Report on activities of the Board of Directors

BlueOrchard Microfinance Fund (hereinafter referred to as the "Company" or the "Fund" or "BOMF") closed its fiscal year on 30 June 2021 with a Net Asset Value of USD 2,488,142,889.05, equivalent to a 0.80% increase compared to the previous fiscal year. As of 30 June 2021, the USD denominated share class represented 22.03% of the total NAV, the remaining being split between the EUR, CHF, GBP, and SEK denominated share classes (respectively 33.10%, 27.76%, 0.95%, and 16.16%).

The institutional share class in USD recorded a return of 2.50% on a 12-month basis as of 30 June 2021, with a return of 1.84% for the private share class. The performance of the Company over the reporting period was somewhat lower than in the prior financial year as a result of a combination of provisioning activity, lowering yield, and relatively low investment level, all this being a consequence of COVID-19 outbreak.

During the reporting period the Fund was engaged in restructuring or rescheduling negotiations with several investees due to the negative impact the COVID-19 crisis had on their liquidity position.

The COVID-19 pandemic was particularly severe in India, the top exposure country for the Fund. However, most Indian MFIs to which BOMF has provided funding showed resilience in their operations and managed to keep good levels of liquidity. While profitability was negatively impacted due to higher provisions, funding support by both shareholders and lenders remained stable and collections and disbursements have gradually resumed for most investees.

At the Fund level, the very strong portfolio reflows during the financial year (USD 653 million) were well absorbed by new disbursements amounting to USD 888.6 million during the year. This is remarkable considering the lack of visibility of potential COVID-19 developments and consequences on target investees which pushed the fund management to focus on the most resilient investees. A total number of 151 microfinance and other financial institutions received financing as of the reporting date. The average loan amount disbursed increased to USD 12.6 million (versus USD 11.1 million in the previous financial year). Outstanding loans show a wide portfolio diversification both at the country and regional level.

In order to enhance the outreach of the Fund, to diversify the assets base and to improve the liquidity profile of the Fund, the Company also continues to invest in fixed income securities in regional development banks and financial institutions operating in emerging market economies. As of 30 June 2021, the direct Fund allocation to bonds was 6.71% of the Fund's total assets. The Fund has also invested approximately USD 72.6m in BlueOrchard SDG Impact Bond Fund launched mid-August 2018 (with zero Management fee).

The Fund's outreach to emerging and frontier markets included as many as 53 countries as of 30 June 2021 and the Fund has disbursed since its inception 1,676 loans to specialized microfinance intermediaries

Local currency loans (fully hedged to the Fund reference currency) were regularly provided over the year and represented 44.91% of the total outstanding loan portfolio over the Fund's financial year. The importance of providing loans in local currency (fully hedged to the Fund reference currency) was also underscored in the year under review. Loans were granted to MFIs in 24 different frontier and emerging market currencies in addition to loans in US dollars and Euros.

The enhanced geographical portfolio diversification was achieved thanks to a proactive portfolio management approach. Over the period under review, the private debt investment level increased to represent 77% of total assets as of 30 June 2021. The portfolio average life decreased slightly from 23.64 to 20.40 months, which is still well below the Prospectus limit of 30 months. The combined five largest outstanding MFI positions as a percentage of total fund assets slightly increased from 9.19% to 10.34% over the year. The largest outstanding exposure of an MFI to the Fund's total assets was at 2.81% as of 30 June 2021 (versus 2.25% as of 30 June 2020).

Use of the proprietary BlueOrchard Credit Scoring and Financial Strength System (BOSCO), launched in June 2012 and periodically upgraded since that time, continued to ensure a disciplined, risk-pricing approach for newly disbursed loans and led to stable risk-adjusted returns in line with the previous period. As of 30 June 2021, the private debt portfolio generated a current spread above USD Libor 6 months of 491 basis points.

Moreover, outreach and social performance indicators continue to demonstrate the development impact of the BlueOrchard Microfinance Fund: Over 1,149,619 micro-entrepreneurs were reached by funding provided by the Fund as of 30 June 2021, a decrease of approximately 87 thousand since last year. The total number of micro-entrepreneurs served by institutions in the Fund's portfolio was reported to be nearly 28.57 million as of the same date. The percentage of rural borrowers increased to 56%, and the percentage of female borrowers remained at 77%. The median loan size to micro-entrepreneurs increased to USD 3,541 from 2,835, underlining that the Fund has remained true to its social mission of serving the unbanked and underbanked populations at the bottom of the pyramid since its launch in 1998.

Report on activities of the Board of Directors (continued)

The COVID-19 outbreak has continued to affect the local economies where the Fund operates as a result of another increase of infection levels which is making countries re-introduce containment measures. The extent of the economic impact is different from country to country and is more pronounced in countries with existing vulnerabilities and a lower financial capacity of the government to provide direct support to the economy. The Fund has been using forward-looking adjustments to capture the countries' deterioration of economic growth outlook during the fiscal year. The financial performance of investees of the Fund has been continuously reviewed and assessed for signs of an increase in credit risk.

