General information

The funds described in this report are sub-funds of a SICAV (Société d'Investissement à Capital Variable) incorporated under Luxembourg law.

Performance

The investment return, or performance, of a mutual fund investment is measured by the change in value of the fund's shares. The net asset values per share (= redemption prices) with the addition of intervening distributions, which are, for example, reinvested free of charge within the scope of investment accounts at DWS Investment S.A., are used

as the basis for calculating the value. Past performance is not a guide to future results. The corresponding benchmark – if available – is also presented in the report. All financial data in this publication is **as of December 31, 2020**, (unless otherwise stated).

Sales prospectuses

Fund shares are purchased on the basis of the current sales prospectus and management regulations as well as the "key investor information document", in combination with the latest audited annual report and any semiannual report that is more recent than the latest annual report.

Issue and redemption prices

The current issue and redemption prices and all other information for shareholders may be requested at any time at the registered office of the Management Company and from the paying agents. In addition, the issue and redemption prices are published in every country of distribution through appropriate media (such as the Internet, electronic information systems, newspapers, etc.).

Liquidations of sub-funds

The sub-fund **DWS Fixed Maturity High Yield Bonds 2020 III (in liquidation)** was liquidated as it had reached its scheduled maturity date of November 30, 2020 as provided for in the sales prospectus. The issue of new units of the sub-fund was discontinued with effect from August 15, 2014. Investors could redeem units of the sub-fund until November 9, 2020.

The sub-fund **DWS Fixed Maturity High Yield Bonds 2020 IV (in liquidation)** was liquidated on December 16, 2020 as it had reached its scheduled maturity date provided for in the sales prospectus. The issue of new units of the sub-fund was discontinued with effect from February 23, 2015. Investors could redeem units of the sub-fund until November 25, 2020.

The sub-fund **DWS Fixed Maturity High Yield Bonds 2020 V (in liquidation)** was liquidated as it had reached its scheduled maturity date on December 16, 2020 as provided for in the sales prospectus. The issue of new units of the sub-fund was discontinued with effect from April 27, 2020. Investors could redeem units of the sub-fund until November 25, 2020.

The sub-fund **DWS Fixed Maturity Multi Asset 2020 (in liquidation)** was liquidated on August 28, 2020 as it had reached its scheduled maturity date as provided for in the sales prospectus. The issue of new units in the sub-fund was discontinued with effect from January 29, 2015. Investors could redeem units of the sub-fund until August 7, 2020.

Significant events after the reporting date

The sub-fund **DWS Fixed Maturity FlexInvest Dividende 2021 (in liquidation)** was liquidated as it had reached its scheduled maturity date on February 26, 2021 as provided for in the prospectus. The issue of new units of the sub-fund was discontinued with effect from January 26, 2016. Investors could redeem units of the sub-fund until February 5, 2021.

Coronavirus crisis

The coronavirus has spread since January 2020 and has subsequently led to a serious economic crisis. The rapid proliferation of the virus was reflected in, among other things, significant price market distortions and substantially increased volatility at the same time. Restrictions on freedom of movement, repeated lockdown measures, production stoppages, as well as disrupted supply chains, are exerting major pressure on downstream economic processes, which caused global economic prospects to deteriorate considerably. Even though gradual recovery was to be observed again in the markets in the interim – due, among other things, to assistance programs in the context of monetary and fiscal policy as well as the introduction of vaccination campaigns – the actual or possible mid- to long-term effects of the crisis on the economy, individual markets and sectors, as well as the social implications, cannot be reliably evaluated or adequately forecast at the time of preparing this report in light of the pace of the global spread of the virus and the associated high degree of uncertainty. Consequently, there may still be a material impact on the respective sub-fund's assets. A high level of uncertainty exists in relation to the financial implications of the pandemic, as these are dependent on external factors such as the spread of the virus and the measures taken by individual governments and central banks, the successful stemming of the development of infection rates and the speedy and sustainable restart of the economy.

