Notes to the Financial Statements

1. Organisation

BlackRock Strategic Funds (the “Company”) is a public limited company (*société anonyme*) established under the laws of the Grand Duchy of Luxembourg as an open-ended variable capital investment company (*société d’investissement à capital variable*). The Company has been authorised by the *Commission de Surveillance du Secteur Financier* (the “CSSF”) as a UCITS pursuant to the provisions of Part I of the 2010 Law and is regulated pursuant to such law.

The Company has appointed BlackRock (Luxembourg) S.A. as its Management Company.

As at 31 May 2020, the Company offered shares in 35 Funds (each a “Fund”, together the “Funds”). The Company is an umbrella structure comprising separate Funds with segregated liability. Each Fund shall have segregated liability from the other Funds and the Company shall not be liable as a whole to third parties for the liabilities of each Fund. Each Fund shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such Fund. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix I.

The classes of shares have equivalent rights in the Company but carry different features and charging structures which are more fully described in the Company’s Prospectus.

Share Classes Launched

Share Classes launched during the year are disclosed in Appendix I.

Significant events during the year

- ▶ A new Prospectus was issued on 1 June 2019.
- ▶ Effective 3 June 2019, a new performance fee model was adopted. A related Shareholder notification letter was circulated on 1 May 2019. Further details are disclosed in Note 7.
- ▶ Effective 11 June 2019, BlackRock Fixed Income Credit Strategies Fund, denominated in EUR was launched.
- ▶ An updated Prospectus was issued on 20 June 2019.
- ▶ Effective 21 June 2019, BlackRock ESG Euro Corporate Bond Fund, denominated in EUR was launched.
- ▶ Effective 30 October 2019, BlackRock Sustainable Euro Bond Fund changed name to BlackRock ESG Euro Bond Fund.
- ▶ An updated Prospectus was issued on 30 October 2019.
- ▶ Effective 31 October 2019, Martha Boeckenfeld resigned from the Board.
- ▶ As part of an internal restructuring with the aim to streamline State Street’s banking entity structure across Europe, State Street Bank Luxembourg S.C.A. (the “Depositary and Fund

Accountant”), in their capacity as the Company’s Depositary and Fund Accountant, merged into State Street Bank International GmbH with effect from 4 November 2019 (the “Merger Date”). Since the Merger Date, State Street Bank International GmbH continues to carry out the depositary and central administration agent functions through State Street Bank International GmbH, Luxembourg Branch.

As legal successor of the Depositary and Fund Accountant, State Street Bank International GmbH, Luxembourg Branch has assumed the same duties and responsibilities, and has the same rights under the existing agreements with the Company. Any agreements in place with the Depositary and Fund Accountant have been transferred to State Street Bank International GmbH, Luxembourg Branch by operation of law. State Street Bank International GmbH, Luxembourg Branch, is supervised by the European Central Bank, the German Federal Financial Services Supervisory Authority (“BaFin”) and the German Central Bank and has been authorised to act as depositary and central administration agent by the CSSF in Luxembourg. State Street Bank International GmbH, Luxembourg Branch is registered in the Luxembourg Commercial and Companies’ Register (“RCS”) under number B 148186.

- ▶ An updated Prospectus was issued on 16 January 2020.
- ▶ An updated Prospectus was issued on 7 February 2020.
- ▶ Effective 29 February 2020, Francine Keiser resigned from the Board.
- ▶ An updated Prospectus was issued on 29 April 2020.
- ▶ On 11 May 2020, PNC Financial Services Group Inc. (“PNC Group”) announced its intent to sell its investment in BlackRock, Inc. through a registered offering and related buyback by BlackRock, Inc. Further details on PNC Group are disclosed in Note 10.
- ▶ An updated Prospectus was issued on 13 May 2020.
- ▶ Effective 13 May 2020, BlackRock Impact World Equity Fund changed name to BlackRock Systematic ESG World Equity Fund.
- ▶ Effective 18 May 2020, Denise Voss was appointed as Director of the Board.

2. Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with generally accepted accounting principles in Luxembourg and with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg UCITS and include the following significant accounting policies:

Notes to the Financial Statements continued

(a) Valuation of Investments, Other Assets and Other Liabilities

The Company's investments, other assets and other liabilities are valued as follows:

- ▶ transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market, the Board may in its discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds or where governments chose to impose fiscal or transaction charges on foreign investment. As a result, the Board have implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered;
- ▶ for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non-quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Board, not representative of the fair market value, the value shall be determined prudently and in good faith by the Board on the basis of their expected disposal or acquisition price;
- ▶ if in any case a particular value is not ascertainable by the methods outlined above, or if the Board considers that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or other asset will be such as the Board in their absolute discretion decides. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds. In such cases the Board may set specific thresholds, that, where exceeded, result in an adjustment to the value of these securities to their fair value by applying a specific index adjustment. Additionally, where governments choose to impose fiscal or transaction charges on foreign investment, the Board may adjust the NAV to reflect such charges.

- ▶ as at 31 May 2020, the adjusted fair value applied to certain securities and/or derivatives are disclosed in the table below:

| Fund | Currency | Fair value | % of Net Assets |
|--|----------|-------------|-----------------|
| BlackRock Americas Diversified Equity Absolute Return Fund | USD | (1,580,364) | (0.17) |
| BlackRock Asia Pacific Absolute Return Fund | USD | 549,012 | 1.80 |
| BlackRock Asia Pacific Diversified Equity Absolute Return Fund | USD | 83,857 | 0.32 |
| BlackRock European Absolute Return Fund | EUR | 11 | 0.00 |
| BlackRock European Diversified Equity Absolute Return Fund | EUR | (8,453) | (0.23) |
| BlackRock European Opportunities Extension Fund | EUR | 329,825 | 0.04 |
| BlackRock Global Event Driven Fund | USD | 10,039,520 | 0.30 |
| BlackRock Global Long/Short Equity Fund | USD | (206) | 0.00 |
| BlackRock Style Advantage Screened Fund | USD | 34,016 | 0.12 |

