

Société d'investissement à capital variable

Established in Luxembourg

# Prospectus

## IMPORTANT NOTE

IMPORTANT. If you are in any doubt about the contents of the Prospectus, you should consult your stockbroker, bank manager, solicitor, accountant or other independent financial adviser. Shares are offered on the basis of the information contained in and the documents referred to in the Prospectus and the relevant Key Investor Information Document ('KIID' or 'KIIDs'). No person is authorised to give any information or to make any representations concerning the Fund other than as contained in the Prospectus and the KIID. Any purchase made by any person on the basis of statements or representations not contained in or inconsistent with the information and representations contained in the Prospectus and the KIID will be solely at the risk of the purchaser. The information provided in the Prospectus does not constitute investment advice.

The Fund is registered under Part I of the Luxembourg law of 17 December 2010. This registration does not require any Luxembourg authority to approve or disapprove either the adequacy or accuracy of the Prospectus or the portfolio of securities held by the Fund. Any representation to the contrary is unauthorised and unlawful. The Fund complies with the substance requirements as provided by Article 27 of the Luxembourg law of 17 December 2010.

The Fund qualifies as an undertaking for collective investment in transferable securities ('UCITS') and has obtained recognition under the Directive 2009/65/EC of the European Parliament and of the Council for marketing in certain Member States of the EU.

The Board has taken all reasonable care to ensure that the facts stated in the Prospectus are true and accurate in all material respects at the date hereof and that there are no other material facts the omission of which makes any statement of fact or opinion in the Prospectus misleading. The Directors accept responsibility accordingly. The Board has approved the full English version of the Prospectus. The Prospectus may be translated into other languages. Where the Prospectus is translated into any other language, the translation shall be as close as possible to the English text and any material variations shall be in compliance with the requirements of the regulatory authorities in other jurisdictions.

The distribution of the Prospectus and the offering of the Shares may be restricted in certain jurisdictions. The Prospectus does not constitute an offer or solicitation in any jurisdiction where such offer or solicitation is or may be unlawful, where the person making the offer or solicitation is not authorised to make it or a person receiving the offer or solicitation may not lawfully receive it.

The information contained in the Prospectus is supplemented by the most recent KIID, annual report and accounts of the Fund and any subsequent semi-annual report and accounts, if available, copies of which can be obtained free of charge from the registered office of the Fund. Persons interested in purchasing Shares should inform themselves as to (a) the legal requirements within their own country for the purchase of Shares, (b) any foreign exchange restrictions which may be applicable, and (c) the income and other tax consequences of purchase, conversion and redemption of Shares.

Information for investors in certain countries is contained in the appendix to the Prospectus, which accompanies Parts I – V. Investors should note that the information contained in the Prospectus does not constitute tax advice and the Directors recommend that investors should seek their own professional advice as to the tax consequences before investing in Shares in the Fund.

Investors in the Fund acknowledge and agree that in relation to the relevant data protection regulation, any personal data regarding themselves collected in any form, either directly or indirectly, may be stored, changed or otherwise used by the Fund and its Management Company as data controllers.

The storage and use of this data are for the purpose of developing and processing the business relationship with investors. Data may be transmitted (i) to other companies within the FIL Group, all intermediaries and all other parties which intervene in the process of the business relationship or (ii) as otherwise required by applicable law or regulation (Luxembourg or foreign). Data may be available in jurisdictions other than where an application to invest in the Fund is made and it may be processed by FIL Group companies which may be based outside the EEA. The FIL Group has taken reasonable measures to ensure confidentiality of the data transmitted within each of the entities concerned.

The Fund draws the investors' attention to the fact that, subject to the provisions under Part III, 3.4 "Eligible Investors and Restriction on Ownership", any investor will only be able to fully exercise their investor's rights directly against the Fund, notably the right to participate in general meetings of the Shareholders, if the investor is registered himself and in his own name in the register of Shareholders of the Fund.

In case where an investor invests in the Fund through an intermediary investing in the Fund in its own name but on behalf of the investor, it may not always be possible for the investor to exercise certain Shareholder rights directly against the Fund. Investors are advised to take advice on their rights.

The Fund is not registered in the United States of America under the Investment Company Act of 1940. Shares have not been registered in the United States of America under the Securities Act of 1933. Shares may not be directly or indirectly offered or sold in the United States of America or any of its territories or possessions or areas subject to its jurisdiction or to or for the benefit of nationals or residents thereof, unless pursuant to an exemption from registration requirements available under US law, any applicable statute, rule or interpretation. US Persons (as this term is defined in Part III, 3.4 "Eligible Investors and Restriction on Ownership") are not eligible to invest in the Fund. Prospective investors shall be required to declare that they are not a US Person. The Fund is not registered in any provincial or territorial jurisdiction in Canada and the Shares have not been qualified for distribution in any Canadian jurisdiction under applicable securities laws. Shares made available under this offer may not be directly or indirectly offered or sold in any provincial or territorial jurisdiction in Canada or to or for the benefit of residents thereof. Prospective investors may be required to declare that they are not a Canadian resident and are not applying for Shares on behalf of any Canadian residents. If an investor becomes a Canadian resident after buying Shares of the Fund, this investor will not be able to buy any additional Shares.

### Market timing and excessive trading

**The Fund is designed and managed to support longer-term investment and active trading is discouraged. Short-term or excessive trading into and out of the Fund may harm performance by disrupting portfolio management strategies and by increasing expenses. In accordance with general FIL Group policy and practice and CSSF circular 04/146, the Fund and the Distributors are committed not to permit transactions which they know to be or have reasons to believe to be related to market timing. Accordingly, the Fund and the Distributors may refuse to accept applications for or switching of Shares, especially where transactions are deemed disruptive, particularly from market timers or investors who, in the Fund's or any of the Distributors' opinion, have a pattern of short-term or excessive trading or whose trading has been or may be disruptive to the Fund. For these purposes, the Fund and the Distributors may consider an investor's trading history in a fund or other FIL Group UCIs and accounts under common ownership or control.**

## DEFINITIONS

<b>Articles of Incorporation</b>	The articles of incorporation of the Fund, as they may be amended from time to time.
<b>AUD</b>	Australian Dollars.
<b>Board</b>	The board of Directors of the Fund.
<b>Business Day</b>	A day on which the banks in the relevant jurisdiction are normally open for business.
<b>CAD</b>	Canadian Dollars.
<b>CHF</b>	Swiss Francs.
<b>Class A Shares</b>	Class A distributing Shares.
<b>Class A (hedged) Shares</b>	Class A distributing hedged Shares.
<b>Class A-ACC Shares</b>	Class A accumulating Shares.
<b>Class A-ACC (hedged) Shares</b>	Class A accumulating hedged Shares.
<b>Class A-ACC ( [currency pairing] hedged) Shares</b>	Class A accumulating hedged Shares.
<b>Class A-GDIST Shares</b>	Class A distributing gross income Shares.
<b>Class A-GDIST (hedged) Shares</b>	Class A distributing gross income hedged Shares.
<b>Class A-GMDIST (hedged)</b>	Class A monthly distributing gross income hedged Shares.
<b>Class A-HMDIST (hedged) Shares</b>	Class A monthly distributing hedged Shares.
<b>Class A-HMDIST(G) (hedged) Shares</b>	Class A monthly distributing gross income hedged Shares.
<b>Class A- HMDIST(G) ( [currency pairing] hedged) Shares</b>	Class A monthly distributing gross income hedged Shares.
<b>Class A-MDIST Shares</b>	Class A monthly distributing Shares.
<b>Class A-MCDIST(G) Shares</b>	Class A monthly gross income and capital distributing Shares.
<b>Class A-MDIST (hedged) Shares</b>	Class A monthly distributing hedged Shares.
<b>Class A-MINCOME Shares</b>	Class A monthly income Shares.
<b>Class A-MINCOME (hedged) Shares</b>	Class A monthly income hedged Shares.
<b>Class A-MINCOME(G) Shares</b>	Class A monthly gross income Shares.
<b>Class A-MINCOME(G) (hedged) Shares</b>	Class A monthly gross income hedged Shares.
<b>Class A-MINCOME(G) ( [currency pairing] hedged) Shares</b>	Class A monthly income hedged Shares.
<b>Class A-QINCOME Shares</b>	Class A quarterly income Shares.
<b>Class A-QINCOME (hedged) Shares</b>	Class A quarterly income hedged Shares.
<b>Class A-QINCOME(G) Shares</b>	Class A quarterly gross income Shares.
<b>Class A-QINCOME(G) (hedged) Shares</b>	Class A quarterly gross income hedged Shares.
<b>Class C Shares</b>	Class C distributing Shares.
<b>Class D Shares</b>	Class D distributing Shares.

<b>Class D-ACC Shares</b>	Class D accumulating Shares.
<b>Class D-ACC (hedged) Shares</b>	Class D accumulating hedged Shares.
<b>Class D-MDIST Shares</b>	Class D monthly distributing Shares.
<b>Class D-MINCOME(G) Shares</b>	Class D monthly gross income Shares.
<b>Class D-MINCOME(G) (hedged) Shares</b>	Class D monthly gross income hedged Shares.
<b>Class D-QINCOME(G) Shares</b>	Class D quarterly gross income Shares.
<b>Class D-QINCOME(G) (hedged) Shares</b>	Class D quarterly gross income hedged Shares.
<b>Class D-ACC ( [currency pairing] hedged) Shares</b>	Class D accumulating hedged Shares.

<b>Class E-QINCOME(G) (hedged) Shares</b>	Class E quarterly gross income hedged Shares.
<b>Class I Shares</b>	Class I distributing Shares.
<b>Class I (hedged) Shares</b>	Class I distributing hedged Shares.
<b>Class I-ACC Shares</b>	Class I accumulating Shares.
<b>Class I-ACC (hedged) Shares</b>	Class I accumulating hedged Shares.
<b>Class I-ACC ( [currency pairing] hedged) Shares</b>	Class I accumulating hedged Shares.

<b>Class I ( [currency pairing] hedged) Shares</b>	Class I distributing hedged Shares.
<b>Class I-MDIST Shares</b>	Class I monthly distributing Shares.
<b>Class I-MDIST (hedged) Shares</b>	Class I monthly distributing hedged Shares.
<b>Class I-QDIST Shares</b>	Class I quarterly distributing Shares.
<b>Class I-QINCOME Shares</b>	Class I quarterly income Shares.
<b>Class I-QINCOME(G) Shares</b>	Class I quarterly gross income Shares.
<b>Class I-QINCOME(G) ( [currency pairing] hedged) Shares</b>	Class I quarterly gross income hedged Shares.
<b>Class J Shares</b>	Class J distributing Shares.
<b>Class J-MDIST Shares</b>	Class J monthly distributing Shares.
<b>Class P-ACC Shares</b>	Class P accumulating Shares.
<b>Class P-ACC (hedged) Shares</b>	Class P accumulating hedged Shares.
<b>Class S-ACC Shares</b>	Class I-ACC Shares characteristics apply.
<b>Class SR Shares</b>	Classes of Shares offered in Singapore for Central Provident Fund (CPF) investment only.
<b>Class W Shares</b>	Class Y distributing Shares characteristics apply.
<b>Class W (hedged) Shares</b>	Class Y hedged Shares characteristics apply.
<b>Class W-ACC Shares</b>	Class Y-ACC Shares characteristics apply.
<b>Class W-QINCOME (G) Shares</b>	Class Y quarterly gross income Shares.
<b>Class Y Shares</b>	Class Y distributing Shares.
<b>Class Y (hedged) Shares</b>	Class Y distributing hedged Shares.
<b>Class Y ( [currency pairing] hedged) Shares</b>	Class Y distributing hedged Shares.
<b>Class Y-ACC Shares</b>	Class Y accumulating Shares.
<b>Class Y-ACC (hedged) Shares</b>	Class Y accumulating hedged Shares.
<b>Class Y-ACC ( [currency pairing] hedged) Shares</b>	Class Y accumulating hedged Shares.
<b>Class Y-MDIST Shares</b>	Class Y monthly distributing Shares.
<b>Class Y-MDIST (hedged) Shares</b>	Class Y monthly distributing hedged Shares.
<b>Class Y-MINCOME Shares</b>	Class Y monthly income Shares.
<b>Class Y-MINCOME (hedged) Shares</b>	Class Y monthly income hedged Shares.
<b>Class Y-MINCOME(G) Shares</b>	Class Y monthly gross income Shares.
<b>Class Y-MINCOME(G) (hedged) Shares</b>	Class Y monthly gross income hedged Shares.
<b>Class Y-QDIST Shares</b>	Class Y quarterly distributing Shares.
<b>Class Y-QDIST (hedged) Shares</b>	Class Y quarterly distributing hedged Shares.
<b>Class Y-QINCOME Shares</b>	Class Y quarterly income Shares.

<b>Class Y-QINCOME (hedged) Shares</b>	Class Y quarterly income hedged Shares.
<b>Class Y-QINCOME(G) Shares</b>	Class Y quarterly gross income Shares.
<b>Class Y-QINCOME(G) (hedged) Shares</b>	Class Y quarterly gross income hedged Shares.
<b>Connected Person</b>	<p>'Connected Person' of any investment adviser, investment manager, depository or any Distributor means:</p> <ul style="list-style-type: none"> <li>a) any person beneficially owning, directly or indirectly, 20% or more of the ordinary share capital of that company or able to exercise, directly or indirectly, 20% or more of the total votes in that company;</li> <li>b) any person controlled by a person who meets one or both of the requirements set out in a) above;</li> <li>c) any company 20% or more of whose ordinary share capital is beneficially owned, directly or indirectly, by any investment adviser, investment manager or Share Distributor taken together; and any company 20% or more of the total votes in which can be exercised, directly or indirectly by such investment adviser, investment manager or Share Distributor taken together; and</li> <li>d) any director or officer of any investment adviser or investment manager or Share Distributor or of any Connected Person of that company, as defined in a), b) or c) above.</li> </ul>
<b>Director</b>	Any member of the Board.
<b>Distributor</b>	One of the FIL Group companies named in the Prospectus through which Shares in the Fund may be bought, sold or switched.
<b>Efficient Portfolio Management</b>	<p>Reference to Efficient Portfolio Management throughout this Prospectus shall mean reference to techniques and instruments which fulfil the following criteria:</p> <ul style="list-style-type: none"> <li>a) they are economically appropriate in that they are realised in a cost-effective way;</li> <li>b) they are entered into for one or more of the following specific aims; <ul style="list-style-type: none"> <li>I. reduction of risk;</li> <li>II. reduction of cost;</li> <li>III. generation of additional capital or income for the funds with a level of risk which is consistent with the risk profile of the funds and the risk diversification rules laid down in Part V. (5.1, A. III);</li> </ul> </li> <li>c) their risks are adequately captured by the risk management process of the Fund.</li> </ul>
<b>Eligible Market</b>	A Regulated Market in an Eligible State.
<b>Eligible State</b>	Any Member State of the EU or any other state in Eastern and Western Europe, Asia, Africa, Australia, North and South America and Oceania.
<b>Euro/EUR</b>	The European currency unit.
<b>FATF State</b>	Any state having joined the Financial Action Task Force.
<b>FIL Group</b>	FIL Limited and its respective affiliated companies.
<b>Financial Institution</b>	A Custodian Institution, a Depository Institution, an Investment Entity or a Specified Insurance Company as specified in the IGA between Luxembourg and the United States of America to implement FATCA dated 28 March 2014.
<b>Fund</b>	Fidelity Funds.
<b>fund</b>	A specific portfolio of assets and liabilities within the Fund managed in accordance with the investment policy specified for the Share class or classes connected with that fund.
<b>G20</b>	The informal group of twenty finance ministers and central bank governors from twenty major economies: Argentina, Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Italy, Japan, Mexico, Russia, Saudi Arabia, South Africa, South Korea, Turkey, United Kingdom, USA and the European Union.
<b>HKD</b>	Hong Kong Dollar.
<b>JPY</b>	Japanese Yen.
<b>Law of 2010</b>	The Luxembourg law of 17 December 2010 relating to undertakings for collective investment, as it may be amended from time to time.

<b>Management Company</b>	FIL Investment Management (Luxembourg) S.A., a <i>société anonyme</i> with its registered office at 2a Rue Albert Borschette, BP 2174, L-1021 Luxembourg, which has been appointed by the Fund as Management Company to provide investment management, administration and marketing functions to the Fund with the possibility to delegate part or all of such functions to third parties.  The Management Company is also acting as Registrar, Transfer Agent, Administrative Service Agent and Domiciliary Agent of the Fund.
<b>Member State</b>	Any member state of the EU as well as Iceland, Liechtenstein and Norway.
<b>Member State of the EU</b>	Any member state of the European Union.
<b>Money Market Instruments</b>	Instruments normally dealt in on a money market (having a residual maturity or regular yield adjustment of 397 days or less or having a risk profile corresponding to this), which are liquid, and have a value which can be accurately determined at any time.
<b>Net Asset Value</b>	As the case may be the value of the assets less liabilities of the Fund, of a fund, of a class of Shares or of a Share in a fund determined in accordance with the principles set out in the Prospectus.
<b>NOK</b>	Norwegian Krone.
<b>NZD</b>	New Zealand Dollar.
<b>OECD</b>	Organisation for Economic Co-operation and Development.
<b>open for business</b>	The Distributors and the Fund will be open at least every Business Day in the relevant jurisdiction. The Distributors may be open on other days as determined by them. Please note that for Institutional Reserved funds the Distributors will not be open for business on UK bank holidays.
<b>PLN</b>	Polish Zloty.
<b>primarily</b>	Each time this word is used in the description of a fund or a class of Shares or a type of fund or class of Shares of the Fund, this means that at least 70% of the assets of the relevant fund are directly or indirectly invested in the currency, the country, the type of security or other material element set out in the name of the fund, the fund's investment objective and the investment policy of the relevant fund's range.
<b>Principal Dealing Currency</b>	For some funds, separate classes of Shares are issued, whose Net Asset Value will be calculated, and which will be priced in the dealing currency of the share class specified under "Share Class Name" in Appendix II.
<b>principally</b>	Each time this word is used in the description of a fund or a class of Shares or a type of fund or class of Shares of the Fund, this means that at least 70% (and normally 75%) of the assets of the relevant fund are directly, or indirectly invested in the currency, the country, the type of security or other material element set out in the name of the fund, the fund's investment objective and the investment policy of the relevant fund's range.
<b>Reference Currency</b>	The currency used for reporting purposes.
<b>Regulated Market</b>	A market within the meaning of directive 2004/39/EC of 21 April 2004 on markets in financial instruments and any other market which is regulated, operates regularly and is recognised and open to the public. For the avoidance of any doubt this shall include the US OTC Bond Market, the Moscow Exchange, the Shanghai Stock Exchange, the Shenzhen Stock Exchange as well as the mainland China interbank bond market.
<b>Regulation of 2008</b>	Grand-ducal regulation of 8 February 2008.
<b>REITs</b>	A Real Estate Investment Trust or REIT is an entity that is dedicated to owning, and in most cases, managing real estate. This may include, but is not limited to, real estate in the residential (apartments), commercial (shopping centres, offices) and industrial (factories, warehouses) sectors. Certain REITs may also engage in real estate financing transactions and other real estate development activities. The legal structure of a REIT, its investment restrictions and the regulatory and taxation regimes to which it is subject will differ depending on the jurisdiction in which it is established. Investment in REITs will be allowed if they qualify as (i) UCITS or other UCIs or (ii) transferable securities. A closed-ended REIT, the units of which are listed on a Regulated Market is classified as a transferable security listed on a Regulated Market thereby qualifying as an eligible investment for a UCITS under the Luxembourg Law.
<b>RMB/CNY/CNH</b>	RMB is a colloquial reference to the Chinese Renminbi, which is also known internationally as the Chinese Yuan ("CNY"). Whilst the CNY is traded both onshore in China and offshore (primarily in Hong Kong), it is the same currency although currently traded at different rates. The offshore rate for trading CNY is generally referred to as 'CNH'. The CNH rate will be used when determining the value of the Shares of a fund, as well as for hedging purposes.
<b>SEK</b>	Swedish Krona.
<b>SGD</b>	Singapore Dollar.

<b>Share</b>	A class of share of any one fund in the capital of the Fund or a share in any such class.
<b>Shareholder</b>	A holder of Shares.
<b>Sterling/GBP</b>	United Kingdom Pounds Sterling.
<b>Supervisory Officers</b>	Any person ('dirigeant') who conducts the daily business of the Management Company.
<b>Transferable Securities</b>	Shall mean: <ul style="list-style-type: none"> <li>– shares and other securities equivalent to shares,</li> <li>– bonds and other debt instruments,</li> <li>– any other negotiable securities which carry the right to acquire any such transferable securities by subscription or exchange,</li> </ul> excluding techniques and instruments relating to transferable securities and money market instruments.
<b>UCI (or other UCI)</b>	An undertaking for collective investment within the meaning of Article 1, paragraph (2), points a) and b) of Directive 2009/65/EC, as amended.
<b>UCITS</b>	An undertaking for collective investment in Transferable Securities authorised pursuant to Directive 2009/65/EC, as amended.
<b>US Dollar/USD</b>	United States Dollars.
<b>Valuation Date</b>	Each week day (any day Monday to Friday inclusive) excluding 25 December ('Christmas Day') and 1 January ('New Year's Day').
<b>VaR</b>	Value at Risk provides a measure of the potential loss that could arise over a given time interval under normal market conditions and at a given confidence level. For the funds which apply a VaR approach to calculate their global exposure, this is measured at a 99% confidence level and based on a time horizon of one month.

## DERIVATIVES GLOSSARY OF TERMS

Term	Description												
<b>Bond futures</b>	Bond futures are contractual obligations for the contract holder to purchase or sell a bond on a specified date at a predetermined price. A bond future can be bought in a futures exchange market and the prices and dates are determined at the time the future is purchased.												
<b>Commitment approach</b>	One of two standard recognised methodologies to estimate a fund's exposure to market risk. Under the commitment approach the global exposure relating to derivative instruments is the sum of the notional values of all securities as well as derivatives instruments expressed as a percentage of the total net asset value and limited to 100%. A value in excess of 100% could indicate a degree of leverage, i.e. that a given percentage change in market valuations might have a higher percentage impact on the fund.												
<b>Contracts for difference ("CFD")</b>	A contract for differences is a contract between two parties, typically described as "buyer" and "seller", stipulating that the seller will pay to the buyer the difference between the current value of an asset and its value at contract time (if the difference is negative, then the buyer pays instead to the seller). It allows investors to gain exposure to underlying assets which they may not be entitled to purchase directly, but also provides exposure to the price change without exposure to the related currency risk. Unlike futures contracts (which are settled through a clearing firm), contracts for difference are privately negotiated between two parties and are not standardised.												
<b>Credit default swap ("CDS")</b>	A credit default swap is a financial contract whereby a buyer of corporate or sovereign debt in the form of bonds attempts to eliminate possible loss arising from default by the issuer of the bonds. This is achieved by the issuer of the bonds insuring the buyer's potential losses as part of the agreement.												
<b>Forward Contracts</b>	A forward contract is a customized contract between two parties to buy or sell an asset at a specified price on a future date. A forward contract can be used for hedging or speculation, although its non-standardized nature makes it particularly suitable for hedging. Unlike standard futures contracts, a forward contract can be customized to any financial asset, amount and delivery date.												
<b>Futures</b>	<p>Fundamentally, forward and futures contracts have the same function in that both types of contracts allow investors to buy or sell a specific type of asset at a specific time at a given price. However, it is in the specific details that these contracts differ, including the following:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">Futures</th> <th style="text-align: left;">Forwards</th> </tr> </thead> <tbody> <tr> <td>Exchange traded</td> <td>Private agreements</td> </tr> <tr> <td>Standardised</td> <td>Non-standardised</td> </tr> <tr> <td>Clearing houses guarantee the transactions, which drastically lowers the probability of default</td> <td>Greater chance of default</td> </tr> <tr> <td>Contracts are marked-to-market daily, which means daily changes are settled day-by-day until the end of the contract</td> <td>Settlement of the contract occurs at the end of the contract</td> </tr> <tr> <td>Settlement can occur over a range of dates</td> <td>Only one settlement date</td> </tr> </tbody> </table>	Futures	Forwards	Exchange traded	Private agreements	Standardised	Non-standardised	Clearing houses guarantee the transactions, which drastically lowers the probability of default	Greater chance of default	Contracts are marked-to-market daily, which means daily changes are settled day-by-day until the end of the contract	Settlement of the contract occurs at the end of the contract	Settlement can occur over a range of dates	Only one settlement date
Futures	Forwards												
Exchange traded	Private agreements												
Standardised	Non-standardised												
Clearing houses guarantee the transactions, which drastically lowers the probability of default	Greater chance of default												
Contracts are marked-to-market daily, which means daily changes are settled day-by-day until the end of the contract	Settlement of the contract occurs at the end of the contract												
Settlement can occur over a range of dates	Only one settlement date												
<b>Inflation swaps</b>	An inflation swap is a derivative used to transfer inflation risk from one party to another through an exchange of cash flows. In an inflation swap, one party pays a fixed rate on a notional principal amount, while the other party pays a floating rate linked to an inflation index, such as the Consumer Price Index ("CPI"). The party paying the floating rate pays the inflation-adjusted rate multiplied by the notional principal amount. For example, one party may pay a fixed rate of 3% on a two year inflation swap, and in return receive the actual inflation.												
<b>Interest rate futures</b>	An interest rate future is a contract between the buyer and seller agreeing to the future delivery of any interest-bearing asset. The interest rate future allows the buyer and seller to lock in the price of the interest-bearing asset for a future date.												
<b>Interest rate swaps</b>	An interest rate swap is a liquid financial derivative instrument in which two parties agree to exchange interest rate cash flows, based on a specified notional principal amount from a fixed rate to a floating rate (or vice versa) or from one floating rate to another.												
<b>Non-deliverable forwards</b>	A non-deliverable forward is a forward contract (cf. above) in which counterparties agree not to exchange an asset for the previously agreed price, but only the difference between the previously agreed price and the current market price at the time of maturity of the contract. It is used in various markets such as foreign exchange and commodities. Non-deliverable forwards are commonly used for currencies which cannot be readily exchanged for other currencies due to capital controls.												

<b>Notional principal amount</b>	The notional amount (or notional principal amount or notional value) on a financial instrument is the nominal or face value that is used to calculate payments made on that instrument.
<b>Put/call options</b>	A put option is an option contract giving the owner the right, but not the obligation, to sell a specified amount of an underlying security at a specified price within a specified time. This is the opposite of a call option, which gives the holder the right, but not the obligation, to buy a specified amount of an underlying security at a specified price within a specified time.
<b>Swaps</b>	A swap is a derivative in which two counterparties exchange cash flows of one party's financial instrument for those of the other party's financial instrument. Specifically, two counterparties agree to exchange one stream of cash flows against another stream. These streams are called the 'legs' of the swap. The swap agreement defines the dates when the cash flows are to be paid and the way they are accrued and calculated. Usually at the time when the contract is initiated, at least one of these series of cash flows is determined by an uncertain variable such as a floating interest rate, foreign exchange rate, equity price, or commodity price. Swaps are not traded on an exchange but over the counter.
<b>Swaptions</b>	Swaption is an option on a swap (cf. above). A payer swaption gives the owner of the swaption the right to enter into a swap where they pay the fixed 'leg' and receive the floating 'leg'. A receiver swaption gives the owner of the swaption the right to enter into a swap in which they will receive the fixed 'leg', and pay the floating 'leg'.
<b>Total return swaps</b>	A total return swap is a swap agreement in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains. In total return swaps, the underlying asset, referred to as the reference asset, is usually an equity index, loans, or bonds. This is owned by the party receiving the set rate payment. Total return swaps allow the party receiving the total return to gain exposure and benefit from a reference asset without actually having to own it.
<b>Value-at-Risk ("VaR")</b>	Value-at-risk is a statistical measure to estimate the size of rare potential loss events for a given time horizon and confidence level. Typical values for the confidence level are 95% and 99%. A higher confidence level results in a higher potential loss event.
<b>Value-at-Risk approach (VaR approach)</b>	The other standard recognised methodology to estimate a fund's exposure to market risk. The VaR approach applies VaR calculations (cf. above) to a fund and – if applicable – to a reference portfolio. The VaR of the fund is then either compared to an absolute limit – expected – loss events are controlled or the size of the potential loss events for the fund can be compared to those of a reference portfolio as a ratio. A value in excess of 100% could indicate a degree of leverage, i.e. that a given percentage change in market valuations might have a higher percentage impact on the fund.
<b>Warrants</b>	A warrant is a contract that confers the right, but not the obligation, to buy or sell a security – normally an equity – at a certain price before expiration. The price at which the underlying security can be bought or sold is referred to as the exercise price or strike price. As opposed to a call option, a warrant is issued by the company who also issues the underlying stock.

# PART I

## 1. FUND INFORMATION

### 1.1. The Fund

The Fund is an open-ended investment company established in Luxembourg as a SICAV (*société d'investissement à capital variable*). Its assets are held in different funds. Each fund is a separate portfolio of securities and other assets managed in accordance with specific investment objectives. Separate classes of Shares are or may be issued in relation to the funds.

The Fund was incorporated in Luxembourg on 15 June 1990. Its Articles of Incorporation (as amended from time to time) are kept at the Registre de Commerce et des Sociétés of Luxembourg under the number B34036. This document may be inspected and copies may be obtained from there against payment of the Registre de Commerce et des Sociétés' fees. The Articles of Incorporation may be amended by the Shareholders in accordance with Luxembourg law. The Articles of Incorporation were published in the Mémorial on 21 August 1990. The most recent amendment to the Articles of Incorporation dated 19 November 2012 was published in the Mémorial on 28 December 2012. Shareholders are bound by the Articles of Incorporation of the Fund and any amendments to them.

For out-of-court complaints and redress mechanism please contact the appointed Compliance Officer, FIL Investment Management (Luxembourg) S.A., 2a, Rue Albert Borschette, BP 2174, L-1021 Luxembourg. No investor compensation scheme is in place for the Fund.

The capital of the Fund is equal to the Net Asset Value.

Under Luxembourg law the Fund is authorised to issue an unlimited number of Shares, all of which are without par value. Each Share when issued is fully paid and non-assessable. No Shares have preference, pre-emption or exchange rights (other than rights of switches between funds or classes of Shares).

All the Shares in one fund have equal rights and privileges. Each Share in a fund is entitled to participate equally in any dividends or other distributions declared on the Shares in that fund, as well as in the event of a termination of that fund or the liquidation of the Fund, in the liquidation proceeds of that fund. Each full Share is entitled to one vote at any meeting of Shareholders of the Fund, a fund or a class.

The Fund has issued no options or any special rights relating to any Shares.

The Board generally has the power to restrict the issues of Shares pursuant to Article 7 of the Articles of Incorporation as well as under the anti-market timing provisions further described under Important Notice (above) to any person who is not an Eligible Investor (as defined in Part III, 3.4. "Eligible Investors and Restriction on Ownership" of the Prospectus). Information as to the funds and classes of Shares which at a given time are not offered to investors is available at the registered office of the Fund and the Management Company and at the offices of the Distributors.

Share classes of the funds may be listed on the Luxembourg Stock Exchange. However, Shares in the Reserved Fund range and the Institutional Reserved Funds range (each as described in more detail later in the Prospectus) are not presently listed. The Board may decide to list these funds or classes in the future. Other stock exchange listings may be sought from time to time as considered appropriate by the Board. Further information on the stock exchange listings may be obtained from the Management Company upon request.

The following documents are available for inspection free of charge during normal business hours on any Business Day at the registered office of the Fund and the Management Company. These documents, together with a translation of the Luxembourg law of 17 December 2010, may also be inspected, free of charge, at the offices of the Distributors and of the Management Company:

- Articles of Incorporation of the Fund
- Management Company Services Agreement
- Depositary Agreement
- Distributors' Agreements
- Investment Management Agreement
- Services Agreement
- Paying Agency Agreement
- Hong Kong Representative's Agreement
- KIIDs
- Financial Reports

The Articles of Incorporation (as amended from time to time) may also be inspected at the offices of the local representatives of the Fund. Shareholders are bound by the Articles of Incorporation of the Fund and any amendments to them.

Copies of the Prospectus, the KIIDs and the latest financial reports of the Fund may be obtained, free of charge, upon request from the registered office of the Fund and the Management Company and the offices of the Distributors and of the local representatives of the Fund.

Additional information is made available by the Fund at its registered office, upon request, in accordance with the provisions of Luxembourg laws and regulations. This additional information includes the procedures relating to complaints handling, the strategy followed for the exercise of voting rights of the Fund, the policy for placing orders to deal on behalf of the Fund with other entities, the best execution policy as well as the arrangements relating to the fee, commission or non-monetary benefit in relation with the investment management and administration of the Fund.

The competent supervisory authority in the Fund's home state is the Commission de Surveillance du Secteur Financier (CSSF), 283, route d'Arlon, L-2991 Luxembourg.

## II. GENERAL RISKS THAT APPLY TO ALL FUNDS

The following statements are intended to inform investors of the uncertainties and risks associated with investments and transactions in transferable securities and other financial instruments. Although care is taken to understand and manage these risks, the respective funds and accordingly the Shareholders in the respective funds will ultimately bear the risks associated with the investments of the relevant funds.

### Risk associated with Foreign Account Tax Compliance Act ('FATCA')

The Fund intends to fully comply with the legislation and the obligations imposed on it by FATCA and meet its obligation under the inter-governmental agreement ("IGA") with the US. However, no assurance can be given that the Fund will be able to fully achieve this and avoid being subject to US withholding taxes. In the event that Luxembourg as a country is deemed to not meet its obligations, or if the Fund as a Luxembourg financial institution is deemed by both the Luxembourg and US government to not be meeting its obligations in the future, the Fund may become subject to additional US withholding taxes, which could materially impact income returns from certain US source securities. In addition Shareholders may suffer material loss in certain funds where US withholding tax is imposed on the capital value of US source securities. Investors should consult their legal, tax and financial advisers to determine their status under the FATCA regime before making any decision to invest in any fund.

### Historical Performance

Past performance information relating to each fund is set out in the KIID. Past performance should not be seen as an indication of how a fund will perform in the future and cannot in any way provide a guarantee of future returns.

### Fluctuations in Value

The investments of the Fund are subject to market fluctuations and other risks inherent in investing in securities and other financial instruments. There can be no assurance that any appreciation in value of investments will occur, and the capital value of your original investment is not guaranteed. The value of investments and the income from them may go down as well as up, and you may not get back the original amount invested. There is no assurance that the investment objective of each fund will actually be achieved.

### Termination of Funds and Classes of Shares

In the event of the termination of a fund or a class of Shares, the assets of the fund or the class will be realised, the liabilities discharged and the net proceeds of realisation distributed to Shareholders in proportion to their holding of Shares in that fund or class. It is possible that at the time of such realisation or distribution, certain investments held by the fund or class of Shares may be worth less than the initial cost of such investments, resulting in a loss to the Shareholders. All normal operating expenses incurred up to the point of termination will be borne by the fund or the class. There are no unamortised organisational expenses with regard to the Fund, a fund or a class.

### Legal and Tax Risks

In some jurisdictions the interpretation and implementation of laws and regulations and the enforcement of shareholders' rights under such laws and regulations may involve significant uncertainties. Further, there may be differences between accounting and auditing standards, reporting practices and disclosure requirements and those generally accepted internationally. Some of the funds may be subject to withholding and other taxes. Tax law and regulations of any country are constantly changing, and they may be changed with retrospective effect. The interpretation and applicability of the tax law and regulations by tax authorities in some jurisdictions are not as consistent and transparent as those of more developed nations, and may vary from region to region.

**Investors should be aware that foreign exchange inflows and outflows for the Brazilian market are subject to IOF tax (Tax on Financial Operations) as detailed in the Brazilian Presidential Decree no. 6.306/10 and as amended from time to time. The application of the IOF tax will reduce the Net Asset Value per Share.**

### Foreign Currency Risk

A fund's total return and balance sheet can be significantly affected by foreign exchange rate movements if the fund's assets and income are denominated in currencies other than the base currency of the fund and this means that currency movements may significantly affect the value of a fund's Share price. The three principal areas of foreign currency risk are where movements in exchange rates affect the value of investments, short term timing differences or income received. A fund may, or may not, hedge these risks using either spot or forward foreign exchange contracts and the associated risks are explained below in the section on Financial Derivative Instruments.

Investors should be aware of the fact that the Chinese Renminbi (RMB) is subject to a managed floating exchange rate based on market supply and demand with reference to a basket of currencies. Currently, the RMB is traded in two markets: one in Mainland China, (onshore RMB, or CNY), and one outside Mainland China (primarily in Hong Kong offshore RMB, or CNH). Although CNH and CNY are the same currency, they trade at different rates, and any divergence between CNH and CNY may adversely impact investors. Onshore RMB is not freely convertible and is subject to exchange controls and certain requirements by the government of Mainland China, whereas the offshore RMB traded outside Mainland China is freely tradable. Whilst the RMB is traded freely outside Mainland China, the RMB spot, forward foreign exchange contracts and related instruments reflect the structural complexities of this evolving market. There is no guarantee that the value of RMB against the investors' base currencies will not depreciate. Any depreciation of RMB could adversely affect the value of an investor's investment in the fund. Accordingly, the funds may be exposed to greater foreign exchange risks. Under exceptional circumstances, payment of redemptions and/or dividend payment in RMB may be delayed due to the exchange controls and restrictions applicable to RMB.

In addition, there may be liquidity risks associated with RMB products, especially if such investments do not have an active secondary market and their prices are subject to significant bid and offer spread. The Investment Manager will

nevertheless seek to invest the assets of the funds in such a manner which will enable them to meet their obligations to redeem their Shares.

### **Liquidity Risk**

In normal market conditions the Fund's assets comprise mainly realisable investments which can be readily sold. A fund's main liability is the redemption of any shares that investors wish to sell. In general the Fund manages its investments, including cash, such that it can meet its liabilities. Investments held may need to be sold if insufficient cash is available to finance such redemptions. If the size of the disposals are sufficiently large, or the market is illiquid, then there is a risk that either the investments might not be sold or the price at which they are sold may adversely affect the Net Asset Value of the fund.

### **Pricing and Valuation Risk**

The Fund's assets comprise mainly quoted investments where a valuation price can be obtained from an exchange or similarly verifiable source. However, the Fund will also invest in unquoted and/or illiquid investments which will increase the risk of mispricing. Further, the Fund will compute Net Asset Values when some markets are closed for holidays or other reasons. In these and similar cases an objective verifiable source of market prices will not be available and the Investment Manager will invoke its Fair Value process which will determine a fair value price for the relevant investments; this Fair Value process involves assumptions and subjectivity.

### **Counterparty Credit & Settlement Risk**

Any fund may enter into transactions directly with counterparties that have been approved by the Investment Manager, which will expose the fund to the credit of those counterparties and their ability to satisfy the terms of such contracts. Such transactions generally do not benefit from protections afforded to exchange-traded transactions which include being backed by clearing organisation guarantees, daily marking-to-market and settlement, and segregation and minimum capital requirements applicable to intermediaries. In the event of a bankruptcy or insolvency of a counterparty the fund could experience delays in liquidating the position and losses, including declines in the value of its investment during the period in which the fund seeks to enforce its rights, inability to realise any gains on its investment during such period and fees and expenses incurred in enforcing its rights. There is also a possibility that the agreements with counterparties are terminated due, for instance, to supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated. However, the above risks are limited in view of the counterparty risk management framework adopted by the Investment Manager and the Investment Restrictions laid down in this Prospectus. Counterparty risk is naturally accentuated for contracts with longer maturities, or where the fund has concentrated its transactions with a single or small group of counterparties. The Fund is not restricted from dealing with any particular counterparty or the number of counterparties with which it transacts.

### **Securities Lending**

Securities Lending involves risks in that (a) if the borrower of securities lent by a fund fails to return them there is a risk that the collateral received may realise less than the value of the securities lent out, whether due to inaccurate pricing, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded and that (b) in case of reinvestment of cash collateral such reinvestment may (i) create leverage with corresponding risks and risk of losses and volatility, (ii) introduce market exposures inconsistent with the investment objective of the fund, or (iii) yield a sum less than the amount of collateral to be returned and that (c) delays in the return of securities on loans may restrict the ability of a fund to meet delivery obligations under security sales.

### **Investment Horizon Risk**

The selection of investments for the fund is undertaken according to the fund's investment objectives and may not closely align with investors' investment horizon. If investors do not accurately select a fund that closely aligns with their investment horizon, there may be a risk of potential mismatch between the investors' investment horizon and the fund's investment horizon.

### **Cross Share Class Liabilities**

Although assets and liabilities are clearly attributable to each class of Shares, there is no legal segregation between classes of Shares within a fund. This means that if the liabilities of a class of Shares exceed its assets, creditors of such class may have recourse without restriction to assets which are attributable to the other classes of Shares within the same fund. Hence, Shareholders should note that specific transactions (e.g. currency hedging or interest rate duration management) may be entered into for the benefit of a particular class of Shares but result in liabilities for the other classes of Shares within the same fund.

### **Operational risk**

The Fund's operations (including investment management) are carried out by the service providers mentioned in this Prospectus. In the event of a bankruptcy or insolvency of a service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of Shares) or other disruptions.

### **Custody risk**

The Fund's assets are safe kept by a depositary, this exposes the Fund to the risk of loss of assets placed in custody as a result of insolvency, negligence or fraudulent trading by the depositary bank. The depositary bank does not keep all the assets of the Fund itself but uses a network of third-party delegates. Investors are also exposed to the risk of bankruptcy of the third-party delegates.

A Fund may invest in markets where custodial and/or settlement systems are not fully developed.

### III. EQUITY RELATED RISKS

#### Equities

For funds which invest in stocks, the value of those stocks may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events. Currency exchange rate movements will also cause changes in value when the currency of the investment is other than the base currency of the fund holding that investment.

### IV. FIXED INCOME RELATED RISKS

#### Bonds, Debt Instruments & Fixed Income (including High Yielding Securities)

For funds which invest in bonds or other debt instruments, the value of those investments will depend on market interest rates, the credit quality of the issuer and liquidity considerations. The Net Asset Value of a fund invested in debt instruments will change in response to fluctuations in interest rates, perceived credit quality of the issuer, market liquidity and also currency exchange rates (when the currency of the investment is other than the base currency of the fund holding that investment). Some funds may invest in high yielding debt instruments where the level of income may be relatively high (compared to investment grade debt instruments); however the risk of depreciation and realisation of capital losses on such debt instruments held will be significantly higher than on lower yielding debt instruments.

#### Cash Funds

An investment in the Cash funds is neither insured nor guaranteed by any government, government agencies or government-sponsored agencies or any bank guarantee fund. Shares in the Cash funds are not deposits or obligations of, or guaranteed or endorsed by, any bank and the amount invested in Shares may fluctuate up and/or down. Although the Fund seeks to maintain capital value and liquidity whilst producing a return in line with money market rates to the investor, the Cash funds do not guarantee a stable Net Asset Value. All investments are subject to credit and counterparty risk and provide limited potential for capital appreciation and generally lower income than investments in medium- or long-term instruments would. Furthermore, the performance of the Cash funds may be affected by changes in money market rates, economic and market conditions and in legal, regulatory and tax requirements. In a low interest rate environment or during adverse market conditions, the Cash funds may invest in negative yield instruments which may adversely impact the Net Asset Value of the fund.

#### Investment Grade Risk

Certain funds may invest in investment grade debt securities. Investment grade debt securities are assigned ratings within the top rating categories by rating agencies (Fitch, Moody's and/or Standard & Poor's) on the basis of the creditworthiness or risk of default of a bond issue. Generally, investment grade fixed income securities are assigned a rating of BBB-/Baa3 or higher from Standard & Poor's or equivalent rating from an internationally recognised rating agency. Investment grade debt securities, like other types of debt securities, involve credit risk and may be subject to ratings downgrades by the rating agencies in the period between their issuance and maturity. Such downgrades may occur during the period in which the fund invests in these securities and it may be difficult for the fund to dispose of the debt securities that are being downgraded. In the instance of one or more downgrades, below investment grade or otherwise, funds may continue to hold such securities.

#### Lower Rated/Unrated Securities

Certain funds may invest in lower-rated and unrated securities. The credit quality of debt instruments is often assessed by rating agencies. Medium rated, lower-rated securities and un-rated securities of comparable quality may be subject to wider fluctuations in yield, wider bid-offer spreads, greater liquidity premium and accentuated market expectations, and consequently greater fluctuations in market values, than higher-rated securities. Changes in such ratings, or expectation of changes, will be likely to cause changes in yield and market values, at times significantly so.

#### Credit Risk

Investments may be adversely affected if any of the institutions with which money is deposited suffers insolvency or other financial difficulties (default). Credit risk also arises from the uncertainty about the ultimate repayment of principal and interest bond or other debt instrument investments. In both cases the entire deposit or purchase price of the debt instrument is at risk of loss if there is no recovery after default. The risk of default is usually greatest with bonds and debt instruments that are classed as 'sub-investment' grade. As explained further below, under Financial Derivative Instruments, a credit default swap where a fund has sold protection will involve very similar credit risks to those arising from holding the actual underlying bond, debt instrument or basket of instruments.

#### Credit rating risk

Credit ratings assigned by rating agencies are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times.

#### Securitised or Structured Debt Instruments

Funds may invest in securitised or structured debt instruments (collectively referred to as structured products). Such instruments include asset-backed securities, mortgage-backed securities, collateralised debt instruments and collateralised loan obligations. Structured products provide exposure, synthetically or otherwise, to underlying assets and the risk/return profile is determined by the cash flows derived from such assets. Some of such products involve multiple instruments and cash flow profiles such that it is not possible to predict with certainty the outcome from all market scenarios. Also the price of such an investment could be contingent on, or highly sensitive to, changes in the underlying components of the structured instrument. The underlying assets

can take many forms including, but not limited to, credit card receivables, residential mortgages, corporate loans, manufactured housing loans or any type of receivables from a company or structured vehicle that has regular cash flows from its customers. Some structured products may employ leverage which can cause the price of the instruments to be more volatile than if they had not employed leverage. In addition investments in structured products may be less liquid than other securities. The lack of liquidity may cause the current market price of assets to become disconnected from the underlying assets' value and consequently funds investing in securitised products may be more susceptible to liquidity risk. The liquidity of a structured product can be less than a regular bond or debt instrument and this may adversely affect either the ability to sell the position or the price at which such a sale is transacted.

### Investing in loans

Funds may invest in fixed and floating rate loans from one or more financial institutions ("Lender(s)") to a borrower ("Borrower") by way of (i) assignment/transfer of or (ii) participation in the whole or part of the loan amount outstanding. These are typically high yielding investments where the level of income may be relatively high (compared to investment grade debt securities); however the risk of depreciation and realisation of capital losses on such investments will be significantly higher than on lower yielding debt instruments. Further they are often subject to a higher risk of issuer default. The vulnerability to economic cycles is also higher as during economic downturns, these investments are more volatile than investment grade bonds as investors become more risk averse and default risk rises. Borrower default risk is when a Borrower is unable to make interest or principal payments to holders of its loan. Liquidity risk is when an investment cannot be sold, or can only be sold at a depressed price because of insufficient demand. Whilst in normal market conditions loans can be readily sold, liquidity on the secondary market can become impaired. Subject to disclosure in the relevant investment policies, the funds will invest only in loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010. In both instances, assignments or participations, such loans must be capable of being freely traded and transferred between investors in the loans. Participations typically will result in the fund having a contractual relationship only with a Lender as grantor of the participation but not with the Borrower. The relevant fund acquires a participation interest only if the Lender(s) interpositioned between the fund and the Borrower is determined by the Investment Manager to be creditworthy. When purchasing loan participations, a fund assumes the economic risk associated with the corporate borrower and the credit risk associated with an interposed bank or other financial intermediary. Loan assignments typically involve a transfer of debt from a lender to a third party. When purchasing loan assignments, a fund assumes the credit risk associated with the corporate borrower only. Such loans may be secured or unsecured. Loans that are fully secured offer a fund more protection than an unsecured loan in the event of non-payment of scheduled interest or principal. However, there is no assurance that the liquidation of collateral from a secured loan would satisfy the corporate borrower's obligation. In addition, investments in loans through a direct assignment include the risk that if a loan is terminated, a fund could become part owner of any collateral, and would bear the costs and liabilities associated with owning and disposing of the collateral. Loan participations typically represent indirect participation in a loan to a corporate borrower, and generally are offered by banks or other financial institutions or lending syndicates. A loan is often administered by an agent bank acting as agent for all holders. Unless, under the terms of the loan or other indebtedness, a fund has direct recourse against the corporate borrower, the Fund may have to rely on the agent bank or other financial intermediary to apply appropriate credit remedies against a corporate borrower. The loan participations or assignments in which a fund intends to invest may not be rated by any internationally recognised rating service.

### Sovereign Debt Risk

Certain funds' investments in securities issued or guaranteed by governments may be exposed to political, social and economic risks. In adverse situations, the sovereign issuers may not be able or willing to repay the principal and / or interest when due or may request the fund to participate in restructuring such debts. The relevant funds may suffer significant losses when there is a default of sovereign debt issuers.

### Risks associated with investments in China fixed income instruments

Regarding investments by a fund in China fixed income securities, there may not be a liquid or active market for the trading of Renminbi-denominated bonds in e.g. the Shanghai and Shenzhen Stock Exchange. Therefore, such fund may be subject to the risk of not being able to sell its bonds on a timely basis, or will have to sell at a deep-discount to their face values. The security prices may fluctuate significantly. The fund's value, liquidity and volatility may be adversely affected. Also, markets on which offshore Renminbi debt instruments are traded may be less liquid and more volatile and this may result in the fluctuation in the price of securities traded on such markets. Certain securities may be difficult or impossible to sell, and this would affect a fund's ability to acquire or dispose of such securities at their intrinsic value.

Such fund is also exposed to the credit/insolvency risk of issuers of fixed income instruments and deposits that the fund may invest in. If the issuer of such debt instruments defaults, or such debt instruments cannot be realised, or perform badly, investors may suffer substantial losses. The fixed income instruments and deposits that the fund invests in are typically unsecured debt obligations and are not supported by any collateral. The fund will be fully exposed to the credit/insolvency risk of its counterparties as an unsecured creditor.

In the event of bankruptcy or insolvency of any of its counterparties, a fund may experience delays in liquidating its positions and may incur significant losses as a result of the inability to redeem its investments during the period in which the fund seeks to enforce its rights, and the fees and expenses incurred in enforcing its rights.

RMB debt and fixed income instruments that the fund invests in may be unrated or rated by Chinese local credit rating agencies. The rating criteria and methodology used by Chinese local rating agencies may be different from those adopted by most of the established international credit rating agencies. Such rating system may not provide an equivalent standard for comparison with securities rated by international credit rating agencies.

### Dim Sum Bond Market Risks

Some funds may invest in "Dim Sum" bonds (i.e. bonds issued outside of Mainland China but denominated in RMB). The "Dim Sum" bond market is a relatively smaller market. As with some global fixed income markets, it may be more susceptible to volatility and illiquidity, and should there be any new rules which limit or restrict the ability of issuers to raise RMB (offshore CNH) funding by way of bond issuance and / or reversal or suspension of the liberalization of the CNH market by the relevant regulator(s), the operation of the "Dim Sum" bond market and new issuances could be disrupted and potentially cause a fall in the net asset value of the fund.

### **Mortgage-Related Securities**

Generally, rising interest rates tend to extend the duration of fixed rate mortgage-related securities making them more sensitive to changes in interest rates. As a result, in a period of rising interest rates a fund holding mortgage-related securities may exhibit additional volatility (extension risk). In addition, adjustable and fixed rate mortgage-related securities are subject to prepayment risk. When interest rates decline, borrowers may pay off their mortgages sooner than expected. This can reduce the returns of a fund because the fund may have to reinvest that money at the lower prevailing interest rates. In addition investments in securitised products may be less liquid than other securities. The lack of liquidity may cause the current market price of assets to become disconnected from the underlying assets value and consequently funds investing in securitised products may be more susceptible to liquidity risk. The liquidity of a securitised product can be less than a regular bond or debt instrument and this may adversely affect either the ability to sell the position or the price at which such a sale is transacted.

## **V. COUNTRY, CONCENTRATION AND STYLE RELATED RISKS**

### **Country Concentration**

Funds which invest in essentially only one country will have greater exposure to market, political, legal, economic and social risks of that country than a fund which diversifies country risk across a number of countries. There is a risk that a particular country may impose foreign exchange and/or conversion controls or regulate in such a way as to disrupt the way the markets in that country operate. The consequences of these actions, and others such as confiscation of assets, could be to hinder the normal operation of the fund with regard to the purchase and sale of investments and possibly the ability to meet redemptions. As further explained in Part II, 2.6 dealing in the fund may be suspended and investors may not be able to acquire or redeem units in the fund. These and other actions could also adversely affect the ability to price investments in the fund which could affect the Net Asset Value of the fund in a material way. However, diversification across a number of countries could introduce other risks such as currency risk. In certain countries, and for certain types of investments, transaction costs are higher and liquidity is lower than elsewhere.

### **Holdings and Sector Concentration**

Some funds may invest in a relatively small number of investments or may be concentrated in a specific industry sector and the Net Asset Value of the fund may be more volatile as a result of this concentration of holdings relative to a fund which diversifies across a larger number of investments or sectors.

### **Investments in Medium and Small Sized Firms**

There may be limited opportunities to find alternative ways of managing cash flows especially where the focus of investment is on small and medium sized firms. The prices of securities of small and medium sized companies generally are more volatile than those of larger companies; the securities are often less liquid and these companies may be subject to more abrupt fluctuations in market price than larger, more established companies. Investments in securities of companies with smaller market capitalisations are generally considered to offer greater opportunity for appreciation but also may involve greater risks than customarily associated with more established companies as they are generally more likely to be adversely affected by poor economic or market conditions. These companies may have limited product lines, markets or financial resources, or they may be dependent upon a limited management group. In addition to exhibiting greater volatility, small to medium sized companies' stocks may, to a degree, fluctuate independently of larger company stocks (i.e., small and medium sized company stocks may decline in price as the prices of large company stock rise or vice versa). For funds specialising in such firms, transactions, particularly those large in size, are likely to have a greater impact on the costs of running a fund than similar transactions in larger funds or similar transactions in large sized firms because of the relatively illiquid nature of markets in small and medium sized companies' shares.

## **VI. EMERGING MARKETS RELATED RISKS**

### **Emerging Markets including Russia**

Several of the funds invest, in part or in whole, in emerging market securities. The price of these securities may be more volatile than those of securities in more developed markets. As a result there may be a greater risk of price fluctuation or of the suspension of redemptions in such funds, compared to funds investing in more mature markets. This volatility may stem from political and economic factors and be exacerbated by legal, trading liquidity, settlement, transfer of securities and currency factors. Some emerging market countries have relatively prosperous economies but may be sensitive to world commodity prices and/or volatile inflation rates. Others are especially vulnerable to economic conditions. Although care is taken to understand and manage these risks, the respective funds and accordingly the Shareholders in those funds will ultimately bear the risks associated with investing in these markets.

Some of the funds may invest a portion of their net assets in Russia. It is understood that under current Luxembourg regulations a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling within such limit. There are specific risks linked to investing in Russia. Investors should be aware that the Russian market presents specific risks in relation to the settlement and safekeeping of securities as well as regarding the registration of assets where registrars are not always subject to effective government or other supervision. Russian securities are not on physical deposit with the Depositary or its local agents in Russia. Therefore, neither the Depositary nor its local agents in Russia can be considered to be performing a physical safekeeping or custody function in accordance with recognised international standards. The Depositary's liability only extends to its own negligence and/or wilful default and to negligence and wilful misconduct of its local agents in Russia and does not extend to losses due to the liquidation, bankruptcy, negligence and wilful default of any registrar. In the event of such losses, the Fund will have to pursue its rights against the issuer and/or the appointed registrar of the securities.

Some, or all, of the risks attributed to investing in Russia may also apply in other emerging markets.

## VII. SPECIFIC INSTRUMENT RELATED RISKS

### China Assets

Investments in Renminbi by a fund in China A Shares or onshore China fixed income securities and other permissible securities denominated in Renminbi may be made through any permissible means pursuant to any prevailing regulations, including through the Qualified Foreign Institutional Investor ("QFII") quota, the Shanghai-Hong Kong Stock Connect program ("Stock Connect") and any other eligible means. The uncertainty and change of the relevant laws and regulations in the People's Republic of China ("PRC") may adversely impact such fund. The QFII regulations are also subject to change with potential retrospective effect.

### QFII

Under the prevailing regulations in the PRC, foreign investors can invest in China A Shares or onshore China fixed income securities through institutions that have obtained QFII status in the PRC. The current QFII regulations impose strict restrictions (including rules on investment restrictions, minimum investment holding period as well as remittance and repatriation of principal and profits) on China A Share investment or onshore China fixed income securities. The funds may not be able to freely repatriate principal and profits from China and there may be potential lock-up periods imposed for repatriation. The restrictions on or the delays in the repatriation of principal and profits may have an unfavourable impact on the fund. The QFII policy and related laws, rules and regulations in the PRC are also subject to change and such change may have potential retrospective effect. The Fund's ability to make the relevant investments or to fully implement or pursue its investment objective and strategy is subject to such laws, rules and regulations. Investments by a fund in China A Shares or onshore China fixed income securities and other permissible securities denominated in Renminbi will be made through the QFII in Renminbi.

In extreme circumstances, the funds may incur losses due to limited investment opportunities, or may not be able to fully implement or pursue their investment objectives or strategy, due to QFII investment restrictions, illiquidity of the China A Shares or onshore China fixed income securities market, and/or delay or disruption in execution of trades or in settlement of trades.

The funds may also suffer substantial losses if there is insufficient QFII quota allocated for the fund to make investments, the approval of the QFII is being revoked/terminated or otherwise invalidated as the funds may be prohibited from trading of relevant securities and repatriation of the funds' monies, or if any of the key operators or parties (including QFII custodian/brokers) is bankrupt/in default and/or is disqualified from performing its obligations (including execution or settlement of any transaction or transfer of monies or securities).

### Stock Connect

Certain funds may invest and have direct access to certain eligible China A Shares via the Stock Connect. The Stock Connect is a securities trading and clearing linked program developed by Hong Kong Exchanges and Clearing Limited ("HKEx"), Shanghai Stock Exchange ("SSE") and China Securities Depository and Clearing Corporation Limited ("ChinaClear"), with an aim to achieve mutual stock market access between the PRC and Hong Kong.

The Stock Connect comprises a Northbound Trading Link (for investment in China A Shares) by which certain funds may be able to place orders to trade eligible shares listed on SSE.

Under the Stock Connect, overseas investors (including the funds) may be allowed, subject to rules and regulations issued / amended from time to time, to trade China A Shares listed on the SSE through the Northbound Trading Link. Further information about the Stock Connect is available online at the website: [http://www.hkex.com.hk/eng/market/sec\\_tradinfra/chinaconnect/chinaconnect.htm](http://www.hkex.com.hk/eng/market/sec_tradinfra/chinaconnect/chinaconnect.htm).

In addition to the risks associated with the Chinese market and risks related to investments in RMB, investments through the Stock Connect are subject to additional risks, namely, quota limitations, suspension risk, operational risk, restrictions on selling imposed by front-end monitoring, recalling of eligible stocks, clearing and settlement risks, nominee arrangements in holding China A Shares and regulatory risk.

**Quota limitations:** The Stock Connect is subject to quota limitations on investments, which may restrict the relevant funds' ability to invest in China A Shares through the Stock Connect on a timely basis, and these funds may not be able to effectively pursue their investment policies.

**Suspension risk:** Both the Stock Exchange of Hong Kong Limited ("SEHK") and SSE reserve the right to suspend trading through Stock Connect if necessary for ensuring an orderly and fair market and managing risks prudently which could adversely affect the relevant funds' ability to invest in China A-shares or access the PRC market. In such event, the relevant funds' ability to achieve their investment objectives could be negatively affected.

