## Details about the SICAV

The SICAV publishes a detailed annual report on its activities, the assets under management. The report includes a statement of net assets consolidated and a statement of changes in net assets consolidated expressed in EUR, investment portfolio of each sub-fund and the audit report. This report is available at the registered office of the SICAV and at the registered office of the banks designated to provide financial services in the countries in which the SICAV is sold.

Furthermore, every six months a report is issued containing notably the composition of the portfolio, the number of shares in circulation and the number of shares issued or repurchased since the date of the previous report.

The shares are only available in registered form.

The Annual General Meeting of Shareholders of the SICAV is held each year at the registered office of the SICAV or at any other place in Luxembourg as specified in the convening notice. It shall take place within 6 months after the financial year-end.

Notice for all general meetings is sent to all registered shareholders by registered mail at their address specified in the share registrar, at least 8 days before the General Meeting. These notices indicate the time and place of the General Meeting as well as the conditions of admission, the agenda and the quorum and majority required under Luxembourg law.

In addition, notice shall be published in the "Recueil électronique des sociétés et associations" ("RESA") of the Grand Duchy of Luxembourg and in a Luxembourg newspaper the "Luxemburger Wort" as well as in the press of the countries where the SICAV is marketed if the legislation so requires.

The financial year of the SICAV ends on December 31, of each year.

The net asset value per share of each share class of each sub-fund, the subscription, redemption or conversion's price of each share class of each sub-fund may be obtained from the registered office of the SICAV and from the banks designated to provide financial services in the countries where the shares of the SICAV are distributed.

The prospectus, Key Investor Information Documents, the SICAV's Articles of Incorporation and financial reports are available to the public free of charge, at the SICAV's registered office.

## Savings Directive

The law of November 25, 2014 transposed the European Union Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the "Directive") into Luxembourg legislation. The purpose of this Directive is to allow the interest income paid to a beneficial owner who is a natural person domiciled in a country of the European Union to be taxed according to the provisions of the State in which the beneficial owner is domiciled. This purpose is achieved by means of an exchange of information between the tax authorities of the European Union. Luxembourg proceeds to automatically exchange information on interest payments and proceeds of redemptions obtained as from January 1, 2015 from funds that come within the scope of the Directive, which is the case for Candriam Equities L (subject to the threshold of 25% in debt securities being attained).

The SICAV is authorised to reject any application for shares if the applying investor does not provide the SICAV with complete and satisfactory information if required by law.

### Note 1 - General Information

Candriam Equities L (hereafter the "SICAV" or "the Fund") was incorporated for an indefinite period on April 27, 1994 under the name "BIL Equities" in the form of a Société d'Investissement à Capital Variable (SICAV) in accordance with the provisions of the part I of the law of December 17, 2010, as amended, relating to undertakings for collective investment and the Law of August 10, 1915, as amended, on commercial undertakings. Its minimum capital is EUR 1,250,000.

The Articles of Incorporation of the SICAV were published in the "Mémorial, Recueil des Sociétés et Associations" dated June 9, 1994. They have been modified several times, in particular, for the last time on April 6, 2020. The corresponding modifications were published in the "Recueil Electronique des Sociétés et Associations" ("RESA"). The SICAV is registered in the Luxembourg Commercial and Companies Register under the number B-47449.

The following sub-funds are currently available to investors:

The structure of multiple sub-funds offers investors not only the advantage of being able to choose between different sub-funds but also of being able to switch between these sub-funds.

Within each sub-fund, the SICAV may issue different share classes which differ in particular in terms of the fees and commissions payable or in terms of their distribution policy.

The share classes that may be issued are the following:

- The C class is offered to individuals and legal entities.
- The CB class is reserved only for certain distributors (banks) approved by the Management Company.
- The I class is restricted exclusively for institutional investors.
- The I2 class is not subject to a performance fee and is reserved exclusively for institutional investors.
- The LOCK class (which may also be called "L class") is a share class which is associated with a mechanism that aims to limit the capital risk incurred. This mechanism is offered only by Belfius Banque S.A., sole distributor authorised to sell these shares. By investing in this class, investors accept that the shares are sold automatically when the net asset value reaches a set amount (activation price). Accordingly, whenever Belfius Banque S.A. notes that the net asset value is equal to or less than the activation price, a redemption order is automatically generated and executed as soon as possible. The sales order will be consolidated at the first cut-off (deadline for the reception of orders) following the calculation date of the net asset value that gave rise to the automatic activation of the redemption order. In view of the specific nature of this class, before subscribing, potential investors should seek advice from their financial advisor at Belfius Banque S.A. so as to be aware of the technical and operational imperatives associated with this mechanism.
- The N class is reserved for distributors specially approved by the Management Company.
- The P class is reserved (i) for pension funds and/or similar investment vehicles, created on the initiative of one or more employers for the benefit of their employees and (ii) companies with one or more employers investing funds which they hold to provide pensions for their employees. The minimum initial subscription is EUR 15,000,000.
- The PI class is reserved for institutional investors which subscribe before the sub-fund has reached a critical size in terms of the assets under management. The minimum initial subscription is EUR 1,000,000 or the equivalent in foreign currencies for classes denominated in foreign currencies. This minimum may be changed at the discretion of the Board of Directors provided that shareholders are treated equally on the same Valuation Date. This class will remain open for subscription until one of the following events occurs: (i) the period fixed by the Board of Directors ends, (ii) the sub-fund reaches a critical size in terms of the assets under management, as defined by the Board of Directors, (iii) the Board of Directors decides to close this class to subscription on justifiable grounds. The Board of Directors may re-open this class of shares at its discretion and without the need to inform investors in advance.

The SICAV bears the current operating and administrative expenses incurred to cover all the overheads and variable expenses, the charges, fees and other expenses, as defined below ("Operating and Administrative Expenses").

The Operational and Administrative Charges cover the following costs, although this list is not exhaustive:

- a) expenses incurred directly by the SICAV, including, among others, fees and charges owing to the Depositary and the Principal Paying Agent, commissions and fees for auditors, share class hedging fees, including those charged by the Management Company, the fees paid to Directors and the reasonable costs and expenses incurred by or for the Directors;
- b) a "service fee", paid to the Management Company and which includes the remaining amount of Operational and Administrative Charges after deducting the costs indicated in section (a) above, refers to the fees and costs of the Domiciliary Agent, the Administrative Agent, the Transfer Agent, the Registrar, the costs associated with registration and for maintaining this registration in all jurisdictions (such as fees deducted by the supervisory authorities concerned, translation costs and payment for representatives abroad and local paying agents), stock exchange listing and follow-on expenses, share price publication costs, postal and communication costs, the costs for preparing, printing, translating and distributing prospectuses, key investor information documents, notices to the shareholders, financial reports or any other documents for shareholders, legal fees and expenses, the costs and fees associated with the subscription to any account or licence or any other use of paid information or data, the fees incurred for using the SICAV's registered trademark and the fees and expenses for the Management Company and/or its delegates and/or any other agent appointed by the SICAV itself and/or independent experts.

The Operating and Administrative Expenses are expressed as an annual percentage of the average net asset value of each share class and are payable monthly.

At the end of a given period, if the actual charges and expenses were to be higher than the percentage of Operating and Administrative Expenses set for a share class, then the Management Company would pay for the difference itself. Conversely, if the actual charges and expenses were to turn out to be lower than the percentage of Operating and Administrative Expenses set for a share class, then the Management Company would retain the difference.

The Management Company shall be entitled to instruct the SICAV to proceed to settle all or part of the expenses as listed above directly from its assets. In such a case, the amount of the Operating and Administrative Expenses would be reduced accordingly.

### Note 7 - Performance fees

In payment for its portfolio management activity, the Management Company also receives performance fees on certain share classes of certain sub-funds (see table below with concerned share classes and related index).

The method of calculating the performance commission is detailed in the various technical specifications attached to the Prospectus of the SICAV in force at the time. The applied performance fees annual rate is 20%.

The reference period is the financial year and these commissions are payable at the end of the calendar year.

Two thirds of the performance fees will be carried over to the following financial year and will be either reduced by way of a provision reversal resulting from an under-performance (within the limit of the provision formed), or increased by any new provision for an outperformance fee

Each time the class is valued, a reference asset is determined by assuming a theoretical investment corresponding to the performance of the index of all the subscriptions received during the period. (book net assets at the end of the previous financial year are treated as a subscription at the beginning of the period).

## Other notes to the financial statements

In the event of redemption, the last reference asset calculated and the previous-day total of all the subscriptions received are reduced in advance proportional to the number of redeemed units. Similarly, a share of the possible provision for the performance fee on outstanding credits recorded in the accounts at the last valuation is, in proportion to the number of redeemed units, allocated definitively to a specific personal account. This share of the performance fee is retained by the Management Company as from the date of redemption.