- ▶ for certain Funds which have terminated operations and held illiquid securities at the termination dates, the market value of the illiquid securities were provided for against the net asset value of each respective Fund. This effectively wrote down the value of the securities to zero, and recognised the loss in the Statement of Operations and Changes in Net Assets within "Net realised gain/(loss) on investments" during the financial year in which the termination occurred. As at 31 May 2020, BlackRock Latin American Opportunities Fund (terminated on 8 March 2019) and BlackRock Multi-Manager Alternative Strategies Fund (terminated on 13 May 2019) held open illiquid positions, which together accounted for less than 1.00% of the net asset value of the Funds as at the last Valuation Point prior to each Fund's date of termination. If the illiquid securities are subsequently disposed of, or a value is realised, this will be distributed to the shareholders of the respective Funds proportionate to each shareholder's holding in the Fund as at the date of termination;
- ▶ investments in open-ended collective investment schemes are valued on the basis of the last available NAV of the units or shares of such collective investment scheme;
- ▶ certain Funds may decide to issue Share Classes which have different valuation points, termed "Snap" and "Close". The "Snap" valuation point takes a value at a time other than at market close, and the "Close" valuation point takes the value based on market closing prices. Consequently, the net asset values and performance per Share of such Share Classes are expected to differ from each other as a result of the application of different valuation points. During the year ended 31 May 2020, X Class non-distributing AUD hedged of BlackRock Style Advantage Fund adopted a dual valuation point. This has resulted in a variation between the Fund's NAVs as calculated under Snap and Close valuation points. The NAV of the Fund presented on the Statement of Net Assets is calculated using the Snap valuation point. As at 31 May 2020, the percentage variation between the Fund's Snap and Close NAVs is 0.15%. As at 31 May 2020, the NAV and NAV per share of X Class non-distributing AUD hedged at the Snap valuation point is AUD 1,568,824,772 and AUD 91.52. As at 31 May 2020, the NAV and NAV per share of X Class non-distributing AUD hedged at the Close valuation point is AUD 1,573,795,917 and AUD 91.81;

Notes to the Financial Statements continued

- ▶ securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolios of the Funds;
- ▶ liquid assets such as time deposits and money market instruments are valued at amortised cost which approximates their fair value;
- ▶ cash at bank and other assets are valued at their nominal amount;
- ▶ assets which include, in particular, cash owned to bank, interest and dividends receivable, receivable for investments sold and receivable for Fund shares subscribed are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;
- ▶ liabilities which include, in particular, interest and dividends payable, income distribution payable, payable for investments purchased and payable for Fund shares redeemed are valued at their nominal value.

(b) Net realised gains and losses on Investments

Net realised gains and losses on sales of investments have been determined on the basis of the average cost method.

(c) Income/Expense from Investments, Cash Accounts and financial derivatives instruments

The Company takes credit for income from its investments on the following basis:

- ▶ interest income/expense is accrued daily and includes the amortisation on a straight line basis of premiums and accretion on a straight line basis of discounts;
- ▶ bank interest, fixed deposit and money market deposit interest income are recognised on an accrual basis;
- ▶ dividend income is accrued on the ex-dividend date and is shown net of withholding tax;
- ▶ securities lending income is accrued on a weekly basis;
- ▶ negative yield expense on financial assets relating to interest from a negative effective interest rate on assets held is accrued daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument;
- ▶ when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from relevant parties, the amount receivable is written off;
- ▶ the interest rate of any perpetual bonds in the Portfolio of Investments disclosed under the description is the interest rate applicable at the year end and is for information only as these are bonds with a variable interest rate.

(d) Financial Derivative Instruments

During the year, the Funds have entered into a number of forward foreign exchange transactions and futures contracts. Open forward foreign exchange transactions and futures contracts are valued at the fair market value to close the contracts on the valuation date. Surpluses/deficits arising from

these and unsettled contracts are taken to unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on settlement or closing transactions of forward foreign exchange transactions and futures contracts are presented in the Statement of Operations and Changes in Net Assets.

The Funds can write covered call and put options or swaptions and purchase call and put options or swaptions. When the Funds write and/or purchase an option or a swaption, an amount equal to the premium received or paid by the Funds is reflected as a liability or an asset. The liability for a written option or swaption and the asset for a purchased option or swaption is subsequently marked to market to reflect the current value of the option or the swaption. When a security is sold or bought through an exercise of an option or a swaption, the premium received (or paid) is deducted from (or added to) the basis of the security sold or bought. When an option or a swaption expires (or the Funds enter into a closing transaction), the Funds realise a gain or loss on the option or the swaption to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transactions exceeds premium paid or received). For futures-style options, the Funds do not prepay the premium. The Funds post margin as in a futures contract, and the option premium is marked to market daily. The purchased options/swaptions at market value and written options/swaptions at market value are included under assets or liabilities (as appropriate) in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on expiration or closing transactions of options or swaptions are presented in the Statement of Operations and Changes in Net Assets.

During the year, the Funds have entered into Contracts for difference ("CFDs"). CFDs allow investors to take synthetic long or synthetic short positions with a variable margin. Unlike shares, with CFDs the buyer is potentially liable for far more than the amount they paid on margin.

CFDs positions are entered into subject to a daily financing charge, applied at a previously agreed rate above or below the applicable benchmark. The related interest income or expense is accrued daily and disclosed as Contracts for difference interest in a net position in the Statement of Operations and Changes in Net Assets. Interest income receivable and expense payable is disclosed in a net position as "Interest and dividends receivable" or "Interest and dividends payable" in the Statement of Net Assets.

CFDs positions are subject to dividend receipts or payments in such cases where a position is held on the day a dividend has been declared. The related dividend income or expense is accrued on the ex-dividend date and disclosed net of withholding tax as Contracts for difference dividends, net of withholding taxes in the Statement of Operations and Changes in Net Assets. Dividend income receivable and expense payable is disclosed in a net position as "Interest and dividends receivable" or "Interest and dividends payable" in the Statement of Net Assets.

Notes to the Financial Statements continued

The fair market value of the CFDs is determined by the traded price on the exchange on which the underlying securities or other assets are traded or admitted for trading. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

The net unrealised appreciation and net unrealised depreciation on Contracts for difference is included under assets or liabilities (as appropriate) in the Statement of Net Assets.

The change in market value, if any, is recorded as net change in unrealised appreciation or depreciation in the Statement of Operations and Changes in Net Assets. Net realised gains or losses on reset or termination of the CFDs are presented in the Statement of Operations and Changes in Net Assets.

Net realised gains and losses on sales of CFDs have been determined on the basis of the First In First Out ("FIFO") cost method.

The Funds had unsettled CFD transactions as of 31 May 2020, which are included within "Receivable for investments sold" and "Payable for investments purchased" in the Statement of Net Assets. CFDs are separately disclosed after the Portfolio of Investments.

