for the year ended 30 November 2020.

#### A. Market Review<sup>1</sup>

After initially expanding, the global economy then significantly weakened given the fallout from the COVID-19 pandemic. In its October 2020 World Economic Outlook Update, the International Monetary Fund ("IMF") said, "The global economy is climbing out from the depths to which it had plummeted during the Great Lockdown in April. But with the COVID-19 pandemic continuing to spread, many countries have slowed reopening and some are reinstating partial lockdowns to protect susceptible populations. While recovery in China has been faster than expected, the global economy's long ascent back to pre-pandemic levels of activity remains prone to setbacks." Global growth is projected to be (4.4%) in 2020. From a regional perspective, the IMF expects the U.S. economy to contract (4.3%) in 2020, compared to the 2.2% GDP expansion in 2019. Elsewhere, the IMF anticipates that 2020 GDP growth in the Eurozone, U.K. and Japan will be (8.3%), (9.8%) and (5.3%), respectively. For comparison purposes, the GDP of these economies expanded 1.3%, 1.5% and 0.7%, respectively, in 2019.

Despite the repercussions from the pandemic, global equities generated positive results during the reporting period. The period began on a positive note, as investor sentiment was initially supported by the completion of the first phase of the trade accord between the U.S. and China. However, given the severe impact from COVID-19, the market fell sharply in February and March 2020, and experienced periods of extreme volatility. Equities then generally rallied over six of the last eight months of the period. Aggressive monetary policy accommodation by central banks, strong fiscal support and, late in the period, news of several COVID-19 vaccines, helped to propel the market higher. All told, for the 12 months ended 30 November 2020, the S&P 500 Index returned 17.46%. International equities also moved higher. During the period, international developed equities, as measured by the MSCI EAFE Index (net), returned 6.37%. Emerging market equities also rallied, with the MSCI Emerging Markets Index (net) returning 18.43% during the reporting period.\*

The global fixed income market posted strong results during the reporting period. With many parts of the economy closed amid the pandemic, the Federal Reserve Board (the "Fed") took a number of actions in March 2020. On 3 March, the Fed lowered the federal funds rate to a range between 1.00% and 1.25% and, on 15 March, the Fed lowered the federal funds rate to a range between 0.00% and 0.25%. On 23 March, the Fed announced that it would make unlimited purchases of Treasury and mortgage securities, as well as purchase corporate bonds on the open market. Finally, in August 2020, the Fed announced a new approach to setting U.S. monetary policy. This will entail letting inflation and employment run higher, which could mean interest rates remain low for an extended period. Meanwhile, the European Central Bank, the Bank of England and the Bank of Japan also took aggressive actions to support their economies, including asset purchases. For the 12 months ended 30 November 2020, the Bloomberg Barclays Global Aggregate Bond Index (hedged to USD) and the Bloomberg Barclays U.S Aggregate Bond Index returned 8.38% and 7.28%, respectively. In contrast, riskier fixed income securities experienced inferior performance. The U.S. high-yield bond market, as measured by the Bloomberg Barclays U.S. Corporate High Yield — 2% Issuer Cap Index, returned 7.17%, whereas the emerging market debt asset class, as measured by the JPMorgan EMBI Global Index, returned 5.96% during the 12 months ended 30 November 2020.\*

#### **Audit report**

To the Shareholders of **Goldman Sachs Funds II** 

#### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Goldman Sachs Funds II (the "Fund") and of each of its sub-funds as at 30 November 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the statement of assets and liabilities as at 30 November 2020;
- the schedule of investments as at 30 November 2020;
- the statement of operations for the year then ended;
- the statement of changes in shareholders' equity for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

### **Basis for opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

# Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
  control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
  disclosures, and whether the financial statements represent the underlying transactions and events
  in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### **Other Matter**

In addition to our responsibility to audit and express an opinion on the financial statements in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we have been requested by the Board of Directors of the Fund to express an opinion on the financial statements in accordance with generally accepted auditing standards in the United States of America as issued by the AICPA, in order to meet the requirements of Rule 206(4)-2 of the US Investment Advisors Act of 1940. We have reported separately in this respect on Page 8.

PricewaterhouseCoopers, Société coopérative Represented by

Luxembourg, 18 March 2021

John Parkhouse

### **Report of Independent Auditors**

To the Board of Directors of Goldman Sachs Funds II

We have audited the accompanying financial statements of Goldman Sachs Funds II and of each of its sub-funds (the "Fund"), which comprise the statement of assets and liabilities, and the schedule of investments as of 30 November 2020, and the related statement of operations and statement of changes in shareholder's equity for the year then ended.

### Responsibility of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Fund's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the Fund, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Goldman Sachs Funds II and of each of its sub-funds as of 30 November 2020, and the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### 1 Organisation

Goldman Sachs Funds II ("the Fund") was incorporated on 20 November 2007 under the laws of the Grand Duchy of Luxembourg as a "Société d'Investissement à Capital Variable" ("SICAV"), for an unlimited period of time. The Fund is registered in accordance with Part I of the Law of 17 December 2010, as amended. The Fund appointed Goldman Sachs Asset Management Fund Services Limited ("GSAMFSL") (the "Management Company") as its Management Company. GSAMFSL is authorised and regulated by the Central Bank of Ireland, and is a wholly owned indirect subsidiary of The Goldman Sachs Group, Inc.

Refer to Note 6 for details of functions the Management Company has delegated.

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch, (the "Depositary") to act as the Depositary of the Fund's assets.

As at 30 November 2020, the Fund is comprised of eleven different portfolios ("the Portfolios").

As at 30 November 2020, the Fund offered shares in the Portfolios as detailed in Appendix I.

Please refer to Appendix II for Portfolios and Share Classes that were launched, merged, closed or changed name during the year.

#### 2 Investment Objective

The primary investment objectives of the Portfolios are detailed in the Prospectus and in the relevant Supplements of the Prospectus.

Fund Name	Strategy Name
Global Multi-Manager Alternatives Portfolio	Specialist Portfolios
Multi-Manager Emerging Markets Equity Portfolio	Global Manager Strategies Portfolios
Multi-Manager Europe Equity Portfolio	Global Manager Strategies Portfolios
Multi-Manager Global Equity Portfolio	Global Manager Strategies Portfolios
Multi-Manager US Equity Portfolio	Global Manager Strategies Portfolios

Balanced Allocation Portfolio	Dedicated Portfolios
Strategic Factor Allocation Portfolio	Dedicated Portfolios
Tactical Tilt Overlay Portfolio	Dedicated Portfolios
Income Multi-Sector Bond Portfolio I	Select Portfolios I
G Emerging Markets Debt Broad Portfolio	Select Portfolios II

### 3 Significant Accounting Policies

### (a) Basis of Preparation of Financial Statements

The financial statements of the individual Portfolios are presented in their base currency while the Combined Total of all the Portfolios is presented in United States Dollars. The Board of Directors considers that the Portfolios' base currency most accurately represents the economic effects of the underlying transactions, events and conditions of the Portfolios.

The financial statements have been prepared in accordance with Luxembourg legal regulatory requirements relating to investment funds. The financial statements have been prepared on a going concern basis as the Directors are of the view that the Fund can continue in operational existence for the foreseeable future.

The preparation of financial statements requires the Board of Directors to make estimates and assumptions that may affect the amounts reported in the financial statements and accompanying notes. Refer to the Statement of Assets and Liabilities and Note 4 where the Board of Directors was required to make certain estimates and assumptions to determine value. Actual results may differ from those estimates.

#### 3 Significant Accounting Policies (Continued)

#### (b) Investment Transactions, Related Investment Income and Operating Expenses

Investment transactions are recorded on a trade date basis plus one in accounting. Realised gains and losses are based on the Weighted Average Cost Method. Dividend income and dividend expense are recorded on the ex-dividend date and interest income and interest expense are accrued over the life of the investment. Interest income includes accretion of market discount, original issue discounts and amortisation of premiums and is recorded into income over the life of the underlying investment. Interest income and dividend income are recognised on a gross basis before withholding tax, if any.

Operating expenses are recognised on an accrual basis.

#### (c) Transaction Costs

Transaction costs are recognised in the Statement of Operations as part of net change in unrealised gain/(loss) on investment securities and net realised gain/(loss) on investment securities. Depositary based transaction costs are included in 'Depositary fees' in the Statement of Operations.

Please refer to Note 14 for details of the Portfolios that incurred separately identifiable transaction costs.

Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. For these investments, transaction costs are included in the purchase and sales price and are part of the gross investment performance of each Portfolio.

#### (d) Financial Investment in Securities and Valuation

#### i. Recognition and Derecognition

The Portfolios recognise financial assets and financial liabilities on the date they become a party to the contractual provisions of the investment. Purchases and sales of financial assets and financial liabilities are recognised using trade date plus one accounting. From trade date plus one, any gains and losses arising from changes in value of the financial assets or financial liabilities are recorded in the Statement of Operations.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Portfolio has transferred substantially all risks and rewards of ownership.

#### ii. Value Measurement Principles

The value of all securities and derivatives is determined according to the following policies:

## (ii.1) Exchange Listed Assets and Liabilities

The value of exchange traded financial investments, including transferable securities admitted to an official exchange listing or dealt in on any other regulated market that operates regularly, which comprise Common Stocks, Bonds, Warrants, Mutual Funds, Options, Contracts for Difference and Futures Contracts, are valued based upon quoted market prices at the year end date without any deduction for estimated future transaction costs.

#### (ii.2) Debt Securities

Debt securities, comprising Bonds, Certificates of Deposit, Commercial Papers, Agencies Asset Backed Obligations and Non-Agencies Asset Backed Obligations, are valued at mid or bid depending on fund methodology, by third party pricing service providers without any deduction for estimated future transaction costs.

When a debt security has been identified as being in default, the interest accrual on the defaulted security may be stopped, and upon confirmation from relevant parties, the amount receivable may be written off.

#### 3 Significant Accounting Policies (Continued)

#### (d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

#### (ii.3) Certificates of Deposit and Money Market Investments

Certificates of Deposit, comprising Time Deposits and Commercial Paper, and Money Market Investments are valued at mid by third party service providers, or where such pricing service is unavailable, at cost which approximates market value.