**Differences in trading day:** The Stock Connect only operates on days when both the PRC and Hong Kong markets are open for trading and when banks in both markets are open on the corresponding settlement days. So it is possible that there are occasions when it is a normal trading day for the PRC market but Hong Kong investors (such as the funds) cannot carry out any China A Shares trading. The funds may be subject to a risk of price fluctuations in China A Shares during the time when the Stock Connect is not trading as a result.

**Restrictions on selling imposed by front-end monitoring:** PRC regulations require that before an investor sells any share, there should be sufficient shares in the account; otherwise SSE will reject the sell order concerned. SEHK will carry out pre-trade checking on China A Shares sell orders of its participants (i.e. the stock brokers) to ensure there is no over-selling.

**Clearing and settlement risks:** The Hong Kong Securities Clearing Company Limited, a wholly-owned subsidiary of HKEx ("HKSCC") and ChinaClear establish the clearing links and each is a participant of each other to facilitate clearing and settlement of crossboundary trades. As the national central counterparty of the PRC's securities market, ChinaClear operates a comprehensive network of clearing, settlement and stock holding infrastructure. ChinaClear has established a risk management framework and measures that are approved and supervised by the China Securities Regulatory Commission ("CSRC"). The chances of ChinaClear default are considered to be remote.

Should the remote event of ChinaClear default occur and ChinaClear be declared as a defaulter, HKSCC will in good faith, seek recovery of the outstanding stocks and monies from ChinaClear through available legal channels or through ChinaClear's liquidation. In that event, the relevant fund(s) may suffer delay in the recovery process or may not be able to fully recover its losses from ChinaClear.

**Nominee arrangements in holding China A Shares:** HKSCC is the "nominee holder" of the SSE securities acquired by overseas investors (including the relevant fund(s)) through the Stock Connect. The CSRC Stock Connect rules expressly provide that investors such as the funds enjoy the rights and benefits of the SSE securities acquired through the Stock Connect in accordance with applicable laws. However, the courts in the PRC may consider that any nominee or custodian as registered holder of SSE securities would have full ownership thereof, and that even if the concept of beneficial owner is recognized under PRC law those SSE securities would form part of the pool of assets of such entity available for distribution to creditors of such entities and/or that a beneficial owner may have no rights whatsoever in respect thereof. Consequently, the relevant fund(s) and the custodian cannot ensure that the fund's ownership of these securities or title thereto is assured in all circumstances.

Under the rules of the Central Clearing and Settlement System operated by HKSCC for the clearing of securities listed or traded on SEHK, HKSCC as nominee holder shall have no obligation to take any legal action or court proceeding to enforce any rights on behalf of the investors in respect of the SSE securities in the PRC or elsewhere. Therefore, although the relevant funds' ownership may be ultimately recognised, these funds may suffer difficulties or delays in enforcing their rights in China A Shares.

To the extent that HKSCC is deemed to be performing safekeeping functions with respect to assets held through it, it should be noted that the custodian and the relevant fund(s) will have no legal relationship with HKSCC and no direct legal recourse against HKSCC in the event that a fund suffers losses resulting from the performance or insolvency of HKSCC.

**Regulatory risk:** The CSRC Stock Connect rules are departmental regulations having legal effect in the PRC. However, the application of such rules is untested, and there is no assurance that PRC courts will recognise such rules, e.g. in liquidation proceedings of PRC companies.

The Stock Connect is novel in nature, and is subject to regulations promulgated by regulatory authorities and implementation rules made by the stock exchanges in the PRC and Hong Kong. Further, new regulations may be promulgated from time to time by the regulators in connection with operations and cross-border legal enforcement in connection with cross-border trades under the Stock Connect. Such regulations may also have potential retrospective effect.

The regulations are untested so far and there is no certainty as to how they will be applied. Moreover, the current regulations are subject to change. There can be no assurance that the Stock Connect will not be abolished. The relevant funds which may invest in the PRC markets through Stock Connect may be adversely affected as a result of such changes.

#### **PRC tax risk**

There are risks and uncertainties associated with the current PRC tax laws, regulations and practice in respect of capital gains realised via QFII quota or Stock Connect or access products on a fund's investments in the PRC (which may have retrospective effect). Any Increased tax liabilities on a fund may adversely affect the fund's value.

Based on professional and independent advice, currently no provision is being made by any of the funds for tax on capital gains on disposals of (i) China A Shares and B Shares, or (ii) China fixed income securities listed or traded on exchanges or the mainland China interbank bond market. The Investment Manager reviews the tax provisioning policy on an on-going basis, however, and any tax provision made ultimately may prove excessive or inadequate to meet any actual tax liabilities that ultimately arise and any shortfall would adversely affect the Net Asset Value.

#### **Equity linked Notes and Credit linked Notes (Structured Notes)**

Equity linked notes (ELNs), Credit linked Notes (CLNs) and similar structured notes involve a counterparty structuring a note whose value is intended to move in line with the underlying security specified in the note. Unlike financial derivative instruments, cash is transferred from the buyer to the seller of the note. In the event that the counterparty (structurer of the note) defaults the risk to the fund is to that of the counterparty, irrespective of the value of the underlying security within the note. Investment in these instruments may cause result in loss if the value of underlying security declines. CLNs are also subject to the risk of loss and / or delay of the principal investment and the periodic interest payment of the CLNs expected to be received for the duration of the fund's investment in the CLNs in the event that one or more of the debt obligations underlying the CLNs defaults or no longer performs.

Additional risks result from the fact that the documentation of such notes programmes tends to be highly customised. The liquidity of an ELN, CLN or similar notes can be less than that for the underlying security, a regular bond or debt instrument and this may adversely affect either the ability to sell the position or the price at which such a sale is transacted.

#### **Repurchase Transactions**

Repurchase Transactions involve risks in that (a) in the event of the failure of the counterparty with which cash of a fund has been placed there is the risk that collateral received may realise less than the cash placed out, whether because of inaccurate pricing of the collateral, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; that (b) (i) locking cash in transactions of excessive size or duration, (ii) delays in recovering cash placed out, or (iii) difficulty in realising collateral may restrict the ability of the Fund to meet redemption requests, security purchases or, more generally, reinvestment; and that (c) repurchase transactions will, as the case may be, further expose a fund to risks similar to those associated with optional or forward derivative financial instruments.

#### **Hybrids**

Hybrid securities are those that combine exposure to two or more instrument types, typically to both equity and debt. A common example of hybrid securities are convertible bonds, which typically pay a lower coupon than a standard debt instrument, but convert into an equity if this performs well. Convertible bonds are senior debt instruments and repayment is

thus aligned with that of other senior debt. Other hybrid bonds are subordinated instruments that have more equity like characteristics. Subordination means that in the event of insolvency, the issuer would first repay the more senior debt reducing the likelihood of repayment for the holder of subordinated debt under such circumstances. Typically hybrid bonds include long final maturity (or no limitation on maturity) and have a call schedule (i.e. a series of call dates on which the issuer can redeem the bond at specific prices), thereby increasing reinvestment risk, which is the risk that a bond's future cash flows will have to be reinvested at a lower interest rate. Their subordination typically lies somewhere between equity and other subordinated debt. As such, as well as typical 'bond' risk factors, hybrid securities also convey such risks as the deferral of interest payments, equity market volatility and illiquidity. Some sources of additional risk associated with hybrids are set forth below:

Coupon Cancellation: Coupon payments on some hybrids are entirely discretionary and may be cancelled by the issuer at any point, for any reason, and for any length of time. The cancellation of coupon payments on such bonds does not amount to an event of default. Cancelled payments do not accumulate and are instead written off. Holders may see their coupons cancelled while the issuer continues to pay dividends on its common equity and variable compensation to its workforce.

Call Extension Risk: Some hybrids are issued as perpetual instruments, callable at pre-determined levels only with the approval of the competent authority. It cannot be assumed that the perpetual instrument will be called on call date. The investor may not receive return of principal if expected on call date or indeed at any date.

### Contingent Convertibles

Contingent convertible securities ('CoCos') are a form of hybrid debt security that are intended to either convert into equity or have their principal written down upon the occurrence of certain 'triggers' linked to regulatory capital thresholds or where the issuing banking institution's regulatory authorities considers this to be necessary. CoCos will have unique equity conversion or principal write-down features which are tailored to the issuing banking institution and its regulatory requirements. Some additional risks associated with CoCos are set forth below:

Trigger Level Risk: Trigger levels differ and determine exposure to conversion risk depending on the capital structure of the issuer. The conversion triggers will be disclosed in the prospectus of each issuance. The trigger could be activated either through a material loss in capital as represented in the numerator or an increase in risk weighted assets as measured in the denominator.

Capital Structure Inversion Risk: Contrary to classic capital hierarchy, CoCo investors may suffer a loss of capital when equity holders do not, e.g. when a high trigger principal write-down CoCo is activated. This cuts against the normal order of capital structure hierarchy where equity holders are expected to suffer the first loss. This is less likely with a low trigger CoCo when equity holders will already have suffered loss. Moreover, high trigger CoCos may suffer losses not at the point of gone concern but conceivably in advance of lower trigger CoCos and equity.

Liquidity and Concentration Risks: In normal market conditions CoCos comprise mainly realisable investments which can be readily sold. The structure of the instruments is innovative yet untested. In a stressed environment, when the underlying features of these instruments will be put to the test, it is uncertain how they will perform. In the event a single issuer activates a trigger or suspends coupons it is not known whether the market will view the issue as an idiosyncratic or systemic event. In the latter case, potential price contagion and volatility to the entire asset class is possible. Furthermore in an illiquid market, price formation may be increasingly stressed. While diversified from an individual company perspective the nature of the universe means that the fund may be concentrated in a specific industry sector and the Net Asset Value of the fund may be more volatile as a result of this concentration of holdings relative to a fund which diversifies across a larger number of sectors.

## VIII. ASSET ALLOCATION RISK

Some funds invest in assets based on a specific time frame or target date, and as such, automatically reallocate the asset mix in their portfolios accordingly. As a fund moves closer to its target date, its asset allocation generally becomes more conservative. The performance of the fund is dependent on the outcome of the asset allocation employed by the fund. There is no assurance that the strategy employed by the fund will result in the specified investment result and therefore there is no assurance that the investors' investment objective will be achieved.

## IX. TRACKING ERROR RISK

### Tracking Error

Imperfect correlation between the fund's securities and those in the underlying index, changes to the underlying index and regulatory requirements and rounding of prices may contribute to replication errors. This risk may be heightened during times of increased market volatility and other unusual market conditions.

## X. DISTRIBUTION OUT OF CAPITAL RISK

For distributing classes of Shares, dividends may be paid out of capital where the investment income/capital gain generated by the fund is insufficient to pay a distribution as declared. Certain distributing classes of Shares may pay dividends out of net investment income. However other distributing classes of Shares may pay dividends out of gross investment income whilst all or part of their fees and expenses are paid out of capital, resulting in an increase in distributable income for the payment of dividends to such classes of Shares. It is important to note that distributing classes of Shares may distribute not only investment income, but also realised and unrealised capital gains or capital. Investors should also note that the payment of dividends out of capital represents a return or withdrawal of part of the amount they originally invested or from any capital gains attributable to the original investment. Such distributions may result in an immediate decrease in the Net Asset Value per Share of the fund and in the capital that the fund has available for investment in the future. Capital growth may be reduced so that a high distribution yield does not imply a positive or high return on investors' total investments.

## XI. DERIVATIVES RELATED RISKS

### Financial Derivative Instruments

The Fund may use various financial derivative instruments to reduce risks or costs or to generate additional capital or income in order to meet the investment objectives of a fund. Certain funds may use derivatives extensively and/or for more complex strategies (i.e. have extended derivative powers) as further described in their respective investment objectives. Throughout this section and other sections that refer to derivatives, privately negotiated or non-exchange traded derivatives are referred to as being 'over the counter', which is abbreviated to OTC.

Investors may wish to consult their independent financial adviser about the suitability of a particular fund for their investment needs bearing in mind its powers with regard to the use of derivatives.

While the judicious use of derivative instruments by experienced investment advisers such as the Investment Manager can be beneficial, derivative instruments also involve risks different from, and, in certain cases, greater than, the risks associated with more traditional investments. The use of derivatives may give rise to a form of leverage, which may result in a loss significantly greater than the amount invested in financial derivative Instruments and cause the Net Asset values of these funds to be more volatile and/or change by greater amounts than if they had not been leveraged. This is because leverage tends to exaggerate the effect of any increase or decrease in the value of the respective funds' portfolio securities and other instruments.

The following are important risk factors and issues concerning the use of derivative instruments that investors should understand before investing in these funds.

- **Market Risk** – This is the general risk applicable to all investments that the value of a particular investment may fluctuate. Where the value of the underlying asset (either security or reference benchmark) of a derivative instrument changes, the value of the instrument will become positive or negative, depending on the performance of the underlying asset. For non-option derivatives the absolute size of the fluctuation in value of a derivative will be very similar to the fluctuation in value of the underlying security or reference benchmark. In the case of options, the absolute change in value of an option will not necessarily be similar to the change in value of the underlying because, as explained further below, changes in options values are dependent on a number of other variables.
- **Liquidity Risk** – Liquidity risk exists when a particular instrument is difficult to purchase or sell. If a derivative instrument transaction is particularly large or if the relevant market is illiquid (as can be the case with OTC derivative instruments), it may not be possible to initiate a transaction or liquidate a position at an advantageous price.
- **Counterparty Credit Risk** – This is the risk that a loss may be sustained by a fund as a result of the failure of the other party to a derivative instrument (usually referred to as a 'counterparty') to comply with the terms of the derivative instrument contract. The counterparty credit risk for exchange-traded derivative instruments is generally less than for OTC derivative instruments, since the clearing firm, which is the issuer or counterparty to each exchange-traded derivative instrument, provides a guarantee of clearing. This guarantee is supported by a daily payment system (i.e. margin requirements) operated by the clearing firm in order to reduce overall counterparty credit risk. Assets deposited as margin with the brokers and/or exchanges may not be held in segregated accounts by these counterparties and may therefore become available to the creditors of such counterparties in the event of default by them. For privately negotiated OTC derivative instruments, there is no similar clearing firm guarantee. Therefore, the Investment Manager adopts a counterparty risk management framework which measures, monitors and manages counterparty credit risk, taking into account both current and potential future credit exposure, through the use of internal credit assessments and external credit agency ratings. Privately negotiated OTC derivative instruments are not standardised. They are an agreement between two parties and can therefore be tailored to the requirements of the parties involved. The documentation risk is reduced by adhering to standard ISDA documentation.

A fund's exposure to an individual counterparty shall not exceed 10% of the relevant fund's net assets. Counterparty credit risk may be further mitigated through the use of collateral agreements. However, collateral arrangements are still subject to the insolvency risk and credit risk of the issuers or depository of the collateral. Further, collateral thresholds exist below which collateral is not called for and timing differences between calculating the need for collateral and its receipt by the fund from the counterparty will both mean that not all the current exposure will be collateralised.

- **Settlement Risk** – Settlement risk exists when futures, forwards, contracts for differences options and swaps (of any type) are not settled in a timely manner, thereby increasing counterparty credit risk prior to settlement and potentially incurring funding costs that would otherwise not be experienced. If settlement never occurs the loss incurred by the fund will be the same as it is for any other such situation involving a security namely the difference between the price of the original contract and the price of the replacement contract, or, in the case where the contract is not replaced the absolute value of the contract at the time it is voided.
- **Fund Management Risk** – Derivative instruments are highly specialised instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative instrument requires an understanding not only of the underlying asset but also of the derivative instrument itself, without necessarily the benefit of observing the performance of the derivative instrument under all possible market conditions. Further the price of an OTC derivative might not move in line with the price of the underlying instrument in some market conditions.
- **Commodities Risks** – Exposure to commodities involve additional risks than those resulting from traditional investments and may subject the fund to greater volatility than investments in traditional securities. The value of commodity-linked derivative instruments may be affected by the overall market movements, commodity index volatility, changes in interest rates, or factors affecting a particular commodity industry or the production and trading of commodities, such as natural events (e.g. drought, floods, weather, livestock disease), embargoes, tariffs and international economic, political and regulatory developments.
- **High Leverage Risks** - A fund may have a net leveraged exposure of more than 100% of the Net Asset Value of the fund. This will further magnify any potential negative impact of any change in the value of the underlying asset on the fund and also increase the volatility of the fund's price and may lead to significant losses.
- **Risks of Implementing Active Currency Positions** - A fund may implement active currency positions which may not be correlated with the underlying securities positions held by the fund. This may result in the fund suffering a significant or total loss even if there is no loss of the value of the underlying securities positions (e.g. equities, fixed income securities) being held by the fund.

- **Other Risks** – Other risks in using derivative instruments include the risk of mispricing or improper valuation. Some derivative instruments, in particular privately negotiated OTC derivative instruments, do not have prices observable on an exchange and so involve the use of formulae, with prices of underlying securities or reference benchmarks obtained from other sources of market price data. OTC options involve the use of models, with assumptions, which increases the risk of pricing errors. Improper valuations could result in increased cash payment requirements to counterparties or a loss of value to the funds. Derivative instruments do not always perfectly or even highly correlate or track the value of the assets, rates or indices they are designed to track. Consequently, the funds' use of derivative instruments may not always be an effective means of, and sometimes could be counterproductive to, furthering the funds' investment objective. In adverse situations, the funds' use of derivative instruments may become ineffective and the funds may suffer significant losses.

### Risks in relation to specific derivative instruments

A non-exhaustive list of financial derivative instruments most commonly used by the relevant fund(s) is set out in Part I. For funds using one or a combination of the following instruments the following risks should be considered, as applicable:

**Security Forward Contracts and Contracts for Difference:** the risk to the buyer or seller of such contracts is the change in value of the underlying security. When the value of the underlying security changes, the value of the contract becomes positive or negative. Unlike futures contracts (which are settled through a clearing firm), OTC forward contracts and contracts for difference are privately negotiated between two parties and are not standardised. Further, the two parties must bear each other's credit risk, which is not the case with a futures contract and collateral is arranged to mitigate this risk. Also, since these contracts are not exchange traded, there is no marked-to-market margin requirement, which allows a buyer to avoid almost all capital outflow initially.

**Equity Index, Single Stock, Interest Rate and Bond Futures:** the risk to the buyer or seller of an exchange-traded future is the change in value of the underlying reference index/security/contract/bond. Futures contracts are forward contracts, meaning they represent a pledge to make a certain economic transfer at a future date. The exchange of value occurs by the date specified in the contract; the majority of contracts have to be cash settled and where physical delivery is an option the underlying instrument is actually rarely exchanged. Futures are distinguished from generic forward contracts in that they contain standardised terms, trade on a formal exchange, are regulated by overseeing agencies, and are guaranteed by clearing firms. Also, in order to ensure that payment will occur, futures have both an initial margin and a margin requirement which moves in line with the market value of the underlying asset that must be settled daily.

**Exchange-traded and OTC Options:** options are complex instruments whose value depends on many variables including the strike price of the underlying (versus the spot price both at the time the option is transacted and subsequently), the time to maturity of the option, the type of option (European or American or other type) and volatility among others. The most significant contributor to market risk resulting from options is the market risk associated with the underlying when the option has an intrinsic value (i.e. it is 'in-the-money'), or the strike price is near the price of the underlying ('near-the-money'). In these circumstances the change in value of the underlying will have a significant influence on the change in value of the option. The other variables will also have an influence, which will likely be greater the further away the strike price is from the price of the underlying. Unlike exchange traded option contracts (which are settled through a clearing firm), OTC option contracts are privately negotiated between two parties and are not standardised. Further, the two parties must bear each other's credit risk and collateral is arranged to mitigate this risk. The liquidity of an OTC option can be less than an exchange traded option and this may adversely affect the ability to close out the option position, or the price at which such a close out is transacted.

**Interest Rate Swaps:** an interest rate swap normally involves exchanging a fixed interest amount per payment period for a payment that is based on a floating rate benchmark. The notional principal of an interest rate swap is never exchanged, only the fixed and floating amounts. Where the payment dates of the two interest amounts coincide there is normally one net settlement. The market risk of this type of instrument is driven by the change in the reference benchmarks used for the fixed and floating legs. An interest rate swap is an OTC agreement between two parties and so can be tailored to the requirements of the parties involved. Consequently each party bears the other's credit risk and collateral is arranged to mitigate this risk.

**Foreign Exchange Contracts:** these involve the exchange of an amount in one currency for an amount in a different currency on a specific date. Once a contract has been transacted the value of the contract will change depending on foreign exchange rate movements and, in the case of forwards, interest rate differentials. To the extent that such contracts are used to hedge non-base currency foreign currency exposures back to the base currency of the fund, there is a risk that the hedge may not be perfect and movements in its value may not exactly offset the change in value of the currency exposure being hedged. Since the gross amounts of the contract are exchanged on the specified date, there is a risk that if the counterparty with whom the contract has been agreed goes into default between the time of payment by the fund but before receipt by the fund of the amount due from the counterparty, then the fund will be exposed to the counterparty credit risk of the amount not received and the entire principal of a transaction could be lost.

**Credit Default Swaps (CDS):** these contracts represent a credit derivative, whose market value will change in line with the perceived credit standing of the underlying security or basket of securities. Where protection has been sold, the fund has a similar credit exposure to the underlying security or basket of securities as if they had actually been bought. Where protection has been bought, the fund will receive a payment from the counterparty to the swap if the underlying security (or one in the basket of securities) defaults, based on the difference between the notional principal of the swap and the expected recovery value, as determined by the market at the time of default. The swap contract is an agreement between two parties and therefore each party bears the other's counterparty credit risk. Collateral is arranged to mitigate this risk. The documentation risk for CDS is reduced by adhering to standard ISDA documentation. The liquidity of a CDS may be worse than the liquidity of the underlying security or securities in the basket and this may adversely affect the ability to close out a CDS position or the price at which such a close out is transacted.

**Total Return Swaps (TRS):** these contracts represent a combined market and credit default derivative and their value will change as a result of fluctuations in interest rates as well as credit events and credit outlook. A TRS which involves the fund receiving the total return is similar in risk profile to actually owning the underlying reference security. Further, these transactions may be less liquid than interest rate swaps as there is no standardisation of the underlying reference benchmark and this may adversely affect the ability to close out a TRS position or the price at which such a close out is transacted. The swap contract is an agreement between two parties and therefore each party bears the other's counterparty credit risk and collateral is arranged to mitigate this risk. The documentation risk for TRS is reduced by adhering to standard ISDA documentation.

Inflation Index Swaps: the market risk of this type of instrument is driven by the change in the reference benchmarks used for the two legs of the transaction, one of which will be an inflation benchmark. This is an agreement between two parties and so can be tailored to the requirements of the parties involved. Consequently each party bears the other's credit risk and collateral is arranged to mitigate this risk. An inflation index swap normally involves exchanging a fixed final amount for a payment that is not fixed (the floating side of the swap would usually be linked to an inflation index in one of the major currencies).

**The foregoing risk factors do not purport to be a complete explanation of the risks involved in investing in the Shares. Prospective investors should read the entire Prospectus and consult with their legal, tax and financial advisors before making any decision to invest in the Fund.**

### 1.3. Investment Policies and Objectives

Investors can choose from a range of funds and Share classes. Each fund provides investment in professionally managed pools of securities in different geographical areas and currencies, with the investment objective of capital growth, income or a balance between growth and income. A detailed list of the funds and their investment objectives is provided below. A detailed list of all Share classes as of the date of this Prospectus can be found in Appendix II. Investment restrictions applicable to all funds are disclosed in Part V. of the Prospectus.

Marketing documents may contain references to market indices. These market indices are provided for comparative purposes only. Holdings can vary from those of the index quoted. This is not applicable to the funds the objective of which is to track the performance of an index.

#### Performance of the Classes of Shares

For the performance of the classes of Shares please refer to the latest version of the KIID for the respective classes. Past performance is not necessarily a guide to the future performance results of the classes of Shares or of the Investment Manager.

### 1.3.1. EQUITY FUNDS

The aim of the Equity funds is to provide investors with long-term capital growth from diversified and actively managed portfolios of securities or related instruments, including financial derivative instruments\*. Unless otherwise specified in the investment objective, the income from these funds is expected to be low. The Equity funds will invest in, or achieve exposure to equities in the markets and sectors reflected in the name of each individual fund and in companies established outside those markets but which derive a significant proportion of their earnings from those markets. For any remaining assets, the Investment Manager has the freedom to invest outside the fund's principal geographies, market sectors, currency or asset classes'.

In selecting securities for the funds, several factors are considered in the investment process; for example, consideration may include, but is not limited to, a company's financials, including revenue and profit growth, return on capital, cash flows and other financial measures. In addition, company management, industry and economic environment, and other factors may be considered in the investment process'.

All Equity funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the Equity funds (including for investment purposes on a non-extensive basis) with a level of risk which is consistent with the risk profile of the relevant Equity fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund.

Financial derivative instruments such as futures, contracts for difference and equity swaps may be used to synthetically replicate the performance of a single stock, basket or index of equity securities. Options such as puts, calls and warrants may be used to afford funds the right or obligation to buy or sell equity at a predetermined value and thereby either generate capital growth, income, or reduce risk. Forwards, non-deliverable forwards and currency swaps may also be used to manage currency exposures within a fund. Financial derivative instruments may be over-the-counter ("OTC") and/or exchange traded instruments.

Certain Equity funds may in addition make extensive use of financial derivative instruments or use complex derivative instruments or strategies to meet the investment objectives of the funds. When an Equity fund has such extended derivative powers this will be mentioned in the investment objective of the relevant fund.

Unless otherwise specified in the notes to a fund under the title "Global Exposure", the method used to calculate the global exposure relating to financial derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to "Risk Factors", Part I (1.2) of the Prospectus. Certain Equity funds will be referred herein as "Equity Income funds". While pursuing the same investment policy, these funds will intend to provide higher income than the other Equity funds.

In accordance with Part V, section H. "EU Securities Financing Transaction Regulations" of the Prospectus, the Equity funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Equity funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

For the funds that are specifically allowed by their investment objective to make direct investments in China A Shares, such investments may, in addition to the QFII quota, be made through any permissible means available to the funds under prevailing laws and regulations (including through the Stock Connect or any other eligible means).

#### **Investor Profile**

Equity funds may be suitable for investors who wish to participate in equity markets while being prepared to accept the risks described for each Equity fund under "Risk Factors", Part I (1.2) of the Prospectus. Investment in an Equity fund should be regarded as a long-term investment.

Equity funds		
Fund Name	Investment Objective	Notes
<b>Fidelity Funds – America Fund</b>	Invests principally in US equity securities.	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – American Diversified Fund</b>	The fund aims to provide long-term capital growth, principally through investment in US equity securities of small, medium and large capitalised companies. The fund aims to be diversified in terms of sectors and market capitalisation, offering a core exposure to the US stock market. The Investment Manager seeks to add value primarily through stock selection.	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – American Growth Fund</b>	The fund aims to achieve long-term capital growth, principally through a focused portfolio invested in companies having their head office or exercising a predominant part of their activity in the US.	<b>Reference Ccy: USD</b>

\* The first sentence and second paragraph are not applicable to Equity funds which aim to replicate an index as specified in their investment objective

Equity funds		
Fund Name	Investment Objective	Notes
<b>Fidelity Funds – ASEAN Fund</b>	Invests principally in equity securities quoted on stock exchanges in Singapore, Malaysia, Thailand, Philippines, Indonesia.	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – Asia Focus Fund</b>	Invests principally in equity securities quoted on stock exchanges in Asia excluding Japan. The fund may invest its net assets directly in China A and B Shares.	<b>Reference Ccy: USD</b> The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).
<b>Fidelity Funds – Asia Pacific Opportunities Fund</b>	The fund aims to provide long-term capital growth from a portfolio primarily comprised of securities of companies having their head office or exercising a material part of their activity in countries of the Asia Pacific (excluding Japan) region. The fund will invest in a mixture of larger, medium and smaller sized companies. The fund may invest its net assets directly in China A and B Shares.  The fund will invest in a limited number of securities, resulting in a reasonably concentrated portfolio. The fund may also invest in UCITS or UCIs.	<b>Reference Ccy: USD</b> The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).
<b>Fidelity Funds – Asia Pacific Property Fund*</b>	The fund aims to achieve a combination of income and long-term capital growth primarily from investments in securities of companies principally engaged in the real estate industry and other real estate related investments in the Asia Pacific region, including Australia, Japan and New Zealand.	<b>Reference Ccy: USD</b> *This fund is authorised by the Securities and Futures Commission in Hong Kong under the Securities and Futures Commission Code on Unit Trusts and Mutual Funds and not under the Securities and Futures Commission Code on Real Estate Investment Trusts. Such authorisation does not imply official recommendation.
<b>Fidelity Funds – Asian Equity Fund</b>	The fund aims to provide long-term capital appreciation by principally investing in equity securities quoted on the stock exchanges of the developing and newly developed Asia Pacific ex Japan regional economies.	<b>Reference Ccy: USD</b> Investors should note that complying with the investment guidelines issued by the Singapore Central Provident Fund Board might have an implication on the fund's risk rating and investment allocation.
<b>Fidelity Funds – Asian Smaller Companies Fund</b>	The fund aims to achieve long-term capital growth by investing primarily in a diversified portfolio of smaller companies that have their head office or exercise a predominant part of their activities in Asia Pacific (excluding Japan). <b>Portfolio Information:</b> Smaller companies are generally defined as having a market capitalisation range of less than USD 5,000 million in terms of the company's full market capitalisation. The fund may have an exposure to companies with market capitalisations falling outside this range.	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – Asian Special Situations Fund</b>	Invests principally in special situations stocks and smaller growth companies in Asia, excluding Japan. Special situations stocks generally have valuations which are attractive in relation to net assets or earnings potential with additional factors which may have a positive influence on the share price. Up to 25% of the portfolio can consist of investments other than special situations stocks and smaller growth companies. The fund may invest its net assets directly in China A and B Shares.	<b>Reference Ccy: USD</b> The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).
<b>Fidelity Funds – Australia Fund</b>	Invests principally in Australian equity securities.	<b>Reference Ccy: AUD</b>

Equity funds		
Fund Name	Investment Objective	Notes
<b>Fidelity Funds – China Consumer Fund</b>	The fund aims to achieve long-term capital growth through investing primarily in equity securities of companies having their head office or exercising a predominant part of their activities in China or Hong Kong. These companies are involved in the development, manufacture or sales of goods or services to consumers in China. The fund may invest its net assets directly in China A and B Shares.	<b>Reference Ccy: USD</b> The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).
<b>Fidelity Funds – China Focus Fund</b>	The fund will primarily focus on China through investment in securities of Chinese companies listed in China and Hong Kong, as well as securities in non-Chinese companies which have a significant portion of their activities in China. The fund may invest its net assets directly in China A and B Shares.	<b>Reference Ccy: USD</b> The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).
<b>Fidelity Funds – China Opportunities Fund</b>	The fund aims to achieve long-term capital growth through investing primarily in securities of companies having their head office or exercising a predominant part of their activities in China or Hong Kong.	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – Emerging Asia Fund</b>	The fund aims to generate long-term capital growth through investing principally in securities of companies having their head office or exercising a predominant part of their activity in less developed countries of Asia that are considered as emerging markets according to the MSCI Emerging Markets Asia Index. The fund may invest its net assets directly in China A and B Shares.	<b>Reference Ccy: USD</b> The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).
<b>Fidelity Funds – Emerging Europe, Middle East and Africa Fund</b>	The fund aims to generate long-term capital growth through investing primarily in securities of companies having their head office or exercising a predominant part of their activity in less developed countries of Central, Eastern and Southern Europe (including Russia), Middle East and Africa including those that are considered as emerging markets according to the MSCI EM Europe, Middle East and Africa Index.	<b>Reference Ccy: USD</b> It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling under such limit.
<b>Fidelity Funds – Emerging Markets Fund</b>	Invests principally in areas experiencing rapid economic growth including countries in Latin America, South East Asia, Africa, Eastern Europe (including Russia) and the Middle East. The fund may invest its net assets directly in China A and B Shares.	<b>Reference Ccy: USD</b> It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling under such limit. The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Emerging Markets Focus Fund</b>	The fund aims to achieve capital growth by investing primarily in the equity securities of, and related instruments providing exposure to, companies that have their head office in, are listed in, or exercise a predominant part of their activity in developing markets including, although not limited to, countries in Latin America, South East Asia, Africa, Eastern Europe (including Russia) and the Middle East. The fund may invest its net assets directly in China A and B Shares. The fund invests in a limited number of securities, resulting in a reasonably concentrated portfolio.	<p><b>Reference Ccy: USD</b></p> <p>It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling under such limit.</p> <p>The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).</p> <p>The fund invests in a limited number of securities (generally between 20 to 80 under normal market conditions).</p>
<b>Fidelity Funds – Euro Blue Chip Fund</b>	Invests principally in blue chip equities in those countries which are members of the Economic Monetary Union (EMU) and primarily denominated in Euro. Currently, these are the nineteen member countries but if other countries join the EMU in the future then investment in these countries may also be considered for inclusion in the fund.	<p><b>Reference Ccy: Euro</b></p> <p>This fund is eligible for the French PEA (Plan d'Épargne en Actions) tax wrapper.</p>
<b>Fidelity Funds – EURO STOXX 50™ Fund</b>	Aims to track the performance of the EURO STOXX 50™ Index as far as this is reasonably and legally practicable. The fund manager's policy for achieving this objective is by the utilisation of replication methodology. The fund manager will aim to hold mainly all securities that represent the EURO STOXX 50™ Index. In order to achieve the investment objective, the fund manager will utilise stock index futures.	<p><b>Reference Ccy: Euro</b></p> <p>EURO STOXX 50 is a mark of STOXX LIMITED and has been licensed for certain purposes by Fidelity Funds. EURO STOXX 50 Index is owned by STOXX LIMITED. The name of the index is a service mark of STOXX LIMITED and has been licensed for certain purposes by Fidelity Funds. © 2015 by STOXX LIMITED. Fund Name	Investment Objective	Notes
<b>Fidelity Funds – European Value Fund</b>	The fund aims to achieve long-term capital growth by investing principally in equity securities which have a value style bias and are issued by companies having their head office or exercising a predominant part of their activity in Europe. Typically the fund will concentrate its investments in a more limited number of companies and therefore the resulting portfolio might be less diversified.	<b>Reference Ccy: Euro</b>
<b>Fidelity Funds – FIRST All Country World Fund</b>	The fund aims to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies throughout the world. The Investment Manager is not restricted in its choice of companies either by size of industry, or in terms of geographical allocation of the portfolio, and will choose investments largely determined by the availability of attractive opportunities. Investments are usually focused in the highest conviction stock recommendations identified by FIL Group research analysts. The fund may invest its assets directly in China A and B shares.	<b>Reference Ccy: USD</b> The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).
<b>Fidelity Funds – FIRST Developed World Fund</b>	The fund aims to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies throughout the developed world. The Investment Manager is not restricted in its choice of companies either by size of industry, or in terms of geographical allocation of the portfolio, and will choose investments largely determined by the availability of attractive opportunities. Investments are usually focused in the highest conviction stock recommendations identified by FIL Group research analysts.	<b>Reference Ccy: USD</b>
<b>Fidelity Funds - FIRST ESG All Country World Fund</b>	<p>The fund aims to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies throughout the world.</p> <p>The Investment Manager will aim to deliver a portfolio that it believes to have a robust Environmental, Social and Governance (ESG) profile, by focusing on companies that maintain strong environmental, social and corporate governance credentials. The investment Manager will also aim to deliver a portfolio with a lower weighted average carbon intensity compared to that of the broader market.</p> <p>The Investment Manager is not restricted in its choice of companies either by size of industry, or in terms of geographical allocation of the portfolio, and will choose investments largely determined by the availability of attractive opportunities. Investments are usually focused in the highest conviction stock recommendations identified by FIL Group research analysts.</p> <p>The fund may invest its assets directly in China A and B shares.</p> <p><b>Portfolio Information:</b></p> <p>The Investment Manager will seek to tilt the portfolio towards those companies that best meet the fund's ESG criteria, including the level of carbon intensity, based on internal research and externally sourced information and scores. Carbon intensity is defined as tonnes of CO2 emissions per \$1 million of sales.</p> <p>To further ensure the portfolio's ESG credentials the investment universe will be screened to exclude companies that derive a significant portion of business revenue from activities which typically have negative ESG outcomes, including the manufacture or distribution of alcohol, weapons, tobacco, gambling and adult entertainment. The fund also implements a controversial weapons exclusion list.</p>	<b>Reference Ccy: USD</b> The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).
<b>Fidelity Funds – FIRST Global Low Carbon Fund</b>	The fund aims to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies throughout the world. The portfolio aims to deliver a lower level of carbon intensity compared to that of the broader market. The Investment Manager is not restricted in its choice of companies either by size of industry, or in terms of geographical allocation of the portfolio, and will choose investments largely determined by the availability of attractive opportunities. Investments are usually focused in the highest conviction stock recommendations identified by FIL Group research analysts.	<b>Reference Ccy: USD</b> This fund is not available for investment at the time of issue of this Prospectus. The fund will be launched at the Board's or its delegate's discretion and the Prospectus will be updated accordingly thereafter.
<b>Fidelity Funds – France Fund</b>	Invests principally in French equity securities.	<b>Reference Ccy: Euro</b> This fund is eligible for the French PEA (Plan d'Epargne en Actions) tax wrapper.
<b>Fidelity Funds – Germany Fund</b>	Invests principally in German equity securities.	<b>Reference Ccy: Euro</b> This fund is eligible for the French PEA (Plan d'Epargne en Actions) tax wrapper.
<b>Fidelity Funds – Global Consumer Industries Fund</b>	Aims to provide investors with long-term capital growth, principally through investment in the equity securities of companies throughout the world which are involved in the manufacture and distribution of goods to consumers.	<b>Reference Ccy: Euro</b>

Equity funds		
Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Global Demographics Fund</b>	The fund aims to achieve long-term capital growth from a portfolio primarily invested in equity securities of companies throughout the world that are able to benefit from demographics changes. Investments will include, but are not limited to, health care and consumer industries companies that stand to benefit from the effects of growing life expectancy in ageing populations, and the creation of wealth in emerging markets. The fund may invest up to 30% of its assets in emerging markets. Subject to the above, the Investment Manager is free to select any company regardless of size, industry or location and will concentrate its investment in a more limited number of companies and therefore the resulting portfolio will be less diversified.	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – Global Financial Services Fund</b>	Aims to provide investors with long-term capital growth, principally through investment in the equity securities of companies throughout the world which are involved in providing financial services to consumers and industry.	<b>Reference Ccy: Euro</b>

<b>Fidelity Funds – Global Dividend Fund</b>	The fund aims to achieve income and long-term capital growth principally through investments in income producing equity securities globally. The Investment Manager will target investments which it believes offer attractive dividend yields in addition to price appreciation.	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – Global Equity Income Fund</b>	The fund aims to achieve income and long-term capital growth principally through investments in income producing equity securities globally. The Investment Manager will target investments which it believes offer attractive dividend yields in addition to price appreciation. <b>Portfolio Information:</b> The Investment Manager will actively select individual equity securities based on their potential to generate income and capital growth. The Investment Manager is free to select equity securities of any company and is not restricted in his discretion to tactically allocate to any particular geographical region, industry sector or companies with a particular market capitalization if he believes that, relative to other equities, they may offer greater potential for income and capital growth.	<b>Reference Ccy: USD</b>

### 1.3.2. ASSET ALLOCATION FUNDS

The aim of each Asset Allocation fund is to provide investors with a discretionary management service by selecting a highly diversified investment in, or exposure to, equities, bonds, liquid and other assets (such as property or commodities) as described in their investment objective and Portfolio Information. They will be managed in line with the policies applicable to several of the other funds. The weightings of each of these funds will vary in accordance with the investment objective and individual market developments. This is achieved by co-managing the assets of the Asset Allocation funds with those of several other regional or country specific funds within the Fidelity Funds range and changing the allocations when appropriate. Thus, investors benefit from the experience of fund managers in charge of the allocation of their assets and of those primarily focused on stock selection in specific countries and regions.

The Asset Allocation funds may invest in, or achieve exposure to, bonds, debt instruments or elements of their return (such as credit, interest rate or foreign exchange elements). Such bonds or debt instruments can, among others, be issued by governments, agencies, supra-nationals, private or publicly quoted companies, special purpose or investment vehicles, or trusts. They may pay fixed or variable coupons, whereby the variable element may be derived from prevailing market interest rates or the performance of other assets (e.g. asset-backed securities). Unless otherwise specified, asset-backed securities and mortgage-backed securities will not exceed 20% of the net assets of each fund, provided that such limit will not apply to investments in such securities issued or guaranteed by the United States government or United States government sponsored entities. The repayment of a bond may have a fixed date or may be subject to some issuer discretion (e.g. some mortgage bonds). Bonds can have conversion or subscription rights to other assets attached to them (e.g. convertible bonds). Not all bonds or debt instruments will have been rated by one or several rating agencies; some may have a below investment grade rating.

The Asset Allocation funds may have non-material exposure to loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010. Some Asset Allocation funds may have a higher exposure to such instruments as further detailed in the notes to the relevant funds.

All Asset Allocation funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the Asset Allocation funds (including for investment purposes on a non-extensive basis) with a level of risk which is consistent with the risk profile of the relevant Asset Allocation fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund.

Asset Allocation funds may use financial derivative instruments to manage risks, generate income or capital growth associated with the asset classes in which they invest. Financial derivative instruments may be over-the-counter ("OTC") and/or exchange traded instruments.

Financial derivative instruments referencing underlying equity assets, such as futures, contracts for difference and equity swaps may be used to synthetically replicate the performance of a single stock, basket or index of equity securities. Options such as put, calls and warrants may be used to afford funds the right to buy or sell equity at a predetermined value and thereby either generate income, capital growth or reduce risk.

Financial derivative instruments referencing underlying fixed income assets or components thereof may be used by Asset Allocation funds to (i) increase or reduce exposure to interest rate risk (including inflation) through the use of interest rate or bond futures, options and interest rate, total return or inflation swaps (ii) buy or sell part or all of the credit risk relating to single issuer, or multiple issuers referenced in a basket or index through the use of bonds futures, options, credit default and total return swaps and (iii) to hedge, reduce or increase exposure to currencies through the use of forwards, including non-deliverable forwards and currency swaps.

Financial derivative instruments may also be used to replicate the performance of a security or asset class (e.g. commodity indexes or property). Other strategies may include positions that benefit from a decline in value or that give exposure to certain elements of returns of a particular issuer or asset in order to provide returns that are unrelated to those of the general market or positions that would not have been available without the use of financial derivative instruments.

Certain Asset Allocation funds may in addition make extensive use of financial derivative instruments or use complex derivative instruments or strategies to meet the investment objectives of the funds. When an Asset Allocation fund has such extended derivative powers this will be mentioned in the investment objective of the relevant fund.

Unless otherwise specified in the notes to a fund under the title "Global Exposure", the method used to calculate the global exposure relating to financial derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to "Risk Factors", Part I (1.2) of the Prospectus.

In accordance with Part V, section H. "EU Securities Financing Transaction Regulations" of the Prospectus, the Asset Allocation funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Asset Allocation funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

#### **Investor Profile**

Asset Allocation funds may be suitable for investors who wish to participate in capital markets while being prepared to accept the risks described for each Asset Allocation fund under "Risk Factors", Part I (1.2) of the Prospectus. Investment in an Asset Allocation fund should be regarded as a long-term investment.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Fidelity Sélection Internationale</b>	Aims to achieve capital growth primarily through investment in international equities, at the same time adhering to the restriction of not investing more than 10% of its assets in emerging markets. The fund will suit those investors who are looking for the longer-term rewards of equity investment and are prepared to accept the higher risk associated with this type of investment.	<b>Reference Ccy: Euro</b>

### 1.3.3. MULTI ASSET FUNDS

Multi Asset funds are the most conservative form of growth investment and invest in a diversified portfolio of equities or related instruments (including derivatives), bonds, ancillary cash and other assets (such as property or commodities), as described in their investment objective and Portfolio Information. Multi Asset funds aim to pay current income and achieve long-term growth of both capital and income.

The Multi Asset funds may invest in, or achieve exposure to bonds, debt instruments or elements of their return (such as credit, interest rate or foreign exchange elements). Such bonds or debt instruments can, among others, be issued by governments, agencies, supra-nationals, private or publicly quoted companies, special purpose or investment vehicles, or trusts. They may pay fixed or variable coupons, whereby the variable element may be derived from prevailing market interest rates or the performance of other assets (e.g. asset-backed securities). Unless otherwise specified, asset-backed securities and mortgage-backed securities will not exceed 20% of the net assets of each fund, provided that such limit will not apply to investments in such securities issued or guaranteed by the United States government or United States government sponsored entities. The repayment of a bond may have a fixed date or may be subject to some issuer discretion (e.g. some mortgage bonds). Bonds can have conversion or subscription rights to other assets attached to them (e.g. convertible bonds). Not all bonds or debt instruments will have been rated by one or several rating agencies; some may have a below investment grade rating.

The Multi Asset funds may have non-material exposure to loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010. Some Multi Asset funds may have a higher exposure to such instruments as further detailed in the notes to the relevant funds.

All Multi Asset funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the Multi Asset funds with a level of risk which is consistent with the risk profile of the relevant Multi Asset fund(s) (including for investment purposes on a non-extensive basis) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund.

Multi Asset funds may use financial derivative instruments to manage risks, generate income or capital growth associated with the asset classes in which they invest. Financial derivative instruments may be over-the-counter ("OTC") and/or exchange traded instruments.

Financial derivative instruments referencing underlying equity assets, such as futures, contracts for difference and equity swaps may be used to synthetically replicate the performance of a single stock, basket or index of equity securities. Options such as put, calls and warrants may be used to afford funds the right to buy or sell equity at a predetermined value and thereby either generate income, capital growth or reduce risk.

Financial derivative instruments referencing underlying fixed income assets or components thereof may be used by Multi Asset funds to (i) increase or reduce exposure to interest rate risk (including inflation) through the use of interest rate or bond futures, options and interest rate, total return or inflation swaps (ii) buy or sell part or all of the credit risk relating to single issuer, or multiple issuers referenced in a basket or index through the use of bonds futures, options, credit default and total return swaps and (iii) to hedge, reduce or increase exposure to currencies through the use of forwards, including non-deliverable forwards and currency swaps.

Financial derivative instruments may also be used to replicate the performance of a security or asset class (e.g. commodity indexes or property). Other strategies may include positions that benefit from a decline in value or that give exposure to certain elements of returns of a particular issuer or asset in order to provide returns that are unrelated to those of the general market or positions that would not have been available without the use of financial derivative instruments.

Certain Multi Asset funds may in addition make extensive use of financial derivative instruments or use complex derivative instruments or strategies to meet the investment objectives of the funds. When a Multi Asset fund has such extended derivative powers this will be mentioned in the investment objective of the relevant fund.

Unless otherwise specified in the notes to a fund under the title "Global Exposure", the method used to calculate the global exposure relating to financial derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to "Risk Factors", Part I (1.2) in the Prospectus.

In accordance with Part V, section H. "EU Securities Financing Transaction Regulations" of the Prospectus, the Multi Asset funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Multi Asset funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

#### **Investor Profile**

Multi Asset funds may be suitable for investors who wish to participate in capital markets while being prepared to accept the risks described for each Multi Asset fund under "Risk Factors", Part I (1.2) of the Prospectus. Investment in a Multi Asset fund should be regarded as a long-term investment.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Asia Pacific Multi Asset Growth &amp; Income Fund</b>	<p>The fund aims to provide capital growth and income over the medium to longer term by investing primarily in equities and fixed income securities issued by companies that are listed in, or have their registered office in, or exercise a majority of their activity in the Asia Pacific region including Australia and New Zealand but excluding Japan.</p> <p>The fund will actively allocate to, and within, different asset classes and geographies based on their potential to generate capital growth and income within the portfolio. The main asset classes in which the fund will invest include Asia Pacific equities, Asia Pacific investment grade bonds, and Asia Pacific high yield bonds. Investments will not be required to meet minimum rating standards.</p> <p>The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>For the remaining assets, the investment manager has the freedom to invest outside the fund's principal geographies, market sectors, currency or asset classes.</p> <p>The fund may, under normal market conditions, invest up to 40% of its assets in investment grade bonds, 75% in equities, and up to 40% in high yield bonds.</p> <p>In adverse market conditions the fund may invest up to 30% of its assets in cash, Money Market Instruments, and money market funds.</p>	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – Euro Balanced Fund</b>	<p>Invests primarily in equities and bonds denominated in Euro. The fund will aim to invest a minimum of 45% and a maximum of 70% of the net assets in assets with exposure to equities and a minimum of 30% and a maximum of 55% of the net assets in assets with exposure to bonds.</p> <p>The fund may also invest in UCITS and UCIs.</p>	<b>Reference Ccy: Euro</b>
<b>Fidelity Funds - Global Multi Asset Income Fund</b>	<p>The fund aims to provide income and moderate capital growth over the medium to longer term by investing in global fixed income securities and global equities.</p> <p>The fund will actively allocate to, and within, different asset classes and geographies based on their potential to generate income and capital growth within the portfolio. The main asset classes in which the fund will invest include global investment grade bonds, global high yield bonds, emerging market bonds and global equities.</p> <p>The fund may tactically invest up to 50% of its assets in global government bonds. It may also have an exposure of up to 30% of its assets to each of the following asset classes, infrastructure securities and real estate investment trusts (REITS).</p> <p>The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>Within the main asset classes described above the fund may, under normal market conditions, invest up to 100% of its assets in global investment grade bonds, 50% of its assets in emerging market bonds, 50% in global equities, and up to 60% in global high yield bonds.</p> <p>In adverse market conditions the fund may hold more than 10% of its assets in cash or money market instruments (cash and short-term deposits, certificates of deposit and bills, money market funds).</p>	<p><b>Reference Ccy: USD</b></p> <p>This fund may invest up to 10% of its net assets in loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010 (within the 10% limit as set out under Part V, A. 12. of the Prospectus).</p> <p>This fund is authorised by the Securities and Futures Commission in Hong Kong under the Securities and Futures Commission Code on Unit Trusts and Mutual Funds and not under the Securities and Futures Code on Real Estate Investment Trusts. Such authorisation does not imply official recommendation.</p> <p>The REITs may not be authorised by the Securities and Futures Commission in Hong Kong. The dividend or payout policy of this fund is not representative of the dividend or payout policy of the underlying REITs.</p>
<b>Fidelity Funds – Global Multi Asset Tactical Defensive Fund</b>	<p>The fund aims to provide stable growth over the longer-term by investing in a range of global assets providing exposure to bonds, equities, commodities, property and cash. Under normal market conditions, the fund will have a minimum exposure of 65% of its total assets in bonds and cash.</p> <p>The fund may also seek exposure to infrastructure securities and real estate investment trusts (REITS). The fund may achieve elements of its return through the use of financial derivatives. The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>The fund may make extensive use of financial derivative instruments for investment purposes or use complex financial derivative instruments or strategies to meet the investment objectives of the fund. The fund may maintain long and short exposure to securities through the use of derivative instruments. Such positions may not be correlated with the underlying securities positions held by the fund. This provides the investment manager with a degree of flexibility when to choose a particular technique, or when to concentrate or diversify investments.</p> <p>Financial derivative instruments may be used to create economic exposure to an asset akin to a physical holding of that asset.</p> <p>Currency derivatives may be used to hedge or gain both long or short exposure to currencies or replicate currency exposure of the underlying securities of an equity index.</p> <p>The types of financial derivative instrument that will be used include index, basket or single name futures, options and contracts for difference referencing equities or bonds. Options used will include put and call options including covered call options.</p>	<p><b>Reference Ccy: USD</b></p> <p>Any commodity exposure for this fund will be obtained through eligible instruments and derivatives such as (but not limited to) units/shares of UCITS/or other UCIs, Exchange Traded Funds and commodity index swap transactions.</p> <p>The global exposure of the fund is calculated using the absolute VaR approach, which is limited to 8%.</p> <p>The expected leverage is determined using the sum of the notional amounts (expressed as a sum of positive values) of all financial derivatives instruments used. The expected level of leverage of the fund is 250% of the Net Asset Value of the fund. This is however not a limit and higher levels of leverage may occur.</p>

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Global Multi Asset Tactical Moderate Fund</b>	<p>The fund aims to provide moderate long-term capital growth by investing in a range of global assets providing exposure to bonds, equities, commodities, property and cash. Under normal market conditions, the fund will have a maximum exposure of 90% of its total assets in equities.</p> <p>The fund may also seek exposure to infrastructure securities and real estate investment trusts (REITS). The fund may achieve elements of its return through the use of financial derivatives. The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>The fund may make extensive use of financial derivative instruments for investment purposes or use complex financial derivative instruments or strategies to meet the investment objectives of the fund. The fund may maintain long and short exposure to securities through the use of derivative instruments. Such positions may not be correlated with the underlying securities positions held by the fund. This provides the investment manager with a degree of flexibility when to choose a particular technique, or when to concentrate or diversify investments.</p> <p>Financial derivative instruments may be used to create economic exposure to an asset akin to a physical holding of that asset.</p> <p>Currency derivatives may be used to hedge or gain both long or short exposure to currencies or replicate currency exposure of the underlying securities of an equity index.</p> <p>The types of financial derivative instrument that will be used include index, basket or single name futures, options and contracts for difference referencing equities or bonds. Options used will include put and call options including covered call options.</p>	<p><b>Reference Ccy: USD</b></p> <p>Any commodity exposure for this fund will be obtained through eligible instruments and derivatives such as (but not limited to) units/shares of UCITS/or other UCIs, Exchange Traded Funds, commodity index swap transactions.</p> <p>The global exposure of the fund is calculated using the absolute VaR approach, which is limited to 14%.</p> <p>The expected leverage is determined using the sum of the notional amounts (expressed as a sum of positive values) of all financial derivatives instruments used. The expected level of leverage of the fund is 200% of the Net Asset Value of the fund. This is however not a limit and higher levels of leverage may occur.</p>
<b>Fidelity Funds – Greater China Multi Asset Growth &amp; Income Fund</b>	<p>The fund aims to provide capital growth and income over the medium to longer term by investing primarily in equities and fixed income securities issued by companies that are listed in, or have their registered office in, or exercise a majority of their activity in the Greater China region, including Hong Kong, China, Taiwan and Macau.</p> <p>The fund will actively allocate to, and within, different asset classes and geographies based on their potential to generate capital growth and income within the portfolio. The main asset classes in which the fund will invest include Greater China equities, Greater China investment grade bonds, and Greater China high yield bonds. Investments will not be required to meet minimum rating standards.</p> <p>The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>For the remaining assets, the investment manager has the freedom to invest outside the fund's principal geographies, market sectors, currency or asset classes.</p> <p>The fund may, under normal market conditions, invest up to 40% of its assets in investment grade bonds, 80% in equities, and up to 50% in high yield bonds.</p> <p>In adverse market conditions the fund may invest up to 30% of its assets in cash, Money Market Instruments, and money market funds.</p>	<p><b>Reference Ccy: USD</b></p>
<b>Fidelity Funds – Growth &amp; Income Fund</b>	<p>This fund will be managed with a more conservative approach towards seeking high current income and capital growth primarily through investment in a combination of equities and bonds. This fund will appeal to investors seeking regular income and moderate capital growth but who prefer a lower level of risk than that normally associated with equity investment only.</p>	<p><b>Reference Ccy: USD</b></p>
<b>Fidelity Funds – Fidelity Patrimoine</b>	<p>The fund aims to adopt a conservative approach and provide moderate long-term capital growth primarily through investment in a range of global assets providing exposure to equities, bonds, commodities and cash. Investments will have an emphasis on Euro denominated securities.</p> <p>The fund may also seek exposure to infrastructure securities and real estate investment trusts (REITS). The fund may achieve elements of its return through the use of financial derivatives. The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>The fund may make extensive use of financial derivative instruments for investment purposes or use complex financial derivative instruments or strategies to meet the investment objectives of the fund. The fund may maintain long and short exposure to securities through the use of derivative instruments. Such positions may not be correlated with the underlying securities positions held by the fund. This provides the investment manager with a degree of flexibility when to choose a particular technique, or when to concentrate or diversify investments.</p> <p>Financial derivative instruments may be used to create economic exposure to an asset akin to a physical holding of that asset.</p> <p>Currency derivatives may be used to hedge or gain both long or short exposure to currencies or replicate currency exposure of the underlying securities of an equity index.</p> <p>The types of financial derivative instrument that will be used include index, basket or single name futures, options and contracts for difference referencing equities or bonds. Options used will include put and call options including covered call options.</p>	<p><b>Reference Ccy: Euro</b></p> <p>Any commodity exposure for this fund will be obtained through eligible instruments and derivatives such as (but not limited to) units/shares of UCITS or other UCIs, Exchange Traded Funds and commodity index swap transactions.</p> <p>The global exposure of the fund will be monitored using the relative VaR approach. The Fund's VaR is limited to 200% of the VaR of the reference portfolio which is 50% The BofA ML Euro Large Cap Index; 15% MSCI AC World ex Europe Index (N); 15% MSCI EUROPE (N); 10% BBG Commodity Ind TR; 10% EUR 1W LIBID.</p> <p>The expected leverage is determined using the sum of the notional amounts (expressed as a sum of positive values) of all financial derivatives instruments used. The expected level of leverage of the fund is 200% of the Net Asset Value of the fund. This is however not a limit and higher levels of leverage may occur.</p>

### 1.3.4. BOND FUNDS

The aim of the Bond funds is to provide investors with relatively high income with the possibility of capital gains. They may invest in, or achieve exposure to, bonds, debt instruments or elements of their return (such as credit, interest rate or foreign exchange elements). Such bonds or debt instruments can, among others, be issued by governments, agencies, supra-nationals, private or publicly quoted companies, special purpose or investment vehicles, or trusts, which are linked to the geographies, sectors, credit quality, currency and asset classes reflected in the investment objective of each individual fund. Power is reserved to invest up to 100% of the assets of any fund in securities issued or guaranteed by certain government and other public bodies as described more fully in Part V, section A of the Prospectus. For any remaining assets, the Investment Manager has the freedom to invest outside the fund's principal geographies, market sectors, credit quality, currency or asset classes (which may include, but are not limited to, securitized or structured debt instruments and loans).

The Bond funds may pay fixed or variable coupons, whereby the variable element may be derived from prevailing market interest rates or the performance of other assets (e.g. asset-backed securities). Unless otherwise specified, asset-backed securities and mortgage-backed securities will not exceed 20% of the net assets of each fund, provided that such limit will not apply to investments in such securities issued or guaranteed by the United States government or United States government sponsored entities. The repayment of a bond may have a fixed date or may be subject to some issuer discretion (e.g. some mortgage bonds). Bonds can have conversion or subscription rights to other assets attached to them (e.g. convertible bonds). Not all bonds or debt instruments will have been rated by one or several rating agencies; some may have a below investment grade rating.

Any reference in this section to investment grade securities shall mean securities with a rating of BBB- or higher from Standard & Poor's or equivalent rating from an internationally recognised rating agency (in case of divergent ratings, the worst of the best two credit ratings applies).

Any reference in this section to sub investment grade securities shall mean securities with a rating of BB+ or less from Standard & Poor's or equivalent rating from an internationally recognised rating agency (in case of divergent ratings, the worst of the best two credit ratings applies).

In selecting bond securities, several factors are considered in the investment process; for example, consideration may include, but is not limited to, a company's financials, including revenue and profit growth, balance sheet health and positioning, cash flows, and other financial measures. In addition, company management, industry and economic environment, and other factors may be considered in the investment process.

Occasionally, investments for all Bond funds may be made in bonds issued in currencies other than the fund's Reference Currency. The Investment Manager may choose to hedge currency exposures through the use of instruments such as forward foreign exchange contracts.

