### Why is this Sub-Fund in this category?

At this time, the level of the risk and reward profile is equal to 6 due to present profile of its investments.

### The Risk and Reward Profile does not take into consideration the following risks, which can affect the Fund:

**Credit risk:** This is the risk that the credit rating of an issuer of bonds to which a fund is exposed may be downgraded, thus causing the value of the investments to fall. This risk is linked to the issuer's ability to settle its debts. If the rating of an issue or issuer is downgraded this may cause the value of the related debt securities in which the fund has invested to fall.

**Operational risk:** This risk may occur due to technical issues for example natural disasters, misunderstandings and fraud.

**General Market Risk:** the value of the fund's shares will fluctuate based on the performance of the fund's investments and other factors affecting the securities markets generally.

**Equity Market Risk:** common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change.

**Interest Rate Risk:** the risk that an investment's value will change due to a change of interest rates.

Please refer the prospectus for further details on the relevant risks.
