#### **GENERAL INFORMATION**

The following information is derived from and should be read in conjunction with the full text and definitions section of the prospectus.

The Principal Global Investors Funds ("the Trust") was constituted on 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS") under the laws of Ireland. Units of certain classes of the Trust are listed on Euronext Dublin (formerly the Irish Stock Exchange). The Trust has been authorised in Ireland pursuant to the European Communities (Undertakings for Collective Investments in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the "Central Bank UCITS Regulations").

Units are unhedged, except where otherwise noted.

For the year to 30 September 2020, the Trust comprised of the following Funds:

Fund	Type of Units	Launch Date
Global Equity Fund	A Class Income	4 December 1992

#### **DISTRIBUTIONS AND DISTRIBUTOR STATUS**

The Trust Deed provides for the Manager to decide to make, and for the Trustee on each distribution date to make, distributions among holders of income units and income plus units in each of the Funds. It is the intention of the Manager to make distributions to the extent that they are covered by income received from underlying investments. It is also the intention of the Manager that distributions will be declared on 30 September each year or nearest business day for all Income Unit Classes and Income Plus Unit Classes where possible. Annual distributions will be payable in respect of the A Income Unit Class on the Global Equity Fund, the A Income Unit Class on the European Equity, the A, A2, I, I2 and N Income Unit Classes on the Global Property Securities Fund. Quarterly distributions will be payable in respect of the A, I, D, F, N, P and X Income Unit Classes on the Preferred Securities Fund, the A, I and N Income Unit Classes on the High Yield Fund, the A and I Income Unit Classes on the Post Global Limited Term High Yield Fund, the A, A2, I, I2, I3, D, F and N Income Unit, A2 Income Plus Unit Classes on the Finisterre Unconstrained Emerging Markets Fixed Income Fund, the I2 Income Unit Class on the Finisterre VAG Unconstrained EM Fixed Income Fund and the N Income Unit Class on the Finisterre Emerging Markets Debt Euro Income Fund. There are no Income Unit Classes in issue currently on the Asian High Yield Fund. Monthly distributions will be payable in respect of the D2 Income Unit and D2 Income Plus Unit Classes on the Preferred Securities Fund, the D2 Income Unit and D2 Income Plus Unit Classes on the High Yield Fund, the D2 Income Unit class on the Global Property Securities Fund, the D2 Income Unit and D2 Income Plus Unit Classes on the Post Global Limited Term High Yield Fund, the D Income Unit and D Income Plus Unit on the Global Diversified Income Fund and the D2 Income Unit and D2 Income Plus Unit Classes on the Asian High Yield Fund. There are no D2 Income Unit Classes in issue currently on the Finisterre Unconstrained Emerging Markets Fixed Income Fund. Monthly distributions will also be payable in respect of the N2 Income Unit Class on the Preferred Securities Fund. There are no N2 Income Unit Classes in issue currently. There were distributions out of capital of \$541 (2019: \$Nil).

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

#### **CORPORATE GOVERNANCE**

The Board of Directors has adopted and applied standards of corporate governance that are consistent with the Irish Funds Code for the year ended 30 September 2020.

#### **CONNECTED PERSONS**

The Central Bank of Ireland ("CBI") UCITS Regulations, Section 43(1), Restrictions on transactions with connected persons - requires that any transaction carried out with a UCITS by a distributor, manager, trustee, administrator, depositary, investment adviser, sub-adviser and/or associated or group companies of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Unitholders of the UCITS.

Having regard to confirmations from the Manager's Designated Person for Capital and Financial Management and the Trustee, the Board of Directors is satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and is satisfied that transactions with connected persons entered into during the period complied with these obligations.

None of the Directors had any interests in the units of the funds for the period from 1 October 2019 – 30 September 2020.

#### **Prospectus & Supplement changes**

- A new Prospectus were issued on 19 December 2019. Significant updates included:
  - > The Manager may issue additional Income Units, Income Plus Units in funds Distribution Policy.
  - > Special Investment Considerations and Risks section updated to include disclosure outlining potential uncertainties resulting from changes in the UK political environment following the UK's decision to exit from the EU.
  - Hong Kong applicants may submit requests directly to the Administrator on public holidays in Hong Kong.
  - > Kamal Bhatia was appointed as non-executive director and chair of the Principal Global Investors (Ireland) Limited Board on 3 December 2019.
  - ➤ The definition of "Income Plus Units" has the meaning attributed to it in the Trust Deed.
- New supplement was issued for the European Equity Fund on 19 December 2019.
- New supplement was issued for the Preferred Securities Fund on 19 December 2019.
- New supplement was issued for the Global Property Securities Fund on 19 December 2019.
- New supplement was issued for the Post Global Limited Term High Yield Fund on 19 December 2019.
- New supplement was issued for the Origin Global Emerging Markets Fund on 19 December 2019.

  New supplement was issued for the Origin Global Emerging Markets Fund on 19 December 2019.
- New supplement was issued for the Origin Global Smaller Companies Fund on 19 December 2019.
- New supplement was issued for the U.S. Blue Chip Equity Fund on 19 December 2019.
- New supplement was issued for the European Equity Fund on 19 December 2019.
- New supplement was issued for the Asian High Yield Fund on 3 January 2020.
- New supplement was issued for the Global Diversified Income Fund on 17 January 2020.
- New supplement was issued for the High Yield Fund on 7 February 2020.
- New supplement was issued for the Finisterre Unconstrained Emerging Markets Fixed Income Fund on 7 February 2020.
- New supplement was issued for the Global Equity Fund on 16 March 2020.
- A new supplement was issued for the Finisterre VAG Unconstrained EM Fixed Income Fund on 17 April 2020, in advance of the launch of the fund on 29 April 2020.
- A new Prospectus was issued on 12 June 2020. Significant updates included:
  - ➤ In line with the Benchmark Regulation (2016/1011/EU) The Prospectus has been updated to include disclosure on the use of benchmarks.
  - > Wording relating to securities financing transactions ("SFTR") has been moved to the main body of the Prospectus and removed from individual Supplements.
  - > Removed reference to 3-month notice period for notification of Fund closures.
  - Tax disclosures within the Prospectus updated to account for the legislative updates.
  - > Anti-money laundering and counter terrorist financing measures disclosures have been updated.

#### **GENERAL INFORMATION (continued)**

#### SIGNIFICANT EVENTS DURING THE YEAR (continued)

#### **Prospectus & Supplement changes (continued)**

- New supplements were issued for the Global Equity Fund, European Equity Fund, Preferred Securities Fund, High Yield Fund, Global Property Securities Fund, Post Global Limited Term High Yield Fund, Origin Global Emerging Markets Fund, Origin Global Smaller Companies Fund, Global Diversified Income Fund, U.S. Blue Chip Equity Fund, Asian High Yield Fund and Finisterre VAG Unconstrained Emerging Markets Fixed Income Fund on 12 June 2020.
- New supplement was issued for the Finisterre Emerging Markets Debt Euro Income Fund on 17 August 2020, in advance of the launch of the fund on 28 August 2020.
- New supplement was issued for the Finisterre Unconstrained Emerging Markets Fixed Income Fund on 30 September 2020.

#### **Other Events**

- Effective 1 December 2019, BNY Mellon Trust Company (Ireland) Limited merged into The Bank of New York Mellon SA/NV, Dublin Branch, which itself is a wholly owned subsidiary of The Bank of New York Mellon (the "Merger"). Following the Merger, The Bank of New York Mellon SA/NV, Dublin Branch, is the entity, which provides trustee, depositary and/or custody services to the Company.
- Global Income Fund name changed to Global Diversified Income Fund on 17 January 2020.
- The UK left the EU on 31 January 2020, an event commonly known as Brexit. Following 31 January 2020 the UK entered
  a transition Period. The transition period ended at 23:00 GMT (00:00 CET) on 31 December 2020. On 24 December
  2020, a permanent trade agreement was reached between the UK and EU. The Manager does not believe that Brexit will
  present significant issues that cannot be mitigated.
  - The Manager is part of a global group and has been committed for many years to meeting clients needs across Europe in both EU and non-EU countries. The change in the UK's status as an EU to a non-EU country will not change the Group's focus or commitment to serve its clients across Europe. The Manager continues to monitor developments closely.
- During the period, the outbreak of COVID-19 has continued to rapidly spread around the world, causing considerable uncertainty for the global economy and financial markets. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not known. The Manager continues to monitor the situation closely. COVID 19 may have a significant adverse impact on the value of a Fund's underlying investments as a result of continued market volatility, and a period of economic decline globally which may also increase the risk of insolvencies of issuers of a Fund's underlying investments. There is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Funds' market price risk and liquidity risk is managed by the Investment Manager in accordance with policies and procedures in place. The Investment Manager will normally keep an allocation of cash to meet pending liabilities that may arise from time to time. The Funds' expected cash flows on these instruments do not vary significantly from this analysis, except for net assets attributable to holders of redeemable participating shares. Typically, shares are held by unitholders on a medium- or long-term basis. During extreme or unusual market conditions, as outlined in the prospectus, the Manager may place restrictions on redemptions such as by extending settlement, gating daily redemption to 10% or suspending redemptions. During the period COVID-19 did not impair the Funds' ability to satisfy redemption requests.

There have been no other significant events affecting the Funds during the year ended 30 September 2020.

#### SIGNIFICANT EVENTS AFTER THE YEAR END

• Since year end COVID 19 continues to rapidly spread around the world. The ultimate economic fallout from the pandemic and the long-term impact on economies, markets, industries and individual issuers, are not known. The Manager continues to monitor the situation closely.

There have been no other significant events affecting the Funds after the year ended 30 September 2020.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2020

#### **Global Equity Fund**

For the twelve-month period ending 30 September 2020, the Global Equity Fund reported net performance of 14.35%.

The Fund executed on its expectation of participating on the upside, while protecting on the downside, evidenced by many consecutive periods of outperforming in the various and volatile quarterly markets.

Relative sector performance was very strong, highlighted by communication services and information technology.

Global equity markets continued their historic recovery through the end of the period, officially moving on from the shortest bear market in US history.

The past year has been highlighted by accelerating trends, monetary and fiscal support and the US election.

- o Accelerating trends COVID-19 has amplified established secular trends in e-commerce, digital payments, work from home and cloud computing, underlying continued leadership in technology and consumer discretionary sectors.
- o Monetary and fiscal support government stimulus programs and highly accommodative monetary policies worldwide have provided key supports to economic and market recovery, with the US Fed pledging a continuation for the next two years or more.
- o US elections volatility has increased as markets brace for a highly contentious, and potentially contested, presidential election, as well as possible changes in control of the House and Senate.

Equity markets are likely to remain volatile leading up to the US elections, including the possibility of civil unrest. Capital markets in the US and abroad could face additional difficulty if the US presidential election is contested and a clear winner is not determined quickly. This is a real possibility, particularly with the intense scrutiny of mail-in ballots which may be a much larger proportion of total votes than ever seen before.

Our analysts remain focused on companies with more leverage, scrutinizing the balance sheets to ensure companies will be able to withstand the current environment and/or represent an off the beaten path investment opportunity. We remain willing to pay a higher valuation for earnings certainty, but visibility has been lacking. We have high confidence in our investment process and know that over time company fundamentals will drive stock prices. As a result, we continue to focus on meaningful and sustainable company-specific fundamental change, while not overpaying for it.

#### **European Equity Fund**

For the twelve-month period ending 30 September 2020, the European Equity Fund reported net performance of 11.38%.

Global equity markets surged into the end of the year as year-long uncertainties began to find clarity. The trade deal and UK election outcome proved to be significant catalysts that spurred a risk-on rally to close out the year inducing a shift into market laggards, namely emerging markets and smaller companies, while bond-proxy sectors that previously could do no wrong were significant laggards amid profit taking.

Capital markets were severely disrupted in the first quarter of 2020, primarily due to the continuing and uncertain path of COVID-19 pandemic. The sharp downdraft was especially pronounced in mid-March and exasperated by the abrupt dissolution of the Russian-Saudi OPEC+ coalition, driving a historic plunge in oil prices and reverberating across the global economy.

No sector or geography was spared in the quarterly carnage, but the hardest hit areas included those most impacted by falling travel, tourism, leisure and discretionary, as well as the energy sector and related industrials. The financial sector was also hit by deteriorating credit conditions and falling interest rates. Perhaps unsurprisingly, the European health care sector was less hard hit. A stronger US dollar put further downward pressure on European equity market returns. The global sell off was particularly harsh for smaller capitalisation shares and value-oriented strategies, particularly reflecting the rout in energy, financials and consumer cyclicals. Smaller companies underperformed their larger peers during the quarter.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2020 (continued)

#### **European Equity Fund (continued)**

Equity markets pivoted from one of their worst quarterly returns on record to posting gains in the second quarter not seen in decades. A reopening in many parts of the world and further implementation of unprecedented monetary measures by global central banks and governments spurred a risk-on rally across many risk assets with growth stocks accelerating already wide dispersions versus their value-oriented peers.

Markets continued their historic recovery in the third quarter officially moving on from the shortest bear market in US history. European stock markets have recovered somewhat from the precipitous falls of March, though flatlined over the summer. Growth-oriented companies, namely within information technology and consumer discretionary, maintained their leadership amid amplified established secular trends in e-commerce, digital payments, work from home and cloud computing where earnings seemed to be insulated from the pandemic supported by powerful earnings growth, expanding profit margins and high returns on capital.

The UK remains in a transition, and formally leaves the European Union at the end of the year. Talks are ongoing concerning a trade deal, but little progress has been made. This is not unexpected, as typically only a looming deadline will force some compromises.

Over the course of the third quarter, we did see a few spirited advances among cyclical value companies and industries, but each proved to be fleeting. It may seem a bit counter-intuitive, but "growth" oriented investment strategies tend to lead the markets when general economic growth is highly scarce. For a sustained improvement in the performance of value-oriented industries and companies, especially among smaller companies, an increase and broadening of global economic growth is paramount for more balanced market leadership.