With due consideration given to the restrictions on investments required by applicable law and regulations and on an ancillary basis, the Bond funds may further hold cash and cash equivalents (including Money Market Instruments and time deposits) up to 49% of their net assets. This percentage may exceptionally be exceeded if the Directors consider this to be in the best interests of the Shareholders.

The Bond funds may have non-material exposure to loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010. Some Bond funds may have a higher exposure to such instruments as further detailed in the notes to the relevant funds.

All Bond funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the Bond funds (including for investment purposes on a non-extensive basis) with a level of risk which is consistent with the risk profile of the relevant Bond fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund.

Financial derivative instruments may be used to (i) increase or reduce exposure to interest rate risk (including inflation) through the use of interest rate or bond futures, options, swaptions and interest rate, total return or inflation swaps (ii) buy or sell part or all of the credit risk relating to single issuers, or multiple issuers referenced in a basket or index through the use of options, credit default and total return swaps and (iii) to hedge, reduce or increase exposure to currencies through the use of forwards, including non-deliverable forwards and currency swaps.

Financial derivative instruments may also be used to replicate the performance of physically held securities. Other fixed income strategies may include positions that benefit from a decline in value or that give exposure to certain elements of returns of a particular issuer or asset in order to provide returns that are unrelated to those of the general market or positions that would not have been available without the use of financial derivative instruments. Financial derivative instruments may be over-the-counter ("OTC") and/or exchange traded instruments on underlying assets.

Certain Bond funds may in addition make extensive use of financial derivative instruments or use complex derivative instruments or strategies to meet the investment objectives of the funds. When a Bond fund has such extended derivative powers this will be mentioned in the investment objective of the relevant fund.

Unless otherwise specified in the notes to a fund under the title "Global Exposure", the method used to calculate the global exposure relating to financial derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to "Risk Factors", Part I (1.2) of the Prospectus.

In accordance with Part V, section H. "EU Securities Financing Transaction Regulations" of the Prospectus, the Bond funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Bond funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

For the funds that are specifically allowed by their investment objective to make direct investments in onshore China fixed income securities, such investments may, in addition to the QFII quota, be made through any permissible means available to the funds under prevailing laws and regulations.

#### **Investor Profile**

Bond funds may be suitable for investors who wish to participate in debt markets while being prepared to accept the risks described for each Bond fund under “Risk Factors”, Part I (1.2) of the Prospectus. Investment in a Bond fund should be regarded as a long-term investment.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Asian Bond Fund</b>	The fund aims to achieve income and capital appreciation by investing primarily in investment grade fixed income securities of issuers that have their principal business activities in the Asian region.	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – Asian High Yield Fund</b>	<p>This fund seeks a high level of current income and capital appreciation by investing primarily in high-yielding sub investment grade securities of issuers, or in high-yielding securities of sub investment grade issuers, all having their principal business activities in the Asian region. This fund will suit those investors seeking high income and capital appreciation and who are prepared to accept the risks associated with this type of investment. The type of debt securities in which the fund will primarily invest will be subject to high risk and will not be required to meet a minimum rating standard. Not all securities will be rated for creditworthiness by an internationally recognized rating agency. The fund may invest its net assets directly in onshore China fixed income securities listed or traded on any Eligible Market in China.</p> <p><b><u>Portfolio Information:</u></b></p> <p>Onshore China fixed income securities are listed or traded on any Eligible Market in China, and are issued by a variety of issuers such as government, quasi-government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities with commercial activities in China.</p>	<p><b>Reference Ccy: USD</b></p> <p>The fund may directly invest in onshore China fixed income securities listed or traded on any Eligible Market in China through the QFII quota of FIL Investment Management (Hong Kong) Limited.</p> <p>The fund may invest up to 10% of its net assets directly in onshore China fixed income securities (with aggregate exposure including direct and indirect investments up to 30% of its assets).</p> <p>Eligible Market in China refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p>
<b>Fidelity Funds – Asian Total Return Bond Fund</b>	<p>The fund seeks to maximize total return through capital appreciation and/or income by primarily investing in a broad range of fixed income instruments of issuers in Asia that have their head office or exercise a majority of their activity in Asia. The fund will adopt an active asset allocation approach, which may include investment into high yield instruments and emerging markets. Investments will not be required to meet minimum credit rating standards. Not all securities will be rated for creditworthiness by an internationally recognized rating agency. The manager is not restricted in his choice of companies either by market sector or industry, and will choose investments largely determined by the availability of attractive investment opportunities. The fund may invest its net assets directly in onshore China fixed income securities listed or traded on Eligible Markets in China.</p> <p>The fund may also invest in UCITS and UCIs.</p> <p><b><u>Portfolio Information:</u></b></p> <p>Onshore China fixed income securities are listed or traded on Eligible Markets in China and are issued by a variety of issuers such as government, quasi government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities whose commercial activities are mainly carried out in China.</p> <p>Within the main asset classes described above the fund will, under normal market conditions, invest a minimum of 20% of its assets in Asian investment grade bonds, up to 80% in Asian local currency bonds, and up to 50% in Renminbi bonds.</p>	<p><b>Reference Ccy: USD</b></p> <p>The fund may directly invest in onshore China fixed income securities listed or traded on Eligible Markets in China through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in onshore China fixed income securities (with aggregate exposure including direct and indirect investments up to 30% of its net assets).</p> <p>The Fund may also invest up to 50% of its net assets value in offshore China fixed income instruments including, but not limited to, dim sum bonds. “Eligible Market in China” refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p> <p>The fund will comprise of a diverse portfolio of fixed income instruments with investments being selected from a top-down active asset allocation and bottom-up security selection approach. In order to generate attractive risk-adjusted returns throughout a variety of market cycles, the portfolio seeks to generate capital growth and maximize income opportunities while managing the overall risk level relative to the wider Asian fixed income market.</p>

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – China High Yield Fund</b>	<p>This fund seeks a high level of current income by investing primarily in high-yielding, sub-investment grade or non-rated debt securities of issuers that have their head office or exercise a majority of their activity in the Greater China region (including China, Hong Kong, Taiwan, and Macau). This fund will suit those investors seeking high income and who are prepared to accept the risks associated with this type of investment. The type of debt securities in which the fund will primarily invest will be subject to high risk and will not be required to meet a minimum credit rating standard. Not all securities will be rated for creditworthiness by an internationally recognized rating agency. The fund may invest its net assets directly in onshore China fixed income securities listed or traded on Eligible Markets in China. The manager is not restricted in his choice of companies either by market sector or industry, and will choose investments largely determined by the availability of attractive investment opportunities.</p> <p>The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>Onshore China fixed income securities are listed or traded on Eligible Markets in China and are issued by a variety of issuers such as government, quasi government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities whose commercial activities are mainly carried out in China.</p> <p>The investments of the fund may be denominated in various currencies and are not restricted to one single currency.</p>	<p><b>Reference Ccy: USD</b></p> <p>The fund may directly invest in onshore China fixed income securities listed or traded on Eligible Markets in China through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in onshore China fixed income securities (with aggregate exposure including direct and indirect investments up to 30% of its net assets).</p> <p>This fund may also invest up to 100% of its net asset value in offshore China fixed income instruments including, but not limited to, dim sum bonds. "Eligible Market in China" refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p>
<b>Fidelity Funds – China RMB Bond Fund</b>	<p>The fund aims to achieve income and capital appreciation via exposure to RMB denominated debt, money market securities and cash and/or cash equivalents (including, inter alia, time deposits). The fund will primarily invest, directly and/or indirectly, in investment grade securities denominated in RMB, investment grade securities of issuers that have their principal business activities in the Asia Pacific region, securities denominated in RMB of investment grade issuers or in securities of investment grade issuers that have their principal business activities in the Asia Pacific region. Exposure to non-RMB denominated debt securities may be hedged in order to seek to maintain the currency exposure in RMB. The fund may invest its net assets directly in onshore China fixed income securities listed or traded on any Eligible Market in China.</p> <p><b>Portfolio Information:</b></p> <p>Onshore China fixed income securities are listed or traded on any Eligible Market in China and are issued by a variety of issuers such as government, quasi-government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities with commercial activities in China. The fund will limit any direct investment in securities traded on the mainland China interbank bond market to 10% of its net assets.</p>	<p><b>Reference Ccy: USD</b></p> <p>The fund may directly invest in onshore China fixed income securities listed or traded on any Eligible Market in China through the QFII quota of FIL Investment Management (Hong Kong) Limited.</p> <p>The fund may invest up to 30% of its net assets directly in onshore China fixed income securities.</p> <p>Eligible Market in China refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p> <p><b>RMB:</b> a colloquial reference to the Chinese Renminbi, which is also known internationally as the Chinese Yuan ('CNY'). Whilst the CNY is traded both onshore in China and offshore (primarily in Hong Kong), it is the same currency although currently traded at different rates. The offshore rate for trading CNY is generally referred to as 'CNH'. The CNH rate will be used when determining the value of the Shares of the fund.</p>
<b>Fidelity Funds – Core Euro Bond Fund</b>	<p>Invests primarily in bonds denominated in Euro. The fund will typically only invest in Euro denominated investment grade government and non-government bonds.</p>	<p><b>Reference Ccy: Euro</b></p>
<b>Fidelity Funds – Emerging Market Corporate Debt Fund</b>	<p>The fund aims to achieve income and capital appreciation through primarily investing in investment grade and sub investment grade global emerging market corporate debt securities denominated in globally traded major currencies ("hard currencies"). The fund may also invest in global emerging market debt instruments denominated in local currency. Up to 25% of the assets of the fund may be invested in sovereign bonds of emerging market issuers.</p> <p>Investments will be made within, although not limited to, Latin America, South East Asia, Africa, Eastern Europe (including Russia) and the Middle East. The fund may invest its net assets directly in onshore China fixed income securities listed or traded on any Eligible Market in China.</p> <p><b>Portfolio Information:</b></p> <p>Onshore China fixed income securities are listed or traded on any Eligible Market in China, and are issued by a variety of issuers such as government, quasi-government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities with commercial activities in China.</p>	<p><b>Reference Ccy: USD</b></p> <p>It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling under such limit.</p> <p>The fund can directly invest in onshore China fixed income securities listed or traded on any Eligible Market in China through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in onshore China fixed income securities (with aggregate exposure including direct and indirect investments up to 30% of its assets).</p> <p>Eligible Market in China refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p>

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Emerging Market Debt Fund</b>	<p>The fund aims to achieve income and capital appreciation through primarily investing in global emerging-markets debt securities. The fund may also invest in other types of securities, including local market debt instruments, fixed income, equity securities and corporate bonds of emerging market issuers, and lower quality debt securities. Investments will be made within, although not limited to, Latin America, South East Asia, Africa, Eastern Europe (including Russia) and the Middle East. The fund may invest its net assets directly in onshore China fixed income securities listed or traded on any Eligible Market in China.</p> <p><b>Portfolio Information:</b></p> <p>Onshore China fixed income securities are listed or traded on any Eligible Market in China, and are issued by a variety of issuers such as government, quasi-government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities with commercial activities in China.</p>	<p><b>Reference Ccy: USD</b></p> <p>It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. The fund may invest up to 10% of its net assets directly in onshore China fixed income securities (with aggregate exposure including direct and indirect investments up to 30% of its assets).</p> <p>Eligible Market in China refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p>

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Emerging Market Total Return Debt Fund</b>	<p>The fund aims to achieve income and capital appreciation through investing primarily directly or indirectly in Emerging Market government and corporate bonds, including those denominated in local and globally traded major currencies ("hard currencies") and nominal and inflation linked debt instruments. The fund may achieve exposure to such investments or elements of their return through the use of financial derivative instruments. Investments will be made within, although will not be limited to, Latin America, Asia, Africa, Eastern Europe (including Russia) and the Middle East. The fund may invest its net assets directly in onshore China fixed income securities listed or traded on any Eligible Market in China.</p> <p>The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>The fund may use financial derivatives instruments extensively to meet its investment objective and with the aim of risk or cost reduction or to generate additional capital or income, and this may result in leverage and increased volatility. These instruments include but are not limited to futures, options, forwards, swaps, credit linked instruments, and other fixed income, currency and credit derivatives (including but not limited to total return swaps, foreign exchange forward contracts, non-deliverable forwards, single name credit default swaps and indices of credit default swaps. Indices of credit default swaps include but are not limited to iTraxx and CDX).</p> <p>The underlying exposures of derivatives include instruments such as (but not limited to) government bonds, agency bonds, Money Market Instruments, interest-rates, inflation, currencies, corporate bonds and structured bonds. The fund will hold sufficient liquid assets (including, if applicable, sufficiently liquid long positions) to cover at all times the fund's obligations arising from its credit derivative positions (including short positions). In such situations, performance may rise or fall more than it would have done otherwise, reflecting such additional exposures. Under certain market conditions assets may be more difficult to sell.</p> <p>Onshore China fixed income securities are listed or traded on any Eligible Market in China, and are issued by a variety of issuers such as government, quasi-government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities with commercial activities in China.</p>	<p><b>Reference Ccy: USD</b></p> <p>It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling under such limit.</p> <p>The fund may directly invest in onshore China fixed income securities listed or traded on any Eligible Market in China through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in onshore China fixed income securities.</p> <p>Eligible Market in China refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p> <p><b>Global Exposure:</b></p> <p>The global exposure of the fund will be monitored using VaR methodology on a relative basis. The Fund's VaR is limited to 150% of the VaR of the reference portfolio which is: 25% JP Morgan EM Bond Index Global, 50% GBI-EM Global Diversified unhedged, 25% JP Morgan Corporate EM Bond Index Broad Diversified.</p> <p>Leverage is determined using the sum of the notionals of all financial derivatives instruments used. The expected level of leverage of the fund is 100% of the Net Asset Value of the fund; this is however not a limit and higher levels of leverage may occur.</p>
<b>Fidelity Funds – Emerging Markets Inflation-linked Bond Fund</b>	<p>The fund aims to achieve real income and capital appreciation by investing primarily in inflation-linked bonds issued by governments and government agencies of emerging countries worldwide. Investments will be made within, although not limited to, Latin America, South East Asia, Africa, Eastern Europe (including Russia) and the Middle East.</p>	<p><b>Reference Ccy: USD</b></p> <p>It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling under such limit.</p>
<b>Fidelity Funds – Euro Bond Fund</b>	<p>Invests primarily in bonds denominated in Euro.</p>	<p><b>Reference Ccy: Euro</b></p>
<b>Fidelity Funds – Euro Corporate Bond Fund</b>	<p>The fund will invest primarily in Euro denominated corporate debt securities. The fund may invest up to 30% of its assets in non-Euro denominated debt securities and/or non-corporate debt securities. Exposure to non-Euro denominated debt securities may be hedged back into Euro (as described in the Prospectus).</p>	<p><b>Reference Ccy: Euro</b></p>
<b>Fidelity Funds – Euro Short Term Bond Fund</b>	<p>Invests primarily in Euro-denominated debt securities, focusing its investments in investment grade European fixed-rate bonds with less than five years to maturity. The average duration of the fund's investments will not exceed three years. The fund may invest up to 30% of its assets in non-Euro denominated debt securities. Exposure to non-Euro denominated debt securities may be hedged back into Euro (as described in the Prospectus).</p>	<p><b>Reference Ccy: Euro</b></p>
<b>Fidelity Funds – European High Yield Fund</b>	<p>This fund seeks a high level of current income and capital appreciation by investing primarily in high-yielding, sub investment grade securities of issuers that have their head office or who exercise a predominant part of their activity in Western, Central and Eastern Europe (including Russia). The type of debt securities in which the fund will primarily invest will be subject to high risk and will not be required to meet a minimum rating standard. Most but not all will be rated for creditworthiness by an internationally recognised rating agency.</p>	<p><b>Reference Ccy: Euro</b></p> <p>It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling under such limit.</p>

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Flexible Bond Fund</b>	<p>The fund aims to achieve income and capital growth by primarily investing in a broad range of fixed income instruments of issuers globally either denominated in Sterling or other currencies. Exposure to non-Sterling denominated debt securities will be largely hedged back to Sterling.</p> <p>The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>The manager is not restricted in his choice of investments either by region or country, market sector or industry, and will choose investments largely determined by the availability of attractive investment opportunities. The fund may invest up to 50% of its assets in high-yielding, lower quality instruments which will not be required to meet minimum rating standards and may not be rated for creditworthiness by any internationally recognised rating agency.</p>	<b>Reference Ccy: GBP</b>
<b>Fidelity Funds – Global Bond Fund</b>	<p>Invests in global markets to maximise performance measured in US Dollars. The fund may invest its net assets directly in onshore China fixed income securities listed or traded on any Eligible Market in China.</p> <p>Portfolio Information:</p> <p>Onshore China fixed income securities are listed or traded on any Eligible Market in China, and are issued by a variety of issuers such as government, quasi-government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities with commercial activities in China.</p>	<p><b>Reference Ccy: USD</b></p> <p>The fund can directly invest in onshore China fixed income securities listed or traded on any Eligible Market in China through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in onshore China fixed income securities (with aggregate exposure including direct and indirect investments up to 30% of its assets).</p> <p>Eligible Market in China refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p>
<b>Fidelity Funds – Global Corporate Bond Fund</b>	<p>The fund aims to achieve income and capital growth through investing primarily in global investment grade corporate debt securities. The fund may also invest in government and other debt instruments.</p>	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – Global High Grade Income Fund</b>	<p>This fund seeks to provide an attractive current income by investing primarily in a worldwide diversified portfolio of high quality and short-dated bonds that are issued and denominated in approximately 10 chosen markets/currencies. High quality bonds are considered bonds that are issued by governments, quasi-government and supranational entities with investment grade credit ratings.</p>	<b>Reference Ccy: USD</b>
<b>Fidelity Funds – Global High Yield Fund</b>	<p>This fund seeks a high level of current income and capital appreciation by investing primarily in high-yielding, sub investment grade securities of issuers globally. The Investment Manager will typically focus its investments in a more concentrated number of securities and therefore the resulting portfolio will be less diversified. This fund will suit those investors seeking high income and capital appreciation and who are prepared to accept the risks associated with this type of investment. The type of debt securities in which the fund will primarily invest will be subject to high risk and will not be required to meet a minimum rating standard. Most but not all will be rated for creditworthiness by an internationally recognised rating agency. The fund may invest its net assets directly in onshore China fixed income securities listed or traded on any Eligible Market in China.</p> <p><b>Portfolio Information:</b></p> <p>Onshore China fixed income securities are listed or traded on any Eligible Market in China, and are issued by a variety of issuers such as government, quasi-government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities with commercial activities in China.</p>	<p><b>Reference Ccy: USD</b></p> <p>The fund can directly invest in onshore China fixed income securities listed or traded on any Eligible Market in China through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in onshore China fixed income securities (with aggregate exposure including direct and indirect investments up to 30% of its assets).</p> <p>Eligible Market in China refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p>

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Global Hybrids Bond Fund</b>	<p>The fund seeks a high level of current income and the potential for capital appreciation by investing in hybrid bonds ('Hybrids'), that is, debt securities with equity-like features. The portfolio will be primarily invested in Hybrids issued by non-financial institutions (corporate Hybrids) and by financial institutions (financial Hybrids), including contingent convertibles, as well as in other subordinated financial debt and preference shares. These investments include investment grade and non-investment grade assets. The Investment Manager is not restricted in its choice of companies either by region or country and will choose bonds largely determined by the availability of attractive investment opportunities. The fund may also invest in other transferable securities, units/shares of UCITS/or other UCIs, Money Market Instruments, cash and deposits.</p> <p><b>Portfolio Information:</b></p> <p>Corporate Hybrids are highly subordinated debt securities and typically the last to be paid in the event of insolvency. They generally do not have any conversion features but carry equity-like features, for example, coupon payments may be deferred or cancelled at the discretion of the issuer. Contingent convertibles are subordinated financial bonds meaning that the holder's claim on assets is ranked lower than senior debt in case of bankruptcy or liquidation of the issuer, but normally higher than equity. Holders of subordinated financial bonds are the first in the debt capital structure to absorb capital losses of the issuer. Depending on the specific terms of the contingent convertible issue, if a predefined event occurs (for example, if an issuer's capital ratio or leverage breaches a pre-agreed threshold), the contingent convertible will be converted into equity or partially written off or completely written off or written off with the option of revaluation under certain circumstances if capital levels are rebuilt. The conversion serves to bolster the capital base of the issuer in times of stress. Other subordinated financial debt and preference shares do not have a conversion feature but rank behind senior debt in the case of insolvency.</p>	<p><b>Reference Ccy: USD</b></p> <p>Suitable for sophisticated investors who have the appropriate investment expertise to understand the key features and the risks associated with an investment in this fund.</p> <p>Class A Shares of this fund have a minimum investment amount of USD 10,000.</p>
<b>Fidelity Funds - Global Income Fund</b>	<p>This fund seeks a high level of current income and the potential for capital appreciation by primarily investing in a portfolio of global fixed income securities, including, but not limited to, investment grade corporate bonds and government bonds of varying maturities, and high yield bonds and emerging market debt denominated in various currencies. Emerging market debt may include investments within, although not limited to, Latin America, South East Asia, Africa, Eastern Europe (including Russia) and the Middle East. The fund may invest its net assets directly in onshore China fixed income securities listed or traded on any Eligible Market in China.</p> <p><b>Portfolio Information:</b></p> <p>At least 50% of the portfolio will be invested in investment grade fixed income securities, with the balance invested in, but not limited to, high yielding debt securities, which normally carry sub-investment grade ratings and emerging market debt.</p> <p>The manager is not restricted in his choice of companies either by region or country, and will choose bonds largely determined by the availability of attractive investment opportunities.</p> <p>Onshore China fixed income securities are listed or traded on any Eligible Market in China, and are issued by a variety of issuers such as government, quasi-government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities with commercial activities in China.</p>	<p><b>Reference Ccy: USD</b></p> <p>It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling under such limit.</p> <p>The fund can directly invest in onshore China fixed income securities listed or traded on any Eligible Market in China through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in onshore China fixed income securities (with aggregate exposure including direct and indirect investments up to 30% of its assets).</p> <p>Eligible Market in China refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p>
<b>Fidelity Funds – Global Inflation-linked Bond Fund</b>	<p>The aim of the fund is to generate an attractive real level of income and capital appreciation by utilising a range of strategies from within, amongst others, the global inflation-linked, interest rate and credit markets. These strategies include, but are not limited to, active yield curve strategies, sector rotation, security selection, relative value management and duration management. The fund primarily invests in bonds and short-term securities. It may also invest in derivatives.</p> <p>The fund invests primarily in inflation-linked bonds, nominal bonds and other debt securities of worldwide issuers in developed and emerging markets including but not limited to those issued by governments, agencies, supranationals, corporations and banks. The fund may invest up to 30% in Money Market Instruments and bank deposits, up to 25% in convertible bonds and up to 10% in shares and other participations rights. These investments include investment grade and non-investment grade assets.</p> <p>The fund may also invest in UCITS and UCIs.</p>	<p><b>Reference Ccy: USD</b></p> <p>The indices referred to are compliant with article 44 of the Law of 2010.</p>

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Global Strategic Bond Fund</b>	<p>The fund seeks to maximise return through capital appreciation and income by primarily investing in a broad range of fixed income instruments of issuers globally. The fund will adopt an active asset allocation approach, which may include investment into high yield instruments and emerging markets. Investments will not be required to meet minimum rating standards.</p> <p>The fund may also invest in UCITS and UCIs.</p> <p>The fund may invest its net assets directly in onshore China fixed income securities listed or traded on any Eligible Market in China.</p> <p><b>Portfolio Information:</b></p> <p>The Investment Manager is not restricted in his choice of investments either by region or country, market sector or industry, and will choose investments largely determined by the availability of attractive investment opportunities. Onshore China fixed income securities are listed or traded on any Eligible Market in China, and are issued by a variety of issuers such as government, quasi-government, banks, financial institutions or other corporate entities established or incorporated in China or corporate entities with commercial activities in China.</p>	<p><b>Reference Ccy: USD</b></p> <p>The fund can directly invest in onshore China fixed income securities listed or traded on any Eligible Market in China through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in onshore China fixed income securities (with aggregate exposure including direct and indirect investments up to 30% of its assets).</p> <p>Eligible Market in China refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market, as the case may be.</p>
<b>Fidelity Funds – US Dollar Bond Fund</b>	<p>Invests principally in US Dollar denominated debt securities.</p>	<p><b>Reference Ccy: USD</b></p>
<b>Fidelity Funds – US High Yield Fund</b>	<p>This fund seeks a high level of current income and capital appreciation by investing primarily in high-yielding, lower-quality securities of issuers that have their principal business activities in the United States. This fund will suit those investors seeking high income and capital appreciation and who are prepared to accept the risks associated with this type of investment. The type of debt securities in which the fund will primarily invest will be subject to high risk, will not be required to meet a minimum rating standard and may not be rated for creditworthiness by any internationally recognised rating agency.</p>	<p><b>Reference Ccy: USD</b></p> <p>This fund may invest up to 10% of its net assets in loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010 (within the 10% limit as set out under Part V, A. 1 2. of the Prospectus).</p>

### 1.3.5. CASH FUNDS

The aim of the Cash funds is to provide investors with a return in line with money market rates where both capital security and liquidity are primary considerations from professionally managed portfolios of debt securities and other assets permitted by law in different geographical areas and currencies, with the opportunity to achieve the objective of regular income and high liquidity. For the remaining assets, the Investment Manager has the freedom to invest in other permitted assets, within the restrictions imposed by law, including Money Market Instruments which are regularly negotiated, provided that the average residual maturity of the portfolio of the Cash fund concerned does not exceed 12 months.

All Cash funds have the same investment policy, the essential differences being the currency in which their assets are denominated. The assets of a Cash fund shall be converted into the relevant currency for that fund. The assets of the Cash funds shall exclusively be composed of interest bearing transferable debt securities with initial or residual maturities of less than 12 months as well as, within the restrictions set out by law, in Money Market Instruments and in cash. The types of debt securities in which the various Cash funds may invest include those which are traded on the Money Market in the United Kingdom, regulated by the Financial Conduct Authority, or on the Over The Counter Market in the United States of America, regulated by the US Securities and Exchange Commission and the National Association of Securities Dealers. These may include the following:

- instruments of US and other banks;
- commercial paper;
- obligations issued or guaranteed by governments, governmental agencies, or instrumentalities;
- variable rate notes;
- variable rate certificates of deposit;
- certain investment grade collateralised mortgage obligations and other asset-backed securities; unless otherwise specified, such securities will not exceed 20% of the net assets of each fund, provided that such limit will not apply to securities issued or guaranteed by governments or government sponsored entities; and
- issues of governments and supranational agencies, such as Treasury Bills, notes and bonds.

The Cash funds may also acquire, within the restrictions imposed by law, Money Market Instruments which are regularly negotiated, provided that the average residual maturity of the portfolio of the Cash fund concerned does not exceed 12 months. With due consideration given to the restrictions on investments required by applicable law and regulations and on an ancillary basis, each Cash fund may further hold cash and cash equivalents (including Money Market Instruments which are regularly negotiated, provided that the average residual maturity of the portfolio of the Cash fund concerned does not exceed 12 months), up to 49% of their net assets; this percentage may exceptionally be exceeded if the Directors consider this to be in the best interests of the Shareholders.

All Cash funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the Cash funds with a level of risk which is consistent with the risk profile of the relevant Cash fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund\*. Financial derivative instruments may include interest rate futures, interest rate swaps, forward contracts or a combination thereof.

Certain Cash funds may in addition make extensive use of financial derivative instruments or use complex derivative instruments or strategies to meet the investment objectives of the funds. When a Cash fund has such extended derivative powers this will be mentioned in the investment objective of the relevant fund.

Unless otherwise specified in the notes to a fund under the title "Global Exposure", the method used to calculate the global exposure relating to derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to "Risk Factors", Part I (1.2) of the Prospectus.

In accordance with Part V, section H. "EU Securities Financing Transaction Regulations" of the Prospectus, the Cash funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Cash funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

#### **Investor Profile**

Cash funds would mainly suit investors for whom capital security and liquidity are primary considerations, recognising that the Net Asset Value of the funds is not guaranteed, that Shares of the funds are not bank deposits and there is no assurance that any appreciation in value of Shares will occur.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Australian Dollar Cash Fund</b>	Invests principally in Australian Dollar denominated debt securities and other permitted assets.	<b>Reference Ccy: AUD</b> No sales, switching or redemption charges are applied to this fund.

\* The use of financial derivative instruments in line with these criteria is referred to as Efficient Portfolio Management under the Regulation of 2008.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Euro Cash Fund</b>	Invests principally in Euro denominated debt securities and other permitted assets.	<b>Reference Ccy: Euro</b> No sales, switching or redemption charges are applied to this fund.
<b>Fidelity Funds – Sterling Cash Fund</b>	Invests principally in United Kingdom Pounds Sterling denominated debt securities and other permitted assets.	<b>Reference Ccy: GBP</b> No sales, switching or redemption charges are applied to this fund.
<b>Fidelity Funds – US Dollar Cash Fund</b>	Invests principally in US Dollar denominated debt securities and other permitted assets.	<b>Reference Ccy: USD</b> No sales, switching or redemption charges are applied to this fund.

### 1.3.6. FIDELITY LIFESTYLE FUNDS

The aim of the Fidelity Lifestyle Funds is to provide investors with a range of funds that will be managed using a lifecycle approach, designed to maximise total investment return by holding a diversified portfolio. This should be achieved by co-managing assets and by changing the asset allocation over time. Where initially the funds may be heavily invested in, or achieve exposure to, equities, they may also be invested in, or achieve exposure to, a more conservative portfolio of bonds, interest bearing debt securities, money market securities or elements of their return (such as credit, interest rate or foreign exchange elements), throughout the world. The percentage weightings will vary over time as the fund approaches, reaches and passes its target date in accordance with the investment objective and individual market developments.

Bonds or debt instruments can, among others, be issued by governments, agencies, supra-nationals, private or publicly quoted companies, special purpose or investment vehicles, or trusts. They may pay fixed or variable coupons, whereby the variable element may be derived from prevailing market interest rates or the performance of other assets (e.g. asset-backed securities). Unless otherwise specified, asset-backed securities and mortgage-backed securities will not exceed 20% of the net assets of each fund, provided that such limit will not apply to investments in such securities issued or guaranteed by the United States government or United States government sponsored entities. The repayment of a bond may have a fixed date or may be subject to some issuer discretion (e.g. some mortgage bonds). Bonds can have conversion or subscription rights to other assets attached to them (e.g. convertible bonds). Not all bonds or debt instruments will have been rated by one or several rating agencies; some may have a below investment grade rating.

Investments for the Euro denominated Fidelity Lifestyle Funds may be made in transferable securities and/or debt instruments issued in currencies other than the fund's Reference Currency. The Investment Manager may choose to hedge currency exposures through the use of instruments such as forward foreign exchange contracts.

The Board may from time to time introduce additional funds to complement the funds detailed below.

The Fidelity Lifestyle Funds may have non-material exposure to loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010.

All Fidelity Lifestyle Funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the Fidelity Lifestyle Funds (including for investment purposes on a non-extensive basis) with a level of risk which is consistent with the risk profile of the relevant Fidelity Lifestyle Fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund.

Financial derivative instruments may be used to replicate the performance of physically held securities. Financial derivative instruments such as futures, contracts for difference and equity swaps may be used to synthetically replicate the performance of a single stock, basket or index of equity securities. Options such as puts, calls and warrants may be used to afford funds the right or obligation to buy or sell equity at a predetermined value and thereby either generate capital growth, income, or reduce risk. Also, financial derivative instruments may be used to (i) increase or reduce exposure to interest rate risk (including inflation) through the use of interest rate or bond futures, options, swaptions and interest rate, total return or inflation swaps (ii) buy or sell part or all of the credit risk relating to single issuer, or multiple issuers referenced in a basket or index through the use of options, credit default and total return swaps and (iii) to hedge, reduce or increase exposure to currencies through the use of forwards, including non-deliverable forwards and currency swaps.

Other fixed income strategies may include positions that benefit from a decline in value or that give exposure to certain elements of returns of a particular issuer or asset in order to provide returns that are unrelated to those of the general market or positions that would not have been available without the use of financial derivative instruments. Financial derivative instruments may be over-the-counter ("OTC") and/or exchange traded instruments on underlying assets.

Certain Fidelity Lifestyle Funds may in addition make extensive use of financial derivative instruments or use complex derivative instruments or strategies to meet the investment objectives of the funds. When a Fidelity Lifestyle Fund has such extended derivative powers this will be mentioned in the investment objective of the relevant fund.

Unless otherwise specified in the notes to a fund under the title "Global Exposure", the method used to calculate the global exposure relating to financial derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to "Risk Factors", Part I (1.2) of the Prospectus.

In accordance with Part V, section H. "EU Securities Financing Transaction Regulations" of the Prospectus, the Fidelity Lifestyle Funds may for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Fidelity Lifestyle Funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

#### **Investor Profile**

Fidelity Lifestyle Funds may be suitable for investors who wish to participate in capital markets while being prepared to accept the risks described for each Fidelity Lifestyle Fund under "Risk Factors", Part I (1.2) of the Prospectus. Investment in a Fidelity Lifestyle Fund should be regarded as a long-term investment.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Fidelity Target™ 2015 (Euro) Fund</b>	The fund aims to provide long-term capital growth for Euro investors planning to withdraw substantial portions of their investment in the year 2015. The fund will typically invest in a wide range of investments covering markets throughout the world and providing exposure to bonds, equities, interest bearing securities and money market securities as well as instruments providing exposure to commodities, in accordance with an asset allocation that will become increasingly conservative as the year 2015 is approached. The Euro to which the name of the fund refers is a currency of reference and not a currency of investments. Accordingly, the fund may also invest its assets in currencies other than the Euro.	<b>Reference Ccy: Euro</b> Any commodity exposure for this fund will be obtained through eligible instruments and derivatives such as units/shares of UCITS/or other UCIs, Exchange Traded Funds, commodity index swap transactions compliant with article 9 of the Grand-Ducal Regulation of 8 February 2008 and transferable securities and money market instruments with no embedded derivatives.

### 1.3.7. RESERVED FUNDS

#### Fidelity Advisor World Funds

The Fidelity Advisor World Funds are a range of Equity, Multi Asset and Bond funds within the Fund which may only be acquired by investors who are Undertakings for Collective Investment managed by Fidelity or investors whose assets are held in accounts managed by Fidelity and wish to participate in capital markets while being prepared to accept the risks described for each Reserved fund under “Risk Factors”, Part I (1.2) of the Prospectus. Investment in a Reserved fund should be regarded as a long-term investment.

The Reserved Equity funds will invest in equities or related instruments, including financial derivative instruments, in the markets and sectors reflected in the name of each individual fund and in companies established outside those markets but which derive a significant proportion of their earnings from those markets. For any remaining assets, the Investment Manager has the freedom to invest outside the fund’s principal geographies, market sectors, currency or asset classes.

The Reserved Bond funds may invest in, or achieve exposure to, bonds or debt instruments or elements of their return (such as credit, interest rate or foreign exchange elements). Such bonds or debt instruments can, among others, be issued by governments, agencies, supra-nationals, private or publicly quoted companies, special purpose or investment vehicles, or trusts. They may pay fixed or variable coupons, whereby the variable element may be derived from prevailing market interest rates or the performance of other assets (e.g. asset-backed securities). Unless otherwise specified, asset-backed securities and mortgage-backed securities will not exceed 20% of the net assets of each fund, provided that such limit will not apply to investments in such securities issued or guaranteed by the United States government or United States government sponsored entities. The repayment of a bond may have a fixed date or may be subject to some issuer discretion (e.g. some mortgage bonds). Bonds can have conversion or subscription rights to other assets attached to them (e.g. convertible bonds). Not all bonds or debt instruments will have been rated by one or several rating agencies; some may have a below investment grade rating.

The Reserved Bond funds may have non-material exposure to loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010. Some Reserved Bond funds may have a higher exposure to such instruments as further detailed in the notes to the relevant funds.

All Reserved funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the Reserved funds (including for investment purposes on a non-extensive basis) with a level of risk which is consistent with the risk profile of the relevant Reserved fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund.

Reserved funds may use financial derivative instruments to manage risks, generate income or capital growth associated with the asset classes in which they invest. Financial derivative instruments may be over-the-counter (“OTC”) and/or exchange traded instruments.

Financial derivative instruments referencing underlying equity assets, such as futures, contracts for difference and equity swaps may be used to synthetically replicate the performance of a single stock, basket or index of equity securities. Options such as put, calls and warrants may be used to afford funds the right to buy or sell equity at a predetermined value and thereby either generate income, capital growth or reduce risk.

Financial derivative instruments referencing underlying fixed income assets or components thereof may be used by Reserved funds to (i) increase or reduce exposure to interest rate risk (including inflation) through the use of interest rate or bond futures, options and interest rate, total return or inflation swaps (ii) buy or sell part or all of the credit risk relating to single issuer, or multiple issuers referenced in a basket or index through the use of bonds futures, options, credit default and total return swaps and (iii) to hedge, reduce or increase exposure to currencies through the use of forwards, including non-deliverable forwards and currency swaps.

Financial derivative instruments may also be used to replicate the performance of a security or asset class (e.g. commodity indexes or property). Other strategies may include positions that benefit from a decline in value or that give exposure to certain elements of returns of a particular issuer or asset in order to provide returns that are unrelated to those of the general market or positions that would not have been available without the use of financial derivative instruments.

Certain Reserved funds may in addition make extensive use of financial derivative instruments or use complex derivative instruments or strategies to meet the investment objectives of the funds. When a Reserved fund has such extended derivative powers this will be mentioned in the investment objective of the relevant fund.

Unless otherwise specified in the notes to a fund under the title “Global Exposure”, the method used to calculate the global exposure relating to financial derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to “Risk Factors”, Part I (1.2) of the Prospectus.

In accordance with Part V, section H. “EU Securities Financing Transaction Regulations” of the Prospectus, the Reserved funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Reserved funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

Reserved Funds – Equity Funds		
Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Fidelity Advisor World Funds Asian Special Situations Fund</b>	Invests at least 75% of the portfolio in special situations stocks and smaller growth companies in Asia, excluding Japan. Special situations stocks generally have valuations which are attractive in relation to net assets or earnings potential with additional factors which may have a positive influence on the share price. Up to 25% of the portfolio can consist of investments other than special situations stocks and smaller growth companies. The fund may invest its net assets directly in China A and B Shares.	<b>Reference Ccy: USD</b> Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.  This fund is not available through clearing houses.  The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).
<b>Fidelity Funds – Fidelity Advisor World Funds Diversified Stock Fund</b>	The fund seeks capital growth primarily through investment in a diversified portfolio of US equity securities.	<b>Reference Ccy: USD</b> Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.  This fund is not available through clearing houses.
<b>Fidelity Funds – Fidelity Advisor World Funds Equity Growth Fund</b>	The fund seeks capital appreciation primarily through investment in a growth-oriented portfolio of US equity securities.	<b>Reference Ccy: USD</b> Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.  This fund is not available through clearing houses.
<b>Fidelity Funds – Fidelity Advisor World Funds Equity Income Fund</b>	The fund seeks reasonable income primarily through investment in US equity securities. In pursuing this objective, the fund will also consider the potential for capital appreciation.	<b>Reference Ccy: USD</b> Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.  This fund is not available through clearing houses.
<b>Fidelity Funds – Fidelity Advisor World Funds Emerging Markets Fund</b>	The fund aims to achieve capital appreciation through primarily investing in global emerging markets equity securities. Emerging markets include countries that have an emerging stock market as defined by MSCI, countries or markets with low to middle income economies as classified by the World Bank and other countries or markets with similar emerging characteristics.	<b>Reference Ccy: USD</b> Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.  This fund is not available through clearing houses.
<b>Fidelity Funds – Fidelity Advisor World Funds Europe Fund</b>	This fund seeks long-term capital growth by investing primarily in equity securities of companies that have their principal business activities in Western Europe.	<b>Reference Ccy: USD</b> Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.  This fund is not available through clearing houses.
<b>Fidelity Funds – Fidelity Advisor World Funds International Fund</b>	Invests principally in equity securities in markets throughout the world including major markets and smaller emerging markets.	<b>Reference Ccy: USD</b> Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.  This fund is not available through clearing houses.
<b>Fidelity Funds – Fidelity Advisor World Funds Mega Cap Stock Fund</b>	The fund aims to achieve long-term capital growth through a combination of current income and capital appreciation. The fund will invest primarily in securities of the largest US companies by market capitalisation.	<b>Reference Ccy: USD</b> Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.  This fund is not available through clearing houses.

Reserved Funds – Equity Funds		
Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Fidelity Advisor World Funds Pacific Fund</b>	Invests principally in an actively managed portfolio of equities in the Asia Pacific region. The Asia Pacific region comprises countries including, but not limited to, Japan, Australia, China, Hong Kong, India, Indonesia, Korea, Malaysia, New Zealand, Philippines, Singapore, Taiwan and Thailand. The fund may invest its net assets directly in China A and B Shares.	<p><b>Reference Ccy: USD</b></p> <p>Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.</p> <p>This fund is not available through clearing houses.</p> <p>The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. Reserved Funds – Bond Funds		
Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Fidelity Advisor World Funds Limited Term Bond Fund</b>	The fund aims to earn current income primarily through investment in U.S. Dollar denominated investment grade debt securities (those of medium and high quality) of all types. The fund will normally maintain a dollar-weighted average maturity of between two and five years.	<p><b>Reference Ccy: USD</b></p> <p>Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.</p> <p>This fund is not available through clearing houses.</p>
<b>Fidelity Funds – Fidelity Advisor World Funds US Dollar Bond Fund</b>	Primarily composed of US Dollar denominated bonds.	<p><b>Reference Ccy: USD</b></p> <p>Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.</p> <p>This fund is not available through clearing houses.</p>
<b>Fidelity Funds – Fidelity Advisor World Funds US High Income Fund</b>	This fund seeks a high level of current income and capital appreciation by investing primarily in high-yielding, lower-quality securities of issuers that have their principal business activities in the USA. The type of debt securities in which the fund will primarily invest will be subject to high risk, will not be required to meet a minimum rating standard and may not be rated for creditworthiness by any internationally recognised rating agency.	<p><b>Reference Ccy: USD</b></p> <p>This fund may invest up to 10% of its net assets in loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010 (within the 10% limit as set out under Part V, A. 1 2. of the Prospectus).</p> <p>Switches into the fund are subject to compliance with the minimum investment and the investment target criteria set out for this range of funds.</p> <p>This fund is not available through clearing houses.</p>

### 1.3.8. INSTITUTIONAL RESERVED FUNDS

The Institutional Reserved funds are a range of Institutional Reserved Equity and Institutional Reserved Bond funds within the Fund which may only be acquired by Institutional Investors who meet the requirements established from time to time by the General Distributor. The I class of Shares is designed principally for investment of assets of Institutional Investors such as pension funds, charities and local government bodies.

#### Institutional Reserved Bond Funds

The aim of all Bond funds is to provide investors with the possibility of capital gains. Power is reserved to invest up to 100% of the assets of any fund in securities issued or guaranteed by certain government and other public bodies as described more fully in Part V, section A. of the Prospectus.

##### Investment Policies

Occasionally, investments for all Bond funds may be made in bonds issued in currencies other than the fund's Reference Currency. The Investment Manager may choose to hedge currency exposures through the use of instruments such as forward foreign exchange contracts.

With due consideration given to the restrictions on investments required by applicable law and regulations and on an ancillary basis, the Bond funds may further hold cash and cash equivalents (including Money Market Instruments and time deposits) up to 49% of their net assets. These percentages may exceptionally be exceeded if the Directors consider this to be in the best interests of the Shareholders.

The Institutional Reserved Bond funds may invest in, or obtain exposure to, bonds or debt instruments or elements of their return (such as credit, interest rate or foreign exchange elements). Such bonds or debt instruments can, among others, be issued by governments, agencies, supra-nationals, private or publicly quoted companies, special purpose or investment vehicles, or trusts. They may pay fixed or variable coupons, whereby the variable element may be derived from prevailing market interest rates or the performance of other assets (e.g. asset-backed securities). Unless otherwise specified, asset-backed securities and mortgage-backed securities will not exceed 20% of the net assets of each fund, provided that such limit will not apply to investments in such securities issued or guaranteed by the United States government or United States government sponsored entities. The repayment of a bond may have a fixed date or may be subject to some issuer discretion (e.g. some mortgage bonds). Bonds can have conversion or subscription rights to other assets attached to them (e.g. convertible bonds). Not all bonds or debt instruments will have been rated by one or several rating agencies; some may have a below investment grade rating. For any remaining assets, the Investment Manager has the freedom to invest outside the fund's principal geographies, market sectors, credit quality, currency or asset classes (which may include, but are not limited to, securitized or structured debt instruments and loans).

The Institutional Reserved Bond funds may have non-material exposure to loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010.

All Institutional Reserved Bond funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the Bond funds (including for investment purposes on a non-extensive basis) with a level of risk which is consistent with the risk profile of the relevant Bond fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund.

Financial derivative instruments may be used to (i) increase or reduce exposure to interest rate risk (including inflation) through the use of interest rate or bond futures, options, swaptions and interest rate, total return or inflation swaps (ii) buy or sell part or all of the credit risk relating to single issuer, or multiple issuers referenced in a basket or index through the use of options, credit default and total return swaps and (iii) to hedge, reduce or increase exposure to currencies through the use of forwards, including non-deliverable forwards and currency swaps.

Financial derivative instruments may also be used to replicate the performance of physically held securities. Other fixed income strategies may include positions that benefit from a decline in value or that give exposure to certain elements of returns of a particular issuer or asset in order to provide returns that are unrelated to those of the general market or positions that would not have been available without the use of financial derivative instruments. Financial derivative instruments may be over-the-counter ("OTC") and/or exchange traded instruments on underlying assets.

Certain Institutional Reserved Bond funds may in addition make extensive use of financial derivative instruments or use complex derivative instruments or strategies to meet the investment objectives of the funds. When an Institutional Reserved Bond fund has such extended derivative powers this will be mentioned in the investment objective of the relevant fund.

Unless otherwise specified in the notes to a fund under the title "Global Exposure", the method used to calculate the global exposure relating to financial derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to "Risk Factors", Part I (1.2) of the Prospectus.

In accordance with Part V, section H. "EU Securities Financing Transaction Regulations" of the Prospectus, the Institutional Reserved Bond funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Institutional Reserved Bond funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

##### Investor Profile

Institutional Reserved Bond funds may be suitable for investors who wish to participate in debt markets while being prepared to accept the risks described for each Institutional Reserved Bond fund under "Risk Factors", Part I (1.2) of the Prospectus. Investment in an Institutional Reserved Bond fund should be regarded as a long-term investment.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Institutional European High Yield Fund</b>	The fund seeks a high level of current income and capital appreciation by investing primarily in high-yielding, sub investment grade securities of issuers that have their head office or who exercise a predominant part of their activity in Western, Central and Eastern Europe (including Russia). The type of debt securities in which the fund will primarily invest will be subject to high risk and will not be required to meet a minimum rating standard. Most but not all will be rated for creditworthiness by an internationally recognised rating agency. Sub investment grade securities mean securities with a rating of BB+ or less from Standard & Poor's or equivalent rating from an internationally recognised rating agency.	<p><b>Reference Ccy: Euro</b></p> <p>It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling under such limit.</p> <p>Subject to eligibility and Distributor acceptance, this fund may be available through clearing houses.</p>

### Institutional Reserved Equity Funds

The aim of all Equity funds is to provide investors with long-term capital growth from diversified and actively managed portfolios of securities or related instruments, including financial derivative instruments. The income from these funds is expected to be low. Equity funds will invest in, or achieve exposure to, equities in the markets and sectors reflected in the name of each individual fund and in companies established outside those markets but which derive a significant proportion of their earnings from those markets. For any remaining assets, the Investment Manager has the freedom to invest outside the fund's principal geographies, market sectors, currency or asset classes.

All Equity funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the Equity funds (including for investment purposes on a non-extensive basis) with a level of risk which is consistent with the risk profile of the relevant Equity fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund.

Financial derivative instruments such as futures, contracts for difference and equity swaps may be used to synthetically replicate the performance of a single stock, basket or index of equity securities. Options such as puts, calls and warrants may be used to afford funds the right or obligation to buy or sell equity at a predetermined value and thereby either generate capital growth, income, or reduce risk. Forwards, non-deliverable forwards and currency swaps may also be used to manage currency exposures within a fund. Financial derivative instruments may be over-the-counter ("OTC") and/or exchange traded instruments.

Certain Equity funds may in addition make extensive use of financial derivative instruments or use complex derivative instruments or strategies to meet the investment objectives of the funds. When an Equity fund has such extended derivative powers this will be mentioned in the investment objective of the relevant fund.

Unless otherwise specified in the notes to a fund under the title "Global Exposure", the method used to calculate the global exposure relating to financial derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to "Risk Factors", Part I (1.2) of the Prospectus.

In accordance with Part V, section H. "EU Securities Financing Transaction Regulations" of the Prospectus, the Institutional Reserved Equity funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Institutional Reserved Equity funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

For the funds that are specifically allowed by their investment objective to make direct investments in China A Shares, such investments may, in addition to the QFII quota, be made through any permissible means available to the funds under prevailing laws and regulations (including through the Stock Connect or any other eligible means).

#### **Investor Profile**

Institutional Reserved Equity funds may be suitable for investors who wish to participate in equity markets while being prepared to accept the risks described for each Institutional Reserved Equity fund under "Risk Factors", Part I (1.2) of the Prospectus. Investment in an Institutional Reserved Equity fund should be regarded as a long-term investment.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Institutional Asia Pacific (ex Japan) Fund</b>	The fund aims to provide long-term capital growth from a portfolio primarily comprised of equities listed on the stock exchanges throughout the Asia Pacific region, excluding Japan. The fund manager may also invest in companies listed in other non-Asia Pacific countries, excluding Japan, which have a significant portion of their activities in the Asian Pacific region, excluding Japan.	<p><b>Reference Ccy: USD</b></p> <p>Subject to eligibility and Distributor acceptance, this fund may be available through clearing houses.</p>

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Institutional Emerging Markets Equity Fund</b>	Invests primarily in equity securities of companies in global markets that are experiencing rapid economic growth including countries in Latin America, South East Asia, Africa, Eastern Europe (including Russia) and the Middle East. The fund may invest its net assets directly in China A and B Shares.	<p><b>Reference Ccy: USD</b></p> <p>It is understood that under the current Luxembourg regulation a fund may invest not more than 10% of its net assets in unlisted securities not dealt on a regulated market. Some investments in Russian securities may be considered as falling under such limit.</p> <p>Subject to eligibility and Distributor acceptance, this fund may be available through clearing houses.</p> <p>The fund can directly invest in China A Shares through the QFII quota of FIL Investment Management (Hong Kong) Limited. The fund may invest up to 10% of its net assets directly in China A and B Shares (with aggregate exposure including direct and indirect investments up to 30% of its assets).</p>
<b>Fidelity Funds – Institutional Euro Blue Chip Fund</b>	Invests principally in blue chip equities in those countries which are members of the European Economic and Monetary Union (EMU) and primarily denominated in Euro. Currently, these are the nineteen member countries but if other countries join the EMU in the future then investment in these countries may also be considered for inclusion in the fund.	<p><b>Reference Ccy: Euro</b></p> <p>Subject to eligibility and Distributor acceptance, this fund may be available through clearing houses.</p>
<b>Fidelity Funds – Institutional European Larger Companies Fund</b>	The fund aims to achieve long-term growth, primarily through investments in equity securities of larger European Companies.	<p><b>Reference Ccy: Euro</b></p> <p>Subject to eligibility and Distributor acceptance, this fund may be available through clearing houses.</p>
<b>Fidelity Funds – Institutional European Smaller Companies Fund</b>	<p>Invests principally in equity securities of small and medium-sized European companies.</p> <p><b>Portfolio Information:</b></p> <p>This fund is managed in compliance with Ethix SRI Advisors AB's (Ethix*) UN Global Compact screening process. Should a holding in the fund's portfolio not be deemed eligible or become ineligible according to the updated Ethix list supplied from time to time to the investment manager, the holding will be liquidated in a reasonable time frame after consultation with the investment manager and in the best interests of the shareholders.</p>	<p><b>Reference Ccy: Euro</b></p> <p>Subject to eligibility and Distributor acceptance, this fund may be available through clearing houses.</p> <p>* Ethix SRI Advisors is a private company owned by its founders and partners. It assists a large number of institutional investors across Europe to develop policies and implement strategies for sustainable and responsible investment. Ethix has participated in and led various initiatives with investors and experts on international standards for corporate responsibility and their applicability to responsible investment. As part of their suite of solutions they develop Socially Responsible Investment policies, screen, monitor and assess company ESG (environmental, social and governance) performance, conduct topic and best practice focused research, engage companies and investors to enhance SRI integration and consistently communicate better SRI policies and practices.</p>
<b>Fidelity Funds – Institutional Global Focus Fund</b>	The fund aims to achieve long-term capital growth from a portfolio primarily invested in stocks across the world's stock markets. The manager is free to select any company regardless of size, industry or location, and will concentrate its investments in a more limited number of companies and therefore the resulting portfolio will be less diversified.	<p><b>Reference Ccy: USD</b></p> <p>Subject to eligibility and Distributor acceptance, this fund may be available through clearing houses.</p>
<b>Fidelity Funds – Institutional Global Sector Fund</b>	The fund aims to achieve long-term capital growth from a portfolio primarily invested in equity securities of companies across the world that provide exposure to sectors and industries including, but not limited to, Consumer Industry, Financial Services, Health Care, Industrials, Metals and Mining, Energy, Technology and Telecommunications.	<p><b>Reference Ccy: Euro</b></p> <p>Subject to eligibility and Distributor acceptance, this fund may be available through clearing houses.</p>
<b>Fidelity Funds – Institutional Japan Fund</b>	The fund's investment objective is to achieve long-term capital appreciation. The fund will invest primarily in the shares of companies in Japan. There is no policy to restrict investment to particular economic sectors.	<p><b>Reference Ccy: JPY</b></p> <p>Subject to eligibility and Distributor acceptance, this fund may be available through clearing houses.</p>

### 1.3.9. INSTITUTIONAL TARGET FUNDS

The aim of the Institutional Target funds is to provide investors with a range of funds that will be managed using a lifecycle approach, designed to maximise total investment return by holding a diversified portfolio. This should be achieved by co-managing assets and by changing the asset allocation over time. Where initially the funds may be heavily invested in, or achieve exposure to, equities, they may also be invested in, or achieve exposure to, a more conservative portfolio of bonds, interest bearing debt securities, money market securities or elements of their return (such as credit, interest rate or foreign exchange elements), throughout the world. The percentage weightings will vary over time as the fund approaches, reaches and passes its target date in accordance with the investment objective and individual market developments.

Bonds or debt instruments which can, among others, be issued by governments, agencies, supra-nationals, private or publicly quoted companies, special purpose or investment vehicles, or trusts. They may pay fixed or variable coupons, whereby the variable element may be derived from prevailing market interest rates or the performance of other assets (e.g. asset-backed securities). Unless otherwise specified, asset-backed securities and mortgage-backed securities will not exceed 20% of the net assets of each fund, provided that such limit will not apply to investments in such securities issued or guaranteed by the United States government or United States government sponsored entities. The repayment of a bond may have a fixed date or may be subject to some issuer discretion (e.g. some mortgage bonds). Bonds can have conversion or subscription rights to other assets attached to them (e.g. convertible bonds). Not all bonds or debt instruments will have been rated by one or several rating agencies; some may have a below investment grade rating.

Investments for the Euro denominated Institutional Target funds may be made in transferable securities and/or debt instruments issued in currencies other than the fund's Reference Currency. The Investment Manager may choose to hedge currency exposures through the use of instruments such as forward foreign exchange contracts.

The Board may from time to time introduce additional funds to complement the funds detailed below.

The Institutional Target funds may have non-material exposure to loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010.

All Institutional Target funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the Institutional Target funds (including for investment purposes on a non-extensive basis) with a level of risk which is consistent with the risk profile of the relevant Institutional Target fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund.

Financial derivative instruments may be used to replicate the performance of physically held securities. Financial derivative instruments such as futures, contracts for difference and equity swaps may be used to synthetically replicate the performance of a single stock, basket or index of equity securities. Options such as puts, calls and warrants may be used to afford funds the right or obligation to buy or sell equity at a predetermined value and thereby either generate capital growth, income, or reduce risk. Also, financial derivative instruments may be used to (i) increase or reduce exposure to interest rate risk (including inflation) through the use of interest rate or bond futures, options, swaptions and interest rate, total return or inflation swaps (ii) buy or sell part or all of the credit risk relating to single issuer, or multiple issuers referenced in a basket or index through the use of options, credit default and total return swaps and (iii) to hedge, reduce or increase exposure to currencies through the use of forwards, including non-deliverable forwards and currency swaps.

Other fixed income strategies may include positions that benefit from a decline in value or that give exposure to certain elements of returns of a particular issuer or asset in order to provide returns that are unrelated to those of the general market or positions that would not have been available without the use of financial derivative instruments. Financial derivative instruments may be over-the-counter ("OTC") and/or exchange traded instruments on underlying assets.

Unless otherwise specified in the notes to a fund under the title "Global Exposure", the method used to calculate the global exposure relating to financial derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to "Risk Factors", Part I (1.2) of the Prospectus.

In accordance with Part V, section H. "EU Securities Financing Transaction Regulations" of the Prospectus, the Institutional Target funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Institutional Target funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

#### **Investor Profile**

Institutional Target funds may be suitable for Institutional Investors who wish to participate in capital markets while being prepared to accept the risks described for each Institutional Target fund under "Risk Factors", Part I (1.2) of the Prospectus. Investment in an Institutional Target fund should be regarded as a long-term investment.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Fidelity Institutional Target™ 2015 (Euro) Fund</b>	The fund aims to provide long-term capital growth for Euro investors planning to withdraw substantial portions of their investment in the year 2015. The fund will typically invest in a wide range of investments covering markets throughout the world and providing exposure to bonds, equities, interest bearing securities and money market securities as well as instruments providing exposure to commodities, in accordance with an asset allocation that will become increasingly conservative as the year 2015 is approached. The Euro to which the name of the fund refers is a currency of reference and not a currency of investments. Accordingly, the fund may also invest its assets in currencies other than the Euro	<b>Reference Ccy: Euro</b>  Class P Shares are not available through clearing houses. Any commodity exposure for this fund will be obtained through eligible instruments and derivatives such as units/shares of UCITS or other UCIs, Exchange Traded Funds, commodity index swap transactions compliant with article 9 of the Grand-Ducal Regulation of 8 February 2008 and transferable securities and Money Market Instruments with no embedded derivatives.
<b>Fidelity Funds – Fidelity Institutional Target™ 2020 (Euro) Fund</b>	The fund aims to provide long-term capital growth for Euro investors planning to withdraw substantial portions of their investment in the year 2020. The fund will typically invest in a wide range of investments covering markets throughout the world and providing exposure to bonds, equities, interest bearing securities and money market securities as well as instruments providing exposure to commodities, in accordance with an asset allocation that will become increasingly conservative as the year 2020 is approached. The fund may also invest up to 100% of its assets in UCITS or UCIs. The Euro to which the name of the fund refers is a currency of reference and not a currency of investments. Accordingly, the fund may also invest its assets in currencies other than the Euro.	<b>Reference Ccy: Euro</b>  Class P Shares are not available through clearing houses. ### 1.3.10. FIXED-TERM BOND FUNDS

The Fixed-Term Bond funds are a range of funds with a fixed term that will be liquidated once the fund reaches its end date. The funds are designed to be held to maturity and investors should be prepared to remain invested until the end date. Once launched, the funds will be closed to all buys, subscriptions and switches in (but not to sales, redemptions and switches out). Redemptions and switches out during the term of the respective fund will be subject to a redemption or a switching fee as specified under 2.1. Classes of Shares and 2.2. Share Dealing in the Prospectus. Where this occurs, such fees would be expected to significantly reduce the return to the Shareholder.

