## Schroder International Selection Fund

## The Company

Schroder International Selection Fund (the "Company") organised as a "société anonyme" is an open-ended 'umbrella' company incorporated under Luxembourg law, which enables investors to choose from 'Sub-Funds' (specific portfolios of assets and liabilities within the Company having their own net asset value and represented by a separate class or classes of shares) offering different investment objectives.

This report covers the period from 1 January 2021 to 30 June 2021. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. The last day on which prices were calculated was 30 June 2021, the last working day of the period and 29 June 2021 for Schroder ISF China A and Schroder ISF Japan DGF. At the date of this report, 127 Sub-Funds were available for investment. Please refer to the current prospectus for the investment objectives of the Sub- Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (http://www.schroders.lu).

Hereafter, names of the Sub-Funds will be preceded by "Schroder ISF", e.g. Schroder ISF Global Equity Alpha.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A.; Sponsoring entity GIIN: 4RIMT7.00000.SP.442

For sub-funds registered in the UK, as required by the Financial Conduct Authority (FCA), Schroders entered into the Temporary Permissions Regime (TPR). This regime allows registered sub-funds to be distributed and marketed in the UK/to UK investors post Brexit.

### **Corporate Governance**

The Company is subject to corporate governance based on:

- 1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law which is available for inspection at the registered office of the Company at 5, rue Höhenhof, 1736 Senningerberg, Grand Duchy of Luxembourg.
- 2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ("RCSL").
- 3. Its obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A. (the "Management Company"), which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
- 4. The Association of the Luxembourg Fund Industry ("ALFI") code of conduct, the principles of which the Company has voluntarily adopted.

## **Internal Control and Risk Management Systems**

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors of the Company and filed with the Commission de Surveillance du Secteur Financier ("CSSF") and, in the case of annual reports, with the RCSL.

The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

There were 2 mergers during the period under review.

Merger Date	Sub- Funds
17 February 2021	Schroder ISF UK Alpha Income merged into Schroder ISF UK Equity
31 March 2021	Schroder ISF European Opportunities merged into Schroder ISF European Sustainable Equity

### 7. Sub-Fund name changes

During the period under review, the following Sub-Funds changed their names:

Date	Current name	Previous name
11 January 2021	Schroder ISF Sustainable European Market Neutral	Schroder ISF European Market Neutral
6 May 2021	Schroder ISF Cross Asset Momentum Component	Schroder ISF Alternative Risk Premia
21 June 2021	Schroder ISF Sustainable Asian Equity	Schroder ISF Asia Pacific ex-Japan Equity
21 June 2021	Schroder ISF Sustainable Conservative	Schroder ISF Flexible Retirement
21 June 2021	Schroder ISF Global Cities	Schroder ISF Global Cities Real Estate
21 June 2021	Schroder ISF European Innovators	Schroder ISF European Alpha Focus

Furthermore, the following changes took effect during the period:

### 11 January 2021

Management Fees decrease for Schroder ISF European Market Neutral Class E Acc and Class E Acc GBP Hedged from 0.50% to 0.37%.

#### 18 January 2021

Schroder ISF Global Energy changed its investment policy.

#### 18 May 2021

Management Fees decrease for Schroder ISF Global Recovery Class C Acc, Class C Dis, Class C Acc GBP and Class C Acc GBP Hedged from 0.75% to 0.65%.

### 21 June 2021

Schroder ISF Sustainable Asian Equity changed its investment objectives and policies as a result of the name change.

Schroder ISF European Innovators changed its investment objectives and policies as a result of the name change and performance fee would no longer be applied.

Schroder ISF Sustainable Conservative changed its investment objectives and policies as a result of the name change.

Schroder ISF QEP Global ESG ex Fossil Fuels changed its investment policy.

Schroder ISF QEP Global Active Value changed its investment policy.

Schroder ISF Strategic Credit changed its investment objectives and policies.

# **Investment Manager's Report**

#### **Economic review**

Progress on the roll-out of Covid-19 vaccines dominated newsflow in the first six month of 2021 and reinforced expectations of a swift rebound in the global economy. The US and UK were among the first of the large economies to distribute vaccines at scale, with the EU following shortly afterwards. While lockdowns and other restrictions on mobility and economic activity continued in many countries for much of the period, there were growing signs of a sharp rebound, especially for the manufacturing sectors.