As a result of the negative economic impact of the pandemic, the average portfolio growth of microfinance institutions (MFIs) on a 12-month slowed down to 9.78%, while portfolio quality deteriorated. In addition, the Board and the Portfolio Manager are regularly following the operating environment developments and the performance of all investments.

As at 30 June 2021, however, there has been no significant deterioration in the portfolio of the Fund. The vast majority of MFIs have duly paid their contractual obligations. Overall, the industry is still showing once again its resilience, and thanks to the Fund's proactivity in engaging with investees as soon as possible in case of difficulties, the quality of the Fund's portfolio has not been damaged significantly. Net loan provisions posted during the fiscal year represent about only 0.5%. The COVID-19 outbreak has not impeded the Fund's ability to operate on a going concern basis.

Following the REGULATION (EU) 2019/2088 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 November 2019 on sustainability-related disclosures in the financial services sector, the Company Fund has been categorized under Article 9 and the pertinent disclosures have been made to the Fund documentation and website. The Fund investments have been assessed using BlueOrchard's B. Impact Framework (formerly SPIRIT) for the measurement and monitoring of the Fund's sustainable investment objectives and has been subject to materially similar assessments for approximately 10 years.

On behalf of the Fund's Board of Directors, we would like to thank our distinguished investors for their trust and commitment in making this fund so successful.

Luxembourg, 4 October 2021

The Board of Directors

Note: The information in this report represents historical data and is not an indication of future results.

Audit report

To the Shareholders of BlueOrchard Microfinance Fund

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of BlueOrchard Microfinance Fund (the "Fund") as at 30 June 2021, and of the results of its operations and changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the statement of net assets as at 30 June 2021;
- the statement of operations for the year then ended;
- the statement of changes in net assets for the year then ended;
- the statement of investments and other net assets as at 30 June 2021; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control:
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern
 basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists
 related to events or conditions that may cast significant doubt on the Fund's ability to continue as a
 going concern. If we conclude that a material uncertainty exists, we are required to draw attention in
 our audit report to the related disclosures in the financial statements or, if such disclosures are
 inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to
 the date of our audit report. However, future events or conditions may cause the Fund to cease to
 continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events
 in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the financial statements

as at 30 June 2021

Note 1 - General information

BlueOrchard Microfinance Fund (hereinafter referred to as the "Company" or the "Fund") was incorporated in the Grand Duchy of Luxembourg on 18 September 1998 for an unlimited period, in the form of a public limited liability company ("société anonyme"). The Company is an umbrella fund qualifying as an open-ended collective investment scheme with variable capital ("société d'investissement à capital variable" ("SICAV")). The Company is governed by the provisions of part II of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investments, as amended.

The Company qualifies as an Alternative Investment Fund ("AIF") under the Law of 12 July 2013, as amended (the "2013 Law"), on Alternative Investment Fund Managers ("AIFM") implementing Directive 2011/61/EU of the European Parliament and of the Council of 8 June 2011 on Alternative Investment Fund Managers.

The Company has appointed BlueOrchard Asset Management (Luxembourg) S.A., a public limited company, as External AIFM governed by the 2013 Law.

Copies of the Articles, the current Prospectus, the latest financial reports, semi-annual reports and accounts may be obtained free of charge during office hours at the registered office of the Company.

Copies of material contracts the Company has entered into are available for inspection during business hours at the registered office of the Company.

Note 2 - Principal accounting policies

a) Presentation of the financial statements

The financial statements of the Company are prepared in accordance with Luxembourg legal and regulatory requirements concerning undertakings for collective investment and with generally accepted accounting principles in Luxembourg.

The financial statements of the Company have been prepared on a going concern basis.

The accounts and the financial statements of the Company are expressed in USD and correspond to the financial statements of the sole Sub-Fund open.

b) Valuation of assets

The NAV is calculated on the basis of the value of the underlying investments of the Company determined as follows:

- The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as the External AIFM may consider appropriate in such case to reflect the true value thereof.
- 2) The value of securities and money market instruments or derivatives which are listed on an official stock exchange or dealt in on any other Regulated Market is based on the last available price on the stock exchange which is normally the principal market for such assets. If such prices are not representative of the fair value, such securities, money market instruments or derivatives as well as other permitted assets may be valued at a fair value at which it is expected that they may be resold, as determined in good faith by and under the direction of the External AIFM.
- 3) Debt instruments not listed or dealt in on any stock exchange or any other Regulated Market are valued at the outstanding face value; such value is adjusted, if appropriate, to reflect the appraisal of the External AIFM on the creditworthiness of the relevant debt instrument. The External AIFM uses its best endeavours to continually assess this method of valuation and recommend changes, where necessary, to ensure that debt instruments are valued at their fair value, deemed to be the net present value calculated on the basis of the relevant interest rate market conditions applicable to the currency in which the relevant debt instrument is denominated taking into consideration any applied interest rate and currency hedging mechanism, as determined in good faith by the External AIFM. If the External AIFM believes that a deviation from this method of valuation may result in material dilution or other unfair results to Shareholders, the External AIFM takes such corrective action, if any, as it deems appropriate to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results.
- 4) The amortized cost method less impairment (if applicable) of valuation for short-term transferable debt securities in the Sub-Fund of the Company may be used. This method involves valuing a security at its cost and thereafter assuming a constant amortization to maturity of any discount or premium regardless of the impact of fluctuating interest rates on the market value of the security. While this method provides a systematic approach to valuation,

Notes to the financial statements (continued)

as at 30 June 2021

it may result during certain periods in values which are higher or lower than the price which the Sub-Fund would receive if it sold the securities. For certain short term transferable debt securities, the yield to a Shareholder may differ somewhat from that which could be obtained from a similar Sub-Fund which marks its portfolio securities to market each day.

