CS (Lux) Eurozone Equity Theme Fund

a subfund of CS Investment Funds 2 - Class IB EUR

Investment policy

The fund's investment objective is to outperform its benchmark by investing in a portfolio of Eurozone equities. The active weights and selection of the securities depends on their relation to the current Credit Suisse's top theme for the Eurozone. This theme can rotate, hence the securities as well. The fund is well diversified and the tracking error is managed in the portfolio construction process. However, depending on the themes favored by Credit Suisse's the portfolio may be highly concentrated towards certain sectors, styles or small market capitalizations.

Theme Table

European Equities: Defensive Brands

With the UK deciding to leave the EU, economic growth and consumption growth is likely going to slow down. In this environment, more defensive companies with an established brand are likely to excel in these challenging times.

⁴⁾ Look through view

¹⁾ The calculation of the risk indicator is based on the CESR/10-673 Directive. The risk indicator is based on historic and partly simulated data; it cannot be used to predict future developments. The classification of the Fund may change in future and does not represent a guarantee. A classification into category 1 is not a risk-free investment either.

²⁾ Historical performance indications and financial market scenarios are not reliable indicators of future performance. The performance data do not take into account the commissions and costs incurred on the issue and redemption of fund units.
