AXA World Funds - Global Flexible Property

A Sub-Fund of AXA World Funds SICAV

Share class: AXA World Funds - Global Flexible Property E (Hedged) Distribution Quarterly EUR (ISIN : LU1398148947)

This Sub-Fund is managed by AXA Funds Management S.A., part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The Sub-Fund seeks performance measured in USD by investing mainly in listed equities and debt securities issued in the global real estate market universe.

Investment Policy

The Sub-Fund is actively and discretionary managed in order to capture opportunities by investing in instruments issued on public capital markets by companies (including REITs) worldwide that are part of the real estate sector. These instruments may include, i.a., equities, bonds, preferred shares and convertible bonds. The real estate sector includes companies engaged in activities such as renting, buying, selling, developing, managing or brokering real estate.

Investment decisions are based on a combination of macroeconomic, sector and company specific analysis. Tactical allocation between equities and bonds will be driven by economic analysis and portfolio construction considerations. The issuer selection process relies mainly on a rigorous analysis of the companies' business model, its governance and its overall risk return profile.

The Sub-Fund will invest in transferable debt securities mainly rated investment grade issued by worldwide countries governments, corporations, public or private companies and supra-national entities, including warrants and asset-backed securities. The Sub-Fund may also invest in such transferable debt securities rated sub-investment grade.

Investment grade securities will be rated at least BBB- by Standard & Poor's or equivalent rating by Moody's or Fitch or if unrated then deemed to be so by the Investment Manager.

Sub-investment grade securities will be rated between BB+ and B- by Standard & Poor's or equivalent rating by Moody's or Fitch or if unrated then deemed to be so by the Investment Manager. In case of downgrade below B- by Standard & Poor's or equivalent rating by Moody's or Fitch or if unrated then deemed to be so by the Investment Manager, securities will be sold within 6 months.

If two different ratings of rating agencies exist, the lower rating will be considered, if more than two different ratings of rating agencies exist, the second highest rating will be considered.

The selection of credit instruments is not exclusively and mechanically based on their publicly available credit ratings but also on an internal credit or market risk analysis. The decision to buy or sell assets is also based on other analysis criteria of the Investment Manager.

The Sub-Fund may invest in money markets instruments.

The Sub-Fund may invest on an ancillary basis in shares issued out of the real estate market.

Within the limit of 200% of the Sub-Fund's net assets, the investment strategy may be achieved by direct investments and/or through derivatives. Derivatives may also be used for hedging purposes.

The Share Class aims at hedging the foreign exchange risk resulting from the divergence between the reference currency of the Sub-Fund and the currency of this Share Class by using derivatives instruments whilst retaining the exposure to Investment Policy described above.