After the maturity date is reached, the respective Fixed-Term Bond fund will be automatically liquidated, free of redemption fee. Following termination of the fund and normally within ten Business Days the proceeds will automatically be returned to the Shareholder.

The Fixed-Term Bond funds may invest in, or achieve exposure to, bonds debt instruments or elements of their return (such as credit, interest rate or foreign exchange elements). Such bonds or debt instruments can, among others, be issued by governments, agencies, supra-nationals, private or publicly quoted companies, special purpose or investment vehicles, or trusts. They may pay fixed or variable coupons, whereby the variable element may be derived from prevailing market interest rates or the performance of other assets (e.g. asset-backed securities). Unless otherwise specified, asset-backed securities and mortgage-backed securities will not exceed 20% of the net assets of each fund, provided that such limit will not apply to investments in such securities issued or guaranteed by the United States government or United States government sponsored entities. The repayment of a bond may have a fixed date or may be subject to some issuer discretion (e.g. some mortgage bonds). Bonds can have conversion or subscription rights to other assets attached to them (e.g. convertible bonds). Not all bonds or debt instruments will have been rated by one or several rating agencies; some may have a below investment grade rating.

Any reference in this section to investment grade securities shall mean securities with a rating of BBB- or higher from Standard & Poor's or equivalent rating from an internationally recognised rating agency (in case of divergent ratings, the worst of the best two credit ratings applies).

Any reference in this section to sub investment grade securities shall mean securities with a rating of BB+ or less from Standard & Poor's or equivalent rating from an internationally recognised rating agency (in case of divergent ratings, the worst of the best two credit ratings applies).

Occasionally, investments for all Fixed-Term Bond funds may be made in bonds issued in currencies other than the fund's Reference Currency. The Investment Manager will usually choose to hedge these currencies, that is with the foreign exchange risk eliminated as far as possible, through the use of forward foreign exchange contracts.

With due consideration given to the restrictions on investments required by applicable law and regulations and on an ancillary basis, the Fixed-Term Bond funds may further hold cash and cash equivalents (including Money Market instruments and time deposits) up to 49% of their net assets. This percentage may exceptionally be exceeded if the Directors consider this to be in the best interests of the Shareholders.

The Bond funds may have non-material exposure to loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010. Some Bond funds may have a higher exposure to such instruments as further detailed in the notes to the relevant funds.

All Fixed-Term Bond funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for the funds (including for investment purposes on a non-extensive basis) with a level of risk which is consistent with the risk profile of the relevant Fixed-Term Bond fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund.

Financial derivative instruments may be used to (i) increase or reduce exposure to interest rate risk (including inflation) through the use of interest rate or bond futures, options, swaptions and interest rate, total return or inflation swaps (ii) buy or sell part or all of the credit risk relating to single issuer, or multiple issuers referenced in a basket or index through the use of options, credit default and total return swaps and (iii) to hedge, reduce or increase exposure to currencies through the use of forwards, including non-deliverable forwards and currency swaps.

Financial derivative instruments may also be used to replicate the performance of physically held securities. Other fixed income strategies may include positions that benefit from a decline in value or that give exposure to certain elements of returns of a particular issuer or asset in order to provide returns that are unrelated to those of the general market or positions that would not have been available without the use of financial derivative instruments. Financial derivative instruments may be over-the-counter ("OTC") and/or exchange traded instruments on underlying assets.

Unless otherwise specified in the notes to a fund under the title "Global Exposure", the method used to calculate the global exposure relating to financial derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to "Risk Factors", Part I (1.2) of the Prospectus.

In accordance with Part V, section H. "EU Securities Financing Transaction Regulations" of the Prospectus, the Fixed-Term Bond funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Fixed-Term Bond funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

#### **Investor Profile**

Fixed-Term Bond funds may be suitable for investors who wish to participate in debt markets while being prepared to accept the risks described for each Fixed-Term Bond fund under "Risk Factors", Part I (1.2) of the Prospectus. Investment in a Fixed-Term Bond fund may suit investors that are willing to stay invested until the maturity of the fund.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – Fidelity TopZins Plus 2018</b>	<p>The fund aims to deliver an attractive yield compared to high quality government bonds. The fund will invest primarily in corporate and/or government debt securities issued globally with maturity dates within twelve months of the end date of the fund. The fund will invest in a combination of investment grade securities and high yielding sub investment grade securities. Investments in high yielding sub investment grade securities will be up to 25% of the net assets of the fund (based on ratings at the time of initial acquisition). These securities may be subject to higher risk compared to high quality government bonds. Investments may be made in bonds issued in currencies other than the fund's reference currency which is the Euro. These investments may be hedged back into Euro. As the end date of the fund approaches, the fund may invest into Money Market Instruments and/or other short term debt instruments including certificates of deposit, commercial paper and floating rate notes, as well as in cash and cash equivalents. The last Net Asset Value per Share will be calculated on 14 December 2018 and proceeds will be returned to Shareholders no later than 31 December 2018.</p> <p><b>Portfolio Information:</b></p> <p>As the fund seeks to lock in an attractive level of yield at the time of launch, it is expected to hold a majority of its investments to maturity. However, the fund retains flexibility to transact in and out of securities throughout the life of the fund in order to achieve the investment objective. In the event of a security being downgraded from investment grade to sub investment grade, the fund retains flexibility to exchange this security for one of a similar risk profile. This is regardless of the 25% investment limit in high yielding sub investment grade securities described above.</p> <p>It should be noted that after launch yields on comparable bonds, with a similar maturity and risk profile to that of the fund, could fluctuate over time and could reduce the attractiveness of the fund.</p> <p>The repayment of capital at maturity will be below 100%, as the distributed income level will be higher than the expected total return of the fund.</p>	<p><b>Reference Ccy: Euro</b></p> <p>This fund will be closed to all buys, subscriptions, and switches in (but not to sales, redemptions and switches out) from 2 November 2015 or such earlier date as determined by the Board.</p> <p>The fund will be valued daily based on prevailing market prices for the securities held by the fund. As such, the Net Asset Value per Share will be variable.</p>
<b>Fidelity Funds – Fixed Term 2018 Fund</b>	<p>The fund aims to deliver an attractive yield relative to that of high quality global government bonds by investing primarily in corporate debt securities issued globally. The fund will primarily invest in corporate debt securities with a maturity date not later than 31 December 2018. The fund will invest in a combination of high yielding sub investment grade securities up to 40% of its assets (based on ratings at the time of launch), and investment grade corporate and government securities. These securities may be subject to higher risk compared with high quality government bonds.</p> <p>The fund will be automatically liquidated four years after launch and the proceeds returned to Shareholders.</p> <p><b>Portfolio Information:</b></p> <p>As the fund is expected to hold a majority of its investments to maturity it seeks to lock in an attractive level of yield compared with high quality global government bonds, of a similar maturity, at the time of launch. It should be noted that after launch comparable yields on high quality global government bonds, with a similar maturity to that of the fund, could fluctuate over time and could reduce the attractiveness of the fund.</p>	<p><b>Reference Ccy; Euro</b></p> <p>This fund is closed to all buys, subscriptions, and switches in (but not to sales, redemptions and switches out).</p> <p>Redemptions and switches out during the term of the fund will be subject to a redemption or a switching fee of 2% as specified under section 2.1. Classes of Shares and 2.2. Share Dealing.</p> <p>While the intent is to hold the majority of the fund's holdings to maturity, the fund will be valued daily based on prevailing market prices for the securities held by the fund. As such, the Net Asset Value per Share will be variable.</p>

### 1.3.11. SYSTEMATIC MULTI ASSET RISK TARGETED FUNDS

The aim of each Systematic Multi Asset Risk Targeted fund is to provide investors with a discretionary management service by selecting a highly diversified investment in equities, bonds and other liquid assets. The weightings of each of these asset classes will vary in accordance with the investment objective and individual market developments.

Systematic Multi Asset Risk Targeted funds use the term “SMART” in their name to highlight their use of the Fidelity proprietary SMART model that seeks to maintain the overall portfolio’s volatility within a given long term target range. The model analyses the volatility of each of the following risk categorised asset groups:

- Defensive: assets with lower volatility and favouring capital stability e.g. government bonds;
- Yield: assets providing income with moderate growth and volatility e.g. high yield bonds and dividend stocks; and
- Growth: assets with the highest growth potential and volatility of the three categories e.g. equities.

The model then generates an allocation between these three asset groups based on the allocation which would efficiently maintain the long term volatility within a predefined range (targeted (but not guaranteed) over the long term).

The Systematic Multi Asset Risk Targeted funds may invest in bonds or debt instruments which can, among others, be issued by governments, agencies, supra-nationals, private or publicly quoted companies, special purpose or investment vehicles, or trusts. They may pay fixed or variable coupons, whereby the variable element may be derived from prevailing market interest rates or the performance of other assets (e.g. asset-backed securities). Unless otherwise specified, asset-backed securities and mortgage-backed securities will not exceed 20% of the net assets of each fund, provided that such limit will not apply to investments in such securities issued or guaranteed by the United States government or United States government sponsored entities. The repayment of a bond may have a fixed date or may be subject to some issuer discretion (e.g. some mortgage bonds). Bonds can have conversion or subscription rights to other assets attached to them (e.g. convertible bonds). Not all bonds or debt instruments will have been rated by one or several rating agencies; some may have a below investment grade rating. The Systematic Multi Asset Risk Targeted funds may have non-material exposure to loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010.

Systematic Multi Asset Risk Targeted funds may use financial derivative instruments provided (a) they are economically appropriate in that they are realised in a cost-effective way, (b) they are entered into for one or more of (i) reduction of risk, (ii) reduction of cost and (iii) generation of additional capital or income for Systematic Multi Asset Risk Targeted funds with a level of risk which is consistent with the risk profile of the relevant Systematic Multi Asset Risk Targeted fund(s) and the risk diversification rules laid down in Part V. (5.1, A. III) of the Prospectus, and (c) their risks are adequately captured by the risk management process of the Fund\*.

Financial derivative instruments may include over-the-counter and/or exchange traded options, equity index, single stock, interest rate and bond futures, contracts for difference, swaps (such as interest rate, credit default and inflation index swaps), forward contracts, covered call options, derivatives on indices or a combination thereof. Cash or money market instruments may be used as collateral for derivative positions, in which case, they will not be deemed as (i) cash held on an ancillary basis or (ii) as cash holdings to address adverse market conditions.

Certain Systematic Multi Asset Risk Targeted funds may in addition make extensive use of financial derivative instruments or use complex derivative instruments or strategies to meet the investment objectives of the funds. When a Systematic Multi Asset Risk Targeted fund has such extended derivative powers this will be mentioned in the investment objective of the relevant fund.

Unless otherwise specified in the notes to a fund under the title “Global Exposure”, the method used to calculate the global exposure relating to derivative instruments is the commitment approach (please refer to Part V, 5.1., D. of the Prospectus for further details).

While the judicious use of financial derivative instruments may be beneficial, financial derivative instruments also involve risks different from, and, in certain cases greater than the risks presented by more traditional investments. The use of financial derivative instruments may cause the Share price to be more volatile. For a further description of risks relating to the use of financial derivative instruments please refer to “Risk Factors”, Part I (1.2) of the Prospectus.

In accordance with Part V, section H. “EU Securities Financing Transaction Regulations” of the Prospectus, the Systematic Multi Asset Risk Targeted funds may, for the purpose of Efficient Portfolio Management enter into repurchase and reverse of repurchase agreements and engage in securities lending transactions. They will not enter into margin lending transactions. Systematic Multi Asset Risk Targeted funds may use as well Total Return Swaps (including CFDs) to meet their investment objective.

For further details on the maximum and expected use by each fund of such transactions please refer to Appendix III to this Prospectus.

Systematic Multi Asset Risk Targeted funds rely on a model that aims to maintain long term average annualised volatility of each Systematic Multi Asset Risk Targeted fund within the range disclosed in the relevant Systematic Multi Asset Risk Targeted fund’s investment objective. There is no guarantee that the actual annualised volatility that the SMART model will procure over the long term will be within those limits and accordingly there is a risk that actual volatility of the net asset value may be higher than the target range and that investors redeeming assets may suffer a loss thereby. There is also a risk that in targeting its volatility range a Systematic Multi Asset Risk Targeted fund will not capture the full upside from rising markets as the target volatility model is designed to balance growth and volatility and would not result in an allocation of all assets to any single market.

Systematic Multi Asset Risk Targeted funds’ target volatility strategy results an increased and more complex use of derivatives in comparison to multi asset funds using derivatives purely for hedging or non-extensive investment purposes. Systematic Multi Asset Risk Targeted funds’ global exposure is therefore monitored under Relative VaR instead of commitment approach. Funds using relative VaR may have net leveraged exposure exceeding 100% of the Net Asset Value under the commitment approach and thereby may be considered to offer increased leverage. Increased net leveraged exposure may result in increased volatility and losses for investors. For further information, please refer to “High Leverage Risks” in the sub-section “Derivative Related Risks” under section “1.2 Risk Factors” in the Prospectus.

\* The use of financial derivative instruments in line with these criteria is referred to as Efficient Portfolio Management under the Regulation of 2008.

**Investor Profile**

Systematic Multi Asset Risk Targeted funds may be suitable for investors who wish to participate in capital markets while being prepared to accept the risks described for each Systematic Multi Asset Risk Targeted fund under “Risk Factors”, Part I (1.2) of the Prospectus. Investment in a Systematic Multi Asset Risk Targeted fund should be regarded as a long-term investment.

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – SMART Global Defensive Fund</b>	<p>The fund aims to provide stable growth over the longer-term by investing in a range of global asset classes. The fund will actively allocate to, and within, different asset classes and geographies based on their potential to generate stable growth or reduce risk or volatility within the overall portfolio. The main asset classes in which the fund will invest include global government bonds, global inflation linked bonds, global corporate bonds including investment grade bonds, global high yield bonds, emerging market bonds and global equities.</p> <p>The fund may invest directly and/or indirectly (including through the use of financial derivative instruments) up to 40% of its assets in equities and up to 100% of its assets in global government bonds, global corporate bonds, inflation linked bonds and emerging market bonds which may comprise global high yield bonds up to 40% of the fund's assets and up to 10% in hybrid bonds ('Hybrids'), that is, debt securities with equity-like features.</p> <p>The Fund may also seek exposure up to 30% of its assets in infrastructure securities, commodities and real estate investment trusts (REITS).</p> <p>The fund aims to manage the long term average volatility, under normal market conditions, within a range of 2 to 5% per annum. This volatility range is however not guaranteed.</p> <p>The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>The fund may make extensive use of financial derivative instruments for investment purposes or use complex financial derivative instruments or strategies to meet the investment objectives of the fund with a level of risk which is consistent with the risk profile of the fund. Financial derivative instruments may be used to create economic exposure to an asset akin to a physical holding of that asset. The types of financial derivative instruments that will be used include index, basket or single name futures options and contracts for difference referencing equities or bonds. Options used will include put and call options including covered call options. The fund will use index, basket or single credit default and total return swaps to gain exposure or reduce credit risk of issuers, interest rate swaps to actively manage the level of interest rate risk and currency derivatives to hedge or gain exposure to currencies or replicate currency exposure of the underlying securities of an equity index.</p> <p>The long and short active currency positions implemented by the fund may not be correlated with the underlying securities positions held by the fund.</p> <p>Hybrids may be issued by non-financial institutions (corporate Hybrids) and by financial institutions (financial Hybrids), including contingent convertibles, as well as in other subordinated financial debt and preference shares. These investments include investment grade and non-investment grade assets.</p> <p>In adverse market conditions the fund may hold more than 10% of its assets in cash or money market instruments (cash and short-term deposits, certificates of deposit and bills) and money market funds.</p>	<p><b>Reference Ccy: USD</b></p> <p>This fund may invest up to 10% of its net assets in loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010 (within the 10% limit as set out under Part V, A. 1.2. of the Prospectus).</p> <p>Any commodity exposure for this fund will be obtained through eligible instruments and derivatives such as (but not limited to) units/shares of UCITS/or other UCIs, Exchange Traded Funds and commodity index swap transactions. Any property exposure will be obtained through investments in securities of companies principally engaged in the real estate industry and other real estate related investments.</p> <p><b>Global Exposure:</b></p> <p>The global exposure of the fund will be monitored using the relative VaR approach. The Fund's VaR is limited to 150% of the VaR of the reference portfolio which is 50% Citi G7 Global Government Bond Index USD hedged, 30% Barclays Global High Yield Index USD hedged, 20% MSCI AC World Index Gross Returns USD.</p> <p>The expected leverage is determined using the sum of the notional amounts (expressed as a sum of positive values) of all financial derivatives instruments used whether the same are for investment purposes, hedging or risk reduction. The expected level of leverage of the fund is 100% of the Net Asset Value of the fund. This is however not a limit and higher levels of leverage may occur under this approach.</p> <p>Systematic Multi Asset Risk Targeted funds use the term “SMART” in their name to highlight their use of the Fidelity proprietary Systematic Multi Asset Risk Targeted (SMART) model that seeks to maintain the overall portfolio's volatility within a given long term target range.</p> <p>The name of the fund is not indicative of the fund's performance and return.</p>

Fund Name	Investment Objective	Notes
<b>Fidelity Funds – SMART Global Moderate Fund</b>	<p>The fund aims to provide moderate long term capital growth by investing in a range of global asset classes. The fund will actively allocate to, and within, different asset classes and geographies based on their potential to generate moderate capital growth or reduce risk or volatility within the overall portfolio. The main asset classes in which the fund will invest include global government bonds, global inflation linked bonds, global corporate bonds including investment grade bonds, global high yield bonds, emerging market bonds and global equities.</p> <p>The fund may invest directly and/or indirectly (including through the use of financial derivative instruments) up to 90% of its assets in equities and up to 90% of its assets in global government bonds, global corporate bonds, inflation linked bonds and emerging market bonds which may comprise global high yield bonds up to 30% of the fund's assets and up to 10% in hybrid bonds ('Hybrids'), that is, debt securities with equity-like features.</p> <p>The Fund may also seek exposure up to 30% of its assets in infrastructure securities, commodities and real estate investment trusts (REITS). The fund aims to manage the long term average volatility, under normal market conditions, within a range of 6 to 8% per annum. This volatility range is however not guaranteed.</p> <p>The fund may also invest in UCITS and UCIs.</p> <p><b>Portfolio Information:</b></p> <p>The fund may make extensive use of financial derivative instruments for investment purposes or use complex financial derivative instruments or strategies to meet the investment objectives of the fund with a level of risk which is consistent with the risk profile of the fund. Financial derivative instruments may be used to create economic exposure to an asset akin to a physical holding of that asset. The types of financial derivative instruments that will be used include index, basket or single name futures options and contracts for difference referencing equities or bonds. Options used will include put and call options including covered call options. The fund will use index, basket or single credit default and total return swaps to gain exposure or reduce credit risk of issuers, interest rate swaps to actively manage the level of interest rate risk and currency derivatives to hedge or gain exposure to currencies or replicate currency exposure of the underlying securities of an equity index. The long and short active currency positions implemented by the fund may not be correlated with the underlying securities positions held by the fund.</p> <p>Hybrids may be issued by non-financial institutions (corporate Hybrids) and by financial institutions (financial Hybrids), including contingent convertibles, as well as in other subordinated financial debt and preference shares. These investments include investment grade and non-investment grade assets.</p> <p>In adverse market conditions the fund may hold more than 10% of its assets in cash or money market instruments (cash and short-term deposits, certificates of deposit and bills) and money market funds.</p>	<p><b>Reference Ccy: USD</b></p> <p>This fund may invest up to 10% of its net assets in loans that comply with the criteria applicable to Money Market Instruments for the purposes of the Law of 2010 (within the 10% limit as set out under Part V, A. 1.2. of the Prospectus).</p> <p>Any commodity exposure for this fund will be obtained through eligible instruments and derivatives such as (but not limited to) units/shares of UCITS/or other UCIs, Exchange Traded Funds and commodity index swap transactions. Any property exposure will be obtained through investments in securities of companies principally engaged in the real estate industry and other real estate related investments.</p> <p><b>Global Exposure:</b></p> <p>The global exposure of the fund will be monitored using the relative VaR approach. The Fund's VaR is limited to 150% of the VaR of the reference portfolio which is: 30% Citi G7 Government Bond Index USD hedged; 20% Barclays Global High Yield Index USD hedged; 50% MSCI AC World Index Gross Returns USD.</p> <p>The expected leverage is determined using the sum of the notional amounts (expressed as a sum of positive values) of all financial derivatives instruments used whether the same are for investment purposes, hedging or risk reduction. The expected level of leverage of the fund is 200% of the Net Asset Value of the fund. This is however not a limit and higher levels of leverage may occur under this approach.</p> <p>The REITs that the fund may invest in may not be authorised by the Securities and Futures Commission in Hong Kong. The dividend or payout policy of this fund is not representative of the dividend or payout policy of the underlying REITs.</p> <p>Systematic Multi Asset Risk Targeted funds use the term "SMART" in their name to highlight their use of the Fidelity proprietary Systematic Multi Asset Risk Targeted (SMART) model that seeks to maintain the overall portfolio's volatility within a given long term target range.</p> <p>The name of the fund is not indicative of the fund's performance and return.</p>

## 1.4. Additional Information

### Mauritian Subsidiary:

Fidelity Funds currently invests in the Indian securities market through a wholly-owned Mauritian subsidiary (the 'Subsidiary'). The Subsidiary is incorporated as a private company limited by shares under the laws of Mauritius, under the name of FIL Investments (Mauritius) Limited (formerly Fid Funds (Mauritius) Limited). The sole object of the Subsidiary is to carry out management, advice or marketing activities on behalf of the Fund in regard to the repurchase of the Fund's Shares at the Shareholders' request. The shares of the Subsidiary are only registered shares. The Subsidiary has initially received from the Financial Services Commission of Mauritius a Category 1 Global Business Licence. On 31 January 2013, the Financial Services Commission of Mauritius has authorised conversion of this license to an Investment Holding company. Effective 1 January 2014, FIL Investment Management (Singapore) Limited has entered into an Investment Management Agreement with the Subsidiary. Pursuant to this agreement, FIL Investment Management (Singapore) Limited provides investment advisory and management services to the Subsidiary. FIL Investments (Mauritius) Limited has obtained on 17 February 2016 approval from the Securities and Exchange Board of India ('SEBI') to invest in India as a Foreign Portfolio Investor ("FPI") under Indian law. FIL Investments (Mauritius) Limited is registered under the registration number INMUF037316 and has been granted approval to invest in Indian securities.

The Subsidiary's board of directors is as follows: Marc Wathélet (until 31 August 2017), Simon Fraser, Bashir Nabeebokus and Rooksana Bibi Sahabally-Coowar.

The auditor of the Subsidiary is PricewaterhouseCoopers, Mauritius.

#### Designated Bank – Mauritius

Under the terms set forth by the Financial Services Commission of Mauritius, the Subsidiary must make all investments held outside of Mauritius through a bank account maintained in Mauritius. The Subsidiary holds a bank account for this purpose with HSBC Bank (Mauritius) Limited, Offshore Banking Unit, Mauritius.

#### Designated Bank – India

Under Indian law, the Subsidiary, as a non-Indian foreign investor, must use a designated remitting bank in India for all cash transfers into and out of India. This remitting bank may have certain reporting requirements to the RBI with regard to the handling of such transactions. The Subsidiary has appointed Citibank N.A. as its remitting bank in India.

This structure shall not prevent the Depositary from carrying out its legal duties.

#### Local Mauritian Administrator

The Subsidiary has appointed Cim Fund Services Ltd to act as administrator, secretary and registrar to the Subsidiary.

In respect of the Fund's audited annual and unaudited semi-annual reports, the financial results of the Subsidiary are consolidated with the financial results of the Fund, and the Fund's portfolio consists of the underlying investments of the Subsidiary. For the purpose of the investment restrictions set forth in the Prospectus, the underlying investments of the Fund and the Subsidiary are considered as a whole.

The Subsidiary incurs and pays certain fees and expenses relating to its investment activity in Indian securities. These fees and expenses include brokerage costs and commissions, transaction costs associated with converting currency to and from Indian Rupee from and to US Dollars, fees incurred by its standing proxy, corporate and registration fees and taxes associated with the establishment and operation of the Subsidiary.

Any expenditure which is considered as capital in nature is not allowable for tax purposes.

**The following is a summary of certain tax matters relating to the Fund and the Subsidiary. The summary is based upon advice received by the Fund and the Subsidiary from advisers in India and Mauritius at the date of the Prospectus regarding the current tax laws in India and Mauritius, the Tax Treaty and the prevailing practices of the relevant tax authorities, all of which are subject to change. Any such change could increase the taxes paid by the Fund or the Subsidiary and adversely affect the Fund's returns. The Fund and its advisors are not liable for any loss which may arise for a Shareholder as result of any change of the applicable tax laws or change in the interpretation by the Courts/tax authorities.**

## India

### Tax implications – Subsidiary investing in India

On the assumption that the Subsidiary is a tax resident of Mauritius and is entitled to the benefits under the Double Taxation Avoidance Agreement between India and Mauritius (the "Treaty") and also has no permanent establishment in India under the Treaty:

- a) income distributions to the Subsidiary by way of dividends from its investments in securities being equity shares of Indian companies are not subject to any withholding tax as dividends are presently not taxable in the hands of Shareholders. However, the Indian companies declaring/distributing paying dividends is subject to a distribution tax at an effective rate of 19.994% (assuming highest rate of surcharge and education cess) on the same;
- b) if the income earned on disposal of the Subsidiary's investments in India being equity shares of Indian companies are characterised as capital gains (when investments in shares are treated as capital asset), then such capital gains are not liable to tax in India as per Article 13(4) of the Treaty and accordingly, such gains are not subject to withholding tax;
- c) income received in respect of securities (other than dividend income but could include interest received in respect of securities) would be taxable at 5.4075% (if certain conditions are satisfied) or 21.63% (assuming highest rate of surcharge and education cess);
- d) interest income on loan would be taxable as follows:
  - i) if the loan is provided in foreign exchange: at 21.63% (assuming highest rate of surcharge and education cess) on gross basis

- ii) if the loan is provided in Indian currency: at 43.26% (assuming highest rate of surcharge and education cess) on net income basis;
- e) any income chargeable as business income is not liable to tax in India as per Article 7(1) of the Treaty if the Subsidiary does not have a Permanent Establishment in India;
- f) any other income is taxable only in Mauritius provided it is covered under the residual category under Article 22 of the Treaty.

#### Notes

1. The above rates of tax are considered as per the Finance Act 2014. These rates would apply where taxable income exceeds Rs.100 million and is inclusive of surcharge of 5% and education cess of 3%. The surcharge of 5% would get reduced to 2% where the taxable income exceeds Rs.10 million but does not exceed Rs.100 million. The surcharge of 2% would not apply where the taxable income does not exceed Rs.10 million.
2. The Indian Income-tax provisions require companies to pay a Minimum Alternate Tax (MAT) calculated at 20.9605% (assuming highest rate of surcharge and education cess) of their "book profits", in the event that the tax payable by them under normal provisions of the domestic tax law is less than the MAT so calculated. For this purpose, "book profit" are defined to mean profits reflected in accounts prepared in accordance with Indian corporate law requirements, as increased/reduced by certain prescribed adjustments. Long-term capital gains on the sale of listed securities are included in the definition of "book profits" for the purposes of MAT calculation. The position as regards applicability of the MAT provisions to foreign companies is not a settled one. Generally, MAT provisions ought not to apply to FII/Foreign Portfolio Investor ('FPI'). However, the probability of the Revenue authorities taking a contrary view cannot be ruled out. Further, the provisions of the Treaty should override the provisions of the domestic tax law, to the extent the former are more beneficial.
3. The Finance Act, 2013 has made it mandatory for the non-residents to obtain a Tax Residency Certificate (TRC) of them being resident of the country in which they are resident from the Government of that country. The Central Board of Direct Taxes (CBDT) has issued a notification, prescribing the additional information required to be provided in Form No. 10F along with TRC to avail the Treaty benefits. The Subsidiary is also required to maintain such documents as necessary to substantiate the information mentioned in Form No. 10F and provide the documents to the Indian Revenue authorities as and when called for to avail Treaty benefits.
4. No assurance can be given that the terms of the Treaty will not be subject to re-negotiation in the future, and any change could have a material adverse effect on the income earned by the Subsidiary. There can be no assurance that the Subsidiary will continue to qualify for, or receive the benefits of the Tax Treaty or that the terms of the Tax Treaty will not be changed.

#### Securities Transaction Tax

Securities transaction tax (STT) is payable on purchase or sale of securities being equity shares of Indian companies, where the transaction of purchase or sale is entered into in a recognised Stock Exchange in India. Such tax is levied on both the buyer and seller at 0.1% of the value of transaction with effect from 1 June 2013.

#### Stamp duty

Any purchase/sale of securities (being Equity Shares/Debentures of Indian Companies, Government Securities, Futures or Options) by the Subsidiary through a stock broker on Indian Stock Exchange will attract stamp duty. The stamp duty is levied on the contract note issued by the broker. The actual duty rates are based on the relevant Indian State law where the Stock Exchange is situated and the type of security purchased/sold.

In case of transactions undertaken on the Bombay Stock Exchange, the relevant stamp duty law would be the Bombay Stamp Duty Act, 1958 ("BSA"). The current stamp duty rates under the BSA are as under:

- Purchase or sale of Equity Shares/Debenture of Indian company:  
In case of delivery based transfer at 0.005% of the contract value  
In case of non-delivery base transfer at 0.005% of the contract value
- Purchase or sale of Government Securities:  
at 0.005% of the contract value
- Purchase or sale of Futures or options:  
at 0.005% of the contract value

There is no stamp duty payable on transfer of any security held in dematerialised form.

#### Tax implications – the Fund investing directly in India

On the assumption that the Fund, being a foreign company, is a tax resident of Luxembourg and continues to be registered as an FII/FPI with the SEBI:

- a) income distributions to the Fund by way of dividends from its investments in securities being equity shares of Indian companies would not be subject to any withholding tax as dividends are presently not taxable in the hands of Shareholders. However, the Indian companies declaring/distributing dividends is subject to a distribution tax at an effective rate of 19.994% (assuming highest rate of surcharge and education cess) on the same;
- b) capital Gains tax implications, if the income earned from disposal of equity shares of Indian companies are characterised as capital gains (when investments in shares are treated as capital asset):
  - i) Short term capital gains (i.e. gains arising from sale of securities being equity shares of Indian companies held for a period of 12 months or less from the date of acquisition) arising from disposal of equity shares of Indian companies is taxable at the rate of 16.2225% (assuming highest rate of surcharge and education cess) in India provided the sale transaction is entered into in a recognised Stock Exchange in India and such transaction is chargeable to STT.

- ii) Short term capital gains arising from disposal of equity shares of Indian companies is taxable at the rate of 32.445% (assuming highest rate of surcharge and education cess) in India when the sale transaction is not entered into in a recognised Stock Exchange in India and no STT has been paid on it.
- iii) Long term Capital gains (i.e. gains arising from sale of securities being equity shares of Indian companies held for a period of more than 12 months from the date of acquisition) arising from disposal of equity shares of Indian companies is exempt from tax in India provided the sale transaction is entered into in a recognised Stock Exchange in India and such transaction is chargeable to STT.
- iv) Long term Capital gains arising from disposal of equity shares of Indian companies is taxable at the rate of 10.815% (assuming highest rate of surcharge and education cess) in India when the sale transaction is not entered into in a recognised Stock Exchange in India and no STT has been paid on it.
- c) income received in respect of securities (other than dividend income but could include interest received in respect of securities) would be taxable at 5.4075% (if certain conditions are satisfied) or 21.63% (assuming highest rate of surcharge and education cess);
- d) interest income on loan would be taxable as follows:
  - i) if the loan is provided in foreign exchange: at 21.63% (assuming highest rate of surcharge and education cess) on gross basis;
  - ii) if the loan is provided in Indian currency: at 43.262% (assuming highest rate of surcharge and education cess) on net income basis;
- e) any income arising in India (other than the ones discussed in points (a) to (d) above) would be taxable at 43.26% (assuming highest rate of surcharge and education cess) on net income basis in India.

#### Notes

1. The above rates of tax are considered as per the Finance Act 2014. These rates would apply where taxable income exceeds Rs.100 million and is inclusive of surcharge of 5% and education cess of 3%. The surcharge of 5% would get reduced to 2% where the taxable income exceeds Rs.10 million but does not exceed Rs. 100 million. The surcharge of 2% would not apply where the taxable income does not exceed Rs.10 million.
2. The Indian Income-tax provisions require companies to pay a Minimum Alternate Tax (MAT) calculated at 20.9605% (assuming highest rate of surcharge and education cess) of their 'book profits', in the event that the tax payable by them under normal provisions of the domestic tax law is less than the MAT so calculated. For this purpose, 'book profit' are defined to mean profits reflected in accounts prepared in accordance with Indian corporate law requirements, as increased/reduced by certain prescribed adjustments. Long-term capital gains on the sale of listed securities are included in the definition of "book profits" for the purposes of MAT calculation. The position as regards applicability of the MAT provisions to foreign companies is not a settled one. Generally, MAT provisions ought not to apply to FII/FPI. However, the probability of the Revenue authorities taking a contrary view cannot be ruled out.

#### Securities Transaction Tax

STT is payable on purchase or sale of securities being equity shares of Indian companies, where the transaction of purchase or sale is entered into in a recognised Stock Exchange in India. Such tax is levied on both the buyer and seller at 0.1% of the value of transaction with effect from 1 June 2013.

#### Stamp duty

Any purchase/sale of securities (being Equity Shares/Debentures of Indian companies, Government Securities, Futures or Options) by the Fund through a stock broker on Indian Stock Exchange will attract stamp duty. The stamp duty is levied on the contract note issued by the broker. The actual duty rates are based on the relevant Indian State law where the Stock Exchange is situated and the type of security purchased/sold.

In case of transactions undertaken on the Bombay Stock Exchange, the relevant stamp duty law would be the Bombay Stamp Duty Act, 1958 ('BSA'). The current stamp duty rates under the BSA are as under:

- Purchase or sale of Equity Shares/Debenture of Indian company:
  - In case of delivery based transfer at 0.005% of the contract value
  - In case of non-delivery base transfer at 0.005% of the contract value
- Purchase or sale of Government Securities:
  - at 0.005% of the contract value
- Purchase or sale of Futures or options:
  - at 0.005% of the contract value

There is no stamp duty payable on transfer of any security held in dematerialised form.

#### GAAR

General Anti-Avoidance Rule ('GAAR') has been introduced in to the domestic law, which will become part of the law with effect from 1 April 2015 (financial year). GAAR can be invoked if the tax payer has entered into an 'impermissible avoidance arrangement'. An arrangement will be regarded as an 'impermissible avoidance arrangement' if, the main purpose of the arrangement is to obtain a tax benefit. There is ambiguity around the scope and interpretation of GAAR provisions.

Therefore, there is uncertainty with respect to applicability of GAAR provisions to the Subsidiary. If GAAR provisions were to be invoked, the Revenue authorities are empowered to, amongst others, deny treaty benefits. The tax position may have to be reviewed as and when there is more clarity on GAAR provisions.

### Offshore transfers

The Finance Act, 2012 has incorporated amendments in the Indian Income-tax Act, 1961 clarifying that shares or interest in a company or entity registered or incorporated outside India would be deemed to be situated in India if the shares or interest derive, directly or indirectly, value substantially from assets located in India. Shares or interest in an India focused offshore Fund could fall within the ambit of these widely worded provisions potentially impacting dividends from the Subsidiary and buyback/redemption of the Subsidiary's capital. There is ambiguity around whether the provisions are intended to apply to portfolio investments. An Expert Committee constituted by the Government has, in its draft report to the Government, recommended that the provisions should not be extended to FIIs/FPIs. The tax position may have to be reviewed as and when there is more clarity on offshore transfer provisions.

### Mauritius

The Subsidiary has initially been incorporated as a Category 1 Global Business Company. The Financial Services Development Act 2001 has been repealed and replaced by the Financial Services Act 2007 (FSA). The FSA has simplified the regulatory regime and consolidated the legislative framework of the global business sector.

As it is now, the Subsidiary will be subject to tax at 15% and may either claim credit for actual foreign taxes suffered on its foreign income or otherwise claim a presumed credit equivalent to 80% of the Mauritius tax payable on its foreign source income, whichever is the higher. The foreign tax credit is restricted to the Mauritius tax liability. Hence, the Subsidiary will be subject to tax at the maximum effective rate of 3% and, where the actual foreign tax suffered is greater than 15%, the Mauritius tax liability will be reduced to nil. Under the Mauritius Income Tax Act 1995, gains arising from the sale of shares or securities of a GBC 1 are exempt from income tax. However, expenses directly attributable to the exempt income will be disallowed for tax purposes. Common expenses indirectly attributable to exempt income should be disallowed to the extent that the proportion of exempt to total taxable and exempt income is more than 10%.

Dividends paid by the Subsidiary to its parent company are not subject to any tax in Mauritius. Also, Mauritius does not tax capital gains and therefore gains resulting from disposal by the Subsidiary of its investments in India will not be subject to tax in Mauritius.

A certificate of Mauritian tax residence has been provided by the Director General, Mauritius Revenue Authority (MRA) in respect of the Subsidiary. Accordingly, the Subsidiary qualifies as a resident of Mauritius for the purposes of the Treaty. On this basis the Subsidiary should continue to be entitled to certain reliefs from Indian tax under the Mauritius/India Tax Treaty (see 'India' Taxation above).

As from 1 January 2015, there are new substance requirements to obtain a Tax Residence Certificate (TRC). The GBC 1 company, in addition to the existing substance requirements, must meet at least one of the following criteria:

- (i) it has or shall have office premises in Mauritius; or
- (ii) it employs or shall employ on a full time basis at administrative/technical level, at least one person who shall be resident in Mauritius; or
- (iii) its constitution contains a clause whereby all disputes arising out of the constitution shall be resolved by way of arbitration in Mauritius;
- (iv) it holds or is expected to hold within the next 12 months, assets (excluding cash held in bank account or shares/interests in another corporation holding a Global Business Licence) which are worth at least USD 100,000 in Mauritius;
- (v) its shares are listed on a securities exchange licensed by the Commission; or
- (vi) it has or is expected to have a yearly expenditure in Mauritius which can be reasonably expected from any similar corporation which is controlled and managed from Mauritius.

The India Focus Fund (non resident) should not be subject to any taxation in Mauritius in respect of dividends or interest from the Subsidiary and in respect of disposals (including redemptions) of the Shares in the Subsidiary.

### Fidelity Funds – Taiwan Fund

Foreign investment made directly into Taiwan is permitted under the Regulations Governing Investments in Securities by Overseas Chinese and Foreign Nationals and Relevant Foreign Exchange Settlement Procedures ('Regulations'). The QFII system was abolished and foreigners need not be 'qualified' in order to buy and sell ROC listed equities, as long as they register with Taiwan Stock Exchange and obtain an investment ID as Foreign Institutional Investors ('FINI') (such as institutional funds or corporate) or overseas Chinese and Foreign Individual Investors ('FIDI'). So far, except for certain investment threshold limitation in the restricted industries, such as Postal Service Business, there should be no more investment quota applicable to FINI. For not listed securities, the foreigner needs to obtain the Foreigner Investment Approval from the Investment commission.

### Fidelity Funds – EURO STOXX 50™ Fund

This section provides additional information on the fund and the EURO STOXX 50™ Index (the 'Index').

The Index is composed of 50 industrial, commercial and financial stocks and aims to provide blue-chip representation of sector leaders within the Eurozone, currently comprised of the following countries: Austria, Belgium, Finland, France, Germany, Luxembourg, Ireland, Italy, the Netherlands, Portugal and Spain. As the Index reflects the 50 largest companies in terms of market capitalisation, the constituents and their respective weightings may vary through time. Due to the concentrated nature of the Index, it will not at all times of the cycle fully represent the broader market, as it may have a bias in terms of sectors, countries, cyclicalities, style etc. The Index is weighted based on free float market capitalisation subject to a cap of 10% for any individual constituent. The Index composition is reviewed annually in September. As at 30 December 2016, the top 10 largest constituent securities of the Index were:

Rank	Company	ICB Super-Sector	Weighting (as % of Index)
1.	TOTAL SA (FRAN)	Oil & Gas	5.55
2.	SIEMENS AG (REGD)	Industrial Goods & Services	4.48
3.	SANOFI	Health Care	4.07
4.	BAYER AG	Chemicals	3.70
5.	SAP SE	Technology	3.69
6.	BASF SE	Chemicals	3.66
7.	ANHEUSER BUSCH INBEV NV	Food & Beverage	3.27
8.	BANCO SANTANDER SA	Banks	3.26
9.	ALLIANZ SE (REGD)	Insurance	3.23
10.	DAIMLER AG (GERW)	Automobiles & Parts	3.18

Investors may obtain the latest index information and other important news of the Index at the website of the index provider, [www.stoxx.com](http://www.stoxx.com). The Investment Manager is independent of the index provider, STOXX Limited. Investors should note that the composition of the Index may change from time to time and current constituent securities of the Index may be delisted and other securities added to form part of the Index.

Subject to the investment restrictions applicable to the fund as described in Part V of the Prospectus, the objective of the fund is to track the performance of the Index as far as reasonably and legally practicable. However, there is no assurance that the performance of the fund will be the same as the performance of the Index. The fund aims to use a replication strategy and hold mainly all securities that represent the Index but as the breakdown of the Index will vary according to movements of the stock market, the fund may not be able to fully track the Index at all times and this may result in tracking error. Tracking error may also result due to fees and charges and volatility of the constituent securities. To minimise tracking error and reduce transaction costs, the fund may from time to time invest in futures on the Index subject to the restrictions set forth in Part V of the Prospectus. Given the nature and objective of the fund, it may not be able to adapt to market changes and any fall in the Index is expected to result in a corresponding fall in the value of the fund. In the event that the Index ceases to be operated or is not available, the Directors will consider whether the fund should maintain its current structure until such time as the Index is made available again or change its objective to track another index with similar characteristics of the Index.

## PART II

### 2. CLASSES OF SHARES AND SHARE DEALING

#### 2.1. Classes of Shares

The Board may decide at any time to create within each fund different classes of Shares whose assets will be commonly invested pursuant to the specific investment policy of the relevant fund, but where a specific fee structure, or other specific features may apply according to the characteristics of each class of Share listed below. Additionally, classes of Shares may be created in Euro, US Dollar, Japanese Yen, Sterling, Hong Kong Dollar, Singapore Dollar, Polish Zloty, New Zealand Dollar, Australian Dollar, Hungarian Forint, Czech Koruna, or any other freely convertible currency.

A detailed list of Share classes available as at the time of the Prospectus can be found in Appendix II, "List of Share Classes" of the Prospectus. Such list may be updated from time to time. A complete list of all available Share classes may be obtained, free of charge and upon request, from the registered office of the Fund in Luxembourg.

The Management Company may, at any time, offer existing classes of Shares through different distribution channels in different countries.

The Board shall update the relevant country specific information with the addition of existing classes of Shares in order to conform to local law, custom, business practice or any other reason.

#### Class A Shares

Funds offering A Shares	Minimum Investment*	Subsequent Investment*	Initial Charge <sup>3,4</sup>	Redemption/Sales Exit Fee <sup>3</sup>	Management Fee	Distribution Fee
Asset Allocation Funds	USD 6,000 <sup>1</sup>	USD 1,500 <sup>1</sup>	Up to 5.25%	0%	Up to 1.50%	n/a
Bond Funds	USD 2,500 <sup>2</sup>	USD 1,000	Up to 3.5%	0%	Up to 1.50%	n/a
Cash Funds	USD 2,500	USD 1,000	0%	0%	Up to 1.50%	n/a
Reserved Funds	USD 500,000	USD 100,000	0%	0%	Up to 1.50%	n/a
Systematic Multi Asset Risk Targeted Funds	USD 6,000	USD 1,500	Up to 5.25%	0%	Up to 1.50%	n/a
All other Fund ranges as applicable	USD 2,500	USD 1,000	Up to 5.25%	0%	Up to 1.50%	n/a

<sup>1</sup>**Exceptions:** Class A Shares of Fidelity Funds – Fidelity Sélection Internationale have a minimum investment amount of USD 2,500 and have a minimum subsequent investment amount of USD 1,000.

<sup>2</sup>**Exceptions:** Class A Shares of Fidelity Funds – Global Hybrids Bond Fund have a minimum investment amount of USD 10,000.

<sup>3</sup>**Exceptions:** All Class A Shares and Class A-ACC Shares of Fidelity Funds – Fixed Term 2018 Fund have an initial charge of up to 2.50% of the Net Asset Value per Share. Also, a redemption fee of 2% of the Net Asset Value per Share will be applied to redemptions in these funds. At the discretion of the General Distributor such redemption fee may revert to the funds. This shall compensate or at least reduce any potential adverse effect on remaining Shareholders due to a decrease in value of the holdings of the funds as a result of the costs incurred in the sale of the funds' investments to meeting the redemption, including stamp duty and any difference between the buying and selling price of such investments. No initial charge is applied to Class A-Euro Share of Fidelity Funds – Fidelity TopZins Plus 2018.

<sup>4</sup>**Exception:** Class Fidelity Rentenanlage Klassik A-Euro (hedged) of Fidelity Funds – Global Strategic Bond Fund has an initial charge of up to 2.50% of the Net Asset Value per Share.

\* or the equivalent in any major freely convertible currency of the amounts specified.

**The annual management fee rate per class A Shares, as currently applied, is disclosed in Appendix II, "List of Share Classes" of the Prospectus.**

Some classes of Shares having the same characteristics as class A Shares may be registered and offered in Singapore for Central Provident Fund (CPF) investment only, under the label "SR" Shares. An Initial Charge up to 3.00% and a Management Fee up to 1.30% will apply to SR Shares. Also, different minimum investment amounts may apply.

#### Class C Shares

Funds offering C Shares	Minimum Investment*	Subsequent Investment*	Initial Charge	Redemption/Sales Exit Fee	Management Fee	Distribution Fee
All Fund ranges as applicable	USD 2,500	USD 1,000	0%	0%	Up to 1.50%	Up to 1.00%

\* or the equivalent in any major freely convertible currency of the amounts specified.

Class C Shares are subject to an annual distribution fee of up to 1.00% of the Net Asset Value of the relevant class. This fee is accrued daily and payable quarterly to the General Distributor.

**The annual management and annual distribution fee rates per class C Shares, as currently applied, are disclosed in Appendix II, "List of Share Classes" of the Prospectus.**

**Class D Shares**

Class D Shares are available for certain financial intermediaries or institutions in certain countries, or other investors at the Board's, the Management Company's or their delegates' discretion.

Funds offering D Shares	Minimum Investment*	Subsequent Investment*	Initial Charge	Redemption/Sales Exit Fee	Management Fee	Distribution Fee
Equity Funds	USD 2,500	USD 1,000	Up to 4%	0%	Up to 1.50%	Up to 0.50%
Multi Asset Funds	USD 2,500	USD 1,000	Up to 4%	0%	Up to 1.50%	Up to 0.50%
Bond Funds	USD 2,500	USD 1,000	Up to 3%	0%	Up to 1.50%	Up to 0.50%
Cash Funds	USD 2,500	USD 1,000	0%	0%	Up to 1.50%	n/a
Fidelity Lifestyle Funds	USD 2,500	USD 1,000	Up to 4%	0%	Up to 1.50%	n/a

\* or the equivalent in any major freely convertible currency of the amounts specified.

**The annual management fee and annual distribution fee rates per class D Shares, as currently applied, are disclosed in Appendix II, "List of Share Classes" of the Prospectus.**

**Class E Shares**

Funds offering E Shares	Minimum Investment*	Subsequent Investment*	Initial Charge	Redemption/Sales Exit Fee	Management Fee	Distribution Fee
All Fund ranges as applicable	USD 2,500	USD 1,000	0%	0%	Up to 1.50%	Up to 0.75%

\* or the equivalent in any major freely convertible currency of the amounts specified.

Class E Shares are subject to an annual distribution fee (up to 0.75% of the Net Asset Value of the class), which is accrued daily and payable quarterly to the General Distributor.

**The annual management and annual distribution fee rates per class E Shares, as currently applied, are disclosed in Appendix II, "List of Share Classes" of the Prospectus.**

**Class I Shares**

Class I Shares may only be acquired by Institutional Investors who meet the requirements established from time to time by the General Distributor. The I class of Shares is designed principally for investment of assets of Institutional Investors such as pension funds, charities and local government bodies.

The Board may, in its absolute discretion, delay the acceptance of any subscription/purchase for class I Shares until such date as it has received sufficient evidence of the qualification of the investor as an Institutional Investor. If it appears at any time that a holder of class I Shares is not an Institutional Investor, the Board will switch such Shares into class A Shares in the relevant fund (or in another fund with similar investment policy if the relevant fund does not issue class A Shares) and notify the relevant Shareholder of such switch.

Funds offering I Shares	Minimum Investment* <sup>1</sup>	Subsequent Investment*	Initial Charge	Redemption/Sales Exit Fee	Management Fee	Distribution Fee
All Fund ranges as applicable	USD 10,000,000	USD 100,000	0%	0%	Up to 0.80%	n/a

<sup>1</sup>Exception: Class I-ACC Shares of Fidelity Funds – Institutional European High Yield Fund have a minimum investment amount of USD 20,000,000.

\* or the equivalent in any major freely convertible currency of the amounts specified.

**The annual management fee rate per class I Shares, as currently applied, is disclosed in Appendix II, "List of Share Classes" of the Prospectus.**

Some classes of Shares having the same characteristics as class I Shares may be offered in certain jurisdictions and for certain investors under the label "S" Shares.

**Class J Shares**

Funds offering J Shares	Minimum Investment*	Subsequent Investment*	Initial Charge	Redemption/Sales Exit Fee	Management Fee	Distribution Fee
All Fund ranges as applicable	USD 500,000	USD 100,000	0%	0%	Up to 1.50%	n/a

\* or the equivalent in any major freely convertible currency of the amounts specified.

**The annual management fee rate per class J Shares, as currently applied, is disclosed in Appendix II, "List of Share Classes" of the Prospectus.**

### Class P Shares

The class P Shares may only be acquired by Institutional Investors who meet the requirements established from time to time by the General Distributor. The P class of Shares is designed only for investment of assets of pension funds or for pension related investments.

Class P Shares are not available through clearing houses.

Funds offering P Shares	Minimum Investment*	Subsequent Investment*	Initial Charge	Redemption/Sales Exit Fee	Management Fee	Distribution Fee
All Fund ranges as applicable	USD 10,000,000	USD 1,000,000	Up to 1.00%	Up to 1.00%	Up to 0.80%	n/a

\* or the equivalent in any major freely convertible currency of the amounts specified.

**The annual management fee rate per class P Shares, as currently applied, is disclosed in Appendix II, “List of Share Classes” of the Prospectus.**

### Class Y Shares

Funds offering Y Shares	Minimum Investment*	Subsequent Investment*	Initial Charge	Redemption/Sales Exit Fee <sup>1</sup>	Management Fee	Distribution Fee
All Fund ranges as applicable	USD 2,500	USD 1,000	0%	0%	Up to 1.00%	n/a

<sup>1</sup> **Exceptions:** A redemption fee of 2% of the Net Asset Value per Share will be applied to redemptions in Fidelity Funds – Fixed Term 2018 Fund. At the discretion of the General Distributor such redemption fee may revert to the funds. This shall compensate or at least reduce any potential adverse effect on remaining Shareholders due to a decrease in value of the holdings of the funds as a result of the costs incurred in the sale of the funds’ investments to meeting the redemption, including stamp duty and any difference between the buying and selling price of such investments.

\* or the equivalent in any major freely convertible currency of the amounts specified. Distributors may apply different minimum amounts.

Class Y Shares are available to:

- certain financial intermediaries or institutions for their investment services, which are exclusively remunerated by their clients, and either have separate fee based advisory arrangements with their clients or provide independent advice or discretionary portfolio management;
- other investors or intermediaries at the Board’s, the Management Company’s or their delegates’ discretion.

**The annual management fee rate per class Y Shares, as currently applied, is disclosed in Appendix II, “List of Share Classes” of the Prospectus.**

Some classes of Shares having the same characteristics as class Y Shares may be offered through certain Distributors and to certain investors under the label “W” Shares. Such Distributors may apply different minimum amounts for class W Shares.

**The annual management fee rate per class W Shares, as currently applied, is disclosed in Appendix II, “List of Share Classes” of the Prospectus.**

### Minimum Holding

For all classes of Shares the minimum value of a holding at any time must amount to the gross minimum initial investment applicable to the particular class of Shares of that fund. If the holding of a Shareholder in a class of Shares is below such minimum initial investment the Board may proceed to a compulsory redemption of all his Shares in accordance with the procedure described under Part III, 3.4. “Eligible Investors and Restriction on Ownership” of the Prospectus.

### Hedged Share Classes

The Investment Manager seeks to hedge undesired foreign exchange risk into the Principal Dealing Currency through the use of forward foreign exchange contracts.

Please refer to “List of Share Classes” in Appendix II of the Prospectus for such Share classes where hedging is in use.

Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of the Share class(es). Similarly, any expenses arising from such hedging transactions will be borne by the class(es) in relation to which they have been incurred.

It should be noted that for Share classes labelled with a simple “(hedged)” hedging transactions may be entered into whether the Principal Dealing Currency is declining or increasing in value relative to other currencies. Where such hedging is undertaken it may substantially protect investors in the relevant class(es) against a decrease in the value of the currency exposure of the underlying portfolio holdings relative to the Principal Dealing Currency, but it may also preclude investors from benefiting from an increase in the currency value of the underlying portfolio holdings.

There can be no assurance that the currency hedging employed will fully eliminate the foreign currency exposure to the underlying investment currencies.

For Share classes labelled with a currency pairing in brackets at the end of the Share class name, the Reference Currency of the fund is hedged to the Share class Principal Dealing Currency with the objective of minimising variability in Net Asset Value per Share returns arising from exchange rate movements between the two currencies.

## 2.2. Share Dealing

### Dealing Procedures

Shares can normally be purchased, sold or switched with any of the Distributors or be subscribed for or redeemed or switched with the Management Company on a day that the Distributors or the Management Company are open for business and

following the procedures as set by the Distributors or the Management Company. Different procedures may apply if dealing in Shares is made through Distributors. For further information on these, please contact your usual contact at FIL Group.

### Single Price

There is a single price for buying and selling Shares which represents the Net Asset Value of the relevant Share. If applicable, an initial charge is added in the case of purchases and a switch charge in the case of switches. If applicable, a redemption fee is deducted in the case of redemptions. For class I Shares a dilution levy might also be applied.

### Contract Notes

Contract notes will normally be issued within 24 hours of the allocation of Shares in case of purchases or of the price being determined in case of redemptions and switches.

### Dealing Cut-Off Times

Standard dealing cut-off times are shown in the table below.

Standard dealing cut-off times	
Central European Time	UK Time
6.00 pm	5.00 pm

Non-standard dealing cut-off times	
Central European Time	UK Time
1.00 pm	12.00 noon

Other dealing cut-off times may be agreed with local Distributors.

Funds with non-standard dealing cut-off time	
All funds within the Institutional Reserved Fund range	
Fidelity Funds – ASEAN Fund	Fidelity Funds – Euro Cash Fund
Fidelity Funds – Asia Focus Fund	Fidelity Funds – EURO STOXX 50™ Fund

Fidelity Funds – China Opportunities Fund	Fidelity Funds – Thailand Fund
Fidelity Funds – China RMB Bond Fund	Fidelity Funds – US Dollar Cash Fund
Fidelity Funds – Emerging Asia Fund	

## 2.2.1. HOW TO BUY SHARES

### Applications

Investors buying Shares for the first time have to complete an application form. The instructions for subsequent purchases must normally contain full details of registration, the name of the fund(s), class(es) of Shares, settlement currency(ies) and the value of Shares to be bought. Purchase instructions will normally only be fulfilled on banker's notification of receipt of cleared monies.

In case of joint holding and unless specifically stated in writing at the time of application, any one of the registered joint Shareholders is authorised to sign any documents or to give instructions in connection with that holding on behalf of the other joint Shareholders. Such authorisation shall remain in force unless notice of its termination is received under separate cover by the Distributor.

Completed applications with cleared monies received by a Distributor or the Management Company, where the investor is subscribing for Shares directly from the Management Company, on a day that the Distributor and the Management Company (or the Management Company alone if the application is addressed to it) are open for business before the appropriate dealing cut-off times on a Valuation Date will normally be fulfilled that day at the next calculated Net Asset Value of the relevant share plus any applicable initial charge.

Normally, the Management Company and/or the relevant Distributor do not accept from, or make payments to, persons other than the registered Shareholder or any of the joint Shareholders.

The Management Company may delay the processing of the applications until receipt of all the documents it may request to comply with the applicable laws and regulations.

### Price

The purchase price comprises the Net Asset Value of Shares of the relevant class calculated on a Valuation Date plus the applicable initial charge. The number of Shares will be rounded up or down to the nearest one-hundredth of a Share.

Details of the most recent Net Asset Value of Shares in each class may be obtained from each Distributor or the Management Company. Details of the most recent Net Asset Value for the Reserved Funds may only be obtained from the Management Company. The Net Asset Values of the appropriate classes are published in such manner as decided from time to time by the Management Company.

### Subscription in Specie

The purchase price, excluding any sales commission, may be paid by contributing to the relevant fund securities consistent with the investment policy and investment restrictions of the relevant fund. This is subject to approval of the Board and all applicable laws and regulations, notably with respect to the issuance of a special report from the approved statutory auditor of the Fund, which may also be specifically requested by the Board.

The specific costs for such purchase in specie, in particular the costs of the special report will normally be borne by the purchaser, or a third party.

### Currencies

Investors may place orders for Shares with Distributors in any of the major freely convertible currencies in addition to the Principal Dealing Currency of the individual funds and/or classes of Shares. Investors may contact the Distributors for information about such currencies. The Distributors may publish details of other currencies which will be accepted. Foreign exchange transactions required to handle client purchases/redemptions may be aggregated and will be carried out by FIL Group's central treasury department on an arm's length basis through certain FIL Group companies from which a benefit may be derived by such companies. Settlement must be made in the currency in which the order was placed.

Investors subscribing for Shares direct through the Management Company may only settle in one of the Principal Dealing Currencies of the applicable fund or class.

In case of compulsory redemption of Shares by the Fund, subject to the conditions set out in the Articles of Incorporation, the relevant investment will be automatically redeemed in the Principal Dealing Currency (unless otherwise specifically decided by the Board or instructed by the relevant Shareholder) free from any redemption charge at the Net Asset Value per Share calculated, and the proceeds will be returned to the relevant Shareholder's bank account.

### Settlement

Settlement should be made by electronic bank transfer net of bank charges. Payment should be made to the bank account published by the Distributor as appropriate to the currency of settlement.

Other methods of payment require the prior approval of the Distributor or the Management Company. Where payments are accepted by cheque (or where an electronic bank transfer does not result in the immediate receipt of cleared funds), processing of the application will usually be deferred until cleared monies are received. Cleared monies will be invested net of bank collection charges.

Shareholders should normally allow at least three Business Days before further switching, selling or redeeming their Shares after purchase or subscription.

The full ownership of Shares will normally be transferred to the investor upon receipt of cleared monies.

### Form of Shares

Class A, E and Y Shares are issued in registered form in the name of the subscriber or made available through Euroclear and/or Clearstream Banking unless shown otherwise in the notes of the respective funds in Part I of the Prospectus. Class C, I and P Shares are issued in registered form. Class P Shares are not available through the clearing houses and Class I Shares may be available through the clearing houses subject to eligibility and Distributor acceptance. The Fund no longer issues bearer Shares, following the decision taken by the Board on 14 May 1996. Registered Shares are held on a register established by the Fund or its delegate in the investor's name. No Share certificates are issued.