The Funds may enter into Swap transactions ("swaps"), in which the Funds and a counterparty agree to make periodic net payments on a specified notional amount. Swap transactions are privately negotiated in the OTC market and may be entered into as a bilateral contract ("OTC swaps") or centrally cleared ("centrally cleared swaps"). These periodic payments received or made are recorded in the Statement of Operations and Changes in Net Assets as net realised gains or losses, respectively. Swaps are valued utilising quotes received daily by the Funds' pricing service, central clearing houses or brokers, which are derived using daily swap curves and models that incorporate a number of market data factors, such as discounted cash flows, trades and values of the underlying reference instruments. In a centrally cleared swap, immediately following execution of the swap agreement, the swap agreement is novated to a clearing counterparty and the Fund faces the clearing counterparty through a broker. Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash or certain eligible securities in an amount that varies depending on the size and risk profile of the particular swap. Any upfront payments made or received upon entering a swap contract are treated as part of the swap's net realised gain or loss. The daily change in valuation of centrally cleared swaps is recorded as a receivable or payable for variation margin in "Cash at bank" or "Cash owed to bank" position of the Statement of Net Assets until the centrally cleared swap is terminated at which time a net realised gain or loss is recorded. The net change in unrealised appreciation or depreciation and the net realised gains or losses on Swap transactions are disclosed in Statement of Operations and Changes in Net Assets. Interest income receivable and expense payable on swaps is accrued on a daily basis and disclosed in a net position as "Interest and dividends receivable" or "Interest and dividends payable" in the Statement of Net Assets. The Funds had unsettled swap transactions as of 31 May 2020, which are included within "Receivable for investments sold" and "Payable for investments purchased" in the Statement of Net Assets. Swaps are separately disclosed after the Portfolio of Investments.

Net realised gains and losses on sales of Swaps have been determined on the basis of the First In First Out ("FIFO") cost method.

Funds may purchase "To Be Announced" securities contracts ("TBAs"). This refers to the common trading practice in the mortgage-backed securities market whereby a contract is purchased which entitles the buyer to a security from a mortgage pool for a fixed price at a future date. At the time of purchase the exact security is not known, but its main characteristics are specified. Although the price has been established at the time of purchase, the principal value has not been finalised. As a TBA is not settled at the time of purchase, this may lead to leveraged positions within a Fund. Purchasing a TBA involves a risk of loss if the value of the security to be purchased declines prior to the settlement date. Risks may also arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts. TBAs are separately disclosed at the end of the Portfolio of Investments.

The Funds may dispose of a commitment prior to settlement if it is deemed appropriate to do so. Proceeds of TBA sales are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), are held as cover for the transaction.

If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the Fund realises a gain or loss on the commitment without regard to any unrealised gain or loss on the underlying security. If the Fund delivers securities under the commitment, the Fund realises a gain or loss from the sale of the securities upon the unit price established at the date the commitment was entered into.

The Funds had unsettled TBA transactions as of 31 May 2020, which are included within "Receivable for investments sold" and "Payable for investments purchased" in the Statement of Net Assets.

The market values of the TBAs are presented in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on sales of the TBAs are presented in the Statement of Operations and Changes in Net Assets.

Net realised gains and losses on sales of TBA have been determined on the basis of the First In First Out ("FIFO") cost method.

(e) Foreign Exchange

The cost of investments in currencies other than the currency of denomination of the respective Fund has been translated at the rates of exchange ruling at the time of purchase. Investments and other assets and liabilities in currencies other than the currency of denomination of the respective Fund have been translated at the exchange rate prevailing at the Fund's valuation point in Luxembourg on 31 May 2020. The net change in unrealised appreciation or depreciation and the net realised gains or losses on disposal or settlement of other assets or liabilities in currencies other than the currency of denomination of the respective Fund are presented in the Statement of Operations and Changes in Net Assets.

Notes to the Financial Statements continued

Income and expenses in currencies other than the currency of denomination of the respective Fund have been translated at the rates of exchange prevailing on transaction date.

The following exchange rates were used to translate the investments and other assets and other liabilities denominated in currencies for all Funds other than the base currency of the Fund at the respective Fund valuation point at 31 May 2020:

| CCY | All Funds (except the BlackRock Dynamic Diversified Growth Fund) | | BlackRock Dynamic Diversified Growth Fund | BlackRock UK Emerging Companies Absolute Return Fund and BlackRock UK Equity Absolute Return Fund |

(f) Combined Financial Statements

The accounts of each Fund are expressed in the Fund's base currency. The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds, translated if necessary. For the translation of the Statement of Net Assets, the exchange rate prevailing at the Funds' valuation point in Luxembourg as at 31 May 2020 for all Funds expressed in EUR excluding BlackRock Dynamic Diversified Growth Fund is:

| EUR | |
|-----|--------|
| USD | 0.8993 |

For the BlackRock Dynamic Diversified Growth Fund, the exchange rate prevailing at the Fund's valuation point in Luxembourg as at 31 May 2020 is:

| EUR | |
|-----|--------|
| USD | 0.8990 |

For the BlackRock UK Emerging Companies Absolute Return Fund and BlackRock UK Equity Absolute Return Fund, the exchange rate prevailing at the Fund's valuation point in Luxembourg as at 31 May 2020 is:

| GBP | |
|-----|--------|
| USD | 0.8097 |

For the Statement of Operations and Changes in Net Assets, the following exchange rate is the average rate calculated over the year for all Funds expressed in Euros excluding BlackRock Dynamic Diversified Growth Fund:

| EUR | |
|-----|--------|
| USD | 0.9045 |

For the BlackRock Dynamic Diversified Growth Fund, the following exchange rate is the average rate calculated over the year:

| EUR | |
|-----|--------|
| USD | 0.9044 |

For the BlackRock UK Emerging Companies Absolute Return Fund and BlackRock UK Equity Absolute Return Fund, the following exchange rate is the average rate calculated over the year:

| GBP | |
|-----|--------|
| USD | 0.7934 |

The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the average exchange rates throughout the year. The resulting Foreign exchange adjustment of USD (76,932,073) represents the movement in exchange rates between 1 June 2019 and 31 May 2020. This is a notional amount, which has no impact on the Net Assets of the individual Funds.

Notes to the Financial Statements continued

(g) Income Equalisation

The Company operates Income Equalisation arrangements with a view to ensure that the level of net income accrued within a Fund and attributable to each share is not affected by the issue, conversion or redemption of Fund shares during an accounting year.

The Income Equalisation is included in the Movements in share capital in the Statement of Operations and Changes in Net Assets.

(h) Dilution

The Directors may adjust the NAV per Share for a Fund in order to reduce the effect of “dilution” on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund deviates from the carrying value of these assets in the Fund’s valuation, due to factors such as dealing and brokerage charges, taxes and duties, market movement and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the NAV per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Directors may adjust the NAV of a Fund if on any Dealing Day the value of the aggregate transactions in Shares of all Share Classes of that Fund results in a net increase or decrease which exceeds one or more thresholds that are set by the Directors for that Fund. The amount by which the NAV of a Fund may be adjusted on any given Dealing Day is related to the anticipated cost of market dealing for that Fund. In such circumstances the NAV of the relevant Fund may be adjusted by an amount not exceeding 1.50%, or 3% in the case of bond Funds, of that NAV. Under exceptional circumstances the Directors may, in the interest of Shareholders, decide to temporarily increase the maximum swing factor indicated above and inform investors thereof. The adjustment will be an addition when the net movement results in an increase in the value of all Shares of the Fund and a deduction when it results in a decrease.

