# **GENERAL INFORMATION**

The following information is derived from and should be read in conjunction with the full text and definitions section of the prospectus.

The Principal Global Investors Funds ("the Trust") was constituted on 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS") under the laws of Ireland. Units of certain classes of the Trust are listed on the Euronext Dublin (formerly the Irish Stock Exchange). The Trust has been authorised in Ireland pursuant to the European Communities (Undertakings for Collective Investments in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015, (as amended) (the "UCITS Regulations").

All units are unhedged, except where otherwise noted.

For the year to 30 September 2018, the Trust comprised of the following Funds:

# **GENERAL INFORMATION (continued)**

Principal Global Investors (Ireland) Limited (the "Manager") may, with the prior consent of the Central Bank and approval of BNY Mellon Trust Company (Ireland) Limited (the "Depositary") and the Board of Directors of the Manager (the "Directors"), add additional Funds.

The financial statements are published on the <a href="www.principalglobal.com">www.principalglobal.com</a> website. The Directors, together with the Manager and Principal Global Investors, LLC (the "Investment Adviser") are responsible for the maintenance and integrity of the financial information included on this website.

#### **PRICES**

There will be a single price for buying, selling and switching units in each of the Funds. This will be represented by the Net Asset Value ("NAV") per Unit rounded to the nearest cent (less/plus duties and charges where applicable).

#### **DEALING**

The dealing deadline (being the time by which subscription and redemption requests for units must be received in Dublin in order for such requests to be dealt with in normal circumstances on a particular dealing day) is 10.00 a.m. (Irish time) on that dealing day. The dealing deadline for requests from Hong Kong investors is 5.00 p.m. (Hong Kong time) on that dealing day. All dealing requests should be addressed to:

#### **DISTRIBUTIONS AND DISTRIBUTOR STATUS**

The Trust Deed provides for the Manager to decide to make, and for the Trustee on each distribution date to make, distributions among holders of income units in each of the Funds. It is the intention of the Manager to make distributions to the extent that they are covered by income received from underlying investments. It is also the intention of the Manager that distributions will be declared on 30 September each year or nearest business day for all Income Unit Classes where possible. Quarterly distributions will be payable in respect of the A, I, D, F, N and P Income Unit Classes on the Preferred Securities Fund, the A and I Income Unit Classes on the High Yield Fund, the A and I Income Unit Classes on the Finisterre Unconstrained Emerging Markets Fixed Income Fund. Monthly distributions will be payable in respect of the D2 Income Unit Classes on the Preferred Securities Fund, High Yield Fund, Global Property Securities Fund, Post Global Limited Term High Yield Fund, Real Estate Debt Fund and the Finisterre Unconstrained Emerging Markets Fixed Income Fund. There are no D2 Income Unit Classes in issue currently on the High Yield Fund, Global Property Securities Fund, Post Global Limited Term High Yield Fund, Real Estate Debt Fund or the Finisterre Unconstrained Emerging Markets Fixed Income Fund. Monthly distributions will also be payable in respect of the N2 Income Unit Class on the Preferred Securities Fund and the Global Property Securities Fund. There are no N2 Income Unit Classes in issue currently.

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

#### **CORPORATE GOVERNANCE**

The Board of Directors has adopted and applied the Irish Funds ("IF") Corporate Governance Code for the year ended 30 September 2018.

# **CONNECTED PERSONS**

Irish UCITS Regulations 2015, Section 41(1), Restrictions on transactions with connected persons - requires that any transaction carried out with a UCITS by a distributor, manager, trustee, administrator, depositary, investment adviser, subadviser and/or associated or group companies of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Unitholders of the UCITS.

Having regard to confirmations from the Trust's Compliance Officer and the Trustee, the Board of Directors is satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 41(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and is satisfied that transactions with connected persons entered into during the period complied with these obligations.

None of the Directors had any interests in the units of the funds for the period from 1 October 2017 – 30 September 2018.

#### **Prospectus & Supplement changes**

- The basis of calculation of the maximum management fee was updated from Gross Asset Value to Net Asset Value in the prospectus dated 16 November 2017 to bring it in line with the Trust Deed.
- Global Income Fund A class management fee rate change from 1.10% to 1.25% effective from 16 November 2017.
- Finisterre Unconstrained Emerging Markets Fixed Income Fund A class management fee rate change from 1.25% to 1.55% effective from 16 November 2017. This version of the supplement dated 16 November 2017 was also updated to bring it in line with EU Regulations on transparency and re-use of securities financing transactions (SFTR).
- Origin Global Emerging Markets Fund On 16 November 2017, the supplement was updated to clarify the normal minimum capitalisation of the companies the sub-investment Advisor can invest in (US\$ 1 billion).
- Origin Global Emerging Markets and Global Smaller Companies Funds Fund as part of MIFID II compliance, disclosures were included in respect of Research Payment Accounts effective from 3 January 2018.
- Effective from 23 March 2018, the prospectus and all supplements for the Funds were updated to bring them in line with current regulatory requirements (MIFID II, EMIR, ESMA share class Opinion etc.) and confirm the prohibition of cross currency switches.

# **GENERAL INFORMATION (continued)**

# SIGNIFICANT EVENTS DURING THE YEAR (continued)

# **Prospectus & Supplement changes**

- Origin Global Emerging Markets and Global Smaller Companies Funds New supplements were issued for the Origin Global Emerging Markets Fund and Origin Global Smaller Companies Fund on 22 June 2018 clarifying exposure to Chinese securities and the Fund's ability to invest via UCITS eligible CIS.
- High Yield Fund A new supplement was issued for the Fund on 27 July 2018 to clarify that the Investment Adviser's generally seek to exclude investment in companies which fall outside environmental, social and corporate governance ("ESG") criteria.
- The prospectus was updated on 28 September 2018 to take account of the fact that the Valuation Point for the Funds was changed to 11.00p.m. Dublin time on the applicable Dealing Day and to clarify that foreign exchange rates used to value the assets of the Trust shall be rates taken at 4.00 p.m. London time on the relevant Dealing Day.
- The prospectus was at this occasion, additionally updated to include reference to the GDPR Regulation which came into
  effect on 25 May 2018, to include a disclosure on "Responsible Investing"; to include reference to the appointment of
  Roberto Walker as a director and the resignation of Chris Henderson; to update references from the Irish Stock
  Exchange to the Euronext Exchange; to update the Irish taxation disclosure, sub-custodian list, launch price and unit
  class descriptions.
- The Funds supplements were also updated on 28 September 2018 to take account of a number of changes such as updates to Initial Issue Price for unlaunched unit classes and a launch price amendment to 10 currency units or 1000 in the case of Yen; as well as:
- Preferred Securities Fund A change was made to the investment policy of the Preferred Securities Fund in reference to investment in real estate investment trusts ("REITS").
- Global Property Securities A clarificatory update to the supplement on the use of convertible bonds, as well as a reference to Principal Global Investor (Singapore) Limited as a Sub-Investment Adviser to the Global Property Securities Fund was included in the supplement dated at 28 September 2018.
- Post Global Limited Term High Yield Fund The dealing cycle of the Post Global Limited Term High Yield Fund was changed from weekly to daily dealing and this was noted in the supplement dated 28 September 2018.
- Post Global Limited Term High Yield, Global Income, Finisterre Unconstrained Emerging Markets Fixed Income and Preferred Securities Funds - The supplements dated 28 September 2018 were updated to clarify the investment policy in relation to convertible bonds/securities and instruments.

### Other Events

- On 17 May 2018 Christopher Henderson resigned as an executive director.
- On 18 May 2018 issuance of Privacy Notice communication in relation with the implementation of the general Data Protection Regulation (GDPR).
- On 23 May 2018 Roberto Walker was appointed as an executive director.
- On 1 July 2018 Duff & Phelps, Aleda Anderson, Dan Silverman and Nicholas Lyster were elected as designated persons for the Funds.
- On 13 August 2018 the new Dublin office for Principal Global Investors (EU) Limited was opened.
- On 28 September 2018, The Funds Valuation Point was changed from to 11.00p.m. Dublin time on the applicable Dealing Day. The foreign exchange rates used to value the assets of the Trust will henceforth be the rates obtained at 4.00 p.m. London time on the relevant Dealing Day.
- On 28 September 2018, listing was transferred from the Main Securities Market of Euronext Dublin ("MSM") to the Global Exchange Market.

# SIGNIFICANT EVENTS AFTER THE YEAR END

- Distributions declared on 1 October 2018, have not been included in the Statement of Comprehensive Income for 30 September 2018. These will be included in the financial statements for 30 September 2019. Please refer to Note 6 for further details.
- High Yield Fund A new supplement was issued for the Fund on 22 October 2018 to reflect investment in Rule 144A Securities (including those which have not yet been issued with an undertaking to register them with the US SEC).
- Post Global Limited Term High Yield Fund The definition of "Business Day" was changed to include US bank holidays as well as Irish bank holidays in the supplement dated 6 November 2018.

#### INVESTMENT ADVISER'S REPORT

# for the year ended 30 September 2018

# **Global Equity Fund**

For the twelve-month period ending 30 September 2018, the Global Equity Fund reported net performance of 8.4%.

The portfolio benefitted from stock selection within the industrials sector, led by Norfolk Southern, Boeing and Waste Management. Conversely, staple holdings of Philip Morris, Ambev and WH Group offset the outperformance.

Developed markets maintained their dominance as the United States extended its strong returns while emerging markets slumped further. Earnings resilience was the catalyst to higher equity returns outweighing geopolitical risks and trade disputes though the emerging markets group but was unable to stave off currency pressures as well as slowing growth in China.

The US dollar ("USD") appreciated against most global currency baskets. Central banks continued with their tightening of monetary policies with some advancing further on the initiative. Rate hikes were more prevalent amongst emerging central banks as they were forced to take further action to address persistent currency weakness.

Style leadership remained strongly biased toward growth over value.

Divergence has been a prominent theme in 2018 as returns by style, market cap, country and sector have varied widely despite low aggregate market volatility. The expectation is for this to continue amid global trade tensions and currency pressures slowing growth in China. Further contention is stemming from an economic growth backdrop that is showing signs of fatigue as many leading economic indicators moderate from recent highs despite remaining at expansionary levels.

As noted previously, a major area of investor concern as we move through the year is the escalating trade tensions and titfor-tat tariffs between the United States and some of its larger counterparts.

We continue to prefer companies with favourable earnings trends and other aspects of improving business fundamentals, rising investor expectations and attractive relative valuations. Stock selection remains our focus, as always.

# **Asian Equity Fund**

For the twelve-month period ending 30 September 2018, the Asian Equity Fund reported net performance of -3.34%.

Overweight positions to CNOOC, PTT Public and DBS Group Holdings, contributed significantly to the strategy, returning +59.7%, +39.8% and +32.2%, respectively. Significant detractors from the portfolio include overweight positions to LARGAN Precision, SK Hynix and LG Electronics. The three detractors from performance returned -31.4%, -24.5% and -38.0%, respectively.

The Asia Pacific region slightly outperformed while stock selection in Asia drove overall losses during the period. Within Asia, positive stock selection in China, Thailand and no exposure to the Philippines, were drivers of outperformance, but these gains were offset by losses in South Korea, India and Taiwan. In the Pacific region, stock selection in Singapore was a notable contributor and Hong Kong underperformed.

Despite the performance headwinds, we are sticking to our stock selection and portfolio construction process. We have shifted the portfolio to be more defensive and reduced our exposure to growth stocks, lowering the overall beta. In Korea, we remain cautious on the overall outlook as domestic drivers to the economy are looking weak, with government policies failing to lift demand while employment growth has slowed sharply. We aggressively reduced our exposure to India to be more neutral to the market and more tilted towards weaker currency beneficiaries. Amid the trade war rhetoric and possible economic slowdown, we maintain our underweight position in China and shifted the portfolio towards more defensive and balanced exposure.

### **European Equity Fund**

For the twelve-month period ending 30 September 2018, the European Equity Fund reported net performance of 2.87%.

The top 3 contributors were Ubisoft, Wirecard and Kering, rising 58.0%, 107.9% and 49.0%, respectively. The top 3 detractors were Total, Vestas Wind Systems and SAP- these returned +7.9%, -30.9% and -4.1%, respectively.

#### **INVESTMENT ADVISER'S REPORT**

# for the year ended 30 September 2018 (continued)

# **European Equity Fund (continued)**

The Fund saw its strongest positive attribution during the year under review from the financial sector, where our defensive stance was beneficial. Stock selection in France and Spain was particularly strong. We saw especially strong attribution from French online games manufacturer Ubisoft during the year after it rose 58%, from German payment processor Wirecard which more than doubled from the levels at which we first bought into it earlier in the year and from French luxury goods manufacturer Kering which rose 49%.

We saw slight negative attribution from stock selection in the healthcare sector. Denmark and the Netherlands though were positive in most sectors and markets. Our exposure to French energy group Total, Danish wine turbine manufacturer Vestas and German technology group SAP was negative during the year.

Divergence has been a prominent theme in 2018 as style, market cap, country and sector returns have all moved in discordant fashion. The expectation is for this to continue amid global trade tensions, currency pressures and a slowing China. However, corporate fundamentals remain solid in European equity markets.

Markets will continue to face some risk of correction due to de-risking and rebalancing pressures by pension funds and sovereign institutions. Other key risks, as always, include geopolitical uncertainty and potential policy missteps, whether monetary, fiscal and/or regulatory in nature. As we have noted repeatedly in recent years, in a market environment underpinned by aggressive governmental policy, even subtle changes in policy expectations can have swift implications for markets and investor sentiment.

We continue to prefer companies with favourable earnings trends and other aspects of improving business fundamentals, rising investor expectations and attractive relative valuations. Stock selection remains our focus, as always.