Our analysts remain focused on companies with more leverage and scrutinizing the balance sheet to ensure the Fund will be able to withstand the current environment and/or present as an opportunity not fully recognised by the market. We remain willing to pay a higher valuation on earnings certainty, but visibility is lacking. We have confidence in our process and know that over time fundamentals will drive stock prices, thus we continue to make sure the fundamentals are solid and preferably improving and certain and that we do not overpay for this fundamental change.

European-led green and renewable initiatives are leading us into a "green industrial revolution" in parts of the world as companies look to do their part for the betterment of society including achieving net zero carbon emissions. Government spending for clean energy is rising as seen in Europe's newly announced Green Deal. The accelerating sustainable trend will drive further investment in companies with renewable generation capabilities and will warrant valuation premiums. Holdings to capture on this structural opportunity include Vestas Wind Systems, Neste, Kingspan and Iberdrola.

The Fund continues to opportunistically add to cyclical-value opportunities as economies reopen and begin to recover, whether it be a V-shape or wavier. The basis of this opportunity is driven by trough multiples as they remain laggards amid the growth-oriented equity market recovery, depressed order levels and expectation for government stimulus to increase demand which has begun to take hold.

Athleisure continues to embed itself as a dominant player in the fashion industry with its appeal broadening across the globe, highlighted most recently in China. The Fund is looking to take advantage of this accelerating trend, through holdings of Adidas, PUMA, and JD Sports

Lastly, the Fund remains positioned away from the banking industry, particularly of the larger variety. Banks like HSBC remain structurally impaired led by the historically low interest rate environment that is pressuring net interest income, regulatory pressures that are capping shareholder payouts as well as geopolitical uncertainties, particularly surrounding the UK and Hong Kong, capping growth opportunities. Negative interest rates in much of Europe are also putting pressure on banks margins.

Europe managed to suppress the virus after a first wave that overwhelmed in some countries, most notably Italy, Spain and the UK. Most markets have re opened, though as we move into winter the virus appears to be back. At the time of writing, most hospitals are still considerably below full capacity, and increased testing is revealing more cases, particularly asymptomatic ones. This has led to a more nuanced approach to lockdowns. Generally restrictions on gathering or late night drinking, but businesses are encouraged to remain open. We believe the recovery will continue, but selectivity remains key.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2020 (continued)

#### **Preferred Securities Fund**

For the twelve-month period ending 30 September 2020, the Preferred Securities Fund reported net performance of 4.19%.

The period can be defined by the COVID-19 panic in which the Fund experienced one of the most sudden and dramatic liquidity withdrawals since the Subprime Crisis 12 years ago. The period started off well against the backdrop of rallying equity, stable rates and tightening spreads. By the middle of January, spreads for junior subordination had again reach their tights equivalent to Q4 2017, but when the coronavirus pandemic gripped the economies in February credit blew of swiftly cutting performance by over 15% from its peak in January. We reduced concentrations primarily in CoCo paper and US bank additional tier 1 as the perpetual product has the highest spread duration which works against performance (and vice versa) more swiftly than dated paper. Once financial markets were calmed by record central bank support around the globe, the preferred securities market enjoyed one of its biggest rallies since the Sovereign Debt Crisis. By the end of the summer, the Fund had rallied over 16.5% and then took another leg up the last two months of the year. The Fund increased its allocation to subordinated debt, senior debt and US Treasuries to improve liquidity and to get a marginal play on more senior paper as first movers. By the end of the year, we positioned the Fund in some shorter term US Treasury notes for liquidity and tactics in advance of the US Elections.

Overall financial conditions are much improved and the US Federal Reserve Bank has no plans to either hike rates or alter the current pace of its bond purchases. We are very underweight the \$25 par market because of little relative value against \$1000 par institutional preferreds, which represent the best relative value in junior subordination. The CoCo sector continues to expand and trade well representing about 29% of the Funds allocation to junior subordination. The Federal Reserve ( "Fed") pivoted on rate hikes and cut rates two times this year. These insurance cuts, record employment and strong consumer confidence should foster opportunity for the U.S. economy to stabilise and grow modestly. The Fed's reentry into the repo markets and planned Treasury Bill ("T-Bill") purchases to increase excess reserves should support the market plumbing and progress on trade should steer sentiment into next year. We expect the credit environment to be constructive as the Fed remains supportive of growth with excess reserve expansion. A combination of tighter spreads and only modestly higher longer-term U.S. Treasury rates and high income should combine for a positive total rate of return for the fund's orientation to junior subordinated capital securities. The retail \$25 par market appears overvalued and we will remain underweight the retail sector. We expect the institutional sectors to do well because relative spreads to senior alternatives are attractive, duration risk is mitigated, and issuance should help guide secondary pricing.

# **High Yield Fund**

For the twelve-month period ending 30 September 2020, the High Yield Fund reported net performance of 2.36%.

Security selection positively impacted returns due to the outperformance from overweights to Adler Pelzer and CenturyLink, underweights to Chesapeake Energy and Hertz Global Holdings, and our positioning within the capital structures of Intelsat and CenturyLink. This was somewhat offset by the underperformance from overweights to EP Energy, Oasis Petroleum, and Ahern Rentals, and underweights to Petroleos Mexicanos and Teva Pharmaceutical. Sector allocation underperformed due to underweights to real estate and banking, and overweights to leisure and telecommunications.

Our base-case is for spreads to stay range-bound for the time being, with a year-end forecast of 500 for US and global high yield spreads. Our range-bound expectation for spreads is based on ongoing monetary support from central banks and the continued global hunt for yield, offset somewhat by mixed fundamentals. However, we do see a possibility for heightened volatility with several key risks on the horizon, such as; the potential for a second lockdown due to COVID, the upcoming US presidential and federal elections, the implications on corporate earnings of a Biden presidency, Brexit negotiations and the potential for a hard Brexit, ongoing and potentially escalating US-China tensions, and the long-term economic impact of the lockdown. From a bottom-up perspective, we continue to diligently follow our investment process by focusing on buying issuers with improving fundamentals and limited refinancing needs. Security selection remains paramount, as we continue to focus on issuers' exposure to the lasting impacts of the COVID crises and the risk of exposure to a potential second wave. From a ratings perspective, we see the best value in BB and B-rated credits.

We continue to further incorporate our dynamic ESG and data science Al initiatives into our fundamental research. These initiatives represent the continual evolution of our high yield investment process. These proprietary tools have allowed us to test our investment biases and have highlighted unique investment opportunities while expanding efficiencies across the high yield team.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2020 (continued)

#### **Global Property Securities Fund**

For the twelve-month period ending 30 September 2020, the Global Property Securities Fund reported net performance of -11.97%.

The Fund outperformed its benchmark in the trailing twelve months, mainly due to strong stock selection.

An underweight to retail across the globe, particularly in the U.S. shopping centers, Netherlands, Australia, Singapore and Canada, had the most significant contribution to alpha year to date. The sector suffered from COVID-19 social-distancing mandates and forced store closures earlier in the year. Though the sector rallied in the second quarter, second outbreak waves and ecommerce trends continued to put pressure on this risk-on sector year to date. Positioning in other secular sectors globally (particularly industrials, data centers, specialised residential, and lab office space), continues to be a contributor to relative performance, as these sectors perform more defensively in today's environment. Within U.S. office, avoiding office in favor of secular lab office stock, Alexandria, was a benefit. Pre-COVID-19, traditional office had been struggling to grow effective rents given a large increase in supply. COVID-19 accelerated those trends, and the work-from-home trend put further pressure on the sector.

Stock selection in Japan was the largest detractor to performance, due to our exposure to hotels, retail, and office which were pressured by travel restrictions, as well as the market reacting to the postponement of the Tokyo Olympics. Similarly, exposure to office and retail in Spain was a detractor to performance. Our over weights to U.S. coastal gateway apartment stocks was another detractor as renters exited dense urban hubs to seek more space amidst prolonged work from home trends.

The global spread of COVID-19 sparked a selloff in global Real Estate Investment Trusts ("REITs"). Commercial real estate serves the function of bringing people together for social or business interactions, and REITs failed to display their typical defensive characteristics in an environment of government-mandated social distancing. Concern over cash flow pressures on tenants impacted by distancing measures and credit market dislocations from an anticipated spike in bankruptcies pressured the capital-intensive REIT sector.

Many of our favorite stock ideas are these "structural growers", particularly data centers, towers, single-family rental, and industrial. We believe these companies are poised to deliver above average earnings growth over the long term, despite slowing economic trends, as demand for their properties are driven by structural or secular forces in the economy of how society utilizes certain real estate. Our portfolio is tilted away meaningfully from retail REITs globally and underweight in some of the biggest office markets such as New York and London.

As we head into the last quarter of the year, there are several factors which could spark a continuation of the volatility in both equity and public REIT markets that we have seen in recent weeks. First, the U.S. presidential election result - in particular, the winning margin and potential for a contested outcome - could create heightened uncertainty around and during the immediate aftermath of the election. Second, the renewal of U.S. fiscal stimulus has been delayed by a congressional gridlock, increasing the likelihood of a fiscal cliff in the fourth quarter. Third, the autumn season is upon us and there are signs of a renewed surge in virus cases. Looking beyond this, monetary policy remains extremely loose with central banks such as the Fed now prepared to tolerate some degree of inflation overshooting. Fiscal policy remains very expansionary with many countries outside of the U.S. readying supplementary budgetary stimulus measures to extend or increase the scale of existing policies. Momentum on finding a vaccine appears to be picking up with multiple vaccine candidates likely to start reporting data on trials in the coming months. Lastly, although U.S. politicians appear to be distracted by pre-election jockeying, the recent downward pressure on the stock market, if sustained, is likely to force some form of consensus which will likely make the renewal of stimulus a question of "when" rather than "if".

While the near-term outlook remains uncertain, REIT stock prices are discounting these structural concerns related to COVID and the cyclical concern of a loss in economic momentum. If events unfold that cause these concerns to go away, such as a vaccine surprise, fiscal stimulus sooner than later, or a material decline in COVID infection rates, then REITs could be poised for strong performance given how much they have lagged. Until then, the path forward for REITs may be filled with headwinds.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2020 (continued)

#### **Global Property Securities Fund (continued)**

In summary, there remains a great deal of uncertainty in the economic outlook not to mention longer term structural behavioral changes that may impact demand for real estate space markets as a result of COVID-19. We are cautiously optimistic going forward and will continue to evaluate relative valuations given expected uncertainty-induced volatility and search for opportunities in our bottom-up, stock selection focused approach. While we expect volatility to remain elevated in the days ahead, we believe short-term tilts designed to exploit sentiment shifts to be highly speculative and more likely to destroy alpha than generate it and thus we will be measured in making portfolio changes. We have very selectively rotated away from strength and added to cyclical themes on weakness given relative value and the potential for upside risks to REITs mentioned earlier; however, our portfolio positioning remains aligned with our medium to longer term outlook which clearly favors REITs with structural demand drivers.

# Post Global Limited Term High Yield Fund

For the twelve-month period ending 30 September 2020, the Post Global Limited Term High Yield Fund reported net performance of 2.59%.

The Fund continued to generate steady income returns from high quality businesses in more stable, defensive sectors including technology/software, cable/satellite, and telecommunications, with limited exposure to energy and commodity-related businesses.

After positive returns in Q4 2019 driven by strong returns in December, high yield markets experienced sharp weakness in Q1 2020 driven by COVID-19 becoming a global pandemic, triggering stay-at-home orders around the world and significantly curtailing economic activity. Beginning in February, we reduced exposure in select credits which we believed to be more susceptible from both a fundamental and technical perspective to COVID-19-related weakness. The Fund generated solid risk-adjusted returns protecting on the downside during the weakness in Q1 2020. Substantial monetary and fiscal stimulus in response to the pandemic was accompanied by significant fund inflows in Q2 2020, driving the high yield market to its best quarterly performance since the global financial crisis. The Fund opportunistically added exposure to defensive sectors and generated good positive performance. The high yield market continued to build on Q2 2020's strong gains in Q3 2020 buoyed by a benign interest rate environment (with the 10-year Treasury yield essentially unchanged on the quarter), continued fund inflows (albeit at lower levels than during Q2), and optimism around a recovery supported by (mostly) encouraging economic data and optimism over vaccine development. Credit quality remained good, as the Fund continued to be positioned defensively in what we believe are high-quality businesses.

While the Federal Reserve is likely to keep interest rates near zero for several more years and calling for more fiscal stimulus to bolster its monetary efforts, we believe the Fed "put" has become less of a tailwind in recent months as evidenced by the Fed stepping down their asset purchases in Q3. We also continue to believe that the post-pandemic recovery requires both a vaccine and a sustained period of uptake and compliance in order to restore the economy to something close to its pre-pandemic normality. In the near term, we are cautious regarding the potential turbulence associated with the November elections, when a shift of power (or the lack of a clear result) might cause risk assets to reprice again. Accordingly, the fund continues to be positioned defensively, in credits that we believe can withstand a challenging economic environment (and any associated volatility) and provide strong downside protection while maintaining sufficient cash in the portfolio to continue to be opportunistic with capital deployment in the primary and/or secondary markets.

#### **Origin Global Emerging Markets Fund**

For the twelve-month period ending 30 September 2020, the Origin Global Emerging Markets Fund reported net performance of 15.87%.

The Fund outperformed its benchmark during the twelve-month period. Allocation to and stock selection within Financials provided the most significant positive effect at sector level, followed by stock selection within Communication Services. Geographically, Taiwan was the leading contributor, followed by China, while the underweight Korea was marginally detracting.

Over the twelve-month period, the Fund's position in China was significantly decreased in favor of Taiwan, the latter now representing the largest country overweight. Consumer Discretionary was also increased, mainly at the expense of Financials and Energy.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2020 (continued)

#### **Origin Global Emerging Markets Fund (continued)**

Origin will continue to bias our portfolios towards high quality growing companies with reasonable valuations, above market EPS revisions and relative price strength. Braver investors than us will try to time individual markets and sectors but with much increased volatility, we feel that kind of approach is the investing equivalent of a game of Russian roulette. At times like this it is all the more important for us to stay in our lane. As always, we appreciate your confidence in us and your interest in what we do.