As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, particularly in relation to duties and taxes, the resulting adjustment may be different for net inflows than for net outflows. In addition, the Directors may also agree to include extraordinary fiscal charges in the amount of the adjustment. These extraordinary fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that NAV. Where a Fund invests primarily in certain asset types, such as government bonds or money market securities, the Directors may decide that it is not appropriate to make such an adjustment. In accordance with the Prospectus, such dilution adjustment was applied as at 31 May 2020 to BlackRock Global Real Asset Securities Fund and BlackRock Global Event Driven Fund.

During the financial year from 1 June 2019 to 31 May 2020 dilution adjustments were applied to all Funds except BlackRock Asia Extension Fund and BlackRock Total Advantage Fund.

The published/dealing NAV per share is disclosed in the Three Year Summary of Net Asset Values and may include a dilution adjustment. This adjustment is not recognised in the Statement of Net Assets or the Statement of Operations and Changes in Net Assets.

(i) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of securities and derivatives. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the security. When a security is recognised initially, it is measured at its market value, plus transaction costs that are directly attributable to the acquisition or issue of the security.

Transaction costs excluding depositary transaction fees on purchases or sales of securities are included within net realised gain/(loss) or net change in unrealised appreciation/(depreciation) within the Statement of Operations and Changes in Net Assets of each Fund. Depositary transaction fees are included in Depositary fees in the Statement of Operations and Changes in Net Assets of the Fund. Refer to Note 6 for further information.

(j) Foreign currencies on other transactions

Foreign currencies on other transactions relate to realised and unrealised appreciation or depreciation on cash balances and spot contracts and are disclosed in the Statement of Operations and Changes in Net Assets.

3. Management Company

BlackRock (Luxembourg) S.A. (the “Management Company”) has been appointed by the Company to act as its Management Company. The Management Company is authorised to act as a fund management company in accordance with Chapter 15 of the 2010 Law.

The Company has signed a management company agreement with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company’s investment management, administration and marketing of the Funds.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus.

The Management Company is a wholly owned subsidiary within the BlackRock Group. It is regulated by the CSSF.

4. Management and Distribution Fees

During the year, the Company paid management fees to the Management Company.

The Company pays management fees at an annual rate as shown in Appendix F of the Prospectus. The level of management fee varies from 0.30% to 1.80% of the NAV, with the exception of Class X shares, which do not pay a management fee but rather a fee to the Investment Advisers or affiliates under an agreement. The level of management fee varies according to which Fund and Share Class the investor buys. These fees accrue daily, are based on the NAV of the relevant Fund and are paid monthly. Certain costs and fees are paid out of the management fees, including the fees of the Investment Advisers.

Where a Fund invests a substantial proportion of its net assets in other UCITS and other Undertakings for Collective Investment (“UCIs”), the Investment Adviser will ensure that the total

Notes to the Financial Statements continued

management fee (excluding any performance fee, if any) charged to such Fund (including management fees from other UCITS and UCIs in which it invests) shall not exceed 3.75% of the NAV of the Fund.

During the year, the following Funds were subject to management fee rebate linked to investments into target funds managed by BlackRock disclosed in the Statement of Operations and Changes in Net Assets under the caption "Management fee rebate":

BlackRock Dynamic Diversified Growth Fund, BlackRock Emerging Markets Flexi Dynamic Bond Fund, BlackRock European Select Strategies Fund, BlackRock Fixed Income Credit Strategies Fund, BlackRock Fixed Income Strategies Fund, BlackRock Global Absolute Return Bond Fund, BlackRock Macro Opportunities Fund, BlackRock Managed Index Portfolios – Conservative, BlackRock Managed Index Portfolios – Defensive, BlackRock Managed Index Portfolios – Growth and BlackRock Managed Index Portfolios – Moderate.

During the year, all Funds, with the exception of those disclosed below, were subject to fee reimbursement from the Management Company, as disclosed in the Statement of Operations and Changes in Net Assets under the caption "Reimbursement of expenses":

BlackRock Americas Diversified Equity Absolute Fund, BlackRock Asia Extension Fund, BlackRock Dynamic Diversified Growth Fund, BlackRock European Absolute Return Fund, BlackRock European Opportunities Extension Fund, BlackRock European Unconstrained Equity Fund, BlackRock Fixed Income Strategies Fund.

During the year, the Company paid distribution fees to BlackRock Investment Management (UK) Limited who acted as Principal Distributor.

The Company pays annual distribution fees between 1.25% and 1.00% of the NAV for Class C Shares and 0.50% of the NAV for Class E Shares. These fees accrue daily, are based on the NAV of the relevant Fund reflecting, when applicable, any adjustment to the NAV of the relevant Fund, and are paid monthly.

The management and distribution fees per Share Class per Fund are disclosed in detail in the Prospectus and KIID of the Company. Management and distribution fees payable at 31 May 2020 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

5. Administration Fees

The Company pays an administration fee to the Management Company.

The level of administration fee may vary at the Board's discretion, as agreed with the Management Company, and will apply at different rates across the various Funds and Share Classes issued by the Company. However, it has been agreed between the Board and the Management Company that the administration fee currently paid shall not exceed 0.30% per annum. It is accrued daily, based on the NAV of the relevant Share Class and paid monthly.

The Board and the Management Company set the level of the administration fee at a rate which aims to ensure that the total expense ratio of each Fund remains competitive when compared across a broad market of similar investment products

available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group.

The administration fee is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company, with the exception of the depositary fees, distribution fees, securities lending fees, any fees arising from borrowings (including for the avoidance of doubt any commitment fee that may be due to the lender), any professional services costs relating to withholding tax reclaims (plus any taxes or interest thereon), and any taxes at an investment or Company level. Any commitment fees arising from borrowings or professional services costs relating to withholding tax reclaims will be allocated between the relevant Funds on a fair and equitable basis.

These operating and administrative costs and expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees, travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the financial risk of ensuring that the Funds' total expense ratio remains competitive. Accordingly the Management Company is entitled to retain any amount of the administration fee paid to it which is in excess of the actual expenses incurred by the Company during any year whereas any costs and expenses incurred by the Company in any year which exceed the amount of administration fee that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

Administration fees payable at 31 May 2020 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

Directors of the Company who are not employees of the BlackRock Group received a fee of EUR 30,000 per annum gross of taxation in return for their duties performed during the year ended 31 May 2020. The Chairman receives a fee of EUR 33,500 per annum gross of taxation. Directors who are employees of the BlackRock Group are not entitled to receive a Directors fee.