# **Emerging Markets Equity Fund**

For the twelve-month period ending 30 September 2018, the Emerging Markets Equity Fund reported net performance of -5.06%.

The top performing contributors during the period were Lukoil, Yageo Corporation, CNOOC, Vale and Walmex, these stocks were up 51.1%, 62.3%, 59.7%, 55.2% and 36.3%, respectively. The top detractors during the period were Yes Bank, LG Electronics, X5, Standard Bank and Qualicorp, with declines of 52.4%, 41.4%, 32.6%, 30.2% and 39.8%, respectively.

Our strategy underperformed over the last twelve months with gains in Latin America and losses in Europe, the Middle East and Africa ("EMEA") and Asia. The Asia region was particularly hard for our process due to a sharp collapse in multiples which drove overall losses during the period. From a country perspective, Mexico, Taiwan and Turkey were the top relative performers while South Korea, India and China were the top detractors. From a sector perspective, energy was the top relative performer while consumer discretionary was the top detractor.

Despite the performance headwinds, we are sticking to our stock selection and portfolio construction process. We have shifted the portfolio to be more defensive and reduced our exposure to growth stocks, lowering the overall beta. In Korea, we remain cautious on the overall outlook as domestic drivers to the economy are looking weak, with government policies failing to lift demand while employment growth has slowed sharply. We aggressively reduced our exposure to India to be more neutral to the market and more tilted towards weaker currency beneficiaries. Amid the trade war rhetoric and possible economic slowdown, we maintain our underweight position in China and shifted the portfolio towards more defensive and balanced exposure. We have a slight overweight to the Latin America region, where our main exposure is in Brazil and Mexico. In Brazil, we have adopted a barbell positioning with an overweight in materials (exporters) and financials (high domestic beta), while being slightly overweight overall.

# **Japanese Equity Fund**

For the twelve-month period ending 30 September 2018, the Japanese Equity Fund reported net performance of 3.88%.

The portfolio underperformed the MSCI Japan Index during the period. Stock selection in the real estate and industrials sectors were most effective. However, stock selection in the healthcare and information technology sectors were less effective.

The portfolio underperformed the twelve-month period on the back of negative stock selection. Our investment process and portfolio style characteristics faced significant headwinds during the period in Japan.

#### **INVESTMENT ADVISER'S REPORT**

# for the year ended 30 September 2018 (continued)

# **Japanese Equity Fund (continued)**

An overweight position in Sumitomo Dainippon Pharma contributed strongly to performance in the period as the stock was up 80.73% in USD terms. An overweight position in Takeda Pharmaceuticals had a negative impact on the portfolio in the period as the security was down 20.40% in USD terms. At the end of September, the portfolio's most overweight positions included KDDI Corp, Mitsubishi Corp, Fuji Oil, Itochu Corp and Hitachi.

Divergence has been a prominent theme in 2018 as returns by style, market cap; country and sector have varied widely despite low aggregate market volatility. The expectation is for this to continue amid global trade tensions, currency pressures slowing growth in China. Further contention is stemming from an economic growth backdrop that is showing signs of fatigue as many leading economic indicators moderate from recent highs despite remaining at expansionary levels.

The portfolio continues to overweight stocks with improving business fundamentals, rising investor expectations and attractive relative valuations. Our portfolio construction strategies minimize market, sector and industry exposures, relative to the index, in order to isolate superior stock selection as the primary source of outperformance.

#### **Preferred Securities Fund**

For the twelve-month period ending 30 September 2018, the Preferred Securities reported net performance of -0.50%.

The portfolio benefitted from its 10% allocation to floating rate securities in a period of rising rates. Extended insurance and utility floaters performed strongly as LIBOR rates rose with bonds like XL 0's, RGA 0 and RE 0 returning in excess of 8%. US Bank Trust Preferred floaters also performed strongly.

The past twelve months for the fund has been a difficult period for performance in a rising interest rate environment. Spreads on preferreds had tightened leading into the period given the implications for growth and fiscal stimulus under the Republican administration. After making tights in early 2018, preferreds sold off as longer-term rates rose given robust economic data, wage inflation and increased deficit spending. Spreads widened given the overbought nature of the market heading into 2018 and European Bank AT1's — Contingent Convertible Bonds ("Coco's") were impacted given political headlines in Italy and the Turkish currency crisis.

Across the board, Junior subordinated spreads are better than they were at the start the year and income opportunities are as good as they have been in over five years. The lines of least resistance appear pointed toward higher nominal (and real) U.S. Treasury rates as the Federal Reserve ("Fed") pursues a "neutral" target funds rate next year. We have a favourable credit view for global financials and of beneficial structures (i.e., income features) that can uniquely support total returns over the prospective performance of ordinary corporate bonds. Relative value choices are fluid. Generally, we like the overall nominal yields of the junior subordinated sector and wider than average spreads for the cycle. CoCos appear cheap to institutional preferred securities. Technical influences appear to be weighing on the USD\$25 par sector as it appears increasingly vulnerable to tax-loss appetites as we progress through this last quarter of the year.

#### **U.S. Equity Fund**

For the twelve-month period ending 30 September 2018, the U.S. Equity Fund reported net performance of 18.42%.

The portfolio underperformed the S&P 500 Index during the period. Stock selection in the industrials and information technology sectors was the most effective, whereas stock selection in the consumer discretionary and utilities sectors was less effective.

The portfolio underperformed during the twelve-month period. Our overweight positions in Boeing Company and Valero Energy Corporation and an underweight position in General Electric Company contributed positively to performance. Our overweight positions in CVS Health Corporation, Lazard Ltd and Intel Corporation detracted from performance.

At the end of the period, the fund's main overweight positions were Alphabet Inc., Cisco Systems, Inc and Amgen Inc. The Fund's main underweight positions included AT&T Inc, Wells Fargo & Company and Exxon Mobil Corporation.

Our portfolio is comprised of companies we believe offer superior fundamental change relative to their peers, rising investor expectations and attractive relative valuations.

# **High Yield Fund**

For the twelve-month period ending 30 September 2018, the High Yield Fund reported net performance of 1.89%.

#### **INVESTMENT ADVISER'S REPORT**

# for the year ended 30 September 2018 (continued)

# **High Yield Fund (continued)**

Security selection contributed to the outperformance, specifically the strong performance of California Resources, Academy Sports, AVAYA Inc, Emerald Performance and Catlin Insurance. However, this was somewhat offset by the weak performance of Seadrill Partners, Invesco and Dish.

Despite concerns around rising rates, emerging market stress, an escalating trade war, Italian sovereign risk, Brexit, equity valuations and heightened volatility, high yield spreads have remained mostly range-bound in the last twelve-months. This resilience can be attributed to the strong fundamental environment, the strength of the U.S. economy and positive supply/demand dynamics. Notably, the Fed is gradually removing accommodation through balance sheet reduction and rate hikes, and although the European Central Bank ("ECB") and Bank of Japan ("BoJ") continue to expand their balance sheets, the ECB has indicated that it will stop its government and corporate bond asset purchase program at the end of 2018.

High yield fundamentals remain strong and spreads have been resilient despite macro concerns around emerging markets, trade wars, Fed hiking and Italy. The current default rate, according to Moody's, is at 2.8% and projected to finish 2018 at 2.0% before reaching 1.9% in August 2019. High yield should continue to perform well with a constructive fundamental backdrop helping cushion any pressure seen from rising rates. We continue to see the best value in single B-rated names, with BB's also still attractive. Focus remains on buying issuers with improving fundamentals and limited refinancing needs. Our current top industry recommendations are insurance, energy, communications and finance companies.

# **Global Property Securities Fund**

For the twelve-month period ending 30 September 2018, the Global Property Securities Fund reported net performance of 6.83%.

The Fund benefited from good selection among U.S. net lease owners, U.S. data centres and U.S. office names. In Europe, German holdings and positioning within Swedish property stocks aided results. In Australia, the Fund's exposure to industrial was a positive. Negative stock selection decisions include holdings of Japanese developers and U.S. hotels.

The Fund generated positive returns as real estate markets continued to grow and real estate investment trusts ("REITs") generally delivered good results. The returns of REITs were negatively impacted by the rise in long term bond yields throughout most of the period until the latter half where risk appetite waned on rising trade tensions and signs of deceleration in economic growth for China. This defensive market sentiment caused some investors to favour the REIT sector. Merger and acquisition activity in REIT sector also helped drive returns higher for REITs. All three regions of the world saw positive returns for REITs.

Despite healthy macro real estate conditions, rapidly changing sentiment has led to a choppy return profile for real estate stocks thus far in 2018. Property stocks have generally outperformed on defensive moves in the market in reaction to global growth or trade concerns or when interest rates have moved lower. Conversely, REITs have lagged the broader markets when investors have exhibited more optimism for growth prospects or when interest rates have moved higher, as investors have had greater preference for more offensive positioning or see higher rates as a headwind to property pricing levels.

Overall, we are constructive on global property stocks and welcome the recent increase in volatility to more normal levels, as we believe volatility creates dislocations that our bottom-up stock selection has a proven ability to exploit. We are confident our disciplined approach of bottom-up stock selection will allow us to identify attractive investments amidst this elevated macroeconomic uncertainty and benefit patient investors over the medium-to-longer term.

# Post Global Limited Term High Yield Fund

For the twelve-month period ending 30 September 2018, the Post Global Limited Term High Yield Fund reported net performance of 1.73%.

While rising interest rates were a headwind for fixed income markets, the fund generated steady income returns from high quality businesses in more stable, defensive sectors, including healthcare, technology/software, cable/satellite and telecommunications. The portfolio continued to remain underweight in commodity related credits and other riskier sectors like retail.

#### **INVESTMENT ADVISER'S REPORT**

# for the year ended 30 September 2018 (continued)

# Post Global Limited Term High Yield Fund (continued)

As interest rates rose sharply over the last 12 months (with the yield on the 2-year U.S. Treasury increasing from 1.48% to 2.82%), prices were lower across fixed income markets. However, the fund was able to offset the impact of interest rate increases through solid income generation, in addition to price upside in select situations where bonds were redeemed early at a premium. Importantly, when the high yield market saw sharp weakness during the first quarter of 2018, downside protection was strong. Credit quality remained good, as the fund continued to be positioned defensively in high quality businesses.

We continue to believe we are in the later stages of the economic and credit cycles and the fund's positioning continues to reflect our cautious views on risk asset valuations and concerns around interest rates. However, yields have improved meaningfully over the last 12 months, with the fund's yield to worst at 4.6% and current yield well in excess of 5.0% as of 30 September 2018. In addition, fundamentals continue to be good for most U.S. high yield credits, as corporate profits have been strong and U.S. GDP growth is expected to remain robust. We continue to focus on the belief that short duration corporate credit remains attractive on both an absolute and relative basis (with relatively low levels of credit, market and duration risk) provided we keep our focus on investing in high quality businesses with strong downside protection.

# Global Time Diversified Absolute Return Fund (Terminated 14 September 2018)

For the period from 1 October 2017 to 14 September 2018, the Global Time Diversified Absolute Return Fund reported net performance of -0.65%.

The Fund finished the 2018 year-to-date period well. The key contributors were the USD Reserve currency theme, ahead of the USD sell-off in September, and the Anglo basket theme: both of which were long USD. The Strategic Currency Programme component, meanwhile, lagged its discretionary side.

New themes introduced over the period included a Trump-led trade war position and a theme based on our belief that sensitivity to inflation surprises will likely increase amid less spare capacity and greater policy trade-offs. Both these new themes have been broadly flat since their introduction. The Strategic Currency Programme ("SCP") investment strategy is long term in nature, with positions set just once per calendar year. The weights over the financial year were long AUD, USD and NZD versus EUR, CHF and SEK on a Forward Valuation bias; long JPY, EUR and GBP versus CHF, NOK and AUD on a PPP consideration; and long GBP versus EUR on valuation considerations.

The fund closed on the 14 September 2018.

#### Global Small Cap Equity Fund (Terminated 14 September 2018)

For the period from 1 October 2017 to 14 September 2018, the Global Small Cap Equity Fund reported net performance of 7.92%.

Strong stock selection in the United States and Norway drove outperformance during the period while Japan and the United Kingdom were key detractors. The energy and information technology sectors were the biggest contributors to returns while the healthcare and financials sectors were the biggest detractors.

The portfolio outperformed its index for the twelve-month period ending 14 September 2018, on the back of positive stock selection. The period provided a positive environment for our stock selection approach. Companies with strong fundamental change profiles and attractive relative valuation tended to outperform across most sectors and regions, with Japan being a notable exception.

The United States contributed strongly to relative portfolio performance during the period as consumer discretionary and information technology stocks performed well. Japan and the United Kingdom were the biggest detractors. Within emerging markets, China was the most notable contributor.

The fund closed on 14 September 2018.

#### **Origin Global Emerging Markets Fund**

For the twelve-month period ending 30 September 2018, the Origin Global Emerging Markets Fund reported net performance of -4.58%.

Stock selection was negative over the period. At a sector level financials and materials were the biggest contributors, but names in information technology proved a significant enough drag to offset those winners.

#### **INVESTMENT ADVISER'S REPORT**

# for the year ended 30 September 2018 (continued)

# **Origin Global Emerging Markets Fund (continued)**

The period can be divided into two distinct periods: the final quarter of 2017 and then the first three quarters of 2018. 2017 presented an orderly market environment, albeit one with exceptionally low volatility, but with clear leadership and directionality, the obverse is true of 2018. The year thus far has been characterised by heightened volatility that in turn has driven a period of irrational — as we would view it - market behaviour, with the market actively rejecting our target characteristics.

