# Notes to the Financial Statements

## 1. General

The Company is an open-ended investment company and was incorporated in Luxembourg as a SICAV (société d'investissement à capital variable) on 15 June 1990. The Company is a SICAV under part I of the Luxembourg Law of 17 December 2010, as amended, relating to undertakings for collective investment, which implements Directive 2014/91/EU ("UCITS V Directive").

FIMLUX is the Management Company of the Company, with the day-to-day responsibility for the administration, investment management and marketing/distribution functions of the Company.

As at 30 April 2018, the Company consisted of 147 active sub-funds. The Directors may from time to time close sub-funds as well as launch further sub-funds with different investment objectives, subject to the approval of the CSSF.

The following sub-funds were launched during the year:

Sub-fund name	Date of launch
FIRST ESG All Country World Fund	22/06/2017
Institutional US High Yield Fund	28/11/2017

The following classes of Shares were launched during the year:

Sub-fund name	Class of Shares	Date of launch
America Fund	I-ACC Shares (EUR)	11/07/2017
Asia Focus Fund	A-ACC Shares (NOK)	25/04/2018

Investments in Indian securities within India Focus Fund are made through a wholly-owned Mauritian subsidiary, FIL Investments (Mauritius) Limited (the "Subsidiary") previously called Fid Funds (Mauritius) Limited, the sole object of which is to carry out investment activities on behalf of the Company. FIL Investment Management (Hong Kong) Limited ("FIMHK") provides investment advisory and management services to the Subsidiary. FIMHK has obtained approval from the Securities and Exchange Board of India and the Reserve Bank of India to invest in India on its own behalf and on behalf of approved client accounts as a Foreign Portfolio Investor under Indian law. The Subsidiary is registered as a Foreign Portfolio Investor sub-account of FIMHK's licence and has been granted approval to invest in Indian securities. The assets and liabilities of the Subsidiary are consolidated in the Statement of Net Assets and all investments held by the Subsidiary are disclosed in the Schedule of Investments.

On 10 July 2017, Asian Aggressive Fund was renamed Asia Pacific Opportunities Fund, and International Bond Fund was renamed Global Bond Fund on the same date.

On 7 December 2017, Global High Grade Income Fund was renamed Global Short Duration Income Fund.

On 1 January 2018, EURO STOXX 50<sup>TM</sup> Fund was renamed Euro STOXX 50<sup>®</sup> Fund.

## 2. Significant Accounting Policies

The financial statements are prepared in accordance with the Luxembourg legal and regulatory requirements relating to undertakings for collective investment.

**Calculation of the Net Asset Value.** The Net Asset Value per share of each class of shares, is calculated by determining first the proportion of the net assets of the relevant sub-fund attributable to each class of shares. Each such amount will be divided by the number of shares of the relevant class outstanding as at close of business to the extent feasible. The Net Asset Value of each class is determined in the principal dealing currency of the respective class.

**Security Valuation.** Investments in financial instruments traded on any stock exchange are valued at the last available price at the time when the valuation is carried out on the principal stock exchange on which such security is traded. Financial instruments dealt on any over the counter market are valued in the same manner. The valuation of short-dated debt transferable securities and money market instruments not traded on a regulated exchange or market is determined by means of the amortised cost method to the extent this does not materially deviate from market value. Under this method, amortised cost is determined by valuing the security at original cost and thereafter accreting (amortising) the discount (premium) to its nominal value at a constant rate until maturity. All other assets are valued in such manner as the Directors of the Company consider appropriate. All holdings owned by the Company are quoted on a regulated market, except where otherwise distinguished in a sub-fund's Schedule of Investments.

**Price Adjustment Policy.** The Board of Directors of the Company implemented a price adjustment policy in order to protect the interests of the Company's Shareholders. The purpose of the price adjustment policy is to allocate the costs associated with large inflows and outflows to investors transacting that day, thereby protecting the long-term Shareholder from the worst effects of dilution. It achieves this purpose by adjusting the share

class price at which deals in a sub-fund are transacted. As such, share class prices may be adjusted up or down depending on the level and type of investor transactions on a particular day within a sub-fund. In this way the existing and remaining Shareholders do not suffer an inappropriate level of dilution. The Company will only trigger an adjustment in the price when there are significant net flows likely to have a material impact on the remaining Shareholders. The adjustment will be based on the normal dealing costs for the particular assets in which a sub-fund is invested but will not exceed 2% of the price. Once an adjustment is made to a share class price, that price is the official price for that share class for all deals that day. As at 30 April 2018, no material price adjustment was made on the sub-funds.