Certification of the registered holding may be requested and will be mailed within approximately four weeks after payment for the Shares and provision of registration details to the Distributor or the Management Company.

### Anti-Money Laundering and Counter-Terrorist Financing Legislation

Pursuant to the Luxembourg law of 5 April 1993 relating to the financial sector (as amended), the Luxembourg law of 12 November 2004 relating to money laundering and counter terrorist financing (as amended), the law of 27 October 2010 enhancing the anti-money laundering and counter-terrorist financing legal framework and the CSSF Regulation No. 12-02 of 14 December 2012 implementing a legally binding reinforcement of the regulatory framework, as well as associated circulars of the Luxembourg supervisory authority, obligations have been imposed on the Fund to take measures to prevent the use of investment funds for money laundering and terrorist financing purposes.

Within this context a procedure for the identification of investors and where relevant any beneficial owners has been established by the Management Company and/or the relevant Distributor. That is, the application form of an investor must be accompanied by such identification documents as determined from time to time. Investors may also be requested to provide additional or updated identification documents from time to time pursuant to ongoing client due diligence requirements under relevant laws and regulations. Such information may include source of wealth and profession. Failure to provide documentation may result in delay in investment or the withholding of sale proceeds.

If you have any questions regarding the identification documentation required, you should contact the Management Company or your usual contact at FIL Group.

### 2.2.2. HOW TO SELL SHARES

#### Instructions to Sell

Instructions to sell registered Shares should be addressed to a Distributor or to the Management Company. The instructions must contain full details of registration, the name of the fund(s), class(es) of Shares, settlement currency(ies), the number or value of Shares to be sold and bank details. Instructions received on a day that the Distributor or the Management Company is open for business, before the appropriate dealing cut-off times on a Valuation Date, are normally dealt with that day at the next calculated Net Asset Value of the relevant class. Normally, the Management Company and/or the relevant Distributor do not accept from, or make payments to, persons other than the registered Shareholder or any of the joint Shareholders.

Holders of registered Shares should submit signed written instructions. In case of joint holding and unless specifically stated in writing at the time of application, one of the registered joint Shareholders is authorised to sign any documents or give instructions in connection with that holding on behalf of the other joint Shareholders. Such authorisation shall remain in force unless notice of its termination is received under separate cover by the Distributor or the Management Company.

The minimum value of a shareholding in any one fund must amount to the minimum initial investment. If the holding by any Shareholder in a fund is below the amount specified as being the minimum initial investment, then the Fund may proceed to a compulsory redemption of all his Shares held in such fund in accordance with the Articles of Incorporation.

#### Settlement

Settlement will normally be made by electronic bank transfer. The Management Company will aim to make settlement payments within three Business Days (without however exceeding 5 Business Days) after receipt of written instructions. Exceptions currently apply in relation to the funds listed below. If in exceptional circumstances it is not possible to make the payment within the relevant period, then such payment shall be made as soon as reasonably practicable thereafter but without interest. In addition, different settlement periods may apply if settlement is made via local correspondent banks, paying agents or other agents. Settlement amounts may be subject to bank charges levied by the Shareholder's own (or a correspondent) bank. Payment will be made in one of the Principal Dealing Currencies of the relevant class of Share or may also be made in one of the major freely convertible currencies if requested by the Shareholder(s) at the time of instruction.

Funds for which settlement will normally be made within five Business Days	
Fidelity Funds – Asian High Yield Fund	Fidelity Funds – India Focus Fund

#### Price

A sales exit fee or a redemption fee of up to 1.00% of the Net Asset Value inclusive of expenses can be levied on class P Shares, either of which fee will revert to the General Distributor. Currently, no sales exit fee or redemption fee is applied to any of the other classes. However, the right is reserved to charge a sales exit fee or a redemption fee on certain other classes, not exceeding 1.00% of the Net Asset Value, unless an exception is specified for a class in section 2.1. Classes of Shares in Part II of the Prospectus, if the Directors so determine in the future, which fee will revert to the General Distributor. In the case of a redemption fee being applied to any other class, the Prospectus shall be updated and the investors duly informed.

#### Redemption in Specie

The Fund and/or the Management Company shall have the right, if the Board and/or the Management Company so determines, to satisfy payment of the redemption price to any Shareholder requesting redemption of any of his Shares in specie (but subject to the consent of the Shareholder in the case of Shares valued at less than USD 100,000) by allocating to the holder investments from the pool of assets set up in connection with such class or classes of Shares equal in value (calculated in the manner described in Article 22 of the Articles of Incorporation) as of the Valuation Date on which the redemption price is calculated to the value of the Shares to be redeemed. The nature and type of assets to be transferred in such case shall be determined on a fair and reasonable basis and without prejudicing the interests of the other holders of Shares of the relevant class or classes of Shares and the valuation used shall be confirmed by a special report of the auditor to the extent required by law or regulation or by the Board. The costs of any such transfers shall normally be borne by the transferee.

### 2.2.3. HOW TO SWITCH

#### Class A Shares

Shareholders may switch some or all of their Shares in one fund or class of Shares into another fund or class of Shares if they satisfy the applicable minimum investment requirements for the existing and new funds or class of Shares.

#### Class C Shares

Shareholders may switch some or all of their class C Shares of one fund into class C Shares of another fund provided they are in issue.

#### Class D Shares

Shareholders may switch some or all of their class D Shares of one fund into class D Shares of another fund provided they are in issue.

#### Class E Shares

Shareholders may switch some or all of their class E Shares of one fund into class E Shares of another fund provided they are in issue.

#### Class I Shares

Shareholders may switch some or all of their class I Shares of one fund into class I Shares of another fund provided they are in issue.

#### Class J Shares

Shareholders may switch some or all of their class J Shares of one fund into class J Shares of another fund provided they are in issue.

#### Class P Shares

Shareholders may switch some or all of their class P Shares of one fund into class P Shares of another fund provided they are in issue.

#### Class Y Shares

Shareholders may switch some or all of their class Y Shares of one fund into class Y Shares of another fund provided they are in issue.

Notwithstanding the rules mentioned above for classes C to Y Shares, the Board or its delegate may, at its discretion, and with respect to the eligibility requirements described within the Prospectus, decide to accept instructions to switch Shares of one fund into Shares of another class of Shares in another fund, or within the same fund, provided that all Shareholders of a particular class requesting such instructions to switch on the same Valuation Date are treated equally.

#### Procedures

Instructions to switch Shares should be addressed to a Distributor or the Management Company. Instructions should include full account details and the number or value of Shares to be switched between named funds and classes. In case of joint holding and unless specifically stated in writing at the time of application, one of the registered joint Shareholders is authorised to sign any documents or give instructions in connection with that holding on behalf of the other joint Shareholders. Such authorisation shall remain in force unless notice of its termination is received under separate cover by the Distributor or the Management Company.

Shareholders may not be registered as the owner of the new Shares of the fund into which the Shareholders have switched until the Distributor or the Management Company has received renunciation for the Shares of the fund from which the Shareholders have switched. Shareholders should normally allow up to three Business Days after receipt of completed instructions by the Distributor or the Management Company before selling or switching the new Shares into another fund. An exception currently applies to Fidelity Funds – Taiwan Fund. Shareholders must allow six Business Days following receipt by the Distributor of completed documentation before selling or further switching into another fund.

#### Amounts to be Switched

The minimum value of a shareholding in any one fund must amount to the minimum initial investment.

Shareholders must therefore switch the appropriate minimum initial investment or, where investing into a fund where they have an existing shareholding, the appropriate minimum subsequent investment. When switching a partial holding, the minimum value of the remaining holding should equate to the minimum initial investment.

#### Price

Switching instructions received on a day that the Distributors or the Management Company are open for business before the appropriate dealing cut-off times on a Valuation Date, are dealt with at the Net Asset Value calculated that day for each of the relevant funds. If a Shareholder switches from a fund with a 5.00 pm UK time (normally 6.00 pm Central European Time) dealing cut-off point into a fund with an earlier cut-off point of 12.00 noon UK time (normally 1.00 pm Central

European Time), the Buy side of the switch may be dealt with at the Net Asset Value calculated on the following Valuation Date. Switch fees are applied to certain funds outlined in the table below, and paid to the General Distributor.

		INTO	
		Class of Shares with no initial charge	All other classes of Shares
F R O M	Class of Shares with no initial charge	0%	Up to full initial charge of the class to switch into
	All other classes of Shares	0%	Up to 1.00% of the Net Asset Value

*A switching fee of 2% of the Net Asset Value per Share will be applied to all switches from Shares in Fidelity Funds – Fixed Term 2018 Fund into Shares within the same fund or in other funds of the Fund. At the discretion of the General Distributor such switching fee may revert to the funds. This shall compensate or at least reduce any potential adverse effect on remaining Shareholders due to a decrease in value of the holdings of the funds as a result of the costs incurred in the sale of the funds' investments to meeting the switch, including stamp duty and any difference between the buying and selling price of such investments.*

Switching fees will be applied to all switches (where applicable) between funds and between classes of Shares within a fund. No switching charges apply to switches into or between funds in the Reserved Funds range.

The currency exchange rate to be applied where the prices of the relevant funds are denominated in different currencies is that for Share purchases on the relevant day. The number of Shares will be rounded up or down to the nearest one-hundredth of a Share.

### 2.3. Calculation of the Net Asset Value

The Net Asset Value of each fund is determined in the Reference Currency of the respective fund in accordance with the Articles of Incorporation. The Net Asset Value of each class is determined in the Principal Dealing Currency of the respective class.

The Net Asset Value per Share of each fund, and, if applicable, of each class of Shares of such fund, is calculated by determining first, if appropriate, the proportion of the net assets of the relevant fund attributable to each class of Shares, thereby taking account of the ongoing distribution charge payable by Class E Shares. Each such amount will be divided by the number of Shares of the relevant class then outstanding as at close of business to the extent feasible.

The Articles of Incorporation contain valuation regulations which provide that for the purpose of determining Net Asset Value:

1. the value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as Directors or their delegate may consider appropriate in such case to reflect the true value thereof;
2. the value of transferable securities, money market instruments and financial derivative instruments are valued on the basis of the last available price of the relevant stock exchange or regulated market on which these securities or assets are traded or admitted for trading. Where such securities or other assets quoted or dealt in on one or more than one stock exchange or regulated market, the Board or its delegate shall adopt policies as to the order of priority in which such stock exchanges or other regulated markets shall be used for the provisions of prices of securities or assets;
3. if a transferable security or money market instrument is not traded or admitted on any official stock exchange or an regulated market, or in the case of transferable securities or money market instruments so traded or admitted where the last available price is not representative of their fair market value, the Board or its delegate shall proceed on the basis of their reasonably foreseeable sales price, which shall be valued with prudence and in good faith;
4. the financial derivative instruments which are not listed on any official stock exchange or traded on any other regulated market will be valued in accordance with market practice;
5. units or shares of undertakings for collective investment, including funds, shall be valued on the basis of their last available net asset value, as reported by such undertakings; and
6. liquid assets and money market instruments may be valued at nominal value plus any accrued interest or on an amortised cost basis under certain limited conditions (including for instruments with low residual maturities when deemed allowed to gain an appropriate approximation of the price of the instrument) provided that escalation procedures are in place to ensure corrective actions are promptly taken when the amortised cost no longer provides a reliable approximation of the price of the instrument. All other assets, where practice allows, may be valued in the same manner.

If any of the aforementioned valuation principles do not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Fund's assets, the Board or its delegate may adopt different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures.

For example, if a market in which the Fund invests is closed at the time the Fund is valued, the latest available market prices may not accurately reflect the fair value of the Fund's holdings. This might be the case if other markets which are open at the Fund's valuation point, and with which the closed market is highly correlated, have experienced price movements (subsequent to the time of closure of the market in which the Fund has invested). Other factors may also be taken into account when considering the fair value of holdings in a market which is closed. Failure to adjust those closing prices to fair values could be exploited by some investors at the expense of long term shareholders in an activity known as market timing.

Accordingly the Board or its delegates may adjust the last available market price to take account of market and other events which occur between the relevant market closing and the point at which the Fund is valued. Such adjustments are made on the basis of an agreed policy and set of procedures which are transparent to the Fund's depository and auditors. Any adjustment is applied consistently across the funds and Share classes.

Other situations, including where a holding has been suspended, has not traded for some time or for which an up to date market price is not available will be subject to a similar adjustment process. Investors should note that it may be the case

that payments to be made to a fund such as those in respect of a class action may not be included in the Net Asset Value of a fund until actually received owing to the inherent uncertainty surrounding such payments.

The value of all assets and liabilities not expressed in the Reference Currency of a fund or the Principal Dealing Currency of a class will be converted into the Reference Currency of such fund or the Principal Dealing Currency of such class at rates last quoted by any major bank. If such quotations are not available, the rate of exchange will be determined in good faith by or under procedures established by the Board.

The assets relating to a fund means the assets which are attributed to that fund less the liabilities attributed to that fund and where any asset or liability of the Fund cannot be considered to be attributed to a fund such asset or liability shall be allocated to the assets or liabilities relating to all the funds or all the relevant funds pro rata to the Net Asset Values thereof. Liabilities are binding on the relevant fund only provided, however, under exceptional circumstances the Board may undertake joint and several obligations which may be binding upon several or all funds if this is in the interest of the Shareholders concerned.

Calculations of Net Asset Value are made by the Management Company and are made generally in accordance with generally accepted accounting principles and international standards. In the absence of bad faith, negligence or manifest error, every decision in calculating Net Asset Values taken by the Management Company will be final and binding on the Fund and on present, past and future Shareholders.

## 2.4. Price Adjustment Policy (Swing Pricing)

Large transactions in or out of a fund can create "dilution" of a fund's assets because the price at which an investor buys or sells Shares in a fund may not entirely reflect the dealing and other costs that arise when the portfolio manager has to trade in securities to accommodate large cash inflows or outflows. In order to counter this and enhance the protection of existing Shareholders, a policy has been adopted with effect from 1 November 2007 to allow price adjustments as part of the regular daily valuation process to counter the impact of dealing and other costs on occasions when these are deemed to be significant.

If on any dealing day the aggregate net transactions in Shares of a fund exceed a threshold set by the Board from time to time for each fund, the asset value may be adjusted upwards or downwards as applicable to reflect the costs that may be deemed to be incurred in liquidating or purchasing investments to satisfy net daily transactions at fund level. The threshold is set by the Board taking into account factors such as the prevailing market conditions, the estimated dilution costs and the size of the funds, the application of which will be triggered mechanically and on a consistent basis. The adjustment will be upwards when the net aggregate transactions result in an increase of the number of Shares. The adjustment will be downwards when the net aggregate transactions result in a decrease of the number of Shares. The adjusted asset value will be applicable to all transactions on that day.

Some of the funds are currently co-managed, the aggregated groups of assets are referred to as a 'pool'. Individual funds may have their assets invested via one or more pools. For the purposes of operating a price adjustment policy, the Board may decide that a threshold for adjusting prices be established at pool level.

The price adjustment, based on normal dealing and other costs for the particular assets in which a fund is invested, will not exceed 2% of the original net asset value. However, whilst the price adjustment is normally not expected to exceed 2%, the Board may decide to increase this adjustment limit in exceptional circumstances to protect Shareholders' interests. As any such price adjustment will be dependant on aggregate net transactions in Shares, it is not possible to accurately predict whether it will occur at any future point in time and consequently how frequently it will need to be made.

## 2.5. Co-Management of Assets

For the purpose of effective management the Board may choose that the assets of certain funds within the Fidelity Funds range be co-managed. In such cases, assets of different funds will be managed in common. Co-managed assets are referred to as a 'pool', notwithstanding the fact that such pools are used solely for internal management purposes. The pools do not constitute separate entities and are not directly accessible to investors. Each of the co-managed funds shall be allocated its specific assets.

Where the assets of more than one fund are pooled, the assets attributable to each participating fund will initially be determined by reference to its initial allocation of assets to such a pool and will change in the event of additional allocations or withdrawals.

The entitlement of each participating fund to the co-managed assets applies to each and every line of investments of such pool.

Additional investments made on behalf of the co-managed funds shall be allotted to such funds in accordance with their entitlements whereas assets sold shall be levied similarly on the assets attributable to each participating fund.

## 2.6. Temporary Suspension of Determination of Net Asset Value and of the Issue, Switching and Redemption of Shares

The Board may suspend the determination of the Net Asset Value of Shares of any fund, the issue of such Shares, the switching of such Shares and the redemption of such Shares:

- a. during any period (other than ordinary holidays or customary weekend closings) when any market or stock exchange is closed on which a significant portion of the Fund's investments relating to that fund is quoted and which is the main market or stock exchange for such investments, provided that the closing of such exchange or market affects the valuation of the investments quoted thereon; or during any period when dealings on such market or stock exchange are substantially restricted or suspended, provided such restriction or suspension affects the valuation of the investments of the Fund relating to that fund quoted thereon;
- b. during any period when an emergency exists as a result of which disposal by the Fund of investments relating to that fund which constitute a substantial portion of the assets of the fund is not practically feasible or would be seriously prejudicial to the Shareholders;
- c. during any breakdown in the means of communication normally employed in determining the price of any of the Fund's investments relating to that fund or of current prices on any market or stock exchange;

- d. when for any other reason the prices of any investments owned by the Fund relating to that fund cannot promptly or accurately be ascertained;
- e. during any period when remittance of monies which will or may be involved in the realisation of or in the payment for any of the Fund's investments relating to that fund cannot, in the opinion of the Board, be carried out at normal rates of exchange;
- f. while the value of the investments held through any subsidiary of the Fund may not be determined accurately;
- g. during any period when in the opinion of the Board or the Management Company unusual circumstances exist where it would be impractical or unfair towards the Shareholders to continue dealing in the Shares of the Fund or of any fund, or circumstances where a failure to do so might result in the Shareholders of the Fund or a fund incurring any liability to taxation or suffering other pecuniary disadvantage or other detriment which the Shareholders of the Fund or a fund might not otherwise have suffered, or any other circumstances;
- h. if the Fund or a fund is being or may be wound-up, on or following the date on which such decision is taken by the Board or notice is given to Shareholders of a general meeting of Shareholders at which a resolution to wind-up the Fund or a fund is to be proposed;
- i. in the case of a merger, if the Board and/or the Management Company deems this to be justified for the protection of Shareholders;
- j. in the case of a suspension of the calculation of the net asset value of one or several underlying investment funds in which a fund has invested a substantial portion of assets.

Furthermore, if on any Valuation Date redemption requests and switching requests relate to more than 10% of the Shares in issue in respect of a fund, the Directors may declare that part or all of such Shares for redemption or switching will be deferred on a pro rata basis for a period that the Directors consider to be in the best interests of the Fund and/or the Directors may defer any redemption request which exceeds 10% of the Shares in issue in respect of a fund or class of Shares. Such period would not normally exceed 20 Valuation Dates. On such Dates, these redemption and switching requests will be met in priority to later requests.

Suspension of determination of the Net Asset Value of Shares of one fund will not imply suspension in respect of other funds unaffected by the relevant events.

Shareholders who have requested switching or redemption of their Shares or who have made an application to subscribe for Shares will be notified in writing of any such suspension of the right to subscribe, to convert or to require redemption of Shares and will be promptly notified upon termination of such suspension. Any such suspension will be published in such manner as decided by the Board if in its opinion the suspension is likely to exceed one week.

In the event of any contemplated liquidation of the Fund, no further issues, switchings, or redemptions of Shares will be permitted after publication of the first notice convening the general meeting of Shareholders for the purpose of winding up the Fund. All Shares outstanding at the time of such publication will participate in the Fund's liquidation distribution.

Each Distributor reserves the right to suspend or terminate sales of Shares in one or more funds and to refuse to accept any applications. Sales will normally be suspended when the Fund suspends the determination of Net Asset Value.

## 2.7. Restrictions on Buying, Subscribing and Switching into Certain Funds

The Board and/or the Management Company may decide to partially close a fund or class of Shares to all buys, subscription or switches in from new investors only, or to totally close a fund or class of Shares to all buys or subscription or switches in (but not, in either the case of partial or total closure as described, to redemptions or switches out).

Where this occurs, the website [www.fidelityinternational.com](http://www.fidelityinternational.com) will be amended to indicate the change in status of the applicable fund or class of Shares. Shareholders and potential investors should confirm with the Management Company or the Distributors or check the website for the current status of funds or class of Shares. Once closed, a fund or a class of Shares will not be re-opened until, in the opinion of the Board, the circumstances which required closure no longer prevail.

## PART III

### 3. GENERAL INFORMATION

#### 3.1. Dividends

Share type	Share name	Payments
Accumulating Shares	A-ACC A-ACC (hedged) A-ACC ( [currency pairing] hedged) E-ACC E-ACC (hedged) E-ACC (EUR / USD hedged) I-ACC I-ACC ( [currency pairing] hedged) I-ACC (hedged) P-ACC P-ACC (hedged) SR-ACC Y-ACC Y-ACC (hedged)	No dividends will be paid for accumulating Shares. All interest and other income earned on the investment will be accumulated.
Distributing Shares (from net income)	A A (hedged) B C D E I I (hedged) J Y Y (hedged) Y ( [currency pairing] hedged)	<p>The Board expects to recommend distribution of substantially the whole of each class' respective net investment income for the year.</p> <p>Dividends are normally declared on the first Business Day of August. Dividends are also declared on certain funds on other dates. These are shown in the table below.</p>

Distributing Shares (from net income)	A-QDIST B-QDIST E-QDIST I-QDIST Y-QDIST Y-QDIST (hedged)	<p>The Board expects to recommend distribution of substantially the whole of each class' respective net investment income for the year.</p> <p>Dividends are normally declared on the first Business Day of February, May, August and November.</p> <p>Dividends are also declared on certain funds on other dates. These are shown in the table below.</p>

Share type	Share name	Payments
Distributing Shares (from net income)	A-MINCOME A-MINCOME (hedged) E-MINCOME E-MINCOME (hedged) Y-MINCOME Y-MINCOME (hedged)	The Board expects to recommend distribution of substantially the whole of each class' respective net investment income for most of the time, and from capital on occasion so as to seek to maintain, so far as is reasonable, a stable payment per Share. Such payment per Share is not fixed and will vary according to economic and other circumstances and the ability of the funds to support stable monthly payments without a long term positive or negative impact on capital.  Dividends are normally declared on the first Business Day of each month.  Dividends are also declared on certain funds on other dates. These are shown in the table below.
Distributing Shares (from net income)	A-QINCOME A-QINCOME (hedged) E-QINCOME E-QINCOME (hedged) I-QINCOME Y-QINCOME Y-QINCOME (hedged)	The Board expects to recommend distribution of substantially the whole of each class' respective net investment income for most of the time, and from capital on occasion so as to seek to maintain, so far as is reasonable, a stable payment per Share. Such payment per Share is not fixed and will vary according to economic and other circumstances and the ability of the funds to support stable monthly payments without a long term positive or negative impact on capital.  Dividends are normally declared on the first Business Day of February, May, August and November.  Dividends are also declared on certain funds on other dates. These are shown in the table below.
Distributing Shares (from gross income)	A-GMDIST (hedged) E-GMDIST (hedged)	The Board expects to recommend distribution of substantially the whole of each class' respective gross investment income for the year.  Dividends are normally declared on the first Business Day of each month. Dividends are also declared on certain funds on other dates. These are shown in the table below.
Distributing Shares (from gross income)	A-MINCOME(G) A-MINCOME(G) (hedged) A-MINCOME(G) ( [currency pairing] hedged)D- MINCOME(G) (hedged) E-MINCOME(G) E-MINCOME(G) (hedged) Y-MINCOME(G) Y-MINCOME(G) (hedged)	The Board expects to recommend distribution of substantially the whole of each class' respective gross investment income for most of the time, and from capital on occasion so as to seek to maintain, so far as is reasonable, a stable payment per Share which should not have over the long term a positive or negative impact on capital.  Dividends are normally declared on the first Business Day of each month.  Dividends are also declared on certain funds on other dates. These are shown in the table below.
Distributing Shares (from gross income)	A-QINCOME(G) A-QINCOME(G) (hedged) E-QINCOME(G) E-QINCOME(G) (hedged) I-QINCOME(G) I-QINCOME(G) ( [currency pairing] hedged) Y-QINCOME(G) Y-QINCOME(G) (hedged) W-QINCOME(G)	The Board expects to recommend distribution of substantially the whole of each class' respective gross investment income for most of the time, and from capital on occasion so as to seek to maintain, so far as is reasonable, a stable payment per Share which should not have over the long term a positive or negative impact on capital.  Dividends are normally declared on the first Business Day of February, May, August and November.  Dividends are also declared on certain funds on other dates. These are shown in the table below.
Distributing Shares (from gross income)	A-GDIST (hedged) E-GDIST (EUR / USD hedged)	The Board expects to recommend distribution of substantially the whole of each class' respective gross investment income for the year.  Dividends are normally declared on the first Business Day of August.

Share type	Share name	Payments
Distributing Shares (from gross income and capital)	A-MCDIST(G)	<p>The Board expects to recommend distribution of substantially the whole of each class's respective gross investment income, and will also determine to what extent distribution will be made from capital so as to seek to achieve a distribution percentage higher than that of a MINCOME Share class.</p> <p>Such distribution however is not fixed and will be reviewed periodically by the Board according to economic and other circumstances.</p> <p>Dividends are normally declared on the first Business Day of each month.</p> <p>For distributions out of capital, investors should refer to Part I, 1. Fund Information, 1.2. Risk Factors, X. "Distribution out of capital risk" in this Prospectus.</p>
Distributing Hedged Shares (from net income)	A-HMDIST (hedged)	<p>The Board expects to recommend distribution of substantially the whole of the respective net investment income for the period.</p> <p>The Board may also determine if and to what extent dividends may include distributions from capital. Such distributions may include a premium when the interest rate of the hedged currency is higher than the fund's reference currency interest rate. Consequently when the interest rate of the hedged currency is lower than the fund's reference currency interest rate, the dividend may be discounted.</p> <p>Dividends are normally declared on the first Business Day of each month.</p>
Distributing Hedged Shares (from gross income)	A-HMDIST(G) (hedged) A-HMDIST(G) ([currency pairing] hedged)	<p>The Board expects to recommend distribution of substantially the whole of the respective gross investment income for the period.</p> <p>The Board may also determine if and to what extent dividends may include distributions from capital. Such distributions may include a premium when the interest rate of the hedged currency is higher than the fund's reference currency interest rate. Consequently when the interest rate of the hedged currency is lower than the fund's reference currency interest rate, the dividend may be discounted.</p> <p>Dividends are normally declared on the first Business Day of each month.</p>

Dividends are normally paid within five Business Days, or as soon as practicable thereafter.

The funds have available Share classes that accumulate income, pay regular dividends out of net or gross current income or on occasion make payments out of capital.

Share classes that can make payments out of capital will reduce capital appreciation for the holders of such Shares. For certain distributing classes of Shares (i.e. MINCOME or QINCOME Shares), any such payments out of capital will only be made to seek to maintain, so far as is reasonable, a stable payment per Share but the payment per Share is not fixed and will vary according to economic and other circumstances and the ability of the fund to support stable monthly payments without a long-term positive or negative impact on capital. For other distributing classes of Shares (i.e. MCDIST Shares) payments out of capital will be made to seek to achieve a distribution percentage higher than that of a MINCOME Share class, however this distribution is not fixed either and will vary according to economic and other circumstances. The funds are managed in line with the stated investment objectives and are not managed to maintain a stable payment per Share on any particular Share class. The Board may also determine if and to what extent dividends may include distributions from realised and unrealized capital gains as well as from capital. Such distributions may include a premium when the interest rate of the hedged currency is higher than the fund's reference currency interest rate. Consequently when the interest rate of the hedged currency is lower than the fund's reference currency interest rate, the dividend may be discounted (i.e. HMDIST(G) (hedged)).

Dividends paid may include capital, which will be attributable to the relevant class of Shares. To the extent that net income attributable to these Shares exceeds the amount declared payable, the excess amount will be reflected in the respective Net Asset Value of such Shares. Alternatively, the amount of dividend may exceed the aggregate amount of net investment income and net capital gain. Accordingly, the level of dividend does not necessarily indicate the total return of the fund. In order to assess the total return of the fund, both the Net Asset Value movement (including dividend) and the dividend distribution should be considered.

For distributions out of capital, investors should refer to Part I, 1. Fund Information, 1.2. Risk Factors, X. "Distribution out of capital risk" in this Prospectus.

In case of distribution of gross investment income, charges will be deducted from the assets of the relevant class of Shares. This will enhance income returns but may constrain capital growth.

In case the payment of the dividend amount per class of Shares accrued between the launch date and the first scheduled distribution date would not be economically efficient, the Board reserves the right to defer this payment to the following period.

Dividends remaining unclaimed five years after the dividend declaration date will be forfeited and will revert to the Fund.

Exceptions to the payment rules above are shown in the table below.

**Exceptions to Distribution Dates and Distributing Rates for Distributing Shares**

<b>Fund Type</b>	<b>Distribution Date(s) and Distributing Rate(s) as applicable</b>
<b>Exceptions within Equity and Equity Income funds</b>	
Fidelity Funds – Asia Pacific Dividend Fund A-USD Fidelity Funds – European Dividend Fund A-Euro Fidelity Funds – Global Property Fund A-GBP	First Business Day of February and August
Fidelity Funds – Asia Pacific Property Fund A-USD Fidelity Funds – Asia Pacific Property Fund Y- Euro Fidelity Funds – Global Equity Income Fund I-USD	First Business Day of February, May, August and November
<b>Exceptions within Bond funds</b>	
Fidelity Funds – Asian High Yield Fund A-RMB (hedged) Fidelity Funds – China RMB Bond Fund E-GDIST (EUR/USD hedged) Fidelity Funds – Flexible Bond Fund A-GBP Fidelity Funds – Flexible Bond Fund Y-GBP	First Business Day of February, May, August and November
Fidelity Funds – US Dollar Bond Fund A-USD	First Business Day of February and August
<b>Exceptions within Reserved funds</b>	
Fidelity Funds – Fidelity Advisor World Funds Equity Income Fund A-USD	First Business Day of February, May, August and November
Fidelity Funds – Fidelity Advisor World Funds Limited Term Bond Fund A-USD	First Business Day of each month
Fidelity Funds – Fidelity Advisor World Funds US Dollar Bond Fund A-USD	First Business Day of each month
Fidelity Funds – Fidelity Advisor World Funds US High Income Fund A-USD	First Business Day of each month

**Registered Shares****(i) Dividend Reinvestment**

Dividends are reinvested in additional Shares of the same distributing class of Shares unless Shareholders specify otherwise in writing.

Dividends to be reinvested are credited to the Management Company which acts on behalf of the Shareholders and invests the amount of the dividends in additional Shares of the same distributing class of Shares. Shares are issued at the Net Asset Value determined on the dividend declaration date if it is a Valuation Date, or the subsequent Valuation Date.

No initial charge is payable on these Shares. Shares issued through this dividend facility are held in a registered account for the investor. Shares are calculated to two decimal places and the resulting cash fraction remainder (whose value is less than 0.01 of a Share) is retained in the Fund for inclusion in subsequent calculations.

**(ii) Dividend Payment**

Holders of registered distributing Shares may elect to receive a dividend payment which will normally be made by electronic bank transfer, net of bank charges. In this case, unless specified otherwise, payment is normally made in the Principal Dealing Currency of the distributing class of Shares of the fund. If requested, payment may be made in any other major freely convertible currency at the prevailing rate of exchange.

If any dividend payment is lower than USD 50 (or its equivalent in another currency) the dividend will be automatically reinvested in further Shares of the same distributing class of Shares and not paid directly to the respective Shareholder unless such re-investment is not allowed under any local applicable regulations.

**Income Equalisation Arrangements**

Income equalisation arrangements are applied in the case of all Share classes (accumulating and distributing) and for all funds in all fund ranges. For distributing Shares these arrangements are intended to ensure that the income per Share which is distributed in respect of a distribution period is not affected by changes in the number of Shares in issue during that period. The amount of the first distribution received by a Shareholder following the purchase of distributing Shares in that fund represents partly participation in income received by the fund and partly a return of capital (the 'equalisation amount'). In general, the equalisation amount represents the average amount of income of the Share class included in the Net Asset Value of each Share issued during the relevant period. It is expected that the equalisation amount will not be taxable as an income receipt of the Shareholder but should be applied to reduce the base acquisition cost of the Shares for the purpose of computing capital gains. The tax treatment of equalisation amounts may, however, differ in certain jurisdictions. Shareholders who wish to obtain information concerning the equalisation amount received by them as a part of their distribution, may do so by contacting the Distributor or the Management Company at the relevant registered address.

### 3.2. Meetings and Reports to Shareholders

The annual general meeting of Shareholders is held in Luxembourg on the first Thursday of October of each year at noon or, if such date is not a Business Day in Luxembourg, on the next following Business Day.

If permitted by and under the conditions set forth in Luxembourg laws and regulations, the annual general meeting of Shareholders may be held at a date, time or place other than those set forth in the preceding paragraph, that date, time or place to be decided by the Board and specified in the notice of meeting.

Other meetings of Shareholders or funds meetings may be held at such place and time as may be specified in the respective notices of meeting.

Notices of meetings of Shareholders are given in accordance with Luxembourg Law and the Articles of Incorporation by publication in the Mémorial and the d'Wort in Luxembourg and in other newspapers as decided from time to time by the Directors. Written notice will be sent to registered Shareholders at least 8 days prior to each meeting. All notices of meetings specify the time, place and agenda of the meeting, and the quorum and voting requirements. The Shareholders of any fund may hold, at any time, general meetings to decide on matters which relate exclusively to that fund.

Under the conditions set forth in Luxembourg laws and regulations, the notice of any general meeting of shareholders may provide that the quorum and the majority at this general meeting shall be determined according to the shares issued and outstanding at a certain date and time preceding the general meeting (the "Record Date"), whereas the right of a Shareholder to attend a general meeting of Shareholders and to exercise the voting rights attaching to his/its/her shares shall be determined by reference to shares held by this Shareholder as at the Record Date.

The Fund's financial year ends on 30 April each year. The Fund's annual report incorporating financial statements is published within four months after the end of the financial year and at least two weeks before the annual general meeting of Shareholders. The Fund's accounting records are separately maintained in each fund's Reference Currency. Annual accounts are presented in the funds' Reference Currencies with consolidated accounts presented in US Dollars. The Fund publishes a semi-annual unaudited financial report, containing a list of each fund's holdings and their market values, within two months of the date to which it is made up.

The annual and semi-annual reports can be downloaded from the website [www.fidelityinternational.com](http://www.fidelityinternational.com) or may be obtained, free of charge, on request from the Management Company, the Distributors or the representatives of the Fund.

### 3.3. Taxation

#### Taxation of the Fund

The Fund is not liable to any Luxembourg taxes on income or on realised or unrealised capital gains, nor to any Luxembourg withholding tax. The funds are subject to an annual subscription tax of 0.05% on Equity, Multi Assets, Asset Allocation, Fidelity Lifestyle Funds, and 0.01% on Cash, Institutional Reserved and Reserved funds and in general on all class I and class P Shares, calculated and payable quarterly on the net assets of the fund on the last day of each fiscal quarter.

No such tax is applicable in respect of assets invested in Luxembourg undertakings for collective investments which are themselves subject to this tax.

Capital gains, dividends and interest on securities held by the Fund may be subject to capital gains, withholding or other taxes imposed by the country of origin concerned and these taxes may not be recoverable by the Fund or by Shareholders.

#### Taxation of Chinese Assets

Following the circular (Caishui 2014] No. 79) issued jointly by Chinese Ministry of Finance, State Administration of Taxation (SAT) and China Securities Regulatory Commission (CSRC), QFIIs will be temporarily exempt from withholding tax on gains derived from the trading of the equity investment assets (A-shares) effective from 17 November 2014 provided that the QFIIs have no establishment or place of business in China, or QFIIs have their establishment or place of business in China, but the income so derived in China is not effectively connected with this establishment or place of business in China. Based on professional and independent tax advice, currently no provision is being made for tax on capital gains on disposals of (i) China A Shares and B Shares, or (ii) China fixed income securities listed or traded on exchanges or the mainland China interbank bond market. The Investment Manager reviews the tax provisioning policy on an on-going basis, however, any tax provision made ultimately may prove excessive or inadequate to meet any actual tax liabilities that ultimately arise and any shortfall would adversely affect the Net Asset Value.

#### Taxation of Shareholders (natural person)

##### (i) Non-resident Shareholders

As a general rule, non Luxembourg tax residents are not subject to any capital gains, income, withholding, gift, estate, inheritance or other tax in Luxembourg with respect to their Shares.

##### (ii) Luxembourg resident Shareholders

Individual Luxembourg tax residents may benefit from an annual tax exemption which applies to taxable distributions up to Euro 1,500 (Euro 3,000 for married taxpayers/partners filing jointly). Distributions in excess of the annual exemption are taxed at progressive income tax rates. As from 2013, the highest marginal tax rate is 43.60%. In addition, a 1.4% dependency contribution is applied on the gross distribution, if such Shareholders are subject to Luxembourg Social Security regime.

#### Taxation of capital gains realised

Capital gains realised by Luxembourg tax resident individual Shareholders are tax exempt if:

- (a) their shareholding (held directly or indirectly, alone or together with their household (spouse / partner and minor children)) in the Fund does not exceed 10% of the paid up share capital of the Fund, and
- (b) the disposal takes place more than six months after the acquisition thereof (or the disposal take place within the six months but the total capital gains do not exceed EUR 500).

Capital gains realised by Luxembourg tax resident individual Shareholders are taxable if:

- (a) the Shares in the Fund are disposed of within six months of their acquisition (irrespective of the shareholding level), or
- (b) the Shares in the Fund are disposed of six months after their acquisition and the shareholding (held directly or indirectly, alone or together with their household (spouse / partner and minor children)) represents more than 10% of the paid up share capital of the Fund at any time during the five years previous to the day of the sale or transfer.

Capital gains realised under (a) will be subject to income tax up to 43.60% as from 2013.

Capital gains realised under (b) will be subject to income tax after deduction of an amount of up to EUR 50,000 (EUR 100,000 for married taxpayers / partners filing jointly) available over a 10-year period. The balance thereof will be subject to income tax at the half of the applicable income tax rate for relevant taxpayer (up to 21.8% as from 2013).

The marginal income tax rate in Luxembourg is 43.60% as from 2013. In addition, a 1.4% dependency contribution is applied on the taxable capital gain, if such Shareholders are subject to Luxembourg Social Security regime.

A new contribution of 0,5% ("temporary equalisation tax") will be applicable as from 1 January 2015. The contribution will be due on the gross remuneration decreased with a quarter of the minimum social wage as of 1 January of the concerned year.

### (iii) United Kingdom resident Shareholders

HM Revenue and Customs ('HMRC') have granted UK 'reporting fund' status, for the purposes of the Offshore Funds (Tax) Regulations 2009 (as amended), in respect of all funds and Share classes of the Fund which are registered in the United Kingdom beginning with the accounting period ending 30 April 2011. This regime replaced a previous regime under which all funds and Share classes of the Fund registered in the UK obtained "distributing fund" status for periods up to and including the year ending 30 April 2010. Please note there can be no guarantee that these funds or Share classes will remain so certified, however, once reporting fund status is obtained from HMRC for each fund / Share class, it will remain in place for all subsequent periods provided that the annual reporting requirements are satisfied.

### (iv) EU Savings Directive

On 10 November 2015, the EU Council has decided to repeal the EUSD with effect as at 1st January 2016. As from that date, Common Reporting Standard ("CRS") applies in most of EU countries, including Luxembourg. This new global standard developed by the OECD for the automatic exchange of information goes beyond the limited scope of the EUSD and extends the scope of that exchange to include interest, dividends and other types of income. Therefore, as from 1st January 2016, Luxembourg no longer applies the EUSD regime but the CRS regime. Only Austria obtained a derogation to apply EUSD for a transitional period (see Article 2.2 of the Council Directive 2014/107/EU of 9 December 2014).

As Switzerland will be part of the second CRS wave, the "Savings" Agreement concluded between EU and Switzerland (similar agreements exist also for Andorra, Liechtenstein, Monaco and San Marino) will remain in force until 31 December 2016. Until this date, Switzerland will continue to apply a withholding tax on cross border payments of interest to non-resident investors by local paying agents (unless a voluntary disclosure has been granted by the investors) in the context of this agreement. As from the 1st January 2017, it will be changed into an "Automatic exchange of information" Agreement. The first Swiss report of account holder will take place as from September 2018 (Switzerland is part of the second CRS wave).

Austria has an additional time period of nine months compared to the other early adopting countries to implement CRS. In that respect, CRS will start to be applied gradually in October 2016 with the mandatory reporting of newly opened bank accounts and deposits. The first data exchange by Austria in the context of CRS will be done in September 2017 for new bank accounts opened for the period from 1 October 2016 to 31 December 2016. The high value (> EUR 1 million) accounts and deposits have to be identified by 31 December 2017. Subsequently, at the end of 2018, all accounts (high value, low value) are to be subject to the CRS procedures. During this transitional period, Austrian paying agents would continue to apply EUSD on cross-border interest payments until 31 December 2016.

## Taxation of Shareholders (corporate Shareholders)

### (i) Non-resident Shareholders

Under current legislation, non Luxembourg tax resident corporate Shareholders are not subject to any income, capital gain, withholding, estate, inheritance or other taxes in Luxembourg with respect to their Shares.

### (ii) Luxembourg resident Shareholders

Dividend distributions and capital gains received by Luxembourg tax resident corporate Shareholders are taxable at an aggregate tax rate of 29.22% for Luxembourg City as from 1st January 2013.

The tax consequences for each Shareholder of purchasing, subscribing, acquiring, holding, converting, selling, redeeming or disposing of Shares in the Fund will depend upon the relevant laws of any jurisdiction to which the Shareholder is subject. Investors and prospective investors should seek their own professional advice as to this, as well as to any relevant exchange control or other laws and regulations. Taxation law and practice and the levels of tax relating to the Fund and to Shareholders may change from time to time.

## Foreign Account Tax Compliance Act ('FATCA')

The Hiring Incentives to Restore Employment Act (the "Hire Act") was signed into US law in March 2010. It includes provisions generally known as Foreign Account Tax Compliance Act ("FATCA"). The objective of FATCA provisions is to impose on non-US Financial Institutions to identify and appropriately report on US taxpayers holding Financial Accounts outside the US as a safeguard against US tax evasion.

On 28 March 2014 Luxembourg signed an agreement ('IGA') with the US to implement FATCA for all Luxembourg based Financial Institutions. The IGA as transposed into Luxembourg law requires Luxembourg Financial Institutions, to report to the relevant Luxembourg authorities the details of US taxpayers holding Financial Accounts with those Financial Institutions so Luxembourg can exchange this information with the US on an automatic basis. The IGA is effective from 1 July 2014 and includes the Fund as a Luxembourg Financial Institution, and from 1 July 2014 requires the Fund to obtain mandatory evidence as to whether there are or are not any new Account Holders from 1 July 2014 (in this case, Shareholders) who are Specified US persons within the meaning of IGA. The Fund is also required to identify any pre 1 July 2014 Shareholder as a

Specified US Person within the meaning of the IGA based on the records the Fund holds or through the collection of additional documentation.

Further under Luxembourg law implementing the IGA the Fund is required to disclose such information as maybe required under the IGA to the Luxembourg authorities on any Shareholder who is considered to have become a Specified US person within the meaning of the IGA. Investors should consult their own tax advisers regarding any potential obligations that the IGA, or the wider US FATCA regulations, may impose on them.

Under the terms of the IGA the Fund as a Luxembourg Financial Institution is not subject to any additional US taxes or a FATCA withholding, unless it is considered to be in material non-compliance with Luxembourg law. In addition as the Fund does not pay US source income to Shareholders the Fund is not required to withhold any US taxes or FATCA withholding from distribution or redemption payments unless Luxembourg agrees with the US before 31 December 2016 that such withholding should be applied.

The Management Company was registered with the US Internal Revenue Service ("IRS") as a Sponsor prior to July 2014. Further, in accordance with the IGA, the Management Company intends to register the Fund as a Sponsored Entity with the IRS prior to the deadline of 31 December 2016.

### OECD Common Reporting Standard ('CRS')

In addition to the agreement signed by Luxembourg with the US to implement FATCA, Luxembourg has signed the Multilateral Competent Authority Agreement to implement the CRS. Details of the jurisdictions that are signatories can be found at <http://www.oecd.org/tax/exchange-of-tax-information/MCAA-Signatories.pdf>.

The EU has transposed the CRS by virtue of the amended EU Directive on Administrative Cooperation (DAC 2), adopted on 9 December 2014, which the EU Member States had to incorporate into their national laws by 31 December 2015. In this respect, the Luxembourg CRS law dated 18 December 2015 ("CRS law") was published in the Mémorial A – N° 244 on 24 December 2015.

The CRS law requires Reporting Luxembourg Financial Institutions, to report annually to the Administration des contributions directes ("ACD") certain financial account information about shareholders and (in certain cases) their Controlling Persons that are tax resident in a Reportable Jurisdiction (identified in a Grand Ducal Decree) so Luxembourg can exchange this information with the relevant jurisdiction on an automatic basis. The first reporting to the ACD needs to be done by 30 June 2017. The Fund as a Luxembourg Financial Institution, is subject to the CRS law.

In general, the CRS law requires the Fund to obtain mandatory declarations as to the tax residency(s) of any new shareholder as from 01 January 2016, and in the case of non-individuals additionally what their CRS classification is. The Fund should also identify relevant tax residency(s) of any existing shareholder on 31 December 2015 and in the case of non-individuals additionally what their CRS classification is, based on the records the Fund holds (if possible) and / or a declaration from the shareholder. Where a tax residency in a Reportable Jurisdiction is disclosed or identified, the Fund may be required to disclose certain financial account information annually under the CRS to the ACD on the relevant Shareholder and / or its Controlling Person(s).

Further under the CRS law, the Fund is required to disclose such information as maybe required annually under the CRS to the ACD on any Shareholder who is considered to have become tax resident of a different jurisdiction following a change in circumstance within the meaning of the CRS until such time as the Shareholder provides evidence of their actual tax residency(s). Investors should consult their own tax advisers regarding any potential obligations that the CRS may impose on them.

According to the Luxembourg CRS law and Luxembourg data protection rules, each individual concerned shall be informed on the processing of his/her personal data before the Reporting Luxembourg Financial Institution processes the data. If the individual qualifies as Reportable Person in the aforementioned context, the Fund will inform the individual in accordance with the Luxembourg data protection law.

- In this respect, the Fund as Reporting Luxembourg Financial Institution will be responsible for the personal data processing and will act as data controller for the purpose of the CRS law.
- The personal data is intended to be processed for the purpose of the CRS law and the CRS/DAC 2.
- The data may be reported to the ACD, which may in turn continue these data to the competent authorities of one or more Reportable Jurisdictions.
- For each information request for the purpose of the CRS law sent to the individual concerned, the answer from the individual will be mandatory. Failure to respond within the prescribed timeframe may result in (incorrect or double) reporting of the account to the ACD.
- Each individual concerned has a right to access any data reported to the ACD for the purpose of the CRS law and, as the case may be, to have these data rectified in case of error.

### 3.4. Eligible Investors and Restriction on Ownership

Although Shares are freely transferable, the Articles of Incorporation reserve to the Fund the right to prevent or restrict the beneficial ownership of Shares by any person who is not an Eligible Investor.

'Eligible Investor' means:

- any person, firm or corporate body whose holding of Shares might not cause (i) prejudice to the Fund, a fund, a class or a majority of Shareholders thereof, or (ii) breach of any law or regulation, whether Luxembourg or foreign, or (iii) the Fund or its Shareholders to be exposed to adverse regulatory, tax or fiscal consequences (including any tax liabilities that might derive, *inter alia*, from any requirements imposed by FATCA as defined under Part III, 3.3. "Taxation" or any breach thereof);
- any person who is not a US Person and whose subscription or other acquisition of Shares (whether from the Fund or from any other person) is not made:
  - a. while such person is physically present in the United States of America; or

- b. in connection with any solicitation to such person to subscribe while such person was physically present in the United States of America.

For such purposes, the Fund may:

1. decline to issue any Shares and decline to register any transfer of a Share, where it appears to it that such registration or transfer would or might result in legal or beneficial ownership of such Shares by a person who is not an Eligible Investor or by a person who following such registration or transfer would not qualify as Eligible Investor; and
2. at any time require any person whose name is entered in, or any person seeking to register the transfer of Shares on the register of Shareholders of the Fund to furnish it with any information, supported by affidavit, which it may consider necessary for the purpose of determining whether or not beneficial ownership of such Shares rests in an Eligible Investor or whether such registration will result in beneficial ownership of such Shares by a person who is not an Eligible Investor; and
3. decline to accept the vote of any person who is not an Eligible Investor and where such person is a three percent owner (as defined below), as to his shareholding in excess of three percent, at any meeting of Shareholders; and
4. where it appears to the Fund that any person who is not an Eligible Investor either alone or in conjunction with any other person is a beneficial owner of Shares, or of a defined proportion of the Shares outstanding, compulsorily redeem or cause to be redeemed from any such Shareholder all Shares held by such Shareholder or such Shares that exceed such defined proportion held by such Shareholder, and where the Shareholder is a three percent owner, compulsorily redeem or cause to be redeemed from such Shareholder all Shares held by such Shareholder in excess of this threshold, under the conditions and as further described in the Articles of Incorporation.

As used in the Prospectus, but subject to such changes as may be communicated to applicants for or transferees of Shares, 'three percent owner' means any person, firm or corporate body which as a legal or beneficial holder owns more than three percent of the number of Shares in the Fund from time to time outstanding.

As used in the Prospectus, but subject to US applicable law and to such changes as may be communicated to applicants for or transferees of Shares, 'US Person' means:

- a. a citizen or resident of the United States of America;
- b. a partnership, corporation, limited liability company or similar entity, organised or incorporated under the laws of the United States of America, or an entity taxed as such or subject to filing a tax return as such under the United States federal income tax laws;
- c. any estate or trust the executor, administrator or trustee of which is a US Person unless, in the case of trusts of which any professional fiduciary acting as trustee is a US Person, a trustee who is not a US Person has sole or shared investment discretion with respect to trust assets and no beneficiary of the trust (and no settlor if the trust is revocable) is a US Person;
- d. any estate or trust the income of which from sources without the United States of America is includible in gross income for purposes of computing United States income tax payable by it;
- e. any agency or branch of a foreign entity located in the United States of America;
- f. any discretionary or non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary located within or outside the United States of America for the benefit or account of a US Person;
- g. any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organised, incorporated or (if an individual) resident in the United States of America, except that any discretionary account or similar account (other than an estate or trust) held for the benefit or account of a non-US Person by a dealer or other professional fiduciary organised, incorporated or (if an individual) resident in the United States of America shall not be deemed a US Person;
- h. any firm, corporation or other entity, regardless of citizenship, domicile, situs or residence if, under the income tax laws of the United States of America from time to time in effect, any portion of the income thereof would be taxable to a US Person even if not distributed, other than a passive foreign investment company;
- i. any partnership, corporation or other entity if (A) organised or incorporated under the laws of any foreign jurisdiction and (B) owned or formed by a US Person or Persons principally for the purpose of investing in securities not registered under the US Securities Act of 1933 (including but not limited to Shares of the Fund);
- j. any employee benefit plan unless such employee benefit plan is established and administered in accordance with the law of a country other than the United States of America and customary practices and documentation of such country and is maintained primarily for the benefit of persons substantially all of whom are non-resident aliens with respect to the United States of America; and
- k. any other person or entity whose ownership of Shares or solicitation for ownership of Shares in Fidelity Investments Institutional Services Company Inc., FIL Distributors International Limited or the Fund, acting through their officers or directors, shall determine may violate any securities law of the United States of America or any state or other jurisdiction thereof.

*(Except that US Person shall not include any person or entity, notwithstanding the fact that such person or entity may come within any of the categories referred to above, as to whom FIL Distributors International Limited or the Fund, acting through their officers or directors, shall determine that ownership of Shares or solicitation for ownership of Shares shall not violate any securities law of the United States of America or any state or other jurisdiction thereof).*

As used herein, United States of America includes its states, commonwealths, territories, possessions and the District of Columbia.

In case of compulsory redemption from any Shareholder of Shares held by such Shareholder, subject to the conditions and as further described in the Articles of Incorporation, the relevant investment will be automatically redeemed in the Principal Dealing Currency (unless otherwise specifically decided by the Board or instructed by the relevant Shareholder) free from any redemption charge at the Net Asset Value per Share calculated and the proceeds will be returned to the relevant Shareholder's bank account.

### 3.5. Liquidation of Fidelity Funds, Funds and Classes of Shares

In the event that for any reason the aggregate value of the Shares of a given fund or class of Shares is below USD 50,000,000 (or its equivalent) or if a change in the economic or political situation relating to the fund or the class of Shares concerned or if the interests of the Shareholders would justify it, the Board may decide to liquidate the fund or class of Shares concerned. The decision of the liquidation will be published or notified to the Shareholders by the Fund prior to the effective date of the liquidation and the publication or notification will indicate the reasons and the procedures for the liquidation. Unless the Board otherwise decides in the interests of, or to keep equal treatment between, the Shareholders, the Shareholders of the fund or the class of Shares concerned may continue to request redemption or conversion of their shares. Proceeds which could not be distributed to their beneficiaries upon the close of the liquidation of the fund or the class of Shares concerned will be deposited with the *Caisse de Consignation* on behalf of their beneficiaries.

In all other circumstances or where the Board determines that the decision should be put to Shareholders for approval, the decision to liquidate a fund or a class of Shares may be taken at a meeting of Shareholders of the fund or class of Shares to be liquidated. At such meeting, no quorum shall be required and the decision to liquidate will be taken by simple majority of the votes cast. The decision of the meeting will be notified and/or published by the Fund in accordance with applicable laws and regulations.

Any merger of a fund shall be decided upon by the Board unless the Board decides to submit the decision for a merger to a meeting of Shareholders of the fund concerned. No quorum is required for such meeting and decisions are taken by the simple majority of the votes cast. In case of a merger of one or more funds where, as a result, the Fund ceases to exist, the merger shall be decided by a meeting of Shareholders for which no quorum is required and that may decide with a simple majority of the votes cast. In addition, the provisions on mergers of UCITS set forth in the Law of 2010 and any implementing regulations (relating in particular to notification to Shareholders) shall apply.

The Board may also, under the circumstances provided in the first paragraph of this section 3.5, decide upon the reorganisation of any fund by means of a division into two or more separate funds. To the extent required by Luxembourg law, such decision will be published or notified, if appropriate, in the same manner as described in the first paragraph of this section and, in addition, the publication or notification will contain information in relation to the funds resulting from the reorganisation. The preceding paragraph also applies to a division of Shares of any class of Shares.

In the circumstances provided for in the first paragraph of this section 3.5, the Board may also, subject to regulatory approval (if required), decide to consolidate or split any classes of Shares within a fund. To the extent required by Luxembourg law, such decision will be published or notified in the same manner as described in the first paragraph of this section 3.5 and the publication and/or notification will contain information in relation to the proposed split or consolidation. The Board may also decide to submit the question of the consolidation or split of classes of Shares to a meeting of Shareholders of such classes. No quorum is required for this meeting and decisions are taken by the simple majority of the votes cast.

The Fund is established of unlimited duration but may be liquidated at any time by resolution of Shareholders in accordance with Luxembourg law. The net proceeds of liquidation corresponding to each fund shall be distributed by the liquidators to the Shareholders in that fund in proportion to their holding of Shares in that fund. Amounts which are not promptly claimed by Shareholders will be held in escrow accounts by the *Caisse de Consignation*. Amounts not claimed from escrow within the period fixed by law may be liable to be forfeited in accordance with the provisions of Luxembourg law.

A general meeting of the Shareholders will be called to consider the liquidation of the Fund if the value of the Fund's net assets should decline to less than two-thirds of the minimum capital required by law. The minimum capital required by Luxembourg law is currently the equivalent of Euro 1,250,000.

### 3.6. Institutional Reserved Funds – Dilution Levy and Large Deals

The value of the property of a fund may be reduced as a result of the costs incurred in the dealings in the fund's investments, including stamp duty and any difference between the buying and selling price of such investments. In order to mitigate against such 'dilution' and consequent potential adverse effect on remaining Shareholders, the Fund has the power to charge a 'dilution levy' when Shares are bought or sold. Any dilution levy must be fair to all Shareholders and potential Shareholders and the Fund will operate this measure in a fair and consistent manner to reduce dilution and only for that purpose.

The Fund reserves the right to impose a dilution levy:

In respect of a 'large deal', i.e. a deal (or series of deals placed on the same day) in respect of Institutional Reserved fund Shares exceeding Euro 1.5 million in value; or on a Shareholder who redeems or switches a shareholding in an Institutional Reserved fund within 30 days of its purchase.

It is not possible to predict accurately whether dilution would occur at any point in time. If an investor's proposed transaction falls within one of the above categories, the investor should check with his usual Distributor or the Management Company as to whether a dilution levy will apply in respect of that transaction before giving instructions for that transaction. In deciding whether to impose a dilution levy, the Board will consider a number of factors including the size of the transaction relative to the overall value of the fund, the level of transaction costs within that particular market, the liquidity of the underlying investments within the fund, the amount of investments to be bought/sold and the likely time that this will take, the likelihood of an adverse impact on the value of investments as a result of the accelerated rate of disposal, and the length of time for which the Shares in question were held.

The Fund is unlikely to impose a dilution levy unless the dealing costs relating to a Shareholder transaction are significant and/or will have a material impact on the value of the fund in question. Dealing costs (stamp duty, broker commissions and buy/sell spreads) will be considered significant if they amount to Euro 300,000 or more. A material impact is defined as impacting the Net Asset Value by 10 basis points or more. On a large redemption, the Fund may require the redeeming Shareholder to accept an in specie redemption subject to the conditions set out above under '2.2.2. Redemption in Specie' instead of imposing a dilution levy.

Based on future projections, the levy will be up to 0.80% of the purchase cost or the redemption or switch proceeds. Any dilution levy would be paid to the Fund and would become part of the property of the relevant fund. On any day where a price adjustment is triggered as further described under '2.4. Price Adjustment Policy (Swing Pricing)' above the dilution levy will not be applied.

## PART IV

### 4. ADMINISTRATION DETAILS, CHARGES AND EXPENSES

#### Board of Directors

The Board is responsible for the overall strategy of the Fund.

The Board's composition is indicated under the section "Overview – Management of the Fund".

The Board has appointed the Management Company to assume day-to-day responsibility for the conduct of the management, administration and marketing functions in relation to the Fund. The Management Company may delegate part or all of such functions to third parties, subject to its overall control and supervision.

A Director may hold any other office or position of profit under the Fund (other than the office of Auditor) or contract with the Fund without the risk of disqualifying from his office of Director on such terms as to tenure and otherwise as the Directors may determine. Any Director may also act in a professional capacity (other than as Auditor) and he or his firm shall be entitled to remuneration for such services as if he were not a Director.

A Director may not normally vote in respect of any contract in which he is personally interested. Any such contract will be disclosed in the financial reports of the Fund.

The Directors who are not employed by the Management Company, the Investment Manager or a Distributor or their affiliates are entitled to an annual Director's fee and a fee for each Board meeting attended. The aggregate fee paid to the Directors is disclosed in the annual report and accounts. All Directors may be paid all travelling, hotel and other expenses properly incurred by them in attending and returning from meetings of the Directors, or otherwise in connection with the business of the Fund.