- 5) The value of shares/units in investment funds is based on the latest available valuation. Generally, shares/units in investment funds are valued in accordance with the methods provided by the instruments governing such investment funds. These valuations are normally provided by the investment fund administrator or valuation agent of an investment fund. To ensure consistency within the valuation of the Sub-Fund, if the time at which the valuation of an investment fund was calculated does not coincide with the valuation time of the Sub-Fund, and such valuation is determined to have changed materially since it was calculated, then the NAV may be adjusted to reflect the change as determined in good faith by and under the direction of the External AIFM.
- 6) The loan portfolio is mainly valued using a synthetic method. That means that for a loan in local currency, hedged by a cross currency swap or a forward exchange contract, the loan portfolio shows the loan position in USD (reference currency) and the USD notional is equal to the USD leg of the related cross currency swap or forward exchange contract. For each loan in local or reference currency hedged by an interest rate swap, the interests recorded in the accounts are the final interests to be received, based on the related interest rate swap.
 - In case of impairment, the synthetic valuation method is not used. The loan and the related swap or forward contracts are desynthetized. The loan is recorded in the local currency as defined by the initial agreement between the counterparties. The swap or forward contract is recorded in the accounts based on the initial transaction.
- 7) Interest rate and cross currency swaps bought to hedge interest and/or currency risk of a debt instrument and whose cash-flows on one leg of the swap correspond perfectly to the cash-flows of the associated debt instruments in terms of amounts and payment dates are amalgamated with the associated debt instrument. As a result of the elimination of interest rate and currency risk, swap and debt instruments are valued together in USD at the outstanding face value of the debt instrument. Interest rate and cross currency swaps for which no corresponding debt instrument with matching cash-flows exist are valued at market value which itself depends on various factors (e.g. level and volatility of the underlying asset, market interest rates, residual term of the swap). Any adjustments required as a result of issues and redemptions are carried out by means of an increase or decrease in the nominal of the swaps, traded at their market value.
- 8) Open futures contracts are valued at the last settlement or close price on the stock exchanges or regulated markets
- 9) The valuation of derivatives traded over-the-counter (OTC), such as forward or option contracts not traded on exchanges or on other recognized markets, are based on their net liquidating value determined, pursuant to the policies established by the External AIFM in a consistent manner for each category of contracts. The net liquidating value of a derivative position is to be understood as being equal to the net unrealized profit/loss with respect to the relevant position.
- 10) The value of all other assets is determined prudently and in good faith by and under the direction of the External AIFM in accordance with the relevant valuation principles and procedures.
- 11) In the event that, for any assets, the price as determined pursuant to subparagraph 2) or 3) is not representative of the fair market value of the relevant assets, the value of such assets are based on the reasonably foreseeable sales price determined prudently and in good faith by the external AIFM of the Company.

The External AIFM, in its discretion, may permit the use of other methods of valuation if it considers that such valuation reflects the value of any asset of the Company more accurately.

Impaired and/or previously impaired positions as of 30 June 2021 are as follows:

^{* &}quot;Provisions" represent the unrealised result per loan position. The latter is composed by the "market effect" and the "foreign exchange effect".

The decrease of provisions since 30 June 2020 amounts to 1,408,724.98 USD which represents 0.06 % of the NAV.

The following borrowers have been provisioned due to deterioration of their performance that happened prior to or unrelated to the COVID-19 crisis. The loan valuations as of 30 June 2021 for each of these investees are detailed below:

- Chase Bank Kenya Limited, a Kenyan bank, has been in receivership by the Central Bank of Kenya since April 2016 following a run on deposits triggered by the revelation of significant fraudulent activities. The bulk of its assets were sold off in April 2018 to satisfy deposit claims. To date, the administrators of the receivership have not provided financial update or given indications on the timing of any residual distributions. Probability of recovery is non-existent and the loan to this borrower was written off in June 2021.
- FINCA Nicaragua is a microfinance institution providing financing to MSMEs in Nicaragua. The borrower stopped
 payments to all lenders in September 2019, when its parent declared payment moratorium. A debt rescheduling
 agreement was finalized, however the investee has no clarity regarding the continuation of operations (loan portfolio
 keeps shrinking in the absence of new disbursements). The likelihood of recovery is low, hence this loan is now fully
 provisioned
- Financiera Fundeser, a financial institution operating in Nicaragua, was brought to the brink of regulatory intervention
 in the summer of 2019 due to continued political uncertainty and significant additional provisioning requirements of
 its coffee portfolio. The lenders agreed to provide further concessions and the shareholders injected fresh equity. In

Notes to the financial statements (continued)

as at 30 June 2021

November 2020 due to accumulated excess liquidity, the MFI did partial prepayment of 19% outstanding principal. As per the latest financial consultant's report, the financial situation is gradually improving and the investee is compliant with all covenants. While this borrower continues to perform as agreed, the exposure is deemed to be impaired at 24.72% for loan FUNDE015RRLN01 and 26.34% for loan FUNDE012RRLN01.

