AXA World Funds - Global Income Generation

A Sub-Fund of AXA World Funds SICAV
Share class: AXA World Funds - Global Income Generation I (partially hedged) Distribution Monthly USD (ISIN: LU0960402963)
This Sub-Fund is managed by AXA Funds Management S.A., part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The Sub-Fund is a multi asset class portfolio, seeking to provide regular income and to achieve medium term capital growth through dynamic and flexible allocation across a wide array of asset classes globally.

Investment Policy

The Sub-Fund is actively and discretionarily managed in order to capture opportunities across a wide array of asset classes, with an investment strategy that uses:
- strategic asset allocation (based on long term macroeconomic views)
- tactical asset allocation (based on the identification of short term market oportunities)
- extensive diversification, with no formal restriction on the proportion of assets that can be allocated to any one particular market. This diversification exposes the Sub-Fund to a moderate level of volatility

The Sub-Fund is invested in a broad set of world market bonds (including high-income generating bonds, either unrated, rated below or above investment grade), equities (including high dividend equities through fundamental approach and/or the use of a proprietary quantitative process) issued by companies which are domiciled or listed in the OECD or non-OECD countries. The Sub-Fund may also get exposure to other asset classes including without limitation real estate, volatility of equity markets, commodities (notably through commodity indices, exchange traded funds, equities). Over the long term a high proportion of the Sub-Fund's assets will be invested in fixed income and Money Market Instruments. There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any particular market. The proportion of the Sub-Fund's assets that can be invested in equities and/or in commodities is very flexible and may vary from 0% to 50%.

Fixed income exposure of the Sub-Fund denominated in non-EUR currency will be partially hedged against EUR.
The Sub-Fund may invest up to 5% of net assets in contingent convertible bonds (CoCos).
The Sub-Fund applies AXA IM ESG Standards available on www.axa-im.com/en/responsible-investing.
The Sub-Fund may invest up to 10% of net assets in UCITS and/or UCIs.
Within 200% of the Sub-Fund's assets, the investment strategy may be achieved by direct investments and/or through derivatives. Derivatives may also be used for hedging purposes.
Dividend Policy: The Fund will be managed with the objective to deliver an annual dividend comprised between 2% and 6% which will be capitalized (for Capitalisation Shares) or distributed (for Distribution Shares), subject to market conditions. Payment of distributions (including those paid out of the Sub-Fund's capital) may reduce the value of your holding and impact the potential for long term capital growth.

The Share Class is partially hedged against the currency exchange risk related to the Reference Currency of the Sub-Fund for the fixed income exposure of the Sub-Fund.

Income

For Distribution share classes (Dis), the dividend is distributed.

Sub-Fund Currency

The reference currency of the Sub-Fund is EUR.

Investment Horizon

This Sub-Fund may not be suitable for investors who plan to withdraw their contribution within 5 years.

Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to the following Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.
The Net Asset Value of this Sub-Fund is calculated on a daily basis.

Minimum initial investment: 5,000,000 euros or the equivalent in the relevant currency of the relevant Share class.

Minimum subsequent investment: 1,000,000 euros or the equivalent in the relevant currency of the relevant Share class.

Lower risk ← Potentially lower reward — Potentially higher reward → **Higher risk**

1	2	**3**	4	5	6	7

The risk category is calculated using historical performance data and may not be a reliable indicator of the Sub-Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

Why is this Sub-Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

Additional Risks

Counterparty Risk: Risk of bankruptcy, insolvency, or payment or delivery failure of any of the Sub-Fund's counterparties, leading to a payment or delivery default.

Geopolitical Risk: investments in securities issued or listed in different countries may imply the application of different standards and regulations. Investments may be affected by movements of foreign exchange rates, changes in laws or restrictions applicable to such investments, changes in exchange control regulations or price volatility.

Liquidity Risk: risk of low liquidity level in certain market conditions that might lead the Sub-Fund to face difficulties valuing, purchasing or selling all/part of its assets and resulting in potential impact on its net asset value.

Credit Risk: Risk that issuers of debt securities held in the Sub-Fund may default on their obligations or have their credit rating downgraded, resulting in a decrease in the Net Asset Value.

Impact of any techniques such as derivatives: Certain management strategies involve specific risks, such as liquidity risk, credit risk, counterparty risk, legal risk, valuation risk, operational risk and risks related to the underlying assets.
The use of such strategies may also involve leverage, which may increase the effect of market movements on the Sub-Fund and may result in significant risk of losses.
