A Sub-Fund of AXA World Funds SICAV

Share class: AXA World Funds - Global Flex 100 F Capitalisation EUR (ISIN: LU0094161022)

This Sub-Fund is managed by AXA Funds Management S.A., part of the AXA IM Group

## Objective and Investment Policy

### Investment Objective

The Sub-Fund is a multi asset class portfolio, seeking to achieve long term capital and income growth through a dynamic and flexible allocation across a wide array of asset classes globally.

### Investment Policy

The Sub-Fund is actively and discretionarily managed in order to capture opportunities across a wide array of asset classes, with an investment strategy that utilises:

- Strategic asset allocation (based on long term macroeconomic views)
- Tactical asset allocation (based on the identification of short term market opportunities)
- Extensive diversification, with no formal restriction on the proportion of assets that can be allocated to any one particular market. This diversification exposes the Sub-Fund to a high level of volatility

The Sub-Fund is invested mainly in a broad set of bonds, money market instruments, equities issued in OECD or non OECD countries, either directly or through UCITS and/or UCI and/or by getting exposure to commodities excluding soft commodities (notably through commodity indices, exchange traded funds, equities, units or shares of UCITS and/or other UCIs). Over the long term a high proportion of the Sub-Fund's assets will be invested in equities. There is no formal restriction on the proportion of the Sub-Fund's assets that can be invested in and/or exposed to any particular market. In particular, the proportion of the Sub-Fund's assets that can be invested in equities and/or exposed to commodities (excluding soft commodities) is very flexible and may vary from 50% to 100%.

At least 10% of the net assets of the Sub-Fund will be invested in units or shares of UCITS and/or other UCIs with equivalent supervision. Up to 10% of the net assets of the Sub-Fund may be invested in units or shares of regulated open-ended hedge funds which are submitted to an equivalent supervision.

Within 200% of the Sub-Fund's assets, the investment strategy may be achieved by direct investments and/or through derivatives, especially by entering into Credit Default Swaps. Derivatives may also be used for hedging purposes.