- Inicjatywa Mikro is a Polish microfinance institution operating under the Wind-Down Agreement it entered into with its lenders in July 2018. The borrower continues to makes repayments to its lenders from portfolio collections every month. As of April 2021, it has repaid slightly more than 40% of the outstanding balance at the start of the wind-down. Provisioned amount has remained unchanged and the value of the remaining loans to this Borrower stands at 19.83%.
- Financiera TFC is a Peruvian microfinance institution which is in liquidation by the Peruvian liquidator since December 2019. It was intervened due to provisioning deficit, following a protracted interaction regarding adequacy of loan portfolio provisioning. Given the ongoing litigation between the regulator and shareholders, constantly deteriorating portfolio quality, there are substantial uncertainties relative to the liquidation process and timing of any distributions. Hence, the senior loan TFCPE001LN01 is fully provisioned and the subordinated loan TFCPE003LN01 was written off in June 2021.
- Trustco Finance is a Namibian financial institution focused on providing student loans and part of the Trustco Group Holdings. The Borrower defaulted on the Standstill Agreement with its lenders in Q4 2019, following a deepening macro-economic deterioration in Namibia. Renewed debt rescheduling discussions resulted in the amended intercreditor and bilateral agreement which inter alia provided a long grace period (till January 2024) in October 2020. The existing senior lender is going to provide a new facility. Given the junior position as an unsecured lender and further uncertainties which depends on borrower's ability to attract new investors for its property and mining businesses, additional provisions were taken and the loan is valued at zero.
- Vitas S.A.L, a Lebanese microfinance institution, was unable to make payments to its international lenders due to capital controls in Lebanon that were imposed in the autumn of 2019. Discussions on a Standstill Agreement were concluded in Q4 2020 with a new repayment schedule and cash sweep mechanism (first payment already received in December 2020). The loan VILEB003LN01 and VILEB003LNN01 are impaired with a valuation of 39.05% and 79.10% respectively of the outstanding amount.

In addition, the COVID-19 crisis has negatively affected the operations of most BOMF borrowers to some extent. The Fund Manager has reviewed carefully the financial and operational position of every investee of the Fund in order to assess the severity of the impact from the pandemic. Borrowers with large share of loan portfolio to sectors that have been particularly badly hit by the pandemic are the most affected. Moreover, local regulator-mandated moratoria on payments to the financial institutions in many countries where the Fund is invested have led to decreased liquidity due to low collections. To avoid liquidity crunch, several borrowers are rescheduling repayments of principal amounts due in FY2020.

The following borrowers have shown deterioration in their performance evidenced by increasing portfolio delinquencies, falling profitability, low liquidity levels or decreased capitalisation ratios based on the monthly financial accounts since the start of the pandemic. As a result, the loans to these borrowers are considered impaired as of 30 June 2021, with details on each loan valuation as follows:

- Edpyme Acceso Crediticio is a leading player in the Peruvian car loan market. Ca. 70% of Acceso's GLP is dedicated to the transport sector which is one of the economic sectors that was most severely impacted by quarantines imposed in Peru in 2020 and lately in February 2021. Consequently, the MFI had to provide moratoria to its clients representing 80% of GLP as of Aug-20. These significant impacts resulted in the request to reschedule its loans. Therefore, the loans ACCPE009RRLN01, ACCPE009RRLN02 are valued at 75.21%, ACCPE012LN01 and ACCPE012LNN01 are valued at 77.19%; ACCPE012LN02 and ACCPE012LNN02 are valued at 76.74%.
- Credisol is a microfinance institution providing financing to MSMEs in Honduras. After the initial rescheduling in 2020, due to liquidity constraints the borrower requested another rescheduling for its 2021 maturities. On top of that certain corporate governance irregularities were revealed by the regulator, which led to CEO dismissal. As part of the rescheduling the lenders are discussing a roadmap for corporate governance improvements. As result of this and weakening portfolio quality, the loans are valued at 80% [CREHO007LN01] and 78.58% [CREHO008LN01].
- BANCO D-MIRO is an Ecuadorian bank specialized in microfinance. Despite the COVID-19 impact and cancelation of merger with Banco Solidario, it keeps performing as planed with manageable liquidity and solvency position. Payments to international lenders will resume in September 2021 with more than half of payments to BOMF due in Q4 2020 and Q1 2021. The loans are valued at 93% [DMIRO041LN01, DMIRO041LN02, DMIRO042LN01, DMIRO042LN03], 78.22% [DMIRO043LN01], 77.72% [DMIRO043LN02], 77.68% [DMIRO044LN01, DMIRO044LN02] and 77.72% [DMIRO044LN03].
- Equipate is a second-tier Mexican microfinance institution. It started experiencing liquidity issues in December 2020 (the payment to BOMF) was ultimately made though. However, due to another lockdown in Mexico and substantial issues with collections it requested a standstill and development of a comprehensive restructuring plan which is developed by a financial advisor. The loans are currently valued at 92.26% [EQTMX001LN01], 90.59% [EQTMX001LNN01] and 93.02% [EQTMX007LN01].
- Finca Jordan is a microfinance institution providing financing to MSMEs in Jordan. After the initial rescheduling in 2020, the borrower requested another rescheduling for all 2021-22 maturities (concluded in January 2021). As result of this and weakening portfolio quality and liquidity, the loans are valued at 83.31% [FINJO006LN02], 81.44% [FINJO006LN03], 82.64% [FINJO011LN01], 79.10% [FINJO011LN02], 81.44% [FINJO011LN03] and 83.19% [FINJO011LNN01].