Directors fee is included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

Detailed below are the fees paid to Deloitte Audit, S.à r.l. for the year ended 31 May 2020.

| | 31 May 2020 EUR |
|---|--------------------|
| Audit and audit related services (excluding VAT) | 443,325 |
| Non-audit services | – |

Notes to the Financial Statements continued

6. Depositary Fees

The Depositary receives a fee in respect of each Fund. These fees are to remunerate the Depositary for safekeeping and transaction costs applicable to each Fund.

From 1 June 2019 to 31 December 2019, these fees varied in respect of each Fund depending on the value of assets under management and the volume of trading in that Fund.

For Funds which had a low volume of trading (less than 500 trades per month) the safekeeping fee which accrued daily, ranged from 0.005% to 0.40% per annum and the transaction fees ranged from USD 7 to USD 125 per transaction.

For Funds which engaged in higher trading volumes, the Depositary did not charge separate safekeeping and transaction fees. The Depositary received a fee which was charged on a sliding scale, based on the value of assets under management and the volume of trading within each Fund. These fees ranged from 1 basis point to 25 basis points per annum of assets under management of each Fund, depending on whether a particular Fund was considered to be a "medium volume trading Fund" (between 501 and 1,500 trades per month), "high volume trading Fund" (greater than 1,500 derivative trades per month) or a "very high trading volume Fund" (greater than 100,000 trades per annum).

Each of the Funds was also subject to a minimum annual fee which was set at either, USD 30,000 for the aggregate of low volume trading Funds, USD 100,000 for each medium volume trading Fund, USD 150,000 for each high volume trading Fund and USD 230,000 for each very high trading volume Fund.

Effective 1 January 2020, safekeeping fees vary based on the value of assets under management and the country in which the assets are held. Transaction fees vary based on the type of transaction and the country in which the transaction occurs.

Trading volumes and asset allocations for each Fund vary according to the investment strategy of each Fund. The combined Depositary fee to each Fund depends on its asset allocations and trading activity at any time.

Depositary fees payable at 31 May 2020 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

7. Performance Fees

A performance fee may be payable out of each Share Class of each Fund with the exception of Class X shares which do not pay a performance fee, in addition to other fees and expenses mentioned in the Prospectus. The performance fee accrues on each Valuation Day and is equal to 8%, 15%, 20% or 30% (as applicable to the relevant Fund, as stated in Appendix E of the Prospectus) of the amount by which the NAV per share return exceeds the appropriate benchmark return described in further detail in Appendix E of the Prospectus. Two methods of calculation are used and are referred to as Type A and Type B – the method applicable to each Fund is indicated in Appendix E of the Prospectus. Further details may be obtained from the Local Investor Servicing team and the registered office of the Company.

Crystallisation of the performance fee occurs on the last day of each Performance Period or where a shareholder redeems or converts all or part of his shares before the end of a Performance Period.

During the period from 1 June 2019 to 30 November 2019 the Management Company has applied a 0.00% floor to the EUR 3M LIBOR, SEK 3M LIBOR, CHF 3M LIBOR and JPY 3M LIBOR interest rate performance fee benchmarks used to calculate any out performance as per the calculation methodology outlined in the Prospectus. This floor has been applied to effectively cap the amount of performance fees payable in respect of interest rate performance fee benchmarks currently exhibiting negative interest rates. The Management Company will continue to monitor the interest rate environment and its effect on the management of the Funds and reserves the right to remove the application of the 0.00% floor to the EUR 3M LIBOR, SEK 3M LIBOR, CHF 3M LIBOR and JPY 3M LIBOR interest rate performance fee benchmarks without notice.

Performance fees payable at 31 May 2020 are included in the Statement of Operations and Changes in Net Assets under the caption "Performance fees".

8. Taxes

Luxembourg subscription tax, Belgian tax, realized and unrealized Capital Gain Tax are disclosed in the Statement of Operations and Changes in Net Assets under caption "Taxes". For the year ended 31 May 2020, USD 13,934,673 was charged in relation to Taxes.

Luxembourg

The Company is registered under Luxembourg law as an investment company. Accordingly, no Luxembourg income or capital gains tax is at present payable by the Company. However, it is subject to an annual subscription tax ("*taxe d'abonnement*") calculated at an annual rate of 0.05% of the NAV of each Fund at the end of each quarter, and in the case of all Class I, Class I A, Class J, Class T and Class X Shares, of 0.01% of the NAV of each Fund at the end of each quarter. For the year ended 31 May 2020, USD 7,104,281 was charged in relation to Luxembourg subscription tax.

Belgium

The Company is registered with the financial services and markets authorities in Belgium in accordance with Article 154 of the amended Law of 3 August 2012 relating to financial transactions and the financial markets. Funds registered for public distribution in Belgium are subject to an annual tax of 0.0925% on the NAV of units distributed in Belgium via Belgian intermediaries as at 31 December of the previous year. For the year ended 31 May 2020, USD 328,290 was charged in relation to Belgian tax.

United Kingdom

Reporting Funds

The UK Reporting Funds regime applies to the Company. Under this regime, investors in UK Reporting Funds are subject to tax on the share of the UK Reporting Funds income attributable to their holdings in the Fund, whether or not distributed, but any gains on disposal of their holdings are subject to capital gains tax. A list of the Funds which currently have UK Reporting Fund status is available at: <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>.

Other transaction taxes

Other jurisdictions may impose taxes, financial transactions taxes ("FTT") or other transaction taxes on certain assets held by the Funds (for example UK stamp duty, French FTT).

Notes to the Financial Statements continued

FTT are included in the Statement of Operations and Changes in Net Assets under the caption "Net realised gain/(loss) on Contract for difference".

Withholding tax

Dividends, interest and capital gains (if any) received by the Company on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the Company itself is exempt from income tax. Recent European Union case law may, however, reduce the amount of such irrecoverable tax. Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling Shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change. The potential of withholding tax charges is further described in the Prospectus.

Withholding tax is included in the Statement of Operations and Changes in Net Assets under the caption "Dividends, net of withholding taxes".

Dividends received by the Company on CFDs may be subject to withholding tax: in particular, withholding tax for CFDs on US equity instruments is regulated pursuant to Section 871(m) of the Internal Revenue Code ("IRC"). Such withholding tax is included in the Statement of Operations and Changes in Net Assets under the caption "Contracts for difference dividends, net of withholding taxes".

9. Investment Advisers and Sub-Investment Advisers

The Management Company, BlackRock (Luxembourg) S.A., has delegated the management and provision of investment advice to the Investment Advisers: BlackRock Financial Management, Inc. (BFM Inc.), BlackRock Institutional Trust Company N.A. (BTC), BlackRock Investment Management LLC (BIMLLC), BlackRock Investment Management (UK) Limited (BIM UK) and BlackRock (Singapore) Limited (BLKSin) as described in the Prospectus.

