# AXA IM Maturity 2023 Fund

A Sub-Fund of AXA IM WORLD ACCESS VEHICLE ICAV (the ICAV)

Share class: A Accumulation EUR (ISIN: IE00BYMV5585)

This Fund is managed by AXA Investment Managers Paris, part of the AXA IM Group

Share Class A Accumulation EUR (IE00BYMV5585) is representative for Share Class A Distribution EUR (IE00BYMV5692).

## Objective and Investment Policy

### Investment Objective

The objective of the Fund is to aim to generate income by investing primarily in corporate high yield debt securities based on the assumption of a holding period up to the Maturity Date (September 29th, 2023). The objective is not guaranteed and the potential return may be negatively impacted by the potential default risk and recovery rate of one or several issuers within the portfolio.

### Investment Policy

To achieve that objective, the Fund invests in a broadly diversified portfolio of fixed income transferable debt securities denominated in EUR, GBP, CHF and USD, taking into consideration the Maturity Date of the Fund which are (i) primarily rated below investment grade (i.e. rated lower than BBB- by Standard & Poor's or lower than Baa3 by Moody's or, if unrated, then deemed to be so by the Manager) (ii) listed or traded on Regulated Markets and (iii) whose maturity is not exceeding the Maturity Date of the Fund by 12 months. The Manager invests on a discretionary basis and is not restricted from investing in any particular sector or industry.

The Fund may invest primarily in debt securities issued by European domiciled companies, it may also invest up to maximum 30% of the net assets in those issued by non-European companies and, possibly, in bonds of European governments or governmental agencies or instrumentalities. Such investments will be denominated in EUR, GBP, CHF and/or USD.

The Fund will invest in convertible bonds up to 10% of the net assets. Non-OECD debt exposure will not exceed a maximum of 10% of the net assets.

The Fund may invest up to 10% in Eligible CIS consistent with the Fund's investment objective and policy.

The Fund may hold substantial amounts in cash, money market instruments (such as certificates of deposit and commercial paper) during the Subscription Period (period from the launch of the fund up to September 29, 2017), after the Maturity Date and over a period of approximately 6 months approaching the Maturity Date. The Subscription Period may be shortened or extended.

Once the Maturity Date is reached, the Fund will be in liquid Financial instruments issued by Governments or by corporate issuers such as commercial paper, bonds, notes, bills, deposits, certificates of deposits

and cash in accordance with the investment restrictions applicable to the Fund, and/or in Eligible CIS which invest primarily in these instruments.

For investment purposes, the Fund may engage in the credit derivatives market by entering into single name credit default swaps ("CDS") in order to sell protection.

The maximum exposure of the Fund in terms of inherent commitment to CDS will not exceed 20% of its net assets.

The Manager intends to hedge foreign exchange risk of all assets denominated in a currency other than the Base Currency of the Fund at the portfolio level and to hedge foreign exchange risk of some Classes that are denominated in a currency other than the Base Currency at the class level, by using derivative instruments, which may generate additional costs for the Fund and/or the relevant Share Class. The successful execution of a hedging strategy which mitigates exactly this risk cannot be assured.

### Income

For Accumulation share classes (Acc), the dividend is reinvested. For Distribution share classes (Dis), the dividend is distributed.

### Fund Currency

The reference currency of the Fund is EUR.

### Investment Horizon

The Manager recommends that Shares are held until at least the Maturity Date. Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 6 years.

### Processing of subscription and redemption orders

You may buy shares during the Subscription Period or sell your shares on any Business Day on which banks are generally open for business in Ireland and the United Kingdom. If banks are not generally open for business in Ireland and United Kingdom on a particular Business Day, or on the preceding day, you may buy or sell your shares on the immediately following Business Day. Please refer to the Prospectus for further information, available at [www.axa-im.com](http://www.axa-im.com).

The Net Asset Value of this Fund is calculated on a daily basis.

No subscriptions will be accepted after the end of the Subscription Period.

There is no minimum required initial subscription in the Fund.

The fund is closed to subscriptions since September 29, 2017

## Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

### Why is this Fund in this category?

The capital of the Fund is not guaranteed. The Fund is invested in financial markets and uses techniques and instruments which are subject to some level of variation which may result in gains or losses.

### Additional Risks

Counterparty Risk: Risk of bankruptcy, insolvency, or payment or delivery failure of any of the Fund's counterparties, leading to a payment or delivery default.

Credit Risk: Risk that issuers of debt securities held in the Fund may default on their obligations or have their credit rating downgraded, resulting in a decrease in the Net Asset Value.

Liquidity Risk: Risk of low liquidity level in certain market conditions that might lead the Fund to face difficulties valuing, purchasing or selling all/part of its assets and resulting in potential impact on its Net Asset Value.

Impact of any techniques such as derivatives: Certain management strategies involve specific risks, such as liquidity risk, credit risk, counterparty risk, legal risk, valuation risk, operational risk and risks related to the underlying assets.

The use of such strategies may also involve leverage, which may increase the effect of market movements on the Fund and may result in significant risk of losses.

Please refer to the Risk Factors section in the ICAV Prospectus and Fund Supplement for more detailed information on the risks involved.