Notes to the financial statements (continued)

as at 30 June 2021

- Indosurya is a leading SME financier in Indonesia providing mostly secured long-term loans. As a result of portfolio quality deterioration, which put stress on the liquidity position of Indosurya. FTI was hired as a financial consultant to evaluate collectability of the loan portfolio, monitor cash flows and come up with a restructuring proposal. To a large extent, the outcome of any restructuring option would depend on finding a strategic investor (under negotiations) as the current shareholder does not have financial capacity to provide the equity support needed. The loans are valued at 68.68% [IDSIN002LN01], and 48.24% [IDSIN004LN01, IDSIN004LN02, IDSIN004LN03].
- Indian School Finance Company (ISFC) is a leading Indian NBFI focused on the education sector. As a result of Covid and school closures it experienced liquidity issues and requested multiple rollovers. Based on the financial consultant's assessment in June 2021, a comprehensive restructuring plan entailing monthly repayments over 18 months was agreed. The outstanding NCDs are valued at 78.94% [ISFIN010LN01] and 78.33% [ISFIN012LN01].
- Megabank is a retail and SME-focused second tier bank in Ukraine. Its liquidity was affected by the Covid which necessitated rescheduling of the loans. Furthermore, as a result of delays in disposal of repossessed assets which was only partially related to Covid-19, the bank faced higher CAR requirements from the regulator (the assets were mostly repossesed over the last 5 years after the 2014-15 crisis). Based on the CAR gap analysis, partial conversion by senior loans into sub-debt was required to avoid regulator's intervention. The remaining senior loans are valued at 70.20% [MEGUK007LN01] and 72.57% [MEGUK010LN01]. The subordinated debt [MEGUK009LN01] is 100% provisioned given extremely low recovery prospects in 5 years (bullet maturity as required per regulator).
- PROGRESEMOS is the sixth largest microfinance institution in Mexico. As its business model relies on a large network of strategic partners (SPs) across Mexico, it became particularly vulnerable to the Covid-19 crisis and simultaneous partial retreat of state-owned development banks from the Mexican microfinance sector. Since substantial parts of SPs portfolios came under the moratorium, Progresemos experienced liquidity issues which led to a standstill on both interest and principal in 2H2020. International lenders commissioned Inpiring Development to conduct due diligence and come up with a restructuring proposal. Due to litigation cases from local lenders (represent minority of total funding) the company filed for involuntary bankruptcy protection in January 2021. Along with disagreement on the turnaround manager appointment, this caused a delay in restructuring negotiations with international lenders. Under involuntary bankruptcy filing the investee is obliged to negotiate restructuring plan within the specific timeline. Discussions between the the borrower and international lenders are set to resume in August. In case of failure to reach an agreement approved by the majority of lenders the investee has to be liquidated. Loans to this borrower are valued at 50.24% [PROGR015LN01 and PROGR015LNN01], 57.14% [PROGR017LN01], 60.12% [PROGR017LNN01] 52.41% [PROGR018LN01, PROGR018LNN01] and 54.46% IPROGRO20LN01. PROGR020LNN01 1.
- Siempre Creciendo is a microfinancing instituion in Mexico (and one of the Progresemos' strategic partners). As a result of Covid-19 it experienced rapid deterioration of its portfolio quality. In Q4 2020 the investee requested a comprehensive restructuring of all exposures (with longer-term repayment schedule) as the majority of its debt was represented by short-term roll over facilities provided by local lenders. The MFI filed for voluntary bankruptcy protection in the end of December 2020. Restructuring plan negotiations will resume in Q3 2021. The loans are valued at 42.17% [SICMX003LN01] and 46.76% [SICMX003RRLN01].

c) Acquisition cost of investments

The acquisition cost of investments held by the Sub-Fund that are denominated in currencies other than the reference currency of the Sub-Fund is converted into this currency at the exchange rate prevailing on the date of purchase.

d) Realised gain/(loss) on investments

The realised gains and losses on investments are calculated on the basis of the average acquisition cost and are disclosed in the statement of operations.

e) Investment portfolio income

Interest income accrued and payable are disclosed, net of any withholding tax.

f) Realised/unrealised results on forward foreign exchange contracts, swap contracts and futures contracts

Unrealised gains and losses of open contracts are disclosed in the statement of net assets. Realised gains and losses, unrealised gains and losses are disclosed in the statement of operations.

g) Formation and launching expenses of additional Sub-Funds

The costs and expenses incurred in connection with the creation of a new Sub-Fund shall be written off over a period not exceeding five years against the assets of such Sub-Fund only and in such amounts each year as determined by the Board of Directors on an equitable basis.