**Fair Value Adjustments Policy.** Fair value adjustments may be implemented to protect the interests of the Company's Shareholders against market timing practices. Accordingly if a sub-fund invests in markets that are closed for business at the time the sub-fund is valued, the Directors may, by derogation from the provisions above under security valuation, allow for the financial instruments included in a particular portfolio to be adjusted to reflect more accurately the fair value of the sub-fund's investments at the point of valuation.

**Bank Deposits and Cash at Banks and Brokers.** All bank deposits and cash at bank and brokers amounts are carried at face value.

**Investment Security Transactions.** Investment security transactions are accounted for on the date securities are purchased or sold. The computation of the cost of sales of securities is made on the basis of average cost.

**Futures.** Futures are accounted for on the date of opening or closing of the contract. Subsequent payments are made or received by the sub-fund each day, dependent on the daily fluctuations in the value of the underlying index or security which are recorded for financial reporting purposes as unrealised gains or losses by the sub-fund. The unrealised gains or losses resulting from futures are included in the Statement of Net Assets and in the Schedule of Investments. The realised gains and losses are based on the First In – First Out method. All gains and losses on futures are disclosed in the Statement of Operations and Changes in Net Assets.

**Forward Foreign Exchange Contracts.** Forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised gains or losses resulting from forward foreign exchange contracts are included in the Statement of Net Assets and in the Schedule of Investments. All forwards, including those used for the hedging of share classes, are included in the Schedule of Investments. All gains and losses on forwards are disclosed in the Statement of Operations and Changes in Net Assets.

**Option Contracts.** Options purchased are recorded as investments at their realisable market value; options written or sold are recorded as liabilities based on the cost to close the position. Purchased and written options are included in the Statement of Net Assets and in the Schedule of Investments. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased. All gains and losses on options are disclosed in the Statement of Operations and Changes in Net Assets.

**Interest Rate, Inflation & Total Return Swaps.** Interest receivable and payable on interest rate and inflation swap contracts is accrued on a daily basis, and future commitments under the swap are valued at market rates. Interest rate, inflation and total return swap contracts are disclosed in the Statement of Net Assets and in the Schedule of Investments. All gains and losses in the value of interest rate, inflation and total return swaps are disclosed in the Statement of Operations and Changes in Net Assets. Income receivable/payable on interest rate swaps is included in income or expenses on an accruals basis and is reflected in the Statement of Operations and Changes in Net Assets as Interest received/paid on swaps.

**Credit Default Swaps.** Premiums paid and received on credit default swap contracts to buy or sell protection against a credit event are accrued on a daily basis and reflected as net income. Future commitments under the swap are valued at market rates. Credit default swap contracts are disclosed in the Statement of Net Assets and the Schedule of Investments. All gains and losses in the value of credit default swaps are disclosed in the Statement of Operations and Changes in Net Assets.

**Contracts for Difference.** Contracts for difference are contracts entered into between a broker and the Company under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place. Dividends received or paid on contracts for difference are disclosed net in the Statement of Operations and Changes in Net Assets under the caption Derivative Income or Derivative Expenses. When a contract is closed, the Company records a realised gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The valuation of contracts for difference is based on the underlying security and they are disclosed in the Statement of Net Assets and the Schedule of Investments. The finance costs paid to the broker for holding the underlying security are included under the caption Finance costs on contracts for difference in the Statement of Operations and Changes in Net Assets. All gains and losses on contracts for difference are disclosed in the Statement of Operations and Changes in Net Assets.

**Equity Linked Notes.** Equity Linked Notes are valued daily based on the price of the underlying security and are disclosed in the Statement of Net Assets and the Schedule of Investments at market value. The intermediate coupon(s) and final payment at maturity are determined by the change in value of the underlying security. The interest income or "out performance" earned and any gains or losses are disclosed in Statement of Operations and Changes in Net Assets.

**Term Loans.** The Company invests in term loans that have been made by banks to companies. Term Loans are traded at tranche level and are made up of a number of underlying loans all with different terms (coupon rates, payment dates, maturity dates) from the same issuer. Term loans are valued according to the general security valuation policy and are disclosed in the Statement of Net Assets and the Schedule of Investments at market value. All gains and losses on term loans are disclosed in the Statement of Operations and Changes in Net Assets.

**Foreign Exchange.** The Directors determine the designated currency of each sub-fund. Assets and liabilities as at 30 April 2018 have been translated at the prevailing exchange rates on that date. All transactions denominated in foreign currencies during the period are translated into the subfund's designated currency at the exchange rate prevailing on the day of transaction.