At Origin, we do not attempt to forecast the future, preferring instead to follow the evidence. The shape of the portfolio has changed somewhat over the past 12 months, and certainly during 2018. At a sector level, this has meant a reduction in exposure to financials and consumer discretionary names as we have increased holdings in the materials sector. Geographically we have reduced the portfolio's exposure to China and South Korea, predominantly in favour of Taiwan and India.

Whatever the future holds, you can be certain that we will continue to build portfolios of companies that exhibit those characteristics we favour. As soon as the market returns to rewarding those companies that best embody the balance of those characteristics then the strategy remains positioned to perform well.

### **Origin Global Smaller Companies Fund**

For the twelve-month period ending 30 September 2018, the Origin Global Small Companies Fund reported net performance of 3.17%.

Stock selection was negative over the period. At a sector level, consumer staples and materials were the standout performers; however this was more than offset by the drag from information technology names.

The period can be divided into two distinct periods: the final quarter of 2017 and then the first three quarters of 2018. 2017 presented an orderly market environment, albeit one with exceptionally low volatility, but with clear leadership and directionality, the obverse is true of 2018. The year thus far has been characterised by heightened volatility that in turn has driven a period of irrational — as we would view it - market behaviour, with the market actively rejecting our target characteristics.

At Origin, we do not attempt to forecast the future, preferring instead to follow the evidence. There has been a distinct and meaningful change in the shape of the portfolio during 2018. The shape of the portfolio has adjusted to reflect the changing evidence geographically, with a reduction in emerging market holdings predominantly in favour of U.S. names. At a sector level the changes have been less pronounced, nevertheless, we have seen a move away from information technology and consumer discretionary names in favour of virtually all other sectors.

Whatever the future holds, you can be certain that we will continue to build portfolios of companies that exhibit those characteristics we favour. As soon as the market returns to rewarding those companies that best embody the balance of those characteristics then the strategy remains positioned to perform well.

#### Claritas Latin American Equity Fund (Terminated 28 February 2018)

For the five months to close of the Fund on 28 February 2018, the Claritas Latin American Equity Fund reported net performance of 9.32%.

Stock picking was entirely responsible for the alpha of the fund. The positive highlights during the period were the overweight allocations on Itaú, CVC, Fibria and CPFL in Brazil. On the other hand, the underweight allocations on Gerdau and Vale in Brazil were the main detractors of the portfolio.

The past five months were marked by an increase in market volatility, initially due to higher interest rates in the United States and subsequently due to technical factors. Despite that, equity markets continued to post positive performance, as economic growth remains solid, inflation is still tamed and earnings are surprising in the upside.

Latin American equities (+5.20%) performed relatively in line with developed markets (+5.90%), but underperformed emerging markets (+10.5%).

This underperformance was mainly caused by disappointments with the agenda reform in Brazil and political fears in Mexico, as leftist candidate López Obrador is leading the polls for presidential election.

#### **INVESTMENT ADVISER'S REPORT**

# for the year ended 30 September 2018 (continued)

#### Finisterre Emerging Market Debt Fund (Terminated 19 December 2017)

The Finisterre Emerging Market Debt Fund terminated on 19 December 2017. No Investment Adviser report has been prepared as the Fund was not in operation for a significant period after the year end.

#### Spectrum Global Capital Securities Fund (Terminated 5 December 2017)

The Spectrum Global Capital Securities Fund terminated on 5 December 2017. No Investment Adviser report has been prepared as the Fund was not in operation for a significant period after the year end.

#### Global Capital Structure Opportunities Fund (Terminated 14 September 2018)

For the period from 1 October 2017 to 14 September 2018, the Global Capital Structure Opportunities Fund reported net performance of -2.11%.

Positive performers during the last year within the fund included Chubb, Andeavor Logistics, Morgan Stanley, Barclays and Bank of America. Negative contributors during the last year within the fund included Intesa, Westpac, UniCredit, BBVA and UBS.

Risk assets rallied into the close of 2017 on the combination of better than expected corporate earnings, rebounding economic data and a lack of inflation globally. The positive momentum carried into 2018, but by February, the fear of monetary tightening led to a sell-off in Treasury yields, higher volatility, and wider credit spreads. Further weight on the market as the year progressed included political turmoil, escalating trade wars and the Italian political crisis. The Fed raised rates three times during 2018 through its September meeting, with an expectation that they will raise once more in 2018.

Risk markets remain in a transition phase from the days of historic monetary accommodation to an environment of less accommodation and gradual rate increases by the Fed. However, valuations remain supported by global economic strength and continued foreign central bank accommodation. We have a favourable view on banks and financials. U.S. Money Centres' capital metrics are beginning to level off and potentially could be calibrated down on the new regulatory environment. Asset quality remains benign and higher rates offers the prospect of net interest margin ("NIM") expansion. In addition, higher market volatility could result in higher capital markets-related revenues. In Yankee banks, improvements in capital and asset quality continue but trade tensions and increasing political uncertainty and noise may limit spread performance.

The Fund closed on the 14 September 2018.

#### **Real Estate Debt Fund**

For the twelve-month period ending 30 September 2018, the Real Estate Debt Fund reported net performance of 2.80%.

Over the year, the fund benefitted from positive security selection which contributed to over 400 basis points of gross excess return compared to the Bloomberg Barclays CMBS Investment Grade Index. Holdings of BBB- rated bonds contributed most to overall portfolio performance, driven by an attractive yield profile and spread tightening in the sector.

The Real Estate Debt Fund invests primarily in US commercial mortgage-backed securities ("CMBS") with an objective of providing attractive long-term risk-adjusted returns. The Sub-Investment Adviser has constructed a diversified portfolio with exposure to a wide range of vintage and credit segments, which to date has carried a higher yield profile compared to the Bloomberg Barclays CMBS Investment Grade Index. Demand for alternative sources of yield has benefitted the portfolio as investors have shown interest in the asset class. Meanwhile, the significant increase in the 10-year U.S. Treasury rate experienced over the past year detracted from total return from a mark-to-market perspective.

CMBS represents a fixed-income investment in an underlying pool of first mortgages secured by commercial real estate properties located throughout the United States. The health of the commercial real estate market is directly influenced by the health of the economy, and more specifically, the U.S. job market which has added over 2.5 million jobs over the past year. Improving economic growth in the United States, generally balanced real estate supply/demand fundamentals and property-level income growth may benefit the credit performance of the portfolio. Conversely, heightened geopolitical risk, an emergence of growth concerns, rising rates (especially in longer maturities) and/or weak market technicals could negatively impact the portfolio. Given stable real estate fundamentals, the yield enhancement offered by CMBS appears attractive, especially in lower rated segments. Additionally, CMBS presents an opportunity to diversify broader fixed income portfolios via an alternative credit exposure, as especially important factor to consider as the current economic cycle extends.

#### **INVESTMENT ADVISER'S REPORT**

# for the year ended 30 September 2018 (continued)

#### Global Income Fund

For the twelve-month period ending 30 September 2018, the Global Income Fund reported net performance of 0.94%.

The fund's allocation to fixed income securities in the global industrials & services, global real estate & infrastructure and global finance sector contributed, while the fund's allocation to equities in those sectors detracted. In addition, the fund's allocation to the global emerging market (fixed income and equities) sector detracted.

The global high yield bond market posted a slightly positive return, while global high dividend equity markets posted midsingle digit positive returns during the period, in the risk-on market environment. Global growth, fundamentals and earnings provided support, while geopolitical tensions, political turmoil and emerging market concerns dominated headlines. In addition, the interest rate environment remained subdued as rates stayed relatively low versus historical averages across the globe. The United States continued to work towards normalised monetary policy with incremental tightening as did the Bank of England and some emerging market countries, while Europe continued to support economic growth through accommodative policies.

With our expectations for equities to outperform fixed income, the fund has a corresponding overweight to equities and an underweight to fixed income. Across the portfolio's four economic income sectors, the fund is tactically underweight the global emerging markets sector and slightly overweight the global industrials & services sector. While emerging market securities provide diversification with more rapid growth trajectories at times, the systemic risk in the space is a concern. For the global industrials & services sector, we have a preference for equity securities. Within this space, the slow, later stage economic growth acceleration bodes well for these cyclically-oriented securities. In the global real estate & infrastructure sector, these defensive "rent" type securities serve as a key risk ballast for the portfolio. Lastly, in the global finance sector, the confluence of the spectre of rising rates and delayed regulatory implementation has resulted in a positive re-rating of financial assets.

# Finisterre Unconstrained Emerging Markets Fixed Income Fund

For the twelve-month period ending 30 September 2018, the Finisterre Unconstrained Emerging Markets Fixed Income reported net performance of 0.91%.

A relative value credit curve flattener in Bahrain (long 10Y bond vs long 5Y CDS duration neutral) was the second largest positive contributor to portfolio performance, as we correctly anticipated a potential sovereign stress episode - the country was losing reserves amid a global USD funding crunch. Egyptian positions in the EGP local T-Bills market were a significant provider of steady income to the portfolio. The country continued to deliver on its steady fiscal adjustment under International Monetary Fund ("IMF") supervision, while significantly reducing its external funding gap with higher gas exports and lower imports. Nigeria was a positive contributor to the portfolio, equally related to a long local currency T-Bill position and active trading on the mid to long end part of the hard currency bond curve. Nigeria continues to benefit from steady oil inflows and positive current account to fund its financing needs.

Despite strong oil prices and one of the most credible fiscal and monetary policy mix, Russian assets were held back by geopolitical tensions and the risk of further U.S. sanctions. Long positions in local and external sovereign bonds were negative contributors as a result. Although we benefitted in the first quarter from our long CDS positions in Argentina in the run-up to the IMF program, we registered a negative performance in August from our long positions in Argentina 2048 bonds, as the currency depreciated and risk appetite deteriorated strongly. Sri Lanka was a moderate net detractor to the portfolio over the past year as our long mid-duration positions in sovereign USD bonds suffered in early 2018 from political uncertainty and the overhang of potential new bond issuance amidst fiscal slippage.

Principal Global Investors, LLC

31 October 2018

# Independent auditors' report to the unitholders of the Funds of Principal Global Investors Funds

# Report on the audit of the financial statements

# **Opinion**

In our opinion, Principal Global Investors Funds' financial statements:

- give a true and fair view of the assets, liabilities and financial position of Global Equity Fund, Asian Equity Fund, European Equity Fund, Emerging Markets Equity Fund, Japanese Equity Fund, Preferred Securities Fund, U.S. Equity Fund, High Yield Fund, Global Property Securities Fund, Post Global Limited Term High Yield Fund, Origin Global Emerging Markets Fund, Origin Global Smaller Companies Fund, Real Estate Debt Fund, Global Income Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund as at 30 September 2018 and of their results for the year then ended;
- give a true and fair view of the assets, liabilities and financial position of Global Time Diversified Absolute Return Fund, Global Small Cap Equity Fund and Global Capital Structure Opportunities Fund as at 14 September 2018 and of their results for the period from 01 October 2017 to 14 September 2018 (the "period") then ended;
- give a true and fair view of the assets, liabilities and financial position of Claritas Latin American Equity Fund as at 28 February 2018 and of their results for the period from 01 October 2017 to 28 February 2018 (the "period") then ended;
- give a true and fair view of the assets, liabilities and financial position of Finisterre Emerging Market Debt Fund as at 19 December 2017 and of their results for the period from 01 October 2017 to 19 December 2017 (the "period") then ended;
- give a true and fair view of the assets, liabilities and financial position of Spectrum Global Capital Securities Fund as at 05 December 2017 and of their results for the period from 01 October 2017 to 05 December 2017 (the "period") then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position of Global Equity Fund, Asian Equity Fund, European Equity Fund, Emerging Markets Equity Fund, Japanese Equity Fund, Preferred Securities Fund, U.S. Equity Fund, High Yield Fund, Global Property Securities Fund, Post Global Limited Term High Yield Fund, Origin Global Emerging Markets Fund, Origin Global Smaller Companies Fund, Real Estate Debt Fund, Global Income Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund as at 30 September 2018;
- the Statement of Financial Position of Global Time Diversified Absolute Return Fund, Global Small Cap Equity Fund and Global Capital Structure Opportunities Fund as at 14 September 2018;
- the Statement of Financial Position of Claritas Latin American Equity Fund as at 28 February 2018;
- the Statement of Financial Position of Finisterre Emerging Market Debt Fund as at 19 December 2017;
- the Statement of Financial Position of Spectrum Global Capital Securities Fund as at 05 December 2017;
- the Statement of Comprehensive Income of Global Equity Fund, Asian Equity Fund, European Equity Fund, Emerging Markets Equity Fund, Japanese Equity Fund, Preferred Securities Fund, U.S. Equity Fund, High Yield Fund, Global Property Securities Fund, Post Global Limited Term High Yield Fund, Origin Global Emerging Markets Fund, Origin Global Smaller Companies Fund, Real Estate Debt Fund, Global Income Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund for the year then ended;
- the Statement of Comprehensive Income of Global Time Diversified Absolute Return Fund, Global Small Cap Equity Fund and Global Capital Structure Opportunities Fund for the period from 01 October 2017 to 14 September 2018 (the "period") then ended;
- the Statement of Comprehensive Income of Claritas Latin American Equity Fund for the period from 01 October 2017 to 28 February 2018 (the "period") then ended;
- the Statement of Comprehensive Income of Finisterre Emerging Market Debt for the period from 01 October 2017 to 19 December 2017 (the "period") then ended;

- the Statement of Comprehensive Income of Spectrum Global Capital Securities Fund for the period from 01 October 2017 to 05 December 2017 (the "period") then ended;
- the Statement of Movement in Net Assets Attributable to Redeemable Participating Unitholders of Global Equity Fund, Asian Equity Fund, European Equity Fund, Emerging Markets Equity Fund, Japanese Equity Fund, Preferred Securities Fund, U.S. Equity Fund, High Yield Fund, Global Property Securities Fund, Post Global Limited Term High Yield Fund, Origin Global Emerging Markets Fund, Origin Global Smaller Companies Fund, Real Estate Debt Fund, Global Income Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund for the year then ended;

- the Portfolio of Investments for each of the Funds as at 30 September 2018; and
- the notes to the financial statements for each of the Funds, which include a description of the significant accounting
  policies.