The Management Company is therefore continuing its efforts, within the framework of its risk management strategy, to assess these uncertainties and their possible impact on the activities, liquidity and performance of the respective sub-fund. The Board of Directors of the SICAV is ensuring that the Management Company is taking all measures deemed appropriate to protect investor interests to the greatest possible extent. In coordination with the service providers, the Board of Directors observed the consequences of the coronavirus crisis and adequately included its impact on the respective sub-fund and the markets in which the respective sub-fund invests into its decision-making processes. As of the date of this report, no significant redemption requests had been made in respect of the respective sub-fund; the effects on the respective sub-fund's share certificate transactions are continuously monitored by the Management Company; the performance capability of the most important service providers did not experience any significant impairment. In this context, the Board of Directors of the SICAV satisfied itself in line with numerous national guidelines and following discussions with the most important service providers (especially the Depositary, the portfolio management and the fund administration) that the measures taken and the business continuity plans put in place (including extensive hygiene measures on the premises, restrictions on business travel and events, precautions to ensure the reliable and smooth running of business processes in the event of a suspected case of coronavirus infection, expansion of the technical options for mobile working) will curb the currently foreseeable or ongoing operational risks and will ensure that the respective sub-fund's activities will not be disrupted.

At the time of preparing this report, the Board of Directors of the SICAV is of the opinion that there are no signs indicating any doubt on the ability of the respective sub-fund to continue as a going concern, nor were there any liquidity problems for the respective sub-fund.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
3 These securities are completely or partly lent as securities loans. The equivalent value of the lent securities is EUR 14 163 300.00.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
- 3 These securities are completely or partly lent as securities loans. The equivalent value of the lent securities is EUR 10 078 067.00.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
5 The prepaid placement fee is amortized over a period of five years (as specified in the special section of the fund's management regulations).

DWS Fixed Maturity FlexInvest Dividend 2021

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
5 The prepaid placement fee is amortized over a period of five years (as specified in the special section of the fund's management regulations).

DWS Fixed Maturity FlexInvest Dividend 2022

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
5 The prepaid placement fee is amortized over a period of five years (as specified in the special section of the fund's management regulations).

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

British pound	GBP	0.903550	=	EUR	1
U.S. dollar	USD	1.226850	=	EUR	1

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
3 These securities are completely or partly lent as securities loans. The equivalent value of the lent securities is EUR 3 154 452.00.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
 3 These securities are completely or partly lent as securities loans. The equivalent value of the lent securities is 8 718 288.56 euros.

Maximum limit for the market risk exposure (according to CSSF circular 11/512)

14.14% of portfolio value

Market risk exposure (value-at-risk) (according to CSSF circular 11/512)

Lowest market risk exposure	%	0.000
Highest market risk exposure	%	0.415
Average market risk exposure	%	0.232

The values-at-risk were calculated for the period from July 1, 2020, through November 30, 2020, using the VaR method of historical simulation with a 99% confidence level, a 10-day holding period and an effective historical observation period of one year. Market risk is the risk to the fund's assets arising from an unfavorable change in market prices. The Company determines the potential market risk by means of the **absolute value-at-risk approach** as defined in CSSF circular 11/512.

In the reporting period, the average leverage effect from the use of derivatives was 0.5, whereby the total of the nominal amounts of the derivatives in relation to the fund's assets was used for the calculation (sum-of-notional approach).

The gross exposure generated via derivatives pursuant to point 40 a) of the "Guidelines on ETFs and other UCITS issues" of the European Securities and Markets Authority (ESMA) totaled EUR 0.00 as of the reporting date.

Notes on valuation

Against the backdrop of the scheduled end of term of the sub-fund being reached on November 30, 2020, as set out in the sales prospectus, the financial statements were prepared on the basis of liquidation values with the premise of the Company operating as a going concern having been relinquished.

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The net asset values per share are determined under the responsibility of the Board of Directors of the SICAV and the valuation of the fund's assets is performed. The basic provision of price data and price validation are performed in accordance with the method introduced by the Management Company on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the fund prospectus.

Footnotes

¹ Does not include positions with a negative balance, if such exist.