#### (ii.4) Shares in Collective Investment Schemes

The value of investments in open-ended investment funds, comprising Mutual Funds, are valued based upon the official net asset values per share as at the last available date as supplied by the funds, in accordance with the valuation policy of the applicable fund as outlined in its prospectus.

#### (ii.5) Derivatives

A derivative is an instrument whose value is derived from an underlying instrument, index reference rate or a combination of these factors. Derivative instruments may be privately negotiated contracts which are often referred to as over the counter ("OTC") derivatives or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments or commodities at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount.

Derivative contracts are stated at market value and recognised as assets and liabilities in the Statement of Assets and Liabilities. Gains and losses resulting from the change in the market value are reflected in the Statement of Operations as a component of net change in unrealised gain/(loss). Realised gains or losses are recorded on termination or from periodic cash flow payments.

### (ii.5) (a) Option Contracts

The Portfolios may enter into exchange traded and OTC option contracts with various counterparties. When the Portfolio purchases an option, an amount equal to market value which is based on the premium paid is recorded as an asset, the value of which is marked-to-market daily. When the Portfolio writes an option, an amount equal to market value which is based on the premium received by the Portfolio is recorded as a liability and is adjusted to the market value of the option written on each valuation date.

When options are closed, the difference between the premium and the amount paid or received, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is treated as realised gain or loss. The exercise of an option written by the Portfolio could result in the Portfolio buying or selling a financial instrument at a price different from the current market value.

The fair value of an OTC contract is determined by using counterparty supplied valuations, an independent pricing service or valuation models which use market data inputs supplied by a third party pricing service, and is typically valued at mid. Exchange traded options are valued based on the exchange settlement/last sale prices, or, if the last settlement price is not available for any reason, at the midpoint of the bid and ask prices (or, in the absence of two-way trading, at the last bid price for long positions and the last ask price for short positions), or independent market quotes provided by a pricing service or counterparty.

## (ii.5) (b) Futures Contracts

Futures contracts are contracts to buy or sell a standardised quantity of a specified commodity, security or index and are valued based on exchange settlement/last sale prices, last bid or ask prices on the exchange, or independent market quotes. Initial margin deposits, in either cash or securities, are required to trade in the futures market. Unrealised gains or losses on futures contracts are recognised to reflect the market value of the contracts and are included as a component of the unrealised gains or losses on the Portfolio's Statement of Operations. Variation margin is received or paid, depending on whether unrealised gains or losses are incurred. When the contract is terminated, the Portfolio will recognise a realised gain or loss equal to the difference between the value of the contract at the time it was entered into and the time it is closed.

#### 3 Significant Accounting Policies (Continued)

#### (d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

(ii.5) Derivatives (Continued)

(ii.5) (c) Swap Contracts

Swaps, comprising Interest Rate Swaps, Credit Default Swaps and Total Return Swaps, can be linked to any number of underlying investments and indices, and swap terms can vary greatly. Cash flows are exchanged based on the underlying. Upfront payments, which represent a risk premium, are amortised or accreted over the contract term. Swap agreements are carried at market value, typically valued at mid, and the value of the swap agreement is based on a counterparty provided price, third party pricing service or valuation model. The model considers various inputs including the market value of the underlying, the risks associated with the underlying and the specific terms of the contract. In connection with these agreements, securities or cash may be identified as collateral or margin in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency. This collateral or margin is primarily denominated in base currency, and is paid from the custody account to the broker.

For the year ended 30 November 2020, collateral related to total return swaps was pledged in the form of cash and non-cash. Please refer to Note 13 and to Appendix VI for more information.

Total return swaps and more specifically OTC derivative transactions are entered into by the Portfolio under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Portfolio and a counterparty that governs OTC derivative transactions (including total return swaps) entered into by the parties.

All returns from OTC derivative transactions will accrue to the Portfolio and are not subject to any returns sharing agreement with the Portfolio's manager or any other third parties.

### (ii.5) (d) Contracts for Difference

Contracts for difference are contracts entered into between a broker and the Portfolio under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place. In contracts for difference the unrealised appreciation/(depreciation) is disclosed in the Statement of Assets and Liabilities under "unrealised gain on contracts for difference" and "unrealised loss on contracts for difference". Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations respectively under "Net realised gain/(loss) on contracts for difference" and "Net change in unrealised gain/(loss) on contracts for difference". The value of contracts for difference will be based on the value of the underlying assets and vary similarly to the value of such underlying assets. Contracts for difference will be valued at market value.

### (ii.5) (e) Forward Foreign Currency Contracts

In a forward foreign currency contract, the Portfolio agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. Purchases and sales of forward foreign currency contracts having the same notional value, settlement date and counterparty and right to settle net are generally offset (which result in a net foreign currency position of zero with the counterparty) and any realised gains or losses are recognised on trade date plus one.

Forward foreign currency contracts are valued at mid by third party pricing service providers.

#### (ii.6) All Securities and Derivatives

If a quoted market price is not available from a third party pricing service or a dealer, or a quotation is believed to be materially inaccurate, the market value of the investment is determined by using valuation techniques. Valuation techniques include the use of recent market transactions, reference to the current market value of

#### 3 Significant Accounting Policies (Continued)

#### (d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

(ii.6) All Securities and Derivatives (Continued)

another investment that is substantially the same, discounted cash flow analyses or any other techniques that provides a reliable estimate of prices obtained in actual market transactions. Such securities and derivatives shall be valued at their probable realisation value as determined by the Valuer. Please refer to note 4 for further details.

The investments have been valued in accordance with generally accepted accounting principles that may require the use of certain estimates and assumptions to determine value. Although these estimates and assumptions are based on the best available information, actual results could be materially different from these estimates.

Refer to Note 4 for securities where the Valuer was used to determine probable realisation value.

#### (e) Cash

Cash is valued at cost, which approximates market value.

#### (f) Due from/to Brokers

Due from brokers consists primarily of cash receivable for collateral from the Portfolios' clearing brokers and various counterparties. Due to brokers consists primarily of cash payable for collateral to the Portfolios' clearing brokers and various counterparties.

Due from/to broker balances are valued at cost, which approximates market value. Refer to Note 13 for further details.

#### (g) Foreign Currency Translation

The books and records of all Portfolios are maintained in their base currency. Please refer to Appendix I for the base currency of each Portfolio. Transactions in foreign currencies are translated at the foreign currency exchange rate in effect at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into the base currency at the foreign currency closing exchange rate in effect at the year end date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of assets and liabilities are recognised in the Statement of Operations. Foreign currency exchange gains or losses relating to investments, derivative financial investments, and all other foreign currency exchange gains or losses relating to monetary items, including cash and cash equivalents, are reflected in the net realised gain/(loss) or net change in unrealised gain/(loss) in the Statement of Operations.

#### (h) Expenses

Expenses incurred by the Fund that do not specifically relate to an individual Portfolio or Share Class of a Portfolio are allocated to the Portfolios based on an allocation basis that depends upon the nature of the charges. Expenses directly attributable to a Portfolio or Share Class are generally charged to that Portfolio or Share Class.

### (i) Income Equalisation Arrangements

Income equalisation arrangements may be applied in some or all of the Portfolios of the Fund. Where they are applied, these arrangements are intended to ensure that the income per share which is distributed or deemed distributed in respect of a distribution period is not affected by changes in the number of shares in issue during that period, and the amount of the first distribution received by a Shareholder in an impacted Portfolio following the purchase of shares in that Portfolio will represent partly participation in income received by the Portfolio and partly a return of capital (the "equalisation amount"). The equalisation amounts are included within the proceeds from shares issued and the payment for shares redeemed in the Statement of Changes in Shareholders' Equity.

#### 3 Significant Accounting Policies (Continued)

#### (j) Swing Pricing

On any Business Day the Management Company in consultation with its appointed delegate, Goldman Sachs Asset Management International ("GSAMI") as Investment Adviser, in conformity with guidelines established by the Board of Directors, may determine to apply swing pricing (to include such reasonable factors as they see fit) to the net asset value per share. This method of net asset value calculation is intended to pass the estimated costs of underlying investment activity of the Portfolio to the active Shareholders by adjusting the net asset value of the relevant share and thus to protect the Portfolio's long-term Shareholders from costs associated with ongoing redemption and subscription activity. This is processed as a capital adjustment.

Swing pricing may take account of trading spreads on the Portfolio's investments, the value of any duties and charges incurred as a result of trading and may include an estimate of market impact. Where GSAMI, based on the prevailing market conditions and the level of subscriptions or redemptions requested by Shareholders or potential Shareholders in relation to the size of the relevant Portfolio, have determined for a particular Portfolio to apply swing pricing, the Portfolio's net asset value may be valued either on a bid or offer basis.

Because the determination of whether to value the Portfolio's net asset value on a bid or offer basis is based on the net transaction activity of the relevant day, Shareholders transacting in the opposite direction of the Portfolio's net transaction activity may benefit at the expense of the other Shareholders in the Portfolio. In addition, the Portfolio's net asset value and short-term performance may experience greater volatility as a result of this swing pricing.

Investors should be aware that, the factor used to apply swing pricing ("swing factor") will under normal conditions not exceed 2% of the net asset value per share of the relevant Share Class of the Portfolio, unless otherwise stated in the relevant Supplement. Notwithstanding the above, where exceptional circumstances (including, but not limited to, widening bid offer spreads often as a result of high market volatility and/or illiquidity, exceptional market conditions market disruptions) the Management Company, in consultation with the Board of Directors, may decide, in the best interest of Shareholders and in respect of any particular Portfolio and on any Business Day, to apply a swing factor which is above 2%. Shareholders will be informed on such decision via a notice and/or a publication posted on <a href="www.gsam.com">www.gsam.com</a>. The swing factor applied to individual Portfolios will be reviewed by the Investment Adviser on a periodic basis in order to verify their appropriateness in light of prevailing market conditions.