In addition, January brought news that the November 2020 US presidential election had turned into a Democrat "blue sweep". Run-off elections in Georgia confirmed that the Democrats had taken the Presidency, House and Senate. This paved the way for further stimulus to help the economy recover from the pandemic, as well as raising the prospect that President Joe Biden would be able to pass key parts of his platform, including measures to combat climate change. A \$973 billion bipartisan infrastructure deal was agreed in June 2021, although this included few climate measures.

Economic data confirmed that the US economy was bouncing back from the pandemic, with an expansion of 6.4% (quarter-on-quarter, annualised) in Q1 2021, compared to 4.3% in Q4 2020. By contrast, the eurozone saw GDP contract by -0.3% year-on-year in Q1. Chinese GDP growth was 18.3% year-on-year in Q1 2021, partly explained by the fact the economy was one of the first hit by the pandemic in early 2020. However, forward-looking data confirmed that the recovery was spreading out to other countries too. The eurozone manufacturing PMI, which measures activity in the sector, hit a record high of 63.4 in June 2021.

As the six-month period wore on, there were fears that the pace of the recovery and consequent supply bottlenecks could bring about a persistent rise in inflation. The US Federal Reserve (Fed) repeatedly said that it viewed the current inflationary pressures as transitory but this was followed by a surprisingly hawkish tilt at the June FOMC meeting. However, the Fed subsequently eased fears that policy would be tightened more quickly than expected.

The supply bottlenecks contributing to rising inflation included some labour shortages in certain sectors. A key theme of the period was shortages of semiconductors affecting the production of all kinds of goods, notably electric cars. Global trade was also disrupted by rising shipping costs as well as delays after a container ship blocked the Suez canal.

## **Equity market review**

Global equities made a strong advance over the six months with the MSCI World index returning 13.0% (in US dollars). Overall, areas most exposed to the economic cycle led equities higher whilst defensive sectors lagged. The first part of the period saw strong performance from value parts of the market, which had been out of favour during the pandemic but would be beneficiaries of a more reflationary environment. However, as the period progressed, investors appeared to pare back "reflation trade" positions in favour of stocks with stronger quality characteristics, most notably profitability, growth and financial strength. The MSCI Value index returned 14.7% for the period compared to 11.1% for MSCI World Growth.

The early part of the year also brought volatility amid rising retail participation in markets. This was most prominent as a battle emerged between retail traders and hedge funds over the US computer game store, GameStop. Other signs of speculative activity were manifest in some gains for cryptocurrencies such as Bitcoin.

By region, US equities led the way as the economic outlook continued to improve, in part thanks to a broadly supportive Fed and the prospect of the infrastructure package. Eurozone and UK shares also saw strong gains, supported by a strong Q1 corporate earnings season and an acceleration in the pace of vaccine roll-out in the region. Japanese shares saw positive returns but lagged other developed markets amid a slower vaccine roll-out.

Emerging market equities failed to match the pace set by developed equities. The MSCI Emerging Markets Index returned 7.4% (in US dollars). Concerns included the slower pace and lower overall access to vaccinations compared with developed markets, a slowing Chinese credit impulse, and ongoing regulation of big tech by Chinese authorities weighed on the market's progress.

(Source for returns: DataStream)

## **Fixed income review**

The period saw a forceful rebound in economic activity accompanied by a build-up in inflationary pressures, particularly in the US. Numerous countries saw good progress in vaccination programmes while the pandemic broadly remained more contained, enabling easing of lockdown measures and a degree of reopening. The US passed a fiscal stimulus bill in March. This broadly supported positive risk sentiment.

The US consumer price index registered an annualised increase of 5% in May, the highest since 2008. The core personal consumption expenditure measure rose 3.4%, annualised, the highest since 1992. The Federal Reserve shifted to a more hawkish tone at its June policy meeting, essentially indicating that interest rates will rise earlier than previously predicted.

Q1 saw a large sell-off in government bond yields, reflecting rising growth and inflation expectations, and some investors entertaining the possibility of earlier than expected interest rate hikes. The US 10-year yield rose from 0.92% to 1.74%, rising by over 30 basis points (bps) in both February and March. The 10-year retraced part of the move in Q2, finishing the period at 1.47%.