DWS Fixed Maturity High Yield Bonds 2020 III (in liquidation)

Statement of income and expenses (incl. income adjustment)

for the period from July 1, 2020, through November 30, 2020

I. Income

1. Interest from securities (before withholding tax)	EUR	174 988.45
2. Interest from investments of liquid assets (before withholding tax)	EUR	495.07

Total income **EUR 175 483.52**

II. Expenses

1. Interest on borrowings and negative interest on deposits	EUR	-13 356.41
thereof: Commitment fees	EUR	-55.39
2. Management fee	EUR	-25 285.67
thereof: All-in fee	EUR	-25 285.67
3. Other expenses	EUR	-1 942.17
thereof: Taxe d'abonnement	EUR	-1 942.17

Total expenses **EUR -40 584.25**

III. Net investment income **EUR 134 899.27**

IV. Sale transactions

1. Realized gains	EUR	213 915.54
2. Realized losses	EUR	-1 744 681.53

Capital gains/losses **EUR -1 530 765.99**

V. Realized net gain/loss for the shortened fiscal year **EUR -1 395 866.72**

1. Net change in unrealized appreciation	EUR	-202 704.14
2. Net change in unrealized depreciation	EUR	1 706 432.60

**VI. Unrealized net gain/loss for the
shortened fiscal year** **EUR 1 503 728.46**

VII. Net gain/loss for the shortened fiscal year **EUR 107 861.74**

Note: The net change in unrealized appreciation (depreciation) is calculated by subtracting the total of all unrealized appreciation (depreciation) at the end of the fiscal year from the total of all appreciation (depreciation) at the beginning of the fiscal year. Total unrealized appreciation (depreciation) includes positive (negative) differences resulting from the comparison of the values recognized for the individual assets as of the reporting date with their respective acquisition costs.

Unrealized appreciation/depreciation is shown without income adjustment.

BVI total expense ratio (TER)

The total expense ratio was 0.39% p.a. The TER expresses total expenses and fees (excluding transaction costs) as a percentage of the fund's average net assets for a given fiscal year.

Transaction costs

The transaction costs paid in the reporting period amounted to EUR 27.58.

The transaction costs include all costs that were reported or settled separately for the account of the fund in the reporting period and are directly connected to the purchase or sale of assets. Any financial transaction taxes which may have been paid are included in the calculation.

Statement of changes in net assets for the fund

I. Value of the fund at the beginning of the shortened fiscal year	EUR	19 838 376.96
1. Distribution for the previous year	EUR	-90 758.51
2. Net inflows	EUR	-3 145 217.94
a) Inflows from subscriptions	EUR	0.00
b) Outflows from redemptions	EUR	-3 145 217.94
3. Income adjustment	EUR	-131 027.71
4. Net gain/loss for the shortened fiscal year	EUR	107 861.74
thereof: Net change in unrealized appreciation	EUR	-202 704.14
Net change in unrealized depreciation	EUR	1 706 432.60

II. Value of the fund at the end of the shortened fiscal year	EUR	16 579 234.54
--	------------	----------------------

Summary of gains/losses

Realized gains (incl. income adjustment)	EUR	213 915.54
from: (Forward) currency transactions	EUR	19.67
Swap transactions	EUR	213 895.87

Realized losses (incl. income adjustment)	EUR	-1 744 681.53
from: Securities transactions	EUR	-1 744 645.26
(Forward) currency transactions	EUR	-36.27

Net change in unrealized appreciation/depreciation	EUR	1 503 728.46
from: Securities transactions	EUR	1 706 122.91
Swap transactions	EUR	-202 394.45

Swap transactions may include results from credit derivatives.

Details on the distribution policy*

The income for the shortened fiscal year is reinvested on account of the maturity of the fund.

* Additional information is provided in the sales prospectus.

Market risk exposure (value-at-risk) (according to CSSF circular 11/512)

Lowest market risk exposure	%	0.000
Highest market risk exposure	%	2.567
Average market risk exposure	%	1.796

The values-at-risk were calculated for the period from July 1, 2020, through December 16, 2020, using the VaR method of historical simulation with a 99% confidence level, a 10-day holding period and an effective historical observation period of one year. Market risk is the risk to the fund's assets arising from an unfavorable change in market prices. The Company determines the potential market risk by means of the **absolute value-at-risk approach** as defined in CSSF circular 11/512.

In the reporting period, the average leverage effect from the use of derivatives was 0.6, whereby the total of the nominal amounts of the derivatives in relation to the fund's assets was used for the calculation (sum-of-notional approach).