The following Portfolios are able to apply swing pricing:

Global Multi-Manager Alternatives Portfolio	Multi-Manager US Small Cap Equity Portfolio
Multi-Manager Emerging Markets Equity Portfolio	Balanced Allocation Portfolio
Multi-Manager Europe Equity Portfolio	Strategic Factor Allocation Portfolio
Multi-Manager Global Equity Portfolio	Tactical Tilt Overlay Portfolio
Multi-Manager US Equity Portfolio	

No reversal of the swing net asset calculation method was presented in the Statement of Changes in Shareholders' Equity since no swing net asset value calculation was applied to any of the Portfolios as at 30 November 2019.

Refer to the Statement of Assets and Liabilities and the Statement of Changes in Shareholders' Equity for the Portfolios that applied swing pricing as at 30 November 2020.

### 4 Valuation Determined by the Valuer

The Valuer is appointed by the Management Company. The Valuer also has direct responsibilities to the Board of Directors for certain valuation functions, which are ultimately reflected in the financial statements. The Valuer during the year ended 30 November 2020 was Goldman Sachs & Co. LLC and the valuation function was performed by Goldman Sachs Controllers Division ("Controllers").

#### 4 Valuation Determined by the Valuer (Continued)

The following table sets forth the assets where the Valuer was used to determine the probable realisation value as at 30 November 2020:

As at 30 November 2020								
Portfolios	Currency	Number of Assets valued	Value	% of Shareholders' equity				
Global Multi-Manager Alternatives Portfolio	USD	3	11,836	0.00%				
Multi-Manager Emerging Markets Equity Portfolio	USD	2	283,095	0.07%				

Securities traded on certain Asia Pacific/Middle Eastern exchanges may utilise international equity adjusted prices provided by an independent third party pricing service in order to more accurately reflect the value of securities traded on markets which are closed at the valuation point.

The independent valuation service takes into account multiple factors including, but not limited to, movements in the securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of the foreign securities exchange. These investments are not included in the above table.

#### 5 Taxation

#### Taxation - Luxembourg

The Fund is not liable for any Luxembourg tax on profits or income. However, the Fund is liable in Luxembourg to an annual subscription tax (taxe d'abonnement) of 0.05% per annum. The taxable basis of the subscription tax is the aggregate net assets of the Fund as valued on the last day of each quarter. This rate is however 0.01% per annum for each of the following:

- undertakings whose exclusive object is the collective investment in Money Market Instruments and the placing of deposits with credit institutions;
- · undertakings whose exclusive object is the collective investment in deposits with credit institutions; and
- individual compartments of undertakings for collective investment ("UCI") with multiple compartments
  referred to in the law dated 17 December 2010, as amended, as well as for individual classes of securities
  issued within a UCI or within a compartment of a UCI with multiple compartments, provided that the securities
  of such compartments or classes are reserved to one or more institutional investors.

# Taxation - Belgium

The Fund may incur a liability to subscription tax at the rate of 0.0925% in respect of subscriptions made through intermediaries situated in Belgium to the extent that net shares are outstanding as of 31 December of the previous year.

#### Taxation - General

Each Portfolio may be subject to taxation on capital gains, interest and dividends in certain jurisdictions in which each Portfolio invests. It is the policy of each Portfolio to accrue for any such taxes on dividends and interest when the dividend is declared or interest is earned. At each valuation date, taxation on realised and unrealised appreciation of securities may be accrued for at statutory rates.

Prospective investors should consult their own taxation advisers regarding the tax implications of investing in the Fund in relation to their own individual circumstances as they may differ from the general statements that appear above.

#### 6 Significant Agreements and Related Parties

### **Management Company**

As outlined in Note 1, the Fund appointed GSAMFSL, a wholly-owned indirect subsidiary of The Goldman Sachs Group, Inc., as its Management Company.

### 6 Significant Agreements and Related Parties (Continued)

### **Management Company (Continued)**

The Portfolios pay the Management Company an annual fee which shall be accrued daily and generally paid monthly in arrears.

#### **Investment Adviser and Investment Sub-Advisers**

The Management Company has appointed GSAMI (the "Investment Adviser"), a related party to the Fund, as its delegate to provide portfolio management services.

GSAMI has entered into sub-delegation agreements with each of the following affiliated Investment Sub-Advisers:

- Goldman Sachs Asset Management, L.P.
- Goldman Sachs Asset Management (Hong Kong) Ltd.
- Goldman Sachs Asset Management (Singapore) Pte. Ltd.
- Goldman Sachs Asset Management Co., Ltd.
- Goldman Sachs Hedge Fund Strategies, LLC
- Goldman Sachs International
- GS Investment Strategies, LLC

GSAMI has entered into sub-advisory agreements with each of the following external Investment Sub-Advisers ("the External Managers"):

Portfolios	External Managers*
Global Multi-Manager Alternatives Portfolio	ADG Capital Management LLP Algert Global LLC Artisan Partners
	Bardin Hill Arbitrage UCITS Management LP Bosvalen Asset Management
	Brigade Capital Management LP Canyon Capital Advisors LLC
	Crabel Capital Management LLC First Pacific Advisors LLC
	GQG Partners Marathon Asset Management LP
	Mesirow Sirios Capital Management LP
	Wellington Management Company LLP Wellington Management International Ltd.
Multi-Manager Emerging Markets Equity Portfolio	Axiom International Investors LLC J O Hambro Capital Management Ltd. Russell Transition Management Wellington Management Company LLP
Multi-Manager Europe Equity Portfolio	ELEVA Capital LLP Mandarine Gestion Wellington Management International Ltd.
Multi-Manager Global Equity Portfolio	Baillie Gifford & Co. Sanders Capital LLC Strategic Global Advisors LLC
Multi-Manager US Equity Portfolio	Diamond Hill Investments Fiera Capital Corporation Westfield Capital Management Co. LLC

#### 6 Significant Agreements and Related Parties (Continued)

#### Investment Adviser and Investment Sub-Advisers (Continued)

Portfolios	External Managers*
Multi-Manager US Small Cap Equity Portfolio	Boston Partners
	Brown Advisory
	Quantitative Management Associates
	Victory Capital Management, Inc.

<sup>\*</sup> None of these investment advisers are an affiliate of GSAMI. As compensation for the services rendered under the Investment Advisory Agreement, GSAMI receives a fee, payable monthly, at an annual rate. A portion of the Investment Adviser's fees may be remitted to the Investment Sub-Adviser.

#### **Expense Cap**

GSAMI has voluntarily agreed to limit total expenses in respect of certain Portfolios and certain Share Classes. Therefore, to the extent that total ordinary expenses would exceed the expense cap, GSAMI has voluntarily agreed to bear any actual operating expenses that exceed any expense cap, either directly by waiving a portion of its fees or by reimbursement to the account of the relevant Share Class. The Investment Adviser may, in its sole discretion, designate which expenses of the Fund will be subject to any such expense cap imposed by the Investment Adviser. The expense cap does not include the GSAMI fee portion paid to external Investment Sub-Advisers. There is no guarantee that the existence or level of these expense caps will continue in the future and no obligation on the part of GSAMI to agree to limit total expenses in this way. In addition, the Portfolios are not obliged to reimburse GSAMI for prior financial year expense reimbursement, if any.

Details of advisory fees rates and the expense caps as of 30 November 2020 are detailed in Appendix I.

#### **Director's Remuneration**

Ms. Grainne Alexander and Mr. Frank Ennis are independent Directors and have no executive function with the Investment Adviser or its affiliated companies. The Fund pays each independent Director an annual fee for their services as a Director of the Fund.

Mr. Jonathan Beinner, Mr. Glenn Thorpe and Ms. Katherine Uniacke are affiliated with the Investment Adviser and receive no compensation from the Fund.

#### Performance Fees

GSAMI is entitled to a performance fee on certain Share Classes of the Portfolios. For the Global Multi-Manager Alternatives Portfolio the performance fee accrues daily and is paid annually out of the assets attributable to each applicable Share Class. The performance fee is equal to 10% of the amount by which the Class NAV per share exceeds such Class' Benchmark Value per share, as defined within the Prospectus.

#### Fees earned on other Goldman Sachs Funds

To the extent permitted by applicable law and the terms of the Prospectus, any Portfolio may invest all or some of its short term cash investments in any money market fund advised or managed by Goldman Sachs and may invest in other investment funds advised or managed by Goldman Sachs (together "Goldman Sachs Funds"). Subject to applicable law and the terms of the Prospectus, the Fund may be required to bear its proportionate share of any fees (including investment advisory and management fees) applicable to its investment in such investment funds.

For further details on investments into other Goldman Sachs Funds please refer to the Schedule of Investments.

All Portfolios invested in the Goldman Sachs Funds were invested in non-investment advisory fee bearing share classes. As a result, for the year ended 30 November 2020, there were no investment advisory fees earned on each Portfolio's investment in the Goldman Sachs Funds.

#### Commissions

In the normal course of its operations, each Portfolio may enter into transactions on securities or futures contracts with the Goldman Sachs Funds or other Goldman Sachs affiliates (together "Goldman Sachs Affiliates").

#### 6 Significant Agreements and Related Parties (Continued)

#### **Commissions (Continued)**

For the year ended 30 November 2020, the following transactions were entered into with Goldman Sachs Affiliates with total brokerage commissions paid to Goldman Sachs Affiliates being split between commissions related to security transactions and futures contracts:

	Security Tran	sactions	Brokerage C	ommissions		
Portfolios	Currency	Aggregate Value*	Percent of total security transactions	Aggregate Value	Percent of total brokerage commissions	Futures Commissions**
Global Multi-Manager Alternatives Portfolio	USD	20,538,976	0.49%	12,486	3.36%	_
Multi-Manager Emerging Markets Equity Portfolio	USD	1,673,990	0.20%	947	0.38%	_
Multi-Manager Europe Equity Portfolio	EUR	45,459,842	3.03%	22,219	2.96%	_
Multi-Manager Global Equity Portfolio	USD	6,928,619	1.67%	3,192	2.49%	_
Multi-Manager US Equity Portfolio	USD	39,948,119	3.50%	7,856	4.37%	_
Multi-Manager US Small Cap Equity Portfolio	USD	2,907,757	0.61%	2,146	0.83%	_
Total (in USD)***		123,433,454		51,767		_

- Represents the cost of securities (excluding futures transactions and investments in the Goldman Sachs Liquid Reserves Funds) for transactions entered into with Goldman Sachs Affiliates.
- \*\* All portfolio futures transactions disclosed in this table were affected through Goldman Sachs.
- \*\*\* The amount used to convert the transaction costs is the average exchange rate disclosed in Note 10.