# **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We remained independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

# Our audit approach

# Overview

#### Materiality

• Overall materiality: For Fixed Income Funds 100bps of Net Assets Value ("NAV") at 30 September 2018 except for the terminated and due to terminate Fixed Income Funds where the overall materiality is 100bps of the average NAV for the previous 3 years. For all other Funds of the Unit Trust overall materiality is set at 50 bps of NAV at 30 September 2018 except for terminated and due to terminate Funds where the overall materiality is 50bps of the average NAV for the previous 3 years.

#### Audit scope

• The Trust is an open-ended umbrella Unit Trust. We tailored the scope of our audit taking into account the types of investments within the Funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the Trust operates. We look at each of the Funds at an individual level.

# Key audit matters

Existence and Valuation of Investments in Securities at Fair Value.

# The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the manager made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the manager that represented a risk of material misstatement due to fraud.

# Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

#### Key audit matter

# Existence and Valuation of Investments in Securities at Fair Value

See the portfolio of investments for each Fund and refer to the Principal Accounting Policies of the financial statements of the Trust for further details.

The Investments in Securities at Fair Value in the Statement of Financial Position of each Fund are held in the Funds' name at 30 September 2018 and are valued at fair value in line with Generally Accepted Accounting Practice in Ireland.

These areas are considered key audit matters as they represent the principal elements of the financial statements.

### How our audit addressed the key audit matter

We obtained independent confirmation of existence from the Depositary and other counterparties of the Investments in Securities at Fair Value, held at 30 September 2018, by agreeing the amounts held to the accounting records. For a portion of the derivative positions we liquidated these positions to post year end bank statements to verify their existence.

We tested the valuation of the Investments in Securities at Fair Value, by independently agreeing the valuation of the investments to independent third party vendor sources, where possible.

No material issues were identified from the results of these procedures.

# Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (Ireland) require us to report to you where:

- the manager's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the manager has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Funds' ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Funds' ability to continue as going concerns.

# How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Trust, the accounting processes and controls, and the industry in which it operates.

The manager controls the affairs of the Trust and is responsible for the overall investment policy which is determined by them. The manager has delegated certain responsibilities to Principal Global Investors, LLC (the 'Investment Adviser') and to BNY Mellon Fund Services (Ireland) Designated Activity Company (the 'Administrator'). The financial statements, which remain the responsibility of the manager, are prepared on their behalf by the Administrator. The Trust has appointed BNY Mellon Trust Company (Ireland) Limited (the "Depositary") to act as Depositary of the Trust's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Trust's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

### Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Trust's Funds as follows:

Overall materiality and how we determined it	Overall materiality: For Fixed Income Funds 100bps of Net Assets Value ("NAV") at 30 September 2018 except for the terminated and due to terminate Fixed Income Funds where the overall materiality is 100bps of the average NAV for the previous 3 years. For all other Funds of the Unit Trust overall materiality is set at 50 bps of NAV at 30 September 2018 except for terminated and due to terminate Funds where the overall materiality is 50bps of the average NAV for the previous 3 years.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the Trust is to provide investors with a total return at a fund level, taking account of the capital and income returns.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above 5 basis points of each Fund's NAV (average NAV for the previous 3 years for terminating and due to terminate Funds) and 10 basis points of the Fixed Income Fund's NAV(average NAV for the previous 3 years for terminating and due to terminate Funds), for NAV per share impacting differences (2017: 5 basis points of each Fund's NAV and 10 basis points of NAV for Fixed Income Funds, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

# Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The manager is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

# Responsibilities for the financial statements and the audit

# Responsibilities of the manager for the financial statements

As explained more fully in the Statement of Manager's Responsibilities set out on page 26, the manager is responsible for the preparation of the financial statements in accordance with the applicable framework giving a true and fair view.

The manager is also responsible for such internal control as the manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the manager is responsible for assessing the Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the manager intends to cease operations, or has no realistic alternative but to do so.

# Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf.

This description forms part of our auditors' report.

# Use of this report

This report, including the opinion, has been prepared for and only for the unitholders of each of the Funds as a body in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

# PRINCIPAL GLOBAL INVESTORS FUNDS DEPOSITARY'S REPORT TO THE UNITHOLDERS OF PRINCIPAL GLOBAL INVESTORS FUNDS for the year ended 30 September 2018

Report from the Depositary to the Unitholders dated

For the period from 1 October 2017 to 30 September 2018 (the "Period")

BNY Mellon Trust Company (Ireland) Limited (the "Depositary" "us", "we", or "our") has enquired into the conduct of Principal Global Investors Funds ("The Trust") for the Period, in its capacity as Depositary to the Trust.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with our role as depositary to the Trust and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

#### Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended ("the Regulations").

Our report shall state whether, in our opinion, the Trust has been managed in that period in accordance with the provisions of the Trust's Trust Deed and the Regulations. It is the overall responsibility of the Manager to comply with these provisions. If the Manager has not so complied, we as depositary must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

# **Basis of Depositary Opinion**

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the Trust has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Trust's constitutional documentation and the appropriate regulations.

#### Opinion

BNY MELLON

In our opinion, the Trust has been managed during the Period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the Manager and the Depositary by the Trust Deed and by the Regulations.

(ii) otherwise in accordance with the provisions of the Trust Deed and the Regulations.

Michelle Moroney

For and on behalf of BNY Mellon Trust Company (Ireland) Limited,

One Dockland Central,

Guild Street,

IFSC,

Dublin 1.

#### STATEMENT OF MANAGER'S RESPONSIBILITIES

# Manager

The Manager of the Trust is required by the UCITS Regulations to prepare financial statements for each accounting period which gives a true and fair view of the financial position of the Trust at the end of that period, the results of its operations and the movement in net assets for the period then ended. In preparing these financial statements the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Trust will continue in operation.
- ensure that any transaction carried out with a UCITS by a management company or Depositary to the UCITS, the
  delegates or sub-delegates of the management company or Depositary, and any associate or group of such a
  management company, Depositary, delegate or sub-delegate ("connected persons") is carried out as if negotiated at
  arm's length. Transactions must be in the best interests of the Unitholders.

The Manager is responsible for keeping proper books of account which disclose with reasonable accuracy at any time the financial position of the Trust and for ensuring that the financial statements are prepared in accordance with accounting standards generally accepted in Ireland and for ensuring that they comply with the provisions of the Trust Deed, the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds. The Manager is also responsible with respect to its duties under the UCITS Regulations to take reasonable steps for the prevention and detection of fraud and other irregularities.

**Principal Global Investors (Ireland) Limited** 

# STATEMENT OF DEPOSITARY'S RESPONSIBILITIES

#### **Depositary**

The Depositary is required by the UCITS Regulations, to:

- · maintain the assets of a Unit Trust in safekeeping;
- report to the Unitholders for each accounting period on the conduct of the Manager in the management of a Unit Trust.

**BNY Mellon Trust Company (Ireland) Limited**

# PRINCIPAL GLOBAL INVESTORS FUNDS NOTES TO THE ANNUAL REPORT AND FINANCIAL STATEMENTS for the year ended 30 September 2018

#### 1. FORMATION

The Principal Global Investors Funds ("the Trust") was constituted under the laws of Ireland by a Trust Deed dated 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS"). It is an umbrella Unit Trust in that different classes of units may be issued from time to time by the Manager. Units of certain classes of the Trust are listed on the Euronext Dublin (formerly the Irish Stock Exchange). The Trust has been authorised by the Central Bank of Ireland (the "Central Bank") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015, (as amended) (the "UCITS Regulations").

The financial statements have been prepared for the year ended 30 September 2018.

The Funds of the Trust are listed on pages 4 to 6. The Portfolios of Investments are listed on pages 27 to 77.

### 2. PRINCIPAL ACCOUNTING POLICIES

### **Accounting Convention and Basis of Accounting**

The annual audited financial statements are prepared in accordance with accounting standards generally accepted in Ireland ("Irish GAAP") including Financial Reporting Standard ("FRS") 102, "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" and the provisions of the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds. Irish GAAP used in preparing financial statements which present a true and fair view are those standards issued by the Financial Reporting Council ("FRC"). The Trust has also applied the "Amendments to FRS 102 – Fair value hierarchy disclosures" which were issued in March 2016.

The Trust has availed of the exemption available to open ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 "Statement of Cash Flows" of FRS 102 and is not presenting cash flow statements.

The Directors have a reasonable expectation that the Trust has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the report has been prepared on a going concern basis for all Funds in the Trust under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss, except for the Global Time Diversified Absolute Return Fund, Global Small Cap Equity Fund, Claritas Latin American Equity Fund, Finisterre Emerging Market Debt Fund, Spectrum Global Capital Securities Fund and Global Capital Structure Opportunities Fund which have terminated, and the Asian Equity Fund, U.S. Equity Fund, Japanese Equity Fund, and Emerging Markets Equity Fund which are planned to terminate in 2019 - these have been prepared on a non-going concern basis. The report has been prepared in USD for all Funds' on the platform. The base currency for all funds is USD unless otherwise stated.

The format and certain wordings of the financial statements have been adapted from those contained in Irish statute so that, in the opinion of the Directors, they more appropriately reflect the nature of the Trusts business as an investment fund.

The information required by FRS 102, to be included in a single statement of comprehensive income for the reporting period displaying all items of income and expense recognised during the period including those items recognised in determining profit or loss and items of other comprehensive income and a Reconciliation of Movements in Unitholders' Funds are, in the opinion of the Directors, contained in the Statements of Comprehensive Income and the Statements of Movement in Net Assets Attributable to Redeemable Participating Unitholders. In arriving at the results for the year, all amounts in the Statements of Comprehensive Income relate to continuing activities except for the Global Time Diversified Absolute Return Fund, Global Small Cap Equity Fund, Claritas Latin American Equity Fund, Finisterre Emerging Market Debt Fund, Spectrum Global Capital Securities Fund and Global Capital Structure Opportunities Fund which have terminated. In the opinion of the Directors, the financial statements give, in all other respects, the information required by the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds.

All gains or losses for the year are reflected in the Statements of Comprehensive Income.

The significant accounting policies adopted by the Trust are set out overleaf. These policies have been consistently applied to the financial periods presented unless otherwise stated.

for the year ended 30 September 2018 (continued)

### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

### Financial Instruments at Fair Value through Profit or Loss

Under FRS 102, in accounting for its financial instruments a reporting entity is required to apply either (a) the full provisions of Section 11 "Basic Financial Instruments" and Section 12 "Other Financial Instruments Issues" of FRS 102, (b) the recognition and measurement provisions of International Accounting Standards ("IAS") 39 "Financial Instruments: Recognition and Measurement" ("IAS 39") and only the disclosure requirements of Sections 11 and 12 of FRS 102; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9 "Financial Instruments" ("IFRS 9") and the disclosure requirements of Sections 11 and 12. The Trust has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of Sections 11 and 12.

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by the Investment Adviser/Sub-Investment Adviser(s) at fair value through profit or loss at inception. All instruments on the Portfolio of Investments are classified as held at fair value through profit or loss. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive the cashflow from the investments have expired or the Funds have transferred substantially all of the risks or rewards of ownership.

### **Accounting for Investments**

Investments are recognised at the trade date at mid or last traded prices. Realised gains or losses on investment disposals are calculated using the average cost method. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

### **Valuation of Investments**

The year-end valuation date was 28 September 2018, the last business day of the year. Securities listed on a recognised stock exchange or traded on any other organised market, are valued at the current mid-price at each valuation point on the stock exchange or market which constitutes the principal market for such securities. If trades are received after the dealing cut-off time they will be accounted for in the next valuation. If for specific assets the current mid prices do not, in the opinion of the Manager, reflect their fair value or are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction or the Manager may also apply a fair value adjustment where they deem appropriate in order to reflect fair value.

In the case of any security not listed, quoted or dealt on a regulated market or for which no quotation or value is available which would provide a fair valuation, or in respect of which the price is unrepresentative, the fair value of such security is determined on the basis of the probable realisation value and is determined by the Investment Adviser, Sub-Investment Adviser(s), a stockbroker or other competent person appointed by the Investment Adviser and approved for the purpose by the Trustee, using valuation techniques.

#### **Futures**

A futures contract obligates one party to sell and the other party to purchase a specific instrument for an agreed price at an agreed future date. Futures may be used subject to the conditions and limits laid down by the Central Bank and the Trust Deed and subject to any other restrictions or regulations which may affect the portfolio management of the Funds or the Investment Adviser/Sub-Investment Adviser(s). Certain Funds may buy or sell futures to provide an efficient, liquid and effective method for the management of risks by "locking in" gains and/or protecting against future declines in value. The fair value of open future contracts is calculated as the difference between the contracted rate and the current rate that would close out the contract on the Statement of Financial Position date. Gains or losses on futures are included in the Unrealised Gain/(Loss) on Open Future Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. When the contract is terminated, the Fund will recognise a realised gain or loss in the Statement of Comprehensive Income equal to the difference between the value of the contract at the time it was entered into and the time it was closed. There were no futures contracts outstanding for any of the Funds at year-end.