#### **Origin Global Smaller Companies Fund**

For the twelve-month period ending 30 September 2020, the Origin Global Small Companies Fund reported net performance of 9.17%.

The Fund outperformed its benchmark during the twelve-month period. Allocation to and stock selection within Information Technology provided the most significant positive effect at sector level, while Health Care was the main drag. Geographically, stock selection within North America was the standout contributor, followed by Europe ex UK, while Asia ex Japan was marginally detracting.

Over the twelve-month period, the Fund's position in the Emerging Markets was decreased in favour of North America, the latter representing the largest regional overweight. Consumer Discretionary was also increased, mainly at the expense of Information Technology.

Origin will continue to bias our portfolios towards high quality growing companies with reasonable valuations, above market EPS revisions and relative price strength. Braver investors than us will try to time individual markets and sectors but with much increased volatility, we feel that kind of approach is the investing equivalent of a game of Russian roulette. At times like this it is all the more important for us to stay in our lane. As always, we appreciate your confidence in us and your interest in what we do.

#### Global Diversified Income Fund (formerly Global Income Fund)

For the twelve-month period ending 30 September 2020, the Global Diversified Income Fund reported net performance of -1.72%.

A modest overweight to fixed income benefited performance as global value equities languished in negative territory, never fully recouping losses experienced in the March drawdown. Within fixed income the preferred securities sleeve drove performance as the asset class benefited from falling rates and tightening spreads. A bias towards BB preferred securities as well as favorable security selection within the BBB rated securities was particularly beneficial. Manager selection within emerging market debt benefited results, as the segment outpaced the performance of the EM debt within the global high yield index. The equity allocation lagged the benchmark index, due in part to a stronger value-bias, and lower market cap bias, neither of which were rewarded during the period. A slight underweight to US equities in favor of non-US equities also weighed on results.

The Fund seeks to achieve the investment objective by investing the majority of its assets (i.e. at least 70% of the Fund's Net Asset Value) in income-producing debt, equity, and hybrid securities. Hybrid securities are securities with features of both debt and equity securities. The Fund will consistently employ a global asset allocation investment process, which is based upon fundamental research driven, long-term focused security selection.

With the current market environment, the Fund has a slight overweight to fixed income and a corresponding slight underweight to equities. Within fixed income, we remain biased towards high yield corporates and preferred securities as their income components remain attractive relative to equity valuations. Additionally, we have a corresponding underweight to emerging market debt.

#### Finisterre Unconstrained Emerging Markets Fixed Income Fund

For the twelve-month period ending 30 September 2020, the Finisterre Unconstrained Emerging Markets Fixed Income Fund reported net performance of 3.17%.

Over the period, our strongest contributor was our positioning in Sri Lanka sovereign credit. With bond yields having retraced from 20+% when we initiated the position to 10% in September, we have flattened out the risk in the strategy as we wait to see how events unfold later in the year. Our lingering positioning in Indonesian local sovereign was also a strong contributor. Finally, switching some of our US T-Bill cash positions into long US Treasury 5Y and 10Y positions during the Covid meltdown also helped. On the other hand, our biggest detractor came from our largest positions held during the crisis as in Mexico financial debt and a large quasi sovereign oil company. Our exposure to Ghana sovereign credit, as an oil producer country, has also been a key detractor to the performance. Finally we saw losses coming from our exposure to an UAE healthcare company.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2020 (continued)

#### Finisterre Unconstrained Emerging Markets Fixed Income Fund (continued)

In late September 2019, we continued to add risk by participating in a number of new issues as well as investing in higher quality low volume corporates and were rewarded in 4Q19 as a result. Post year-end, the COVID-19 outbreak led us to be more tactical in terms of portfolio structure. We have also set up and actively traded several liquid portfolio hedging strategies, while successfully divesting to raise cash to 36%. We then started reengaging into high quality new issues first and then looking for selected value trades. While we started to increase our exposure to the Momentum bucket in May to participate to the recovery of the index. We then decided to reduce the risk in the beta bucket during the Summer while retaining exposure to steady income generating assets, and increasingly adding to idiosyncratic stories, at a time where we turn less sanguine about overall market momentum.

Markets experienced a setback in September 2020 due to concerns of increasing Covid cases in Europe, risk of a chaotic Brexit, uncertainty over a fiscal deal before the US election, the Fed and ECB largely being out of bullets and the possibility of a contested US election. After a strong V-shaped recovery, Developed Markets ("DM") growth showed signs of stalling while conversely, most large Emerging Markets ("EM") will continue to recover at a slow but steady pace as the trade-off between public health concerns and economy clearly tilts towards the latter. While a contested US election is still a concern, current polls strongly point towards a Biden victory with a comfortable margin. We believe getting a clear outcome, no matter the result, should reinstate focus on fundamentals (continued consistent recovery in EM vs. DM) and be supportive for the EM asset class. Increased odds of a pre-election fiscal deal should also offset some interim uncertainty. Finally, a breakthrough in a vaccine still remains in the pipeline into year end and should benefit large EM sovereigns with high case loads (e.g. India, Brazil). Indeed, we view the recent bout of volatility as a potential buying opportunity as both valuations (cheaper recently and still very attractive vs. DM) and technical (somewhat lighter positioning) have improved.

#### U. S. Blue Chip Equity Fund

For the period ending 30 September 2020, the U.S. Blue Chip Equity Fund reported net performance of 33.24%.

Company selection for the year contributed positively to the Fund's performance relative to the benchmark, but was overshadowed by headwinds from sector allocation. Industrials and Real Estate were the two sectors with the largest positive company selection, with holdings such as CoStar Group and American Tower performing better than their sector peers. Financials and Information Technology were the two sectors where company selection detracted most from relative performance. The shares of financial holdings Brookfield Asset Management and Berkshire Hathaway did not keep up with the market's strong performance.

Despite the extreme Covid-19 driven volatility in the first quarter of 2020, US equity markets experienced strong performance over the last year. Faster growing companies performed significantly better through this period, with the Information Technology sector leading the way. The PGIF U.S. Blue Chip Equity Fund performed in line with expectations through this market environment.

Given our time horizon as long-term, fundamental investors that commonly own shares in companies for several years, we do not have a near-term market outlook. We will continue to seek opportunities to invest in high quality companies that are managed by owner-operators and trade at a discount to our estimate of their intrinsic value.

#### Asian High Yield Fund (launched on 8 January 2020)

Since the launch of the fund on 8 January 2020 to 30 September 2020, the Fund reported net performance of 1.55%.

Over the period, our strongest absolute return contributor was our overweight NAV position in Chinese real estate sector which outperformed the overall markets. Overweight positions in the stable regional utility sector, active trading in the basic industry and technology sectors and opportunistic participation in investment grade sovereign new issuances were other major sources of positive absolute returns. Additionally, on a relative basis vs the benchmark, our underweight in Sri Lanka was a major relative return contributor although the curve underperformed and detracted from absolute returns.

Major negative return contributors were our position in energy issuer in China as well as to a non-bank finance company in India and gaming company in Macau, all of which were affected by COVID-19. On a relative basis vs the benchmark, our main underperformance was in the banking sector where a combination of overweight in Tier 1 paper and underweight in Tier 2 papers dragged from our relative performance.

#### **INVESTMENT ADVISER'S REPORT**

#### for the year ended 30 September 2020 (continued)

#### Asian High Yield Fund (launched on 8 January 2020) (continued)

The Fund started investing while the COVID outbreak was still in its early days and the signs of the pandemic's seriousness became clear only towards the end of January. After the initial investment phase and positive returns until February, the Fund was re-positioned for weaker market conditions in March and thus significantly outperformed the benchmark in March despite posting negative returns. When the Federal Reserve's market support measures were announced and the markets stabilized, the Fund started adding back risk by participating in cheaper new issues in both high grade and high yield issuers as well focusing on secondary market opportunities. After a pause in May due to concerns about COVID second wave and doubts about the economic rebound, the Fund reverted to adding risk throughout the rest of the period due to a favorable market backdrop and improving economic outlook in Asia. As the markets turned in September, the Fund took down some risk positions to build cash for any subsequent buying opportunities. Overall, the Fund posted a positive return during this period.

After a strong rebound from the lows in March, Asia high yield markets witnessed profit taking in September and posted negative returns, while still being up on the year. A combination of factors were responsible for the move in September – reduced likelihood of a fiscal deal in the US, the Fed refraining from further accommodation, rising COVID cases in Europe and some signs of consolidation of the recovery in the US, approaching US Presidential elections as well as idiosyncratic developments in certain large issuers in the Asia high yield markets. Meanwhile, economic performance in Asia was looking up, especially in China and North Asia being one of the earliest parts of the World to rebound from COVID-19. The relative strong economic rebound in North Asia and China should continue to support stable to improving fundamentals in large parts of Asian high yield markets despite certain idiosyncratic developments in certain higher risk sections of the market. A contested US election remains a concern although the markets are increasingly pricing this out. The Fund has reduced risk in certain higher beta segments of the Asia high markets while focusing on good quality carry opportunities as well as maintaining sufficient cash buffer to take advantage of any opportunities from volatility in the last quarter of this calendar year.

#### Finisterre VAG Unconstrained EM Fixed Income Fund (launched on 28 April 2020)

Since the inception of the Fund on 28 April 2020 to 30 September 2020, the Fund reported net performance of 5.36%.

Over the period, the Fund's strongest contributor was its exposure to Mexico, as we fully participated to the recovery of Mexican financials bonds, recovering some 40 points from apocalyptic levels in May. Our investment in Sri Lanka in May was also a positive contributor to the performance. With bond yields having retraced from 20+% when we initiated the position to 10% in September, we have flattened out the risk in the strategy as we wait to see how events unfold later in the year. Strong gains also came from Malaysia with a recovery in 1MDB and from our exposure to a gaming project. On the other hand, as it is often the case during a period of recovery, our biggest detractor was our credit hedging positions (EM CDX). We also experienced losses from our short ZAR position. Finally, we also saw losses coming from our position in a Ghana-focused oil and gas producer.

The Fund could not start investing at a better time as we launched the Fund at the bottom of the crisis. We then started engaging into high quality new issues first and then looking for selected value trades. While we started to increase our exposure to the Momentum bucket in order to fully participate to the recovery of the index. During the Summer, we then decided to reduce the beta risk bucket while retaining exposure to steady income-generating assets, and increasingly adding to idiosyncratic stories, at a time where we turn less sanguine about overall market momentum.

Markets experienced a setback in September due to concerns of increasing Covid cases in Europe, risk of a chaotic Brexit, uncertainty over a fiscal deal before the US election, the Fed and ECB largely being out of bullets and the possibility of a contested US election. After a strong V-shaped recovery, Developed Market growth showed signs of stalling while conversely, most large Emerging Markets will continue to recover at a slow but steady pace as the trade-off between public health concerns and economy clearly tilts towards the latter. While a contested US election is still a concern, current polls strongly point towards a Biden victory with a comfortable margin. We believe getting a clear outcome, no matter the result, should reinstate focus on fundamentals (continued consistent recovery in EM vs. DM) and be supportive for the EM asset class. Increased odds of a pre-election fiscal deal should also offset some interim uncertainty. Finally, a breakthrough in a vaccine still remains in the pipeline into year end and should benefit large EM sovereigns with high caseloads (e.g. India, Brazil). Indeed, we view the recent bout of volatility as a potential buying opportunity as both valuations (cheaper recently and still very attractive vs. DM) and technical (somewhat lighter positioning) have improved.

## **INVESTMENT ADVISER'S REPORT**

for the year ended 30 September 2020 (continued)

Finisterre Emerging Markets Debt Euro Income Fund (launched on 28 August 2020)

Since the inception of the Fund on 28 August 2020 to 30 September 2020, the Fund reported net performance of -2.67%.

Nothing to report on the PGIF Finisterre Emerging Markets Debt Euro Income Fund as it has not completed its first full month investing

Principal Global Investors, LLC October 2020

# Independent auditors' report to the unitholders of the Funds of Principal Global Investors Funds

# Report on the audit of the financial statements

# **Opinion**

In our opinion, Principal Global Investors Funds' financial statements:

- give a true and fair view of the Funds' assets, liabilities and financial position as at 30 September 2020 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 30 September 2020;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Movement in Net Assets Attributable to Redeemable Participating Unitholders for the year then ended;
- the Portfolio of Investments for each of the Funds as at 30 September 2020; and
- the notes to the financial statements for each of the Funds, which include a description of the significant accounting policies.

## **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Independence

We remained independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

#### Our audit approach

#### Overview

#### Materiality

Overall materiality: For Fixed Income Funds 100 basis points of Net Assets Value ("NAV") at 30 September 2020. For all other Funds of the Unit Trust overall materiality is set at 50 basis points of NAV at 30 September 2020 except for the terminating fund where overall materiality is 50 basis points of the average NAV for the previous 3 years.

#### Audit scope

The Trust is an open-ended investment Trust. We tailored the scope of our audit taking into account the types of investments within the Funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the Trust operates. We look at each of the Funds at an individual level.

#### Key audit matters

Existence and Valuation of Investments in Securities at Fair Value.

#### The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the manager made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the manager that represented a risk of material misstatement due to fraud.

#### Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

#### Key audit matter

# Existence and Valuation of Investments in Securities at

See the Portfolio of Investments for each Fund and refer to the Principal Accounting Policies of the financial statements of the Trust "Financial Instruments at Fair Value through Profit or Loss", "Accounting for Investments" and "Valuation of Investments" and "Financial Assets at Fair Value through Profit or Loss included within note 11 for further details.

The Investments in Securities at Fair Value in the Statement of Financial Position of each Fund are held in the No material issues were identified from the results of these Funds' name at 30 September 2020 and are valued at fair value in line with Generally Accepted Accounting Practice in Ireland.

These areas are considered key audit matters as they represent the principal elements of the financial statements.