The UK 10-year yield rose from 0.20% to 0.84% in Q1, taking its cue from the US. It also retraced modestly in Q2, finishing the period at 0.72%. The UK made rapid progress with its vaccination rollout.

In Europe, yields rose comparatively less in Q1 as the region struggled to progress with its vaccination programme, also enduring a "third wave" of the pandemic and continued lockdowns in various countries. The vaccine rollout accelerated in Q2, with the region catching up with the US, and the economic recovery gained traction. Germany's 10-year yield rose from -0.57% to -0.20% over the period. Italy's 10-year yield rose from 0.52% to 0.82%, reaching a high of near 1.2% in May around speculation the European Central Bank could taper emergency support measures.

Corporate bonds outperformed government bonds and high yield made good gains. Investment grade was marginally lower, as strong returns in late-2020 were reversed in Q1 2021 amid sharply rising yields. High yield gained 3.1%.

(Source for yields: BofA ML)

## **Outlook**

The Schroders economics team now forecasts global GDP growth at 5.9% in 2021, slowing to 4.5% growth in 2022. The recovery in growth is being driven by a re-opening of the service sector, which favours the advanced economies over the emerging markets (EM). Hence, the upgrade is led by the US and Europe. This growth differential is reinforced by the greater availability of vaccines and fiscal support in the developed economies. Such an outcome is a contrast with the recovery from the last recession when massive stimulus in China led the EM out of the global financial crisis (GFC).

The Schroders economics team has also raised inflation forecasts, now expecting global CP (consumer price index) at 2.9% in 2021 and 2.5% in 2022. The increase in inflation is largely due to the rise in commodity prices and the rapid pace of recovery. This has created bottlenecks in some sectors of the world economy. While there is significant spare capacity, it cannot be put in place rapidly enough to prevent shortages of materials, parts and labour emerging in the short-term.

Turning to monetary policy, the economics team still believes that the current US inflation spike will prove to be temporary. But inflation will pick up next year, leading to a need for tighter monetary policy. The team sees the Fed beginning to taper in Q4 this year and raising interest rates at the end of 2022.

# **Investment Manager's Report (continued)**

## **Outlook (continued)**

In terms of the implications for markets, a combination of continued policy support from the authorities and stronger global growth should support equities. Importantly, the economics team expects the robust profits outlook and the delivery of strong earnings growth will offset the impact of higher bond yields.

# Notes to the Financial Statements as at 30 June 2021

#### **The Company**

The Company was incorporated in Luxembourg on 5 December 1968 as a 'société anonyme'. Pursuant to an Extraordinary General Meeting of Shareholders held on 31 January 1989, the form and name of the Company, as well as its establishment period, was changed to a 'société d'investissement à capital variable' ('SICAV') established for an unlimited period under the name of Schroder International Selection Fund. The Company qualifies as an undertaking for collective investment (UCI) regulated by the provisions of Part I of the Luxembourg Law of 17 December 2010, as amended, regarding undertaking for collective investment (the '2010 law').

#### **Classes of Shares**

At the date of this report, twenty seven classes of shares are available within the Funds: A, A1, AX, B, C, CN, CX, D, E, F, I, IA, IB, IC, IE, IZ, J,

K1, R, S, U, X, X1, X2, X3, Y and Z shares.

All Sub-funds offer A, B and C shares, apart from the following Sub-funds:

Schroder ISF Emerging Markets Equity Alpha (offers only A, C, E, I & IZ);

Schroder ISF Global Gold (offers only A, A1, C, I, IZ, S & U);

Schroder ISF Indian Opportunities (offers only A, A1, C, E, F, I & IZ);

Schroder ISF Japanese Opportunities (offers only A, A1, C & I);

Schroder ISF Sustainable Asian Equity\* (offers only A, C, F, I & IZ);

Schroder ISF Sustainable Multi-Factor Equity (offers only C, I & IZ);

Schroder ISF QEP Global Core (offers only C, I, IA, IZ, X & X1);

Schroder ISF QEP Global Emerging Markets (offers only A, A1, C, I, IZ, K1 & Z);

Schroder ISF QEP Global ESG (offers only A, C, I, IZ & S);

Schroder ISF QEP Global ESG ex Fossil Fuels (offers only A, C, I, IE & IZ);

Schroder ISF Sustainable Emerging Markets Synergy\* (offers only A, C, E, I & IZ);