The gross exposure generated via derivatives pursuant to point 40 a) of the "Guidelines on ETFs and other UCITS issues" of the European Securities and Markets Authority (ESMA) totaled EUR 0.00 as of the reporting date.

Notes on valuation

Against the backdrop of the scheduled end of term of the sub-fund being reached on December 16, 2020, as set out in the sales prospectus, the financial statements were prepared on the basis of liquidation values with the premise of the Company operating as a going concern having been relinquished.

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund.

Footnotes

¹ Does not include positions with a negative balance, if such exist.

DWS Fixed Maturity High Yield Bonds 2020 IV (in liquidation)

Statement of income and expenses (incl. income adjustment)

for the period from July 1, 2020, through December 16, 2020

I. Income

1. Interest from securities (before withholding tax)	EUR	724 441.65
2. Interest from investments of liquid assets (before withholding tax)	EUR	70.28
3. Income from securities lending and repurchase agreements thereof: from securities lending	EUR	4 533.87
4. Other income.....	EUR	30 033.25
Total income	EUR	759 079.05

II. Expenses

1. Interest on borrowings and negative interest on deposits and expenses similar to interest	EUR	-30 519.64
Commitment fees	EUR	-176.92
2. Management fee	EUR	-99 392.20
thereof: All-in fee	EUR	-99 392.20
3. Other expenses.....	EUR	-7 818.88
thereof: Performance-based fee from securities lending	EUR	-1 496.20
Taxe d'abonnement	EUR	-6 322.68
Total expenses.....	EUR	-137 730.72

III. Net investment income.....

IV. Sale transactions

1. Realized gains	EUR	2 234 314.24
2. Realized losses	EUR	-5 432 987.02

Capital gains/losses

V. Realized net gain/loss for the shortened fiscal year

1. Net change in unrealized appreciation	EUR	-475 267.43
2. Net change in unrealized depreciation	EUR	4 366 080.46

VI. Unrealized net gain/loss for the shortened fiscal year

EUR	3 890 813.03
EUR	1 313 488.58

Note: The net change in unrealized appreciation (depreciation) is calculated by subtracting the total of all unrealized appreciation (depreciation) at the end of the fiscal year from the total of all appreciation (depreciation) at the beginning of the fiscal year. Total unrealized appreciation (depreciation) includes positive (negative) differences resulting from the comparison of the values recognized for the individual assets as of the reporting date with their respective acquisition costs.

Unrealized appreciation/depreciation is shown without income adjustment.

BVI total expense ratio (TER)

The total expense ratio was 0.43% p.a. The TER expresses total expenses and fees (excluding transaction costs) as a percentage of the fund's average net assets for a given fiscal year.

As well, the additional income from securities lending resulted in a performance-based fee of 0.003% of the fund's average net assets.

Transaction costs

The transaction costs paid in the reporting period amounted to EUR 93.20.

The transaction costs include all costs that were reported or settled separately for the account of the fund in the reporting period and are directly connected to the purchase or sale of assets. Any financial transaction taxes which may have been paid are included in the calculation.

Statement of changes in net assets for the fund

I. Value of the fund at the beginning of the shortened fiscal year	EUR	61 055 891.82
1. Distribution for the previous year	EUR	-335 279.51
2. Net inflows	EUR	-8 270 584.82
a) Inflows from subscriptions	EUR	0.00
b) Outflows from redemptions	EUR	-8 270 584.82
3. Income adjustment	EUR	-129 923.72
4. Net gain/loss for the shortened fiscal year thereof: Net change in unrealized appreciation	EUR	1 313 488.58
Net change in unrealized depreciation	EUR	-475 267.43
II. Value of the fund at the end of the shortened fiscal year	EUR	53 633 592.35

from:		
Securities transactions	EUR	3 629 631.98
(Forward) currency transactions	EUR	-49 525.95
Swap transactions	EUR	310 707.00

Swap transactions may include results from credit derivatives.

Details on the distribution policy*

The income for the shortened fiscal year is reinvested on account of the maturity of the fund.

* Additional information is provided in the sales prospectus.