### **Forward Foreign Currency Exchange Contracts**

In a Forward Foreign Currency Exchange Contract, the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. The fair value of Forward Foreign Currency Exchange Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Forward Foreign Currency Exchange Contracts are included in the Unrealised Gain/(Loss) on Forward Foreign Currency Exchange Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date. The Funds may enter into these contracts to hedge against changes in currency exchange rates. The Forward Foreign Currency Exchange Contracts are used to hedge the currency exposure on individual positions taken by the Funds and to hedge non base currency investors.

for the year ended 30 September 2018 (continued)

### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

### **Spot Currency Contracts**

In a Spot Currency Contract the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a predetermined price at a future date (the spot date). This date is typically within three business days of inception of the contract. The fair value of Open Spot Currency Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Spot Currency Contracts are included in the Unrealised Gain/(Loss) on Open Spot Currency Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date. The Funds may enter into these contracts to hedge against changes in currency exchange rates.

### **Credit Default Swaps**

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party and the swap will terminate. When the swap terminates any realised gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities. A Credit Default Swap provides the Fund with an alternative to investing in assets themselves for a potentially higher return with the same risk or they may be used to obtain exposure to assets which the Fund could not otherwise acquire due to illiquidity in the relevant market. The Fund recognises the swap when it becomes party to the contract. The Credit Default Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. At 30 September 2018, there was Cash Collateral pledged by the Funds. This collateral is pledged with the counterparty to the contract.

### **Interest Rate Swaps**

An Interest Rate Swap is a bilateral agreement in which each of the parties agrees to exchange a series of interest payments for another series of payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged. The Interest Rate Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. When the swap terminates any realised gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities. At 30 September 2018, there was Cash Collateral pledged by the Funds. This collateral is pledged with the counterparty to the contract.

### **Total Return Swaps**

A Total Return Swap is a financial contract whereby one party agrees to pay another party the total return of a defined asset in return for receiving a floating rate return. The Trust enters into unfunded swap agreements on behalf of the Fund. Total Return Swaps are marked to market using valuation sources/methods and the fair value is recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. The change in unrealised gains and losses or any realised gains or losses arising on termination are shown in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income.

Total Return Swap positions are valued using models which utilise observable data to the extent practicable and contain assumptions on the application of this data. Changes in data inputs and assumptions about these factors could affect the reported fair value of the Total Return Swaps.

### **Option Contracts**

Options are Financial Derivative Instruments ("FDIs") that give the buyer, in exchange for a premium payment, the right, but not the obligation, to either purchase (call option) or to sell to (put option) the writer a specified underlying instrument at a specified price on or before a specified date. The Funds may enter into exchange-traded contracts to meet the requirements of its risk management and trading activities. All open option positions are included in the Market Value Gain/(Loss) on Option Contracts in the Statement of Financial Position.

When options are closed, the difference between the premium and the amount paid or received, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is treated as a realised gain or loss and is included in Net Gain/Loss on investment activities in the Statement of Comprehensive Income. The Funds may enter into these contracts to hedge against changes in currency exchange rates. There were no written options outstanding for any of the Funds at year-end.

for the year ended 30 September 2018 (continued)

### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

### **Foreign Currency Transactions**

In accordance with Section 30 "Foreign Currency Translation" of FRS 102, items included in the individual Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). The Fund's selection of the functional currency is attributable to the functional currency being: a) the major component of the Fund's benchmark and b) the common proxy for most clients in the Fund's varied client base. The functional currency assessment was completed at a Fund level. The Funds' presentation currencies equated to their respective functional currencies when assessed under FRS 102. The functional currency of each Fund of the Trust is USD.

#### For each Fund:

- (i) Currency gains or losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Fund's books and the Fund's functional currency equivalent of the amounts actually received or paid. These gains or losses are included where appropriate in the dividend and interest income figure in the individual Fund's Statement of Comprehensive Income;
- (ii) Currency gains or losses realised on securities purchases and sales transactions are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income;
- (iii) Unrealised currency gains or losses on securities held at year end are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income; and
- (iv) Monetary assets and liabilities denominated in currencies other than the Fund's functional currency are translated at the rate of exchange ruling at the close of business on the Statement of Financial Position date and exchange differences are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income.

#### **Income from Investments**

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Interest income is accounted for daily on an effective yield basis. Income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

### Net Gain/(Loss) on Investment Activities

In respect of each instrument type classified as Financial Instruments at Fair Value through Profit or Loss, the movement in unrealised gains/(losses) since the prior period end and realised gains/(losses) are included in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income. Interest earned on fixed income securities such as bonds is included here also.

#### **Expenses**

Operating expenses inclusive of Performance Fees are recognised on an accruals basis in the Statement of Comprehensive Income.

### **Formation Costs**

Formation costs are written off over a five year period commencing from the year in which they are incurred.

### **Anti-Dilution Levy**

The Manager may exercise its discretion to apply an anti-dilution levy in relation to subscriptions and redemptions of units. The levy is a charge for transaction costs that may be deducted from the NAV per Unit of the relevant class to reflect the costs of acquiring or disposing of underlying assets to fund subscriptions or redemptions from the Fund, respectively. The levy is intended to be used to ensure that all investors in the Trust are treated equitably by allocating transaction costs to the investors whose transactions give rise to those costs. For the year ended 30 September 2018 there were anti-dilution levies charged on the following funds: Asian Equity Fund \$4,652, European Equity Fund \$27,108, Japanese Equity Fund \$1,797,704, Preferred Securities Fund \$4, US Equity Fund \$2,781, High Yield Fund \$54,276, Global Small Cap Equity Fund \$23,011, Origin Global Emerging Markets Fund \$139,059, Claritas Latin American Equity Fund \$27,573, Finisterre Unconstrained Emerging Markets Fixed Income Fund \$192,645. There was no anti-dilution levy charged during the year ended 30 September 2017.

#### Cash at Bank

Cash is valued at amortised cost, which approximates fair value. Cash is held with the Bank of New York Mellon Trust Company (Ireland) Limited.

for the year ended 30 September 2018 (continued)

### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

### Cash Collateral & Pledged Collateral

Cash Collateral provided by the Fund is identified in the Statement of Financial Position as Cash Collateral and is not included as a component of Cash at Bank. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Fund classifies that asset in its Statement of Financial Position separately from Other Assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge; a disclosure of the collateral provided is made in the notes to the financial statements.

### Margin Cash Receivable/Payable

Cash Collateral Receivable/Payable to the Trust in relation to the open Futures Contracts and open Swap Contracts is identified in the Statement of Financial Position as Margin Cash Receivable/Payable and is not included as a component of Cash at Bank. There is no Margin Cash Receivable/Payable at 30 September 2018. Margin Cash Receivable/Payable at 30 September 2017 is detailed as part of Note 4.

#### **Distributions**

The A Income Unit Classes from the Asian Equity Fund and European Equity Fund will declare and pay annual distributions to Unitholders.

The Preferred Securities Fund will declare and pay quarterly distributions to Unitholders holding the A, I, D, F, N and P Income Unit Classes.

The High Yield Fund will declare and pay quarterly distributions to Unitholders holding the A and I Income Unit Class.

The Post Global Limited Term High Yield Fund will declare and pay quarterly distributions to Unitholders holding the A Income Unit Class and I Income Unit Class.

The I, I2 and N Income Unit Classes from the Global Property Securities Fund and the I2 Income Unit Class from the Finisterre Unconstrained Emerging Markets Fixed Income Fund will also declare and pay annual distributions to Unitholders.

The Real Estate Debt Fund will declare and pay quarterly distribution to Unitholders holding the I Income Unit Class.

The Global Income Fund will declare and pay monthly distributions to Unitholders holding the D Income Unit Class.

The Finisterre Unconstrained Emerging Markets Fixed Income Fund will declare and pay quarterly distributions to Unitholders holding the I2 Income Unit Class.

The D2 and N2 Income Unit Classes from the Preferred Securities Fund and Global Property Securities Fund will declare and pay monthly distributions to Unitholders. There are no D2 Income Unit Classes in issue currently on the High Yield Fund, Post Global Limited Term High Yield Fund, Real Estate Debt Fund or the Finisterre Unconstrained Emerging Markets Fixed Income Fund. There are no N2 Income Unit Classes in issue currently on the Preferred Securities Fund or the Global Property Securities Fund.

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

Distributions are recorded by each Fund on ex-dividend date in the Statement of Comprehensive Income once approved by the Board.

### Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis, or minimise the assets and settle the liability simultaneously.

### **Participating Units**

All participating units issued by the Funds provide the investors the right to acquire redemptions for cash at the value proportionate to the investor's share in the Fund's net assets at the redemption date. Such instruments give rise to a financial liability for the present value of the redemption amount. In accordance with the issued prospectus the Funds are contractually obliged to redeem units at the traded NAV per unit which is calculated at each valuation point.

for the year ended 30 September 2018 (continued)

### 3. TAXATION

Under current law and practice the Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Unitholders, any encashment, redemption, cancellation, repurchase or transfer of units and any deemed disposals of units as described below for Irish tax purposes arising as a result of holding units in the Trust for a period of eight years or more. Where a chargeable event occurs, the Trust is required to account for the Irish tax thereon.

No Irish tax will arise on the Trust in respect of chargeable events in respect of:

- (i) a Unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Trust or the Trust has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (ii) certain exempted Irish tax resident Unitholders who have provided the Trust with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Trust may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Trust or its Unitholders.

### **Redeeming Units**

When a redemption request has been submitted by a Unitholder who is or is deemed to be an Irish resident, or is acting on behalf of an Irish resident, the Manager shall deduct from the redemption proceeds an amount which is equal to the tax payable by the Unit Trust to the Revenue Commissioners in Ireland in respect of the relevant transaction.

for the year ended 30 September 2018 (continued)

#### **DISTRIBUTIONS**

#### For the year ended 30 September 2018

Distributions reflect income earned on the Funds below during the years to 30 September 2018 and 30 September 2017. Annual distributions were declared on 1 October 2018 and 2 October 2017 respectively. Distributions declared on 1 October 2018 or nearest subsequent business day have not been included in the Statement of Comprehensive Income for 30 September 2018. These will be included in the financial statements for 30 September 2019. The A Income Unit Classes from the Global Equity Fund and Finisterre Emerging Market Debt Fund did not declare and pay any annual distributions for the year ended 30 September 2018 or 30 September 2017. The A Income Unit Class on the Asian Equity Fund did not declare and pay annual distributions for the year ended 30 September 2017.

Accumulation Classes
The Accumulation Unit Classes did not declare Distributions on 30 September 2018 or 30 September 2017.

\*\*\*These Funds offer monthly distributions to investors.

Global Income Fund launched on 29 March 2017.

This unit class offers monthly distributions and launched on 29 March 2017. It did not declare distributions until 30 April 2017.

### PRINCIPAL GLOBAL INVESTORS FUNDS NOTES TO THE ANNUAL REPORT AND FINANCIAL STATEMENTS

for the year ended 30 September 2018 (continued)

#### 7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES

#### **Management Fee**

Pursuant to the Trust Deed dated 13 October 1992, Principal Global Investors (Ireland) Limited ("the Manager") acts as Manager to the Trust and is responsible for its management and administration. For services rendered, the Trust will pay to the Manager an annual fee, accrued daily in the unit price and payable monthly in arrears. The Management Fee is currently calculated as a percentage of the NAV of each Fund and is accrued every Business Day. These related party transactions have been entered into in the ordinary course of business. The Management Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position. Management Fee rates for each unit class are listed in the supplement for each Fund. These are available from the <a href="https://www.principalglobal.com">www.principalglobal.com</a> website.

#### **Management Fee Rebate**

I Class Investors in certain Funds in agreement with the Investment Adviser/Sub-Investment Adviser(s), are entitled to a reduction in their effective annual Management Fee. This fee reduction is effected by way of a Management Fee Rebate, paid as cash and/or additional units purchased on the investors behalf by the Manager of the Fund. The effective Management Fees paid/accrued by these investors are disclosed in the Statement of Comprehensive Income and Statement of Financial Position. Those Funds to which the rebate applies, the ranges and the amount of the rebate applicable to those ranges are disclosed in the supplements for each Fund.

#### **Expense Cap**

The Manager, at its discretion, may absorb (directly by waiving a portion of its fees or by reimbursement to the account of each Fund), certain additional fees, costs or expenses for each Fund that may arise in respect of the management and operation of the Trust attributable to each Fund. This Expense Cap fee is shown as Rebate/Recharge to the Fund due to capping in the Statement of Comprehensive Income and the accrual/prepaid amount is shown as part of Other Assets or Other Payables in the Statement of Financial Position.

#### **Administration Fee**

In addition to the Management Fee, the Trust Deed permits the Manager to charge an Administration Fee of up to 0.15% per annum of the value of the units in the Funds for administering the Trust. Currently the Manager only charges this fee on the NAV of the Funds attributable to A, A2, D, D2, F, F2, N and P Class units. This fee is calculated as a percentage of the NAV of each Fund attributable to A, A2, D, D2, F, F2, N and P units and is accrued every Business Day. The total accrued amount is paid monthly in arrears. All fees and expenses payable to the Administrator in respect of the administration services it provides to the Manager will be met by the Manager. Administration Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

#### **Trustee and Depositary fee**

The Manager appointed BNY Mellon Trust Company (Ireland) Limited to act as the Trustee to the Trust. The principal activity of the Trustee is to act as the Depositary and Trustee of the assets of collective investment schemes ("CISs"). The Trustee may retain for its own use out of each Fund a fee of up to 0.022% per annum of the NAV of the units calculated on each Business Day during the month, accrued and deducted from the Fund the following month - subject to a minimum fee of US\$15,000 per annum which may be waived. The fee currently charged by the Trustee per Fund is disclosed in the relevant supplement for each Fund. The Trustee Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

#### **Directors' Remuneration**

Mr. David Shubotham, Mr. John O'Connell, Ms. Bronwyn Wright and Mr. Jim Firn are independent non-executive Directors of the Manager and have no executive function with the Investment Adviser or its related party companies. The Manager pays each independent non-executive Director an annual fee of €25,000 for their services rendered to the Trust. Mr. Christopher Henderson (resigned 17 May 2018), Mr. Mike Beer, Mr. Greg Thornton and Mr. Roberto Walker (appointed 23 May 2018) are related parties to the Investment Adviser and receive no compensation from the Trust.