Schroder ISF Cross Asset Momentum Component\* (offers only I);

Schroder ISF Global Managed Growth (offers only A, C, E, I & IZ);

Schroder ISF Global Target Return (offers only A, A1, AX, C, I, IZ & U);

Schroder ISF Japan DGF (offers only C, I, IZ & X);

Schroder ISF Sustainable Conservative\* (offers only A, A1, C, I & IZ);

Schroder ISF Hong Kong Dollar Bond (offers only A, A1, C, I & IZ);

Schroder ISF Dynamic Indian Income Bond (offers only A, C, I & IZ);

Schroder ISF Global Conservative Convertible Bond (offers only A, C, E, I & IZ); Schroder ISF Securitised Credit (offers only A, A1, C, E, I & IZ);

Shares are generally issued as Accumulation shares. Distribution shares may be issued within any Sub-Fund at the Directors' discretion. A list of available Distribution shares may be obtained upon request at the Management Company.

In accordance with the provisions of the current prospectus, the Directors may also offer classes in multiple currency denominations. The respective Investment Managers have the ability to hedge the shares of such classes in relation to the Sub-Fund currency or in relation to currencies in which the relevant Sub-Fund's underlying assets are denominated. Where hedging of this kind is undertaken, the respective Investment Managers may engage, for the exclusive account of such share class, in currency forwards, currency futures, currency option transactions and swaps in order to preserve the value of the reference currency against the Sub-Fund currency. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of such additional share class. Similarly, any expenses arising from such hedging transactions will be borne by the class in relation to which they have been incurred. The classes of share available for each Sub-Fund are set out in detail in the current prospectus. The Directors may decide from time to time for some or all of the Bond Funds to issue duration hedged share classes. Duration hedged share classes utilise hedging strategies that seek to reduce the share class' sensitivity to changes in interest rate movements. There is no assurance that these hedging strategies will be successful. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of the share class. Similarly, any expenses arising from such hedging transactions will be borne by the duration hedged share classs. The performance of the duration hedged share classes may underperform other share classes in the Bond Funds depending on interest rate movements. Duration hedged share classes can be issued in relation to any type of available share classes of Bond Funds.

The naming convention used for the share classes is as follows:

A Acc for base currency share class;

A Acc 'CCY' for a multicurrency share class;

A Acc 'CCY' Hedged for a hedged share class.

<sup>\*</sup> Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

<sup>^</sup> Distribution charges in respect of B shares are payable quarterly.

<sup>^^</sup> Distribution charges in respect of A1 and D shares are paid at such intervals, as may be agreed upon from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such shares.

#### Minimum Subscription Amount, Minimum Additional Subscription Amount and Minimum Holding Amount

In accordance with the provisions of the current prospectus, minimum amounts for subscription, additional subscription and holding are as follows:

in accordance with the provisions of the cur	refre prospectus, minimum amounts for subscription, additional subscription and holding are as follows.
A, A1,AX,B, C, CN, CX, D, E, F, U and Y Shares	The minimum initial subscription, additional subscription and holding amount is EUR 1,000 or USD 1,000 or their near equivalent in any other freely convertible currency.
	E Shares will only be available with prior agreement of the Management Company. F shares will only be offered to investors who, at the time the relevant subscription order is received, Singapore Investors are utilising the Central Provident Fund ("CPF") to subscribe into the Company. U Shares will only be available, with the prior agreement of the Management Company, through certain Distributors. U Shares will only be available for distribution in non-EEA countries. Y Shares are only available at the Management Company's discretion to certain clients of Schroders. Before the Management Company can accept a subscription into Y Shares, a legal agreement must be in place between the Investor and Schroders containing terms specific to investment in Y Shares.
I, J and IE Shares	The minimum initial subscription and holding amount is EUR 5,000,000 or USD 5,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 2,500,000 or USD 2,500,000 or their near equivalent in any other freely convertible currency.†
	I shares will only be offered to investors who, at the time the relevant subscription order is received, are clients of Schroders with an agreement covering the charging structure relevant to the clients' investments in such shares and who are Institutional Investors.  J Shares will only be offered to and can only be acquired by Japanese Fund of Funds, which are Institutional Investors.
IA Shares	The minimum initial subscription and holding amount is EUR 250,000,000 or USD 250,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or USD 20,000,000 or their near equivalent in any other freely convertible currency.†
IB Shares	The minimum initial subscription and holding amount is EUR 300,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or their near equivalent in any other freely convertible currency.†
IC Shares	The minimum initial subscription and holding amount is EUR 350,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or their near equivalent in any other freely convertible currency.†
IZ & Z Shares	The minimum initial subscription and holding amount is EUR 100,000,000 or USD 100,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 20,000,000 or USD 20,000,000 or their near equivalent in any other freely convertible currency.
	IZ Shares will only be offered to and can only be acquired by Institutional Investors, with prior agreement of the Management Company.  Z Shares will be offered in limited circumstances to professional investors for distribution in certain countries and through certain Distributors, with the prior agreement of the Management Company.
X Shares	The minimum initial subscription and holding amount is EUR 25,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 12,500,000 or their near equivalent in any other freely convertible currency.†
	X shares will only be available, with prior agreement of the Management Company, to institutional investors, as may be defined from time to time by the guidelines or recommendations issued by the Luxembourg supervisory authority.
X1, X2 and X3 Shares	The minimum initial subscription and holding amount is EUR 22,500,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 12,500,000 or their near equivalent in any other freely convertible currency.
	X1 and X2 shares will only be available, with prior agreement of the Management Company, to institutional investors, as may be defined from time to time by the guidelines or recommendations issued by the Luxembourg supervisory authority.
K1, R and S Shares	There are no minimum subscription or holding amounts.