**Bonds in Escrow.** Bonds included in the Schedule of Investments can be used as collateral against open derivative exposures. Where this is the case, bonds will be escrowed to prevent them from being traded.

**Fund share Transactions.** The issue and redemption price per share of each sub-fund is the Net Asset Value per share on the date of trade, subject to the price adjustment policy.

**Formation Costs.** All formation costs related to the launch of the Company have been amortised. Costs incurred in launching new sub-funds will be charged to current operating expenses.

**Income.** Dividends on equities are recognised when the security is quoted ex-dividend. Interest is accounted for on an accruals basis.

**Zero Coupon Disclosure.** Zero coupon bonds and zero coupon money market instruments are disclosed in the Schedule of Investments at a rate reflecting the actual return.

**Co-Management of Assets.** For the purpose of effective management, where the investment policies of the sub-funds so permit, the Board of Directors may choose to co-manage assets of certain sub-funds within the Fidelity Funds range. In such cases, assets of different sub-funds will be managed in common. Fractions may result from the co-management technique. The value of these fractions is based on the market value of the underlying financial instruments in the portfolio of the co-managed sub-funds at the end of the year and is included in the total market value of the portfolio. Considering the insignificance of these amounts, they have been included as "Fractions" in the Schedule of Investments.

**Combined Accounts.** The combined financial statements have been presented in USD which is the Company's designated currency and represent the total financial statements of the different sub-funds. Sub-funds stated in currencies other than USD have been converted at exchange rates ruling at the year-end.

### 3. Investment Management Fees and Other Transactions with the Investment Manager or its Affiliates

Pursuant to the Investment Management Agreement dated 1 June 2012, FIL Fund Management Limited ("FFML") is entitled to a monthly investment management fee and asset allocation fee, accrued daily and based on the average Total Net Assets of each sub-fund, at annual rates disclosed in the table below:

o	Will be reduced to 0.60% on 1 January 2043 and reduced further on 1 January 2048 to 0.45%.

Class C Shares are subject to an annual distribution fee of up to 1.00% of the Net Asset Value of the relevant class. Class E shares are subject to an annual distribution fee of up to 0.75% of the Net Asset Value of the relevant class. These fees are accrued daily and payable quarterly to FIL Distributors. The Reserved Funds' classes of shares may only be acquired by investors who are either Undertakings for Collective Investment or investors whose assets are held in accounts managed by FIL or its affiliates. Expenses and charges, excluding investment management fees, administration expenses, government taxes and custodian fees for such classes of shares, will be charged to, and paid directly by, FIL and its affiliates. The investment management fees, administration expenses, government taxes and custodian fees for such classes of shares are charged to the sub-funds but are reimbursed in full by FIL and its affiliates.

FIL and its affiliates may waive any or all of their fees and limit the maximum level of expenses (with certain exceptions) that the sub-funds would be paying. These waivers are voluntary and may be revised at any time. In addition, FFML may from time to time bear certain expenses of the subfunds, on a discretionary basis. Certain officers and directors of the Company are also directors, officers or employees of FIL or its affiliates.

FID is a wholly-owned subsidiary of FIL. In performing its activities as General Distributor of the Company, FID is entitled to receive a sales commission on sales of shares in the Company. For the year ended 30 April 2018, FID retained a total of USD 243,249 in sales commissions, the remainder is paid to intermediaries involved in distributing shares.

The total aggregate value of the transactions of the Company traded through connected brokers was USD 39,101,342. Such transactions represent 0.01% of total transactions of the Company during the year ended 30 April 2018. Total brokerage commissions paid to connected brokers for the year ended 30 April 2018 was USD 3,548 at an average rate of commission of 0.01%. This represents 0.0059% of the total commissions paid. FFML has executed certain portfolio transactions to selected brokers who have agreed to repay a portion of commissions from such transactions to offset Company expenses. For the year ended 30 April 2018 the Company's expenses were reduced by USD 1,135,746 under this arrangement.

#### 4. Directors' Fees

The Chairman of the Board is entitled to an annual fee of EUR 100,000. Each of the other Directors are entitled to an annual fee of EUR 50,000. There is an additional attendance fee of EUR 5,000 for each meeting attended. Directors who are employed by FFML, its holding company FIL or its subsidiaries have waived their fees for the period ended 30 April 2018. The Chairman of the Audit and Risk Committee receives an additional fee of EUR 20,000 per annum. The other members of the Audit and Risk Committee receive an additional fee of EUR 10,000 per annum. The total fees earned by the Directors in respect of services rendered for the year ended 30 April 2018 was USD 482,302.