#### **Sub-Custody Fee**

Sub-Custodians will be paid a fee at normal commercial rates and such fee shall be paid out of the Fund. The level of Sub-Custodian Fees and expenses will vary depending on the investment profile of the Fund including, in particular, the nature of the securities markets in which the Fund invests, the size of the Fund and the amount of trading in the assets of the Fund. Such fees will be charged at normal commercial rates and will only be reimbursed from a Fund where they are less than 0.50% per annum of the NAV of the Fund. The Manager will pay any fees that exceed this level. Sub-Custody Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

#### 7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES (continued)

#### **Performance Fees**

The Investment Adviser is entitled to receive out of the NAV of the Global Time Diversified Absolute Return Fund and the Finisterre Emerging Market Debt Fund a Performance Fee. The Performance Fee is accrued on each Business Day as an expense of the relevant Unit Class. It is calculated by the Administrator in respect of each period of one calendar year (a Performance Period) and paid by the Administrator annually in arrears. For each Performance Period, the Performance Fee in respect of each unit will be equal to 20% for the Global Time Diversified Absolute Return Fund and 15% on the Finisterre Emerging Market Debt Fund (20% for any A Class Units) of the appreciation in the NAV per Unit before the deduction of any accrued Performance Fee during the Performance Period above the Initial Issue Price of that Unit Class or, if higher, above the highest NAV per Unit Class achieved as of the end of any previous Performance Period where a Performance Fee was paid (the Peak NAV). The Peak NAV is recalculated at the end of each Performance Period. Both Funds terminated in the year ended 30 September 2018.

#### **Audit Fees**

The audit fee charged for the year ended 30 September 2018 was \$240,611 excluding VAT (2017: \$305,508 excluding VAT). Other than statutory audit fees disclosed in the Statement of Comprehensive Income the only other fees paid to PricewaterhouseCoopers in Dublin, Ireland as the Statutory Auditor of the Trust were in relation to tax services provided amounting to \$87,115 (2017: \$79,410).

#### 9. EFFICIENT PORTFOLIO MANAGEMENT

The Funds are denominated in USD but purchase assets denominated in a range of currencies. During the year, transactions were entered into which are economically appropriate to the reduction of relevant risks or costs to improve investment performance.

Subject to the conditions and within the limits from time to time laid down by the Central Bank, and except as otherwise stated in the investment objective and policies of a Fund, the Investment Adviser and/or Sub-Investment Adviser(s) may employ, for certain Funds, investment techniques and instruments such as futures, forward foreign currency exchange contracts, currency swaps, credit default swaps, total return swaps, options, equity options, warrants and other derivatives for Efficient Portfolio Management ("EPM") purposes if deemed advisable by the Investment Adviser/Sub-Investment Adviser. Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future, and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank.

For UCITS which have engaged in EPM techniques, certain disclosures are required under Chapter 4 of the Central Bank UCITS Regulations. The Investment Advisers of the Funds have identified all FDIs which are used for EPM. A UCITS is required to disclose the revenues arising from EPM techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

The Funds may also where indicated in the relevant supplement, enter into repurchase, reverse repurchase, sale and buyback agreements and stock lending agreements. The Investment Adviser/Sub-Investment Adviser(s) considers only repurchase agreements, reverse repurchase agreements and securities lending to be EPM techniques. None of the Funds held repurchase agreements, reverse repurchase agreements or took part in securities lending as at 30 September 2018 or at 30 September 2017.

Details of all open transactions at the year end are disclosed in the Portfolios of Investments.

<sup>11</sup> Global Income Fund launched on 29 March 2017.

<sup>&</sup>lt;sup>12</sup>Finisterre Unconstrained Emerging Markets Fixed Income Fund launched on 2 May 2017.

#### 10. DEALING COMMISSION ARRANGEMENTS

The Investment Adviser appointed in relation to each Fund is responsible for the selection of brokers with whom they deal. In relation to certain equity funds, the Investment Adviser/Sub-Investment Adviser(s) have entered into dealing commission arrangements with brokers whereby they obtain services or benefits from them, or from third parties – which are paid for out of commissions charged to the Funds. Such services or benefits relate primarily to research and portfolio management, and ensuring their purchase is compliant with relevant local regulation; including being a permitted service. The relevant Investment Adviser/Sub Investment Adviser(s) are satisfied that trades generating soft commissions comply with the relevant local regulations requiring best execution – which requires consideration of relevant factors, including price and execution quality.

#### 11. FINANCIAL RISK MANAGEMENT

#### **Strategy in Using Financial Instruments**

The activities of each Fund expose it to a variety of financial risks such as market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Funds' overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance. The Funds make use of FDIs to moderate certain risk exposures. The general risk factors set out in the "Special Investment Considerations and Risks" section of the prospectus apply to the Funds and risks specific to these Funds are set out below. These risk factors do not purport to be an exhaustive or complete explanation of all the risks associated with an investment in the Funds and persons considering purchasing units should inform themselves as to (i) the legal requirements within their own countries for the purchase of units, (ii) any foreign exchange restrictions which may be applicable and (iii) the income and other tax consequences of purchase and repurchase of units.

The risk management process operates at a number of levels. In addition to the Investment Adviser/Sub-Investment Adviser(s) monitoring investment activity and exposure at the point of execution ensuring a Fund is managed according to its guidelines and objectives, the Depositary and the Trustee of the Funds also provide an independent analysis of financial instrument exposure by monitoring investment limits in accordance with the UCITS Regulations and the Funds' prospectus.

The Funds' overall market positions are monitored on a daily basis by the Investment Adviser/Sub-Investment Adviser(s) and compliance with the Funds' investment guidelines are monitored on an ongoing basis by the Investment Adviser/Sub Investment Adviser(s) and Trustee. The Board of Directors of the Manager have oversight of the risk management process and receive monthly and quarterly reports from the Investment Adviser/Sub-Investment Adviser(s) and the Trustee. The Funds' investments in securities are subject to normal market fluctuations and other risks inherent in investing in securities. The value of investments and the income from them, and therefore the value of the units can go down as well as up and an investor may not get back the amount they invest.

The strategies as enumerated for the funds below and overleaf are summarised, please refer to the prospectus and supplements of the individual funds for greater detail. These are available on the <a href="https://www.principalglobal.com">www.principalglobal.com</a> website.

#### **Global Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing principally in equity securities selected from investment markets around the world. Investments can also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, and fixed interest and money market securities. The Fund may also invest in Real Estate Investment Trusts ("REITS") and in other Funds of the Trust. No more than 15% of the net assets will be invested in Russia.

#### **Asian Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in the Asian region (excluding Japan). Investments can also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, fixed interest and money market securities. The Fund may also invest in REITS and in other Funds of the Trust. No more than 30% of the net assets will be invested in Pakistan.

#### 11. FINANCIAL RISK MANAGEMENT (continued)

#### Strategy in Using Financial Instruments (continued)

#### **European Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in Europe (including Eastern Europe). Investments can also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, and fixed interest and money market securities. The Fund may also invest in REITS and in other Funds of the Trust. No more than 15% of the net assets will be invested in Russia.

#### **Emerging Markets Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in the world's emerging investment markets as identified by the International Finance Corporation (a division of the World Bank). Investments can also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, fixed interest, money market securities and other CISs. The Fund may also invest in REITS and in other Funds of the Trust. No more than 15% of the net assets will be invested in Russia.

#### **Japanese Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in Japan. Investments can also include unlisted securities (limited to 10% of the net assets), bank deposits, debt securities, fixed interest and money market securities. The Fund may also invest in REITS and in other Funds of the Trust.

#### **Preferred Securities Fund**

The Fund will seek to provide a return consisting of income consistent with capital preservation by investing primarily in a portfolio of USD denominated preferred securities and debt securities. Investments can also include ancillary liquid assets such as bank deposits.

#### **U.S. Equity Fund**

The Fund seeks to achieve capital growth over the medium to long term by investing principally in the equity securities of companies domiciled or with their core business in the United States, which the Investment Adviser believes are mispriced by the market and have the potential for significant growth. The Fund can invest in both listed and unlisted equity securities, with a level of 10% of the net assets of the Fund permitted in unlisted securities. The Fund may also invest in debt securities, as set out in the prospectus, as well as REITS and other Funds of the Trust.

#### **High Yield Fund**

The Fund will seek to provide a return consisting of income and, over the long term, capital growth by investing primarily in a portfolio of USD denominated public and private issued high-yield fixed income securities. The Fund may also hold ancillary liquid assets such as bank deposits as well as invest in REITS and in other Funds of the Trust.

#### **Global Property Securities Fund**

The Fund will seek to provide a total return primarily through investment in a global portfolio of publicly traded securities of companies engaged in the property industry or whose value is derived from property assets. The Fund's investments will include no less than 80% of the net assets in REITS or real estate operating companies ("REOCs"). The Fund may also invest in common and preferred equity securities, debt securities, options, warrants (up to 5% of the Fund), convertible securities, exchange traded funds ("ETFs") and depositary receipts.

#### Post Global Limited Term High Yield Fund

The Fund aims to provide a high rate of return with low volatility relative to typical high yield investments by investing primarily in a portfolio of global short-term, lower volatility high yield debt securities with an average duration of approximately 12-24 months. These securities will generally be rated below investment grade. The portfolio will be diversified, consisting from time to time of securities including fixed and floating rate global corporate bonds, debt issued in the leveraged loan market such as bank loan assignments and participations, convertible bonds, commercial paper, private placements, such as section 144A securities, preferred securities, hybrids and taxable municipal bonds. The Fund may also invest in other Funds of the Trust in order to obtain its objective.

#### 11. FINANCIAL RISK MANAGEMENT (continued)

Strategy in Using Financial Instruments (continued)

#### **Global Time Diversified Absolute Return Fund**

The Global Time Diversified Absolute Return Fund sought to provide a consistent stream of positive returns in excess of USD 3 month London Inter-Bank Offer Rate ("LIBOR") over a 3-5 year horizon by investing primarily in FDIs in order to gain exposure to a portfolio of cross currency positions on a leveraged basis. The FDIs gained exposure to an investible currency universe which primarily comprised 12 currencies which the Investment Adviser/Sub-Investment Adviser considered to be the most tradable currencies in the developed world at any given time. The Fund terminated on 14 September 2018.

#### **Global Small Cap Equity Fund**

The investment objective of the Fund was to provide medium to long-term capital growth. The Fund sought to achieve its objective by investing primarily in publicly listed equity securities of smaller capitalisation companies in markets globally. It was anticipated that the Fund would usually hold at least 70% in such securities. The Fund could also invest in REITS and equity securities of issuers that derive income or profits from products or services related to the global property industry. It could also invest in other Funds of the Trust in order to meet its objective. The Fund terminated on 14 September 2018.

#### **Origin Global Emerging Markets Fund**

The objective of the Fund is to seek to achieve capital growth through investment in global emerging market equities. The Fund will invest in transferable equity and equity-related securities of a diversified range of companies in what the Sub-Investment Adviser considers to be emerging economies of the world, normally with a minimum market capitalisation on purchase of USD1 billion. These securities will primarily be common stocks and other securities with equity characteristics, including but not limited to preferred stocks, warrants (only held where an existing holding is subject to an issuance of warrants and, in aggregate, normally not more than 5% of the Fund's NAV) and rights as well as depositary receipts for such securities, all of which are traded on securities exchanges or regulated markets.

#### **Origin Global Smaller Companies Fund**

The objective of the Fund is to seek to achieve capital growth through investment in global smaller companies. The Fund will invest in transferable equity and equity-related securities of a diversified range of companies throughout the globe, normally with a maximum market capitalisation on purchase of up to USD5 billion. These securities will primarily be common stocks and other securities with equity characteristics, including but not limited to preferred stocks, warrants (only held where an existing holding is subject to an issuance of warrants and, in aggregate, normally not more than 5% of the Fund's NAV) and rights as well as depositary receipts for such securities, all of which are traded on securities exchanges or regulated markets.

#### **Claritas Latin American Equity Fund**

The investment objective of the Fund was to provide capital growth over the medium to long term. The Fund invested primarily in equity securities of Latin American companies, which were, companies with their principal place of business or principal office in Latin American countries and/or companies for which their principal securities trading market was a Latin American country. "Latin American" is defined as all countries located in the American continent, except Canada and the United States of America. The Fund terminated on 28 February 2018.

#### **Finisterre Emerging Market Debt Fund**

The investment objective of the Fund was to generate medium to long term positive total returns from a combination of current income and capital appreciation by investing in global emerging market securities. The Fund sought to achieve its objective by investing primarily in fixed income instruments of sovereign and quasi-sovereign issuers and corporate debt obligations in emerging markets. The types of fixed income instruments and corporate debt obligations that the Fund invested in were bonds, asset-backed securities, convertible bonds, CoCos, credit and index linked securities, Rule 144A and/or Regulation S securities. The Fund could use FDIs for investment purposes as well as for hedging and/or EPM purposes. From time to time, the Fund could hold an unlimited amount of investments which were traded in Russia. The Fund terminated on 19 December 2017.

#### **Spectrum Global Capital Securities Fund**

The investment objective of the Fund sought to generate positive total return over the medium to long term including capital preservation. The Fund sought to achieve its objective by investing the majority of its assets in below investment grade CoCos from around the world, together with volatility mitigation strategies to mitigate the credit and interest rate volatility associated with CoCos. The Fund could also invest in UCITS eligible ETFs. The Fund terminated on 5 December 2017.