In the event that performance fees are not paid to the Management Company, these amounts are written back under the heading "Other income".

### Note 8 - Subscription tax

The SICAV is governed by the Luxembourg tax laws. By virtue of the legislation and regulations currently in force, the SICAV is subject in Luxembourg to an annual tax of 0.05%, which is payable quarterly and calculated on the net asset value of the SICAV at the end of each quarter. This rate is reduced to 0.01% for the classes reserved for institutional investors.

No tax d'abonnement is due on the assets which the SICAV holds in units of other UCITS already subject to the tax d'abonnement in Luxembourg.

The Belgian government enacted a law to tax once a year the net asset value of foreign investment funds registered in Belgium. This annual tax is calculated on the net amounts invested in Belgium by Belgian financial intermediaries. In the absence of a sufficient declaration relating to these figures, the tax authority will be entitled to calculate the tax on the entirety of the assets of these sub-funds. The Belgian law of June 17, 2013 comprising fiscal and financial provisions and provisions relating to sustainable development set the rate of the annual tax for Undertakings for Collective Investment at 0.0925% with effect from January 1, 2014.

As a precautionary measure, the SICAV filed a claim with the Belgian tax authority and the Brussels Court of First Instance for the tax to be refunded. At this stage, it is not possible to prejudge the outcome of the dispute or any reimbursement in favour of the SICAV. In a similar case, the Belgian State appealed to the Court of Cassation against the Court of Appeal's rulings in favour of the plaintiff. The case is still pending.

### Note 11 - Swing Pricing

For all the sub-funds of the SICAV, provision has been made for the following measure:

On the valuation days on which the difference between the amount of subscriptions and the amount of redemptions in a sub-fund (that is, the net transactions) exceeds a threshold previously set by the Board of Directors, the Board reserves the right to determine the net asset value by adding to the assets (in the case of net subscriptions) or by deducting from the assets (in the case of net redemptions) a flat-rate percentage of fees and expenses corresponding to market practices in the case of purchases or sales of securities.

The Net Asset Value and the Net Asset Value per Share disclosed in the financial statements and in the "Statistics" do not include swing pricing adjustment.

As at June 30, 2020, the swing pricing adjustment has been applied to the sub-fund Candriam Equities L Australia. The Net Asset Value per share after application of swinging pricing were as follows:

The swing factor

The swing factor is the amount by which the NAV is swung when the swing pricing process is triggered after net subscriptions or redemptions exceed the swing threshold. The factors to consider when setting the swinging factor include:

- Cost of trading/slippage
- Net broker commissions paid by the sub-fund
- Fiscal charges (e.g. stamp duty and sales tax)
- Exchange fees

### Proxy Voting

In January 1, 2004, Candriam Luxembourg started to actively exercise the voting rights attached to the shares of top-tier European companies that it manages on behalf of its clients. Candriam Luxembourg's voting scope never stopped extending since. This decision indicates Candriam Luxembourg's determination to assume its responsibilities in the context of corporate governance, and to fully exercise its voting rights in companies in which it invests.

The rights are exercised for each sub-fund of the SICAV on the basis of its positions in the portfolio but also taking into account operational considerations such as unwieldiness of the voting and recording procedures in the issuer's country of origin or related cost.

Candriam Luxembourg has formulated and implemented a voting policy based on four principles of corporate governance. Voting decisions are taken in accordance with these principles:

1. Protection of all shareholders' rights in accordance with the "one share – one vote – one dividend" rule.
2. Guaranteed equality of treatment of shareholders, including minority and foreign shareholders.
3. Communication of accurate and transparent financial information.
4. Accountability and independence of the Board of Directors and the external auditors.

As part of its voting decisions, Candriam Luxembourg satisfies itself that it has obtained all the information required for the decision to be taken. Candriam Luxembourg's ESG and financial analysts examine the resolutions presented to the shareholders, taking into account the voting recommendations provided by external corporate governance advisors on the basis of Candriam's custom guidances. Candriam Luxembourg does, however, retain total independence as regards its votes.

In addition, a Proxy Voting Committee has been established within Candriam Luxembourg, The Proxy Voting Committee furnish strategic guidance on Proxy Voting best practices, defines, monitors and adjusts Candriam's proxy voting policy.