#### How our audit addressed the key audit matter

We obtained independent confirmation of existence from the Depositary, agent banks and other counterparties of the Investments in Securities at Fair Value held at 30 September 2020. For a portion of the derivative positions we liquidated these positions to post year end bank statements to verify their existence.

We tested the valuation of the Investments in Securities at Fair Value, by independently agreeing the valuation of the investments to independent third-party vendor sources, where possible.

procedures.

#### How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Trust, the accounting processes and controls, and the industry in which it operates.

The manager controls the affairs of the Trust and is responsible for the overall investment policy which is determined by them. The manager has delegated certain responsibilities to Principal Global Investors, LLC (the 'Investment Adviser') and to BNY Mellon Fund Services (Ireland) Designated Activity Company (the 'Administrator'). The financial statements, which remain the responsibility of the manager, are prepared on their behalf by the Administrator. The Trust has appointed the Bank of New York Mellon SA/NV (the "Depositary") to act as Depositary of the Trust's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Trust's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

#### Materialitu

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Trust's Funds as follows:

Overall materiality and how we determined it	For Fixed Income Funds 100 basis points of (2019: 100 basis points) of Net Assets Value ("NAV") at 30 September 2020. For all other Funds of the Unit Trust overall materiality is set at 50 basis points of NAV at 30 September 2020 (2019: 50 basis points) except for the terminating Fund where the overall materiality is 50 basis points of the average NAV for the previous 3 years.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the Trust is to provide investors with a total return at a fund level, taking account of the capital and income returns.

We agreed with the Board of the Manager that we would report to them misstatements identified during our audit above 10 basis points of each of the Fixed Income Fund's NAV, for NAV per unit impacting differences and for all other Funds, misstatements identified during our audit above 5 basis points of each Fund's NAV [average NAV for the previous 3 years for the terminating Fund], (2019: 10 basis points of each of the Fixed Income Fund's NAV, for NAV per unit impacting differences and for all other Funds 5 basis points of each Fund's NAV [average NAV for the previous 3 years for the terminating Fund]) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

# Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (Ireland) require us to report to you where:

- the manager's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the manager has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Funds' ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Funds' ability to continue as going concerns.

#### Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The manager is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

#### Responsibilities for the financial statements and the audit

#### Responsibilities of the manager for the financial statements

As explained more fully in the Statement of Manager's Responsibilities set out on page 29, the manager is responsible for the preparation of the financial statements in accordance with the applicable framework giving a true and fair view.

The manager is also responsible for such internal control as the manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the manager is responsible for assessing the Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the manager intends to cease operations, or has no realistic alternative but to do so.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf.

This description forms part of our auditors' report.

#### Use of this report

This report, including the opinion, has been prepared for and only for the unitholders of each of the Funds as a body in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

# The Bank of New York Mellon SA/NV. **Dublin Branch**

Riverside Two, Sir John Rogerson's Quay Dublin 2. D02 KV60. Ireland.

T+353 1900 7920 F+35318291024

#### PRINCIPAL GLOBAL INVESTORS FUNDS

#### REPORT FROM THE DEPOSITARY TO THE UNITHOLDERS DATED 19 JANUARY 2021

For the period from 1 October 2019 to 30 September 2020 (the "Period")

The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary", "us", "we", or "our") has enquired into the conduct of Principal Global Investors (Ireland) Limited (the "Manager") in respect of Principal Global Investors Funds (the "Trust") for the Period, in our capacity as Depositary to the Trust.

This report including the opinion has been prepared for and solely for the unitholders in the Trust, in accordance with Regulation 34 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the "Regulations"), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

#### Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34 of the Regulations. One of those duties is to enquire into the conduct of the Manager in the management of the Trust in each annual accounting period and report thereon to the unitholders.

Our report shall state whether, in our opinion, the management has managed the Trust in that period in accordance with the provisions of the Trust's trust deed and the Regulations. It is the overall responsibility of the Manager to comply with these provisions. If the management of the Trust has not done so, we as Depositary must state in what respects it has not done so and the steps which we have taken in respect thereof.

#### Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34 of the Regulations and to ensure that, in all material respects, the management has managed the Trust (i) in accordance with the limitations imposed on the investment and borrowing powers of the Manager and Depositary by the trust deed and the appropriat e regulations and (ii) otherwise in accordance with the provisions of the trust deed and the appropriate regulations.

#### **Opinion**

In our opinion, the management has managed the Trust during the Period, in all material respects:

- in accordance with the limitations imposed on the investment and borrowing powers of the Manager and Depositary by the trust deed and the Regulations; and
- otherwise in accordance with the provisions of the trust deed and the Regulations.

The Bank of New York Mellon SA/NV is a Belgian limited liability company, authorized and regulated as a significant credit institution by the European Central Bank and the National Bank of Belgium under the Single Supervisory Mechanism and by the Belgian Financial Services and Markets Authority.

#### STATEMENT OF MANAGER'S RESPONSIBILITIES

#### Manager

The Manager of the Trust is required by the UCITS Regulations to prepare financial statements for each accounting period which gives a true and fair view of the financial position of the Trust at the end of that period, the results of its operations and the movement in net assets for the period then ended. In preparing these financial statements the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- · make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Trust will continue in operation.
- ensure that any transaction carried out with a UCITS by a management company or Depositary to the UCITS, the
  delegates or sub-delegates of the management company or Depositary, and any associate or group of such a
  management company, Depositary, delegate or sub-delegate ("connected persons") is carried out as if negotiated at
  arm's length. Transactions must be in the best interests of the Unitholders.

The Manager is responsible for keeping proper books of account which disclose with reasonable accuracy at any time the financial position of the Trust and for ensuring that the financial statements are prepared in accordance with accounting standards generally accepted in Ireland and for ensuring that they comply with the provisions of the Trust Deed, the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds. The Manager is also responsible with respect to its duties under the UCITS Regulations to take reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements are published on the www.principalglobal.com website. The Directors, together with the Manager and Principal Global Investors, LLC (the "Investment Adviser") are responsible for the maintenance and integrity of the financial information included on this website.

**Principal Global Investors (Ireland) Limited** 

#### STATEMENT OF DEPOSITARY'S RESPONSIBILITIES

#### **Depositary**

The Depositary is required by the UCITS Regulations, to:

- · maintain the assets of a Unit Trust in safekeeping;
- report to the Unitholders for each accounting period on the conduct of the Manager in the management of a Unit Trust.

The Bank of New York Mellon SA/NV, Dublin Branch

<sup>&</sup>lt;sup>5</sup>U.S. Blue Chip Equity Fund launched on 15 August 2019.

#### 1. FORMATION

The Principal Global Investors Funds ("the Trust") was constituted under the laws of Ireland by a Trust Deed dated 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS"). It is an umbrella Unit Trust in that different classes of units may be issued from time to time by the Manager. Units of certain classes of the Trust are listed on the Euronext Dublin (formerly the Irish Stock Exchange). The Trust has been authorised by the Central Bank of Ireland (the "Central Bank") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the "Central Bank UCITS Regulations").

The financial statements have been prepared for the year ended 30 September 2020.

The Funds of the Trust are listed on pages 4 to 7. The Portfolios of Investments are listed on pages 30 to 94.

#### 2. PRINCIPAL ACCOUNTING POLICIES

#### **Accounting Convention and Basis of Accounting**

The annual audited financial statements are prepared in accordance with accounting standards generally accepted in Ireland ("Irish GAAP") including Financial Reporting Standard ("FRS") 102, "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" and the provisions of the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds. Irish GAAP used in preparing financial statements which present a true and fair view are those standards issued by the Financial Reporting Council ("FRC").

The Trust has availed of the exemption available to open ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 "Statement of Cash Flows" of FRS 102 and is not presenting cash flow statements.

The Directors have a reasonable expectation that the Trust has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the report has been prepared on a going concern basis for all Funds in the Trust under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss, except for the Real Estate Debt Fund which has terminated – this has been prepared on a non-going concern basis. The report has been prepared in USD for all Funds except Finisterre Emerging Markets Debt Euro Income Fund. The functional currency of Finisterre Emerging Markets Debt Euro Income Fund is Euro. The functional and presentation currency of the Trust is USD.

The format and certain wordings of the financial statements have been adapted from those contained in Irish statute so that, in the opinion of the Directors, they more appropriately reflect the nature of the Trusts business as an investment fund.

The information required by FRS 102, to be included in a single statement of comprehensive income for the reporting period displaying all items of income and expense recognised during the period including those items recognised in determining profit or loss and items of other comprehensive income and a Reconciliation of Movements in Unitholders' Funds are, in the opinion of the Directors, contained in the Statements of Comprehensive Income and the Statements of Movement in Net Assets Attributable to Redeemable Participating Unitholders. In arriving at the results for the year, all amounts in the Statements of Comprehensive Income relate to continuing activities except for the Real Estate Debt Fund which has terminated. In the opinion of the Directors, the financial statements give, in all other respects, the information required by the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds.

All gains or losses for the year are reflected in the Statements of Comprehensive Income.

The significant accounting policies adopted by the Trust are set out overleaf. These policies have been consistently applied to the financial periods presented unless otherwise stated.

#### for the year ended 30 September 2020 (com

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### Financial Instruments at Fair Value through Profit or Loss

Under FRS 102, in accounting for its financial instruments a reporting entity is required to apply either (a) the full provisions of Section 11 "Basic Financial Instruments" and Section 12 "Other Financial Instruments Issues" of FRS 102, (b) the recognition and measurement provisions of International Accounting Standards ("IAS") 39 "Financial Instruments: Recognition and Measurement" ("IAS 39") and only the disclosure requirements of Sections 11 and 12 of FRS 102; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9 "Financial Instruments" ("IFRS 9") and the disclosure requirements of Sections 11 and 12. The Trust has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of Sections 11 and 12.

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by the Investment Adviser/Sub-Investment Adviser(s) at fair value through profit or loss at inception. All instruments on the Portfolio of Investments are classified as held at fair value through profit or loss. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive the cashflow from the investments have expired or the Funds have transferred substantially all of the risks or rewards of ownership.

### **Accounting for Investments**

Investments are recognised at the trade date at last traded prices. Realised gains or losses on investment disposals are calculated using the average cost method. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

#### **Valuation of Investments**

The year-end valuation date was 30 September 2020, the last business day of the year. Securities listed on a recognised stock exchange or traded on any other organised market, are valued at the current-price at each valuation point on the stock exchange or market which constitutes the principal market for such securities. If trades are received after the dealing cut-off time they will be accounted for in the next valuation. If for specific assets the current prices do not, in the opinion of the Manager, reflect their fair value or are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction or the Manager may also apply a fair value adjustment where they deem appropriate in order to reflect fair value.

In the case of any security not listed, quoted or dealt on a regulated market or for which no quotation or value is available which would provide a fair valuation, or in respect of which the price is unrepresentative, the fair value of such security is determined on the basis of the probable realisation value and is determined by the Investment Adviser, Sub-Investment Adviser(s), a stockbroker or other competent person appointed by the Investment Adviser and approved for the purpose by the Trustee, using valuation techniques.

#### **Futures**

A futures contract obligates one party to sell and the other party to purchase a specific instrument for an agreed price at an agreed future date. Futures may be used subject to the conditions and limits laid down by the Central Bank and the Trust Deed and subject to any other restrictions or regulations which may affect the portfolio management of the Funds or the Investment Adviser/Sub-Investment Adviser(s). Certain Funds may buy or sell futures to provide an efficient, liquid and effective method for the management of risks by "locking in" gains and/or protecting against future declines in value. The fair value of open future contracts is calculated as the difference between the contracted rate and the current rate that would close out the contract on the Statement of Financial Position date. Gains or losses on futures are included in the Unrealised Gain/(Loss) on Open Future Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. When the contract is terminated, the Fund will recognise a realised gain or loss in the Statement of Comprehensive Income equal to the difference between the value of the contract at the time it was entered into and the time it was closed.

#### **Forward Foreign Currency Exchange Contracts**

In a Forward Foreign Currency Exchange Contract, the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. The fair value of Forward Foreign Currency Exchange Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Forward Foreign Currency Exchange Contracts are included in the Unrealised Gain/(Loss) on Forward Foreign Currency Exchange Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date. The Funds may enter into these contracts to hedge against changes in currency exchange rates. The Forward Foreign Currency Exchange Contracts are used to hedge the currency exposure on individual positions taken by the Funds and to hedge certain non base currency units.

for the year ended 30 September 2020 (continued)

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### Spot Currency Contracts

In a Spot Currency Contract the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a predetermined price at a future date (the spot date). This date is typically within three business days of inception of the contract. The fair value of Open Spot Currency Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Spot Currency Contracts are included in the Unrealised Gain/(Loss) on Open Spot Currency Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date.

#### **Credit Default Swaps**

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party and the swap will terminate. When the swap terminates any realised gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities. A Credit Default Swap provides the Fund with an alternative to investing in assets themselves for a potentially higher return with the same risk or they may be used to obtain exposure to assets which the Fund could not otherwise acquire due to illiquidity in the relevant market. The Fund recognises the swap when it becomes party to the contract. The Credit Default Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts.

#### **Interest Rate Swaps**

An Interest Rate Swap is a bilateral agreement in which each of the parties agrees to exchange a series of interest payments for another series of payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged. The Interest Rate Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. When the swap terminates any gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities.

#### **Total Return Swaps**

A Total Return Swap is a financial contract whereby one party agrees to pay another party the total return of a defined asset in return for receiving a floating rate return. The Trust enters into unfunded swap agreements on behalf of the Fund. Total Return Swaps are marked to market using valuation sources/methods and the fair value is recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. The change in unrealised gains and losses or any realised gains or losses arising on termination are shown in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income.

Total Return Swap positions are valued using models which utilise observable data to the extent practicable and contain assumptions on the application of this data. Changes in data inputs and assumptions about these factors could affect the reported fair value of the Total Return Swaps.

