**Merrill Lynch Investment Solutions –
MERRILL LYNCH WNT DIVERSIFIED FUTURES UCITS FUND – USD C (acc)
ISIN Code: LU0955027924
a sub-fund of Merrill Lynch Investment Solutions (the “Fund”)
Management Company: CM Investment Solutions Limited**

Objectives and investment policy

The Fund aims to achieve long term investment growth by investing in a range of financial instruments in accordance with a computer-based trading strategy designed by the investment manager”. The investment strategy is a systematic strategy that trades a diversified portfolio (the “Program”). The investment manager collects a wide variety of data including market data such as price and volume of transactions and other economic and financial data and then uses computer programs to perform statistical analysis of this data in order to develop mathematical models which can forecast future returns in selected instruments and the associated risk given historic data. Such mathematical models form the basis for the Program and are used to determine what the Fund should hold in order to maximise the chance of making a profit.

The Program primarily uses derivatives to meet its investment objective. The Fund may invest in bond futures, equity index futures, interest rates futures, currency futures, foreign exchange forward contracts, listed equities and derivatives linked to listed equities. The Fund will also use cash to satisfy the obligations to provide assets as a form of security as well as settlement obligations owed by the Fund in connection with the derivatives. The Fund will seek to manage surplus cash with the objective of maintaining a high level of liquidity and preserving the capital of cash investments.

The currency of the Fund is the USD and your shares will be denominated in USD.

Your shares are non-distributing (i.e. any income arising from your shares will be included in their value).

You may redeem your shares on demand on any Wednesday that is a Luxembourg, London and United States banking day.

Risk and reward profile

The risk category has been calculated based upon simulation of the Fund's performance using historical data, which may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may change over time.

The lowest category (category 1) does not mean that the investment is risk-free.

The Fund is rated 5 due to the nature of its investments which include the following risks:

- Currency risk - The risk that the investment's value may change due to fluctuations in exchange rates between currencies.
- Derivatives risk - The Fund may use derivatives for investment purposes. Derivatives are highly sensitive to changes in the value of the asset on which they are based, which may result in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
- Equity risk - The risk that the value of equities and equity-related securities within the Fund may be affected by stock market movements.
- Interest rate risk - The risk that fluctuations in interest rates which may affect the value of certain investments in the Fund.

The following are additional risks which are not captured in the risk category:

- Counterparty risk - The risk that the other party to a transaction with the Fund may fail to fulfil its contractual obligations and may expose the Fund to financial losses.