The Investment Advisers provide advice and management in the areas of stock and sector selection and strategic allocation. BIM UK has sub-delegated some of its functions to BlackRock Japan Co., Ltd. (BLKJap), BlackRock Investment Management (Australia) Limited (BLKAus) and BlackRock Asset Management North Asia Limited (BAMNA). Notwithstanding the appointment of the Investment Advisers, the Management Company accepts full responsibility to the Company for all investment transactions.

10. Transactions with related parties

The ultimate holding company of the Management Company, the Principal Distributor and the Investment Advisers is BlackRock, Inc., a company incorporated in Delaware, USA. During the year, PNC Financial Services Group Inc. ("PNC Group") was a substantial shareholder in BlackRock Inc. When arranging transactions in securities for the Company, companies in the PNC Group may have provided securities, brokerage, foreign exchange banking and other services or may have acted as principal on their usual terms and may benefit therefrom. Commission has been paid to brokers and agents in accordance with the relevant market practice and the benefit of any bulk or other commission discounts or cash commission rebates provided by brokers or agents have been passed on to the Company. The services of PNC Group companies could have been used by the Investment Advisers where it was considered appropriate to do so provided that their commissions and other

Notes to the Financial Statements continued

terms of business are generally comparable with those available from unassociated brokers and agents in the markets concerned, and that this is consistent with the above policy of obtaining best results.

During the year, there have been no significant transactions which were outside the ordinary course of business or which were not on normal commercial terms. There were no transactions of the Company effected through BlackRock companies.

The Company has appointed BlackRock Advisors (UK) Limited (the "Securities Lending Agent"), a related party to the Company, as securities lending agent. The Securities Lending Agent bears all operational costs directly related to securities lending transactions. The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds which undertake securities lending transactions receive at least 62.5%, while the Securities Lending Agent receives up to 37.5% of such income.

Some of the Funds use cross investment techniques, meaning that the Funds invest into other Funds within the Company's umbrella structure. The combined Statement of Net Asset and the Statement of Operations and Changes in Net Assets have not been adjusted to remove the impact of the cross investments. The commissions on subscriptions and redemptions, as well as the management fees are not applied to the assets of the BlackRock Dynamic Diversified Growth Fund invested in other Funds.

The table below provides the value of those cross-investments in the relevant Fund's Portfolio of Investments as at 31 May 2020:

| Fund | Cross Investment Fund | Currency | Market Value | % of Net Asset |
|---|---|----------|--------------|----------------|
| BlackRock Dynamic Diversified Growth Fund | Blackrock Strategic Funds - BlackRock Systematic ESG World Equity Fund X2 (GBP) | EUR | 45,715,676 | 4.42 |

11. Dividends

For the Non-Distributing Share Classes, the Directors' current policy is to retain and reinvest all net income.

For the Distributing Share Classes, the policy is to distribute substantially all the investment income (where available) for the year after deduction of expenses (or gross income in the case of Distributing (G) Shares). The Directors may also determine if and to what extent dividends may include distributions from both net realised and net unrealised capital gains. Where Distributing Share Classes pay dividends that include net realised capital gains or net unrealised capital gains, or, in the case of Funds which distribute income gross of expenses, dividends may include initially subscribed capital. Shareholders should note that dividends distributed in this manner may be taxable as income, depending on the local tax legislation, and should seek their own professional tax advice in this regard.

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

The Company may operate income equalisation arrangements with a view to ensuring that the level of net income accrued within a Fund (or gross income in the case of Distributing (G) Shares) and attributable to each Share is not affected by the issue, conversion or redemption of those Shares during an accounting year.

12. Securities Lending

The table below provides the value of securities on loan and the related collateral received as at 31 May 2020:

| Fund | CCY | Value of securities on loan | Value of collateral received |
|--|-----|-----------------------------|------------------------------|
| BlackRock Asia Pacific Absolute Return Fund | USD | 1,428,260 | 1,576,040 |
| BlackRock Dynamic Diversified Growth Fund | EUR | 7,457,623 | 8,227,163 |
| BlackRock Emerging Markets Absolute Return Fund | USD | 665,555 | 722,038 |

| BlackRock Systematic ESG World Equity Fund ⁽¹⁾ | USD | 21,436,367 | 23,658,934 |
| BlackRock Systematic Global Equity Fund | USD | 10,517,634 | 11,627,630 |

⁽¹⁾ Fund name changed, see Note 1 for further details.

⁽²⁾ New Fund launch, see Note 1 for further details.

Income earned during the year by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets under caption "Securities lending". Securities on loan are respectively flagged on Portfolio on Investments.

Notes to the Financial Statements continued

13. Transaction costs

In order to achieve its investment objective, a Fund will incur transactions costs in relation to trading activity on its Portfolio of Investments. Disclosed in the table below are separately identifiable transaction costs incurred by each Fund for the year ended 31 May 2020. These include broker commissions and settlement fees.

| Fund | CCY | Transaction Costs |
|--|-----|-------------------|
| BlackRock Americas Diversified Equity Absolute Return Fund | USD | 30,264 |
| BlackRock Asia Extension Fund | USD | - |
| BlackRock Asia Pacific Absolute Return Fund | USD | 86,227 |
| BlackRock Asia Pacific Diversified Equity Absolute Return Fund | USD | - |
| BlackRock Dynamic Diversified Growth Fund | EUR | 119,400 |
| BlackRock Emerging Markets Absolute Return Fund | USD | 106,835 |
| BlackRock Emerging Markets Equity Strategies Fund | USD | 3,132,943 |
| BlackRock Emerging Markets Flexi Dynamic Bond Fund | USD | 846 |

| BlackRock ESG Euro Bond Fund ⁽¹⁾ | EUR | - |
| BlackRock ESG Euro Corporate Bond Fund ⁽²⁾ | EUR | - |
| BlackRock European Absolute Return Fund | EUR | 246,918 |
| BlackRock European Diversified Equity Absolute Return Fund | EUR | - |
| BlackRock European Opportunities Extension Fund | EUR | 217,168 |
| BlackRock European Select Strategies Fund | EUR | 475,350 |
| BlackRock European Unconstrained Equity Fund | EUR | 37,411 |
| BlackRock Fixed Income Credit Strategies Fund ⁽²⁾ | EUR | 740 |
| BlackRock Fixed Income Strategies Fund | EUR | 14,434 |
| BlackRock Global Absolute Return Bond Fund | EUR | 196 |
| BlackRock Global Equity Absolute Return Fund | USD | 19,899 |
| BlackRock Global Event Driven Fund | USD | 87,554 |
| BlackRock Global Long/Short Equity Fund | USD | - |
| BlackRock Global Real Asset Securities Fund | USD | 175,307 |
| BlackRock Macro Opportunities Fund | USD | 4,882 |
| BlackRock Managed Index Portfolios – Conservative | EUR | 6,535 |
| BlackRock Managed Index Portfolios – Defensive | EUR | 6,386 |
| BlackRock Managed Index Portfolios – Growth | EUR | 22,745 |
| BlackRock Managed Index Portfolios – Moderate | EUR | 28,960 |
| BlackRock Style Advantage Fund | USD | - |
| BlackRock Style Advantage Screened Fund | USD | - |
| BlackRock Systematic ESG World Equity Fund ⁽¹⁾ | USD | 182,760 |
| BlackRock Systematic Global Equity Fund | USD | 215,164 |
| BlackRock Total Advantage Fund | EUR | - |
| BlackRock UK Emerging Companies Absolute Return Fund | GBP | 6,375 |
| BlackRock UK Equity Absolute Return Fund | GBP | 89 |

⁽¹⁾ Fund name changed, see Note 1 for further details.