<sup>&</sup>lt;sup>†</sup> These minima may be waived from time to time at the discretion of the Directors.

Further details on specific features of the different classes of shares and the conditions under which initial and distribution fees are calculated can be found in the current prospectus.

#### **Accounting Policies**

#### **Summary of Significant Accounting Policies**

The financial statements are prepared and presented in accordance with generally accepted accounting principles in Luxembourg for investment funds on a going concern basis.

At the reporting date the cash amounts held at custody for the following liquidated Sub-Funds were – Schroder ISF QEP Global Value Plus 15,387 USD, Schroder ISF QEP Global Equity Market Neutral 47,844 USD, Schroder ISF Korean Equity 676,434 USD, Schroder ISF Global Credit Duration Hedged 37,925 EUR, Schroder ISF Asia Pacific Cities Real Estate 12,468 USD, Schroder ISF QEP Global Blend 828,262 USD, Schroder ISF Multi-Manager Diversity 1,158 GBP, Schroder ISF Multi-Asset PIR Italia 11,995 EUR, Schroder ISF Asian Long Term Value -155,037 USD and Schroder ISF Global Multi-Factor Equity 21,593 USD.

#### **Net Asset Value**

#### **Calculation of Net Asset Value per Share**

The Net Asset Value ('NAV') per Share of each Class is calculated on each Dealing Day in the currency of the relevant class. It is calculated by dividing the NAV attributable to each Class, being the proportionate value of its assets less its liabilities, by the number of Shares of such Class then in issue. The resulting sum is rounded to the nearest up to four decimal places. Further details on rules that apply in valuing total assets can be found in the current prospectus.

#### Valuation of the Assets of the Company

The value of securities, derivative instruments and assets is determined on the basis of the last available price on the stock exchange or any other regulated market on which those securities or assets are traded or admitted for trading. Where such securities or other assets are quoted or dealt in on more than one stock exchange or any other regulated market, the Directors shall make regulations for the order of priority in which stock exchanges or other regulated markets shall be used for the provision of prices of securities or other assets.

If a security is not traded on or admitted to any official stock exchange or any other regulated market or, in the case of securities so traded or admitted, the last available price does not reflect their true value, the Directors are required to proceed on the basis of their expected sales price, which shall be valued with prudence and in good faith.

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof.

Financial derivative instruments, which are not listed on any official stock exchange or any other regulated market, are valued in accordance with market practice. The swaps are valued at their fair value based on the underlying securities (at close of business or intraday) as well as on the characteristics of the underlying commitments.

Liquid assets and Money Market Instruments will be valued at Mark-to-Market or Mark-to-Model where the use of Mark-to-Market is not possible or the market data is not of sufficient quality.

Units or shares in open-ended undertakings for collective investment are valued on the basis of the latest available reported Net Asset Value.