Changes in net assets and in the net asset value per share over the last three years

	Fund assets at the end of the (shortened) fiscal year EUR	Net asset value per share EUR
December 16, 2020 (liquidation date)	53 633 592.35	91.10
2020.....	61 055 891.82	89.78
2019.....	70 968 771.18	92.38

Transactions processed for the account of the fund's assets via closely related companies (based on major holdings of the Deutsche Bank Group)

The share of transactions conducted in the reporting period for the account of the fund's assets via brokers that are closely related companies and persons (share of 5% and above), amounted to 1.71% of all transactions. The total volume was EUR 634 797.91.

DWS Fixed Maturity High Yield Bonds 2020 IV (in liquidation)

Placement fee / dilution adjustment

At launch, the sub-fund paid a placement fee of 4.3% of the sub-fund's net assets in favor of the distributor. This was calculated as of February 20, 2015, or the launch date of the sub-fund. This placement fee served in particular as distribution compensation. The gross amount of the placement fee was paid out in a one-time payment on February 20, 2015, and simultaneously capitalized in the net sub-fund assets as prepaid expenses. These are being amortized on a daily basis over a period of five years from the first valuation date. The remaining position of prepaid expenses per unit at each valuation date is calculated on a daily basis by multiplying the net sub-fund assets by a factor. The factor was determined by reducing the placement fee by a certain percentage on a straight-line basis over five years from the first valuation date on a daily basis. During the five years from the first valuation date of the sub-fund, the position of prepaid expenses fluctuated as it depended on both the net sub-fund assets and the pre-determined factor.

In addition, a dilution adjustment of up to 6% based on the gross redemption amount was charged for the benefit of the fund's net assets in the reporting period (to be paid by the shareholder).

Further details on the placement fee and the dilution adjustment can be found in the corresponding section of the fund's sales prospectus.

DWS Fixed Maturity High Yield Bonds 2021 II

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
3 These securities are completely or partly lent as securities loans. The equivalent value of the lent securities is EUR 303 342.00.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
3 These securities are completely or partly lent as securities loans. The equivalent value of the lent securities is 2 708 125.37 euros.
5 The prepaid placement fee is amortized over a period of five years (as specified in the special section of the fund's management regulations).

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
5 The prepaid placement fee is amortized over a period of five years (as specified in the special section of the fund's management regulations).

Withholding tax claims	EUR	14 917.17			% 100	14 917.17	0.03
Total assets 1						63 208 455.17	100.00
Net assets						63 208 455.17	100.00

Net asset value per share 93.79

Number of shares outstanding 673 970.000

Negligible rounding errors may have arisen due to the rounding of calculated percentages.

A list of the transactions completed during the reporting period that no longer appear in the investment portfolio is available free of charge from the Management Company upon request.

Composition of the reference portfolio (according to CSSF circular 11/512)

70% MSCI World, 30% iBoxx Overall

Market risk exposure (value-at-risk) (according to CSSF circular 11/512)

Lowest market risk exposure % 0.001

Highest market risk exposure % 34.537

Average market risk exposure % 27.810

The values-at-risk were calculated for the period from July 1, 2020, through August 28, 2020, using the VaR method of historical simulation with a 99% confidence level, a 10-day holding period and an effective historical observation period of one year. Market risk is the risk to the fund's assets arising from an unfavorable change in market prices. The Company determines the potential market risk by means of the **relative value-at-risk approach** as defined in CSSF circular 11/512.

In the reporting period, the average leverage effect from the use of derivatives was 0.2, whereby the total of the nominal amounts of the derivatives in relation to the fund's assets was used for the calculation (sum-of-notional approach).

The gross exposure generated via derivatives pursuant to point 40 a) of the "Guidelines on ETFs and other UCITS issues" of the European Securities and Markets Authority (ESMA) totaled EUR 0.00 as of the reporting date.

Notes on valuation

Against the backdrop of the scheduled end of term of the sub-fund being reached on August 28, 2020, as set out in the sales prospectus, the financial statements were prepared on the basis of liquidation values with the premise of the Company operating as a going concern having been relinquished.

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The net asset values per share are determined under the responsibility of the Board of Directors of the SICAV and the valuation of the fund's assets is performed. The basic provision of price data and price validation are performed in accordance with the method introduced by the Management Company on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the fund prospectus.