#### 5. Securities Lending

As at 30 April 2018, the Company lent securities having a value of USD 429,411,518 and received collateral with a market value of USD 465,999,229. During the year ended 30 April 2018, the Company paid USD 1,111,129 to the Custodian in relation to the securities lent. The following table discloses the breakdown of the total value of securities on loan, by sub-fund, as at 30 April 2018:

Sub-fund name	Currency	Maturity Tenor	Securities Values	% of Lendable Assets	% of AUM

The following table discloses the breakdown of the total value of securities on loan by counterparty and the total collateral market value by counterparty as at 30 April 2018:

Counterparty	Total Value USD	Collateral Market Value USD	Country	Clearing Type
Credit Suisse	109,198,958	116,519,479	UK	Bilateral
Deutsche Bank	100,255,080	109,456,049	Germany	Bilateral
UBS	97,556,152	102,442,974	Switzerland	Bilateral
Morgan Stanley	84,556,681	90,612,189	UK	Bilateral
Merrill Lynch	31,711,394	35,584,483	UK	Bilateral
Societe Generale	6,133,253	11,384,055	France	Bilateral

The collateral which consists of government bonds is held by the Custodian and is not reflected in the financial statements. The collateral has not been reused. There are no restrictions on the reuse of collateral. As at 30 April 2018, the analysis of collateral received on securities lending was as follows:

Collateral Type	Total Value USD	Collateral Quality	Maturity Tenor of Collateral	Collateral Currency
Government Bond	4,506,358	Aa2	Less than 1 Month	EUR
Government Bond	5,184,931	Aaa	1 Month to 3 Months	EUR
Government Bond	10,312,294	Aaa	1 Month to 3 Months	USD
Government Bond	23,620,223	Aa2	3 Months to 1 Year	EUR
Government Bond	15,688,213	Aaa	3 Months to 1 Year	EUR
Government Bond	8,502,966	Aaa	3 Months to 1 Year	USD
Government Bond	179,905,124	Aa2	Above 1 Year	EUR
Government Bond	129,141,658	Aaa	Above 1 Year	EUR
Government Bond	89,137,462	Aaa	Above 1 Year	USD

Income from securities lending of USD 7,663,957 is included in the net dividend and interest income balance within the Statement of Operations and Changes in Net Assets.

## 6. Taxation

The Company is not liable to any Luxembourg taxes on income or on realised or unrealised capital gains, nor to any Luxembourg withholding tax. The sub-funds are subject to an annual subscription tax of 0.05% on Equity, Bond, Balanced, Asset Allocation, SMART, Fidelity Lifestyle and Singapore Retirements Funds and 0.01% on Cash, Reserved, Institutional Reserved Funds, Class P and I shares, calculated and payable quarterly on the Net Assets of the sub-fund on the last day of each calendar quarter.

Foreign capital gains, dividends and interest may be subject to capital gain and withholding taxes or other taxes imposed by the country of origin concerned and such taxes may not be recoverable by the Company or its Shareholders. Where there is a reasonable likelihood that a liability will crystallise, the tax payable on the unrealised gain is provided for in the NAV. As at 30 April 2018, no outstanding liability was provisioned for any sub-fund within the Company.

## 7. Transaction Fees

Transaction fees are fees paid to brokers when buying and selling equities, CFD's, futures, options and exchange traded funds. Transaction fees are generally included in the costs of investments that are part of the realised and unrealised gain/(loss) in the Statement of Operations and Changes in Net Assets. A portion of the transaction fees are included in the custody fees in the Statement of Operations and Changes in Net Assets. Transactions fees on Bonds and Swaps are not disclosed as they are included in the spread.

For the year ended 30 April 2018, these transaction fees amount to:

## 8. Equalisation

Income equalisation arrangements are applied to all share classes (accumulating and distributing), across all sub-funds. For distributing shares, these arrangements are intended to ensure that the income per share which is distributed in respect of a distribution period is not affected by changes in the number of shares in issue during that period. The calculation of equalisation is based on net investment income. All equalisation amounts are disclosed in the Statement of Operations and Changes in Net Assets.