If any of the aforesaid valuation principles do not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Company's assets, the Directors may fix different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures. Any assets or liabilities in currencies other than the base currency of the Sub-Funds are converted using the relevant spot rate quoted by a bank or other responsible financial institution.

The Directors are authorised, to the extent allowed by applicable by law, to apply other appropriate valuation principles for the assets of the Sub-Funds and/or the assets of a given Share Class if the aforesaid valuation methods appear impossible or inappropriate due to extraordinary circumstances or events.

As of 30 June 2021, fair valuation was applied to the following securities:

Security Name	Sub-Fund	
OW Bunker A/S	Schroder ISF European Smaller Companies	
Peace Mark Holdings Ltd.	Schroder ISF European Value

De Volksbank NV, Reg. S, FRN 0% Perpetual	Schroder ISF Global High Yield

#### **Fair Value Pricing**

In accordance with the provisions of the current prospectus, fair value pricing may be implemented to protect the interests of the Company's Shareholders against market timing practices. Accordingly, if a Sub-Fund is primarily invested in markets that are closed for business at the time the Sub-Fund is valued, the Directors may, during periods of market volatility and by derogation from the provisions above under 'Calculation of Net Asset Value per share', cause the Sub-Fund Administrator to allow for the Net Asset Value per share to be adjusted to reflect more accurately the fair value of the Sub-Fund's investments at the point of valuation. The level of adjustment is based upon a systematic process involving a multi-factor regression approach that incorporates global, regional and security specific factors up until the point of valuation.

The Directors, however, reserve the right to extend the implementation of fair value pricing in respect of other Sub-Funds wherever they deem it appropriate. On 30 June 2021, the last working day of the period under review, the following Sub-Funds were adjusted.

Sub-Fund	Currency	Total Adjustment
Schroder ISF Asian Opportunities	USD	(14,472,100)

#### **Swing Pricing Adjustment**

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of Shareholders of the Sub-Fund. If on any Valuation Date, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Directors, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

The net inflows and net outflows is determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and in normal market conditions is not expected to exceed 2% of the unadjusted Net Asset Value per Share of the relevant Fund on any Dealing Day. However, under unusual or exceptional market conditions (such as significant market volatility, market disruption or significant economic contraction, a terrorist attack or war (or other hostilities), a pandemic or other health crisis, or a natural disaster), the Management Company may decide, on a temporary basis, to adjust the Net Asset Value of a Fund by more than 2% when such a decision is justified as being in the best interests of the shareholders. Any such decision to adjust the Net Asset Value by more than 2% will be published on the following website: www.schroders.lu.

The swing pricing mechanism has been applied to the Company's Sub-Funds since 12 January 2009.

On 30 June 2021, the last working day of the period under review, swing pricing adjustment was applied to Schroder ISF All China Equity, Schroder ISF Changing Lifestyles, Schroder ISF Emerging Europe, Schroder ISF Global Cities\*, Schroder ISF Global Emerging Markets Smaller Companies, Schroder ISF QEP Global Active Value, Schroder ISF Sustainable Emerging Markets Synergy\*, Schroder ISF Emerging Multi-Asset Income, Schroder ISF Multi-Asset Growth and Income, Schroder ISF BlueOrchard Emerging Markets Climate Bond\*, Schroder ISF Emerging Market Bond, Schroder ISF Global Convertible Bond, Schroder ISF Global Corporate Bond and Schroder ISF Global High Yield. The official Net Asset Values per share of these Sub-Funds following the application of the swing pricing adjustment are shown in the following table. All other financial information stated in this report is shown before any adjustments for swing pricing.

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

#### **Cash Collateral Reinvestment**

For the purpose of counterparty risk mitigation, Sub-Funds with currency hedging transactions related to hedged share classes will pay or receive cash collateral on a daily basis from the counterparty, thus reducing their exposure over the duration of the forward contract. Investment Managers may reinvest the cash collateral they receive from their counterparty in connection with currency hedging.

### **Realised Gains and Losses on Sales of Investments in Securities**

Realised gains and losses on sales of investments in securities are determined on the average cost basis and include transactions cost.

### **Forward Currency Exchange Contracts**

Outstanding forward currency exchange contracts are valued at the last available price on 30 June 2021 by reference to the forward rate of exchange applicable to the maturity of the contracts. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on forward currency exchange contracts'.