The Directors shall be indemnified by the Fund against liability and related expenses in connection with any claim brought against such person by reason of his having been such Director or officer, provided that no indemnity shall be provided against liability to the Fund or its Shareholders by reason of wilful misfeasance, bad faith, negligence or reckless disregard of duties or with respect to any matter as to which he shall have been finally adjudicated not to have acted in good faith in the reasonable belief that his action was in the best interests of the Fund.

#### Management Company and Supervisory Officers

The Fund has appointed FIL Investment Management (Luxembourg) S.A as the Management Company of the Fund under a Management Company Services Agreement dated 1 June 2012. The Fund pays fees under this agreement at commercial rates agreed from time to time between the parties plus reasonable out-of-pocket expenses as further described under the Services Agreements section below.

The Management Company was incorporated as a Société Anonyme under the laws of the Grand Duchy of Luxembourg by notarial deed dated 14 August 2002, and published in the Mémorial on 23 August 2002. It has been incorporated for an undetermined period. It is registered on the Registre de Commerce et des Sociétés under No. B 88 635. The latest amendments to the Articles of Incorporation dated 22 June 2011 were published in the Mémorial on 22 July 2011. The Management Company has an authorised and issued share capital of EUR 500,000.

The Management Company is authorised as a management company governed by the EC Directive 2009/65 and therefore complies with the conditions set out in Chapter 15 of Law of 2010. The corporate object of the Management Company is the management within the meaning of article 101(2) of Law of 2010 including but not limited to the creation, administration, management and marketing, of undertakings for collective investment.

The Management Company is responsible for the management, administration, including the overall management of the investments of the Fund, and for the marketing function.

The Management Company processes subscriptions, redemptions, switches and transfers of Shares and enters these transactions in the Fund's register of Shareholders. It provides services to the Fund in connection with keeping the Fund's accounts, determination of the Net Asset Value of Shares in each fund on each Valuation Date, despatch of dividend payments to Shareholders, preparation and distribution of Shareholders' reports and provision of other administrative services.

The Management Company has appointed, with the consent of the Fund, the Investment Manager and the General Distributor. Details of the agreements with these parties and a description of the fees and expenses payable by the Fund are described below.

Amongst other things, the Management Company shall have the duty to ensure at all times that the tasks of the Investment Manager and the General Distributor are performed in compliance with Luxembourg law, the Articles of Incorporation and the Prospectus. Amongst other things, the Management Company and the Supervisory Officers appointed by it shall ensure compliance of the Fund with the investment restrictions (see Part V) and oversee the implementation of the investment policy of each fund.

The Management Company and/or the Supervisory Officers shall report to the Board on a quarterly basis and the Supervisory Officers shall inform the Management Company and the Board without delay of any materially adverse matters resulting from the actions of the Investment Manager, the General Distributor and of the Management Company in relation to the administrative functions described here above.

#### Remuneration Policy

FIL Investment Management (Luxembourg) S.A., is subject to remuneration policies, procedures and practices (together, the "Remuneration Policy") which complies with UCITS V directive (the "Directive") and in particular with the implementation rules that are available at the time of this Prospectus. The Remuneration Policy is consistent with and promotes sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profiles of the funds or the Articles of Incorporation. The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the funds and the investors, and includes measures to avoid conflicts of interest. The Remuneration Policy applies to staff whose professional activities have a material impact on

the risk profile of the Management Company or the funds, and ensures that no individual will be involved in determining or approving their own remuneration. The assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors in order to ensure that the assessment process is based on the longer-term performance of the fund and the investment risks and that the actual payment of performance-based components of remuneration is spread over the same period. Also, fixed and variable components of total remuneration are appropriately balanced and the fixed remuneration component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable components, including the possibility to pay no variable remuneration component. Details of the summary Remuneration Policy is available via <https://www.fil.com>. A paper copy can be obtained, free of charge, upon request in English at the office of the Management Company.

### The Investment Manager

The Management Company with the consent of the Fund has appointed FIL Fund Management Limited (the "Investment Manager") by an Investment Management Agreement dated 1 June 2012 between the Management Company, the Fund and the Investment Manager (the "Investment Management Agreement") to provide the Fund with day-to-day investment management of each fund, under the supervision of, and subject to the control of, the Management Company and its Supervisory Officers. The Investment Manager is authorised to act on behalf of the Fund and to select agents, brokers and dealers through whom to execute transactions and provides the Management Company and the Board with reports they may require.

The Fund, together with other UCIs advised or managed by FIL Fund Management Limited, may place orders for the purchase or sale of securities in which the Fund may invest with affiliates of FIL Fund Management Limited and other Connected Persons, provided that, among other conditions, they can reasonably be expected to execute the transaction on terms as favourable as could be expected to be obtained from other brokers qualified to execute the transaction and at commission rates comparable to those which would have been charged by such other brokers. Subject to the receipt of best execution, the Fund may take into account the sale of Shares by brokers and dealers when selecting them for the execution of transactions.

The Investment Manager may also provide investment management and advisory services to other FIL Group mutual funds and unit trusts, institutional and private investors.

The Investment Manager may receive investment advice from, and act upon the advice of, any Connected Person of the Investment Manager or any other third party adviser. Moreover, the Investment Manager may sub-delegate investment management activities to any Connected Person of the Investment Manager or any other eligible entity under applicable regulation. The Investment Manager shall remain responsible for the proper performance by such entity of those responsibilities.

The Investment Manager may sub-delegate investment management activities to the following entities:

<b>FIL Investments International</b>	<b>FIL Investments Japan Limited</b>
Oakhill House, 130 Tonbridge Road Hildenborough, Tonbridge Kent TN11 9DZ, England	Shiroyama JT Trust Tower 3-1, Toranomom 4-chome, Minato-ku Tokyo 105-6019, Japan
<b>Fidelity Management &amp; Research Company</b>	<b>FIL Investment Management (Hong Kong) Limited</b>
82 Devonshire Street Boston, Massachusetts USA	Level 21, Two Pacific Place 88 Queensway, Admiralty Hong Kong
<b>FIL Investment Management (Australia) Limited</b>	<b>FIL Asset Management (Korea) Limited</b>
Level 8, 167 Macquarie Street Sydney, NSW 2000 Australia	6F, Seoul Finance Center 136 Sejongdaero, Chung-gu Seoul, Korea
<b>FIL Gestion</b>	<b>FIL Investment Management (Singapore) Limited</b>
Washington Plaza 29 rue de Berri 75008 Paris, France	8 Marina View #35-06 Asia Square Tower 1 Singapore 018960
<b>FIAM LLC</b>	<b>Geode Capital Management, LLC*</b>
900 Salem Street Smithfield Rhode Island USA	One Post Office Square, 20th Floor Boston MA 02109 USA <small>* Geode Capital Management, LLC is exclusively managing Fidelity Funds - EURO STOXX 50™ Fund.</small>

The list of all entities having managed all or part of the assets of each fund over the last six or twelve months will be published in the annual and semi-annual financial reports, and for the first time in the annual report as at 30 April 2017.

### Termination or Amendment

The Investment Management Agreement has been entered into for a period of 30 years from 1 June 2012, unless terminated earlier by either party upon 90 days' prior written notice.

During such time as any Shares are authorised for sale in Hong Kong, the Fund or the Management Company may terminate the Investment Management Agreement on 30 days' prior written notice, if the Investment Manager goes into liquidation, becomes bankrupt or has a receiver appointed over its assets, or on the grounds that the Board or the Management Company are of the opinion that a change of Investment Manager is desirable and in the best interests of the Shareholders (subject to, if the Investment Manager so requires, the concurrence of the Securities and Futures Commission). Subject to this, the Fund or the Management Company may not give notice to terminate this agreement except with the sanction of a resolution passed by not less than a two-thirds majority at a Shareholders' meeting at which the holders of not less than two-thirds of the Shares are present or represented and voting.

The Investment Management Agreement may be amended by agreement between the Investment Manager, the Fund and the Management Company, by action of their respective boards, but the Fund or the Management Company may not increase the Investment Manager's fee above the rate of 2.00% without the sanction of an ordinary meeting of Shareholders nor amend the termination provisions of the Investment Management Agreement without the sanction of a resolution passed by not less than a two-thirds majority at a Shareholders' meeting at which the holders of not less than two-thirds of the Shares are present or represented and voting.

If the Investment Management Agreement is terminated for any reason, the Fund shall, at the request of the Investment Manager, change its name forthwith to a name excluding 'Fidelity' and excluding any other name connected with the Investment Manager.

### Investment Management Fee

The Investment Manager receives from the Fund an annual management fee, which is levied on the Net Asset Value of the funds. This fee varies in accordance with the fund type. The current fee structure per class of Shares is set out in Appendix II. Further information on the calculation method of the annual management fee for Asset Allocation Funds, Fidelity Lifestyle Funds and Institutional Target Funds is set out in the table below. The annual management fees are accrued daily and paid monthly, normally in US Dollars.

The Investment Manager may waive any or all of its fees in respect of any fund at its discretion from time to time.

The fee may be increased in respect of any one or more funds from time to time, provided the fee does not exceed an annual rate of 2.00% of the Net Asset Value of the fund. Any increase is subject to not less than three months' notice being given to Shareholders in the same manner as notices of meetings.

The Investment Manager remunerates the Connected Persons and any other entity to which it has sub-delegated investment management activities for services performed by them for the Fund. Brokerage commissions, transaction charges and other operating costs of the Fund are payable by the Fund.

#### Investment Management Fee – Asset Allocation Funds, Fidelity Lifestyle Funds and Institutional Target Funds

Fund Type	Current Maximum Annual Management Fee
Asset Allocation Funds	<p>For class A Shares of the Asset Allocation funds, an annual asset allocation fee of up to 0.50% is levied. In addition to that, an investment management fee, ranging from 0.40% to 1.50%, is charged and weighted for each co-managed portion of the portfolio of the fund in accordance with its composition. A fixed annual management fee of 1.40% will apply to class A Shares of Fidelity Funds – Fidelity Patrimoine.</p> <p>For class Y Shares of the Asset Allocation funds, an annual asset allocation fee of up to 0.25% is levied. In addition to that an investment management fee, ranging from 0.20% to 0.75%, is charged and weighted for each portion of the co-managed portfolio of the fund in accordance with its composition. A fixed annual management fee of 0.70% will apply to class Y Shares of Fidelity Funds – Fidelity Patrimoine.</p> <p>The fees are accrued daily in the Reference Currency of each fund and paid monthly, normally in US Dollars.</p>
Fidelity Lifestyle Funds	<p>For the US Dollar denominated Fidelity Lifestyle Funds an asset allocation fee of up to 0.30% is levied.</p> <p>For the US Dollar denominated Fidelity Lifestyle Funds, an annual management fee that will range from 0.40% to 1.50% and be weighted for each portion of the funds is levied. In keeping with the change in asset allocation of the underlying investments, the annual management fee would decrease over time as investment in bonds and cash increases.</p>
Fidelity Funds – Fidelity Institutional Target™ 2015 (Euro) Fund	For the class P-ACC-Euro Shares, the annual management fee is 0.45%.
Fidelity Funds – Fidelity Institutional Target™ 2020 (Euro) Fund	For the class P-ACC-Euro Shares, the annual management fee is 0.60% and will be reduced on 1 January 2018 to 0.45%.
Fidelity Funds – Fidelity Institutional Target™ 2025 (Euro) Fund	For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2018 and reduced further on 1 January 2023 to 0.45%.
Fidelity Funds – Fidelity Institutional Target™ 2030 (Euro) Fund	For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2023 and reduced further on 1 January 2028 to 0.45%.

Fund Type	Current Maximum Annual Management Fee
Fidelity Funds – Fidelity Institutional Target™ 2035 (Euro) Fund	For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2028 and reduced further on 1 January 2033 to 0.45%.
Fidelity Funds – Fidelity Institutional Target™ 2040 (Euro) Fund	For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2033 and reduced further on 1 January 2038 to 0.45%.
Fidelity Funds – Fidelity Institutional Target™ 2045 (Euro) Fund	For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2038 and reduced further on 1 January 2043 to 0.45%.
Fidelity Funds – Fidelity Institutional Target™ 2050 (Euro) Fund	For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2043 and reduced further on 1 January 2048 to 0.45%.
Fidelity Funds – Fidelity Target™ 2015 (Euro) Fund	The management fee was initially 1.50% and was reduced to 1.10% on 1 January 2008 and was reduced further on 1 January 2013 to 0.85%. For the class P-ACC-Euro Shares, the annual management fee was initially 0.60% and was reduced to 0.45% on 1 January 2013.
Fidelity Funds – Fidelity Target™ 2020 (Euro) Fund	The management fee was initially 1.50% and was reduced to 1.10% on 1 January 2013 and will be reduced further on 1 January 2018 to 0.85%. For the class P-ACC-Euro Shares, the annual management fee was initially 0.80% and was reduced to 0.60% on 1 January 2013 and will be reduced further on 1 January 2018 to 0.45%.
Fidelity Funds – Fidelity Target™ 2025 (Euro) Fund	The management fee is initially 1.50% and will be reduced to 1.10% on 1 January 2018 and reduced further on 1 January 2023 to 0.85%. For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2018 and reduced further on 1 January 2023 to 0.45%.
Fidelity Funds – Fidelity Target™ 2030 (Euro) Fund	The management fee is initially 1.50% and will be reduced to 1.10% on 1 January 2023 and reduced further on 1 January 2028 to 0.85%. For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2023 and reduced further on 1 January 2028 to 0.45%.
Fidelity Funds – Fidelity Target™ 2035 (Euro) Fund	The management fee is initially 1.50% and will be reduced to 1.10% on 1 January 2028 and reduced further on 1 January 2033 to 0.85%. For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2028 and reduced further on 1 January 2033 to 0.45%.
Fidelity Funds – Fidelity Target™ 2040 (Euro) Fund	The management fee is initially 1.50% and will be reduced to 1.10% on 1 January 2033 and reduced further on 1 January 2038 to 0.85%. For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2033 and reduced further on 1 January 2038 to 0.45%.
Fidelity Funds – Fidelity Target™ 2045 (Euro) Fund	The management fee is initially 1.50% and will be reduced to 1.10% on 1 January 2038 and reduced further on 1 January 2043 to 0.85%. For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2038 and reduced further on 1 January 2043 to 0.45%.
Fidelity Funds – Fidelity Target™ 2050 (Euro) Fund	The management fee is initially 1.50% and will be reduced to 1.10% on 1 January 2043 and reduced further on 1 January 2048 to 0.85%. For the class P-ACC-Euro Shares, the annual management fee is initially 0.80% and will be reduced to 0.60% on 1 January 2043 and reduced further on 1 January 2048 to 0.45%.

## The Depository

Brown Brothers Harriman (Luxembourg) S.C.A. (the "Depository") has been appointed by the Fund as the depository bank for (i) the safekeeping of the assets of the Fund (ii) the cash monitoring, (iii) the oversight functions and (iv) such other services as are agreed in the Depositary Agreement. The Depository is a credit institution established in Luxembourg, whose registered office is situated at 80, route d'Esch, L-1470 Luxembourg, and which is registered with the Luxembourg register of commerce and companies under number B 0029923. It is licensed to carry out banking activities under the terms of the Luxembourg law of 5 April 1993 on the financial services sector, as amended, and specialises in custody, fund administration and related services. The fee paid by the Fund to the Depository varies depending upon the markets in which the assets of the Fund are invested and typically range from 0.003% to 0.35% of the net assets of the Fund (excluding transaction charges and reasonable disbursements and out-of-pocket expenses).

### (i) Duties of the Depository

The Depository shall ensure the safekeeping of the Fund's assets, which will be held in custody either directly by the Depository or, to the extent permitted by applicable laws and regulations, through other third party entities acting as delegates. The Depository has also to ensure that the Fund's cash flows are properly monitored, and in particular that the subscription monies have been received and all cash of the Fund has been booked in the cash account in the name of (i) the Fund, (ii) the Management Company on behalf of the Fund or (iii) the Depository on behalf of the Fund.

In addition, the Depository shall also ensure:

- that the sale, issue, repurchase, redemption and cancellation of the Shares are carried out in accordance with Luxembourg law and the Articles of Incorporation;

- that the value of the Shares is calculated in accordance with Luxembourg law and the Articles of Incorporation;
- to carry out the instructions of the Fund and the Management Company, unless they conflict with Luxembourg law or the Articles of Incorporation;
- that in transactions involving the Fund's assets any consideration is remitted to the Fund within the usual time limits;
- that the Fund's incomes are applied in accordance with Luxembourg law and the Articles of Incorporation.

**(ii) Delegation of functions**

Pursuant to the provisions of Article 34bis of the Law of 2010 and of the Depositary Agreement, the Depositary may, subject to certain conditions and in order to effectively conduct its duties, delegate part or all of its safekeeping duties over the Fund's assets set out in Article 34(3) of the Law of 2010, to one or more third-party delegates appointed by the Depositary from time to time. The Depositary shall exercise care and diligence in choosing and appointing the third-party delegates so as to ensure that each third-party delegate has and maintains the required expertise and competence. The Depositary shall also periodically assess whether the third-party delegates fulfil applicable legal and regulatory requirements and will exercise ongoing supervision over each third-party delegate to ensure that the obligations of the third-party delegates continue to be competently discharged. The fees of any third-party delegate appointed by the Depositary shall be paid by the Fund.

The liability of the Depositary shall not be affected by the fact that it has entrusted all or some of the Fund's assets in its safekeeping to such third-party delegates.

An up-to-date list of the appointed third-party delegates is available on [bbh.com/luxglobalcustodynetworklist](http://bbh.com/luxglobalcustodynetworklist).

According to Article 34bis(3) of the Law of 2010, the Depositary and the Fund will ensure that, where (i) the law of a third country requires that certain financial instruments of the Fund be held in custody by a local entity and there is no local entities in that third country subject to effective prudential regulation (including minimum capital requirements) and supervision and (ii) the Fund instructs the Depositary to delegate the safekeeping of these financial instruments to such a local entity, the investors of the Fund shall be duly informed, prior to their investment, of the fact that such delegation is required due to the legal constraints of the law of the third country, of the circumstances justifying the delegation and of the risks involved in such a delegation.

**(iii) Conflicts of interests**

The Depositary maintains comprehensive and detailed corporate policies and procedures requiring the Depositary to comply with applicable laws and regulations. The Depositary has policies and procedures governing the management of conflicts of interests. These policies and procedures address conflicts of interests that may arise through the provision of services to the Fund. The Depositary's policies require that all material conflicts of interests involving internal or external parties are promptly disclosed, escalated to senior management, registered, mitigated and/or prevented, as appropriate. In the event a conflict of interest may not be avoided, the Depositary shall maintain and operate effective organizational and administrative arrangements in order to take all reasonable steps to properly (i) disclose the conflicts of interest to the Fund and to the shareholders and (ii) to manage and monitor such conflicts. The Depositary ensures that employees are informed, trained and advised of conflicts of interests policies and procedures and that duties and responsibilities are segregated appropriately to prevent conflicts of interests issues. Compliance with conflicts of interests policies and procedures is supervised and monitored by the Board of Managers as general partner of the Depositary and by the Depositary's Authorized Management, as well as the Depositary's compliance, internal audit and risk management functions. The Depositary shall take all reasonable steps to identify and mitigate potential conflicts of interests. This includes implementing its conflicts of interests policies that are appropriate for the scale, complexity and nature of its business. This policy identifies the circumstances that give rise or may give rise to a conflicts of interests and includes the procedures to be followed and measures to be adopted in order to manage conflicts of interests. A conflict of interests register is maintained and monitored by the Depositary. Also, a conflict of interests register is maintained and monitored by the Management Company. No conflicts of interest between the Depositary and the FIL Group have been reported as of today in these registers.

A potential risk of conflicts of interest may occur in situations where the third party delegates of the Depositary may enter into or have a separate commercial and/or business relationship with the Depositary in parallel to the safekeeping delegation relationship. In the conduct of its business, conflicts of interest may arise between the Depositary and the third party delegate. Where a third party delegate shall have a group link with the Depositary, the Depositary undertakes to identify potential conflicts of interests arising from that link, if any, and to take all reasonable steps to mitigate those conflicts of interest.

The Depositary does not anticipate that there would be any specific conflicts of interest arising as a result of any delegation to any third party delegate. The Depositary will notify the Board and/or the board of directors of the Management Company of any such conflict should it so arise. To the extent that any other potential conflicts of interest exist pertaining to the Depositary, they have been identified, mitigated and addressed in accordance with the Depositary's policies and procedures. Updated information on the Depositary's custody duties and conflicts of interest that may arise may be obtained, free of charge and upon request, from the Depositary.

**(iv) Miscellaneous**

The Depositary or the Fund may terminate the Depositary Agreement at any time upon ninety (90) calendar days' written notice (or earlier in case of certain breaches of the Depositary Agreement, including the insolvency of any of them) provided that the Depositary Agreement shall not terminate until a replacement depositary is appointed. Up-to-date information regarding the description of the Depositary's duties and of conflicts of interest that may arise as well as of any safekeeping functions delegated by the Depositary, the list of third-party delegates and any conflicts of interest that may arise from such a delegation will be made available to investors on request at the Fund's registered office.

**General Distributor and Distributors**

The Management Company with the consent of the Fund has appointed the General Distributor to assist in the promotion of Shares in the Fund. The General Distributor has appointed the Distributors to distribute Shares. The Distributors always act as the agent for the General Distributor. The General Distributor acts as principal in the purchase and sale of Shares via the Distributors and Shares are issued to/redeemed by the Fund to the General Distributor on the terms of the

Prospectus. The General Distributor may not price orders received by it on less favourable terms than those available direct from the Fund.

The General Distributor and the Share Distributors have been appointed as Distributors of Shares by the Fund under the following current agreements: General Distributor's Agreement; Share Distributors Agreements with FIL (Luxembourg) S.A., with FIL Investments International, with FIL Investment Management (Hong Kong) Limited and FIL Distributors International Limited, with FIL Investment Management (Singapore) Limited, FIL Administration Services Limited and with FIL Gestion. Each of these agreements may be terminated by either party upon 90 days' prior written notice.

The General Distributor is paid the initial charge, if any, (up to full initial charge per share class as described in 2.1. "Classes of Shares" in Part II of the Prospectus) collected by the Share Distributors (as agents for the General Distributor). The General Distributor is paid the initial charge, if any, on sales of Shares made directly through the Management Company and receives the fee charged on switches, if any. The distribution fee in respect of the class E Shares is accrued daily and paid quarterly to the General Distributor. The General Distributor remunerates the Share Distributors out of the initial charges, if any. Initial commissions may be paid to financial intermediaries or institutions from the initial charge. Where ongoing commissions or other fees and charges are paid to financial intermediaries, these are usually borne by the Investment Manager from the management fee and/or by the General Distributor from the Distribution fee and in all cases are paid through the General Distributor.

Under the terms of the Articles of Incorporation the initial charge, if any, may be increased to a maximum of 8% of the Net Asset Value.

### Services Agreement

The Management Company and the Fund have appointed FIL Limited by a services agreement (the "Services Agreement") dated 1 June 2012, to provide services in relation to the investments of the funds including valuation, statistical, technical, reporting and other assistance.

The Fund pays fees for the services noted in the Management Company Services Agreement and the Services Agreement at commercial rates agreed from time to time between the parties plus reasonable out-of-pocket expenses. The maximum fee paid for these services by the Fund will be 0.35% of the net assets (excluding reasonable out-of-pocket expenses).

The Agreements may be terminated by either party upon 90 days' prior written notice.

### Auditors

PricewaterhouseCoopers, Société coopérative, Luxembourg, has been appointed as the Fund's Auditors. This appointment is subject to Shareholder approval at each annual general meeting.

### Hong Kong Representative's Agreement

The Fund has appointed FIL Investment Management (Hong Kong) Limited by an agreement dated 5 July 1990 to act as Hong Kong Representative, to receive purchase, sale and switch requests, to provide information to investors and to accept notices and other services in respect of the Fund. The Hong Kong Representative is paid its reasonable out-of-pocket expenses.

### Taiwan General Representative's Agreement

The Board and the General Distributor have decided to appoint FIL Securities (Taiwan) Limited to act as Taiwan General Representative, to receive purchase, sale and switch requests, to provide information to investors and to accept notices and other services in respect of the Fund. Commencing from 1 September 2016, FIL Securities Investment Trust Co. (Taiwan) Limited will take over the role of Taiwan General Representative and relevant approvals of competent authorities have been obtained.

### General information on Charges and Expenses

The costs, charges and expenses which may be charged to the Fund include: all taxes which may be due on the assets and the income of the Fund; usual banking and brokerage fees due on transactions involving portfolio securities of the Fund (the latter to be included in the acquisition price and to be deducted from the selling price) and other expenses incurred in acquiring and disposing of investments, insurance, postage and telephone; Directors' fees, fees of the Management Company and remuneration of officers and employees of the Fund; remuneration of the Investment Manager, the Depositary, any Paying Agent, the Hong Kong Representative and of representatives in other jurisdictions where the Shares are qualified for sale, and of all other agents employed on behalf of the Fund; such remuneration may be based on the net assets of the Fund or on a transaction basis or may be a fixed sum; formation expenses; the cost of preparing, printing and publishing in such languages as are necessary, and distributing offering information or documents concerning the Fund, annual and semi-annual reports and such other reports or documents as may be desirable or required under the applicable laws or regulations of the above cited authorities; the cost of printing certificates and proxies; the cost of preparing and filing the Articles of Incorporation and all other documents concerning the Fund, including registration statements and offering circulars with all authorities (including local securities dealers' associations) having jurisdiction over the Fund or the offering of Shares; the cost of qualifying the Fund or the sale of Shares in any jurisdiction or of a listing on any exchange; the cost of accounting and bookkeeping; the cost of calculating the Net Asset Value of Shares of each fund; the cost of preparing, printing, publishing and distributing or sending public notices and other communications (including electronic or conventional contract notes) to the Shareholders; legal and auditing fees; registrar's fees; and all similar charges and expenses. Administrative and other expenses of a regular or recurring nature may be calculated on an estimated basis for yearly or other periods in advance, and the same may be accrued in equal proportions over any such period.

Costs, charges and expenses which may be attributed to a fund will be borne by that fund; otherwise they will be allocated in US Dollars pro rata to the Net Asset Value of all, or all appropriate, funds on such basis as the Board considers reasonable.

In so far as a fund invests in other UCITS or UCIs which are administered directly or by delegation by the Management Company or another company to which the Management Company is linked by common management or control or by a

substantial direct or indirect holding or which is managed by a company in the FIL Group, the fund shall not be charged a subscription fee or a redemption fee.

A portion of commissions paid to selected brokers for certain portfolio transactions may be repaid to the funds which generated the commissions with these brokers and may be used to offset expenses.

Except as described in the Prospectus, no commissions, discounts, brokerage or other special terms have been granted by the Fund or the Management Company in relation to Shares issued or to be issued by the Fund; on any issue or sale of Shares a Distributor (including the General Distributor) may, out of its own pocket or out of the initial charges, if any, pay commissions or other fees and charges on applications received through brokers and other professional agents or grant discounts.

Foreign exchange transactions for investors or the Fund may be effected on an arm's length basis by or through FIL Group companies from which a benefit may be derived by such companies.

The above fees may be permanently or temporarily waived or borne by the Investment Manager.

## PART V

### 5. INVESTMENT RESTRICTIONS

#### 5.1. Investment Powers and Safeguards

Under the Articles of Incorporation broad power is conferred on the Directors, based on the principle of spreading of risks and subject to the Articles of Incorporation and Luxembourg law, to determine the corporate and investment policy for the Fund and for the investment of each fund and the investment restrictions which shall apply from time to time.

#### A. Investment Restrictions

- I 1. The Fund may invest in:
- a) Transferable Securities and Money Market Instruments admitted to or dealt in on an Eligible Market;
  - b) recently issued Transferable Securities and Money Market Instruments, provided that the terms of issue include an undertaking that application will be made for admission to official listing on an Eligible Market and such admission is secured within one year of the issue;
  - c) units/shares of UCITS and/or other UCIs, whether situated in a Member State of the European Economic Area (a "Member State") or not, provided that:
    - such other UCIs have been authorised under such laws which provide that they are subject to supervision considered by the CSSF to be equivalent to that laid down in EU law, and that cooperation between authorities is sufficiently ensured,
    - the level of protection for unitholders/shareholders in such other UCIs is equivalent to that provided for unitholders/shareholders in a UCITS, and in particular that the rules on assets segregation, borrowing, lending, and uncovered sales of Transferable Securities and Money Market Instruments are equivalent to the requirements of directive 2009/65/EC,
    - the business of such other UCIs is reported in half-yearly and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period,
    - no more than 10% of the assets of the UCITS or of the other UCIs, whose acquisition is contemplated, can, according to their constitutional documents, in aggregate be invested in units/shares of other UCITS or other UCIs;
  - d) deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in a third country, provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law;
  - e) financial derivative instruments, including equivalent cash-settled instruments, dealt in on an Eligible Market and/or financial derivative instruments dealt in over-the-counter ("OTC derivatives"), provided that:
    - the underlying consists of instruments covered by this section I 1., financial indices, interest rates, foreign exchange rates or currencies, in which the funds may invest according to their investment objective;
    - the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the Luxembourg supervisory authority;
    - the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Fund's initiative;
- and/or
- f) Money Market Instruments other than those dealt in on an Eligible Market and referred to under 'Definitions', if the issue or the issuer of such instruments are themselves regulated for the purpose of protecting investors and savings, and provided that such instruments are:
    - issued or guaranteed by a central, regional or local authority or by a central bank of a Member State, the European Central Bank, the EU or the European Investment Bank, a non Member State or, in case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
    - issued by an undertaking any securities of which are dealt in on Eligible Markets, or
    - issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law or by an establishment which is subject to and complies with prudential rules considered by the CSSF to be at least as stringent as those laid down by EU law, or
    - issued by other bodies belonging to the categories approved by the CSSF provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent and provided that the issuer is a company whose capital and reserves amount to at least ten million Euro (Euro 10,000,000) and which presents and publishes its annual accounts in accordance with the fourth Directive 78/660/EEC, is an entity which, within a group of companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.
2. In addition, the Fund may invest a maximum of 10% of the net assets of any fund in Transferable Securities and Money Market Instruments other than those referred to under 1. above.
  3. Under the conditions and within the limits laid down by the Law of 2010, the Fund may, to the widest extent permitted by the Luxembourg laws and regulations (i) create any fund qualifying either as a feeder UCITS (a "Feeder UCITS") or as a master UCITS (a "Master UCITS"), (ii) convert any existing fund into a Feeder UCITS, or (iii) change the Master UCITS of any of its Feeder UCITS.
- A Feeder UCITS shall invest at least 85% of its assets in the units of another Master UCITS. A Feeder UCITS may hold up to 15% of its assets in one or more of the following:
- ancillary liquid assets in accordance with paragraph II;
  - financial derivative instruments, which may be used only for hedging purposes;
  - movable and immovable property which is essential for the direct pursuit of its business.
- For the purposes of compliance with article 42 (3) of the Law of 2010, the Feeder UCITS shall calculate its global exposure related to financial derivative instruments by combining its own direct exposure under the second indent of the first subparagraph with either:
- the Master UCITS actual exposure to financial derivative instruments in proportion to the Feeder UCITS investment into the Master UCITS; or
  - the Master UCITS potential maximum global exposure to financial derivative instruments provided for in the Master UCITS management regulations or instruments of incorporation in proportion to the Feeder UCITS investment into the Master UCITS.

- II The Fund may hold ancillary liquid assets up to 49% of the net assets of each fund; this percentage may exceptionally be exceeded if the Directors consider this to be in the best interests of the Shareholders.
- III 1. a) The Fund will invest no more than 10% of the net assets of any fund in Transferable Securities or Money Market Instruments issued by the same issuing body.  
 b) The Fund may not invest more than 20% of the net assets of any fund in deposits made with the same body.  
 c) The risk exposure of a fund to a counterparty in an OTC derivative transaction may not exceed 10% of its net assets when the counterparty is a credit institution referred to in I 1. d) above or 5% of its net assets in other cases.
2. Moreover, where the Fund holds on behalf of a fund investments in Transferable Securities and Money Market Instruments of issuing bodies which individually exceed 5% of the net assets of such fund, the total of all such investments must not account for more than 40% of the total net assets of such fund.
- This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.
- Notwithstanding the individual limits laid down in paragraph III 1., the Fund may not combine for each fund, where this would lead to investment of more than 20% of its assets in a single body, any of the following:
- investments in Transferable Securities or Money Market Instruments issued by a single body,
  - deposits made with a single body, and/or
  - exposures arising from OTC derivative transactions undertaken with a single body.
3. The limit of 10% laid down in sub-paragraph 1. a) above is increased to a maximum of 35% in respect of Transferable Securities or Money Market Instruments which are issued or guaranteed by a Member State, its local authorities, or by another Eligible State or by public international bodies of which one or more Member States are members.
4. The limit of 10% laid down in sub-paragraph 1. a) is increased to 25% for certain bonds when they are issued by a credit institution which has its registered office in a Member State and is subject by law, to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of these bonds must be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the repayment of principal and payment of the accrued interest.
- If a fund invests more than 5% of its net assets in the bonds referred to in this sub-paragraph and issued by one issuer, the total value of such investments may not exceed 80% of the net assets of the fund.
- Notwithstanding the above provisions, the Fund is authorised to invest up to 100% of the net assets of any fund, in accordance with the principle of risk spreading, in Transferable Securities and Money Market Instruments issued or guaranteed by a Member State, its local authorities, a non-Member State of the EU accepted by the CSSF (being at the date of this Prospectus OECD member State, Singapore or any member state of the G20) or by public international bodies of which one or more Member States of the EU are members, provided that such fund must hold securities from at least six different issues and securities from one issue do not account for more than 30% of the net assets of such fund.**
5. The Transferable Securities and Money Market Instruments referred to in paragraphs 3. and 4. shall not be included in the calculation of the limit of 40% in paragraph 2.
- The limits set out in sub-paragraphs 1., 2., 3. and 4. may not be aggregated and, accordingly, investments in Transferable Securities or Money Market Instruments issued by the same issuing body, in deposits or in derivative instruments effected with the same issuing body may not, in any event, exceed a total of 35% of any fund's net assets;
- Companies which are part of the same group for the purposes of the establishment of consolidated accounts, as defined in accordance with directive 83/349/EEC or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the limits contained in this paragraph III.
- The Fund may cumulatively invest up to 20% of the net assets of a fund in Transferable Securities and Money Market Instruments within the same group.
- IV 1. Without prejudice to the limits laid down in paragraph V, the limits provided in paragraph III are raised to a maximum of 20% for investments in shares and debt securities issued by the same issuing body if the aim of the investment policy of a fund is to replicate the composition of a certain stock or bond index which is sufficiently diversified, represents an adequate benchmark for the market to which it refers, is published in an appropriate manner and disclosed in the relevant fund's investment policy.
2. The limit laid down in paragraph 1. is raised to 35% where this proves to be justified by exceptional market conditions, in particular on Regulated Markets where certain Transferable Securities or Money Market Instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.
- V 1. The Fund may not acquire shares carrying voting rights which should enable it to exercise significant influence over the management of an issuing body.
2. The Fund may acquire for each fund no more than:
- 10% of the non-voting shares of the same issuer;
  - 10% of the debt securities of the same issuer;
  - 25% of the units of the same UCITS or other UCI;
  - 10% of the Money Market Instruments of the same issuer.
3. These limits under second and fourth indents may be disregarded at the time of acquisition, if at that time the gross amount of debt securities or of the Money Market Instruments cannot be calculated.
- The provisions of paragraph V shall not be applicable to Transferable Securities and Money Market Instruments issued or guaranteed by a Member State or its local authorities or by any non – Member State of the EU, or issued by public international bodies of which one or more Member States of the EU are members.
- These provisions are also waived as regards shares held by the Fund in the capital of a company incorporated in a non-Member State of the EU which invests its assets mainly in the securities of issuing bodies having their registered office in that State, where under the legislation of that State, such a holding represents the only way in which the Fund can invest in the securities of issuing bodies of that State provided that the investment policy of the company from the non-Member State of the EU complies with the limits laid down in paragraph III, V 1. and 2. and VI.
- The limits set forth here above also do not apply when investments of any fund are made in the capital of subsidiary companies which, exclusively on behalf of the Fund or such fund carry on only the business of management, advice or marketing in the country where the subsidiary is located, with regard to the redemption of Shares at the request of Shareholders.
- VI 1. Unless otherwise specifically permitted for a fund in its investment objective, each fund may not acquire units/shares of UCITS and/or other UCIs referred to in paragraph I. c) in aggregate for more than 10% of its net assets. When a fund is specifically permitted to invest more than 10% of its net assets in units/shares of UCITS and/or other UCIs, this fund will not be allowed to invest more than 20% of its assets in the units/shares of a single UCITS or other UCI. For the purpose of the application of this investment limit, each compartment of a UCITS or UCI is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various compartments vis-à-vis third parties is ensured. Investment made in units/shares of UCIs other than UCITS may not in aggregate exceed 30% of the assets of a fund.
2. The underlying investments held by the UCITS or other UCIs in which the Fund invests do not have to be considered for the purpose of the investment restrictions set forth under III above.

3. When the Fund invests in the units of UCITS and/or other UCIs that are managed, directly or by delegation, by the Investment Manager or by any other company with which the Investment Manager is linked by common management or control, or by a substantial direct or indirect holding, no subscription or redemption fees may be charged to the Fund on account of its investment in the units of such other UCITS and/or UCIs.  
In the event a fund invests a substantial portion of its assets in UCITS and other UCIs, the total management fee (excluding any performance fee, if any) charged to such fund and each of the UCITS or other UCIs concerned shall not exceed 3% of the relevant net assets under management. The Fund will indicate in its annual report the total management fees charged both to the relevant fund and to the UCITS and other UCIs in which such fund has invested during the relevant period.
  4. The Fund may acquire no more than 25% of the units of the same UCITS or other UCI. This limit may be disregarded at the time of acquisition if at that time the net amount of the units in issue cannot be calculated. In case of a UCITS or other UCI with multiple compartments, this restriction is applicable by reference to all units issued by the UCITS or other UCI concerned, all compartments combined.
  5. A fund (the "feeding fund") may subscribe, acquire and/or hold securities to be issued or issued by one or more funds of the Fund (each a "recipient fund") provided that;
    - a. The feeding fund may not invest more than 10% of its net asset value in a single recipient fund, this limit being increased to 20% if the feeding fund is permitted, pursuant to its investment objective, to invest more than 10% of its net assets in the units of UCITS or other UCIs or in one single such UCITS or other UCIs; and
    - b. The recipient fund does not, in turn, invest in the feeding fund; and
    - c. The investment policy of the recipient funds whose acquisition is contemplated does not allow such recipient funds to invest more than 10% of its net asset value in UCITS and other UCIs; and
    - d. Voting rights, if any, attaching to the Shares of the recipient funds held by the feeding fund are suspended for as long as they are held by the feeding fund concerned and without prejudice to the appropriate processing in the accounts and the periodic reports; and in any event, for as long as these securities are held by the feeding fund, their value will not be taken into consideration for the calculation of the net assets of the Fund for the purposes of verifying the minimum threshold of the net assets imposed by the Law of 2010; and
    - e. To the extent required by Luxembourg law, there is no duplication of management/subscription or redemption fees between those at the level of the feeding fund.
- VII The Fund shall ensure for each fund that the global exposure relating to derivative instruments does not exceed the net assets of the relevant fund. A fund's global exposure shall consequently not exceed 200% of its total net assets. In addition, this global exposure may not be increased by more than 10% by means of temporary borrowings (as referred to in section B. 2. below) so that it may not exceed 210% of any fund's total net assets under any circumstances.  
The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, foreseeable market movements and the time available to liquidate the positions. This shall also apply to the following subparagraphs.  
If the Fund invests in financial derivative instruments, the exposure to the underlying assets may not exceed in aggregate the investment limits laid down in paragraph III above. When the Fund invests in index-based financial derivative instruments, these investments do not have to be combined to the limits laid down in paragraph III.  
When a transferable security or Money Market Instrument embeds a derivative, the latter must be taken into account when complying with the requirements of this paragraph VII.
- VIII 1. The Fund may not borrow for the account of any fund amounts in excess of 10% of the net assets of that fund. Any such borrowings must be from banks and effected only on a temporary basis, provided that the Fund may acquire foreign currencies by means of back to back loans.
  2. The Fund may not grant loans to or act as guarantor on behalf of third parties.  
This restriction shall not prevent the Fund from acquiring Transferable Securities, Money Market Instruments or other financial instruments referred to in I 1. c), e) and f) which are not fully paid.
  3. The Fund may not carry out uncovered sales of Transferable Securities, Money Market Instruments or other financial instruments.
  4. The Fund may not acquire movable or immovable property.
  5. The Fund may not acquire either precious metals or certificates representing them.
  - IX 1. The Fund needs not comply with the limits laid down in this chapter when exercising subscription rights attaching to Transferable Securities or Money Market Instruments which form part of its assets. While ensuring observance of the principle of risk spreading, recently created funds may derogate from paragraphs III, IV and VI 1., 2. and 3. for a period of six months following the date of their creation.
  2. If the limits referred to in paragraph 1. are exceeded for reasons beyond the control of the Fund or as a result of the exercise of subscription rights, it must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interest of its Shareholders.
  3. To the extent that an issuer is a legal entity with multiple compartments where the assets of the compartment are exclusively reserved to the investors in such compartment and to those creditors whose claim has arisen in connection with the creation, operation or liquidation of that compartment, each compartment is to be considered as a separate issuer for the purpose of the application of the risk spreading rules set out in paragraphs III, IV and VI.

## B. Other Safeguards

In addition, the Fund shall not:

1. borrow money except on a short-term basis, and then only to the extent of 10% of the total value of the net assets of the Fund;
2. mortgage, pledge, charge or in any manner transfer as security for indebtedness any assets of the Fund other than as may be necessary in connection with permitted borrowings (within the above limit of 10%) except that the foregoing shall not prevent the Fund from segregating or pledging assets as may be required in constituting margins for the purposes of using financial derivative instruments and transactions as more fully described under D. below;
3. underwrite or participate (except as an investor) in the marketing of securities of any other company;
4. make loans or guarantee the obligations of third parties, save that the Fund may make deposits with the Depositary or any bank or deposit-taking institution approved by the Depositary or hold debt instruments. Securities lending does not rank as a loan for the purpose of this restriction;
5. issue warrants or other rights to subscribe for Shares in the Fund to its Shareholders or to any third parties;
6. except with the consent of the Directors, purchase, sell, borrow or lend portfolio investments from or to or otherwise execute transactions with any appointed investment manager or investment adviser of the Fund, or any Connected Person (as defined in Part V, 5.1, H. "Miscellaneous" of the Prospectus) of either of them;
7. invest in documents of title to merchandise.

## C. Risk Management Procedures

The Management Company will employ a risk management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of each fund. The Management Company will employ, if applicable, a process for accurate and independent assessment of the value of any OTC derivative instruments. The risk management process is available upon request from the Management Company's registered office.

#### D. Global Exposure relating to Derivative Instruments and Leverage

As part of the risk management process global exposure relating to derivative instruments – which essentially measures the additional exposure to market risk resulting from the use of derivatives – for each fund is monitored. The Management Company uses either the commitment or relative value-at-risk (VaR) approach as indicated for each fund. The methodology follows the guidelines stated in the CSSF circular 11/512 relating to the presentation of the main regulatory changes in risk management following the publication of CSSF regulations 10-4 and ESMA clarifications, further clarification from the CSSF on risk management rules and the definition of the content and format of the risk management process to be communicated to the CSSF.

Under the commitment approach each derivative position (including embedded derivatives) is in principle converted into the market value of the equivalent position in the underlying asset or by the notional value or the price of the futures contract where this is more conservative (the derivative position's commitment). If derivative positions are eligible for netting they may be excluded from the calculation. For hedge positions, only the net position is taken into account. Also excluded may be derivative positions which swap risk positions from securities held to other financial exposures under certain circumstances, as are derivative positions which are covered by cash positions and which are not considered to generate any incremental exposure and leverage or market risk.

Global exposure relating to derivative instruments is the sum of the absolute values of these net commitments and is typically expressed as a percentage of the total net assets of a fund. Global exposure relating to derivative instruments is limited to 100% for funds using the commitment approach.

Under the relative VaR approach a reference portfolio is assigned to each fund. Then the following calculations are undertaken:

- a) VaR for the fund's current holdings
- b) VaR for the reference portfolio

VaR is calculated using a 20 day time horizon with a 99% confidence level. The VaR for the fund's current holdings will not be greater than twice the VaR for the reference portfolio. Under the absolute VaR approach the VaR for the fund's current holdings is again calculated (subject to the same time horizon and confidence interval). The VaR for the fund's current holdings cannot exceed the specified value for that fund.

The expected level of leverage (using the sum of notional approach) is indicated for each fund using the VaR approach; this is however not a limit and higher levels of leverage may occur.

#### E. Securities Lending and Borrowing and Repurchase and Reverse Repurchase Transactions

To the maximum extent allowed by, and within the limits set forth in, the Law of 2010 as well as any present or future related Luxembourg laws or implementing regulations, circulars and CSSF's positions (the "Regulations"), in particular the provisions of article 11 of the Grand-Ducal Regulation of 8 February 2008 (as these pieces of regulations may be amended or replaced from time to time, the Investment Manager in relation to each fund may for the purpose of Efficient Portfolio Management (a) enter, either as purchaser or seller, into repurchase transactions (opérations à réméré) and reverse repurchase and repurchase agreements transactions (operations de prise/mise en pension) and (b) engage in securities lending transactions. A summary of the Regulations may be obtained at the registered office of the Fund.

Under no circumstances shall these operations cause a fund to diverge from its investment objective as laid down in the Prospectus or result in additional risk higher than its profile as described in the Prospectus and the funds will not engage extensively in securities lending and borrowing, repurchase and reverse repurchase transactions.

The Management Company will ensure to maintain the volume of these transactions at a level such that is able, at all times, to meet redemption requests.

The counterparties to such transactions must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law and specialised in this type of transaction.

All revenues generated from securities lending transactions will be allocated to the relevant funds net of the fees paid to the Investment Manager and the securities lending agent.

#### F. Management of collateral for Securities Lending, Repurchase and OTC Financial Derivative Transactions

Collateral with regard to securities lending transactions and OTC Financial Derivative Transactions must be in the form of: (i) liquid assets (i.e., cash and short term bank certificates, money market instruments as defined in Council Directive 2007/16/EC of 19 March 2007) and their equivalent (including letters of credit and a guarantee at first-demand given by a first class credit institution not affiliated to the counterparty); (ii) bonds issued or guaranteed by a Member State of the OECD or their local authorities or by supranational institutions and undertakings with EU, regional or world-wide scope; (iii) shares or units issued by money market funds calculating a net asset value on a daily basis and assigned a rating of AAA or its equivalent; (iv) shares or units issued by UCITS investing mainly in bonds/shares satisfying the conditions under (v) and (vi) hereafter; (v) bonds issued or guaranteed by first class issuers offering an adequate liquidity; or (vi) shares admitted to or dealt in on a Regulated Market or on a stock exchange of a Member State of the OECD, provided that these shares are included in a main index. Securities that are the subject of purchase with a repurchase option or that may be purchased in reverse purchase agreements are limited to the type of securities mentioned under items (i), (ii), (iii), (v) and (vi).

Once transferred to the Fund, collateral is legally owned by the Fund and maintained in a segregated collateral account by the Depositary. The Fund has a contractual right of set-off over the collateral posted to it from its counterparty and may exercise its set-off rights in respect of any collateral posted to (and held by) it to cover any "in-the-money" position of the Fund - without notice to the counterparty.

Cash collateral received by the Fund in relation to these transactions will not be reinvested unless otherwise specifically permitted for a specific fund in the Prospectus. In that event, cash collateral received by such fund in relation to any of these transactions may be reinvested in a manner consistent with the investment objectives of such fund in (a) shares or units issued by money market undertakings for collective investment calculating a daily net asset value and being assigned a rating of AAA or its equivalent, (b) short-term bank deposits, (c) money market instruments as defined in the above referred Regulation of 2008, (d) short-term bonds issued or guaranteed by an EU member state, Switzerland, Canada, Japan or the United States or by their local authorities or by supranational institutions and undertakings with EU, regional or world-wide scope, (e) bonds issued or guaranteed by first class issuers offering an adequate liquidity, and (f) reverse repurchase agreement transactions according to the provisions described under section I.C.a) of the above referred CSSF Circular. Such reinvestment will be taken into account for the calculation of each concerned fund's global exposure relating to derivative instruments, in particular if it creates a leverage effect.

Non-cash collateral received with regards to such transactions will not be sold, re-invested or pledged.

Collateral received must fall within eligibility criteria, as defined in the Law of 2010 and the above referred Regulation of 2008 and be designed to provide high liquidity with easy pricing, a robust sale price that is close to pre-sale valuation together with, a low correlation with the counterparties to provide collateral pricing independence and high-grade credit rating. The collateral is valued daily and a hair-cut is applied to non-cash collateral. Haircuts will not be applied to cash collateral. Collateral is diversified and monitored to be in line with the Fund's counterparty limits.

The risks linked to the management of collateral, such as operational and legal risks, are identified, managed and mitigated by the risk management process.

## G. Total Return Swaps and other Financial Derivative instruments with similar characteristics

The Fund may use Total Return Swaps or other financial derivative instruments with similar characteristics (at the time of this Prospectus, "contracts for difference") (the "TRS/CFD Transactions") to meet the investment objective of a fund and in accordance with the provisions on the use of financial derivative instruments set forth in their investment policy. Whenever the Fund will be using TRS/CFD Transactions the following will apply:

- a) the TRS/CFD Transactions will be undertaken on single name equity and fixed income instruments or financial indices all of which are eligible assets for UCITS under EU law and regulation;
- b) each trading counterparty to the TRS/CFD Transactions will be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law and specialised in such TRS/CFD Transactions;
- c) risks borne by the respective funds and Shareholders are described in Part I, 1.2., X. "Derivatives Related Risks" of the Prospectus;
- d) the TRS/CFD Transactions will be undertaken in accordance with the requirements detailed in Part V 5. "Investment Restrictions", 5.1. "Investment Powers and Safeguards" of the Prospectus;
- e) no trading counterparty will assume discretion over the composition or management of the relevant fund's investment portfolio or over the underlying of the financial derivative instruments; and
- f) none of the Fund's investment portfolio transactions will require approval by third party.

## H. EU Securities Financing Transactions Regulation

On 25 November 2015 the European Parliament and the Council adopted a regulation that came into force on 12 January 2016 requiring further transparency including in the Prospectus to address perceived risks in the use of securities financing transactions. As described in section E. above, the Investment Manager in relation to each fund may for the purpose of Efficient Portfolio Management (a) enter, either as purchaser or seller, into repurchase transactions (opérations à réméré) and reverse repurchase and repurchase agreements transactions (opérations de prise/mise en pension) and (b) engage in securities lending transactions. The Fund will not enter into margin lending transactions.

The following type of assets can be subject to repurchase and reverse repurchase agreements: cash and bonds. The following type of assets can be subject to securities lending transactions: equity stocks.

With respect to securities lending transactions, the Fund will generally require the borrower to post collateral representing, at any time during the lifetime of the agreement, at least 105% of the total value of the securities lent. Repurchase agreement and reverse repurchase agreements will generally be collateralised, at any time during the lifetime of the agreement, at a minimum of 100% of their notional amount.

As described in section G. above, the Fund may use Total Return Swaps or other financial derivative instruments with similar characteristics (at the time of this Prospectus, "contracts for difference", the "TRS/CFD") to meet the investment objective of a fund and in accordance with the provisions on the use of financial derivative instruments set forth in their investment policy.

The following type of assets can be subject to TRS/CFD: equity stocks, equity indices and credit indices.

Counterparties to such transactions must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law and specialised in these types of transactions.

87.5% of the gross revenue arising from securities lending transactions are returned to the funds, while a 12.5% fee is paid to the securities lending agent (which is not an affiliate of the Investment Manager). Any operational costs arising from such lending activities are borne by the lending agent out of its fee. With regards to TRS/CFD, repurchase transactions or reverse repurchase transactions, 100% of the revenues (or losses) generated by their execution are allocated to the funds. The Investment Manager do not charge any additional costs or fees or receive any additional revenues in connection with these transactions. Whilst additional costs may be inherent in certain products (e.g. the financing leg on a CFD), these are imposed by the counterparty based on market pricing, form part of the revenues or losses generated by the relevant product, and are allocated 100% to the funds. Details on the actual return and cost for each type of SFT and TRS/CFD (in absolute terms and as a percentage of overall returns generated by that type of STF or TRS/CFD) are published in the fund's annual reports and accounts

## I. Miscellaneous

1. The Fund need not comply with the investment limit percentages set out above when exercising subscription rights attaching to securities which form part of its assets.
2. Such restrictions shall apply to each fund, as well as to the Fund as a whole.
3. If the investment limit percentages set out above are exceeded as a result of events or actions after investment that are beyond the control of the Fund or by reason of the exercise of subscription rights attaching to securities held by it, the Fund shall give priority, consistent with the best interests of Shareholders, upon sale of securities to disposing of these securities to the extent that they exceed such percentages; provided, however, that in any case where the foregoing percentages are lower than relevant percentages imposed by Luxembourg Law, the Fund need not give priority to disposing of such securities until the law's higher limits have been exceeded, and then only to the extent of such excess.
4. The Fund follows a risk-spreading policy regarding the investment of cash and other liquid assets.
5. The Fund will not purchase or sell real estate or any option right or interest therein, provided that the Fund may invest in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein.
6. The Investment Manager and any of its delegates may effect transactions by or through the agency of another person with whom the Investment Manager and any of its delegates have an arrangement under which that party will from time to time provide to or procure for the Investment Manager and any of its delegates goods, services or other benefits (such as research and advisory services), the nature of which is such that their provision can reasonably be expected to benefit the Fund as a whole and may contribute to an improvement in the Fund's performance and that of the Investment Manager or any of its delegates in providing services to the Fund and for which no direct payment is made but instead the Investment Manager and any of its delegates undertake to place business with that party. For the avoidance of doubt, such goods and services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payments.
7. The Investment Manager and any delegates shall not retain the benefit of any cash commission rebate (being cash commission repayment made by a broker or dealer to the Investment Manager and/or any delegates) paid or payable from any such broker or dealer in respect of any business placed with such broker or dealer by the Investment Manager or any delegates for or on behalf of the Fund. Any such cash commission rebate received from any such broker or dealer shall be held by the Investment Manager and any delegates for the account of the Fund. Brokerage rates will not be excessive of customary brokerage rates. All transactions will be done with best execution.
8. Subject to disclosure in the respective investment objectives, each fund may further invest, within the 10% limit in relation to other Transferable Securities and Money Market Instruments pursuant to Article 41 (2) a) of the Law of 2010 as set out under section A. 1.2. above, up to 10% of its net assets in loan participations and/or loan assignments (including leveraged loans) provided such instruments comply with the criteria applicable to Money Market Instruments normally dealt in the money market, are liquid and have a value that may be accurately determined at any time.

Such loans are deemed to qualify as Money Market Instruments normally dealt in on the money market where they fulfil one of the following criteria:

- a) they have a maturity at issuance of up to and including 397 days;

- b) they have a residual maturity of up to and including 397 days;
- c) they undergo regular yield adjustments in line with money market conditions at least every 397 days; or
- d) their risk profile, including credit and interest rate risks, corresponds to that of financial instruments which have a maturity as referred to in points (a) or (b), or are subject to a yield adjustment as referred to in point (c).

Such loans are deemed to be liquid where they can be sold at limited cost in an adequately short time frame, taking into account the obligation of the relevant fund to repurchase its Shares at the request of any Shareholder.

Such loans are deemed to have a value which can be accurately determined at any time where such loans are subject to accurate and reliable valuations systems, which fulfil the following criteria:

- a) they enable the relevant fund to calculate the Net Asset Value in accordance with the value at which the loan held in the portfolio could be exchanged between knowledgeable willing parties in an arm's length transaction; and
  - b) they are based either on market data or on valuation models including systems based on amortised costs.
9. Any fund having exposure to a financial index will rebalance its portfolio in accordance with the rebalancing of the securities representing the index, when it is an index tracking fund or, when not specifically replicating the index, in line with the fund's strategy. The effects on the costs will depend on the rebalancing frequency.

## 5.2. Additional Country Specific Information and/or Investment Restrictions for funds registered in France, Germany, Hong Kong & Macau, Korea, Singapore, South Africa, Taiwan

The following information is accurate as of the date of issuing of the present prospectus.

### 1. Additional investment restrictions applying to funds registered in France:

Funds eligible to the French PEA tax wrapper must invest 75% minimum of their assets in PEA eligible assets, i.e. securities issued in the EU, Norway and Iceland. The notes attached to the funds' description indicate whether they are PEA eligible.

### 2. Additional tax information and investment restrictions applying to funds registered in Germany:

The Fund, in consultation with the Management Company intends to make the Shares of its funds available in Germany. As a consequence, the Fund will comply with the following investment restrictions or conditions under the German Investment Tax Act ("GITA") for its funds:

- The Fund is registered under Part I of the Luxembourg law of 17 December 2010. The competent supervisory authority in the Fund's home state is the Commission de Surveillance du Secteur Financier (CSSF), 283, route d'Arlon, L-2991 Luxembourg.
- The Fund is an open-ended investment company established in Luxembourg as a SICAV (société d'investissement à capital variable). Shares can normally be purchased, sold or switched with any of the Distributors or be subscribed for or redeemed or switched with the Management Company on a day that the Distributors or the Management Company are open for business and following the procedures as set by the Distributors or the Management Company.
- The Fund qualifies as an undertaking for collective investment in transferable securities ('UCITS') and has obtained recognition under the Directive 2009/65/EC of the European Parliament and of the Council for marketing in certain Member States of the EU.
- The Fund's assets are held in different funds (hereinafter referred to as the "fund" or "funds"). Each fund is a separate portfolio of securities and other assets managed in accordance with specific investment objectives. They will apply risk diversification, which means a holding of more than three assets with different investment risks.
- The funds will invest at least 90% of their Net Asset Value into "qualifying assets"\* (as defined below).
- Any investment fund will invest no more than 20% of their net asset value into shares issued by companies that are neither admitted to trading on a stock exchange or another organized market. The funds registered in Germany shall invest no more than 10% of their Net Asset Value into shares issued by companies that are not admitted to or dealt in on an Eligible Market, as set forth in section 5.1, A. I. 2. of Part V above.
- The funds' holding of shares in a company must represent less than 10% of the capital of the company.
- Credit (borrowings by the funds) is only permitted if it is short dated and a borrowing limit of up to 30% of Net Asset Value applies.

\*Provided that they comply with the eligibility rules as set forth in section 5.1, A. I. 1. a) – f) of Part V above, "qualifying assets" as per the above investment restrictions include, inter alia:

- Securities
- Money market instruments
- Derivatives
- Bank deposits
- Shares or units issued by investment funds that also meet the (above) investment restrictions under the GITA.