Notes to the financial statements (continued)

as at 30 June 2021

h) Conversion of foreign currencies

Cash at banks, other net assets and liabilities and the market value of the investments in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the financial statements. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Foreign exchange gains or losses are disclosed in the statement of operations.

i) Transaction fees

Transaction costs disclosed under the item "Transaction fees" in the expenses of the statement of operations are mainly composed of broker fees incurred by the Company and of fees relating to liquidation of transactions paid to the depositary as well as of transaction fees on financial instruments and derivatives.

Note 3 - Management fees

In consideration of the external AIFM services rendered to the Sub-Fund, the external AIFM, BlueOrchard Asset Management (Luxembourg) S.A., receives an external AIFM fee, calculated on the net asset value per end of month of each Share Class, respectively on the monthly average net asset value of Class D shares, and payable monthly in arrears.

The applicable rates as at 30 June 2021 are as below:

Classes of shares	External AIFM fee (in % per annum)
Р	1.85 %
F	1.48 %
I	1.20 %
N	1.40 %
D	1.50 %
S	1.00 %
Н	For the combined net asset value:

In consideration of the investment management services rendered to the Sub-Fund, the portfolio manager, BlueOrchard Finance Ltd, receives an investment management fee, payable monthly in arrears out of the remuneration of the external AIFM, as agreed between the portfolio manager and the external AIFM.

BlueOrchard Asset Management (Luxembourg) S.A. has appointed Credit Suisse Asset Management (Switzerland) AG as its Share Class hedging manager for the Company. The related fee is calculated on the basis of the average currency assets under management, on a pro rata basis at the end of every quarter.

Notes to the financial statements (continued)

as at 30 June 2021

The applicable rates as at 30 June 2021 are as below, with a minimum fee per annum of CHF 80,000:

Currency assets	Fee (in % per annum)
Tranche up to USD 300 million	0.03 %
Tranche from USD 300 million to USD 1 billion	0.02 %
Tranche above USD 1 billion	0.01 %

Note 4 - Management fees of the target funds

The maximum management fee rates at target funds level as at 30 June 2021 are as below:

Target funds	Management fee (in % per annum)

^{*} based on the Currency Exchange Fd annual statements 2020

Note 5 - Depositary fees and central administration costs

Depositary and paying agent:

The fees and costs of Banque de Luxembourg S.A. for its function as depositary bank and paying agent are met by the Company and are those generally charged in Luxembourg.

These fees are disclosed under the item "Depositary fees" in the statement of operations.

Administrative, registrar and transfer agent, and domiciliary agent:

The fees and costs of European Fund Administration S.A. for its function as administrative, registrar and transfer agent, and domiciliary agent, are met by the Company and are conform to common practice in Luxembourg.

These fees are disclosed under the item "Central administration costs" in the statement of operations.

Note 6 - Subscription, redemption and conversion fees

The subscription price may be increased by a sales charge of up to a maximum of 4%, which shall revert to the relevant sales agent.

No redemption charge will be levied on the redemption price for all Classes of shares, except Class S shares. With respect to Class S shares, a redemption charge of 1.5% of the NAV per share will apply, unless the relevant redemption request is below 5% of the latest NAV of the Sub-Fund at the time of the redemption request, in which case, no redemption charge will apply. At the date of the financial statements, no such fee was charged by the Company.

No conversion charge will be levied on conversion of shares.

Notes to the financial statements (continued)

as at 30 June 2021

Note 7 - Subscription tax

The Company holds LuxFlag Microfinance Label and hence is exempted from this tax.

Note 8 - Changes in investments in securities

The statement of changes in investments in securities for the period referring to the report is available free of charge at the registered office of the Company.

Note 9 - Master Credit Facility Agreement with Credit Suisse (Schweiz) AG

The Company and Credit Suisse (Schweiz) AG signed a Master Credit Facility Agreement on 2 July 2019 for an unlimited period of time, by which Credit Suisse (Schweiz) AG agrees to grant the Company a maximum credit line of 10 million USD, which can be used as a current account overdraft on all present and future accounts in USD and/or other freely convertible foreign currencies.

The Company transferred on a pledged account 191,000 shares of the investment fund "BlueOrchard UCITS Em Mk SDG Impact Bd Fd BO Cap" in favour of Credit Suisse (Schweiz) AG.

Note 10 - Overdraft facility agreement and credit facility agreement with Banque de Luxembourg S.A.