#### **Foreign Currency Transactions**

In accordance with Section 30 "Foreign Currency Translation" of FRS 102, items included in the individual Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). The Fund's selection of the functional currency is attributable to the functional currency being: a) the major component of the Fund's benchmark and b) the common proxy for most clients in the Fund's varied client base. The functional currency assessment was completed at a Fund level. The Funds' presentation currencies equated to their respective functional currencies when assessed under FRS 102. The functional currency of each Fund of the Trust is USD except of Finstree Emerging Markets Debt Euro Income Fund. The functional currency of Finstree Emerging Markets Debt Euro Income Fund is Euro.

### For each Fund:

- (i) Currency gains or losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Fund's books and the Fund's functional currency equivalent of the amounts actually received or paid. These gains or losses are included where appropriate in the dividend and net gain/(loss) on investment activities figure in the individual Fund's Statement of Comprehensive Income;
- (ii) Currency gains or losses realised on securities purchases and sales transactions are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income;

for the year ended 30 September 2020 (continued)

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

# Foreign Currency Transactions (continued) For each Fund: (continued)

- (iii) Unrealised currency gains or losses on securities held at year end are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income; and
- (iv) Monetary assets and liabilities denominated in currencies other than the Fund's functional currency are translated at the rate of exchange ruling at the close of business on the Statement of Financial Position date and exchange differences are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income.

#### Income from Investments

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Interest income is accounted for daily on an effective yield basis. Income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

#### Net Gain/(Loss) on Investment Activities

In respect of each instrument type classified as Financial Instruments at Fair Value through Profit or Loss, the movement in unrealised gains/(losses) since the prior period end and realised gains/(losses) are included in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income. Interest earned on fixed income securities such as bonds is included here also.

#### **Due to Unitholders**

Due to unitholders represent monies received from investors for the purchase of shares, but for which shares have not been issued at the statement of financial position date.

#### **Due from Unitholders**

Due from Unitholders represent monies received in respect of redemptions which is due to be paid to investors for the redemption of shares, but for which have not been redeemed at the statement of financial position date.

#### **Expenses**

Operating expenses are recognised on an accruals basis in the Statement of Comprehensive Income.

#### **Formation Costs**

Formation costs, if any are incurred, will be written off over a five year period as per the dealing valuation.

#### **Anti-Dilution Levy**

The Manager may exercise its discretion to apply an anti-dilution levy in relation to subscriptions and redemptions of units. The levy is a charge for transaction costs that may be added or deducted from the NAV per Unit of the relevant class to reflect the costs of acquiring or disposing of underlying assets to fund subscriptions or redemptions from the Fund, respectively. The levy is intended to be used to ensure that all investors in the Trust are treated equitably by allocating transaction costs to the investors whose transactions give rise to those costs. For the year ended 30 September 2020, there was anti-dilution levies charged on the following funds: Origin Global Emerging Markets Fund \$161,974, Origin Global Smaller Companies Fund \$6,432 and Finisterre VAG Unconstrained EM Fixed Income Fund \$149,551. For the year ended 30 September 2019 there were anti-dilution levies charged on the following funds: Origin Global Emerging Markets Fund \$69,014, Origin Global Smaller Companies Fund \$110,668, Global Property Securities Fund \$25,356, Global Equity Fund \$2.669 and Real Estate Debt Fund \$600.

#### Cash at Bank

Cash is valued at amortised cost, which approximates fair value. Cash is held with The Bank of New York Mellon SA/NV, Dublin Branch.

### Cash Collateral & Pledged Collateral

Cash Collateral provided by the Fund is identified in the Statement of Financial Position as Cash Collateral and is not included as a component of Cash at Bank.

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### Margin Cash Receivable/Payable

Cash Collateral Receivable/Payable to the Trust in relation to the open Futures Contracts and open Swap Contracts is identified in the Statement of Financial Position as Margin Cash Receivable/Payable and is not included as a component of Cash at Bank. Margin Cash Receivable and Margin Cash Payable at 30 September 2020 and 30 September 2019 is detailed as part of Note 4.

#### **Distributions**

The Global Equity Fund and European Equity Fund declare and pay annual distributions to Unitholders holding the A Income Unit Class.

The Global Property Securities Fund declare and pay annual distributions to Unitholders holding the A, A2, I, I2 and N Income Unit Classes.

The Preferred Securities Fund declare and pay quarterly distributions to Unitholders holding the A, I, D, F, N, P and X Income Unit Classes.

The High Yield Fund declares and pays quarterly distributions to Unitholders holding the A, I and N Income Unit Classes.

The Post Global Limited Term High Yield Fund declares and pays quarterly distributions to Unitholders holding the A and I Income Unit Classes.

The Finisterre Unconstrained Emerging Markets Fixed Income Fund declare and pay quarterly distributions to Unitholders holding the A, A2, I, I2, I3, D, F, N Income Unit and A2 Income Plus Unit Classes.

The Finisterre VAG Unconstrained EM Fixed Income Fund will declare and pay quarterly distribution to Unitholders holding the I2 Income Unit Class.

The Finisterre Emerging Markets Debt Euro Income Fund declare and pay quarterly distribution to Unitholders holding the N Income Unit Class.

There are no Income Unit Classes in issue currently on the Asian High Yield Fund.

The Preferred Securities Fund declare and pay monthly distributions to Unitholders holding the D2 Income Unit and D2 Income Plus Unit Classes.

The High Yield Fund declare and pay monthly distributions to Unitholders holding the D2 Income Unit and D2 Income Plus Unit Classes.

The Global Properties Securities Fund declare and pay monthly distribution to Unitholders holding the D2 Income Unit Class.

The Post Global Limited Term High Yield Fund declare and pay monthly distributions to Unitholders holding the D2 Income Unit and D2 Income Plus Unit Classes.

The Global Diversified Income Fund declares and pays monthly distributions to Unitholders holding the D Income Unit and D Income Plus Unit Classes.

The Asian High Yield Fund declare and pay monthly distributions to Unitholders holding the D2 Income Unit and D2 Income Plus Unit Classes.

There are no D2 Income Unit Classes in issue currently on the Finisterre Unconstrained Emerging Markets Fixed Income Fund.

Monthly distributions will also be payable in respect of the N2 Income Unit Class on the Preferred Securities Fund. There are no N2 Income Unit Classes in issue currently.

There were distributions out of capital of \$541 (2019: \$Nil).

#### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### **Distributions (continued)**

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

Distributions are recorded by each Fund on ex-dividend date in the Statement of Comprehensive Income once approved by the Board.

#### Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis, or minimise the assets and settle the liability simultaneously. No offsetting has taken place during the financial year ended 30 September 2020 and 30 September 2019.

#### **Participating Units**

All participating units issued by the Funds provide the investors the right to acquire redemptions for cash at the value proportionate to the investor's share in the Fund's net assets at the redemption date. Such instruments give rise to a financial liability for the present value of the redemption amount. In accordance with the issued prospectus the Funds are contractually obliged to redeem units at the traded Net Asset Value per unit which is calculated at each valuation point.

#### **Redeeming Units**

When a redemption request has been submitted by a Unitholder who is or is deemed to be an Irish resident, or is acting on behalf of an Irish resident, the Manager shall deduct from the redemption proceeds an amount which is equal to the tax payable by the Unit Trust to the Revenue Commissioners in Ireland in respect of the relevant transaction.

#### 3. TAXATION

Under current law and practice the Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Unitholders, any encashment, redemption, cancellation, repurchase or transfer of units and any deemed disposals of units as described below for Irish tax purposes arising as a result of holding units in the Trust for a period of eight years or more. Where a chargeable event occurs, the Trust is required to account for the Irish tax thereon.

No Irish tax will arise on the Trust in respect of chargeable events in respect of:

- (I) a Unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Trust or the Trust has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (ii) certain exempted Irish tax resident Unitholders who have provided the Trust with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Trust may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Trust or its Unitholders.

#### 6. DISTRIBUTIONS

#### For the year ended 30 September 2020

Annual distributions were declared on 1 October 2020 and 1 October 2019 respectively. Distributions declared on 1 October 2020 or nearest subsequent business day have not been included in the Statement of Comprehensive Income for 30 September 2020. These will be included in the financial statements for 30 September 2021. The A Income Unit Classes from the Global Equity Fund did not declare and pay any annual distributions for the year ended 30 September 2020 or 30 September 2019. Distributions declared on 1 October 2020 relate to 30 September 2020 distributions in the table below.

#### **Accumulation Classes**

The Accumulation Unit Classes did not declare Distributions on 30 September 2020 or 30 September 2019.

<sup>&</sup>lt;sup>5</sup>Global Income Fund name changed to Global Diversified Income Fund on 17 January 2020.

#### 7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES

#### **Management Fee**

Pursuant to the Trust Deed dated 13 October 1992, Principal Global Investors (Ireland) Limited ("the Manager") acts as Manager to the Trust and is responsible for its management and administration. For services rendered, the Trust will pay to the Manager an annual fee, accrued daily in the unit price and payable monthly in arrears. The Management Fee is currently calculated as a percentage of the NAV of each Fund and is accrued every Business Day. These related party transactions have been entered into in the ordinary course of business. The Management Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position. Management Fee rates for each unit class are listed in the supplement for each Fund. These are available from the www.principalglobal.com website.

#### **Expense Cap**

The Manager, at its discretion, may absorb (directly by waiving a portion of its fees or by reimbursement to the account of each Fund), certain additional fees, costs or expenses for each Fund that may arise in respect of the management and operation of the Trust attributable to each Fund. This Expense Cap fee is shown as Rebate/Recharge to the Fund due to capping in the Statement of Comprehensive Income and the accrual/prepaid amount is shown as part of Other Assets or Other Payables in the Statement of Financial Position.

#### **Administration Fee**

In addition to the Management Fee, the Trust Deed permits the Manager to charge an Administration Fee of up to 0.15% per annum of the value of the units in the Funds for administering the Trust. Currently the Manager only charges this fee on the NAV of the Funds attributable to A, D, F, and N Class units. This fee is calculated as a percentage of the NAV of each Fund attributable to A, D, F and N Class units and is accrued every Business Day. The total accrued amount is paid monthly in arrears. All fees and expenses payable to the Administrator in respect of the administration services it provides to the Manager will be met by the Manager. Administration Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

#### **Trustee and Depositary fee**

The Manager appointed The Bank of New York Mellon SA/NV, Dublin Branch to act as the Trustee to the Trust. The principal activity of the Trustee is to act as the Depositary and Trustee of the assets of collective investment schemes ("CISs"). The Trustee may retain for its own use out of each Fund a fee of up to 0.022% per annum of the NAV of the units calculated on each Business Day during the month, accrued and deducted from the Fund the following month subject to a minimum fee of US\$15,000 per annum which may be waived. The fee currently charged by the Trustee per Fund is disclosed in the relevant supplement for each Fund. The Trustee Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

#### **Directors' Remuneration**

Mr. David Shubotham, Mr. John O'Connell, Ms. Bronwyn Wright and Mr. Jim Firn are independent non-executive Directors of the Manager and have no executive function with the Investment Adviser or its related party companies. The Manager pays each independent non-executive Director an annual fee of €27,000 for their services rendered to the Trust. Mr. Kamal Bhatia, Mr. Greg Thornton and Mr. Roberto Walker are related parties to the Investment Adviser and receive no compensation from the Trust.

#### **Sub-Custody Fee**

The Depositary will be paid a fee at normal commercial rates and such fee shall be paid out of the Fund. The level of Sub-Custodian Fees and expenses will vary depending on the investment profile of the Fund including, in particular, the nature of the securities markets in which the Fund invests, the size of the Fund and the amount of trading in the assets of the Fund. Such fees will be charged at normal commercial rates and will only be reimbursed from a Fund where they are less than 0.50% per annum of the NAV of the Fund. The Manager will pay any fees that exceed this level. Depositary Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

#### **Performance Fees**

There are no performance fees on any of the Funds for the year ended 30 September 2020 or 30 September 2019.

### 7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES (continued)

#### **Audit Fees**

The audit fee charged for the year ended 30 September 2020 was \$183,644 excluding VAT (2019: \$155,391 excluding VAT). Other than statutory audit fees disclosed in the Statement of Comprehensive Income the only other fees paid to PricewaterhouseCoopers in Dublin, Ireland as the Statutory Auditor of the Trust were in relation to tax services provided amounting to \$87,945 (2019: \$93,806).

#### 9. EFFICIENT PORTFOLIO MANAGEMENT

The Funds are denominated in USD, except for Finisterre Emerging Markets Debt Euro Income Fund which is denominated in Euro, but purchase assets denominated in a range of currencies. During the year, transactions were entered into which are economically appropriate to the reduction of relevant risks or costs to improve investment performance.

Subject to the conditions and within the limits from time to time laid down by the Central Bank, and except as otherwise stated in the investment objective and policies of a Fund, the Investment Adviser and/or Sub-Investment Adviser(s) may employ, for certain Funds, investment techniques and instruments such as futures, forward foreign currency exchange contracts, currency swaps, credit default swaps, total return swaps, options, equity options, warrants and other derivatives for Efficient Portfolio Management ("EPM") purposes if deemed advisable by the Investment Adviser/Sub-Investment Adviser(s). Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future, and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank.

For UCITS which have engaged in EPM techniques, certain disclosures are required under Chapter 4 of the Central Bank UCITS Regulations. The Investment Advisers of the Funds have identified all Financial Derivative Instruments (FDIs) which are used for EPM. A UCITS is required to disclose the revenues arising from EPM techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

The Funds may also where indicated in the relevant supplement, enter into repurchase, reverse repurchase, sale and buyback agreements and stock lending agreements. The Investment Adviser/Sub-Investment Adviser(s) considers only repurchase agreements, reverse repurchase agreements and securities lending to be EPM techniques. None of the Funds held repurchase agreements, reverse repurchase agreements or took part in securities lending as at 30 September 2020 or at 30 September 2019.

Details of all open transactions at the year end are disclosed in the Portfolios of Investments.