#### 11. FINANCIAL RISK MANAGEMENT (continued)

#### Strategy in Using Financial Instruments (continued)

#### **Global Capital Structure Opportunities Fund**

The Fund sought to provide high single digit returns over any given market cycle while minimising drawdown risk. The Fund sought to achieve its objective primarily by investing across the capital structure of companies around the world which, together with investment in FDI's, sought to minimise certain risks associated with such investments. In certain market conditions the Fund could also invest in government debt. The Fund could also invest in UCITS eligible CISs and ETFs. The Fund terminated on 14 September 2018.

#### **Real Estate Debt Fund**

The objective of the Fund is to provide attractive long term risk adjusted returns. The Fund seeks to achieve the investment objective by investing the majority of its assets in a diversified portfolio of U.S. commercial mortgage-backed securities ("CMBS"). CMBS are structured debt securities, typically secured by diversified pools of mortgages on commercial real estate properties located across the U.S. While the Fund will primarily invest in CMBS, it may also invest in unsecured bonds issued by companies primarily engaged in a real estate or real estate related business. The CMBS and unsecured bonds may include Rule 144A securities. The Fund may also use certain FDI's for investment purposes and the Fund may also hold ancillary liquid assets such as bank deposits and U.S. Treasury Securities.

#### **Global Income Fund**

The investment objective of the Fund is to provide high current income, with reasonable long-term capital appreciation. The Fund seeks to achieve the investment objective by investing the majority of its assets in income-producing equity, debt and hybrid securities. Hybrid securities are securities with features of both debt and equity securities. The Fund will consistently employ a global asset allocation investment process, which is based upon fundamental research driven, long-term focused security selection. The types of debt securities the Fund may invest in include, but are not limited to, corporate, sovereign and quasi-sovereign bonds, commercial and residential mortgage backed securities and other asset backed securities. Investment in commercial and residential mortgage backed securities and other asset backed securities will not exceed 15% of the Fund's NAV in aggregate. The types of hybrid securities the Fund may invest in are preferred stock and convertible securities, including CoCo securities. The Fund may also invest in UCITS or CISs, the constituents of which would typically include the instruments described above.

#### Finisterre Unconstrained Emerging Markets Fixed Income Fund

The investment objective of the Fund is to seek to generate total returns through income and capital appreciation, while limiting volatility and potential capital losses. The Fund seeks to achieve its objective by actively investing in a diversified range of fixed-income and FDI, a majority (not less than 51%) issued by or referencing emerging markets. These include corporate, sovereign and quasi-sovereign entities. The Fund seeks to extract value from investments in both investment grade and high yield fixed income instruments, and can include both stressed and distressed securities. A proportion of the net assets of the Fund may be invested in UCITS eligible CISs, including exchange traded funds and the Fund may hold equities as a result of the conversion of a convertible bond or as the result of a debt restructuring.

#### **Market Price Risk**

All securities and investments present a risk of loss of capital. The Investment Adviser/Sub-Investment Adviser(s) moderates this risk through diversification and careful selection of securities and other financial instruments within the limits defined in the prospectus.

Except for derivatives, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from written options can be unlimited and losses on forwards and futures can result from the movement in currency exchange rates in the time between the forward trade date and the settlement date depending on the volatility of the currencies.

The maximum risk of the Interest Rate Swaps, Credit Default Swaps, Cross Currency Swaps and Total Return Swaps is determined by the fair value of the swaps. The Funds' overall market positions are monitored on a daily basis by the Funds' Investment Adviser/Sub-Investment Adviser(s).

The Investment Adviser/Sub-Investment Adviser(s) reviews the portfolio characteristics of each Fund in its entirety. This review may include as appropriate a review of country allocations, country weights, capitalization, distribution, industry sector weights, price/book levels, currency exposure, portfolio maturity, portfolio duration, sector exposure, quality exposure and other key risk measures.

#### 11. FINANCIAL RISK MANAGEMENT (continued)

#### Market Price Risk (continued)

The Funds may employ investment techniques and FDIs for EPM and/or investment purposes within the limits set out in the prospectus as described in the sections 'General Information' and 'Special Investment Considerations and Risks'. The Funds may hold a combination of FDIs such as options, futures, options on futures, forward foreign currency exchange contracts, repurchase contracts, reverse repurchase agreements, sale and buyback agreements, stock lending agreements, credit default swaps, interest rate swaps and other over the counter derivative instruments which may be used subject to the conditions and limits laid down by the Central Bank and the Trust Deed and subject to any other restrictions or regulations which may affect the portfolio management of the Funds.

#### **Sensitivity Analysis**

Sensitivity analysis is an indication based on historical data showing the impact of a 5% movement in the Benchmark on the NAV of the Funds at the Statement of Financial Position date.

#### **Limitations of Sensitivity Analysis:**

Some limitations of sensitivity analysis are;

- the models are based on historical data and cannot take account of the fact that future market price movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns;
- the market price risk information is a relative estimate of risk rather than a precise and accurate number;
- the market price information represents a hypothetical outcome and is not intended to be predictive; and future market conditions could vary significantly from those experienced in the past.

#### 11. FINANCIAL RISK MANAGEMENT (continued)

#### **Market Price Risk (continued)**

The Funds' market price risk is managed through investment selection and diversification in accordance with The UCITS Regulations and the limits set out in the prospectus. The Investment Adviser uses their portfolio management selection tool and makes use of tracking errors to monitor deviation with the benchmark. Monthly performance reports are reviewed by the Investment Adviser/Sub-Investment Adviser(s) and quarterly by the Board of Directors of the Manager. Each Fund's overall market exposures and notional exposures for derivatives are disclosed in the Portfolio of Investments.

Global Time Diversified Absolute Return Fund, Finisterre Emerging Market Debt Fund, Global Capital Structure Opportunities Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund use an Absolute Value at Risk ("VaR") model to assess the Fund's market risk. The Global Time Diversified Absolute Return Fund's (terminated 14 September 2018) proprietary model uses a non-parametric approach based on a one-tailed confidence level of 99% for a daily horizon and considering no less than three years of historical data. The Finisterre Emerging Market Debt Fund (Terminated 19 December 2017) used a third-party independent VaR provider. From September 2016 to March 2017, a parametric approach with two year historical data based on a confidence level of 99% with a daily horizon was used. After March 2017 a non-parametric approach based on a confidence level of 99% for a daily horizon and considering no less than two years of historical data was used. The Global Capital Structure Opportunities Fund (Terminated 14 September 2018) and Global Credit Alpha Fund (Terminated 30 June 2017) calculated VaR using an historical parametric approach with a one-tailed 99% confidence level for a daily holding period and with an effective observation period considering at least one year of historical data. The Finisterre Unconstrained Emerging Markets Fixed Income Fund's proprietary model uses a non-parametric approach based on a one-tailed confidence level of 99% for a daily horizon and considering no less than two years of historical data.

It is noted that the use of VaR models to assess risk has limitations; these models use historical market data as a basis for their estimates, and assume that future conditions will be like those in the past. The estimates may be unreliable, especially under new or extreme market conditions. As there are frequent changes in a Fund's holdings, the sensitivity analysis should not be relied upon as a measure of future performance.

The VaR as of 30 September 2018 and 30 September 2017 based on a confidence level of 99% is included in the table below:

	30 September 2018	30 September 2017
	%	%
Global Time Diversified Absolute Return Fund <sup>1</sup>	N/A	2.0
Finisterre Emerging Market Debt Fund <sup>2</sup>	N/A	0.1
Global Capital Structure Opportunities Fund <sup>3</sup>	N/A	0.7
Finisterre Unconstrained Emerging Markets Fixed Income Fund <sup>4</sup>	0.6	0.7

Global Time Diversified Absolute Return Fund terminated on 14 September 2018.

The lowest, highest and average utilisation of the VaR limit, using an Absolute VaR approach based on the above inputs are included in the tables below:

#### During the year ended 30 September 2018

	Lowest	Highest	Average
Fund	%	%	%
Global Time Diversified Absolute Return Fund <sup>1</sup>	1.2	3.0	2.0

#### Financial Assets at Fair Value through Profit or Loss

Under FRS 102, the Trust is required to classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The FRC issued "Amendments to FRS 102 - Fair value hierarchy disclosures", effective for accounting periods beginning on or after 1 January 2017, with early adoption permitted. FRED 62 amended paragraphs 34.22 and 34.42 of FRS 102 to require disclosure of financial instruments held at fair value on the basis of a fair value hierarchy consistent with EU-adopted IFRS based on Level 1, 2 and 3 classifications. The financial statements and comparatives have been prepared in accordance with these amendments and fair value measurement is categorised based on Levels 1, 2 and 3.

The only securities held in Level 3 for the year ended 30 September 2018 or 30 September 2017 were nil valued securities which have been indicated by a footnote on any relevant funds in the following tables.

<sup>&</sup>lt;sup>2</sup>Finisterre Unconstrained Emerging Markets Fixed Income Fund launched on 2 May 2017.

Global Income Fund launched on 29 March 2017.

#### **Interest Rate Risk**

Funds which hold interest bearing financial assets and liabilities are exposed to interest rate risk, where the value of the securities may fluctuate as a result of a change in interest rate.

This risk is managed by the setting of limits on the level of cash holdings in the Funds. Such limits are set out in the Funds' prospectus. With the fixed income Funds, the Investment Adviser/Sub-Investment Adviser(s) have set limits of exposure and use an internal process to monitor macroeconomic factors affecting interest rate risk.

The Global Equity Fund, Asian Equity Fund, European Equity Fund, Emerging Markets Equity Fund, Japanese Equity Fund, U.S. Equity Fund, Global Property Securities Fund, Global Small Cap Equity Fund (Terminated 14 September 2018), Origin Global Emerging Markets Fund, Origin Global Smaller Companies Fund and Claritas Latin American Equity Fund (Terminated 28 February 2018) are not included in the below table as the majority of the financial assets and liabilities of those Funds are non-interest bearing or have a very short time to maturity. As a result, those Funds are not subject to significant amounts of risk due to fluctuations in the market interest rates.

<sup>&</sup>lt;sup>2</sup>Finisterre Unconstrained Emerging Markets Fixed Income Fund launched on 2 May 2017.

### 11. FINANCIAL RISK MANAGEMENT (continued)

### **Interest Rate Risk (continued)**

The following tables summarise the exposure to interest rate risk for the Preferred Securities Fund, High Yield Fund, Post Global Limited Term High Yield Fund, Real Estate Debt Fund, Global Income Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund. They include each Fund's assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates. Global Time Diversified Absolute Return Fund terminated on 14 September 2018, Finisterre Emerging Market Debt Fund terminated on 19 December 2017, Spectrum Global Capital Securities Fund terminated on 5 December 2017 and Global Capital Structure Opportunities Fund terminated on 14 September 2018. These Funds did not have exposure to interest rate risk at 30 September 2018.

The Investment Adviser considers a 1% movement to be reasonable.

<sup>&</sup>lt;sup>1</sup>The Global Time Diversified Absolute Return Fund, Finisterre Emerging Market Debt Fund, Global Capital Structure Opportunities Fund, Global Credit Alpha Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund use an Absolute VaR model for sensitivity risk, and as a result there is no sensitivity analysis prepared for these funds.

Global Time Diversified Absolute Return Fund and Global Capital Structure Opportunities Fund terminated on 14 September 2018.

<sup>&</sup>lt;sup>3</sup>Finisterre Emerging Market Debt Fund terminated on 19 December 2017.

<sup>&</sup>lt;sup>4</sup>Spectrum Global Capital Securities Fund terminated on 5 December 2017.

<sup>&</sup>lt;sup>5</sup>Global Credit Alpha Fund terminated on 30 June 2017.

<sup>&</sup>lt;sup>6</sup>Global Income Fund launched on 29 March 2017.

<sup>&</sup>lt;sup>7</sup>Finisterre Unconstrained Emerging Markets Fixed Income Fund launched on 2 May 2017.

## 11. FINANCIAL RISK MANAGEMENT (continued)

### **Currency Risk**

The Funds may hold assets denominated in currencies other than the functional currency of a Fund. They are therefore exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. A Fund may utilise financial instruments to hedge against fluctuations in the relative values of their portfolio positions.

The Investment Adviser/Sub-Investment Adviser(s) monitors the currency positions on a daily basis utilising quantitative and fundamental models.

The following tables detail the material monetary currency exposures.

#### As at 30 September 2018

The Origin Global Equity Fund, Long/Short Global Opportunities Equity Fund and Global Credit Alpha Fund terminated during the year and had no material monetary currency exposures at the year ended 30 September 2017.

### 11. FINANCIAL RISK MANAGEMENT (continued)

#### **Currency Sensitivity Analysis**

The table below details the approximate increase or decrease in Net Assets Attributable to Redeemable Participating Unitholders had the exchange rate between the base currency of the relevant Fund and the relevant foreign currency increased by 5% (or 10% for emerging market currencies) for the monetary assets and non-monetary assets. For forward foreign currency exchange contracts the 5% (or 10% for emerging market currencies) has been applied to the contract price. The Investment Adviser/Sub-Investment Adviser(s) considers this movement to be reasonable.

Emerging market countries are those that have low or middle per capita income as determined by the World Bank for at least two consecutive years based on data lagging one year, or those countries that either had restructured external/local debt during the past 10 years or currently have restructured external/local debt outstanding. Investments denominated in emerging market currencies may experience more volatility, can be subject to significant depreciation and may not be freely convertible. In accordance with the prospectus the universe of emerging markets includes any country excluding the G10, Australia, Denmark, Finland, New Zealand, Norway, Portugal and Spain.