### 3. Additional information and investment restrictions applying to funds registered in Hong Kong and Macau:

1. Each of the Cash funds must maintain an average portfolio maturity not exceeding 90 days and must not purchase an instrument with a remaining maturity of more than one year, or two years in the case of government and other public securities. The aggregate value of investments by a Cash fund in deposits, Transferable Securities and Money Market Instruments issued by or placed with the same issuing body may not exceed 10% of the net assets of the Cash fund except: (a) in the case of deposits, where the issuer is a substantial financial institution (as such term is defined under the Hong Kong Securities and Futures Commission's Code on Unit Trust and Mutual Funds) and the total amount does not exceed 10% of the issuer's issued capital and published reserves, in which case the limit may be increased to 25% of the net assets of the Cash fund; and (b) in the case of Transferable Securities or Money Market Instruments which are issued or guaranteed by a Member State, its local authorities, a non-member State of the EU accepted by the CSSF or by public international bodies of which one or more Member States of the EU are members, this limit is increased to 100% provided that the Cash fund holds securities from at least six different issues and securities from one issue do not account for more than 30% of the net assets of the Cash fund. The debt securities which the Cash funds invest in are monitored on an ongoing basis, including as regards credit quality. Credit research of the debt securities involve qualitative and quantitative analysis as well as peer group comparison.
2. For those funds authorized for sale in Hong Kong, the threshold for deferral of redemption and/or conversion requests shall be 10% of the issued Shares of a fund.
3. The 'Redemption in Specie' section shall generally apply to Hong Kong Shareholders of the Fund. Furthermore, without prejudice to the obligations of the Fund's Directors to protect Shareholders against the effects of market timing or investors who in their opinion, have a pattern of short-term or excessive trading or whose trading has been or may be disruptive to the Fund, Hong Kong investors with redemption requests over USD 100,000 dealing with the Fund through FIMHK must consent before receiving net redemption proceeds in the form of an in specie transfer. Hong Kong Investors may elect to receive a cash payment of redemption proceeds, in which case FIMHK shall arrange for the sale of the in-specie securities. The Hong Kong investors electing to receive a cash payment of redemption proceeds would bear the costs associated with disposing of the in-specie securities and the market risks associated with such disposal. Cash redemption proceeds would be payable on the completion of the sale of all in specie securities.

4. (i) For funds that have stated clearly in the investment objectives that they may have direct access to the China A Share and B Share markets, or to onshore China fixed income securities listed or traded on any Eligible Market in China, it is currently intended that each such fund will not directly invest more than 10% of its Net Asset Value in securities listed in the China A Share and B Share markets, or in onshore China fixed income securities listed or traded on any Eligible Market in China respectively (with aggregate exposure to such assets, including direct and indirect investments, up to 30% of its assets respectively). "Eligible Market in China" refers to the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the mainland China interbank bond market with respect to the Bond funds, as the case may be.
- (ii) For funds that have not stated in their investment objectives that they may have direct access to (i) the China A Share and B Share markets or (ii) to onshore China fixed income securities listed or traded on any Eligible Market in China, it is currently intended that each such fund will not directly or indirectly invest more than 10% of its Net Asset Value in securities listed in the China A Share and B Share markets, or in onshore China fixed income securities listed or traded on any Eligible Market in China respectively.
- (iii) Should the investment policy in sub-paragraphs (i) and (ii) above change in the future, the Fund's Prospectus will be updated and requisite notification (where required) will be given to the Fund's Shareholders. This will also be disclosed in the investment objectives of the relevant funds.
- (iv) Any direct access to China A Shares or onshore China fixed income securities may be obtained via the QFII quota of FIL Investment Management (Hong Kong) Limited or through any permissible means available to the funds under prevailing laws and regulations (including, in respect of China A Shares, via the Stock Connect or in the case of onshore China fixed income securities, via the China interbank bond market, or any other eligible means). Any indirect access to China A Shares or onshore China fixed income securities may be obtained through financial instruments that invest in or are linked to the performance of China A Shares or onshore China fixed income securities, e.g. via equity-linked notes, participation notes and/or credit-linked notes.
5. The Management Company, the Investment Manager and the investment advisers (as applicable), when investing for the Fund in units/shares of UCITS and/or other UCIs, may not obtain, for their own account, any rebate on any fees or charges levied by such UCITS and/or other UCIs or their management companies, if any.
6. Those funds authorised for sale in Hong Kong will not invest more than 10% of their net asset value in securities issued by or guaranteed by any single country (including its government, a public or local authority of that country) with a credit rating below investment grade within the meaning assigned to them in Part I. section 1.3.4 of this Prospectus.

#### 4. Additional investment restrictions applying to funds registered in Korea:

1. A fund's securities shall be issued for the unidentified public, and 10% or more of the Shares issued by the fund shall be sold outside Korea.
2. 60% or more of a fund's net assets shall be invested or otherwise managed in non-Korean Won-denominated securities.
3. A fund shall not invest more than 35% of its assets in transferable securities and money market instruments issued or guaranteed by the government of any member states of G20 (which is not a member state of either the EU or OECD) or Singapore.
4. Each fund registered in Korea under FSCMA may not invest more than 30% of its total assets in collective investment vehicles other than collective investment vehicles as defined in Article 229, Item 1 of FSCMA.
5. A policy to prevent conflicts of interest from constituting or giving rise to a material risk of damage to the interests of Shareholders is in place, to the effect that "A foreign collective investment business entity or its affiliated company, any executive or significant shareholder (referring to a shareholder who holds more than 10% of the outstanding stocks in his/her own name or any other person's name) of any of the afore-mentioned companies, or the spouse of such executive or shareholder shall not conduct any transaction with the collective investment property for his/her own interest, except where conflicts of interest are not likely to occur in trading with the foreign collective investment scheme, such as transactions through an open market.", which is the restriction on transactions with interested persons under the laws and regulations of Korea.

#### 5. Additional investment restrictions applying to funds registered in Singapore:

1. The following additional investment restrictions apply to funds authorised under the Singapore Central Provident Fund Investment Scheme ("CPFIS") (in case of differences between these additional investment restrictions and the rules listed in Part V, 5.1, the stricter rules will apply). Investors should note that complying with the investment restrictions issued by the Singapore Central Provident Fund Board might have implications on the funds' risk rating or investment allocation.

#### CENTRAL PROVIDENT FUND ("CPF") INVESTMENT GUIDELINES

##### A. Diversification

- A.1 A CPFIS Included Fund must be reasonably diversified (e.g. in terms of type of investment, market, industry, issuer, etc., as appropriate), taking into account the type and size of the CPFIS Included Fund, its investment objectives and prevailing market conditions.
- A.2 The Investment Manager must adopt appropriate investment limits or operating ranges (by market, asset class, issuer etc.) for the CPFIS Included Fund.

##### B. Deposits and Account Balances with financial institutions

- B.1 The Investment Manager may place monies with financial institutions with individual/financial strength ratings of above C by Fitch Inc or Moody's. Branches of a financial institution are deemed to have the same credit ratings as their head office. However, subsidiaries of financial institutions must have their own credit ratings.
- B.2 Where a rated financial institution with which the CPFIS Included Fund has placed monies ceases to meet the requisite minimum rating, the Investment Manager should as soon as practicable but in any event within one month, withdraw the monies. In the case of a fixed deposit, if the Investment Manager satisfies the Directors that it is not in the best interest of Shareholders to withdraw the deposits within one month, the Directors may, subject to the following conditions, extend the one month period:
  - (a) the deposit must not be rolled over or renewed;
  - (b) the deposit is not put at substantial risk; and
  - (c) such extension is subject to monthly review by the Directors.

##### C. Credit Rating for Debt Securities

- C.1 The Investment Manager may invest in debt securities rated at least Baa by Moody's, BBB by Standard & Poor's or BBB by Fitch Inc (including sub-categories or gradations therein).
- C.2 Debt securities that do not have the requisite ratings cited in paragraph C.1 but which are fully, unconditionally and irrevocably guaranteed as to principal and interest by entities with individual/financial strength ratings of above C by Fitch Inc or Moody's, qualify as approved investments under these CPF Investment Guidelines.
- C.3 Paragraphs C.1 and C.2 do not apply to debt securities issued by Singapore-incorporated issuers and Singapore statutory boards that are not rated. The Investment Manager may invest in all such debt securities until such time as is stated otherwise.
- C.4 If the credit rating of a debt security in a CPFIS Included Fund's portfolio falls below the minimum rating, the Investment Manager is required to sell the debt security within three months, unless the Investment Manager satisfies the Directors that it is not in the best interest of Shareholders to do so, in which case, such disposal should be carried out as soon as the circumstances permit. Such extension is subject to monthly review by the Directors.

**D. Single Party Limit**

Exceptions to the single party limit allowed for structured products are subject to the criteria set out in Paragraph K below, over and above that set out in Annex 1a of the Code entitled 'Exceptions to Rules in Appendix 1 for Structured Products'.

**E. Securities Lending**

E.1 Up to **50%** of the Value of the Deposited Property of the CPFIS Included Fund may be lent at any time provided adequate collateral (i.e. collateral with sufficient margin over the value of the lent security) is taken. Such collateral can either be in:

- (a) cash;
- (b) deposits with financial institutions with a minimum short-term rating of Prime-1 by Moody's, A-1 by Standard & Poor's or F-1 by Fitch Inc; or
- (c) letters of credit and banker's guarantees where the issuers are rated at least Prime-1 by Moody's, A-1 by Standard & Poor's or F-1 by Fitch Inc; or
- (d) debt securities which have remaining maturity of not more than 366 calendar days and are rated at least A2 by Moody's, A by Standard & Poor's or A by Fitch Inc.

However, the 366 day requirement need not be complied with, if the collateral taken are:

- (i) debt securities with rating of at least A2 by Moody's, A by Standard & Poor's or A by Fitch Inc; and
- (ii) the securities lending transaction is conducted through an institution with a credit rating of at least A2 by Moody's, A by Standard & Poor's or A by Fitch Inc; and
- (iii) the institution would indemnify the CPFIS Included Fund in the event of losses due to failure by the securities borrower to return the borrowed stock.

E.2 Cash collateral should be invested only in debt securities which have remaining maturity of not more than 366 calendar days and rated at least A2 by Moody's, A by Standard & Poor's, A by Fitch Inc, or deposited with financial institutions with a minimum short-term rating of Prime-1 by Moody's, A-1 by Standard & Poor's, F-1 by Fitch Inc. Such deposits must have a remaining maturity of not more than 366 days.

**F. Unlisted Shares**

Investments in unlisted shares (excluding IPO shares which have been approved for listing) are allowed within the 5% deviation limit.

**G. Borrowings**

The 10% borrowing limit set out in the Code must be adhered to without exception. For feeder funds, the borrowing limit is to be applied to the Singapore CPFIS Included Fund.

**H. Deviations from the CPF Investment Guidelines**

This paragraph sets out the circumstances when the Investment Manager may invest up to 5% of the value of the CPFIS Included Fund in investments which fall outside the Code and/or the CPF Investment Guidelines.

**H.1 CPFIS Included Funds constituted in Singapore and are wholly managed in Singapore**

The Investment Manager of a CPFIS Included Fund must ensure that the CPFIS Included Fund is managed in full compliance with the Code and that at least 95% of the value of the Deposited Property of the CPFIS Included Fund is invested in accordance with the CPF Investment Guidelines at all times.

**H.2 CPFIS Included Funds constituted in Singapore that are Partially or Wholly Sub-Managed**

The Investment Manager of a CPFIS Included Fund that has received the CPF Board's approval for sub-management of such CPFIS Included Funds in Singapore or abroad must ensure that the CPFIS Included Fund is managed in full compliance with the Code and that at least 95% of the Value of the Deposited Property of the CPFIS Included Fund is invested in accordance with the CPF Investment Guidelines at all times.

**H.3 CPFIS Included Funds constituted in Singapore that invest in other funds not included under CPFIS**

With the CPF Board's approval, a CPFIS Included Fund may invest in another fund that is not included under CPFIS. The Investment Manager must ensure that at least 95% of the Value of the Deposited Property of the CPFIS Included Fund is invested in accordance with the Code and the CPF Investment Guidelines at all times. Where a CPFIS Included Fund invests partially in another fund that is not included under the CPFIS, the 5% deviation allowed applies as follows:

The total sum of the CPFIS Included Fund's pro-rated share of the deviating investments by **the underlying fund** and the deviating investments of that part of the CPFIS Included Fund which is **managed in Singapore, or partially or wholly sub-managed in Singapore or abroad**, shall not exceed 5% of the Value of the CPFIS Included Fund.

'Pro-rated share' is defined as follows:

$$\frac{\text{Dollar value of investments of CPFIS Included Fund in underlying fund}}{\text{Dollar value of underlying fund}} \times \text{Dollar value of deviating investments of underlying fund}$$

For the avoidance of doubt, the part of the CPFIS Included Fund that is managed in Singapore, or partially or wholly sub-managed in Singapore or abroad must be invested in full compliance with the Code, and any deviating investments should only be in respect of the CPF Investment Guidelines.

**H.4 CPFIS Included Funds that are Fund-of-Funds ('FOF') (i.e. a CPFIS Included Fund whose objective is to invest all or substantially all of its assets with different fund managers, to be managed on a dedicated basis or to be invested in pooled investments or schemes)**

The Investment Manager of an FOF must ensure that at least 95% of the Value of the Deposited Property of the FOF is invested in accordance with the Code and the CPF Investment Guidelines at the time of investment.

Subsequently, the Investment Manager of the FOF should ensure that the FOF continues to comply with the Code and the CPF Investment Guidelines **on a regular basis** (e.g. when periodic reports of the CPFIS Included Fund are available), no less than once every 6 months.

**H.5 CPFIS Included Funds that are constituted outside Singapore**

The Investment Manager of a CPFIS Included Fund that is constituted outside Singapore must ensure that at least 95% of the Value of the Deposited Property of such CPFIS Included Fund is invested in accordance with the Code and the CPF Investment Guidelines at all times.

**I. Breach of Single Party and Other Limits**

I.1 If the 5% limit on investments which deviate from the stated guidelines in paragraph H is exceeded as a result of one or more of the following events:

- (a) the appreciation or depreciation of the Value of the Deposited Property of the CPFIS Included Fund;
- (b) any redemption of units or payments made from the CPFIS Included Fund; or
- (c) any changes in the total issued nominal amount of securities of a company arising for example from rights, bonuses or benefits which are capital in nature,

or the underlying fund of a CPFIS Included Fund acquiring more 'deviating' investments, the Investment Manager shall within 3 months from the date when the limit is exceeded:

- (i) for CPFIS Included Funds which are locally managed, sub-managed or constituted outside of Singapore, sell so much of such securities; or
- (ii) for CPFIS Included Funds invested in funds not included under the CPFIS, sell so much of such units in the funds, as may be necessary to result in the 5% limit being no longer exceeded. The period may be extended if the Investment Manager satisfies the Directors that it is in the best interest of Shareholders to do so. Such extension is subject to monthly review by the Directors.
- I.2 If any of the limits are exceeded other than as a result of the events stated in paragraphs I.1(a), (b), (c) or the underlying funds of a CPFIS Included Fund acquiring more prohibited investments, the Investment Manager is required to sell so much of such investments and/or reduce such borrowings immediately to result in the limit being no longer exceeded.
- I.3 The Investment Manager is required to inform the CPF Board of a breach of the CPF Investment Guidelines by CPFIS Included Funds that it manages within 14 calendar days of the occurrence of the breach. For CPFIS Included Funds which invest in other funds that are not managed by the Investment Manager itself, the Investment Manager is required to inform the CPF Board within 14 days of the date of notification of the breach by the manager of the other fund or the date the Investment Manager becomes aware of the breach, whichever is the earlier. In the event that the Directors agree to an extension of the deadline (beyond that stipulated in the CPF Investment Guidelines) to rectify the breach, the Directors should inform the CPF Board within 7 calendar days of its agreement to the extension. The Directors should also inform the CPF Board within 7 calendar days of the rectification of the breach.
- I.4 If the Investment Manager is unable to adhere to Paragraph I.2 above and is unable to (or do not) obtain an extension under Paragraph I.3 above, they must take the following actions:
- report such breach to the CPF Board within 14 calendar days of the occurrence of the breach;
  - cease to accept subscriptions for the CPFIS Included Fund from the CPF Ordinary and Special Accounts with immediate effect and seek to exclude the CPFIS Included Fund from the CPFIS;
  - within 3 months from the date of the breach, to give notice to each CPF member invested in the CPFIS Included Fund of the breach, make full disclosure on the impact of the breach and provide each investing member with the right to redeem or switch to another fund without charge; and
  - continue to monitor the breach and report to the CPF Board on a monthly basis as to the status of such breach until the breach is rectified.
- J. Prohibited Investments**  
Any other investments/activities not mentioned in these CPF Investment Guidelines shall be prohibited, and subject to the deviation limit as stated in paragraph H.
- K. Exceptions to Single Party Limit for Investments in Structured Products**  
**Revision in Ratings of Issuer, FI, or Counter Party**
- K.1 Where the rating of the issuer or the Third Party referred to in paragraph 2.2(a) of Annex 1a entitled 'Exceptions to Rules in Appendix 1 for Structured Products' of the Code falls below those specified therein or if the issuer or Third Party ceases to be rated, the Investment Manager should within 3 months from the occurrence of such event take action to comply with the 10% single party limit. The 3-month period may be extended if the Investment Manager satisfies the Directors that it is in the best interest of the Shareholders. Such extension should be subject to monthly review by the Directors.
- K.2 Where the rating of the FI or the Third Party referred to in paragraph 2.2(b) of Annex 1a entitled 'Exceptions to Rules in Appendix 1 for Structured Products' of the Code falls below those specified or if the FI or Third Party ceases to be rated, the Investment Manager should within 3 months from the occurrence of such event take action to comply with the 10% single party limit. The 3-month period may be extended if the Investment Manager satisfies the Directors that it is in the best interest of the Shareholders. Such extension should be subject to monthly review by the Directors.
- K.3 Where the rating of the issuer referred to in paragraph 2.3 of Annex 1a entitled 'Exceptions to Rules in Appendix 1 for Structured Products' of the Code falls below those specified, the Investment Manager should within 3 months from the occurrence of such event take action to comply with the one-third or 10% single party limit, whichever is applicable. The 3-month period may be extended if the Investment Manager satisfies the Directors that it is in the best interest of the Shareholders. Such extension should be subject to monthly review by the Directors.

#### INVESTMENT GUIDELINES IN THE CODE ON COLLECTIVE INVESTMENT SCHEMES (THE "CODE")

For as long as the funds are approved for retail distribution and sale in Singapore, the investment guidelines issued by The Monetary Authority of Singapore ("MAS") under the relevant Appendix to the Code, as may be amended, re-stated, supplemented or replaced from time to time, shall apply to the funds, to the extent required by the MAS.

#### 6. Additional investment restrictions applying to funds registered in South Africa:

Funds authorised for sale in South Africa must comply with investment restrictions contained in the Collective Investment Schemes Control Act (CISCA). In addition to what is stated in the Prospectus, the current policy of the Fund in respect of the funds approved for distribution is as follows:

- The funds utilise any derivative instruments, including but not restricted to option contracts, swaps and futures contracts, only for the purposes of Efficient Portfolio Management. Derivatives utilised may be either exchange-traded derivatives or traded over-the-counter. Derivative positions must be covered by assets within the portfolio of the funds.
- The funds may not invest in a fund of funds or a feeder fund.
- Scrip borrowing is allowed under the conditions provided in Part V, section 5.1 B.1. of the Prospectus.

#### 7. Additional investment restrictions applying to funds registered in Taiwan:

The funds offered and sold in Taiwan shall be subject to the following additional restrictions:

- Unless exempted by the Financial Supervisory Commission (the 'FSC'), the total value of open long positions in derivatives held by each fund may not, at any time, exceed 40% (or such other percentage stipulated by the FSC from time to time) of the fund's Net Asset Value; the total value of open short positions in derivatives held by each fund may not, at any time, exceed the total market value of the corresponding securities held by the fund;
- The fund may not invest in gold, spot commodities, or real estate;
- The direct investments that a fund is permitted to make in Mainland China are restricted to the securities listed or traded on Mainland China exchanges or Mainland China interbank bond market, and the fund's holdings may not, at any time, exceed 10% (or such other percentage stipulated by the FSC from time to time) of the fund's Net Asset Value;
- The total investment in each fund by domestic investors in Taiwan shall not exceed a certain percentage stipulated by the FSC from time to time; and
- The securities market of Taiwan may not constitute the primary investment region in the portfolio of each fund. The investment amount of each Fund in the securities market of Taiwan shall not exceed a certain percentage stipulated by the FSC from time to time.
- Any other investment restrictions announced by the FSC from time to time.

## DENMARK

Fidelity Funds (the "Fund") is an open-ended investment company with variable capital incorporated in Luxembourg on 15 June 1990.

By virtue of rulings of the Danish Financial Supervisory Authority (DFSA) dated 21 December 2007 the Fund is authorised to sell its Shares to Institutions in Denmark.

The information below describes the facilities available to investors residing in Denmark and the procedures which apply to dealing in Shares in the Fund. This information must be read in conjunction with the current Prospectus of the Fund and the most recent annual report and the most recent semi-annual report.

### Conditions applying to subscription, purchase, sale and redemption

Investors may give instructions (directly, or through their bank or other financial representative) to the Distributor of the Fund:

FIL (Luxembourg) S.A.  
2a, Rue Albert Borschette  
BP 2174  
L-1021 Luxembourg  
Telephone: (352) 250 404 1  
Fax: (352) 26 38 39 38

FIL (Luxembourg) S.A. is the Distributor for Denmark and acts as agent for the General Distributor, FIL Distributors. All instructions can be addressed to Distributor.

### Documents Available for Inspection

The following documents are available for inspection free of charge during normal business hours on weekdays (Saturdays, Sundays and other public holiday excepted) at the registered office of the Fund or at the offices of the Distributor.

- Instruments of Incorporation of the Fund.
- The Reports of the Fund.

Copies of the Prospectus and the latest financial reports of the Fund may be obtained, free of charge, upon request at the registered office of the Fund and the office of the Distributor.

### Danish representative

The Company has appointed P/F BankNordik as its Danish representative (the "Representative") under Section 8 of Danish Executive Order no. 746 of 28 June 2011 on Foreign Investments Under-takings Marketing in Denmark. The details of the Representative are as follows:

P/F BankNordik  
Attn.: Backoffice  
Amagerbrogade  
DK-2300 Copenhagen S  
CVR no. 32049664  
Denmark  
Telephone number: +45 32 66 66 66  
Fax number: +45 32 66 66 01  
e-mail: kontakt@banknordik.dk

### Procedure in the Event of Termination

In the event that the Fund or a fund of the Fund ceases to market shares in Denmark, the investors will be notified hereof. The investors will be informed that the information and documentation will still be available to the investors in the same way as before. However, it will be stressed that the KIID will no longer be available in the Danish language. Furthermore, the procedure for the payment of dividend and redemption or sale proceeds will be unchanged for the Danish investors, unless the general procedure of the Fund or the Danish legislative environment is subject to change.

## FINLAND

### Registration and Supervision

The official name of the fund is Fidelity Funds (the "Fund"). The Fund is an open-ended investment company incorporated in Luxembourg on 15 June 1990 and it fulfils the conditions laid down in the amended Council Directive (2009/65/EEC) on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS).

By virtue of a ruling of the Finnish Financial Supervisory Authority (the 'FSA'), the Fund is authorised to sell its Shares to members of the public in Finland.

The following funds are available to Finnish investors under the Fund as at the time of this Prospectus: **Equity Funds:** Fidelity Funds – America Fund, Fidelity Funds – American Diversified Fund, Fidelity Funds – American Growth Fund, Fidelity Funds – ASEAN Fund, Fidelity Funds – Asia Focus Fund, Fidelity Funds – Asia Pacific Opportunities Fund, Fidelity Funds – Asian Smaller Companies Fund, Fidelity Funds – Asian Special Situations Fund, Fidelity Funds – Asia Pacific Property Fund, Fidelity Funds – Australia Fund, Fidelity Funds – China Consumer Fund, Fidelity Funds – China Focus Fund, Fidelity Funds – China Opportunities Fund, Fidelity Funds – Emerging Asia Fund, Fidelity Funds – Emerging Europe, Middle East and Africa Fund, Fidelity Funds – Emerging Markets Fund, Fidelity Funds – Emerging Markets Focus Fund, Fidelity Funds – Euro Blue Chip Fund, Fidelity Funds – EURO STOXX 50™ Fund, Fidelity Funds – European Fund, Fidelity Funds – European Value Fund, Fidelity Funds – European Growth Fund, Fidelity Funds – European Larger Companies Fund, Fidelity Funds – European Dynamic Growth Fund, Fidelity Funds – European Smaller Companies Fund, Fidelity Funds – France Fund, Fidelity Funds – Germany Fund, Fidelity Funds – Global Consumer Industries Fund, Fidelity Funds – Global Demographics Fund, Fidelity Funds – Global Financial Services Fund, Fidelity Funds – Global Focus Fund, Fidelity Funds – Global Health Care Fund, Fidelity Funds – Global Industrials Fund, Fidelity Funds – Global Property Fund, Fidelity Funds – Global Opportunities Fund, Fidelity Funds – Global Technology Fund, Fidelity Funds – Global Telecommunications Fund, Fidelity Funds – Greater China Fund, Fidelity Funds – Iberia Fund, Fidelity Funds – India Focus Fund, Fidelity Funds – Indonesia Fund, Fidelity Funds – International Fund, Fidelity Funds – Italy Fund, Fidelity Funds – Japan Fund, Fidelity Funds – Japan Advantage Fund, Fidelity Funds – Japan

Aggressive Fund, Fidelity Funds – Japan Smaller Companies Fund, Fidelity Funds – Korea Fund, Fidelity Funds – Latin America Fund, Fidelity Funds – Malaysia Fund, Fidelity Funds – Nordic Fund, Fidelity Funds – Pacific Fund, Fidelity Funds – Singapore Fund, Fidelity Funds – Switzerland Fund, Fidelity Funds – Taiwan Fund, Fidelity Funds – Thailand Fund, Fidelity Funds – United Kingdom Fund, Fidelity Funds – World Fund; **Equity Income Funds:** Fidelity Funds – Asia Pacific Dividend Fund, Fidelity Funds – European Dividend Fund, FF - FIRST All Country World Fund, FF - FIRST Developed World Fund, Fidelity Funds – Global Dividend Fund; **Asset Allocation Funds:** Fidelity Funds – Fidelity Patrimoine, Fidelity Funds – Fidelity Sélection Internationale; **Multi Asset Funds:** Fidelity Funds – Euro Balanced Fund, Fidelity Funds – Global Income Fund, Fidelity Funds – Growth & Income Fund, Fidelity Funds – Global Multi Asset Tactical Defensive Fund, Fidelity Funds – Global Multi Asset Tactical Moderate Fund; **Bond Funds:** Fidelity Funds – Asian Bond Fund, Fidelity Funds – Asian High Yield Fund, Fidelity Funds – China RMB Bond Fund, Fidelity Funds – Core Euro Bond Fund, Fidelity Funds – Emerging Market Corporate Debt Fund, Fidelity Funds – Emerging Market Debt Fund, Fidelity Funds – Emerging Markets Inflation -linked Bond Fund, Fidelity Funds – Emerging Market Local Currency Debt Fund, Fidelity Funds – Emerging Market Total Return Debt Fund, Fidelity Funds – Euro Bond Fund, Fidelity Funds – Euro Corporate Bond Fund, Fidelity Funds – European High Yield Fund, Fidelity Funds – Euro Short Term Bond Fund, Fidelity Funds – Global Bond Fund, Fidelity Funds – Global Corporate Bond Fund, Fidelity Funds – Global High Yield Fund, Fidelity Funds – Global Hybrids Bond Fund, Fidelity Funds – Global Inflation-linked Bond Fund, Fidelity Funds – Global High Grade Income Fund, Fidelity Funds – Global Multi Asset Income Fund, Fidelity Funds – Global Strategic Bond Fund, Fidelity Funds – Flexible Bond Fund, Fidelity Funds – US Dollar Bond Fund, Fidelity Funds – US High Yield Fund; **Cash Funds:** Fidelity Funds – Euro Cash Fund, Fidelity Funds – US Dollar Cash Fund; **Fidelity Lifestyle Funds:** Fidelity Funds – Fidelity Target™ 2020 Fund, Fidelity Funds – Fidelity Target™ 2015 (Euro) Fund, Fidelity Funds – Fidelity Target™ 2020 (Euro) Fund, Fidelity Funds – Fidelity Target™ 2025 (Euro) Fund, Fidelity Funds – Fidelity Target™ 2030 (Euro) Fund, Fidelity Funds – Fidelity Target™ 2035 (Euro) Fund, Fidelity Funds – Fidelity Target™ 2040 (Euro) Fund; Fidelity Funds – Fidelity Target™ 2045 (Euro) Fund, Fidelity Funds – Fidelity Target™ 2050 (Euro) Fund; **Institutional Reserved Funds:** Fidelity Funds – Institutional European High Yield Fund, Fidelity Funds – Institutional Asia Pacific (ex-Japan) Fund, Fidelity Funds – Institutional Emerging Markets Equity Fund, Fidelity Funds – Institutional Euro Blue Chip Fund, Fidelity Funds – Institutional Global Focus Fund, Fidelity Funds – Institutional Japan Fund, Fidelity Funds – Institutional European Larger Companies Fund; **Systematic Multi Asset Risk Targeted Funds:** Fidelity Funds – SMART Global Defensive Fund, Fidelity Funds – SMART Global Moderate Fund.

The information below describes the facilities available to investors resident in Finland and the procedures which apply to dealing in Shares in the Fund. This information must be read in conjunction with the current Prospectus of the Fund and the KIIDs, the most recent annual report and accounts and, if published thereafter, the most recent semi-annual report and accounts. Material amendments to the Prospectus, the KIIDs, or to the Articles of Incorporation as well as the annual and semi-annual reports and accounts will be filed with the FSA. Investors will be informed about material changes in the Fund as required by the home state legislation or as laid out in the Articles of Incorporation or the Prospectus, as in force from time to time.

#### Marketing and Purchase of Shares

The target investors/distribution channels for the Fund will be inclusive of asset managers, large and small banks, life companies and IFAs. Both above-the-line and below-the-line marketing will be employed in the promotion of the Fund and will be inclusive of trade and national press, billboards and online advertising, as well as brochures, mailings, teleconferences and events.

FIL (Luxembourg) S.A. is the Distributor for Finland and acts as agent for the General Distributor, FIL Distributors. A list of the Finnish Sales Representatives may be obtained by calling the following toll free number: 0800 113 582.

Investors may give instructions in writing or in the form prescribed (directly, through their bank or other financial representative) to the Distributor for Finland mentioned above at the address given below or any other Distributor listed in the Prospectus or to a Finnish Sales Representative or to FIL (Luxembourg) at the address given below:

2a, Rue Albert Borschette  
BP 2174  
L-1021 Luxembourg  
Telephone: (352) 250 404 1  
Fax: (352) 26 38 39 38.

Investors buying Shares for the first time have to complete an application form. The instructions for subsequent purchases must normally contain full details of registration, the name of the fund(s), class(es) of Shares, settlement currency(ies) and the value of Shares to be bought. Purchase instructions will normally only be fulfilled on banker's notification of receipt of cleared monies.

Completed applications with cleared monies received by a Distributor on a day that the Distributor and the Management Company are open for business before the appropriate dealing cut-off times on a Valuation Date will normally be fulfilled that day at the next calculated Net Asset Value of the relevant share plus any applicable initial charge.

Settlement should be made by electronic bank transfer net of bank charges. Payment should be made to the bank account published by the Distributor as appropriate to the currency of settlement.

Other methods of payment require the prior approval of the Distributor. Processing of the application will usually be deferred until cleared monies are received. Cleared monies will be invested net of bank collection charges.

Shareholders should normally allow at least three Business Days before further switching, selling or redeeming their Shares after purchase or subscription.

The purchase price comprises the Net Asset Value of Shares of the relevant class calculated on a Valuation Date plus the applicable initial charge. The initial charge for class A Shares is described in 2.1. "Classes of Shares" in Part II of the Prospectus and for class P Shares is up to 1.00% of the Net Asset Value of the Shares.

Investors may place orders for Shares with Distributors in any of the major freely convertible currencies in addition to the Principal Dealing Currency of the individual funds and/or classes of Shares. Investors may contact the Distributors for information about such currencies. The Distributors may publish details of other currencies which will be accepted.

#### The Depositary

The Fund has appointed Brown Brothers Harriman (Luxembourg) S.C.A. to act as depositary of the Fund and to hold all cash, securities and other property of the Fund on behalf of the Fund. The Depositary may, with the approval of the Fund, appoint other banks and financial institutions to hold the Fund's assets. The Depositary is required to perform all the duties of a depositary prescribed by Article 33 of the Law of 2010.

## Payments to Shareholders

### Dividends

No dividends will be paid for accumulating Shares. All interest and other income earned on the investment will be accumulated.

For distributing Shares the Directors expect to recommend distribution of substantially the whole of each class' respective net investment income for the year. Dividends are declared on all Distributing Shares on the first Business Day of August. Dividends are also declared on certain Bond, Multi Asset and Equity funds on other dates.

Dividends for distributing Shares are reinvested in additional Shares in the same distributing class of Shares unless Shareholders specify otherwise in writing.

Dividends to be reinvested are credited to the Management Company who acts on behalf of the Shareholders and invests the amount of the dividends in additional Shares of the same distributing class of Shares. Shares are issued at the Net Asset Value determined on the dividend declaration date if it is a Valuation Date, or the subsequent Valuation Date. No initial charge is payable on these Shares. Shares issued through this dividend facility are held in a registered account for the investor. Shares are calculated to two decimal places and the resulting cash fraction remainder (whose value is less than 0.01 of a Share) is retained in the Fund for inclusion in subsequent calculations.

Holders of registered distributing Shares may elect to receive a dividend payment which will normally be made within ten Business Days, and as from April 2015 normally within five Business Days, or as soon as practicable thereafter by electronic bank transfer, net of bank charges. In this case, unless specified otherwise, payment is normally made in the Principal Dealing Currency of the distributing class of Shares of the fund. If requested, payment may be made in any other major freely convertible currency at the prevailing rate of exchange. If any dividend payment is lower than USD 50 (or its equivalent in another currency) the dividend will be automatically reinvested in further Shares of the same distributing class of Shares and not paid directly to holders of registered Shares.

Dividends are normally paid within ten Business Days, and as from April 2015 normally within five Business Days, or as soon as practicable thereafter.

### Redemption of Shares

Instructions to sell registered Shares should be addressed to a Distributor and must be received by a Distributor or the Management Company before the relevant cut-off times. The instructions must contain full details of registration, the name of the fund(s), class(es) of Shares, settlement currency(ies), the number or value of Shares to be sold and bank details. Instructions received on a day that the Distributor or the Management Company is open for business, before the appropriate dealing cut-off times on a Valuation Date, are normally dealt with that day at the next calculated Net Asset Value of the relevant class.

A sales exit fee or a redemption fee of up to 1.00% of the Net Asset Value inclusive of expenses can be levied on P Shares, either of which fee will revert to the General Distributor.

Settlement will normally be made by electronic bank transfer. The Management Company will aim to make settlement payments within three Business Days (without however exceeding 5 Business Days) after receipt of written instructions. Exceptions currently apply in relation to the funds listed below. If in exceptional circumstances it is not possible to make the payment within the relevant period, then such payment shall be made as soon as reasonably practicable thereafter but without interest. In addition, different settlement periods may apply if settlement is made via local correspondent banks, paying agents or other agents. Settlement amounts may be subject to bank charges levied by the Shareholder's own (or a correspondent) bank. Payment will be made in one of the Principal Dealing Currencies of the relevant class of Share or may also be made in one of the major freely convertible currencies if requested by the Shareholder(s) at the time of instruction.

Payment may also be made in one of the major freely convertible currencies if requested by the Shareholder(s) at the time of instruction. Foreign exchange transactions required to handle client purchases/redemptions may be aggregated and will be carried out by FIL Group's central treasury department on an arm's length basis through certain FIL Group companies from which a benefit may be derived by such companies.

### Publication of prices

Prices for Shares of the Fund may be obtained from any Distributor or from the Finnish Sales Representatives. Shares are listed on the Luxembourg Stock Exchange. Price information may be published in certain media as decided from time to time.

### Documents Available for Inspection

The latest Prospectus, the KIIDs, Articles of Incorporation, audited annual report and accounts and unaudited semi-annual report and accounts can be obtained, free of charge, upon request at the offices of the Finnish Sales Representatives, at the registered office of the Fund and the offices of the Distributors and of the Management Company.

### Taxation

The Directors of the Fund are informed of the following taxation consequences for individuals resident in Finland ('Individuals') and companies carrying on a trade in Finland ('Companies'):

- a) In a precedent issued by the Finnish Supreme Administrative Court, distributions from a Luxembourg SICAV were treated as dividend for Finnish tax purposes. In this light, it seems that dividends declared in respect of Shares should be regarded – for Finnish tax purposes – as dividend income.

Should such dividends be regarded as dividend income for Finnish tax purposes, then

- i. for Individuals, 100% of such dividends should be taxable as earned income and
- ii. for Companies, 100% of such dividends should be taxable income. If the Shares belong to the investment assets of the Company, it may be argued that 75% of such dividends should be taxable.

Nonetheless, in case the dividends declared in respect of Shares would not be regarded as dividend for Finnish tax purposes, but rather as profit distribution from an investment fund, such income would, for Individuals, be treated as taxable capital income and, for Companies, as fully taxable income.

- b) Capital gains realised upon the disposal or redemption of Shares are, as regards Individuals, subject to Finnish income tax. For Individuals, capital gains are generally tax exempt if the aggregate of the assignment prices for all disposals with certain exceptions during the tax year do not exceed Euro 1,000. For the purposes of determining the taxable capital gain received by an Individual, the greater of the actual acquisition cost or the presumed acquisition cost shall be deducted

from the assignment price. The presumed acquisition cost is 40% of the assignment price if the period of ownership of the assigned property is at least 10 years and 20% in other cases.

As regards Companies, capital gains are subject to Finnish corporate income tax.

- c) The capital income of Individuals up to Euro 30,000 is currently taxable at 30% and capital income exceeding Euro 30,000 is currently taxable at 34%. Earned income is taxed at separate progressive rates. The corporate income tax rate for Companies is currently 20%.
- d) Individuals suffering a net loss from capital, e.g. as a result of a capital loss upon the disposal, conversion or redemption of Shares may deduct the loss from their capital gains generally in the same tax year and in the five following years. A capital loss is, however, not deductible for Individuals in case the acquisition costs of the assigned assets in that tax year do not exceed Euro 1,000. Capital losses are hence treated differently from ordinary capital expenditures. If the capital expenditures of an Individual in a tax year exceed the capital income, the Individual may claim a deduction in the tax levied on earned income for the same tax year ('tax credit for the capital loss').
- The tax deduction that may be claimed is currently equal to 30% of such excess expenditures and its maximum amount is Euro 1,400. The maximum amount will be increased by Euro 400 if the individual alone or together with his/her spouse has maintained one child during the year. The increase is Euro 800 in the same situation if there has been more than one child.
- e) According to Finnish tax law there are three different sources of income: business income, income from agriculture and other income. The investment in the Fund may be regarded as part of the source of business income or other income of the Individuals and the Companies. The tax treatment of an investment in the Fund may vary depending on the situation of each Investor and should be checked separately in each case (for example a passive investment can be considered to belong to the source of other income and will be taxed according to the Income Tax Act and on the other hand active investment activities can be considered to constitute business income and will be taxed according to the Business Income Tax Act).
- f) If the Shares in the Fund are considered part of the business income source, the gain arising on the disposal of such Shares can be set off against other business costs and vice versa the loss arising on the disposal of such Shares can be set off against other business income. Business income losses may be set off only against business income in the same tax year and in the following ten years.
- Capital losses in the other income source are deductible, but may be set-off only against capital gains in the same tax year and in five following years.
- The loss in the business income source cannot be offset against a profit of other income source and vice versa.
- g) In the light of current legal practice it seems that a switch of Shares from one sub-fund to another is generally treated as a taxable event, irrespective of the fact that the switch is made within the Fund.
- h) It should be noted that the above mentioned analysis of tax consequences is based on current tax legislation and practices. The tax law and practices, and the levels of taxation, are subject to future alteration. Investors should seek their own professional advice as to the tax consequences before investing in Shares in the Fund.

## GREECE

Effective 1 May 2003 the agreement covering distribution of Fidelity Funds in Greece between Laiki Bank (Hellas) S.A. and FIL Investments International was terminated. Fidelity Funds is no longer publicly offered in Greece.

### Taxation

The Directors of the Fund are informed of the following taxation consequences for investors resident in Greece:

A new Income Tax Code (ITC- L. 4172/2013) has entered into force as of 1 January 2014.

The new ITC (L. 4172/2013), as amended by L. 4254/2014, provides for a general exemption from corporate income taxation for UCITs established either in Greece or in an EU/EEA country. However, the law itself does not provide any explicit provisions of the tax treatment of proceeds received from mutual funds and UCITS.

Nevertheless, according to the Ministerial Circular 1042/2015, issued in January 2015, it was clarified that any proceeds that are distributed by UCITS established in Greece or within an EU/EEA country or mutual funds that are established in third party countries fall within the concept of dividends for corporate income tax purposes.

The above mentioned Ministerial Circular also indicated that the proceeds received by the unitholders in the form of dividends or, in general, any other form of benefits received by the shareholders/unitholders of domestic or EU/EEA UCITS shall not be subject to any corporate income tax in Greece, by application of the special provisions of art. 103 par.5 of L.4099/2012, which are still in force.

With respect to the capital gains realized by the disposal of shares/units in UCITs, the Ministerial Circular 1032/2015, issued in January 2015, stipulates that, in case said UCITS are established in Greece, no capital gains tax shall be due, by application of art. 103 par.5 of L.4099/2012. The Ministerial Circular also provides that for UCITS established in an EU/EEA country, the same tax treatment should be applicable, in accordance with the ECJ jurisprudence (case C-370/2011, Commission vs Belgium)

To be noted that special solidarity charge will apply on the above mentioned income. Such charge is based on a tax scale starting from income in excess of 12,000 Euros, and rates range from 0,7% to 8% for income exceeding 500,000 Euros.

Based on unofficial announcements in the press, the Greek government is currently contemplating the incorporation of the special solidarity contribution in the income tax scale currently applicable for individuals. However, at present, no official announcement has been issued in this respect.

In the case of legal entities, the tax treatment outlined above shall be equally applicable on any dividends and capital gains received by the latter.

It should be stressed that further guidance and interpretation is expected to be provided by the Ministry of Finance on the tax treatment of the aforementioned items of income.

Investors should also read the taxation section in Part III of the Prospectus which describes additional tax consequences for investors. Investors should also seek their own professional advice as to the tax consequences before investing in Shares in the Fund. Taxation law and practice and the levels of taxation are subject to future amendments.

## GUERNSEY

The circulation of the Prospectus and the offering of Shares has been authorised by the Guernsey Financial Services Commission under the provisions of the Protection of Investors (Bailiwick of Guernsey) Law, 1987, as amended. In giving this authorisation the Commission does not vouch for the financial soundness of the scheme or for the correctness of any of the statements made or opinions expressed with regard to it.

## HONG KONG

It should be noted that a Partial Prospectus for investors in Hong Kong exists. Such Partial Prospectus includes the country-specific information for Hong Kong.

## IRELAND

### Registration and Supervision

While the Fund has fulfilled the notification requirements of the Central Bank of Ireland to market its Shares to the public in Ireland, the Fund is not supervised or authorised in Ireland by the Central Bank of Ireland. It is incorporated in Luxembourg and subject to the laws and regulations of Luxembourg. It should be noted that the following funds or classes of Shares are not approved for distribution in Ireland as at the time of this Prospectus: Fidelity Funds – Asian Equity Fund, Fidelity Funds - Asian Total Return Bond Fund, Fidelity Funds - China High Yield Fund, Fidelity Funds - Emerging Market Total Return Debt Fund, Fidelity Funds - Emerging Markets Focus Fund, Fidelity Funds - Fidelity Target™ 2045 (Euro) Fund, Fidelity Funds - Fidelity Target™ 2050 (Euro) Fund, Fidelity Funds - FIRST All Country World Fund, Fidelity Funds - FIRST Developed World Fund, Fidelity Funds - Global Equity Income Fund, Fidelity Funds – Global High Grade Income Fund, Fidelity Funds - Global Hybrids Bond Fund, Fidelity Funds – Greater China Fund II, Fidelity Funds - Institutional European Smaller Companies Fund, Fidelity Funds - Institutional Global Sector Fund, the Fixed-Term Bond Funds range, the Institutional Reserved Funds range, the Fidelity Advisor World Funds range.

Class C, E, J, P and S Shares are not approved for distribution in Ireland.

The information below describes the facilities available to investors and the procedures, which apply, to dealing in Shares in the Fund. This information must be read in conjunction with the current Prospectus of the Fund, the most recent annual report and accounts and, if published thereafter, the most recent semi-annual report and accounts. Terms defined in the Prospectus have the same meaning in the following information.

### Facilities Agent in Ireland

The Fund has appointed FIL Fund Management (Ireland) Limited, George's Quay House 43 Townsend Street, Dublin 2, DO2 VK65, Ireland, as its Facilities Agent in Ireland. Orders for the redemption of Shares may be placed through the Facilities Agent. Complaints concerning the Fund, the Management Company or the Distributor may also be lodged with the Facilities Agent for forwarding to the relevant company.

**Irish Representative:** FIL Fund Management (Ireland) Limited, George's Quay House 43 Townsend Street, Dublin 2, DO2 VK65, Ireland.

### Dealing Procedures

Investors may place dealing instructions with any of the Distributors listed in the Prospectus or alternatively may deal directly with the Management Company.

Further information about the Fund and the relevant dealing procedures may be obtained from any Distributor or the Facilities Agent.

FIL Investments International is the Distributor for Ireland. All instructions can be addressed to the Distributor:

FIL Investments International  
 Oakhill House  
 130 Tonbridge Road  
 Hildenborough  
 Tonbridge  
 Kent TN11 9DZ  
 United Kingdom  
 (Authorised and regulated in the UK by the Financial Conduct Authority)  
 Telephone: (44) 1732 777377  
 Fax: (44) 1732 777262

Investors must ensure that subscriptions for Shares or dealing instructions are provided to the Distributor in writing, in the form prescribed by the Distributor. Application forms are available from any Distributor on request.

Purchase of Shares may be made in any major freely convertible currency. Where the investor purchases in a currency that differs from the Principal Dealing Currency of the relevant fund, the purchase amount will be converted into the Principal Dealing Currency prior to investment as set out in the Prospectus. Similarly, sales proceeds may be received by the investor in any major freely convertible currency.

Contract notes will be issued, usually within 24 hours of the determination of the relevant prices and foreign exchange rates. Applications are normally processed on receipt of cleared funds. Full details are set out on the application form and in the Prospectus.

### Publication of Prices

Details of the most recent dealing prices of Shares in the Fund may be obtained from any Distributor or the Facilities Agent. The Net Asset Values of the appropriate funds are published in such manner as decided from time to time by the Directors.

### Taxation

The Directors intend to conduct the affairs of the Fund so that it does not become resident in Ireland for taxation purposes. Accordingly, provided the Fund does not exercise a trade within Ireland or carry on a trade in Ireland through a branch or agency, the Fund will not be subject to Irish tax on its income and gains other than on certain Irish source income and gains.

### ***Irish pension funds within the meaning of Section 774, 784 and 785 of the Taxes Consolidation Act, 1997.***

On the basis that the pension funds are wholly approved under the aforementioned sections, they are exempt from Irish income tax in respect of income derived from their investments or deposits. Similarly, all gains arising to these approved Irish pension funds are exempt from capital gains tax in Ireland under Section 608(2) of the Taxes Consolidation Act, 1997 (as amended).

### ***Other Irish Shareholders***

Subject to their personal circumstances, Shareholders resident or ordinarily resident in Ireland for taxation purposes will be liable to Irish income tax or corporation tax in respect of any income distributions made by the Fund (whether distributed or reinvested in new Shares).

The attention of individuals resident or ordinarily resident in Ireland for tax purposes is drawn to Chapter 1 of Part 33 of the Taxes Consolidation Act 1997 (as amended), which may render them liable to income tax in respect of undistributed income or profits of the Fund. These provisions are aimed at preventing the avoidance of income tax by individuals through a transaction resulting in the transfer of assets or income to persons (including companies) resident or domiciled abroad and may render them liable to income or corporation tax in respect of undistributed income or profits of the Fund on an annual basis.

The attention of persons resident or ordinarily resident in Ireland (and who, if they are individuals, are domiciled in Ireland) is drawn to the fact that the provisions of Chapter 4 (Section 590) of Part 19 of the Taxes Consolidation Act, 1997 (as amended) could be material to any person who holds 5% or more of the Shares in the Fund if, at the same time, the Fund is controlled in such a manner as to render it a company that would, were it to have been resident in Ireland, be a 'close' company for Irish taxation purposes. These provisions could, if applied, result in a person being treated, for the purposes of the Irish taxation of chargeable gains, as if part of any gain accruing to the Fund (such as on a disposal of its investments that constitute a chargeable gain for those purposes) had accrued to that person directly; that part being equal to the proportion of the assets of the Fund to which that person would be entitled to on the winding up of the Fund at the time when the chargeable gain accrued to the Fund.

The Shares in the Fund will constitute a 'material interest' in an offshore fund located in a qualifying jurisdiction for the purposes of Chapter 4 (Sections 747B to 747E) of Part 27 of the Taxes Consolidation Act, 1997 (as amended). This Chapter provides that if an investor resident or ordinarily resident in Ireland for taxation purposes holds a 'material interest' in an offshore fund and that fund is located in a 'qualifying jurisdiction' (including a Member State of the EU, a Member State of the European Economic Area or a member of the OECD with which Ireland has a double taxation treaty) then, dividends or other distributions or any gain (calculated without the benefit of indexation relief) accruing to the investor upon the sale or on the disposal of the interest will be charged to tax at the rate of 41%.

Dividends or other distributions made by the Fund to an investor that is a company that is resident in Ireland or any gain (calculated without the benefit of indexation relief) accruing to such investor upon disposal of their interest in the Fund will be taxed at the rate of 25% where the payments are not taken into account in computing the profits or gains of a trade carried on by the company. Where any computation would produce a loss the gain shall be treated as nil and no loss shall be treated as occurring on such disposal. An Irish resident corporate investor whose shares are held in connection with a trade will be taxable at a rate of 12.5% on any income or gains as part of that trade.

The holding of shares at the end of a period of 8 years from acquisition (and thereafter on each 8 year anniversary) will constitute a deemed disposal and reacquisition at market value by the Shareholder of the relevant Shares. This shall apply to Shares acquired on or after 1 January 2001. The tax payable on the deemed disposal will be equivalent to that of a disposal of a 'material interest' in an offshore fund (i.e. the appropriate gain is subject to tax currently at the rate of 41%). To the extent that any tax arises on such a deemed disposal, such tax will be taken into account to ensure that any tax payable on the subsequent encashment, redemption, cancellation or transfer of the relevant Shares does not exceed the tax that would have been paid had the deemed disposal not taken place.

An offshore fund will be considered a Personal Portfolio Investment Undertaking ("PPIU") in relation to a specific investor where that investor has influence over the selection of some or all of the property held by the offshore fund, either directly or through persons acting on behalf of or connected with the investor. Any gain arising on a chargeable event in relation to an offshore fund which is a PPIU in respect of an individual, will be taxed at 60%. A higher tax rate of 80% may apply where the individual fails to meet the necessary filing requirements under Chapter 4 of Part 27 of The Taxes Consolidation Act, 1997. Specific exemptions apply where the property invested has been clearly identified in the offshore fund's marketing and promotional literature and the investment is widely marketed to the public. Further restrictions may be required in the case of investments in land or unquoted shares deriving their value from land.

For the purposes of Irish taxation a conversion of Shares in the Fund from one class of Shares to another class of Shares will not constitute a disposal. The replacement Shares shall be treated as if they had been acquired at the same time for the same amount as the holding of Shares to which they relate. There are special rules relating to situations where additional consideration is paid in respect of the conversion of Shares, or if a Shareholder receives consideration other than the replacement Shares in a fund. Special rules may also apply when a fund operates equalisation arrangements.

Attention is drawn to the fact that the above rules may not be relevant to particular types of Shareholders (such as financial institutions), which may be subject to special rules. Investors should seek their own professional advice as to the tax consequences before investing in Shares in the Fund. Taxation law and practice, and the levels of taxation may change from time to time.

### **Documents available for inspection**

The following documents are available for inspection free of charge during normal business hours on weekdays (Saturdays, Sundays and public holidays excepted) at the office of the Facilities Agent:

- a) Articles of Incorporation of the Fund;
- b) the material contracts referred to in the Prospectus;
- c) the most recent annual and half-yearly reports of the Fund;
- d) the full Prospectus; and
- e) the latest KIIDs.

Copies of the Articles of Incorporation of the Fund, the Prospectus and the KIIDs (each as amended from time to time) and of the most recent annual and half-yearly reports of the Fund may be obtained, free of charge, upon request from the office of the Facilities Agent.

## ITALY

### Distribution procedures

Different procedures may apply to Shares dealing in Italy (including but not limited to fees, charges and minimum investment amounts), as outlined in the Italian subscription form, to be read in conjunction with the present Prospectus.

Please note that additional costs may be imposed by intermediaries for services provided according to local distribution model, as per local regulatory requirements.

Investors may purchase Shares without single settlements (through e.g. saving plans) and may also grant mandate to the local paying agent in this respect. Further information is available in the Italian subscription form.

## JERSEY

### Registration and Supervision

The consent of the Jersey Financial Services Commission (the 'Commission') under the Control of Borrowing (Jersey) Order, 1958 (as amended) has been obtained to the circulation of the Prospectus. It must be distinctly understood that in giving this consent the Commission does not take any responsibility for the financial soundness of any schemes or for the correctness of any statements made or opinions expressed with regard to them. The Commission is protected by the Control of Borrowing (Jersey) Law, 1947, as amended, against liability arising from the discharge of its functions under that law.

## KOREA

It should be noted that a Partial Prospectus for investors in Korea exists. Such Partial Prospectus includes the country-specific information for Korea.

## MALTA

### Registration and Supervision

The Fund is an open-ended investment company incorporated in Luxembourg on 15 June 1990 and is regulated in Luxembourg (the Fund's home state) by the Supervisory Commission for the Financial Sector (Commission de Surveillance du Secteur Financier) and has a primary listing on the Luxembourg Stock Exchange.

In accordance with the EU UCITS Directive and Undertakings for Collective Investment in Transferable Securities and Management Companies Regulations, 2004 (Legal Notice 207 of 2004, as amended or replaced from time to time; with effect from the 1 July 2011 these have been replaced by the Investment Services Act (Marketing of UCITS) Regulations (Legal Notice 241 of 2011)), the Fund is authorised to market its Shares in Malta with respect to the following (categories of) funds as at the time of this Prospectus: Equity funds (except: Fidelity Funds – Asian Equity Fund, Fidelity Funds – China Opportunities Fund, Fidelity Funds – EURO STOXX 50™ Fund, Fidelity Funds – European Value Fund, Fidelity Funds - FIRST All Country World Fund, Fidelity Funds - FIRST Developed World Fund, Fidelity Funds – Global Demographics Fund, Fidelity Funds – Greater China Fund II); Equity Income funds (except: Fidelity Funds – Asia Pacific Dividend Fund, FF - Global Equity Income Fund); Assets Allocation Funds (except: Fidelity Funds - Fidelity Patrimoine, Fidelity Funds - Fidelity Selection Internationale), Multi Asset funds (except FF - Asia Pacific Multi Asset Growth & Income Fund, FF - Greater China Multi Asset Growth & Income Fund); Bond funds (except FF - Asian Total Return Bond Fund, FF - China High Yield Fund, FF - Emerging Market Corporate Debt Fund, FF - Emerging Market Local Currency Debt Fund, FF - Emerging Market Total Return Debt Fund, FF - Global Income Fund); Cash funds; Fidelity Lifestyle Funds; Institutional Reserved funds (except: Fidelity Funds - Institutional European Smaller Companies Fund, Fidelity Funds - Institutional Global Sector Fund).

Certain classes of Shares in funds that are authorised for marketing in Malta may not be available for distribution in Malta (in particular, C, D, E, J, P, SR and W Shares), and certain dealing currencies may not be available in respect of certain classes of Shares in such funds.

The information provided below includes details in relation to the facilities available to investors in Malta, and the procedures, which apply to dealing in Shares in the Fund. This information must be read in conjunction with the current Prospectus of the Fund, the most recent annual report and accounts and, if published thereafter, the most recent semi-annual report and accounts. Terms defined in the Prospectus have the same meaning in this country specific section for Malta.

### Representative in Malta

Growth Investments Ltd., Middle Sea House, Floriana FRN 1442, Malta (telephone +356-2123 4582) (the "Local Representative") has been appointed as the entity to provide the facilities for making payments to Shareholders, repurchasing or redeeming Shares and making available the information which the Fund is obliged to provide in Malta.

The Fund is promoted in Malta by the Local Representative.

### Documents Available for Inspection

The Fund's regulations and the Articles of Incorporation (as amended from time to time) may be inspected at the registered office of the Fund, the offices of the Distributors, and the Local Representative. Copies of the latest Prospectus, the latest KIIDs and the latest audited annual report and accounts and unaudited semi-annual report and accounts of the Fund may be obtained, free of charge, upon request, at the registered office of the Fund, the offices of the Distributors, the Local Representative's office, and from authorised financial intermediaries in Malta.

Complaints concerning the Fund may be lodged with the Local Representative for forwarding to the relevant company.

## Dealing Procedures

Investors may give instructions to the Local Representative or any of the Distributors listed in the Prospectus, the Head Office of the Fund, or to FIL Investments International at the following address:

FIL Investments International

Oakhill House  
130 Tonbridge Road  
Hildenborough  
Tonbridge  
Kent TN11 9DZ  
United Kingdom  
(Authorised and regulated in the UK by the Financial Conduct Authority)  
Telephone: (44) 1732 777377  
Fax: (44) 1732 777262

Investors must ensure that applications for purchases and subscriptions for Shares or dealing instructions are provided to the Local Representative, permitted Distributor or FIL Investments International in writing, in the form prescribed by the Local Representative or Distributor. Application forms are available from the Local Representative on request.

Shares may be purchased in any major freely convertible currency as set out in the Prospectus. Where the investor subscribes in a currency which differs from the Principal Dealing Currency of the relevant class, the subscription amount will be converted into the Principal Dealing Currency prior to investment. Similarly, sales proceeds may be received by the investor in any major freely convertible currency as set out in the Prospectus.

Contract notes will be issued, usually within 24 hours of the determination of the relevant prices and foreign exchange rates. Applications are normally processed on receipt of cleared funds. Full details are set out on the application form and in the Prospectus.

Investors may also apply to redeem shares and obtain payment through the Local Representative. Investors may also apply to the Local Representative for the payment of dividends that have been declared and are payable by the Fund.

## Publication of Prices

Details of the most recent dealing prices of Shares in the Fund may be obtained from the Local Representative.

## Taxation

The Directors are informed of the following general Maltese income tax implications for investors (excluding investors dealing in securities in the course of their normal trading activity), which implications are based on tax law and practice applicable at the date of the Scheme Particulars. This information does not constitute legal or tax advice and investors and prospective investors are urged to seek professional advice as regards tax legislation applicable to the acquisition, holding and disposal of Shares in the Fund (hereinafter 'Shares') as well as that applicable to distributions made by the Fund.

### General:

Maltese income tax is charged on a worldwide basis on income (including specified capital gains) of persons having both Maltese domicile and ordinary residence. Persons lacking any of these attributes are taxable on income (including capital gains) arising in Malta and on foreign source income received in Malta.

In general, the income tax rate for income (including dividends) and capital gains currently stands at 35% for companies (as defined in the Income Tax Act) and varies between 0% and 35% for other persons.

The tax regime for collective investment schemes is based on the classification of funds into prescribed or non-prescribed funds in terms of the conditions set out in the Collective Investment Schemes (Investment Income) Regulations, 2001 (as amended). In general a prescribed fund is defined as a resident fund which has declared that the value of its assets situated in Malta amount to at least 85% of the value of the total assets of the fund.

On the assumption that none of the Fund's funds would fall within the definition of a prescribed fund and that all the assets of the funds would not constitute Maltese assets, the Fund should in general not be taxable in Malta on its income/ gains arising from such non-Maltese assets.