For all the remaining Portfolios there were no transactions with Goldman Sachs Affiliates, for the year ended 30 November 2020.

All such transactions with Goldman Sachs Affiliates were entered into in the ordinary course of business and on normal commercial terms.

#### Securities Lending

The securities lending agent is Goldman Sachs Agency Lending ("GSAL"), an affiliate of Goldman Sachs. Approved borrowers of GSAL may include Goldman Sachs International ("GSI"), an affiliate of the Investment Adviser, as well as other third parties. The Portfolios may lend portions of investments to third parties. In return, the Portfolios receive a fee that is negotiated for each transaction. The Portfolios receive G-10 (excluding Italy, Japan and the United States) government securities as collateral against the securities loaned. G-10 is made of eleven industrial countries (Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden, Switzerland, the United Kingdom and the United States) which consult and co-operate on economic, monetary and financial matters. This collateral is maintained over the life of the loan for an amount not less than 105% of the value of lent securities, with any subsequent margin posted in the form of the aforementioned government securities or cash. In general, loans may be effected through the intermediary of prime financial institutions that specialise in such activities and in the way specified by them.

Collateral received by the Portfolios in the form of G-10 (excluding Italy, Japan and the United States) government securities or cash, denominated in their respective currencies, is held by the appointed tri-party collateral manager in segregated accounts.

The following summarises the securities lent as at 30 November 2020 and the income earned by each Portfolio and the fees earned by Securities Lending Agent that is part of the Securities Lending program:

Portfolios	Currency	Market Value of Securities Lent as at 30-Nov-2020	% of Shareholders' Equity	% of Total Lendable Assets*	Market Value of Collateral Received as at 30-Nov-2020	Collateral as a Percentage of the Market Value of Securities Lent as at 30-Nov-2020	Gross Income Earned for the Year Ended 30-Nov-2020	Fees Charged for the Year Ended 30-Nov-2020	Net Income Earned for the Year Ended 30-Nov-2020
Multi-Manager Emerging Markets Equity Portfolio	USD	630,255	0.16%	0.17%	694,857	110%	15,840	1,584	14,256

- \* Lendable assets are defined as the aggregate market value of equities and bonds held in the portfolio.
- \*\* The amount used is calculated using the average exchange rates disclosed in Note 10.

#### Administrator, Domiciliary Agent and Listing Agent

The Management Company has appointed State Street Bank International GmbH, Luxembourg Branch as the central administration agent of the Fund. The Fund has appointed State Street Bank International GmbH, Luxembourg Branch as its domiciliary and corporate agent, paying agent and as its listing agent in Luxembourg.

For its services as Administrator, Domiciliary Agent and Listing Agent, State Street Bank International GmbH, Luxembourg Branch receives a fee payable monthly in arrears and calculated on the Monthly Average Net Assets of each Portfolio.

For its Financial Reporting Services, State Street Bank International GmbH, Luxembourg Branch receives a fixed fee per annum per Portfolio payable monthly in arrears.

#### Depositary

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch as Depositary. For its services as Depositary, State Street Bank International GmbH, Luxembourg Branch charges a fee which is a combination of a basis point charge on assets and transaction-based charge which is dependent on the country of transaction.

In addition, subsequent to the reporting period, the Global Multi-Manager Alternatives Portfolio has entered into certain offset arrangements with the custodian, which will result in a reduction of the Portfolio's gross expenses in subsequent periods.

#### Distributor

The Fund has appointed the Management Company as global distributor and the Management Company appoints sub-distributors and oversees them. GSAMFSL may receive a portion of the sales charge imposed on the sale of Portfolio shares.

For the year ended 30 November 2020, there were no retained sales charges for the Portfolios.

Please refer to Prospectus for further details about distribution fees.

Out of its fees, the Distributor is responsible for remunerating third party sub-distributors.

### Transfer Agent

The Management Company has appointed RBC Investor Services Bank S.A. (the "Transfer Agent") to perform registrar and transfer agency functions in respect of the Fund pursuant to the Registrar and Transfer Agent Agreement between the Fund, the Management Company and the Transfer Agent.

The day-to-day services provided to the Fund by the Transfer Agent include receiving and processing subscription and redemption orders, allotting and issuing shares and maintaining the shareholder register for the shares. The Transfer Agent is paid a fee quarterly in arrears out of the net assets of the Portfolio. The Transfer Agent's fee consists of both a fixed and variable fee.

### 6 Significant Agreements and Related Parties (Continued)

### **Transfer Agent (Continued)**

The fixed portion consists of an annual charge for maintenance and shareholder account charges. Variable costs are determined by the level of transactions in each Portfolio.

## Valuer

The Management Company has appointed Goldman Sachs & Co. LLC as its delegate to act as the Valuer and the valuation function was performed by Controllers during the year ended 30 November 2020. Please also refer to Note 4.

#### 8 Distributions

The Fund intends that substantially all the net investment income, if any, of each Portfolio will be declared as a dividend and paid at least annually to the Shareholders of the Distribution Share Classes of the Portfolios. Net capital and currency gains realised on each Portfolio's investments are expected to be retained by each Portfolio.

Dividends distributed by each Portfolio may be paid in cash or reinvested in additional shares of the Portfolio at the net asset value of the shares as of the date on which such dividends are declared. When Shareholders make use of this reinvestment facility, each dividend due to the Shareholder will be processed by the Transfer Agent as subscriptions in further shares.

Generally no distributions will be paid in respect of the Accumulation Share Classes.

#### 9 Financial Investments and Associated Risks

The Fund's investing activities expose it to various types of risks that are associated with the financial investments and markets in which it and its underlying Portfolios invest (the "Investment Risks"). These may be both derivative and non-derivative financial investments. The Fund's underlying Portfolios' investments are comprised of debt, equity, derivative investments and investments in other funds at the year end. The Board of Directors has appointed the Management Company to be responsible for, among other things, investment management and risk management. The Management Company has delegated certain investment management functions to the Investment Adviser.

The main types of financial risks which the Fund is exposed to are market risk, liquidity risk and credit risk. The Prospectus provides details of these and other types of risk some of which are additional to that information provided in these financial statements.

Asset allocation is determined by the Fund's Investment Adviser who manages the allocation of assets to achieve the investment objectives as detailed in the Prospectus. Achievement of the investment objectives involves taking risks. The Investment Adviser exercises judgment based on analysis, research and risk management techniques when making investment decisions. Divergence from the benchmark and/or the target asset allocations and the composition of the portfolio is monitored in accordance with the Fund's risk management policy.

The risk management policies employed in relation to the Fund are outlined below:

### (a) Market Risk

The potential for changes in the market value of the Fund's underlying Portfolios' investments is referred to as market risk. Commonly used categories of market risk include currency risk, interest rate risk and other price risk.

- (i) Currency risks may result from exposures to changes in spot prices, forward prices and volatilities of currency rates.
- (ii) Interest rate risks may result from exposures to changes in the level, slope and curvature of the various yield curves, the volatility of interest rates, mortgage prepayment speeds and credit spreads.
- (iii) Other price risks are the risk that the value of an investment will fluctuate as a result of changes in market prices other than those arising from currency risk or interest rate risk and may result from exposures to changes in the prices and volatilities of individual equities, equity baskets, equity indices, and commodities.

The Fund's market risk strategy is driven by the Fund's underlying Portfolios' investment risk and return objectives.

Market risk is managed through the application of risk budgeting principles. The Investment Adviser determines an appropriate risk target, commonly referred to as Tracking Error, employing a risk budgeting framework.

#### 9 Financial Investments and Associated Risks (Continued)

#### (a) Market Risk (Continued)

The AMD Divisional Risk Management group at Goldman Sachs ("Divisional Risk") is responsible for overall risk governance structure and establishing appropriate risk management best practices. The risk governance structure includes identifying, measuring, monitoring, escalating and remediating applicable risks. AMD Divisional Risk uses a number of risk metrics to monitor the risk profile of funds on a regular and ongoing basis. GSAMFSL's risk management function, in association with AMD Divisional Risk Management team, will seek to ensure that the risk profile of funds remain consistent with applicable risk limits and internal thresholds which are established consistent with the risk profile disclosed to investors. Adherence with these risk thresholds is monitored on a weekly basis with exceptions promptly notified to the AMD Chief Risk Officer and portfolio management teams. All governance exceptions are reported to the Risk Management Oversight Committee ("RMOC") and the AMD Risk Working Group. In addition, the GSAMFSL risk management function presents or provides written materials on the risks to the Board no less frequently than semi-annually.

#### (i) Currency Risk

The Fund may invest in financial investments and enter into transactions denominated in currencies other than its Portfolios' base currency. Consequently, the Fund may be exposed to risk that the exchange rate of its base currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than the base currency.

When an investor invests into a Share Class which is in a different currency to the base currency of the Portfolio in which it invests, the currency risk of the investor will be different to the currency risk of the Portfolio.

#### (ii) Interest Rate Risk

The Fund may invest in fixed income securities and interest rate swaps contracts. Any change to relevant interest rates for particular securities may result in the Investment Adviser being unable to secure similar returns upon the expiry of contracts or the sale of securities. In addition, changes to prevailing interest rates or changes in expectations of future rates may result in an increase or decrease in the value of the securities held. In general, if interest rates rise, the value of fixed income securities will decline. A decline in interest rates will in general, have the opposite effect. All fixed income securities and floating rate securities, together with their interest rate and maturity date are disclosed in the Schedule of Investments. The Fund may invest in instruments in desired currencies at fixed, floating and zero rates of interest.

#### (iii) Other Price Risk

Other price risk is the risk that the value of a financial investment will fluctuate as a result of changes in market prices, other than those arising from currency risk or interest rate risk whether caused by factors specific to an individual investment, its issuer or any factor affecting financial investments traded in the market.

The Fund's financial investments are carried at market value with market value changes recognised in the Statement of Operations, all changes in market conditions will directly affect Shareholders' equity.

