RWC Global Convertibles Fund

a sub-fund of RWC Funds SICAV | Class R USD HDG (LU1319692528) | The management company is MDO Management Company S. A. ("MDO")

Objectives and Investment Policy

Objectives

The fund aims to provide returns by investing in convertible bonds issued throughout the world.

Investment Policy

The fund's non-cash assets will be invested in convertible bonds issued by companies across the world.

The fund is a long-only fund that aims to offer investors balanced exposure to the best traits of the convertible bond asset class.

The fund will not invest in convertible bonds that are rated below B-/B3 by recognised rating agencies or, where this is not available, as assessed by the investment manager.

The fund may also invest in other types of investments on an ancillary basis. In addition, the fund may invest in collective investment schemes (including other sub-funds of RWC Funds).

Benchmark

The fund is not managed with reference to a benchmark index.

Distribution Policy

This share class accumulates income derived from the fund's investments. Any such income is retained by the fund and its value is reflected in the share price.

Dealing Frequency

Daily. Shares may be redeemed upon request.

Risk and Reward Profile

Lower Risk

Typically lower rewards

Higher Risk

Typically higher rewards

The risk and reward indicator

The indicator above illustrates the position of this fund and a standard risk/reward category scale. The category is chosen based on the volatility of returns over the past 5 years where available, otherwise simulated historical performance data was used and may not be a reliable indicator of the fund's future risk.

The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Operational risk

The fund's operations rely on third parties; therefore, there is a risk that the fund could suffer disruption or loss if a third party fails.

Liquidity risk

Investments may suffer liquidity impairment which may affect the fund's ability to buy or sell a position, or in extreme circumstances, accurately value a position without accepting a significant decrease in expected value of an investment.

Credit risk

An issuer of securities, or a trading counterparty, may be unable to meet its obligations when due. A default, downgrade or credit impairment may result in a significant or total loss of the investment.

Derivative risk

Investments in the fund may include financial derivative instruments. Such instruments may be used to obtain, increase or reduce exposure to underlying assets and may create gearing; therefore their use may result in greater fluctuations of the Net Asset Value of the fund. The manager will ensure that the use of derivatives is consistent with the overall risk profile of the fund.

Currency and foreign exchange risk

The fund's investments may be in currencies other than the fund's reference currency. In addition, share classes will be denominated in various currencies. Performance will therefore be affected by fluctuations between currencies.

Hedged share class risk

The aim of the hedged currency class is to provide you with performance and returns in your preferred currency whilst reducing the effect of foreign exchange fluctuations against the fund's reference currency. No hedge can be perfect and the share class may be adversely affected by foreign exchange fluctuations.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it; these charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures, and in some cases you may pay less. For actual charges, you can consult your financial adviser.

The ongoing charges figure is based on the actual figure for the year ending December 2018. The amount charged may vary from year to year.

More detailed information on charges, performance fees and how they are calculated can be found in the 'Management and Fund Charges' section of the prospectus.

Charges taken from the fund under specific conditions

There are no conditional charges taken from this fund.

Past Performance

The chart shows annual performance minus ongoing charges and performance fees. Performance is calculated based on the fund's reference currency, USD.

Past performance is not a guarantee of future performance. The value of your investment may go down as well as up and you may not get back the amount you originally invested.

The fund was launched on 29 December 2006. This share class began issuing shares on 11 November 2015.