#### 10. DEALING COMMISSION ARRANGEMENTS

The Investment Adviser appointed in relation to each Fund is responsible for the selection of brokers with whom they deal. In relation to certain equity funds, the Investment Adviser/Sub-Investment Adviser(s) have entered into dealing commission arrangements with brokers whereby they obtain services or benefits from them, or from third parties – which are paid for out of commissions charged to the Funds. Such services or benefits relate primarily to research and portfolio management, and ensuring their purchase is compliant with relevant local regulation; including being a permitted service. The relevant Investment Adviser/Sub Investment Adviser(s) are satisfied that trades generating soft commissions comply with the relevant local regulations requiring best execution – which requires consideration of relevant factors, including price and execution quality.

#### 11. FINANCIAL RISK MANAGEMENT

#### **Strategy in Using Financial Instruments**

The activities of each Fund expose it to a variety of financial risks such as market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Funds' overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance. The Funds make use of FDIs to moderate certain risk exposures. The general risk factors set out in the "Special Investment Considerations and Risks" section of the prospectus apply to the Funds and risks specific to these Funds are set out below. These risk factors do not purport to be an exhaustive or complete explanation of all the risks associated with an investment in the Funds and persons considering purchasing units should inform themselves as to (i) the legal requirements within their own countries for the purchase of units, (ii) any foreign exchange restrictions which may be applicable and (iii) the income and other tax consequences of purchase and repurchase of units.

The risk management process operates at a number of levels. In addition to the Investment Adviser/Sub-Investment Adviser(s) monitoring investment activity and exposure at the point of execution ensuring a Fund is managed according to its guidelines and objectives, the Depositary and the Trustee of the Funds also provide an independent analysis of financial instrument exposure by monitoring investment limits in accordance with the UCITS Regulations and the Funds' prospectus.

## 11. FINANCIAL RISK MANAGEMENT (continued)

## Strategy in Using Financial Instruments (continued)

The Funds' overall market positions are monitored on a daily basis by the Investment Adviser/Sub-Investment Adviser(s) and compliance with the Funds' investment guidelines are monitored on an ongoing basis by the Investment Adviser/Sub Investment Adviser(s) and Trustee. The Board of Directors of the Manager have oversight of the risk management process and receive monthly and quarterly reports from the Investment Adviser/Sub-Investment Adviser(s) and the Trustee. The Funds' investments in securities are subject to normal market fluctuations and other risks inherent in investing in securities. The value of investments and the income from them, and therefore the value of the units can go down as well as up and an investor may not get back the amount they invest.

The strategies as enumerated for the funds below and overleaf are summarised, please refer to the prospectus and supplements of the individual funds for greater detail. These are available on the www.principalglobal.com website.

### **Global Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing principally in equity securities selected from investment markets around the world. Investments can also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, fixed interest and money market securities. The Fund may also invest in REITS and in other Funds of the Trust. No more than 15% of the net assets will be invested in Russia.

### **European Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in Europe (including Eastern Europe). Investments can also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, fixed interest and money market securities. The Fund may also invest in REITS and in other Funds of the Trust. No more than 15% of the net assets will be invested in Russia.

### **Preferred Securities Fund**

The Fund will seek to provide a return consisting of income consistent with capital preservation by investing primarily in a portfolio of USD denominated preferred securities and debt securities. Within this, the Fund may invest, in particular, in convertible bonds and contingent convertible securities. Investments can also include ancillary liquid assets such as bank deposits.

### **High Yield Fund**

The Fund will seek to provide a return consisting of income and, over the long term, capital growth by investing primarily in a portfolio of USD denominated public and private issued high-yield fixed income securities. The Fund may also invest globally in public and private issued high-yield fixed income securities. The Fund will invest in companies or issuers that are consistent with the Investment Adviser's policy on Responsible investing. The Fund may also hold ancillary liquid assets such as bank deposits as well as invest in REITS and in other Funds of the Trust.

## **Global Property Securities Fund**

The Fund will seek to provide a total return primarily through investment in a portfolio of global property securities by investing primarily in a global portfolio of publicly traded securities of companies engaged in the property industry or whose value is largely derived from property assets. The Fund's investments will include no less than 80% of the net assets in REITS, non-REIT real estate companies. The Fund may invest in equity and debt securities of companies that at the time of investment have at least 50% of their assets, income or profits derived from products or services related to the global property industry. The Fund may also invest in common and preferred equity securities, debt securities, options, warrants (up to 5% of the Fund), convertible bonds, exchange traded funds ("ETFs") and depositary receipts. The Fund may also hold ancillary liquid assets such as bank deposits.

## Post Global Limited Term High Yield Fund

The Fund aims to provide a high rate of return with low volatility relative to typical high yield investments by investing primarily in limited duration high yield securities by investing primarily in a portfolio of global short-term, lower volatility high yield debt securities with an average duration of approximately 12-24 months. These securities will generally be rated below investment grade. The portfolio will be diversified, consisting from time to time of securities including fixed and floating rate global corporate bonds, debt issued in the leveraged loan market such as bank loan assignments and participations, convertible bonds, commercial paper, private placements, such as section 144A securities, preferred securities, hybrids and taxable municipal bonds. The Fund may also invest in other Funds of the Trust. The Fund may also hold ancillary liquid assets such as bank deposits. The Fund will not invest more than 20% in emerging markets.

## 11. FINANCIAL RISK MANAGEMENT (continued)

Strategy in Using Financial Instruments (continued)

### **Origin Global Emerging Markets Fund**

The Fund seeks to achieve capital growth through investment in global emerging market equities. The Fund will invest in transferable equity and equity-related securities of a diversified range of companies in what the Sub-Investment Adviser considers to be emerging economies of the world, normally with a minimum market capitalisation on purchase of USD1 billion. These securities will primarily be common stocks and other securities with equity characteristics, including but not limited to preferred stocks, warrants (only held where an existing holding is subject to an issuance of warrants and, in aggregate, normally not more than 5% of the Fund's NAV) and rights as well as depositary receipts for such securities, all of which are traded on securities exchanges or regulated markets. A proportion of the net assets of the Fund (subject to a maximum of 10% of its NAV) may be invested in UCITS eligible collective investment schemes. Subject to complying with the investment restrictions of the Fund, the Fund may hold ancillary liquid assets such as bank deposits.

## **Origin Global Smaller Companies Fund**

The Fund seeks to achieve capital growth through investment in global smaller companies. The Fund will invest in transferable equity and equity-related securities of a diversified range of companies throughout the globe, normally with a maximum market capitalisation on purchase of up to USD5 billion. These securities will primarily be common stocks and other securities with equity characteristics, including but not limited to preferred stocks, warrants (only held where an existing holding is subject to an issuance of warrants and, in aggregate, normally not more than 5% of the Fund's NAV) and rights as well as depositary receipts for such securities, all of which are traded on securities exchanges or regulated markets. A proportion of the net assets of the Fund (subject to a maximum of 10% of the NAV) may be invested in UCITS eligible collective investment schemes. Subject to complying with the investment restrictions of the Fund, the Fund may hold ancillary liquid assets such as bank deposits.

### **Real Estate Debt Fund**

The objective of the Fund is to provide attractive long term risk adjusted returns. The Fund seeks to achieve the investment objective by investing the majority of its assets in a diversified portfolio of U.S. commercial mortgage-backed securities ("CMBS"). CMBS are structured debt securities, typically secured by diversified pools of mortgages on commercial real estate properties located across the U.S. While the Fund will primarily invest in CMBS, it may also invest in unsecured bonds issued by companies primarily engaged in a real estate or real estate related business. The CMBS and unsecured bonds may include Rule 144A securities. The Fund may also use certain FDI's for investment purposes and the Fund may also hold ancillary liquid assets such as bank deposits and U.S. Treasury Securities. The Fund terminated on 28 November 2019.

### **Global Diversified Income Fund**

The investment objective of the Fund is to provide current income. The Fund seeks to achieve the investment objective by investing the majority of its assets in income-producing equity, debt and hybrid securities. Hybrid securities are securities with features of both debt and equity securities. The Fund will consistently employ a global asset allocation investment process, which is based upon fundamental research driven, long-term focused security selection. The types of debt securities the Fund may invest in include, but are not limited to, corporate, sovereign and quasi-sovereign bonds, commercial and residential mortgage backed securities and other asset backed securities. Investment in commercial and residential mortgage backed securities and other asset backed securities will not exceed 15% of the Fund's NAV in aggregate. The types of hybrid securities the Fund may invest in are preferred stock and convertible securities, including Contingent convertible securities. The Fund may also invest in UCITS or CISs, the constituents of which would typically include the instruments described above and hold ancillary liquid assets such as bank deposits. The Global Income Fund name changed to Global Diversified Income Fund on 17 January 2020.

## Finisterre Unconstrained Emerging Markets Fixed Income Fund

The investment objective of the Fund is to seek to generate total returns through income and capital appreciation, while limiting volatility and potential capital losses. The Fund seeks to achieve its objective by actively investing in a diversified range of fixed-income and Finanacial derivative instruments, a majority (not less than 51%) issued by or referencing emerging markets. These include corporate, sovereign and quasi-sovereign entities. The Fund seeks to extract value from investments in both investment grade and high yield fixed income instruments, and can include both stressed and distressed securities. A proportion of the net assets of the Fund may be invested in UCITS eligible Collective Investment schemes, including exchange traded funds and the Fund may hold equities as a result of the conversion of a convertible bond or as the result of a debt restructuring.

## 11. FINANCIAL RISK MANAGEMENT (continued)

Strategy in Using Financial Instruments (continued)

### U.S. Blue Chip Equity Fund

The Fund seeks to achieve capital growth over the medium to long term by investing at least 80% of its net asset value in "Equity and Equity Related Securities" of companies which are incorporated and/or listed on stock exchanges in the United States. A proportion of the net assets of the Fund (subject to a maximum of 10% of its Net Asset Value) may be invested in UCITS eligible collective investment schemes, including exchange traded funds, the constituents of which may comprise the instruments and markets described above and therefore is an alternative means through which the Fund may gain exposure to these types of instruments and markets. The Fund will only invest in AIFs per the Central Bank's Guidance in relation to UCITS Acceptable Investments in other Investment Funds and The Fund may hold ancillary liquid assets.

### **Asian High Yield Fund**

The investment objective of the Fund is to provide a return consisting of income and, over the long term, capital growth. The Fund seeks to achieve its overall objective by generally investing at least 70% of its net asset value in a portfolio of high-yield fixed income securities, which have been issued by governments and agencies of, or companies domiciled in, or exercising the principal part of their business activity in Asia. Such securities may include fixed interest rate corporate bonds, sovereign bonds, senior callable bonds and contingent convertible securities (CoCos). A proportion of the net assets of the Fund (subject to a maximum of 10% of its Net Asset Value) may be invested in UCITS eligible collective investment schemes, including exchange traded funds, the constituents of which may comprise the instruments and markets described above and therefore is an alternative means through which the Fund may gain exposure to these types of instruments and markets. The Fund will only invest in AIFs per the Central Bank's Guidance in relation to UCITS Acceptable Investments in Other Investment Funds.

### Finisterre VAG Unconstrained EM Fixed Income Fund

The investment objective of the Fund is to seek to generate total returns through income and capital appreciation, while limiting volatility and capital losses. The Fund seeks to achieve its objective by actively investing in a diversified range of fixed-income and financial derivative instruments ("FDI"), a majority (not less than 51%) issued by or relating to underlying issuers in, emerging markets. These include corporate, sovereign and quasi-sovereign entities. The Fund seeks to extract value from investments in both investment grade and high yield fixed income instruments, and can include both stressed and distressed securities. A proportion of the net assets of the Fund may be invested in UCITS eligible collective investment schemes, including exchange traded funds and the Fund may hold equities as a result of the conversion of a convertible bond or as the result of a debt restructuring.

## Finisterre Emerging Markets Debt Euro Income Fund

The investment objective of the Fund is to seek to maximise income, while minimising potential losses due to macro and credit risks. The Fund seeks to achieve the investment objective by actively investing in a diversified range of fixed-income securities and FDI, a majority (not less than 51% of its Net Asset Value) issued by or relating to underlying issuers in, emerging markets. These include corporate, sovereign and quasi-sovereign entities. The Fund seeks to extract value from investments in both investment grade and high yield fixed income securities and can include both stressed and distressed securities. A proportion of the net assets of the Fund may be invested in UCITS eligible collective investment schemes, including exchange traded funds and the Fund may hold equities as a result of the conversion of a convertible bond or as the result of a debt restructuring.

### **Market Price Risk**

All securities and investments present a risk of loss of capital. The Investment Adviser/Sub-Investment Adviser(s) moderates this risk through diversification and careful selection of securities and other financial instruments within the limits defined in the prospectus.

Except for derivatives, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses on forwards and futures can result from the movement in currency exchange rates in the time between the forward trade date and the settlement date depending on the volatility of the currencies.

The maximum risk of the Credit Default Swaps and Total Return Swaps is determined by the fair value of the swaps. The Funds' overall market positions are monitored on a daily basis by the Funds' Investment Adviser/Sub-Investment Adviser(s).

The Investment Adviser/Sub-Investment Adviser(s) reviews the portfolio characteristics of each Fund in its entirety. This review may include as appropriate a review of country allocations, country weights, capitalization, distribution, industry sector weights, price/book levels, currency exposure, portfolio maturity, portfolio duration, sector exposure, quality exposure and other key risk measures.

#### FINANCIAL RISK MANAGEMENT (continued) 11.

### Market Price Risk (continued)

The Funds may employ investment techniques and FDIs for EPM and/or investment purposes within the limits set out in the prospectus as described in the sections 'General Information' and 'Special Investment Considerations and Risks'. Each Fund may hold a combination of FDIs such as options, futures, options on futures, forward foreign currency exchange contracts, repurchase contracts, reverse repurchase agreements, sale and buyback agreements, stock lending agreements, credit default swaps, interest rate swaps and other over the counter derivative instruments which may be used subject to the conditions and limits laid down by the Central Bank and the Trust Deed and subject to any other restrictions or regulations which may affect the portfolio management of the Funds.