⁽²⁾ New Fund launch, see Note 1 for further details.

Not all transaction costs are separately identifiable. For CFDs, swaps, forward foreign exchange transactions, futures contracts, options, swaptions and TBAs transaction costs are included in the purchase and sales price of the investment. Whilst not separately identifiable these transaction costs are captured within the performance of each Fund. Market impact costs are not separately identifiable and are therefore also not disclosed in the above table.

14. Credit Facility

The Company entered into a credit facility with JPMorgan Chase Bank, N.A. (“JPMorgan”) whereby JPMorgan, together with other syndicated lenders, will make a portion of a USD 1.225 billion credit facility available to the Luxembourg Funds. The portion of the USD 1.225 billion credit facility will be allocated to the Funds based on the Allocation Notice dated 31 December 2019.

This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the relevant Funds. Any new Funds will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Funds. During this for the year ended, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Funds will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Funds and other BlackRock Funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to same.

A loan commitment fee is charged on a daily basis in relation to this credit facility which is included in the Statement of Operations and Changes in Net Assets under caption “Loan commitment fees”. The loan commitment fee is charged at 0.10% on the outstanding balance.

No portion of the credit facility was used during the year ended 31 May 2020.

15. Amounts due from/to broker

Due from/to broker on the Statement of Net Assets consists of cash collateral and margin paid/received to/from Funds’ clearing brokers and various counterparties.

16. Total Expense Ratio

Total Expense Ratio (“TER”) is calculated as the total of all expenses (excluding bank interest, negative yield expense on financial assets and expense reimbursements), divided by the average net assets of the share classes, expressed as a percentage. All data is annualised.

The Management fees may be used in part to pay remuneration for distribution activities concerning the Company. Reimbursement may be made to institutional investors which from a commercial perspective hold shares of the Company for third parties.

The TERs for the year from 1 June 2019 to 31 May 2020 are as follows:

Notes to the Financial Statements continued

⁽¹⁾ New Share Class launched, see Appendix I for further details.

⁽²⁾ Fund name changed, see Note 1 for further details.

⁽³⁾ New Fund launch, see Note 1 for further details.

⁽⁴⁾ Fund invests in underlying target funds which do not publish a TER in accordance with the SFAMA guidelines.

The TERs were calculated in accordance with the Swiss Funds and Asset Management Association ("SFAMA") guidelines on the calculation and disclosure of the TER for collective investment schemes. The SFAMA guidelines were last amended on 20 April 2015.

Certain Funds, as indicated above, invest a significant portion of their net assets in underlying target funds which do not publish a TER in accordance with the SFAMA guidelines. Therefore, the prorated TER of the underlying target funds has not been included in the TER of the Funds disclosed above. This waiver provision complies with the SFAMA guidelines.

Notes to the Financial Statements continued

17. Subsequent Events

Effective 2 June 2020, the BlackRock European Diversified Equity Absolute Return Fund, denominated in EUR was terminated.

Effective 17 June 2020, the BlackRock Asia Extension Fund, denominated in USD was terminated.

An updated Prospectus was issued on 5 August 2020.

There have been no other events subsequent to the financial year end, and up to the date of the approval of the financial statements, which in the opinion of the Board may have had a material impact on the financial statements for the financial year ended 31 May 2020.

18. Approval date

The financial statements were approved by the Board on 25 September 2020.

To the Shareholders of
BlackRock Strategic Funds
49, avenue J.F. Kennedy,
L-1855 Luxembourg,
Grand Duchy of Luxembourg

INDEPENDENT AUDITOR'S REPORT

Opinion

We have audited the financial statements of BlackRock Strategic Funds (the "Company") and of each of its Funds, which comprise the statement of net assets and the Portfolio of Investments as at 31 May 2020 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company and of each of its Funds as at 31 May 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier* (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the *Réviseur d'Entreprises Agréé* for the Audit of the Financial Statements" section of our report. We are also independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our Independent Auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board for the Financial Statements

The Board is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the *Réviseur d'Entreprises Agréé* for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the *Réviseur d'Entreprises Agréé* that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board.
- Conclude on the appropriateness of the Board use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the *Réviseur d'Entreprises Agréé* to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the *Réviseur d'Entreprises Agréé*. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Appendix II – Global Market Risk Exposure (Unaudited)

Global Exposure

In accordance with current BlackRock policy, global exposure is measured using the “Commitment Approach” or the Value at Risk (“VaR”) approach which considers the full constituents of the portfolio.

The Commitment Approach is a methodology that aggregates the underlying market or notional values of financial derivative instruments to determine the degree of global exposure of a Fund to financial derivative instruments.

Pursuant to the 2010 Law, the global exposure for a Fund under the Commitment Approach must not exceed 100% of that Fund’s Net Asset Value.

Below is the list of Funds that follow the Commitment Approach:

- ▶ BlackRock European Unconstrained Equity Fund
- ▶ BlackRock Global Real Asset Securities Fund
- ▶ BlackRock Managed Index Portfolios – Conservative
- ▶ BlackRock Managed Index Portfolios – Defensive
- ▶ BlackRock Managed Index Portfolios – Growth
- ▶ BlackRock Managed Index Portfolios – Moderate
- ▶ BlackRock Systematic ESG World Equity Fund⁽¹⁾
- ▶ BlackRock Systematic Global Equity Fund

⁽¹⁾ Fund changed name, see Note 1 for further details.

VaR is a statistical risk measure that estimates the potential loss from adverse market movements in an ordinary market environment.

The VaR calculations for the BlackRock Strategic Funds, with the exception of the BlackRock Global Event Driven Fund, are based on an adjusted historical simulation model. On 1 January 2018, the VaR model used for the BlackRock Global Event Driven Fund changed from an adjusted historical simulation model to a Monte Carlo simulation model to more appropriately measure the Fund’s exposure to market risk. Both models use a confidence level of 99%, a holding period of one day and a historical observation period of not less than one year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% one day VaR means that the expectation is that 99% of the time over a one day period the Fund will lose no more than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk.