The Company and its depositary, Banque de Luxembourg S.A., signed an overdraft facility agreement on 21 December 2016, by which the depositary agreed to grant the Company an overdraft facility in USD for the exclusive purpose of (i) bridge financing and (ii) covering non-realised losses on derivative transactions.

The overdraft facility agreement has been terminated with effective date on 30 October 2020.

The Company and its depositary, Banque de Luxembourg S.A., signed a credit facility agreement on 20 November 2020, by which the depositary agrees to grant the Company a credit facility for an amount of up to 10 million USD for the exclusive purpose of (i) bridge financing and (ii) covering non-realised losses on derivative transactions.

The Company transferred on a pledged account 230,000 shares of the investment fund "BlueOrchard UCITS Em Mk SDG Impact Bd Fd BO Cap" in favour of Banque de Luxembourg S.A.

Note 11 - Revolving Credit Facility agreement with Citibank, N.A., London Branch

The Company signed an agreement for a Revolving Credit Facility with Citibank, N.A., London Branch on 21 September 2020. Following the terms of the agreement the lender makes available to the Company a revolving loan facility in an aggregate commitment amount of 100 million USD for working capital purposes.

The Company pledged its bank accounts opened in the depositary's books as collateral in favour of Citibank, N.A., London Branch, excluding the pledged accounts mentioned in notes 9 and 10 above being in favour of Credit Suisse (Schweiz) AG, respectively Banque de Luxembourg S.A.

Note 12 - Forward foreign exchange contracts

As at 30 June 2021, the Sub-Fund is committed in the following forward foreign exchange contracts:

Forward foreign exchange contracts dealt for hedging currencies on loan or term deposit exposure:

These refer to the MFI debt portfolio hedging. As per the prospectus, "When investments in the Sub-Fund are made in currencies other than the reference currency of the Sub-Fund, such currencies will be hedged into the Reference Currency of the Sub-Fund with available hedging instruments for the maturity of the investment in question".

As at 30 June 2021, the Sub-Fund is committed in the following forward foreign exchange contracts, valued separately at year-end and no synthetic booking is applied for these positions. Please refer to the disclosures above for the details of the unrealised gain/loss of these contracts.

The above-mentioned Cross Currency swaps and non-deliverable Cross Currency swaps have not been valued separately at year-end. Indeed, rather than valuing separately the loans in the local currencies and the related Cross Currency swaps respectively the related non-deliverable Cross Currency swaps, the loans and the related contracts have been amalgamated as if they were synthetic loans denominated in USD. Those synthetic loans include the currency and the interest rate impacts.

Notes to the financial statements (continued)

as at 30 June 2021

In the case of swaps that are not perfectly hedging the interest rate or currency risk of the corresponding loan or term deposit, swaps are valued separately. As at 30 June 2021, the Sub-Fund is committed in the following Cross Currency swaps and non-deliverable Cross Currency swaps, valued separately at year-end:

Loan ID	Currency	Outstanding swaps sold in local currency	Outstanding swaps bought (in USD)	Fixed rate paid in local currency (in %)	Spread of swap received (in %)	Floating rate in USD	Counterparty for each cross currency swap	Maturity date	Unrealised result (in USD)

The above-mentioned interest rate swaps have not been valued separately at year-end. Indeed, rather than valuing separately the loans in the original interest rate and the related interest rate swaps, the loans and the related contracts have been amalgamated as if they were synthetic floating interest rates loans. Those synthetic loans include the interest rate impacts.

In the case of swaps that are not perfectly hedging the interest rate risk of the corresponding loan, swaps are valued separately. As at 30 June 2021, the Sub-Fund is committed in the following interest rate swaps, valued separately at year-end:

Loan ID	Currency	Nominal	Fixed rate (in %)	Spread of swap (in %)	Floating rate	Counterparty	Maturity date	Unrealised result (in USD)
FINANCIERA TFC PERU: TFCPE003 *	USD	5,000,000.00	10.50	8.04	BBA LIBOR USD 6M	Citigroup Global Markets Limited	23.12.2023	-250,464.13
VITAS LEBANON: VILEB001	USD	2,500,000.00	7.00	4.78	BBA LIBOR USD 6M	Citigroup Global Markets Limited	31.05.2023	-68,999.89

^{*} the corresponding loan was written off in June 2021.

Notes to the financial statements (continued)

as at 30 June 2021

Note 15 - Commitments on credit agreements

As at 30 June 2021, the Company is committed in the following credit agreements:

Counterparties	Date of agreement	Currency	Commitment	Called commitment	Uncalled commitment
Unifin Financiera S.A.B de C.V.	26 March 2021	USD	11,000,000.00	5,000,000.00	6,000,000.00
Banco Daycoval SA	29 March 2021	USD	25,000,000.00	16,000,000.00	9,000,000.00

Note 16- Events

Considering the recent increasing investor demand toward BlueOrchard Microfinance Fund and now anticipating much higher subscription volumes, the Board of Directors has decided to take pro-active measures in order to protect the interest of existing investors as well as the Company's investment strategy against dilution. As a consequence, the Board of Directors decided to set up a Soft Closing of the Company effective from 1 November 2019 and still in place as at 30 June 2021. The procedure has been implemented for an undetermined period of time and during the term, all subscription orders from new clients are subject to analysis and approval.