### **Sensitivity Analysis**

Sensitivity analysis is an indication based on historical data showing the impact of a 5% movement in the Benchmark on the NAV of the Funds at the Statement of Financial Position date.

### **Limitations of Sensitivity Analysis:**

Some limitations of sensitivity analysis are;

- the models are based on historical data and cannot take account of the fact that future market price movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns:
- the market price risk information is a relative estimate of risk rather than a precise and accurate number:
- the market price information represents a hypothetical outcome and is not intended to be predictive; and future market conditions could vary significantly from those experienced in the past.

## 11. FINANCIAL RISK MANAGEMENT (continued)

### Market Price Risk (continued)

The Funds' market price risk is managed through investment selection and diversification in accordance with The UCITS Regulations and the limits set out in the prospectus. The Investment Adviser uses their portfolio management selection tool and makes use of tracking errors to monitor deviation with the benchmark. Monthly performance reports are reviewed by the Investment Adviser/Sub-Investment Adviser(s) and quarterly by the Board of Directors of the Manager. Each Fund's overall market exposures and notional exposures for derivatives are disclosed in the Portfolio of Investments.

Market risk exposures for Finisterre Unconstrained Emerging Markets Fixed Income Fund, Finisterre VAG Unconstrained EM Fixed Income Fund, and Finisterre Emerging Markets Debt Euro Income Fund are measured using value-at-risk (VaR), which estimates the maximum expected loss over a defined financial year for a specified confidence level. The VaR methodology is a statistically defined, probability based approach that takes into account estimates for market volatilities as well as risk diversification by recognising offsetting positions and some estimates of correlations between products. Risks are measured consistently across markets and products, and risk measures are aggregated to arrive at a single risk number.

The Funds' proprietary model uses a non-parametric approach based on a one-tailed confidence level of 99% for a daily horizon and considering no less than two years of historical data.

It is noted that the use of VaR models to assess risk has limitations; these models use historical market data as a basis for their estimates, and assume that future conditions will be like those in the past. The estimates may be unreliable, especially under new or extreme market conditions. As there are frequent changes in a Fund's holdings, the sensitivity analysis should not be relied upon as a measure of future performance.

The VaR as of 30 September 2020 and 30 September 2019 based on a confidence level of 99% is included in the table below:

	30 September 2020	30 September 2019
	%	%
Finisterre Unconstrained Emerging Markets Fixed Income Fund	2.74	0.4
Finisterre VAG Unconstrained EM Fixed Income Fund <sup>1</sup>	2.22	-
Finisterre Emerging Markets Debt Euro Income Fund <sup>2</sup>	2.56	-

<sup>&</sup>lt;sup>1</sup>Finisterre VAG Unconstrained EM Fixed Income Fund launched on 28 April 2020.

The lowest, highest and average utilisation of the VaR limit, using an Absolute VaR approach based on the above inputs are included in the tables below:

### During the year ended 30 September 2020

	Lowest	Highest	Average
Fund	%	%	%
Finisterre Unconstrained Emerging Markets Fixed Income Fund	0.29	2.81	1.37
Finisterre VAG Unconstrained EM Fixed Income Fund	1.48	3.01	2.07
Finisterre Emerging Markets Debt Euro Income Fund	2.55	2.92	2.73

### During the year ended 30 September 2019

	Lowest	Highest	Average
Fund	%	- %	%
Finisterre Unconstrained Emerging Markets Fixed Income Fund	0.2	0.7	0.4

<sup>&</sup>lt;sup>2</sup>Finisterre Emerging Markets Debt Euro Income Fund launched on 28 August 2020.

## 11. FINANCIAL RISK MANAGEMENT (continued)

## Financial Assets at Fair Value through Profit or Loss

Under FRS 102, the Trust is required to classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

"FRS 102 - Fair value hierarchy disclosures" require disclosure of financial instruments held at fair value on the basis of a fair value hierarchy consistent with EU-adopted IFRS based on Level 1, 2 and 3 classifications. The financial statements and comparatives have been prepared in accordance with these amendments and fair value measurement is categorised based on Levels 1, 2 and 3.

The fair value of securities held in Level 3 for the year ended 30 September 2020 was USD 24,707 (30 September 2019: USD 24,389). Securities fair valued at nil have been indicated by a footnote on any relevant funds in the following tables. As at 30 September 2020, there was no such security held. As at 30 September 2019, the Asian Equity Fund held 266,000 shares of Peace Mark Holdings Ltd which were fair valued at nil.

The tables overleaf analyse the financial assets of each Fund against the fair value hierarchy and measures them at fair value for 30 September 2020 and 30 September 2019 in accordance with FRS 102.

## 11. FINANCIAL RISK MANAGEMENT (continued)

### **Interest Rate Risk**

Funds which hold interest bearing financial assets and liabilities are exposed to interest rate risk, where the value of the securities may fluctuate as a result of a change in interest rate.

This risk is managed by the setting of limits on the level of cash holdings in the Funds. Such limits are set out in the Funds' prospectus. With the fixed income Funds, the Investment Adviser/Sub-Investment Adviser(s) have set limits of exposure and use an internal process to monitor macroeconomic factors affecting interest rate risk.

The Global Equity Fund, European Equity Fund, Global Property Securities Fund, Origin Global Emerging Markets Fund, Origin Global Smaller Companies Fund, U.S. Blue Chip Equity Fund (launched on 15 August 2019) are not included in the below table as the majority of the financial assets and liabilities of those Funds are non-interest bearing or have a very short time to maturity. As a result, those Funds are not subject to significant amounts of risk due to fluctuations in the market interest rates.

The following tables summarise the exposure to interest rate risk for the Preferred Securities Fund, High Yield Fund, Post Global Limited Term High Yield Fund, Real Estate Debt Fund (terminated on 28 November 2019), Global Diversified Income Fund (Global Income Fund name changed to Global Diversified Income Fund on 17 January 2020), Finisterre Unconstrained Emerging Markets Fixed Income Fund, Asian High Yield Fund (launched on 8 January 2020), Finisterre VAG Unconstrained EM Fixed Income Fund (launched on 28 April 2020) and Finisterre Emerging Markets Debt Euro Income Fund (launched on 28 August 2020). They include each Fund's assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

<del>-</del>					

The overleaf interest rate sensitivity information is a relative estimate of risk and is not intended to be a precise and accurate number. The calculations are based on historical data. Future price movements and correlations between securities could vary significantly from those experienced in the past.

## 11. FINANCIAL RISK MANAGEMENT (continued)

Interest Rate Risk (continued)

Approximate increase or decrease in NAV due to a 1% change in market interest rates

Fund Name	Currency	As at 30 September 2020	As at 30 September 2019

Finisterre VAG Unconstrained EM Fixed Income Fund <sup>4</sup>	USD	1,675,619	-
Finisterre Emerging Markets Debt Euro Income Fund <sup>5</sup>	EUR	265,697	-

<sup>&</sup>lt;sup>1</sup>Real Estate Debt Fund terminated on 28 November 2019.

The Investment Adviser considers a 1% movement to be reasonable.

The Finisterre Unconstrained Emerging Markets Fixed Income Fund, Finisterre VAG Unconstrained EM Fixed Income Fund and Finisterre Emerging Markets Debt Euro Income Fund has not been included as it uses an Absolute VaR model for sensitivity risk, and as a result there is no sensitivity analysis prepared for this fund.

## **Currency Risk**

The Funds may hold assets denominated in currencies other than the functional currency of a Fund. They are therefore exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. A Fund may utilise financial instruments to hedge against fluctuations in the relative values of their portfolio positions.

The Investment Adviser/Sub-Investment Adviser(s) monitors the currency positions on a daily basis utilising quantitative and fundamental models.

The Real Estate Debt Fund, U.S. Blue Chip Equity Fund and Asian High Yield Fund are not subject to foreign currency exposure.

<sup>&</sup>lt;sup>2</sup>Global Income Fund name changed to Global Diversified Income Fund on 17 January 2020.

<sup>&</sup>lt;sup>3</sup>Asian High Yield Fund launched on 8 January 2020.

<sup>&</sup>lt;sup>4</sup>Finisterre VAG Unconstrained EM Fixed Income Fund launched on 28 April 2020.

<sup>&</sup>lt;sup>5</sup>Finisterre Emerging Markets Debt Euro Income Fund launched on 28 August 2020.

### **Currency Sensitivity Analysis**

The table overleaf details the approximate increase or decrease in Net Assets Attributable to Redeemable Participating Unitholders had the exchange rate between the base currency of the relevant Fund and the relevant foreign currency increased by 5% (or 10% for emerging market currencies) for the monetary assets and non-monetary assets. For forward foreign currency exchange contracts the 5% (or 10% for emerging market currencies) has been applied to the contract price. The Investment Adviser/Sub-Investment Adviser(s) considers this movement to be reasonable.

Emerging market countries are those that have low or middle per capita income as determined by the World Bank for at least two consecutive years based on data lagging one year, or those countries that either had restructured external/local debt during the past 10 years or currently have restructured external/local debt outstanding. Investments denominated in emerging market currencies may experience more volatility, can be subject to significant depreciation and may not be freely convertible.

### **Depositary Risk**

The Trust's Depositary is The Bank of New York Mellon SA/NV, Dublin Branch ("the Depositary"). Substantially all of the Cash at Bank and investments in debt securities of the Trust are held by the Depositary. The Trust is exposed to credit risk through the use of the Depositary for their cash and investments. Bankruptcy or insolvency of the Depositary may cause the Trust's rights with respect to its cash and investments in debt securities held by the Depositary to be delayed or limited. The maximum exposure to this risk at 30 September 2020 and 30 September 2019 is the amount of Cash at Bank disclosed in Note 4 and the investments in securities (debt instruments, equities, bonds, CIS registered in the name of the Depositary on behalf of the Trust) and liquidity instruments disclosed in the relevant Funds' Portfolio of Investments.

To mitigate the risks the Trust is exposed to from the use of the Counterparty, the Manager employs appropriate procedures to ensure that the counterparties are reputable institutions and that the credit risk is acceptable to the Trust. The Trust only transacts with Counterparty's that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. In addition, the Trust's non-cash assets are maintained by the Depositary in segregated accounts. Thus in the event of insolvency or bankruptcy of the Depositary the Trust's non-cash assets are segregated and protected and this further reduces counterparty risk. The Trust will, however, be exposed to the credit risk of the Depositary or counterparty/Sub-Custodian used by the Depositary, in relation to the Trust's Cash at Bank held by the Depositary. In the event of the insolvency or bankruptcy of the Depositary, the Trust will be treated as a general creditor of the Depositary in relation to cash holdings of the Trust. The Depositary credit rating as at 30 September 2020 is AA- (2019: AA-) as per the Standard & Poor's bond rating services.

### Credit Risk

The Funds will be exposed to credit risk, which is the risk that a counterparty or issuer will be unable to pay amounts in full when due. Impairment provisions are provided for losses that have been incurred by the Statement of Financial Position date, if any. The carrying amount of financial assets best represents its maximum exposure to credit risk at the reporting date.

The Funds' main credit risk concentrations arise from trading equity and debt securities and FDIs in addition to the Cash at Bank balances held at the Depositary, Trustee and other counterparties. The Funds' prospectus lists various investment restrictions with regard to issuer and counterparty concentration limits.

<sup>&</sup>lt;sup>2</sup>U.S. Blue Chip Equity Fund launched on 15 August 2019.

<sup>&</sup>lt;sup>3</sup>Asian High Yield Fund launched on 8 January 2020.

<sup>&</sup>lt;sup>4</sup>Finisterre VAG Unconstrained EM Fixed Income Fund launched on 28 April 2020.

<sup>&</sup>lt;sup>5</sup>Finisterre Emerging Markets Debt Euro Income Fund launched on 28 August 2020.

<sup>^</sup>There is no currency sensitivity analysis for Real Estate Debt Fund, U.S. Blue Chip Equity Fund and Asian High yield Fund as these funds are not exposed to currency risk.

## 11. FINANCIAL RISK MANAGEMENT (continued)

## **Credit Risk (continued)**

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet their obligation.

The Funds that engage in swaps trading bilaterally restrict their exposure to credit losses on the trading of derivative instruments held by entering into master netting arrangements with counterparties. Netting arrangements do not result in an offset of Statement of Financial Position assets and liabilities, as transactions are usually disclosed on a gross basis and settled on a net basis. However, the credit risk associated with favourable contracts is reduced by a netting arrangement to the extent that if an event of default occurs, all amounts with the counterparty are terminated and settled on a net basis. The Funds that engage in swaps trading through a CCP restrict their exposure to credit losses on the trading of derivative instruments held by entering into master netting arrangements with the CCP.

The Investment Adviser/Sub-Investment Adviser(s) may utilise over-the-counter and exchange traded derivatives. Derivatives traded on exchanges will usually be supported by daily margin calls and therefore not carry the same degree of counterparty risk.

The Investment Adviser/Sub-Investment Adviser(s) may also use Futures and Options as part of its investment strategy. The Funds' ability to use these strategies may be limited by market conditions, regulatory requirements and tax considerations.

As part of its investing in derivatives the Funds may pledge or receive collateral. This collateral can be pledged or received either in the form of cash and cash equivalents or securities. There is a risk that the value of such collateral may fall below the value of the underlying derivatives. In addition, as the Funds may use Cash Collateral received to make investments, subject to conditions, the Funds may be exposed to the risk associated with such investments, such as failure or default of the issuer of the relevant security.

The prices of all derivative instruments, including Forward Foreign Currency Exchange Contracts, Spot Currency Contracts, Futures, Options, Interest Rate Swaps, Credit Default Swaps and Total Return Swaps are highly volatile. The Fund is also subject to the risk of the failure of any of the exchanges on which the open exchange traded Futures Contracts are traded and backed by the exchange. Margin Cash Receivable/Payable consists primarily of cash receivable/payable from the Trust's clearing broker.

There were no assets held by the Funds with counterparties that were past due or impaired at 30 September 2020 or 30 September 2019.