### **Futures Contracts**

Futures contracts were valued at the last available price on 30 June 2021. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on financial futures contracts'.

### **Options Contracts**

Options contracts were valued at the last available price on 30 June 2021 and the net market value is shown in the Combined Statement of Net Assets under 'Options purchased and swaptions contracts at market value' for assets and under 'Options written and swaptions contracts at market value' for liabilities.

### **Inflation Rate Swap Contracts**

The Company invests in inflation swaps as part of the investment strategy. Inflation swaps were valued at the last available price on 30 June 2021 at their intrinsic value. The valuation method involves the determination of the net present value of future cash flows at the closing date. The result of these revaluations together with any interest receivable/payable in relation to inflation swaps on 30 June 2021 is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

#### **Interest Rate Swaps Contracts**

In order to hedge against interest rate fluctuations, the Company may enter into interest rate swaps. Such contracts must be denominated in the currencies in which the assets of such Sub-Fund are denominated, or in currencies which are likely to fluctuate in a similar manner and must be either listed on an exchange or dealt in on a Regulated Market. Interest rate swaps were valued at the last available price on 30/06/2021 at their intrinsic value. The valuation method involves a current value of each interest rate and capital series converted into the currency of the Sub-Fund on the closing date. The result of these revaluations together with any interest receivable/payable in relation to interest rate swaps on 30/06/2021 is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

### **Credit Default Swaps**

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers. The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net change in realised appreciation/ (depreciation) on swap contracts" in the Combined Statement of Operations and Changes in Net Assets.

#### **Total Return Swaps**

The Company may use total return swaps. A total return swap is a bilateral financial contract which allows the Company to enjoy all of the cash flow benefits of an asset without actually owning this asset (the 'Reference Asset'). The Company will have to pay a periodic fee (fixed or floating payment) in exchange of its right to receive the total return of the Reference Asset (coupons, dividends and capital gains or losses). The Reference Asset can be almost any asset, index or basket of asset which constitutes an eligible investment for the Company. The Company may use such instruments to seek exposure to an eligible market or for hedging purposes.

The Company will only enter into a total return swap transaction with financial institutions specialised in this type of transaction. In addition, the use of total return swaps must comply with the investment objectives and policies and risk profile of the relevant Sub-Fund. The total commitments arising from the use of total return swaps together with the total commitments arising from the use of other derivative instruments may not, at any time, exceed the net assets of the relevant Sub-Fund.

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

### **Total Return Swaps (continued)**

The total return swaps were valued at the last available price on 30 June 2021. The unrealised gain or loss on total return swaps at the period end is represented by the values of interests to be received (or paid), based on relevant swap agreements' interest rates less (or plus, respectively), the value of the performance to be paid (or received, respectively), based on the total return value of underlying assets, which is made of the current fair value of the bonds plus the coupon for such debt instruments for the relevant swap period. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

### **Fees and Expenses**

### **Expense Subsidy**

The administration fees, custodian fees, distribution fees, management fees and statutory fees are calculated and accrued daily by reference to the Net Asset Value of the Sub-Funds and are paid monthly. These fees were monitored to ensure the total expenses incurred were not deemed to be significant relative to the Net Asset Value of the Sub-Funds (above threshold agreed by the Board of Directors).

#### **Operating Expenses**

The Sub-Funds pay other Operating expenses incurred in the operation of the Company which are composed of statutory fees and are mainly audit, legal and publication fees, please refer to the 'Operating Expenses' shown in the Combined Statement of Operations and Change in Net Assets.

#### **Directors' Fees**

For the period from 1 January 2021 to 30 June 2021, Hugh Mullan received in remuneration the amount of EUR 25,000, Eric Bertrand, Marie-Jeanne Chevremont-Lorenzini and Bernard Herman each received EUR 27,083 in remuneration.

The remaining directors have waived their remuneration.

### **Management Fees**

The Investment Managers are entitled to receive management fees for their services, which are calculated and accrued daily by reference to the Net Asset Value of the Sub-funds and are paid monthly. No management fees are payable out of the net assets for I and J share classes, however the Investors are charged directly by Schroders. The actual rates payable as at 30 June 2021, which vary from Sub-Fund to Sub-Fund and from share class to share class are set out in the table on pages 1100 - 1121. Please refer to the Directors report for changes to the management fees that occurred during the period under review.

