Investment Policy

The fund invests in Consumer Goods companies worldwide. This includes companies carrying out their business activity in the following industries: automobiles & auto components, consumer durables & apparel, hotels, restaurants & leisure, media and distribution. The portfolio is diversified across countries. Measured over a period of several years, we aim to beat the performance of the benchmark MSCI World 10/40 Consumer Discretionary (NR). We strive to add value to the fund by stock selection based on a thorough company analysis. We consciously weigh the upside potential from the current share price against the risks involved before including a stock in the fund. You can sell your participation in this fund on each (working) day on which the value of the units is calculated, which for this fund occurs daily. The fund does not aim to provide you with a dividend. It will reinvest all earnings.