The Fund's investments in mutual funds are based upon the net asset value as supplied by the funds, in accordance with the valuation policy of the applicable fund as outlined in its Prospectus. While it is expected that the assets of the mutual funds will generally be valued by an independent third party administrator or other service provider, there may be circumstances in which certain securities or other assets of a mutual fund may not have a readily ascertainable market price. In such circumstances, the manager of the relevant mutual fund may be required to value such securities or instruments.

During the year, an outbreak of a novel strain of coronavirus (COVID-19) emerged globally. Global financial markets have experienced and may continue to experience significant volatility resulting from the spread of COVID-19. The extent of the impact of COVID-19 on each Fund's performance will depend on future developments, including the duration and continued spread of the outbreak.

#### 9 Financial Investments and Associated Risks (Continued)

#### (b) Liquidity Risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Among other things liquidity could be impaired by an inability to access secured and/or unsecured sources of financing, an inability to sell assets or unforeseen outflows of cash or collateral or violations of counterparty or prime broker terms or covenants. This situation may arise due to circumstances outside of the Fund's control, such as a general market disruption or an operational problem affecting the Fund or third parties. Also, the ability to sell assets may be impaired if other market participants are seeking to sell similar assets at the same time.

The Fund's investments include mutual funds, which may impose greater restrictions on redemptions than those imposed by the Fund. This may include offering less frequent redemption dates than are offered by the Fund to its shareholders.

The Funds' financial investments include investments in derivative contracts traded over the counter, which are not traded in an organised public market and which may be illiquid and in investments which may represent a significant percentage of issue size. As a result, the Fund may not be able to liquidate quickly some of these investments at an amount close to its market value in order to meet requirements, or to respond to specific events such as deterioration in the credit-worthiness of any particular issuer. The forced liquidation of investment positions may cause financial losses.

The Fund provides for the subscription and redemption of shares and it is therefore exposed to the liquidity risk associated with shareholder redemptions in accordance with the terms in the prospectus. The Fund's underlying Portfolios are managed to include liquid investments which the Investment Adviser believes are sufficient to meet normal liquidity needs. Substantial redemptions of shares in the Fund could require the Fund to liquidate its investments more rapidly than otherwise desirable in order to raise cash for the redemptions, and changes in the liquidity of the Portfolio's underlying investments once acquired can adversely impact its position in this respect.

These factors could adversely affect the value of the shares redeemed and the valuation of the shares that remain outstanding and the liquidity of the Portfolios' remaining assets if more liquid assets have to be sold to meet redemptions.

Please refer to Appendix III for details of Shareholders with holdings greater than 10% of the Portfolios' net assets as at 30 November 2020.

Financing arrangements include reverse repurchase agreements, derivative transactions and lines of credit. Expiration or termination of available financing for leveraged positions, and the requirements to post collateral in respect of changes in the market value of leveraged exposures or changes in advance rates or other terms and conditions of the Fund's financing arrangements, can result in adverse effects to the Fund's access to liquidity and ability to maintain leveraged positions, and may cause the Fund to incur material losses.

However, there is no guarantee that any such arrangements for obtaining leverage will be available, or, if available, will be available on terms and conditions acceptable to the Fund. Unfavourable economic conditions also could increase funding costs, limit access to the capital markets or result in a decision by lenders not to extend credit to the Fund.

The use of leverage also increases risk as it magnifies the effect of any volatility in market values on the Fund's equity.

A decline in the market value of the Fund's assets may have particular adverse consequences in instances where they have borrowed money on the market value of those assets. A decrease in the market value of those assets may result in the lender (including derivative counterparties) requiring the Fund to post additional collateral or otherwise sell assets at a time when it may not be in the Fund's best interest to do so.

The redemption of Shares of a Portfolio may be temporarily suspended, or deferred, by the Board of Directors or the Management Company on behalf of the Fund upon certain circumstances, and where it is deemed in the best interests of Shareholders.

#### 9 Financial Investments and Associated Risks (Continued)

#### (b) Liquidity Risk (Continued)

As of 30 November 2020, the Fund participated in a USD 260,000,000 committed, unsecured revolving line of credit facility (the "facility") together with other sub-funds of Goldman Sachs Funds SICAV and Goldman Sachs Lux Investment Funds. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on a reference rate related to the drawn currency (e.g. LIBOR, EURIBOR). The facility also requires a fee to be paid by the Fund based on the amount of the commitment that has not been utilised. For the year ended 30 November 2020 the Fund did not have any borrowings under the facility.

#### (c) Credit Risk

Credit and counterparty risk is the risk that one party to a financial investment will cause a financial loss for the other party by failing to discharge an obligation.

Procedures have been adopted to reduce credit risk related to the Fund's dealings with counterparties. Before transacting with any counterparty, the Investment Adviser or its affiliates evaluate both credit-worthiness and reputation by conducting a credit analysis of the party, their business and reputation. The credit risk of approved counterparties is then monitored on an ongoing basis, including periodic reviews of financial statements and interim financial reports as needed.

In order to reduce exposure to credit losses, some over-the-counter derivative agreements entered into by the Fund permit netting of transactions arising under such agreements, excluding those with counterparties executing only spot foreign exchange contracts. These netting rights provide for the reduction of credit risk on favourable over-the-counter transactions with a single counterparty to the extent of the value of unfavourable over-the-counter transactions with the same counterparty upon the occurrence of an event of default or termination event as all over-the-counter transactions with the counterparty under such agreement are terminated and amounts owed from and amounts payable to the counterparty are settled on a net basis.

Debt securities are subject to the risk of an issuer's or a guarantor's inability to meet principal and interest payments on its obligations and are subject to price volatility due to factors such as interest rate sensitivity, market perception of the credit-worthiness of the issuer, and general market liquidity.

The Fund is subject to a number of risks relating to the insolvency, administration, liquidation or other formal protection from creditors ("Insolvency") of the Depositary or any sub-custodian. These risks include without limitation:

- 1. The loss of all cash held with the Depositary or sub-custodian which is not being treated as client money both at the level of the Depositary and any sub-custodians ("client money").
- 2. The loss of all cash which the Depositary or sub-custodian has failed to treat as client money in accordance with procedures (if any) agreed with the Fund.
- The loss of some or all of any securities held on trust which have not been properly segregated and so identified both at the level of the Depositary and any sub-custodians ("trust assets") or client money held by or with the Depositary or sub-custodian.
- 4. The loss of some or all assets due to the incorrect operation of accounts by the Depositary or sub-custodian or due to the process of identifying and transferring the relevant Trust Assets and/or client money including any deduction to meet the administrative costs of an insolvency.
- Losses caused by prolonged delays in receiving transfers of balances and regaining control over the relevant assets.

An insolvency could cause severe disruption to the Fund's investment activity. In some circumstances, this could cause the Directors to temporarily suspend the calculation of the Net Asset Value and dealings in shares.

#### 9 Financial Investments and Associated Risks (Continued)

#### (d) Additional Risks

#### (i) Concentration Risk

The Fund may invest in a limited number of investments and investment themes. A consequence of a limited number of investments is that performance may be more favourably or unfavourably affected by the performance of an individual investment.

#### (ii) Operational Risk

Operational risk is the potential for loss caused by a deficiency in information, communications, transaction processing and settlement, and accounting systems. The Fund's service providers, including sub-custodians, maintain controls and procedures for the purpose of helping to manage operational risk. Reviews of the service levels of service providers are performed on a regular basis by the Investment Adviser. No assurance is given that these measures will be 100% effective.

#### (iii) Legal, Tax and Regulatory Risks

Legal, tax and regulatory changes could occur which may adversely affect the Fund.

With respect to tax, the Fund may be subject to taxation on capital gains, interest and dividends in certain jurisdictions where the Fund invests.

The interpretation and applicability of the tax law and regulations by tax authorities at times may not be clear or consistent. Tax obligations where probable and estimable are recorded as liabilities. However, some tax obligations are subject to uncertainty and may result in additional tax liabilities, interest and penalties based on future actions, interpretations or judgments of these authorities covering current and past tax positions. Accounting standards may also change, creating or removing an obligation for the Fund to accrue for a potential tax liability.

Consequently, it is possible that certain potential tax obligations which currently are not probable may become so which may result in additional tax liabilities for the Fund in the future and these additional liabilities may be material. Because of the foregoing uncertainties, the Net Asset Value may not reflect the tax liabilities ultimately borne by the Fund, including at the time of any subscriptions, redemptions or exchanges of interests in the Fund, which could have an adverse impact on investors at that time.

#### (iv) Non-Developed Markets Risk

The Fund may invest a portion of its capital in securities of companies based in non-developed or emerging markets or issued by governments of such countries. Investing in the securities of such companies and countries involves certain considerations not usually associated with investing in securities of developed market companies or countries, including, without limitation, less liquidity, greater price and foreign currency volatility, and greater legal, tax and regulatory risks.

#### (v) Small Capitalisation Companies Risk

The Fund may invest a portion of its capital in securities of companies with smaller capitalisation. Smaller capitalisation companies are generally not as well known to the investing public and have less investor following than larger capitalisation companies. Investing in the securities of such companies may involve certain considerations, including, without limitation, less liquidity, greater price volatility, and risks associated with limited operating histories and/or the availability of information pertaining to the company and its operations.

#### (vi) Investment Sub-Adviser Selection Risk

The investment decisions in respect of each Multi-Manager Portfolio and Global Multi-Manager Alternatives Portfolio will be made by its External Managers. The Investment Adviser in a Multi-Manager Portfolio and Global Multi-Manager Alternatives Portfolio will not make decisions with respect to the purchase, management, disposition, or other realisation of the Multi-Manager and Global Multi-Manager Alternatives Portfolio's investments.

#### 9 Financial Investments and Associated Risks (Continued)

#### (d) Additional Risks (Continued)

(vi) Investment Sub-Adviser Selection Risk (Continued)

It is not intended that the External Managers will be selected from the Goldman Sachs Group or any of its affiliates. Consequently, the Investment Adviser has no control, directly or indirectly, over the business affairs or market conduct of the External Managers. In selecting the External Managers, the Investment Adviser has undertaken reasonable investigative and due diligence procedures but is nevertheless reliant on information supplied to it by each of the External Managers as well as information in relation to the External Managers obtained from independent sources and from the public domain.