Following the REGULATION (EU) 2019/2088 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 November 2019 on sustainability- related disclosures in the financial services sector, the Company has been categorized under Article 9 and the pertinent disclosures have been made to the Company's documentation and website.

Note 17 - Subsequent events

On 10 September 2021, BlueOrchard Microfinance Fund and Asian Development Bank signed the Risk Participation Agreement. Following the terms of the agreement BOMF is entitled to receive the debt financing up to USD 50,000,000 for further disbursement of microfinance loan transactions to the eligible institutions. The agreement will focus on expanding Asian Development Bank's and BOMF's microfinance coverage and facilitate entry to new markets and segments. Over the next 4 years, more than 150,000 borrowers and microenterprises across India, Indonesia, the Philippines, and other developing countries are expected to receive financing under this partnership.

3. Additional information related to the AIFM

Percentage of the Fund's assets that are subject to special treatment owing to their non-liquid nature

None.

New measure taken to manage the Funds' liquidity

The Sub-Fund is managing its liquidity in compliance with the liquidity management policy and risk management policy taking into account the restrictions laid down in the Prospectus and the investment guidelines. There have been no material changes to the liquidity management policy for the year ended 30 June 2021.

Risk profile of the Funds:

	BlueOrchard Microfinance Fund
Leverage based on the commitment method (AIFM method)	102.4 %
Leverage based on the gross method (AIFM method)	159.0 %

Remuneration Policy

Board Remuneration:

The Board believes that the remuneration of its members should reflect the responsibilities and experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund. The remuneration is reviewed on an annual basis. No element of the remuneration paid by the Fund to the Directors is performance related.

Directors' Fees

The chairman is entitled to be paid a gross fee of EUR 20,000 per annum.

Two board members are entitled to be paid a gross fee of EUR 10,000 per annum.

One board member is entitled to be paid a gross fee of EUR 5,000 per annum

The total Directors' fees for the year amounted to EUR 45,000 of which EUR 20,000 was due to the Chairman.

Remuneration Policy

The current remuneration policy for the Management Company (the "Remuneration Policy") can be found at: http://www.blueorchard.com/policies/. This policy includes details of how remuneration and benefits are calculated, including the financial and non-financial criteria used to evaluate performance, the responsibilities and composition of the Firm's Compensation and Management Development Committee, and the measures adopted to avoid or manage conflicts of interest. A copy of this policy can be requested free of charge from the Management Company. The Remuneration Policy applies to all employees of the Management Company, including individuals whose professional activities may have a material impact on the risk profile of the Management Company or the funds it manages ("Identified Staff"). The Identified Staff include members of the Board of the Management Company (the "Board"), senior management, the heads of relevant Control Functions, and holders of other key functions. The Board of the Management Company reviews and adopts the Remuneration Policy on an annual basis, and oversees its implementation, including the classification of Identified Staff. The Board last reviewed and adopted the Remuneration Policy in October 2020 with no material changes and was satisfied with its implementation. The Remuneration Policy, and its implementation, is designed to foster proper governance and regulatory compliance. The remuneration structure as described in the Remuneration Policy is designed to contribute to the achievement of short-term and long-term strategic and operational objectives, while avoiding excessive risk-taking inconsistent with the risk management strategy. This is intended to be accomplished, in part, through a balanced total compensation program comprised of a mix of fixed remuneration (including base salary), and variable remuneration in the form of cash incentives and long-term, equity based or fund-tracking incentives that vest over time. A balanced assessment of employees' performance is undertaken taking account of business and financial results, risk and control outcomes. client/customer goals, and other priorities including people and leadership objectives as appropriate. The compensation governance practices contain a number of measures to avoid conflicts of interest, including independent oversight and control of the remuneration policy, and the assessment of employees in Control Functions against independent objectives linked to their functions.

Additional information (unaudited) (continued)

as at 30 June 2021

Quantitative Disclosures

The table below provides an overview of the aggregate total remuneration paid to staff of the Management Company during the financial year and the number of beneficiaries. Due to the Management Company's organisational structure, a breakdown on a fund by fund basis is neither relevant nor possible. The Management Company manages five AIFs and one UCITS fund, with a combined AUM as at June 2021 of EUR 2.88 billion.

	Fixed remuneration	Variable remuneration	Total remuneration	Number of
	(in EUR)	(in EUR)	(in EUR)	beneficiaries
All staff	508,835	104,914	613,749	6

Liquidity and risk reports

Liquidity and risk reports are available at the registered office of the AIFM.

Information to investors

There has been no material change during the period ending 30 June 2021 in the information to be provided to investors prior to investing as detailed under art 21 of the 2013 Law.

4. Information concerning the transparency of securities financing transactions and of reuse of cash collateral (regulation EU 2015/2365, hereafter "SFTR")

During the reporting period, the Company did not engage in transactions which are subject to the publication requirements of SFTR. Accordingly, no information concerning the transparency of securities financing transactions and of reuse of cash collateral should be reported.