Footnotes

1 Does not include positions with a negative balance, if such exist.

DWS Fixed Maturity Multi Asset 2020 (in liquidation)

Statement of income and expenses (incl. income adjustment)

for the period from July 1, 2020, through August 28, 2020

I. Income

1. Dividends (before withholding tax)	EUR	31 462.75
2. Interest from securities (before withholding tax)	EUR	20 629.23
3. Deduction for foreign withholding tax.....	EUR	-8 422.47

Total income **EUR 43 669.51**

II. Expenses

1. Interest on borrowings and negative interest on deposits	EUR	-26 820.34
thereof: Commitment fees	EUR	-66.67
2. Management fee	EUR	-42 049.43
thereof: All-in fee	EUR	-42 049.43
3. Other expenses	EUR	-65.74
thereof: Taxe d'abonnement	EUR	-65.74

Total expenses..... **EUR -68 935.51**

III. Net investment income..... **EUR -25 266.00**

IV. Sale transactions

1. Realized gains	EUR	3 136 445.19
2. Realized losses	EUR	-1 335 993.62

Capital gains/losses **EUR 1 800 451.57**

V. Realized net gain/loss for the shortened fiscal year **EUR 1 775 185.57**

1. Net change in unrealized appreciation.....	EUR	-1 866 628.25
2. Net change in unrealized depreciation	EUR	735 804.58

**VI. Unrealized net gain/loss for the
shortened fiscal year** **EUR -1 130 823.67**

VII. Net gain/loss for the shortened fiscal year **EUR 644 361.90**

Note: The net change in unrealized appreciation (depreciation) is calculated by subtracting the total of all unrealized appreciation (depreciation) at the end of the fiscal year from the total of all appreciation (depreciation) at the beginning of the fiscal year. Total unrealized appreciation (depreciation) includes positive (negative) differences resulting from the comparison of the values recognized for the individual assets as of the reporting date with their respective acquisition costs.

Unrealized appreciation/depreciation is shown without income adjustment.

BVI total expense ratio (TER)

The total expense ratio was 0.40% p.a. The TER expresses total expenses and fees (excluding transaction costs) as a percentage of the fund's average net assets for a given fiscal year.

Transaction costs

The transaction costs paid in the reporting period amounted to EUR 2 057.91.

The transaction costs include all costs that were reported or settled separately for the account of the fund in the reporting period and are directly connected to the purchase or sale of assets. Any financial transaction taxes which may have been paid are included in the calculation.

Statement of changes in net assets for the fund

I. Value of the fund at the beginning of the shortened fiscal year	EUR	74 881 743.60
1. Distribution for the previous year	EUR	-1 853 417.51
2. Net inflows	EUR	-10 471 254.49
a) Inflows from subscriptions	EUR	0.00
b) Outflows from redemptions	EUR	-10 471 254.49
3. Income adjustment	EUR	7 021.67
4. Net gain/loss for the shortened fiscal year	EUR	644 361.90
thereof: Net change in unrealized appreciation	EUR	-1 866 628.25
Net change in unrealized depreciation	EUR	735 804.58

II. Value of the fund at the end of the shortened fiscal year	EUR	63 208 455.17
--	-----	----------------------

Summary of gains/losses

Realized gains (incl. income adjustment).....	EUR	3 136 445.19
from:		
Securities transactions	EUR	2 761 429.76

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

1 Does not include positions with a negative balance, if such exist.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
 3 These securities are completely or partly lent as securities loans. The equivalent value of the lent securities is EUR 109 392.95.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

1 Does not include positions with a negative balance, if such exist.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

1 Does not include positions with a negative balance, if such exist.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

1 Does not include positions with a negative balance, if such exist.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
 5 The prepaid placement fee is amortized over a period of five years (as specified in the special section of the fund's management regulations).

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
 5 The prepaid placement fee is amortized over a period of five years (as specified in the special section of the fund's management regulations).

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
5 The prepaid placement fee is amortized over a period of five years (as specified in the special section of the fund's management regulations).

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

- ¹ Does not include positions with a negative balance, if such exist.
⁵ The prepaid placement fee is amortized over a period of five years (as specified in the special section of the fund's management regulations).

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

Footnotes

1 Does not include positions with a negative balance, if such exist.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Board of Directors of the SICAV on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the SICAV's prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
5 The prepaid placement fee is amortized over a period of five years (as specified in the special section of the fund's management regulations).