On 1 September 2015 the VaR model used by BlackRock Risk & Quantitative Analysis (“RQA”) changed from a parametric model to an adjusted historical simulation model to more appropriately measure the Funds exposure to market risk. The previous model used a holding period of 1 month (20 days).

For Funds which use a relative VaR approach RQA determines a reference portfolio as the basis for the relative VaR calculation. The reference portfolio is typically the index benchmark also established as the reference point for performance data in respect of the relevant Fund. This is an index (or composite of indices) constructed by a recognised index provider(s) from relevant securities which are eligible for investment by the Funds. This process gives appropriate consideration to the availability of indices with construction rules which are themselves compliant with diversification rules.

Where a Fund is monitored using VaR, the Investment Advisers will observe the regulatory limit and any internal risk limits which may be appropriate for the portfolio.

The table below details the highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the respective absolute or relative VaR regulatory limit. For relative VaR, the VaR of the respective Fund’s portfolio will not exceed twice the VaR of the reference portfolio. Utilisation refers to the level of risk taken in this context.

| Fund | Market Risk Approach | Risk Benchmark | Highest utilisation of the VaR limit % | Lowest utilisation of the VaR limit % | Average utilisation of the VaR limit % |
|--|----------------------|--------------------------------------|--|---------------------------------------|--|
| BlackRock Americas Diversified Equity Absolute Return Fund | Absolute VaR | n/a | 26.16% | 10.73% | 15.17% |

⁽¹⁾ Fund name changed, see Note 1 for further details.

⁽²⁾ New Fund launch, see Note 1 for further details.

Leverage

The use of derivatives may expose Funds to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. Leveraged derivative positions can therefore increase Funds volatility.

For the purposes of this disclosure, leverage is the investment exposure gained through the use of financial derivative instruments. It is calculated using the sum of the notional values of all of the financial derivative instruments held by the relevant Fund, without netting, and is expressed as a percentage of the NAV.

Disclosed in the table below is the level of leverage employed during the year.

| Fund | Average leverage employed during the year |
|--|---|
| BlackRock Americas Diversified Equity Absolute Return Fund | 519.68% |
| BlackRock Asia Extension Fund | 142.37% |
| BlackRock Asia Pacific Absolute Return Fund | 57.79% |
| BlackRock Asia Pacific Diversified Equity Absolute Return Fund | 422.51% |

Supplementary Information (Unaudited)

Efficient Portfolio Management Techniques

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CSSF and the Prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC Financial Derivative Instruments ("FDIs") provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or for direct investment purposes, where applicable.

Securities Lending and Total Return Swaps (including CFDs)

All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Company, and separately between the Securities Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depository on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds' Depository or the Securities Lending Agent.

All TRS (including CFDs) are entered into by the Funds under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Funds and a counterparty that governs OTC FDIs (including TRS and CFDs) entered into by the parties. The parties' exposures under the ISDA Master agreement are netted and collateralised together, therefore any collateral disclosures provided in this report are in respect of all OTC FDIs entered into by the Funds under the ISDA Master Agreement, not just TRS and CFDs. All non-cash collateral received/posted by the Funds under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The following table details the value of securities on loan as a proportion of the Funds' total lendable assets and NAV and the value of TRS (including CFDs) as a proportion of the Funds' NAV, as at 31 May 2020 and the income/returns earned for the year ended 31 May 2020. Total lendable assets represent the aggregate value of assets forming part of the Funds' securities lending programme. The value of TRS (including CFDs) is based on the underlying exposure value on a gross absolute basis.

| Fund | Currency | Securities on loan | | TRS (including CFDs) | |
|--|----------|----------------------|----------|-------------------------|-----------------------|
| | | % of lendable assets | % of NAV | % of NAV 31 May 2020 | Net returns earned |

| BlackRock UK Equity Absolute Return Fund | GBP | N/A | N/A | 94.52% | 676,171 |

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds receives at least 62.5% while the Securities Lending Agent receives up to 37.5% of such income, with all operational costs borne out of the Securities Lending Agent's share. Income earned during the year ended by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets under caption "Securities lending". All returns and costs from TRS (including CFDs) will accrue to the Funds and are not subject to any returns or cost sharing arrangements with the Fund's Management Company or any other third parties.

The following table details the value of securities on loan (individually identified in the relevant Funds' Portfolio of Investments) and associated collateral received and the underlying exposure value on a gross absolute basis for TRS (including CFDs), analysed by counterparty, as at 31 May 2020.

The above maturity tenor analysis has been based on the respective transaction contractual maturity date. Open transactions are those transactions that are callable or terminable on a daily basis and include CFDs.

Collateral

The Funds engage in activities which may require collateral to be provided to a counterparty ("collateral posted") or may hold collateral received ("collateral received") from a counterparty.

The following table provides an analysis by currency of the cash and underlying non-cash collateral received/posted by way of title transfer collateral arrangement by the Funds, in respect of securities lending transactions and OTC FDIs (including TRS and CFDs), as at 31 May 2020.

| Currency | Cash collateral received | Cash collateral posted | Non-cash collateral received | Non-cash collateral posted |
|--|--------------------------|------------------------|------------------------------|----------------------------|
| BlackRock Americas Diversified Equity Absolute Return Fund (in USD) | | | | |
| OTC derivative transactions | | | | |

As at 31 May 2020, part of cash collateral received by the Funds was re-invested in money market funds managed by the affiliates of the Management Company, as disclosed in the Funds' Portfolio of Investments. The Funds are the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions and OTC FDIs, cannot be sold, re-invested or pledged.

The returns earned by the Funds from the reinvestment of cash collateral in money market funds during the year ended 31 May 2020 is summarised below. These returns represent the accumulative total return of the respective money market fund for the 1 year year ended 31 May 2020. These returns do not take into account any interest payable to the counterparty under the relevant collateral arrangements.

| Money market fund | Total returns |
|--|---------------|
| Institutional Cash Series plc | |
| - Institutional Euro Liquidity Fund | (0.72)% |
| - Institutional GBP Liquidity Fund | 0.44% |
| - Institutional US Dollar Liquidity Fund | 1.42% |

| Fixed Income | | | | | | | | |
| Investment grade | - | - | - | - | - | 21,664,414 | - | 21,664,414 |
| Total | - | - | - | - | - | 21,664,414 | - | 21,664,414 |

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

The following table provides an analysis of the amounts of non-cash collateral received by the Fund in respect of securities lending transactions and held by the Funds' Depository (or through its delegates) or through a securities settlement system, as at 31 May 2020.

| Depository | Non-cash collateral received | Securities lending |
|--|------------------------------|--------------------|
| BlackRock Asia Pacific Absolute Return Fund (in USD) | | |
| State Street Bank International GmbH, Luxembourg Branch (or its delegates) | | 1,576,040 |