### 11. FINANCIAL RISK MANAGEMENT (continued)

### **Depositary Risk**

The Trust's Depositary is the Bank of New York Mellon Trust Company (Ireland) Limited ('the Depositary''). Substantially all of the Cash at Bank and investments in debt securities of the Trust are held by the Depositary. The Trust is exposed to credit risk through the use of the Depositary for their cash and investments. Bankruptcy or insolvency of the Depositary may cause the Trust's rights with respect to its cash and investments in debt securities held by the Depositary to be delayed or limited. The maximum exposure to this risk at 30 September 2018 and 30 September 2017 is the amount of Cash at Bank disclosed in Note 4 and the investments in securities, liquidity instruments and forward foreign currency exchange contracts disclosed in the relevant Funds' Portfolio of Investments.

To mitigate the risks the Trust is exposed to from the use of the Depositary, the Manager employs appropriate procedures to ensure that the counterparties are reputable institutions and that the credit risk is acceptable to the Trust. The Trust only transacts with Depositary's that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. In addition, the Trust's non-cash assets are maintained by the Depositary in segregated accounts. Thus in the event of insolvency or bankruptcy of the Depositary the Trust's non-cash assets are segregated and protected and this further reduces counterparty risk. The Trust will, however, be exposed to the credit risk of the Depositary or counterparty/Sub-Custodian used by the Depositary, in relation to the Trust's Cash at Bank held by the Depositary. In the event of the insolvency or bankruptcy of the Depositary, the Trust will be treated as a general creditor of the Depositary in relation to cash holdings of the Trust. To mitigate these risks the Investment Adviser ensures that the Trust transacts only with Depositary's that are regulated entities subject to prudential supervision or with high credit-ratings assigned by international credit-rating agencies.

#### **Credit Risk**

The Funds will be exposed to credit risk, which is the risk that a counterparty or issuer will be unable to pay amounts in full when due. Impairment provisions are provided for losses that have been incurred by the Statement of Financial Position date, if any. The carrying amount of financial assets best represents its maximum exposure to credit risk at the reporting date.

The Funds' main credit risk concentrations arise from trading equity and debt securities and FDIs in addition to the Cash at Bank balances held at the Depositary, Trustee and other counterparties. The Funds' prospectus lists various investment restrictions with regard to issuer and counterparty concentration limits.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet their obligation.

Interest Rate Swaps may be traded bilaterally between a Fund and a counterparty or centrally cleared through a central counterparty clearing house ("CCP"). The Funds that engage in swaps trading bilaterally restrict their exposure to credit losses on the trading of derivative instruments held by entering into master netting arrangements with counterparties. Netting arrangements do not result in an offset of Statement of Financial Position assets and liabilities, as transactions are usually disclosed on a gross basis and settled on a net basis. However, the credit risk associated with favourable contracts is reduced by a netting arrangement to the extent that if an event of default occurs, all amounts with the counterparty are terminated and settled on a net basis. The Funds that engage in swaps trading through a CCP restrict their exposure to credit losses on the trading of derivative instruments held by entering into master netting arrangements with the CCP. The were no CCPs at 30 September 2018.

The Investment Adviser/Sub-Investment Adviser(s) may utilise over-the-counter and exchange traded derivatives. Derivatives traded on exchanges will usually be supported by daily margin calls and therefore not carry the same degree of counterparty risk.

The Investment Adviser/Sub-Investment Adviser(s) may also use Futures and Options as part of its investment strategy. The Funds' ability to use these strategies may be limited by market conditions, regulatory requirements and tax considerations.

As part of its investing in derivatives the Funds may pledge or receive collateral. This collateral can be pledged or received either in the form of cash and cash equivalents or securities. There is a risk that the value of such collateral may fall below the value of the underlying derivatives. In addition, as the Funds may invest in Cash Collateral received, subject to conditions, the Funds may be exposed to the risk associated with such investments, such as failure or default of the issuer of the relevant security.

### 11. FINANCIAL RISK MANAGEMENT (continued)

#### Credit Risk (continued)

The prices of all derivative instruments, including Forward Foreign Currency Exchange Contracts, Spot Currency Contracts, Futures, Options, Interest Rate Swaps, Credit Default Swaps and Total Return Swaps are highly volatile. The Fund is also subject to the risk of the failure of any of the exchanges on which the open exchange traded Futures Contracts are traded and backed by the exchange. Margin Cash Receivable/Payable consists primarily of cash receivable/payable from the Trust's clearing broker. Derivative instruments held with counterparties are held on an unsecured basis.

The counterparties for the various investments held by the Funds are listed below along with their credit rating at 30 September 2018:

Financial Instrument Type	Counterparty	Credit Rating at 30 September 2018
Forward Foreign Currency	HSBC	А
Exchange Contracts	JP Morgan Chase & Co	A-
	State Street Global Markets	Α
	The Bank of New York Mellon	Α
Spot Currency Contracts	State Street Global Markets	А
	The Bank of New York Mellon	Α
Swap Contracts	Barclays	А
	Citigroup	BBB+
	HSBC	Α

There were no assets held by the Funds with counterparties that were past due or impaired at 30 September 2018 or 30 September 2017.

The Funds reduce issuer risk by having investment restrictions in place and subjecting issuers to a selection process that includes a review of their rating.

The Funds' exposure and the credit quality of financial assets invested in are continuously monitored by the Investment Adviser/Sub-Investment Adviser(s).

### 11. FINANCIAL RISK MANAGEMENT (continued)

#### **Credit Risk (continued)**

The Preferred Securities Fund, High Yield Fund, Post Global Limited Term High Yield Fund, Real Estate Debt Fund, Global Income Fund and Finisterre Unconstrained Emerging Markets Fixed Income Fund had the following exposure to counterparty and issuer credit risk at 30 September 2018. The Global Time Diversified Absolute Return Fund terminated on 14 September 2018, Finisterre Emerging Market Debt Fund terminated on 19 December 2017, Spectrum Global Capital Securities Fund terminated on 5 December 2017 and Global Capital Structure Opportunities Fund terminated on 14 September 2018 and therefore had no exposure to credit risk at year end.

### 11. FINANCIAL RISK MANAGEMENT (continued)

### **Liquidity Risk**

Liquidity risk is the risk that the Funds will experience difficulty in either realising assets or otherwise raising sufficient funds to satisfy commitments associated with financial instruments. This arises when trading volume, lack of a market maker or legal restrictions impair the Funds' ability to sell particular securities at an advantageous time or price.

The Funds, with the exception of the Post Global Limited Term High Yield Fund which is exposed to bi-monthly cash redemptions and the Finisterre Emerging Market Debt Fund (terminated 5 December 2017) and the Global Time Diversified Absolute Return Fund (terminated 14 September 2018) which are exposed to weekly redemptions, are exposed to daily cash redemptions by Unitholders. Therefore, the Funds invest the majority of their assets in investments that are traded in an active market and can be readily disposed of; only a limited proportion of the assets are invested in assets not actively traded on a stock exchange. In addition, the Funds may restrict redemptions and have the ability to borrow in the short term to ensure settlement.

The Investment Adviser/Sub-Investment Adviser(s) monitors the Funds' liquidity positions on a daily basis.

As at 30 September 2018 and 30 September 2017, all of the Funds' financial liabilities and all of the Funds' FDIs were due or settled within 1 month of the Statement of Financial Position date with the exception of the following;

- Audit Fees Payable which will be due or settled within 3 months to 1 year of the Statement of Financial Position date. These fees payable are detailed on each individual Fund's Statement of Financial Position as at 30 September 2018 and as at 30 September 2017.
- Derivatives contracts held by some of the Funds where the maturity dates are detailed in the Portfolios of Investments.

<sup>&</sup>lt;sup>1</sup>Unitholder is a related party fund.

#### Cybersecurity Risk

Cybersecurity breaches may occur allowing an unauthorised party to gain access to assets of the Funds, Unitholder data, or proprietary information, or may cause the Trust, the Investment Adviser, the Sub-Investment Adviser(s), the Distributor, the Administrator or the Depositary to suffer data corruption or lose operational functionality.

The Funds may be affected by intentional cybersecurity breaches which include unauthorised access to systems, networks, or devices (such as through "hacking" activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow or otherwise disrupt operations, business processes or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws). A cybersecurity breach could result in the loss or theft of Unitholder data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs. Such incidents could cause the Trust, the Investment Adviser, the Sub-Investment Adviser(s), the Distributor, the Administrator, the Depositary or other service providers to incur regulatory penalties, reputational damage, additional compliance costs or financial loss. Consequently, Unitholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which a Fund invests and thereby cause a Fund's investments to lose value, as a result of which investors, including the relevant Fund and its Unitholders, could potentially lose all or a portion of their investment with that issuer.

<sup>&</sup>lt;sup>2</sup>Global Time Diversified Absolute Return Fund terminated on 14 September 2018.

<sup>&</sup>lt;sup>1</sup>The transaction costs for these Funds are embedded within the purchase and sale prices and have not been separately identified.

#### 13. **GLOBAL EXPOSURE**

The Investment Adviser/Sub-Investment Adviser(s) employs a documented Risk Management Process in relation to the use of FDIs, which ensures the risk associated with the positions is measured, monitored and managed. In respect of the Global Time Diversified Absolute Return Fund (Terminated 14 September 2018), Finisterre Emerging Market Debt Fund (Terminated 19 December 2017), Global Capital Structure Opportunities Fund (Terminated 14 September 2018) and Finisterre Unconstrained Emerging Markets Fixed Income Fund; an Absolute VaR Approach, based on a confidence level of 99% for a daily horizon and considering no less than one years of historical data is used to manage risk (Refer to Note 11 for more details on VaR). In relation to the remaining Funds, the Commitment approach is used; which entails monitoring global exposure and counterparty exposure associated with the positions.

<sup>&</sup>lt;sup>2</sup>Global Equity (ex-Japan) Fund terminated on 15 September 2017.

<sup>&</sup>lt;sup>3</sup>Global Time Diversified Absolute Return Fund terminated on 14 September 2018.

<sup>&</sup>lt;sup>4</sup>Global Small Cap Equity Fund terminated on 14 September 2018.

<sup>&</sup>lt;sup>5</sup>Origin Global Equity Fund terminated on 24 February 2017.

<sup>&</sup>lt;sup>6</sup>Long/Short Global Opportunities Equity Fund terminated on 1 March 2017.

<sup>&</sup>lt;sup>7</sup>Claritas Latin America Fund terminated on 28 February 2018.

<sup>&</sup>lt;sup>8</sup>Finisterre Emerging Markets Debt Fund terminated on 19 December 2017.

<sup>&</sup>lt;sup>9</sup>Spectrum Global Capital Securities Fund terminated on 5 December 2017.

<sup>&</sup>lt;sup>10</sup>Global Capital Structure Opportunities Fund terminated on 14 September 2018.

<sup>&</sup>lt;sup>11</sup>Global Credit Alpha Fund terminated on 30 June 2017.

<sup>&</sup>lt;sup>12</sup>Real Estate Debt Fund launched on 21 March 2016.

<sup>&</sup>lt;sup>13</sup>Global Income Fund launched on 29 March 2017.

<sup>&</sup>lt;sup>14</sup>Finisterre Unconstrained Emerging Markets Fixed Income Fund launched on 2 May 2017.

for the year ended 30 September 2018 (continued)

# PRINCIPAL GLOBAL INVESTORS FUNDS UCITS V Remuneration Policy (UNAUDITED)

#### for the year ended 30 September 2018

#### **UCITS V Remuneration Policy (Unaudited)**

#### Regulation 89(3A) of the UCITS Regulations: UCITS V Remuneration Requirements;

Regulation 89(3A) of the UCITS Regulations (as introduced pursuant to the UCITS V Regulations on 21 March 2016) requires that the annual report of Principal Global Investors Funds (the "**Trust**") contains certain disclosures on remuneration paid by the Manager to its staff during the year and details of any material changes to the Manager's remuneration policy made during the year. In this regard, the following points are to be noted:

- The Manager has prepared a remuneration policy outlining how it adheres to the remuneration requirements set out in the UCITS Regulations. This policy was adopted with effect from 18 March 2016.
- An annual review was undertaken of the remuneration policy during the financial year and no material changes were made to the remuneration policy.
- The Manager has no employees or staff that it employs and pays directly. The Manager has a Board of Directors, three of whom are employees of the Principal Group and receive no remuneration from the Manager. The remaining four directors, each of whom is independent, receive a fixed fee only (for the year ended 30 September 2018; €100,000 in aggregate) and do not receive variable remuneration. These fees are set at a level that reflects the qualifications and contribution required taking into account the Manager's size, internal organisation and the nature, scope and complexity of its activities.

The Manager delegates certain portfolio management activities for the Trust to Principal Global Investors LLC, (the "Delegate") and to Principal Global Investors (Europe) Limited, Principal Global Investors (Australia) Limited, Spectrum Asset Management, Principal Real Estate Investors LLC, Principal Global Investors (Japan) Limited, Principal Global Investors (Singapore) Limited, Post Advisory Group LLC, Origin Asset Management LLP, Claritas Administraceo De Recursos Ltda, Finisterre Malta Limited and Finisterre Capital LLP, (the "sub-Delegates")

The Delegate has calculated that, in aggregate, it pays its relevant staff\*\* the following in relation to the functions it performs in respect of the Trust:

An aggregate amount of \$4,571,045, including an amount of \$8,282 corresponding with received performance fees. This amount is applied across 73 members of staff at the Delegate and is apportioned as approximately \$658,662 in aggregate fixed remuneration and \$3,912,384 in aggregate variable remuneration.

In accordance with applicable European regulation and guidance, these figures are calculated on the basis of fee income received by the Delegate in relation to the Trust and how this correlates with the relevant staff's remuneration. Further, these figures relate only to the proportion of the relevant staff's remuneration that is estimated to be attributed, on a pro rata basis, to the functions such staff perform for the Delegate in relation to the Trust.