Additional details of risks not disclosed in these Financial Statements can be found in the Prospectus.

#### 10 Exchange Rates

The following exchange rate (against USD) was used to calculate the Combined Total, in the Statement of Assets and Liabilities, for the year ended 30 November 2020:

Currency	30-Nov-2020
Euro (EUR)	0.833646

The following average exchange rate (against USD) was used to calculate the Combined Total, in the Statement of Operations and in the Statement of Changes in Shareholders' Equity (except for Shareholders' Equity at the start and end of the year) for the year ended 30 November 2020:

Currency	
Euro (EUR)	0.883814

The following exchange rates were used to convert amounts from local share class currencies to base Portfolios' currencies, for the year ended 30 November 2020:

Share Class Currency	Base Currency
Share class currency	United States Dollar (USD)
Euro (EUR)	0.833646
Swedish Krona (SEK)	8.483200
Swiss Franc (CHF)	0.903900
United Kingdom Pound (GBP)	0.747775

#### 11 Commission Recapture

All Portfolios may direct trades, subject to obtaining best price and execution, to various brokers who have agreed to rebate a portion of the commissions generated. Such rebates are made directly to the applicable Portfolio as cash payments and are included in net realised gain and loss on investments in the Statement of Operations.

Portfolios	Commissions paid on securities in the program (USD)	Commissions reimbursed to the portfolio (USD)	Percentage reimbursed in the program
Multi-Manager Global Equity Portfolio	12	_	0.00%
Multi-Manager US Equity Portfolio	45,991	17,469	37.98%
Multi-Manager US Small Cap Equity Portfolio	6,847	4,086	59.68%
Total	52,850	21,555	40.79%

#### 12 Statement of Changes in each Portfolio

A Statement of Changes in each Portfolio is available, free of charge, upon request from the registered office.

#### 13 Cash Collateral Information

The table below provides the cash collateral balances due from / due to the brokers in relation to the following investments held as at 30 November 2020:

Portfolios	Currency	Due from / Due to brokers	Investment type	Cash collateral balances
		Due from	Exchange Traded Derivatives	5,790,448
Clabal Multi Managar Altarnativas Dartfalia	USD	Due to	Exchange Traded Derivatives	_

		Due to	OTC Derivatives	14,138,636

### 14 Transaction Costs

Transaction costs have been defined as broker commission fees, commission on futures contracts, market fees and taxes relating to purchase or sale of equity and investments in other funds. Depositary based transaction costs are included in 'Depositary fees' in the Statement of Operations.

For the year ended 30 November 2020, the following Portfolios incurred separately identifiable transaction costs:

Portfolios	Currency	Transaction Costs*	% of average Shareholders' Equity
Global Multi-Manager Alternatives Portfolio	USD	320,843	0.10%
Multi-Manager Emerging Markets Equity Portfolio	USD	739,379	0.23%
Multi-Manager Europe Equity Portfolio	EUR	1,889,617	0.39%
Multi-Manager Global Equity Portfolio	USD	225,251	0.06%
Multi-Manager US Equity Portfolio	USD	188,940	0.04%
Multi-Manager US Small Cap Equity Portfolio	USD	304,214	0.10%

#### 14 Transaction Costs (Continued)

Portfolios	Currency	Transaction Costs*	% of average Shareholders' Equity
Balanced Allocation Portfolio	USD	5,611	0.00%
Tactical Tilt Overlay Portfolio	USD	40,320	0.00%
Total (in USD)**		3,962,584	

<sup>\*</sup> Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. Portfolios that invest solely in those investments are not disclosed in the table above.

Note: benchmark returns, with the exception of taxes at times, do not incorporate transaction costs.

#### 15 Commissions for Research and/or Execution

Certain Portfolios pay commission for execution only and/or execution and investment research. The commissions for execution are recognised in the transaction price. The Fund did not otherwise enter into any third party commission arrangements for the year ended 30 November 2020.

#### 16 Prospectus

As at 30 November 2020, the latest Prospectus of the Fund was issued in June 2020.

### 17 Currency Adjustment

In the Statement of Changes in Shareholders' Equity, the opening value of the Fund has been restated at the exchange rates ruling at 30 November 2019, and the combined figures have been calculated using the average exchange rates throughout the year. The resulting gain of USD 131,246,785 represents the movement in exchange rates between 1 December 2019 and 30 November 2020. This is a notional gain, which has no impact on the Net Asset Value of the individual Portfolios.

### 18 Cross Liabilities

In accordance with Luxembourg law, each Portfolio is "ring-fenced" and considered to constitute a single pool of assets and liabilities, so that the rights of Shareholders and creditors in relation to each Portfolio should be limited to the assets of that Portfolio.

### 19 Contingent Liabilities

There were no contingent liabilities as at 30 November 2020.

#### 20 Subsequent Events

Global Multi-Manager Alternatives Portfolio has entered into certain offset arrangements with the custodian, which will result in a reduction of the Portfolio's gross expenses in subsequent periods.

From 1 December 2020 to 16 March 2021, the following Portfolio had movements greater than 25% in Shareholders' Equity:

Portfolio	Currency	% Movement in AUM	% Movement in Gross Performance
Multi-Manager US Equity Portfolio	USD	35.83%	9.13%

There were no other subsequent events to note.

### 21 Indemnifications

The Fund may enter into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts.

<sup>\*\*</sup> The amount used is calculated using the average exchange rates disclosed in Note 10.

#### 22 Approval of Financial Statements

The Board of Directors approved the audited Annual Financial Statements on 16 March 2021.

#### 23 Supplemental Information

The Investment Adviser is subject to the Securities and Exchange Commission's amended Rule 206(4)-2 under the Investment Advisers Act of 1940 ("the Act"). The Investment Adviser has determined that they are required to provide the following information to all investors and has determined which Portfolios are to provide this information in accordance with the Act. The Investment Adviser has requested that the Board of Directors includes this information in the Board of Directors' financial statements.

The following is a summary of total return, expense and investment income results for the year ended 30 November 2020:

		Total	Expense before waivers/ reimbursements to average net	Expense after waivers/ reimbursements to average net	Net investment income/(loss) to average net
Tactical Tilt Overlay Portfolio	Currency	return <sup>1</sup>	assets <sup>2,3</sup>	assets <sup>2,3</sup>	assets <sup>2,3</sup>
"I" Accumulation Share Class	USD	2.63%	0.82%	0.82%	0.18%
"I" Accumulation Share Class (EUR Hedged Class) *	EUR	0.33%	0.82%	0.82%	0.03%
"IO" Accumulation Share Class	USD	3.40%	0.07%	0.07%	0.88%
"IO" Accumulation Share Class (EUR Hedged Class)	EUR	1.67%	0.07%	0.07%	0.88%
"IO" Accumulation Share Class (GBP Hedged Class)	GBP	2.08%	0.07%	0.07%	0.85%
"IP" Accumulation Share Class (EUR Hedged Class) *	EUR	12.24%	0.12%	0.12%	0.32%
"P" Accumulation Share Class	USD	2.59%	0.87%	0.87%	0.23%
"P" Accumulation Share Class (CHF Hedged Class)	CHF	0.65%	0.87%	0.87%	(0.14%)
"P" Accumulation Share Class (EUR Hedged Class)	EUR	0.86%	0.87%	0.87%	0.20%
"P" Accumulation Share Class (GBP Hedged Class)	GBP	1.27%	0.87%	0.87%	0.15%
"P" Share Class	USD	2.58%	0.87%	0.87%	0.18%
"P" Share Class (EUR Hedged Class)	EUR	0.86%	0.86%	0.86%	0.24%
"P" Share Class (GBP Hedged Class)	GBP	1.27%	0.87%	0.87%	0.17%
"R" Accumulation Share Class	USD	3.07%	0.39%	0.39%	0.64%
"R" Accumulation Share Class (CHF Hedged Class)	CHF	1.15%	0.38%	0.38%	0.60%
"R" Accumulation Share Class (EUR Hedged Class)	EUR	1.34%	0.39%	0.39%	0.62%
"R" Accumulation Share Class (GBP Hedged Class)	GBP	1.76%	0.39%	0.39%	0.67%
"R" Share Class	USD	3.07%	0.39%	0.39%	0.63%
"R" Share Class (EUR Hedged Class)	EUR	1.34%	0.39%	0.39%	0.55%
"R" Share Class (GBP Hedged Class)	GBP	1.75%	0.39%	0.39%	0.69%

<sup>\*</sup> Share Class launched during the year. Total Return has not been annualised.

### Financial Assets and Financial Liabilities at Value

The three levels of the fair value hierarchy under the Accounting Standards Codification ("ASC") 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Total returns are calculated by dividing the change in the per share value for the year by the net asset value per share at the beginning of the year. An individual shareholder's return may vary from these returns due the timing of capital transactions.

The expense and net investment income ratios are calculated for each group of shareholders taken as a whole. Under rules required for SEC 206(4)-2 this ratio does not include realised gains and losses and change in unrealised gains and losses in net investment income. The computation of such ratios based on the amount of income and expenses assessed to an individual shareholder's capital may vary from these ratios based on the timing of capital transactions.

<sup>&</sup>lt;sup>3</sup> Refer to Note 6 Significant Agreements – Investment Adviser and Investment Sub-Advisers for further details on expense waivers/ reimbursement amounts.

#### 23 Supplemental Information (Continued)

#### Financial Assets and Financial Liabilities at Value (Continued)

Level 2 — Quoted prices in markets that are not active or financial instruments for which significant inputs are observable (including but not limited to quoted prices for similar securities, interest rates, foreign exchange rates, volatility and credit risk spreads), either directly or indirectly;

Level 3 – Prices or valuations that require significant unobservable inputs (including the Valuer's assumptions in determining fair value measurement).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety shall be determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The following tables show financial assets and financial liabilities recognised at fair value, analysed between the three levels described above:

	Level 1	Level 2	Level 3	Total		
Tactical Tilt Overlay Portfolio	USD	USD	USD	USD		
Financial Assets at fair value

The Futures Commission Merchant was Credit Suisse Securities (USA) LLC.