#### **Performance Fees**

In accordance with the provisions of the current prospectus, performance fees terms were applied to 8 Sub-Funds. Accordingly, the Investment Managers of the relevant Sub-Funds are entitled to receive from the Sub-Funds a performance fee, in addition to management fee, provided that the increase in the Net Asset Value per share of the Sub-Funds over the calendar year outperforms their relevant benchmarks over the same period, in accordance with the high water mark principle, i.e. by reference to the Net Asset Value per Share at the end of any previous performance period (the High Water Mark). The performance period shall normally be each financial year except that where the Net Asset Value per Share as at the end of the financial year is lower than the High Water Mark, the performance period will commence on the date of the High Water Mark.

If a performance fee is introduced on a Sub-Fund during a financial year, then its first performance period will commence on the date on which such fee is introduced. The performance fee is 15% of the outperformance (except for Schroder ISF European Innovators\*, Schroder ISF QEP Global Equity Market Neutral\*, which is set at 10%, and for Schroder ISF European Alpha Absolute Return, Schroder ISF European Equity Absolute Return and Schroder ISF Sustainable European Market Neutral\* which is set at 20%) and is payable annually in January. Further details of the calculation of the performance fees can be found in the current prospectus.

The Sub-Funds in relation to which performance fees were calculated during the period under review as well as details of the relevant Investment Managers and benchmarks are set out in the following table.

<b>Sub-Funds</b>	Investment Manager	Benchmark

### **Taxation**

The Company is not subject to any taxes in Luxembourg on income or capital gains. The only tax to which the Company in Luxembourg is subject is the 'taxe d'abonnement' to a rate of 0.05% per annum based on the net asset value of each Sub-Fund at the end of the relevant quarter, calculated and paid quarterly. In respect of any Share Class or Sub-Fund which comprises only institutional Investors (within the meaning of article 174 of the Law of 17 December 2010), the tax levied will be at the rate of 0.01% per annum.

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin, and provisions in this respect may be recognised in certain jurisdictions.

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

### **Changes in the Sub-Funds**

A list specifying the total purchases and sales for each Sub-Funds, which took place during the period under review, may be obtained free of charge upon request at the Company's registered office.

### Transactions made for a Purpose other than Hedging

In accordance with the provisions of the current prospectus, the Company may, for a purpose other than hedging, purchase and sell futures contracts, forward foreign exchange contracts, financial derivative instruments that are traded OTC including, without limitation, total return swaps, contracts for difference or other financial derivative instruments with similar characteristics and equity swaps provided that the Company will only enter into equity swap transactions with highly rated financial institutions specialised in this type of transactions.

### **Securities Lending**

There has been no securities lending activity on the Company's Sub-Funds since December 2012.

### **Disclosure of Transaction Costs**

The transaction costs are broker commission fees and taxes related to the purchase and sale of transferable securities. Custodian transaction costs are not included in this table, please refer to the Depository Fees' shown in the Combined Statement of Operations and Change in Net Assets which includes custody transaction costs that represent fixed rate charges per market levied by the custodian for the servicing of portfolio transactions. Bond Sub-Funds will generally show the figure of zero as the broker commission fees are included in the spread, which is excluded from the calculation pursuant to Annex I, Schedule B, Chapter V of Directive 2009/65/EC of the European Parliament. The transactions costs for the period under review are as follows:

Investing in Russian securities		

### Investing in Russian securities

Those Sub-Funds with an investment objective that allows investment in Russian securities may invest directly in Russian securities that are traded on the Moscow Exchange. Securities traded on the Russian Trading Stock Exchange can be treated as investments in securities dealt in on a Regulated Market.

### **Investment Restriction**

To ensure eligibility for the French Plan d'Epargne en Actions (PEA), Schroder ISF EURO Equity and Schroder ISF European Sustainable Equity will invest at least 75% of their assets in equity securities issued by companies which have their head office in the European Union, or in an EEA state that has signed a tax agreement with France, including a clause on combating fraud and tax avoidance.

### **Cross sub-fund investment**

As at 30 June 2021, the total cross Sub-Fund investment amounts to EUR 1,778,434,393 and therefore, the total combined NAV at the period end without cross Sub-Fund investments would amount to EUR 123,155,221,868. The details of the cross Sub-Fund investments are disclosed in the following table:

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.
