## Benefits

The fund offers efficient access to professional asset management in a single product. Investors benefit from global diversification across several asset classes and markets. The fund aims for excess returns compared with the average of the funds in the relevant Morningstar EUR peer group. The strategy is implemented in a cost-effective manner, primarily through ETFs and index funds.

## Risks

The fund may invest in bonds of differing credit quality, money market instruments, equities and alternative investments and may therefore be subject to major fluctuations in value. This presupposes a corresponding risk appetite and risk tolerance. The value of a unit may fall below the purchase price. The value of a unit may be influenced by currency fluctuations. The fund may invest in less liquid assets that may be more difficult to sell in distressed markets. Bonds are generally deemed to carry credit risk (i.e. potential loss in the event of issuer bankruptcy). The fund may use derivatives, which can reduce investment risks or give rise to additional risks (including the risk of counterparty bankruptcy).

Please note that additional fees (e.g. entry or exit fees) may be charged. Please refer to your financial adviser for more details. Investors should read the Key Investor Information Document (KIID), Prospectus and any applicable local offering document prior to investing. For a definition of financial terms refer to the glossary available at [www.ubs.com/glossary](http://www.ubs.com/glossary).