The counterparties for forward currency contracts were Australia and New Zealand Banking Group Ltd., Bank of America N.A., BNP Paribas S.A., HSBC Bank Plc., Morgan Stanley & Co. International Plc., Natwest Markets Plc., State Street Bank & Trust and UBS AG.

The counterparty for swap contracts was Credit Suisse.

The maximum individual counterparty exposure as at 30 November 2020 is 0.60% of the NAV.

- (a) Interest rates represent either the stated coupon rate, annualised discounted yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate which is based upon interest rates indices.
- (b) Maturity dates represent either the stated date on the security, or the next interest reset date for floating rate securities or the prerefunded date for those type of securities.
- (c) Variable and floating coupon rates are those quoted as of 30 November 2020.
- (d) 144A: This security is issued to qualified institutional investors, pursuant to private placements, and is transferable as stated in rule 144A of the US Securities Act of 1933.
- (e) A related party to Goldman Sachs Funds II.
- (f) The yield for this fund as at 30 November 2020 was 0.171%.

The Futures Commission Merchant was Bank of America N.A.

The counterparties for forward currency contracts were Bank of America N.A., Deutsche Bank AG, JP Morgan Chase Bank N.A., Morgan Stanley & Co. International Plc. and State Street Bank & Trust.

The counterparty for swap contracts was Merrill Lynch International.

The maximum individual counterparty exposure as at 30 November 2020 is 0.76% of the NAV.

- (a) Interest rates represent either the stated coupon rate, annualised discounted yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate which is based upon interest rates indices.
- (b) Maturity dates represent either the stated date on the security, or the next interest reset date for floating rate securities or the prerefunded date for those type of securities.
- (e) 144A: This security is issued to qualified institutional investors, pursuant to private placements, and is transferable as stated in rule 144A of the US Securities Act of 1933.
- (d) Variable and floating coupon rates are those quoted as of 30 November 2020.
- (e) A related party to Goldman Sachs Funds II.
- (f) The yield for this fund as at 30 November 2020 was 0.120%.

"I" (Dis) (Semi-Annual) Share Class <sup>(d)</sup>	EUR	27 June 2019	0.35%	0.82%	0.46%

<sup>\*</sup> Refer to Note 6.

The above expense ratios are an average throughout the year to 30 November 2020. The above Expense Caps represent the expense cap levels at year end 30 November 2020.

<sup>(</sup>a) The Total Expense Ratio ("TER") expresses the sum of all costs, commissions and performance fees (excluding dealing commissions and market costs) charged on an ongoing basis to the Portfolios' assets (operating net expenses) taken retrospectively as a percentage of the Portfolios' assets, and is calculated using the following formula:
Total operating net expenses in CU\* /Average portfolios' assets in CU\* x 100 = TER %.
The TER is calculated for the Period from December 01, 2019 to 30 November 2020. TER's are annualised for Portfolios operating less than one year.
\*CU = Currency units in the Portfolio's base currency.

<sup>(</sup>b) The expense cap does not include performance fees.

<sup>(</sup>c) The expense cap does not include the GSAMI fee portion paid to external Sub-Investment Advisors.

<sup>(</sup>d) Refer to Appendix II.

<sup>(</sup>e) An Expense Cap was not applicable for this Share Class as at 30 November 2020.

# Goldman Sachs Funds II Appendix II—Portfolio and Share Class Launches, Closures and Mergers (Unaudited) As at 30 November 2020

During the year, the following share classes were launched:

Portfolios	Share Classes	Currency of the Share Classes	Launch Date
Multi-Manager Global Equity Portfolio	Other Currency Accumulation Share Class	EUR	10 June 2020
Tactical Tilt Overlay Portfolio	"I" Accumulation Share Class (EUR Hedged Class)	EUR	23 December 2019

There were no shareholder concentrations greater than 10% for other Portfolios as at 30 November 2020.

### Goldman Sachs Funds II Appendix IV—Calculation Method Used for Global Exposure (Unaudited) For the Year Ended 30 November 2020

The Undertakings for Collective Investment in Transferable Securities ("UCITS") IV directive, as amended, requires disclosure of how global exposure on financial derivatives investments are managed. There are three management approaches used:

- The Commitment Approach. This approach is generally for those Portfolios that hold less complex positions on financial derivatives investments and for the purposes of hedging or efficient portfolio management.
- Relative Value at Risk ("relative VaR") approach. This approach is generally for those Portfolios where it is possible to identify an appropriate reference benchmark. This method compares the global exposure of the Portfolio relative to that of a reference benchmark.
- 3. Absolute Value at Risk ("absolute VaR") approach. This approach is generally for those Portfolios for which it is not appropriate or possible to determine a reference benchmark (for example, an absolute return portfolio).

The following sections indicate which approach is used for the Portfolios.

For Portfolios managed under a VaR approach, additional information is provided on the VaR model, being the VaR reference Portfolio / Benchmark, the regulatory VaR limit usage and the level of leverage reached.

### I. Commitment Approach

The following Portfolios use the commitment approach for calculating global exposure:

Multi-Manager Emerging Markets Equity Portfolio	Multi-Manager Global Equity Portfolio
Multi-Manager Europe Equity Portfolio	Multi-Manager US Equity Portfolio
Multi-Manager US Small Cap Equity Portfolio	

### Goldman Sachs Funds II Appendix IV—Calculation Method Used for Global Exposure (Unaudited) For the Year Ended 30 November 2020

### II. VaR Approach

The following Portfolios use a VaR approach for calculating global exposure:

		Regulatory	VaR limit utilis	sation <sup>1, 2, 3</sup>	Reference Portfolio /		Confidence	Holding	Observation		
Portfolios	VaR approach	Maximum . Limit	Lowest	Highest	Average	Benchmark	Model	Interval	period	period	Leverage <sup>4</sup>

G Emerging Markets Debt Broad Portfolio	Absolute VaR	20%	7%	73%		3 Month EUR ICE LIBOR		99%	20 days	1 year	161%

<sup>&</sup>lt;sup>1</sup> The utilisation percentage represents the lowest, highest and average proportion of the maximum limit used in the reporting period. For example a Portfolio with an average utilisation of 25% and a maximum limit of 200% (relative VaR), represents an average VaR ratio (Portfolio VaR divided by benchmark VaR) of 50%. A Portfolio with an average utilisation of 25% and a maximum limit of 20% (Absolute VaR), represents an average Portfolio VaR of 5%.

<sup>&</sup>lt;sup>2</sup> Effective 1st July 2020, the relative VaR methodology utilised for UCITS monitoring of benchmarked funds was changed to incorporate a one year, equally weighted lookback period to align with the methodology most commonly utilised by peers. The VaR methodology had previously incorporated a three year lookback period with three month decay. The metrics reported here will be a blend of both methodologies.

<sup>&</sup>lt;sup>3</sup> The sub-fund's VaR increased significantly during the year due to a general increase of financial market volatility caused by the COVID 19 pandemic. To ensure that the sub-fund's risk profile remains in line with the investment policy, any breach in regulatory VaR is analysed and risk actions assessed in the best interests of investors. All VaR breaches experienced during the year were assessed to be passive in nature.

<sup>&</sup>lt;sup>4</sup> The sum of notionals approach for financial derivative instruments is used to determine the maximum expected Portfolio leverage. This calculation incorporates the Portfolios financial derivative instruments, the reinvestment of collateral received (in cash) in relation to operations of efficient portfolio management and any use of collateral in the context of any other operation of efficient portfolio management, e.g. securities lending.

### Goldman Sachs Funds II Appendix V—Management Company Annual Report Disclosures (Unaudited) For the Year Ended 30 November 2020

The UCITS management company (the "Company") is required to make available an Annual Report for the financial year for each of its UCITS, containing certain disclosures as set out in Article 69 of the European Commission Directive 2009/65/EU, as amended by Article 1 (13)(b) of the European Commission Directive 2014/91/EU (the "Directive"). The disclosures set out below fulfill the requirements of the Directive.

### I. Remuneration

The Company has 25<sup>1</sup> staff based in Dublin and London who are assigned to one or more of the following broad functions and teams: Risk Management, Compliance, Investor Services, Vendor Oversight and Controllers. The Company has outsourced the Portfolio Management function to GSAMI. The Company has identified staff members whose professional activities have a material impact on the Company's risk profile ("UCITS Identified Staff"), including senior management, risk takers and control function heads.

The following disclosures are made in accordance with the Directive in respect of the Company, which is part of The Goldman Sachs Group, Inc. ("GS Group"). GS Group's global remuneration philosophy, structure and process for setting remuneration generally applies to employees of the Company in the same manner as to other employees globally. References to the "firm" and "we" throughout this disclosure include GS Group and the Company and any subsidiaries and affiliates.

### a. Remuneration Program Philosophy

The remuneration philosophy and the objectives of the remuneration program for the Company are reflected in the Compensation Policy Statement as adopted by the Board of Directors of the Company, which includes the following:

- 1. We pay for performance this is an absolute requirement under our compensation program and inherent in our culture.
- 2. We structure compensation, especially at senior levels, to align with GS Group's shareholders' long-term interests and the interests of the funds that the firm manages.
- 3. We use compensation as an important tool to attract, retain and motivate talent.
- We align total compensation with corporate performance over the period.

The Company's remuneration program is intended to be flexible enough to allow responses to changes in market conditions, but grounded in a framework that maintains effective remuneration practices.

### b. Remuneration Governance

The Board of Directors of the Company is responsible for supervising the planning, implementation and revision of the compensation policy of the Company, subject to the oversight of the Compensation Committee of the Board of Directors of GS Group (the "GS Group Compensation Committee"), the ultimate parent of the Company.

The members of the GS Group Compensation Committee at the end of 2019 were M. Michele Burns (Chair), Drew G. Faust, Ellen J. Kullman, Lakshmi N. Mittal, and Adebayo O. Ogunlesi (ex-officio). None of the members of the GS Group Compensation Committee was an employee of the firm. All members of the GS Group Compensation Committee were "independent" within the meaning of the New York Stock Exchange Rules and the firm's Director Independence Policy.