### Shareholders:

Shareholders (both individual and corporate) who are both domiciled and ordinarily resident in Malta for tax purposes and who are in receipt of dividends from the Fund (whether these are reinvested or otherwise) should declare such income, which is chargeable to tax under Maltese law. Unless otherwise exempt, the same applies for persons having any one of these attributes missing, to the extent that dividends from the Fund are received by them in Malta. However the regulations specify that dividends distributed to Maltese resident Shareholders by a non-resident non-prescribed fund may qualify for a 15% withholding tax if the recipient of the dividends utilises the services of an authorised financial intermediary licensed under Maltese law in connection with the payment of the said dividends. Should all the relevant conditions be satisfied, the intermediary will have an obligation to withhold the tax at source and pass on such tax to the Government of Malta. No further tax would be charged on the dividends in such circumstances and a resident individual Shareholder would not even be obliged to declare the dividends in the income tax return. Where no such authorised financial intermediary exists or where the resident Shareholder requests the intermediary not to effect the deduction of the said 15% withholding tax, the investor would be required to declare the dividends in his income tax return and will be subject to tax at the normal rates.

Capital gains realised on transfers or redemptions by non-Maltese-residents (covered by the relevant exemption) of Shares in the Fund are exempt from Maltese income tax. Capital gains realised by resident Shareholders on the redemption, liquidation, or cancellation of Shares in non-prescribed funds may be subject to a 15% withholding tax where the transferor utilises the services of an authorised financial intermediary licensed in Malta in connection with the disposal of the said fund Shares. In that case and should all the relevant conditions be satisfied, the obligation to deduct such tax at source lies on the licensed authorised financial intermediary of the Fund. Where no such authorised financial intermediary exists or where the resident Shareholder requests the intermediary not to effect the deduction of the said 15% withholding tax, the Maltese-resident investor would be required to declare the capital gains in his income tax return and will be subject to tax at the normal rates. Switching of units from a non-prescribed fund to another fund of the Fund (or, subject to certain conditions, to a sub-fund of another collective investment scheme) constitutes a transfer for income tax purposes. However, the switching of units within the non prescribed funds of the Fund will not trigger any tax

at that point but the tax on any gains, if any, will continue to be calculated (and paid) at the final transfer of the units by reference to the cost of acquisition of the original units. Capital gains realised on direct transfers to third parties of securities in non-prescribed funds must be declared by the transferor in his tax return and tax is charged thereon at normal rates, so however that on an eventual redemption, the gain on redemption is calculated without reference to the direct intermediate transfer.

## THE NETHERLANDS

### Registration and Supervision

The information below describes the facilities available to investors who are resident in The Netherlands, and the procedures which apply to dealing in Shares. This information must be read in conjunction with the current Prospectus and latest KIIDs of the Fund, the most recent annual report and accounts, and, if published thereafter, the most recent semi-annual report and accounts. Terms defined in the Prospectus have the same meaning in the following information.

### Dealing Procedures

Dutch investors may place dealing instructions (either directly, or through their bank or intermediary) with FIL (Luxembourg) S.A. at the following address or, alternatively, with the Management Company at its registered address.

FIL (Luxembourg) S.A. is the Distributor for The Netherlands and acts as agent for the General Distributor, FIL Distributors.

All instructions can be addressed to the Distributor:

FIL (Luxembourg) S.A.  
2a, Rue Albert Borschette  
BP 2174  
L-1021 Luxembourg  
Telephone: (352) 250 404 1  
Fax: (352) 26 38 39 38

Investors should note that applications for the purchase of and subscription for Shares or dealing instructions are provided to the Distributor in writing, in the form prescribed by the Distributor. Application forms are available from the Distributor on request.

Investors may purchase Shares in any major freely convertible currency as set out in the Prospectus. Where the investor purchases Shares in a currency which differs from the Principal Dealing Currency of the relevant class, the investment amount will be converted into the Principal Dealing Currency prior to investment. Similarly, sales proceeds may be received by the investor in any major freely convertible currency.

### Taxation

The Directors of the Fund are informed of the following tax consequences for investors resident in The Netherlands.

- a) Corporate shareholders resident in The Netherlands subject to Dutch corporate income tax, will in principle be liable to Dutch corporate income tax in respect of income derived from the Shares at a rate of 25% (rate 2016), with a step up rate of 20% on the first Euro 200,000 of taxable income. That income includes amongst others dividends and other profit distributions received from the Fund, and capital gains realised upon disposal or redemption of the Shares.
- b) Certain institutional investors resident in The Netherlands (such as qualifying pension funds, charities, family foundations and tax exempt investment institutions ("VBI")) are, in principle, fully exempt from Dutch corporate income tax in respect of dividends and other profit distributions received from the Shares and capital gains realised on the disposal or redemption of Shares.
- c) Dutch investment institutions ('FBI') are subject to 0% Dutch corporate income tax and are obliged to value the Shares at fair market value.
- d) Unless the situations mentioned under e) and f) apply, the Shares held by individual Shareholders resident in The Netherlands will be deemed to generate an income of 4% of the fair market value of the Shares at the beginning of the calendar year. The deemed income will be taxed at a rate of 30%. Actual income from the Shares, such as dividends and capital gains, will as such not be subject to Dutch individual income tax. For completeness sake, please note that as of 1 January 2017, the applicable deemed return will no longer be a fixed rate of 4% but will depend on the amount of the holder's yield basis (*rendementsgrondslag*).
- e) As an exception to the tax treatment described under d) above, individual Shareholders who own or own the right to acquire (alone or together with their partner as defined in the Dutch Income Tax Act 2001) Shares which represent 5% or more of the issued and outstanding capital of (i) the Fund, (ii) a fund, or (iii) a separate class of Shares of a fund (a so called 'substantial interest') will be liable to tax at a rate of 25% (rate 2016) in respect of dividends and other profit distributions received from the Fund and capital gains realised on the disposal or redemption of the Shares. In addition, owners of a substantial interest in the Fund need to report a deemed income of 4% of the fair market value of the Shares (at the beginning of the calendar year) less actual income of the Shares (but not lower than nil) which will be taxed at a rate of 25% (rate 2016). Capital gains realised on the disposal or redemption of the Shares will be reduced with any deemed income that was taxed previously. Investors owning a 'substantial interest' are advised to seek professional advice as to the tax consequences related to their shareholding in the Fund.
- f) As an exception to the tax treatment described under d) and e) above, individual Shareholders resident in The Netherlands who carry on an enterprise or an independent activity to which the Shares are attributable, will in principle be liable to Dutch individual income tax at progressive rates of up to 52%. This includes among others dividends and other profit distributions made by the Fund, and capital gains realised upon disposal or redemption of the Shares.
- g) Investors should also read the taxation section of the Prospectus that describes additional tax consequences for investors. Investors should seek their own professional advice as to the tax consequences before investing in the Shares.

It should be noted that this information does not constitute legal or tax advice and investors and prospective investors are urged to seek professional advice as regards tax legislation applicable to the acquisition, holding and disposal of Shares as well as that applicable to distributions made by the Fund. The tax treatment as described in this section refers to the current law and practice as valid at the date of the Prospectus. Both, taxation law and practice, and the levels of taxation, are subject to future alteration, with or without retro-active effect.

### Publication of Prices

Details of the most recent dealing prices of Shares may be obtained from the Distributor.

## General

Further information about the Fund and the relevant dealing procedures may be obtained from the Management Company, 2a, Rue Albert Borschette, BP 2174, L-1021 Luxembourg.

## NORWAY

### Registration and Supervision

The Directive 2009/65/EC for marketing in certain Member States of the EU has been implemented in Norway by the Act of 25 November 2011 no. 44 and the Regulation of 21 December 2011 no. 1467. The Fund has been registered, and the circulation of the Prospectus has been authorised, by the Financial Supervisory Authority of Norway (Finanstilsynet).

The information below describes the facilities available to investors in Norway, and the procedures which apply to dealing in Shares in the Fund. Further information is also provided as to consequences of purchasing or holding and disposing of Shares. This information must be read in conjunction with the current Prospectus of the Fund. Terms defined in the Prospectus have the same meaning in the following information.

### Representative

The Fund has appointed FIL (Luxembourg) S.A. at the address below as a Distributor of Shares and as Representative of the Fund:

2a, Rue Albert Borschette  
BP 2174  
L-1021 Luxembourg

### Dealing Procedures

Application forms are available on request from the Representative in Luxembourg, the Management Company or any other Distributor listed in the Prospectus.

Further information about the Fund and the relevant dealing procedures may be obtained from any Distributor, the Representative of the Fund or the Sales Representatives.

### Publication of Prices

Details of the most recent prices of Shares in the Fund may be obtained from the Representative in Luxembourg. The Net Asset Value of the appropriate funds will also generally be published on a daily basis on the website <https://www.fidelityinternational.com/norway>.

### Taxation

The information given below does not constitute legal or tax advice and is not exhaustive. Existing or prospective investors should consult their own professional advisers as to the implications of their subscribing for acquisition, on holding, switching, redemption or disposal of shares under the laws of the jurisdiction in which they may be subject to tax. Furthermore, taxation laws and practices as well as the level of taxation are subject to future alteration.

The Directors of the Fund are informed of the following taxation consequences for individuals ('individuals') and companies ('companies') resident in Norway.

On condition that the Fund is regarded as tax resident and has sufficient substance in Luxembourg, investments in the Fund should be comprised by the Norwegian tax exemption rules to the extent the investment is classified as share investment as defined below. Each Norwegian investor should however seek to find out whether or not the investment will be subject to Norwegian tax.

- a) The taxation of investments in securities' funds held by Norwegian resident unit holders will depend on the classification of the fund's investments. Distributions from collective investment funds where more than 80% of the underlying investments are shares, are taxed as dividends. Distributions from collective investment funds where less than 20% of the underlying investments are shares, are taxed as interest income. Distributions from collective investment funds where the share portion of the underlying investment is between 20% and 80% will be split in one part which will be taxed as dividend and one part which will be taxed as interest income, calculated on a pro rata basis as defined in b).
- b) The share portion mentioned under (a) above of the underlying investment in the fund is calculated based on the ratio between the value of shares and other securities (e.g. bonds, derivatives, including derivatives with shares as underlying objects, and other debt instruments) at the beginning of the fiscal year. Cash is not taken into account when calculating the ratio between shares and other securities. For funds that have been established during the fiscal year, the share portion is calculated based on the ratio at the end of the fiscal year. Shares in underlying funds are included in the calculation with their respective proportionate part. If the underlying fund does not report its investments to the Norwegian tax authorities, the units held in underlying funds shall only be included in the calculation if they amount to more than 25% of the total value of the fund in question at the beginning of the fiscal year. Only shares that are owned directly by the underlying fund are included with a corresponding proportionate part. Investments that are owned by underlying funds further down than one level in the ownership chain are not taken into account.
- c) Lawful dividends on shares received by Norwegian resident corporate shareholders (defined as limited liability companies, savings banks and other self owned finance enterprises, mutual insurance companies, co-operatives, equity funds, associations, foundations, certain bankrupt estates and estates under administration, municipalities, county municipalities, intermunicipal companies, companies 100% owned by the Government, SE-companies and SE-co-operatives) should be comprised by the Norwegian tax exemption method. Shares etc. covered by the tax exemption method are shares in Norwegian limited liability companies, savings banks, mutual insurance companies, co-operatives, securities' funds and intermunicipal companies as well as shares in similar foreign companies. Distributions from securities' funds are covered by the tax exemption rules to the extent the distribution is classified as dividends from shares cf. (a) and (b) above. Exemptions from this basis are stated below.

- d) Investments in shares, etc. covered by the tax exemption method as defined under (c), made by companies covered by the Norwegian Insurance Business Act (Forsikringsvirksomhetsloven) related to the company's investment portfolio or collective portfolio are in general not covered by the tax exemption method.
- e) Lawful dividends on shares (as defined under c) above) received by Norwegian resident corporate shareholders from Norwegian resident entities (as referred to under c) above), are 97% tax exempt. All portfolio management expenses except for acquisition/sales costs, etc. related to exempt income from shares are fully tax deductible. In order to limit the benefit of these deductions, the tax exemption method is limited to 97% of the dividend income, with the remaining 3% taxable for Norwegian corporate shareholders (0.75% effective tax rate). An exemption from the 3% rule applies for dividends distributed within a tax group (i.e. where a parent company owns more than 90% of the shares and the voting rights, directly or indirectly, in the company and is actually established in an EEA State and carries out genuine economic business activity). For investments in EEA companies the 97% tax exemption for lawful dividends on shares will only apply if the foreign company invested into is not resident in a low-tax country. However, if the company is resident in a low-tax country, the 97% tax exemption will still apply if the Company is actually established in an EEA State and carries out genuine economic business activity there. It must be documented that these requirements are met. However, dividends on shares paid by Norwegian companies to taxpayers resident outside the EEA or taxpayers resident within the EEA not comprised by the tax exemption method, are subject to 25% withholding tax (WHT) if not exempted or reduced under an applicable Tax Treaty. If not covered by the tax exemption rules mentioned under (c), dividends from a foreign company to Norwegian resident corporate shareholders would be taxable at a rate of 25%. Dividends on shares as mentioned under (j) below to Norwegian corporate shareholders will consequently be taxable in Norway. Dividends received by Norwegian resident corporate shareholders on shares in NOKUS companies are not subject to taxation as long as the dividends paid fall within the NOKUS income which has already been subject to taxation, see under (r) below for further details.
- f) For individuals resident in Norway, only dividends (as defined under (c) above) received in excess of a calculated shield deduction (equal to the arithmetic average interest on Norwegian three months exchequer bills, after tax) multiplied with the cost price of the shares, previous years' unused shield deduction included, will be taxable at a rate of 25%. It is a condition for deduction of shield deduction that the dividends are paid out in accordance with the rules and regulations of the applicable corporate and accounting laws/regulations. The shield deduction is linked to the individual share. After the deduction of the shield deduction, the basis for taxation of the dividend is increased with an adjustment factor of 1.15, leaving the (effective dividend tax rate for individuals at 28.75% ( $25\% * 1.15$ )).
- g) Distributions classified as interest income according to (a) above are not comprised by the Norwegian participation exemption method and do not qualify for shield deductions. This means that interests received by Norwegian resident corporate shareholders and individuals resident in Norway from a fund are taxable at a rate of 25%.
- h) Capital gains made by Norwegian resident corporate shareholders on disposal, conversion or redemption of units in funds where 100% of the underlying investments are other securities than shares, are taxable (tax rate is 25%). Capital losses are in this situation deductible. The capital gain or loss is calculated as the difference between the cost price of the units (including costs related to the acquisition of the shares), and the sales price.
- i) Capital gains made by Norwegian resident corporate shareholders (as defined under (c) above) on disposal, conversion or redemption of units in funds where 100% of the underlying investments are shares (as defined under (c) above) should be tax exempt under the Norwegian participation exemption method. Capital gains on shares in companies resident in the EEA are comprised by the tax exemption if the company is not regarded as resident in a low-tax country. If the company is resident in a low-tax country, it would still qualify for the tax exemption method if the foreign company invested into is actually established in an EEA State and is actually established and carries out genuine economic business activity there. It must be documented that these requirements are met.
- j) Capital gains as mentioned under (i) above on shares in companies resident in low-tax countries outside the EEA, including (but not limited to) NOKUS companies (i.e. CFC companies), are, however, not covered by the Norwegian participation exemption method and are therefore taxable (tax rate is 25%). Consequently, any losses on such shares will be deductible. The same applies for capital gains and losses on portfolio investments in companies outside the EEA. For capital gains, a portfolio investment exists if the tax payer has not continuously in the last two years owned 10% or more of the capital and 10% or more of the voting rights at the general meeting. For losses, a portfolio investment exists if the taxpayer alone or together with any closely related persons has not owned 10% or more of the capital or 10% or more of the voting rights at the general meeting during the last two years.
- k) For Norwegian resident corporate shareholders in funds with both shares and other securities as underlying investments, the applicability of the Norwegian participation exemption method on capital gains is limited on a pro rata basis to the calculated share portion in the fund. The share portion is calculated based on the average between the share portion in the year of acquisition and in the year of sale. The share ratio in the year of acquisition and the year of sale is calculated based on the principles described under (b) above.
- l) Corporate shareholders as defined under (c) will not be allowed a deduction for losses to the extent capital gains would have been exempt.
- m) Capital gains or losses for other corporate entities than defined under (c), if taxable, are calculated as the difference between the cost price of the shares, (including costs related to the acquisition of the shares), and the sales price (tax rate is 25%).
- n) For individuals resident in Norway, only capital gains on disposal, conversion or redemption of units in excess of a calculated shield deduction (as defined under f) above) will be taxable at a rate of 25%. The shield deduction is only earned on investments in shares and on the share ratio in securities funds calculated in the year of the investment in the fund. The shield deduction can be deducted in the total capital gain on investment in securities funds, not just the portion of the gain that stems from shares. Unused shield deduction cannot exceed the capital gain and create or increase a tax deductible loss. The taxable capital gain will be the difference between the cost price of the units (including costs related to the acquisition of the shares) and the sales price. For the portion of the gain that is related to the fund's underlying investments consisting of shares, the basis for taxation of the gain – after the deduction of the shield deduction - is increased with an upwards adjustment factor of 1.15 and then taxed at a rate of 25 % (effective tax rate 28.75%).
- o) Individuals, and entities not covered by the tax exemption rules mentioned under (c), suffering a net loss from capital, e.g. as a result of a capital loss upon sale, switch, redemption etc. of shares, may claim a deduction in ordinary income (which is taxed at a rate of 25%), but not for gross tax purposes (gross tax applies only to individuals on income classified as salary).

- p) If a capital gain is taxable, the applicable tax rate is 25% and relates to all taxable persons (i.e. all types of companies and individuals).
- q) Most Norwegian institutional investors are taxed as corporate shareholders (see (c) above) with respect to dividends and capital gains on the disposal of shares. Some institutional and governmental investors are tax-exempt. In addition to be comprised by the Norwegian tax exemption method, Norwegian securities' funds are also comprised by a special tax rule whereby all capital gains on shares in non-EEA companies are tax exempt. Norwegian securities' funds do not have the right to deduct losses on disposal of shares in companies resident in countries outside the EEA.
- r) Each Norwegian investor should seek to find out whether the investment will be subject to Norwegian NOKUS taxation (CFC taxation). Norwegian residents (individual or company) will be taxed directly for their part in the foreign Company's/Fund's income if the company is located in a low-tax country, irrespective of whether any funds, etc. are distributed to the investor. A low-tax country in this respect is a country where the assessed income tax on the company's profits is less than two-thirds of assessed taxes calculated according to Norwegian tax rules as if the company had been located (resident) in Norway. A condition for such taxation is that 50% or more of the foreign company's shares or capital are owned or controlled, directly or indirectly, by Norwegian taxpayers (alone or together), based on ownership status at the beginning and end of the income year. Furthermore, if Norwegian taxpayers own or control more than 60% of the shares or capital at the end of the income year, Norwegian control exists irrespective of the level of control at the beginning of the year. Norwegian control ceases to exist if Norwegian taxpayers own or control less than 50% of the shares or capital at both the beginning and end of the income year, or less than 40% of the shares or capital at the end of the income year. In relation to umbrella funds it should be noted that the ownership requirement is calculated based on ownership at the level of the different sub-funds. On condition that Norway has signed a Tax Treaty with the country involved and the entity in question is covered by that Tax Treaty, the NOKUS rules will only be applicable if the income of the company in question is mainly of a passive nature. Furthermore, NOKUS taxation is prohibited if the company in question is actually established and carries out genuine business activity in an EEA State. The Norwegian rules in this respect are more or less in accordance with the "wholly artificial arrangement" statement of the ECJ's judgment in the Cadbury Schweppes case.
- s) Individuals (and estates of deceased persons) will have to pay net wealth tax based on their ownership in the Fund. The maximum tax rate is 0.85% (i.e. 0.15% state tax and 0.7% municipal tax). There is no net wealth tax for limited liability companies, securities funds, state-owned enterprises according to the State-owned Enterprise Act, intermunicipal companies and companies which somebody owns a part in or receives income from, when the responsibility for the companies' liabilities are limited to the companies' capital. Some institutional investors such as mutual insurance companies, savings banks, co-operatives, taxable pension funds, self-owned finance institutions and mortgage credit associations pay 0.15% net wealth tax. Otherwise, the maximum net wealth tax rate for a corporate body is 0.85%. Shares in limited liability companies and securities' funds are valued at 100% of the quoted value for net wealth tax purposes as of 1 January of the year after the relevant income year. If quoted both on Norwegian and foreign stock exchanges, the Norwegian quoted value will be applicable. If not quoted, the basis for taxation is the company's net assets for wealth tax purposes as per 1 January of the income year in question. The basis for taxation of not quoted shares in foreign companies is as a starting point the shares assumed market value as per 1 January of the assessment year.
- t) Investors should also read the taxation section in Part III of this Prospectus, which describes additional tax consequences for the Fund and its investors.

#### Documents Available for Inspection

The following documents are available for inspection free of charge during normal business hours on weekdays (Saturdays, Sundays and other public holidays excepted) at the registered office of the Fund. These documents, together with a translation of the Law of 2010, may also be inspected, free of charge, at the offices of the Distributors and of the Management Company.

- a) Articles of Incorporation of the Fund
- b) Management Company Services Agreement
- c) Depositary Agreement
- d) Distributors' Agreements
- e) Investment Management Agreement
- f) Services Agreement
- g) Paying Agency Agreement
- h) Hong Kong Representative's Agreement
- i) The KIIDs

The Agreements listed above may be amended from time to time by agreement between the parties thereto. Any such agreement on behalf of the Fund or the Management Company will be made by its Directors, except as noted in Appendix B under Management and Administration, Termination or Amendment.

The Articles of Incorporation (as amended from time to time) may also be inspected at the Sales Representatives.

Copies of the Prospectus, the latest KIIDs and the latest audited annual report and accounts and unaudited semi-annual report and accounts of the Fund may be obtained free of charge upon request from the registered office of the Fund, the offices of the Distributors and of the Management Company and the Sales Representatives.

### SINGAPORE

It should be noted that for investors in Singapore the Prospectus is accompanied by a Singapore supplementary prospectus. Such Singapore supplementary prospectus includes the country-specific information for Singapore.

### SOUTH AFRICA

#### Registration and Supervision

The Financial Services Board in South Africa ('the FSB') has duly approved the marketing of the Fund in South Africa. Stanlib Collective Investments Limited, (Reg No: 1969/003468/06), of 17 Melrose Boulevard, Melrose Arch, Johannesburg, 2196, South Africa is the representative of the Fund in South Africa.

The solicitation of investments in, and promotion of, any foreign collective investment scheme or fund in South Africa that has not been approved by the FSB is prohibited. Switching South African investors to another unapproved scheme or fund is also prohibited by the FSB.

The following funds are approved for distribution as at the time of this Prospectus: Fidelity Funds – America Fund, Fidelity Funds – Asian Special Situations Fund, Fidelity Funds – Emerging Markets Fund, Fidelity Funds – European Growth Fund, Fidelity Funds – International Fund, Fidelity Funds – Latin America Fund, Fidelity Funds – Pacific Fund, Fidelity Funds – United Kingdom Fund, Fidelity Funds – Global Health Care Fund and Fidelity Funds – World Fund.

### General

In addition to what is stated in the Prospectus, the current policy of the Fund in respect of the funds approved for distribution is as follows:

1. The funds may utilise derivative instruments, including but not restricted to option contracts, swaps and futures contracts, only for the purposes of Efficient Portfolio Management. Derivatives utilised may be either exchange-traded or traded over-the-counter. Derivative positions must be covered by assets within the portfolio of the funds.
2. The funds may not invest in a fund of funds or a feeder fund.
3. Scrip borrowing is allowed under the conditions provided in Part V, section 5.1. B.1. of the Prospectus.

### Important differences between South African collective investment schemes and the Fund

#### Ring-fencing of funds

In terms of South African legislation, the sub-funds of a South African collective investment scheme are ring-fenced. If the collective investment scheme is unable to meet liabilities attributable to any particular sub-fund out of the assets attributable to that sub-fund, the excess liabilities may not be met out of the assets attributable to the other sub-funds.

Article 181(6) of the Luxembourg law of 17 December 2010 concerning undertakings on collective investment provides that each compartment of an undertaking may be separately liquidated without such separate liquidation resulting in the liquidation of another compartment. Only the liquidation of the last remaining compartment of the UCI will result in the liquidation of the UCI.

#### Repurchases of units/shares

In terms of South African legislation and deeds, a South African collective investment scheme is required to repurchase units from the public at a price which has been calculated not more than 24 hours preceding the receipt of the application. Participatory interests are priced daily. Unit certificates are issued to investors on request.

The Fund is required to buy back Shares on demand and may only suspend trading under limited conditions as laid down by the constitutional document of the Fund. The Directors of the Fund may suspend the pricing, sale switch and repurchase of Shares of any class for any period of time under extreme market conditions as disclosed in Part II, 2.6. “Temporary Suspension of Determination of Net Asset Value and of the Issue, Switching and Redemption of Shares”) of the Prospectus.

#### Fund expenses

In terms of South African legislation, South African collective investment schemes are only allowed to deduct certain amounts from a portfolio, namely charges payable on the buying and selling of assets for the portfolio (such as brokerage, marketable securities tax, value-added tax or stamp duties), auditor’s fees, bank charges, trustee and depositary fees and other levies and taxes, share creation fees payable to the Registrar of Companies, and the agreed and disclosed service charges of the manager. The deed of a collective investment scheme must contain full disclosure of the charges (managers’ charges and service charges) that may be levied by the manager and the method of calculation of such charges. The manager must give investors not less than three months’ written notice of any change in the existing charges or the introduction of an additional charge that could result in an increase of charges for investors.

It is a practice in foreign collective investment schemes that the scheme carries additional expenses. These are set out in detail in Part IV, 4. “Administration Details, Charges and Expenses” of the Prospectus. This includes the amortisation or formation costs of the Fund.

#### Liquidity requirement/borrowing powers

In terms of South African legislation, South African collective investment schemes may only borrow funds where insufficient liquidity exists in a portfolio or where assets cannot be realised to repurchase or cancel participatory interests, in which event the manager may borrow the necessary funds for such repurchase or cancellation, on security of the assets and for the account of the portfolio in question, from a registered financial institution at the best commercial terms available and until assets can be realised to repay such a loan, provided that the maximum amount so borrowed may not exceed 10% of the market value of such portfolio at the time of borrowing.

The Fund is allowed at times to borrow up to 10% of the total value of the net assets of the Fund on a temporary basis to redeem Shares or for settlement of investment acquisitions pending receipt of subscription monies. See Part V, 5.1. “Investment Powers and Safeguards” of the Prospectus.

#### Capital adequacy requirement

In terms of the Collective Investment Scheme Control Act 45 of 2002 and the regulations promulgated thereunder, a manager may not be registered or be allowed to continue as manager unless at the time of registration and at all times thereafter (except where specifically exempted by the Registrar of Collective Investment Schemes) the manager has net assets in liquid form which exceed the minimum capital requirement. FIL Fund Management Limited, as the investment manager of the Fund, is not subject to any capital adequacy requirement.

#### Investment restrictions

The laws governing the investment guidelines of South African collective investment schemes are clearly set out in the Collective Investment Schemes Control Act 45 of 2002 (the “CISC Act”), the various regulations promulgated thereunder and the relevant deeds.

In terms of the CISC Act, a maximum of 10% of a fund may be invested in securities listed on an exchange which is not a full member of the World Federation of Exchanges or to which the due diligence guidelines prescribed by the Registrar have not been applied. Unlisted securities must be listed within 12 months of the purchase date or be disposed of. The investment restriction on an individual security in respect of equity funds is a maximum of 5% of fund if market capitalisation of company is less than R2 billion, otherwise it is 10%, or 120% of free float weighting in appropriate exchange index with an overall limit of 20% for general funds and 35% for specialist funds. The investment in non-equity securities (other than government issued

and listed securities) is limited. Such non-equity securities must be included subject to the conditions prescribed in terms of the CISC Act (which includes requirements as to the rating of the securities).

The general investment restrictions of the Fund are set out in full in Part V, 5.1. "Investment Powers and Safeguards" of the Prospectus, and set out the maximum exposure limits allowed in the Fund as to securities, debt, warrants, unlisted Shares, bonds etc. Investors are advised to refer to the investment objectives of the range of funds, as set out in Part I of the Prospectus, for full details of the applicable investment restrictions. However, the Fund is required to meet all the requirements of the European Community Directive 2009/65. This sets out in great detail the minimum requirements the Fund must comply with regarding investment restrictions. These are restrictive, are comparable to South African legislation, and in some cases are more restrictive than South African legislation.

#### **Reporting**

In terms of South African legislation, South African collective investment schemes report to investors on an annual basis.

#### **Distributions**

In terms of South African legislation, the income of South African collective investment schemes is distributed regularly and may be reinvested at the option of the investor by the issue of additional participatory interests.

#### **Derivatives**

For the purpose of Efficient Portfolio Management, the Fund may use various techniques, instruments and derivatives for the purposes of hedging and Efficient Portfolio Management. The use of these instruments for these purposes in managing the funds is regulated under Luxembourg and EU law.

The South African legislation in relation to such techniques and derivative investments is more stringent.

#### **Securities lending**

The Fund allows for security lending and borrowing, as set out in Part V, D. "Securities Lending and Borrowing" of the Prospectus.

Scrip lending by South African collective investment schemes is permitted up to 50% with limits on single borrower and subject to 105% collateral. Scrip borrowing and the pledging of securities is prohibited.

#### **Taxation**

##### **Investment in an offshore investment company**

South African residents are taxed on their worldwide income at the earliest of receipt or accrual of the income. South African residents include individuals that are ordinarily resident in South Africa or are physically present in South Africa for a minimum aggregate period in six successive years, and any trust, company or any other entity that is incorporated, established or formed in South Africa or that has its place of effective management in South Africa. A person exclusively resident in another jurisdiction in terms of a valid double tax convention between that state and South Africa is not a resident.

##### **Dividend and interest income**

Distributions by foreign companies are recognised as foreign dividends where such amounts are treated as dividend or similar payments in terms of the tax laws of the country in which the foreign company has its place of effective management. In the absence of tax laws, the distribution is a foreign dividend if treated as such by the company law of the jurisdiction in which the company is incorporated.

Foreign dividends (save for limited exemptions) are generally taxable in South Africa as part of a South African resident's taxable income. A foreign dividend will qualify for an exemption under the general participation exemption if the recipient of the dividend, together with any company forming part of the same group of companies, holds at least 10% of the equity shares and voting rights in the foreign company declaring the dividend (this exemption is denied unless the dividend is paid in respect of an equity share in the foreign company). Foreign dividends received or accrued to any person in relation to any participatory interest in a "collective investment scheme" carried on outside of South Africa are denied exemption under the general participation exemption available to persons holding not less than 10% in a non-South African resident company. Foreign dividends not qualifying for the general participation exemption should however qualify for the general dividend exemption that is available to individuals and companies, whereby the effective tax rate on dividends is reduced to a maximum of 15%.

It is important to note that the above participation exemption and general dividend exemption will not apply to any foreign dividends distributed to a person in respect of services rendered or to be rendered by that person by virtue of employment or the holding of any office (other than a foreign dividend distributed in respect of a "restricted equity instrument" (as defined)).

Dividends from South African resident companies may be subject to a withholding tax of 15% if paid to a South African resident shareholder, other than a company or certain specified exempt institutions. Dividends from a South African company, or foreign dividends declared by a non-South African resident company out of profits that have been or will be subject to tax in South Africa, are exempt from normal tax in the hands of South African recipients (i.e. are not included in taxable income).

Foreign dividends received or accrued from hybrid equity instruments (as defined) on or after 1 April 2012, or which became such an instrument after such date, shall be deemed to be an amount of income (hence subject to tax without exemption) in the recipient's hands and therefore included in the recipient's gross income.

Any interest received by or accrued to a South African resident or which is deemed to have accrued to a South African resident, is likely to be taxable in South Africa.

##### **Accumulation of income**

Where the underlying income of the Fund is rolled up and not distributed, the South African resident investor will not be in receipt of any foreign dividends. Accordingly, no South African income tax liability will arise in the hands of a South African resident until such time as a distribution or deemed distribution takes place.

##### **Sale of Shares to third parties**

The 'gross income' definition contained in the South African Income Tax Act provides a starting point for the determination of any person's taxable income. The definition of 'gross income' for South African tax residents refers to the total amount, whether in cash or otherwise, received by or accrued to or in favour of any resident, excluding such receipt or accruals of a capital nature. The definition of 'gross income' for non South African tax residents refers to the total amount, whether in cash or otherwise, received by or accrued to or in favour of such person from a source or deemed source within South Africa, excluding such receipt or accruals of a capital nature.

Accordingly, each individual investor would be required to determine whether the receipt or accrual, arising from a disposal or redemption is of a capital nature or not. This cannot be determined without reference to the individual circumstances of the resident.

Any amount received or accrued to an investor as a result of the disposal by that investor of a qualifying share (as defined) will, subject to certain exemptions, be deemed to be of a capital nature.

Capital gains on the disposal of shares in a "foreign company" to a non-South African tax resident by a person who holds (whether alone or together with any other person forming part of the same group of companies as that person) at least 10% of the equity share capital and voting rights, and has held such an interest for a period of not less than 18 months are exempt from capital gains tax (save for limited exemptions), provided that the disposal is to a person who is not a resident (other than a company which is a controlled foreign company (as defined), or any person that is a connected person in relation to the person disposing of that interest). This exemption from capital gains tax shall not apply to *inter alia* the disposal of any interest in the equity share capital of a "collective investment scheme" carried on outside of South Africa.

If the proceeds on disposal are of a revenue nature, the investor will be taxed on the total amount at the rate of taxation applicable to that investor. If the receipt is of capital nature, individual investors will pay normal income tax on 33.3% of the net capital gain (being the amount by which their aggregate capital gains exceed their aggregate capital losses), and corporate investors and trust investors will pay normal income tax on 66.6% of the net capital gain on disposal (provided no exemptions apply). The Minister of Finance announced in the Annual Budget Speech held on the 24<sup>th</sup> of February 2016 that the inclusion rate for capital gains will increase to 40% for individual investors, and 80% for corporate and trust investors. It is expected that the increased capital gain inclusion rates will apply in respect of all disposals taking place on / after 1 March 2016.

The capital gain or loss arising on the disposal of an asset is calculated by deducting the base cost of the asset from the proceeds received or which accrued in respect of the disposal. Where an asset is disposed of and the consideration includes an amount that cannot be quantified, then so much of the consideration that cannot be quantified will be treated as not having accrued to the investor until such date that the amount is quantifiable.

Similarly, when determining the capital gains or losses (if any) in respect of assets disposed of, where all the proceeds do not accrue to the seller in the same year of assessment, capital losses on such disposals will be deferred until the full proceeds accrue. Capital losses may be deducted from subsequent capital gains on the disposal of assets when the proceeds in relation to that asset accrue or when it can be shown that no further proceeds will accrue.

The investment falls within the definition of a foreign equity instrument, with the result that any exchange gain in respect of such an investment will be taxable as part of the capital gain on disposal.

#### Redemption of Shares and Share buy-backs

Any amount that is paid or payable by a foreign company in respect of any share, is recognized as a foreign return of capital where such amount is treated as a distribution or similar payment other than a foreign dividend in terms of the tax laws of the country in which the foreign company has its place of effective management, or where there are no tax laws, by the company law of the country in which the company is incorporated. An amount cannot be regarded as a foreign return of capital if it is deductible by a foreign company in terms of its foreign tax law.

Where a foreign return of capital takes place, the amount accruing to the shareholder must be applied in reduction of the base cost of the investment. In the event that the foreign return of capital exceeds the expenditure incurred in respect of the acquisition of the shares to which the foreign return relates, the excess must be treated as a capital gain during the year of assessment in which the foreign return of capital is received or accrued (whichever is earlier), subject to a participation exemption similar to a full redemption mentioned below.

A foreign return of capital arising from a full redemption of an investor's shares is likely to be regarded as a disposal event, and should qualify for a participation exemption provided that the investor holds at least 10% of the equity share capital and voting rights of the company. This exemption from capital gains tax shall not apply to *inter alia* the disposal of any interest in the equity share capital of a "collective investment scheme" carried on outside of South Africa.

Receipts or accruals which do not constitute foreign returns of capital (as defined) or foreign dividends (as defined) are not specifically dealt with in the South African Income Tax Act, 58 of 1962. The general rules pertaining to receipts and accruals will therefore apply to such amounts.

Share buy backs should qualify for a participation exemption provided that the investor holds at least 10% of the equity share capital and voting rights of the company, and has held such interest for a period of 18 months, provided that the share buy back is from a person who is not a resident (other than a company which is a controlled foreign company (as defined), or any person that is a connected person in relation to the person disposing of that interest). This exemption from capital gains tax shall not apply to *inter alia* the disposal of any interest in the equity share capital of a "collective investment scheme" carried on outside of South Africa.

**NOTE: This summary of the tax consequences for South African investors briefly sets out the tax position as at 4 March 2016 and is for information only. It should be noted that no proposed amendments to the South Africa Income Tax Act has been included in the above description of the South African tax position. Investors should consult their own tax advisors in relation to an investment in the Fund as the individual circumstances of each investor will determine the full tax consequences of any investment in the Fund.**

## SWEDEN

### Registration and Supervision

The Fund is an open-ended investment company incorporated in Luxembourg on 15 June 1990.

By virtue of rulings of the Swedish Financial Supervisory Authority (Finansinspektionen) dated 18 December 1995 and 27 October 2005, the Fund is authorised to sell its Shares to members of the public in Sweden.

The information below describes the facilities available to investors resident in Sweden and the procedures which apply to dealing in Shares in the Fund. This information must be read in conjunction with the current Prospectus of the Fund, the most recent annual report and accounts and, if published thereafter, the most recent semi-annual report and accounts. Amendments to the Prospectus, the Fund's regulations or to the Articles of Incorporation, or any other information will be held available at the offices of the Representative. Material amendments to the Prospectus, the Fund's regulations or to the Articles of Incorporation will be filed with the Swedish Financial Supervisory Authority.

### Representative

The management of the Fund has appointed Svenska Handelsbanken AB, Blasieholmstorg 12, SE-106 70 Stockholm, Sweden, as the Representative for the Fund in Sweden. The Paying Agency, the place of performance and court of law have been substantiated at the Representative's registered office as regards the Shares distributed in Sweden.

### Dealing Procedures

Investors may give instructions (directly, or through their bank or other financial representative) to the Representative or any of the Distributors listed in the Prospectus, or to the head office of the Management Company. Investors may also apply to redeem Shares and obtain payment through the Representative.

FIL (Luxembourg) S.A. is the Distributor for Sweden and acts as agent for the General Distributor, FIL Distributors. All instructions can be addressed to the Representative or to FIL (Luxembourg) S.A. at the address given below:

2a, Rue Albert Borschette  
BP 2174  
L-1021 Luxembourg  
Telephone: (352) 250404 1  
Fax: (352) 26 38 39 38.

Investors should bear in mind that applications for the acquisition of Shares or instructions to change from one category of Share to another should be delivered in writing to the Representative or Distributor and in the form prescribed by the Representative or Distributor.

Application forms may be obtained in Sweden on request from the Representative or the Distributor. Investors may apply for Shares in any major freely convertible currency. Where the investor deals in a currency which differs from the Principal Dealing Currency of the relevant class, the investment amount will be converted into the Principal Dealing Currency prior to purchase. Similarly, sales proceeds may be received by the investor in other major freely convertible currency as set out in the Prospectus.

Further information concerning the Fund and procedures for application and redemption may be obtained from a Distributor or the Representative in Sweden.

### Publication of Prices

Prices for Shares of the Fund may be obtained from any Distributor or from the Representative in Sweden. Shares are listed on the Luxembourg Stock Exchange. The Net Asset Values of the appropriate funds will generally be published with the mention 'plus charges' in Dagens Industri at least twice a month.

### Taxation

The Directors of the Fund are informed of the following summary of certain Swedish tax consequences related to the holding of Shares for individuals and limited liability companies resident in Sweden for tax purposes. The summary is intended to provide general information only. The summary does not cover income tax issues in cases where the Shares are held as current assets in business operations or by a partnership. The tax treatment for investors depends in part on their particular situation. Before investing in Shares of the Fund, each investor should consult a professional tax advisor as to the tax consequences relating to their particular circumstances resulting from holding the Shares.

- a) For individuals, dividends declared in respect of Shares and such capital gains as are made upon the disposal, conversion or redemption of Shares are classified as capital income and are taxed at a rate of 30%. It should be noted that the switch of Shares in one fund into Shares in another fund is treated as a disposal of Shares.
- b) For individuals, capital losses on listed securities that are taxed as stock may as a general rule be fully deducted from capital gains on all listed securities that are taxed as stock and from capital gains on unlisted stock. 70% of a loss in excess of such gains may be deducted from other capital income. If a net loss should arise in the capital income category in a given year, such net loss may reduce the tax on income from employment and business operations as well as property tax. This tax reduction is granted at 30% of the net loss that does not exceed SEK 100,000 and at 21% of the net loss for any remaining part. Net losses not absorbed by these tax reductions cannot be carried forward to future tax years.
- c) For limited liability companies, all income is attributable to the category of business operations and is taxed at a rate of 22%. Please see a) above regarding taxable events.
- d) For limited liability companies, capital losses on Shares, which are held as capital investments, may only be deducted from capital gains on securities that are taxed as stock. Capital losses not deducted from such gains may be carried forward to reduce such capital gains in future tax periods without limitations in time.
- e) Individual as well as corporate investors have to include a notional income in their tax returns based on the value of their fund investments. The notional income is 0.4% of the value of the fund units at the beginning of the calendar year. The notional income will be taxed at the investment income rate of 30% for individuals and 22% for corporate investors.
- f) An elective regime for taxation of capital gains and dividend distributions of individuals may be applied. For assets deposited in an investment savings account ("investeringssparkonto") there is no taxation of gains and dividends. Instead, the account holder has to declare a notional income based on the average value of the account during the year. The notional income is tied to the interest rate on government bonds at the end of November in the previous year. For 2016 the notional income is 1.4%. The notional income is taxed at the investment income rate of 30%.

For individuals who elect to apply this regime items a) and b) above will not apply. Further, they will not declare the notional income described in e) above.

- g) Specific tax consequences may be applicable to certain categories of companies, e.g. investment companies.
- h) Investors should also read the taxation section in the Prospectus, which describes additional tax consequences for investors. Investors should seek their own professional advice as to the tax consequences before investing in Shares in the Fund. Taxation law and practices, and the levels of taxation, are subject to future alteration.

### Documents Available for Inspection

The Articles of Incorporation (as amended from time to time) may be inspected at the registered office of the Fund, the offices of the Distributors, the Management Company and of the Representative in Sweden. Copies of the Prospectus, the latest KIIDs and the latest audited annual report and accounts and unaudited semi-annual report and accounts of the Fund may be obtained

free of charge upon request from the registered office of the Fund, the offices of the Distributors, the Management Company and of the Representative in Sweden.

## TAIWAN

It should be noted that a Partial Prospectus for investors in Taiwan exists. Such Partial Prospectus includes the country-specific information for Taiwan.

## UNITED KINGDOM

### Registration and Supervision

The Fund is recognised under the provisions of Section 264 of the Financial Services and Markets Act 2000. Investors should note that transactions in or a holding of Shares in the Fund, will not be covered by the provisions of the Financial Services Compensation Scheme, nor by any similar scheme in Luxembourg.

The Prospectus must be read in conjunction with the KIID. Together these constitute a direct offer financial promotion and a UK investor applying for Shares in response only to these documents will not have any right to cancel or withdraw that application under the provisions dealing with cancellation and withdrawal set out in the Conduct of Business Sourcebook issued by the UK Financial Conduct Authority if such an application is accepted by the UK Distributors (as defined below). No rights of cancellation arise when dealing direct with the Management Company or with any other Distributor. Cancellation Rights are granted in accordance with FCA Rules for applications made through regulated intermediaries.

The Prospectus, the KIIDs and this information shall be made available in the United Kingdom by FIL Investments International, authorised and regulated by the Financial Conduct Authority.

### Representative in the UK

The Management Company, on behalf of the Fund has appointed FIL Investments International as the UK Representative of the Fund. FIL Investments International is authorised and regulated by the Financial Conduct Authority.

Complaints concerning the Fund may be lodged with the UK Representative for forwarding to the Fund.

### Dealing Procedures

For all UK retail clients the Global Distributor has appointed Financial Administration Services Limited to act as Distributor of Shares of the Fund. Financial Administration Services Limited is authorised and regulated in the UK by the Financial Conduct Authority.

For UK investors other than retail investors the Global Distributor has appointed FIL Investments International to act as Distributor of Shares of the Fund within the UK.

FIL Investments International  
Oakhill House  
130 Tonbridge Road  
Hildenborough  
Kent TN11 9DZ

Financial Administration Services Limited  
Oakhill House  
130 Tonbridge Road  
Hildenborough  
Kent TN11 9DZ

Telephone: 0800 414181 (Professional Advisors)  
Fax: 01732 777262

(44) 1732 777377  
(44) 1732 777262

For the purposes of this section 'United Kingdom', Financial Administration Services Limited and FIL Investments International will individually or jointly be referred to as "UK Distributor" or "UK Distributors".

Applications to subscribe for, redeem or switch Shares may be placed with Financial Administration Services Limited by UK retail investors or with FIL Investments International by UK investors other than UK retail investors either in writing or (subject to the restriction that the investor's first subscription must be made on an application form) by telephone at the above address. An investor may also place instructions using facsimile, where an appropriate authority (contained on the application form) has been received. Application forms are available on request from the UK Distributors.

A description of how an investor may purchase, switch or sell Shares in the Fund and the relevant settlement procedures is contained in the application form. All dealing in Shares will be on a forward pricing basis. That is, subject to any temporary suspension of dealing in Shares, applications to subscribe for, switch or redeem Shares received by the UK Distributors on a day that they are open for business before 5.00 pm (UK time), or 12 noon for funds with non-standard dealing cut-off time, on a Valuation Date will be effected that day using the prices at the next calculated Net Asset Value (together with the appropriate sales or switch fee).

Investors may place orders for Shares in Pounds Sterling or in another major freely convertible currency as set out in the Prospectus. Where the investor deals in a currency which differs from the Principal Dealing Currency of the relevant class, the investment amount will be converted into the Principal Dealing Currency prior to purchase. Similarly, redemption proceeds may be received by the investor in Pounds Sterling or other major freely convertible currency. A savings plan is available to UK investors with a minimum monthly subscription of GBP 50 payable by direct debit. Further details are available on request.

Foreign exchange transactions in respect of such deals will normally be placed on the same UK Business Day of receipt of the instructions.

Contract notes will be issued, usually within 24 hours of the determination of the relevant prices and foreign exchange rates.

Further information about the Fund and the relevant dealing procedures may be obtained from the UK Distributors.

### Publication of Prices

Details of the most recent prices of Shares in the Fund may be obtained from the UK Distributors. The Net Asset Values of the appropriate funds are published in such manner as decided from time to time by the Directors.

### Taxation

The summary below is intended only as a general guide for potential investors and does not constitute tax advice. Intending investors are strongly advised to seek independent professional advice concerning possible taxation or other considerations that may be relevant to their particular circumstances. Potential investors should note that the following information relates only to

United Kingdom taxation and is based on advice received by the Directors regarding current law and practice. It is therefore subject to any subsequent changes.

The Directors of the Fund are informed of the following general taxation consequences for investors resident in the United Kingdom and subject to UK tax:

- a) The Offshore Funds (Tax) Regulations 2009 (as amended) (“the Regulations”) provide that if an investor resident in the UK for taxation purposes holds an interest in an offshore fund, and the fund is not certified as a ‘reporting fund’ for the entire period in which the investor holds that interest, any gain (calculated without the benefit of indexation) accruing to the investor upon sale or other disposal of the interest (including a disposal pursuant to a switch transaction) will be taxed as income and not as a capital gain. Investors (or their advisors) should now use the “Statutory Residence Test” to determine whether the individual is resident in the tax for UK tax purposes.
- b) Section 355 TIOPA (Taxation (International and Other Provisions) Act 2010) defines the term “offshore fund” for the purposes of applying the Regulations. For these purposes, each of the constituent funds and Share classes of the Fund will be regarded as a separate offshore fund. Accordingly, the different funds and/or Share classes of the Fund must each obtain “reporting fund” status in their own right.
- c) HM Revenue & Customs (‘HMRC’) have granted ‘UK reporting fund’ status, for the purposes of the Offshore Funds (Tax) Regulations 2009 (as amended), in respect of all funds and Share classes of the Fund which are registered in the United Kingdom beginning with the accounting period commencing 1 May 2010, or, if later, the date on which the fund / Share class was first registered for distribution to UK resident Shareholders. This regime replaced a previous regime under which all funds and Share classes of the Fund registered in the UK obtained “distributing fund” status for periods up to and including the year ending 30 April 2010 (see also e) below). Please note there can be no guarantee that these funds or Share classes will remain so certified, however, once reporting fund status has been obtained from HMRC for each fund / Share class, it remains in place for all subsequent periods provided that the annual reporting requirements set out in the Regulations are satisfied. The Directors undertake to operate the Fund in a manner that will enable the relevant funds / Share classes to comply with the annual requirements under the UK reporting fund regime.
- d) Under the Regulations, all “reporting funds” are required to disclose annually to investors and HMRC the “total reportable income” arising in each certified fund / Share class in order to maintain “reporting fund” status. UK resident Shareholders who hold their interests at the end of the reporting period to which the reported income relates will be subject to income tax or corporation tax on the higher of any cash distribution paid and the full reported amount for the relevant funds or Share classes held. Please note that the tax point for investors in relation to the excess reportable income over cash distributions is 6 months following the end of the fund’s accounting period.
- e) For shareholders that held an interest in one or more funds during the accounting periods up to and including the period ending 30 April 2010, “reporting fund” certification will apply in accordance with the transitional provisions in the Regulations, which cover those funds previously certified as “distributing funds” for UK tax purposes. Specifically, the distributing funds and Share classes of the Fund which are registered in the UK and which have been certified for all accounting periods up to 30 April 2010 as “distributing funds” will be treated as having obtained “reporting fund” status for these periods for the purposes of applying the Regulations. Shareholders who have held interests in funds / Share classes not previously certified as ‘distributing funds’ for UK tax purposes will be regarded as holding interests in ‘non-reporting offshore funds’ for the purposes of the Regulations and, as such, will be subject to income tax or corporation tax on any ‘offshore income gain’ subsequently arising on disposal of those interests.
- f) Shareholders may however elect under regulation 48(2) of the Regulations to make a deemed disposal and immediate reacquisition of their interest in any such fund / Share class on the first day of the first accounting period for which that fund / Share class has been certified as a ‘reporting fund’ for UK tax purposes. The Shareholder will then be subject to income tax or corporation tax on the offshore income gain arising at that point. Any future gain on the relevant interest will be treated as a capital gain for UK tax purposes provided the relevant fund / Share class maintains its ‘reporting fund’ status. This election must be made by being included in a return made for the tax year (or for corporate investors the accounting period) which includes the final day of the last period before the fund became a Reporting Fund.
- g) Subject to paragraph (a) above, capital gains arising on a disposal of Shares by individuals will be liable to capital gains tax if together with other net gains, they exceed the annual exemption, which is GBP 11,100 for the fiscal year ended 5 April 2016. The applicable rate of capital gains tax for non corporate investors is currently a flat rate of 18% for basic rate taxpayers and 28% for higher / additional rate income tax payers. In the case of companies generally, gains arising on a disposal of Shares (after indexation allowance), will be liable to corporation tax. The mainstream rate of corporation tax is currently 23%, falling to 21% and then 20%, reducing to 19% from 1 April 2017 and to 18% from 1 April 2018. Tax rates may be different for subsequent financial years.
- h) Dividends received by Shareholders liable to UK income tax or reinvested on their behalf in further Shares, or reported income in excess of the dividends received by Shareholders, received from corporate offshore funds which are largely invested in equities will be charged to income tax as dividends from a non-UK resident company. These income receipts should be declared on the investor’s tax return and will be taxable at the applicable rate of income tax. The rate will be 10% where net income (from all sources) is less than GBP 31,785 for the fiscal year ended 5 April 2016. Where net income exceeds GBP 31,785 for the relevant year, the rate will be 32.5%. Where net income exceeds GBP 150,000 for the fiscal year, distributions will be subject to tax at 37.5%.
- i) Up until 5 April 2016 individual Shareholders resident in the UK will generally benefit from a non-refundable tax credit in respect of dividends received from corporate offshore funds which are largely invested in equities. The effect of this notional tax credit is that dividends will be deemed to be received net of a 10% withholding such that basic rate taxpayers suffer no further tax on the actual amount distributed. Higher rate taxpayers will be taxed on all UK and foreign dividend distributions at a rate of 32.5%, which equates to 25% of the actual distribution received after applying the notional credit. Persons with taxable income over GBP 150,000 will be subject to income tax on all UK and foreign dividends at 37.5%, which equates to 30.56% of the actual distribution, after applying the notional tax credit. From 6 April 2016, the 10% non refundable tax credit will be replaced by a new £5,000 tax-free dividend allowance and the new rates of tax on dividend income above the allowance will be 7.5% for basic rate taxpayers, 32.5% for higher rate taxpayers and 38.1% for additional rate taxpayers.
- j) It should be noted that, where 60% or more of the fund assets are invested in interest-bearing products, individuals receiving distributions and/or reported income will be treated for UK tax purposes as having received interest income and not a dividend. This will mean that the applicable tax rates will be those for interest income currently 0% starting rate (applies to savings income only, up to income up to £5,000 for the fiscal years ending 5 April 2016); 20% basic rate; 40% higher rate; and the 45%

- additional rate introduced for taxable income over GBP 150,000) and that no tax credit will apply. It will be noted in the report to investors where a specific fund is to be regarded as a 'bond fund' for UK tax purposes such that the above treatment will apply.
- k) Income equalisation arrangements operate in respect of all Share classes in all fund ranges. As a result, except where noted, it is expected that for distributions or reportable income received from 1 May 2010 Shareholders resident in the United Kingdom for taxation purposes should not be liable to tax on the first distribution or reported income allocated to them after the issue of Shares, to the extent that there is any equalisation amount reported to them which represents income accrued at the date of subscription; such equalisation amount will instead be deducted from the base cost of their Shares.
  - l) Individual Shareholders resident in the UK should note the provisions of Chapter 2 of Part 13 of the Income Tax Act 2007. These provisions are directed to the prevention of avoidance of income tax through transactions resulting in the transfer of assets or income to persons (including companies) resident or domiciled outside the UK and may render them liable to taxation in respect of any undistributed income and profits of the Fund on an annual basis. In view of the income distribution and reporting policy of the Fund, it is not anticipated that these provisions will have any material effect on UK resident individual Shareholders. This legislation is not directed towards the taxation of capital gains.
  - m) The attention of investors resident in the UK (and who, if individuals, are also domiciled in the UK for those purposes) is also drawn to the provisions of Section 13 of Taxation of Chargeable Gains Act 1992 ('Section 13'). Under these provisions, where a chargeable gain accrues to a company that is not resident in the UK, but which would be a close company if it were resident in the UK, a person may be treated as though a proportional part of that chargeable gain, calculated by reference to their interest in the company, has accrued to them. No liability under Section 13 can be incurred by such a person, however, where such proportion does not exceed one-quarter of the gain.
  - n) Dividends received by Shareholders subject to UK corporation tax or reinvested on their behalf in further Shares, will be treated as income receipts. For Shareholders subject to UK corporation tax, most forms of overseas dividends will be exempt from the charge to UK corporation tax provided they fall within one of the exempt classes of distributions listed in Part 9A of the Corporation Tax Act 2009. The attention of corporate Shareholders is drawn to Chapter 3 of Part 6 of the Corporation Tax Act 2009, whereby relevant interests of companies in offshore funds may be deemed to constitute a loan relationship with the consequence that all profits and losses on such relevant interests are chargeable to corporation tax in accordance with a fair value basis of accounting. The relevant provisions apply where the market value of interest bearing securities and other qualifying investments of a fund comprises more than 60% of the value of all the investments of that fund at any time during an accounting period.
  - o) Corporate Shareholders resident in the UK should note that Part 9A of TIOPA 2010 introduced an extensive reform of the UK controlled foreign companies ("CFC") rules, which may affect UK Corporate Shareholders in the Fund if certain conditions are met. These provisions may subject UK resident companies to corporation tax on profits of non-resident companies, controlled by persons resident in the UK, in which they have a 'relevant interest'. If a company falls within the definition of a CFC, the attribution of chargeable profits to UK corporate investors will be determined to the extent that chargeable profits cannot be reduced through any of the available exemptions. The risk of falling within the scope of the UK CFC regime will depend largely on the composition of Shareholders in the Fund and any UK Corporate Shareholders concerned about the application of these provisions to their interest in the Fund should seek independent advice.
  - p) Investors who are insurance companies within the charge to United Kingdom corporation taxation holding their Shares in the Fund for the purposes of their long-term business (other than pension business) will be deemed to dispose of and immediately reacquire those Shares at the end of each accounting period.
  - q) Investors should also read the taxation section in Part III of the Prospectus which describes additional tax consequences for investors. Shareholders should seek their own professional advice as to the tax consequences before investing in Shares in the Fund. Taxation law and practice, and the levels of taxation, are subject to future alteration.

#### Documents Available for Inspection

The Articles of Incorporation of the Fund (as amended from time to time), together with other documents listed in Part I, 1. "Fund Information" in the Prospectus may be inspected free of charge on weekdays (excluding public holidays) during normal business hours at the registered office of the Fund, and at the offices of the UK Distributors. Further copies of the Prospectus, the latest KIIDs and the latest audited annual report and accounts and unaudited semi-annual report and accounts of the Fund may be obtained free of charge upon request from the registered office of the Fund and the offices of the UK Distributors and of the Management Company.

#### Commissions/Charges

The price of Shares in the Fund will consist of the Net Asset Value of the Shares for the relevant fund plus an initial charge per share class as described in 2.1. "Classes of Shares" in Part II of the Prospectus. On a switch, a fee will be charged of up to 1.00% of the Net Asset Value of the Shares to be issued. Please refer to 2.2.3. "How to Switch" in Part II of the Prospectus for full details.

However, instead of the above initial charge Financial Administration Services Limited may apply a service fee. Further details will be given in the application form.

Part or all of the initial charge may be used by the UK Distributors to remunerate intermediaries through which Shares are purchased at a rate not exceeding the rate of the initial charge. When an investment is switched from one fund to another, commission at a rate not exceeding the switch fee may be paid to the regulated intermediary concerned. An ongoing commission may also be payable to intermediaries based on the value of your holding. Your intermediary will give you full details on request.

Further information about the Fund and the relevant dealing procedures may be obtained from the UK Distributors.

## APPENDIX II

### LIST OF SHARE CLASSES

The list of Share classes and the related information below is valid as at 3 August 2017. Such list may be updated from time to time. A complete list of all available Share classes may be obtained, free of charge and upon request, from the registered office of the Fund in Luxembourg.

Investors should verify whether Shares they are interested in buying are registered for public distribution in their jurisdiction.

## APPENDIX III

Information contained in Appendix III is valid as at 29 August 2017 and will be reviewed each time this Prospectus will be updated. The Appendix shows the maximum and expected use of securities lending transactions, repurchase and reverse repurchase agreements and TRS/CFDs.

The expected %age of the NAV per fund to use securities lending transactions, repurchase and reverse repurchase agreements and TRS/CFD transactions is in line with the current investment objective of each fund outlined in this Prospectus. The expected % age is not a limit and may fluctuate between 0% and the maximum % age due to factors including, but not limited to, market conditions.

In the event that the %age of the NAV per fund to use securities lending transactions repurchase and reverse repurchase agreements and TRS/CFD transactions changes, the relevant investment objective will be updated accordingly.

Fund Name	CFDs		TRS		Securities Lending*		Repurchase and reverse repurchase agreements*