The Funds reduce issuer risk by having investment restrictions in place and subjecting issuers to a selection process that includes a review of their rating.

The Funds' exposure and the credit quality of financial assets invested in are continuously monitored by the Investment Adviser/Sub-Investment Adviser(s).

The Preferred Securities Fund, High Yield Fund, Post Global Limited Term High Yield Fund, Real Estate Debt Fund, Global Diversified Income Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund had the following exposure to counterparty and issuer credit risk at 30 September 2020.

These ratings are based on the Standard & Poor's, Moody's and Fitch bond rating services.

### **Liquidity Risk**

Liquidity risk is the risk that the Funds will experience difficulty in either realising assets or otherwise raising sufficient funds to satisfy commitments associated with financial instruments. This arises when trading volume, lack of a market maker or legal restrictions impair the Funds' ability to sell particular securities at an advantageous time or price.

The Funds, with the exception of the Post Global Limited Term High Yield Fund which is exposed to bi-monthly cash redemptions, are exposed to daily cash redemptions by Unitholders. Therefore, the Funds invest the majority of their assets in investments that are traded in an active market and can be readily disposed of; only a limited proportion of the assets are invested in assets not actively traded on a stock exchange. In addition, during extreme or unusual market conditions, as outlined in the prospectus, the Funds may place restrictions on redemptions such as by extending settlement, gating daily redemptions to 10% or suspending redemptions, and also have the ability to borrow in the short term to ensure settlement. The Investment Adviser/Sub-Investment Adviser(s) monitors the Funds' liquidity positions on a daily basis.

As at 30 September 2020 and 30 September 2019, all of the Funds' financial liabilities and all of the Funds' FDIs were due or settled within 1 month of the Statement of Financial Position date with the exception of the following;

- Audit Fees Payable which will be due or settled within 3 months to 1 year of the Statement of Financial Position date. These fees payable are detailed on each individual Fund's Statement of Financial Position as at 30 September 2020 and as at 30 September 2019.
- Derivatives contracts held by some of the Funds where the maturity dates are detailed in the Portfolios of Investments.

#### Cybersecurity Risk

Cybersecurity breaches may occur allowing an unauthorised party to gain access to assets of the Funds, Unitholder data, or proprietary information, or may cause the Trust, the Investment Adviser, the Sub-Investment Adviser(s), the Distributor, the Administrator or the Depositary to suffer data corruption or lose operational functionality.

The Funds may be affected by intentional cybersecurity breaches which include unauthorised access to systems, networks, or devices (such as through "hacking" activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow or otherwise disrupt operations, business processes or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws). A cybersecurity breach could result in the loss or theft of Unitholder data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs. Such incidents could cause the Trust, Manager, the Investment Adviser, the Sub-Investment Adviser(s), the Distributor, the Administrator, the Depositary or other service providers to incur regulatory penalties, reputational damage, additional compliance costs or financial loss. Consequently, Unitholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which a Fund invests and thereby cause a Fund's investments to lose value, as a result of which investors, including the relevant Fund and its Unitholders, could potentially lose all or a portion of their investment with that issuer.

<sup>&</sup>lt;sup>2</sup>Real Estate Debt Fund terminated on 28 November 2019.

<sup>&</sup>lt;sup>3</sup>Global Income Fund name changed to Global Diversified Income Fund on 17 January 2020.

<sup>&</sup>lt;sup>1</sup>The transaction costs for these Funds are embedded within the purchase and sale prices and have not been separately identified.

#### 13. GLOBAL EXPOSURE

Investment Adviser/Sub-Investment Adviser(s) employ a documented Risk Management Process in relation to the use of FDIs, which ensures the risk associated with the positions is measured, monitored and managed. In respect of the Finisterre Unconstrained Emerging Markets Fixed Income Fund; Finisterre Unconstrained VAG Unconstrained EM Fixed Income Fund and Finisterre Emerging Markets Debt Euro Income Fund; an Absolute VaR Approach, based on a confidence level of 99% for a daily horizon and considering at least two years of historical data is used to manage risk (Refer to Note 11 for more details on VaR). In relation to the remaining Funds, the Commitment approach is used; which entails monitoring global exposure and counterparty exposure associated with the positions.

<sup>&</sup>lt;sup>2</sup>Asian Equity Fund terminated on 26 February 2019.

<sup>&</sup>lt;sup>3</sup>Emerging Markets Equity Fund terminated on 26 March 2019.

- New supplement was issued for the Finisterre Unconstrained Emerging Markets Fixed Income Fund on 30 September 2020.

#### 15. SIGNIFICANT EVENTS DURING THE YEAR (continued)

#### **Other Events**

- Effective 1 December 2019, BNY Mellon Trust Company (Ireland) Limited merged into The Bank of New York Mellon SA/NV, Dublin Branch, which itself is a wholly owned subsidiary of The Bank of New York Mellon (the "Merger"). Following the Merger, The Bank of New York Mellon SA/NV, Dublin Branch, will be the entity, which will provide trustee, depositary and/or custody services to the Company.
- Global Income Fund name changed to Global Diversified Income Fund on 17 January 2020.
- The UK left the EU on 31 January 2020, an event commonly known as Brexit. Following 31 January 2020 the UK entered a transition Period. The transition period ended at 23:00 GMT (00:00 CET) on 31 December 2020. On 24 December 2020, a permanent trade agreement was reached between the UK and EU. The Manager does not believe that Brexit will present significant issues that cannot be mitigated.

The Manager is part of a global group and has been committed for many years to meeting clients needs across Europe in both EU and non-EU countries. The change in the UK's status as an EU to a non-EU country will not change the Group's focus or commitment to serve its clients across Europe. The Manager continues to monitor developments closely.

• During the period, the outbreak of COVID-19 has continued to rapidly spread around the world, causing considerable uncertainty for the global economy and financial markets. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not known. The Manager continues to monitor the situation closely. COVID 19 may have a significant adverse impact on the value of a Fund's underlying investments as a result of continued market volatility, and a period of economic decline globally which may also increase the risk of insolvencies of issuers of a Fund's underlying investments. There is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Funds' market price risk and liquidity risk is managed by the Investment Manager in accordance with policies and procedures in place. The Investment Manager will normally keep an allocation of cash to meet pending liabilities that may arise from time to time. The Funds' expected cash flows on these instruments do not vary significantly from this analysis, except for net assets attributable to holders of redeemable participating shares. Typically, shares are held by unitholders on a medium- or long-term basis. During extreme or unusual market conditions, as outlined in the prospectus, the Manager may place restrictions on redemptions such as by extending settlement, gating daily redemption to 10% or suspending redemptions. During the period COVID-19 did not impair the Funds' ability to satisfy redemption requests.

There have been no other significant events affecting the Funds during the year ended 30 September 2020.

#### 16. POST STATEMENT OF FINANCIAL POSITION EVENTS

• Since year end COVID 19 continues to rapidly spread around the world. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not known. The Manager continues to monitor the situation closely.

There have been no other significant events affecting the Funds after the year ended 30 September 2020.

### 17. APPROVAL OF FINANCIAL STATEMENTS

The Financial Statements were approved by the Board of Directors of the Manager on 19 January 2021.

### for the year ended 30 September 2020

Real Estate Debt Fund terminated during the year ended 30 September 2020 therefore no performance has been disclosed of these Funds.

Notes: Fund performance calculated using 10 a.m. EST NAVs.

The data is based on the USD I class of each Fund showing the total return over each time period.

Past performance is not indicative of future results.

The information above has been derived from sources believed to be accurate as of 30 September 2020. It contains general information only on investment matters and should not be considered as a comprehensive statement on any matter and should not be relied upon as such. The information it contains does not take account of any investor's investment objectives, particular needs or financial situation. Past performance is not a reliable indicator of future performance and should not be relied upon as a significant basis for an investment decision. Subject to any contrary provisions of applicable law, no company in the Principal Financial Group nor any of their employees or directors gives any warranty of reliability or accuracy nor accepts any responsibility arising in any other way (including by reason of negligence) for errors or omissions in this document. You should consider whether an investment fits your investment objectives, particular needs and financial situation before making any investment decision.

# PRINCIPAL GLOBAL INVESTORS FUNDS UCITS V Remuneration Policy (UNAUDITED)

### for the year ended 30 September 2020

#### **UCITS V Remuneration Policy (Unaudited)**

### Regulation 89(3A) of the UCITS Regulations: UCITS V Remuneration Requirements;

Regulation 89(3A) of the UCITS Regulations (as introduced pursuant to the UCITS V Regulations on 21 March 2016) requires that the annual report of Principal Global Investors Funds (the "Trust") contains certain disclosures on remuneration paid by the manager to its staff during the year and details of any material changes to the managers remuneration policy made during the year. In this regard, the following points are to be noted:

- The Manager has prepared a remuneration policy outlining how it adheres to the remuneration requirements set out the UCITS Regulations. This policy was adopted with effect from 18 March 2016.
- An annual review was undertaken of the remuneration policy during the financial year and no material changes were made to the remuneration policy.
- The Manager has no employees or staff that it employs and pays directly. The Manager has a Board of Directors, three of whom are employees of the Principal Group and receive no remuneration from the Manager. The remaining four directors, each of whom is independent, receive a fixed fee only (for the year ended 30 September 2020; €103,614 in aggregate) and do not receive variable remuneration. These fees are set at a level that reflects the scope and complexity of its activities.

The Manager delegates certain portfolio management activities for the Trust to Principal Global Investors LLC, (the "Delegate") and to Principal Global Investors (Europe) Limited, Principal Global Investors (Australia) Limited, Spectrum Asset Management, Principal Real Estate Investors LLC, Principal Global Investors (Japan) Limited, Principal Global Investors (Singapore) Limited, Post Advisory Group LLC, Origin Asset Management LLP, Finisterre Malta Limited and Finisterre Capital LLP, (the – "sub-Delegates")

The Delegate has calculated that, in aggregate, it pays its relevant staff\*\* the following in relation to the functions it performs in respect of the Trust:

An aggregate amount of \$3,488,311 including no received performance fees. This amount is applied across 44 members of staff at the Delegate and is apportioned as approximately \$723,355 in aggregate fixed remuneration and \$2,764,956 in aggregate variable remuneration.

In accordance with applicable European regulation and guidance, these figures are calculated on the basis of fee income received by the Delegate in relation to the Trust and how this correlates with the relevant staff's remuneration. Further, these figures relate only to the proportion of the relevant staff's remuneration that is estimated to be attributed, on a pro rata basis, to the functions such staff perform for the Delegate in relation to the Trust.

# Securities Financing Transactions Regulation (UNAUDITED) for the year ended 30 September 2020

## **Securities Financing Transactions on Total Return Swaps**

The following table details the gross aggregate fair value for total return swaps held on Finisterre Unconstrained Emerging Markets Fixed Income Fund, Finisterre VAG Unconstrained EM Fixed Income Fund and Finisterre Emerging Markets Debt Euro Income Fund analysed by counterparty, as at the Statement of Financial Position date.

Finisterre Unconstrained Emerging Markets Fixed Income Fund

		Total Return Swaps
Counterparty	Counterparty's country of incorporation	USD
HSBC	Hong Kong	1,067,895
		1,067,895

The gross aggregate fair value of total return swaps as a proportion of the Fund's NAV, as at the Statement of Financial Position date, is 0.11%.

#### Finisterre VAG Unconstrained EM Fixed Income Fund

Counterparty	Counterparty's country of incorporation	Total Return Swaps USD
JPMorgan Chase & Co	United States	3,222
HSBC	Hong Kong	158,770
		161,992

The gross aggregate fair value of total return swaps as a proportion of the Fund's NAV, as at the Statement of Financial Position date, is 0.09%.

Finisterre Emerging Markets Debt Euro Income Fund

		Total Return Swaps
Counterparty	Counterparty's country of incorporation	EUR
HSBC	Hong Kong	14,496
		14,496

The gross aggregate fair value of total return swaps as a proportion of the Fund's NAV, as at the Statement of Financial Position date, is 0.05%.

The following table provides an analysis of the maturity tenor of open Securities Financing Transactions ("SFTs") on Total Return Swaps ("TRS") and associated collateral received/provided, as at the Statement of Financial Position date.

Finisterre Unconstrained Emerging Markets Fixed Income Fund

Maturity tenor	OTC derivative transactions (net exposure) USD	Cash collateral received/ (provided) USD	Non-cash collateral received/ (provided) USD
1 day	-	-	-
2 to 7 days	-	-	-
Open	1,067,895	54,845,000	-
Total	1,067,895	54,845,000	-

# Securities Financing Transactions Regulation (UNAUDITED) for the year ended 30 September 2020 (continued)

#### Finisterre VAG Unconstrained EM Fixed Income Fund Cash Non-cash OTC derivative collateral transactions collateral (net exposure) received/ (provided) received/ (provided) USD USD **Maturity tenor** 1 day \_ -2 to 7 days 10,449,750 Open 161,992 10,449,750 **Total** 161,992

### Finisterre Emerging Markets Debt Euro Income Fund

Maturity tenor	OTC derivative transactions (net exposure) EUR	Cash collateral received/ (provided) EUR	Non-cash collateral received/ (provided) EUR
1 day	-	-	-
2 to 7 days	-	-	-
Open	14,496	417,853	-
Total	14,496	417,853	-

The above maturity tenor analysis has been based on the contractual maturity date of the relevant SFTs on TRS and, in case of non-cash collateral, the contractual maturity date of the security received/provided as collateral.

SFTs on TRS are entered into by the Fund/s under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Fund/s and a counterparty that governs SFTs (including TRS) entered into by the parties. All SFTs on TRS entered under an ISDA Master agreement are netted together for collateral purposes.

TRS are marked to market using valuation sources/methods and the fair value is recorded in the Statement of Financial Position as Unrealised Gain on Swap Contracts. The change in unrealised gains and losses is shown in Net gain/(loss) on investment activities in the Statement of Comprehensive Income and is not subject to any returns sharing arrangements with the Fund's Investment Adviser or any other third parties.