The GS Group Compensation Committee has for several years recognised the importance of using an independent remuneration consultant that is appropriately qualified and that provides services solely to the GS Group Compensation Committee and not to the firm. The Compensation Committee continued to retain an independent remuneration consultant in 2019.

GS Group's global process for setting variable remuneration (including the requirement to consider risk and compliance issues) applies to employees of the Company in the same way as to employees of other entities and in other regions and is subject to oversight by the senior management of the firm in the region.

### c. Link Between Pay and Performance

Annual remuneration for employees is generally comprised of fixed and variable remuneration. The Company's remuneration practices provide for variable remuneration determinations to be made on a discretionary basis. Variable remuneration is based on multiple factors and is not set as a fixed percentage of revenue or by reference to any other formula. Firmwide performance is a key factor in determining variable remuneration.

### Goldman Sachs Funds II Appendix V—Management Company Annual Report Disclosures (Unaudited) For the Year Ended 30 November 2020

### I. Remuneration (Continued)

#### d. Performance Measurement

Year-end variable remuneration is determined through a discretionary process that relies on certain qualitative and quantitative metrics (amongst other factors) against which we assess performance at year-end. We do not set specific goals, targets or other objectives for purposes of determining year-end variable remuneration nor do we set an initial remuneration pool that is adjusted for any such goals, targets or other objectives. Such metrics are not formulaic nor given any specific weight. In addition, employees are evaluated annually as part of the "360 degree" feedback process.

### e. Risk Adjustment

Prudent risk management is a hallmark of both the firm and the Company's culture and sensitivity to risk and risk management are key elements in assessing employee performance, including as part of the "360 degree" feedback process noted above.

We take risk into account in setting the amount and form of variable remuneration for employees. We provide guidelines to assist compensation managers when applying discretion during the remuneration process to promote consistent consideration of the different metrics / factors considered during the remuneration process. Further, to ensure the independence of control function employees, remuneration for those employees is not determined by individuals in revenue-producing positions but rather by the management of the relevant control function.

#### f. Structure of Remuneration

- 1. Fixed Remuneration
- 2. Variable Remuneration: For employees with total and variable remuneration above a specific threshold, variable remuneration is generally paid in a combination of cash and equity-based remuneration. In general, the portion paid in the form of an equity-based award increases as variable remuneration increases and, for UCITS Identified Staff, is set to ensure compliance with the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

### g. Remuneration

Total fixed remuneration for the financial year ending 31 December 2019<sup>2</sup> paid to staff<sup>3</sup> of the Company and to staff of appointed portfolio management delegate of the Company, in respect of the management of the UCITS, was US\$1,207,882, which includes:

- a) Fixed remuneration paid to senior management: US\$501,000
- b) Fixed remuneration paid to other staff members whose actions have a material impact on the risk profile of the UCITS: US\$526,741

The remuneration figures above:

- 1. represent the proportion of the fixed remuneration of staff related to the time spent in relation to UCITS work;
- 2. have not been broken down in relation to each individual UCITS in respect of the Company because staff of the Company provide their services to all UCITS collectively rather than on a UCITS by UCITS basis and therefore such breakdown is not readily available, whereas for delegated portfolio management services provided by GSAMI, the services provided by portfolio managers have been considered on a UCITS by UCITS basis and an estimated split for each UCITS has been incorporated into the calculations above; and
- 3. exclude variable remuneration on the basis that the 2019 performance period for the Company does not represent a complete fiscal year.

<sup>&</sup>lt;sup>1</sup> As of 30 November 2020 in respect of the Company only (excludes staff from the appointed portfolio management delegate).

<sup>&</sup>lt;sup>2</sup> The Goldman Sachs Group, Inc. financial year for remuneration purposes does not align with the UCITS financial year. As such, 2019 remuneration figures are disclosed.

<sup>&</sup>lt;sup>3</sup> Excludes 7 staff of the Company that joined during the course of 2020 and therefore did not receive remuneration for the financial year ending 31 December 2019 as staff of the Company.

The Management Company is required to make available a Annual Report for the financial year for each of its Funds, containing certain disclosures as set out in Article 13 of the European Commission Regulation 2015/2365 on transparency of securities financing transactions and of reuse (the "Regulation"). The disclosures set out below are included to meet the requirements of the Regulation.

### I. Global Data

Please refer to Note 6 Securities lending for details on the amount of securities lent expressed as an absolute amount, as a proportion of total lendable assets and as a proportion of the Shareholders' Equity.

Please refer to the different Schedule of Investments for details on the amount of Total Return Swap ("TRS") an absolute amount and as a proportion of the Shareholders' Equity.

### II. Concentration Data

The table below shows the 10 largest issuers of total non-cash collateral received by Portfolio that is outstanding as at 30 November 2020. Please refer to Note 13 for cash collateral information.

Portfolio	Portfolio currency	Non-cash collateral Issuer	Market value of collateral received	% of Shareholders' Equity
Global Multi-Manager Alternatives Portfolio	USD	Government of the United States	5,564,790	1.87%
Multi-Manager Emerging Markets Equity Portfolio	USD	Federal Republic of Germany	694,857	0.18%
		Federal Republic of Germany	8,684,878	2.01%
Multi-Manager Europe Equity Portfolio	EUR	Government of Netherlands	95,903	0.02%
		Government of Sweden	541	0.00%
Multi-Manager Global Equity Portfolio	USD	Federal Republic of Germany	2,142,553	0.46%

The table below shows the top 10 counterparties by Portfolio, across each type of Securities Financing transaction ("SFT") and TRS with respect to outstanding transactions as at 30 November 2020:

Securities Lending							
Portfolio	Portfolio currency	Counterparty	Market value of securities lent out	% of Shareholders' Equity			
Multi-Manager Emerging Markets Equity	USD	Credit Suisse Securities Ltd.	462,426	0.12%

Balanced Allocation Portfolio	USD	United Kingdom	_	9,979	9,979
Tactical Tilt Overlay Portfolio	USD	United Kingdom	_	18,645,492	18,645,492

The below table summarises the currency of the collateral received and pledged by Portfolio across each type of SFT and TRS as at 30 November 2020 :

			Non Cash collateral		Cash collateral	
			Securities Lending	OTC Derivatives <sup>1</sup>	OTC derivatives <sup>1</sup>	
Portfolio	Portfolio currency	Currency of the collateral	Market Value of the collateral received	Market Value of the collateral pledged	Market Value of the collateral received / (pledged)	Total
Global Multi-Manager Alternatives Portfolio	USD	USD	_	(5,564,790)	(11,388,555)	(16,953,345)
Multi-Manager Emerging Markets Equity Portfolio	USD	EUR	694,857	_	_	694,857
M III M	FUD	EUR	8,780,781	_	_	8,780,781
Multi-Manager Europe Equity Portfolio	EUR	SEK	541	_	_	541
Multi-Manager Global Equity Portfolio	USD	EUR	2,142,553	_	_	2,142,553
Balanced Allocation Portfolio	USD	USD	_	_	290,019	290,019
Tactical Tilt Overlay Portfolio	USD	USD	_	_	(19,098,693)	(19,098,693)

<sup>1</sup> Total return swaps are typically traded under ISDA master agreements ("ISDAs") which govern various types of swap and FX transactions executed between the Portfolio and each swap counterparty. Under the ISDAs, collateral is calculated daily on an aggregate, net basis across all transactions and therefore, a portion of such collateral is related to derivative transactions which are not in scope for SFTR.

Please refer to Note 6 Securities lending for details on the quality of the non-cash collateral received.

### III. Transaction Data (Continued)

For details on settlement and clearing on SFT and TRS please refer to Note 3(d)(ii.5)(c) Swaps contracts and Note 6 Securities lending.

If cash collateral received for SFT and TRS is reused for Portfolio investment purposes the Portfolio's return can be used as a proxy.

As detailed in Note 14 transaction costs for TRS are not separately identifiable.

### IV. Safekeeping of Collateral

The below table summarises the amount of collateral received by Portfolio, as at 30 November 2020:

Portfolio	Portfolio currency	Custodian	Collateral Received Balance

	BNP Paribas S.A.	100%	_	100%		
	JP Morgan Chase Bank N.A.	100%	_	100%		

### Goldman Sachs Funds II Additional Information (Unaudited)

### **Offering Documents**

This material is provided at your request for informational purposes only and does not constitute a solicitation in any jurisdiction in which such a solicitation is unlawful or to any person to whom it is unlawful. It only contains selected information with regards to the Fund and does not constitute an offer to buy shares in the Fund. Prior to an investment, prospective investors should carefully read the latest Key Investor Information Document (KIID) as well as the offering documentation, including but not limited to the Fund's prospectus which contains inter alia a comprehensive disclosure of applicable risks. The relevant articles of association, prospectus, supplement, KIID and latest annual/semi-annual report are available free of charge from the Fund's paying and information agent and/or from your financial adviser.

### **Distribution of Shares**

Shares of the Fund may not be registered for public distribution in a number of jurisdictions (including but not limited to any Latin American, African or Asian countries). Therefore, the shares of the Fund must not be marketed or offered in or to residents of any such jurisdictions unless such marketing or offering is made in compliance with applicable exemptions for the private placement of collective investment schemes and other applicable jurisdictional rules and regulations.

### **Investment Advice and Potential Loss**

Financial advisors generally suggest a diversified portfolio of investments. The Fund described herein does not represent a diversified investment by itself. This material must not be construed as investment or tax advice. Prospective investors should consult their financial and tax advisor before investing in order to determine whether an investment would be suitable for them. An investor should only invest if he/she has the necessary financial resources to bear a complete loss of this investment.

Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur.

### **Index Benchmarks**

References to indices, benchmarks or other measures of relative market performance over a specified period of time are provided for your information only and do not imply that the portfolio will achieve similar results. The index composition may not reflect the manner in which a portfolio is constructed. While an adviser seeks to design a portfolio which reflects appropriate risk and return features, portfolio characteristics may deviate from those of the benchmark.

### **Confidentiality**

No part of this material may, without Goldman Sachs' prior written consent, be (i) copied, photocopied or duplicated in any form, by any means, or (ii) distributed to any person that is not an employee, officer, director, or authorized agent of the recipient.