## 9. Dividend Payments

The following dividend payments were made during the year ended 30 April 2018:

Sub-fund name	Div per Share	Ex-div date	Sub-fund name	Div per Share	Ex-div date

## 14. Counterparty Exposure of Total Return Swaps

As at 30 April 2018, the total exposure by counterparty to total return swaps, calculated as the aggregation of the unrealised, was as follows:

Sub-fund name	Currency	Citibank	JP.Morgan
Global High Yield Fund	USD	119,705	(75,759)
Global Income Fund	USD	91,718	(19,950)
Global Short Duration Income Fund	USD	42,211	-
Institutional US High Yield Fund	USD	18,239	-
SMART Global Defensive Fund	USD	10,406	(6,586)
SMART Global Moderate Fund	USD	6,944	(4,395)

## 15. Counterparty Exposure of Options

As at 30 April 2018, the total exposure by counterparty to options, calculated as the aggregation of the unrealised, was as follows:

Sub-fund name	Currency	Exchange Traded	Goldman Sachs	Morgan Stanley	UBS
Asian Equity Fund	USD	1,690,247	113,351	-	123,640
Asian Special Situations Fund	USD	4,832,985	313,703	-	343,230
FAWF Asian Special Situations Fund	USD	87,760	5,696	-	6,233

## 18. Credit Facility

The Company has syndicated multi-currency committed revolving credit facilities totalling of USD 500,000,000 with a number of banks, for which J.P.Morgan Europe Limited acts as Agent. The facilities were renewed on 13 November 2017 for a further 364 days. The facilities incur commitment fees of 0.07%. The facilities, if drawn, bear interest at a rate of 1.00% above LIBOR (London Inter Bank Offer Rate) or, in the case of Swingline advances, at a rate of the higher of Prime Rate or 1.25% above the Federal Funds rate. Furthermore, if on any date the aggregate principal amount borrowed under any such facility (including amounts borrowed under any associated Swingline facility) equals or exceeds 33% of the aggregate committed amounts in respect of any such facility, then such facility will bear interest on the outstanding principal amount thereof at a rate per annum equal to the rate of interest otherwise applicable to such facility plus 0.05% per annum. The facilities are unsecured. During the year ended 30 April 2018 a test drawdown of \$1m took place for one week, from the 20 to 27 February 2018.

## 19. Claims for Discriminatory Withholding Taxes within the European Union

Investment funds are generally subject to local withholding taxes on receipt of cross-border payments of dividends throughout Europe. However, European Court of Justice and European Free Trade Association Court decisions support a tax discrimination claim where EU or European Economic Area ("EEA") countries impose such withholding taxes on cross-border payments at rates higher than the withholding tax imposed on dividends paid in similar situations to resident investors.

The Board of the Company has therefore authorised the filing of protective claims, based on the EU principle of the freedom of movement of capital within the EU & EEA, against countries where it is believed that withholding taxes may have been unlawfully imposed by individual EU or EEA States on dividend payments to the Company. The Board's decision has been taken exclusively to protect the position of investors in the Company.

The nature of these claims is complex and subject to each jurisdiction's local statute of limitations and procedural requirements. Consequently, these claims may be subject to lengthy litigation, and at the current time there is no certainty whether all the protective claims will ultimately be successful and whether or how much withholding tax will ultimately be recovered in each of the jurisdictions. During the year ended 30 April 2018, accruals were made for reclaims from France, Norway and Sweden. Withholding tax refunds received from France, Norway and Sweden during the year ended 30 April 2018 were as follows:

France: USD 1,202,482  
Norway: USD 9,308,614  
Sweden: USD 341,108

## 20. Statement of Changes in Investments

A list for each sub-fund, specifying for each investment the total purchases and sales which occurred during the period under review, may be obtained free of charge from the Registered Office of the Company or from any of the companies registered as Distributors of the Company. It is possible to receive information about the full holdings of the sub-funds in which you invest, at any point in time during the year. This is available upon request, by contacting your usual Fidelity Representative.

## 21. Rates of Exchange

The USD exchange rates as at 30 April 2018 are noted below. For the Chinese Renminbi currency, please note that the offshore rate is applied. RMB is a colloquial reference to the Chinese Renminbi, which is also known internationally as the Chinese Yuan ('CNY'). Whilst the CNY is traded both onshore in China and offshore (primarily in Hong Kong), it is the same currency although currently traded at different rates. The offshore rate for trading CNY is generally referred to as 'CNH'. The CNH rate will be used when determining the value of the Shares of a fund as well as for hedging purposes.

Currency	Exchange rate	Currency	Exchange rate
Argentine peso (ARS)	20.53	Mexican peso (MXN)	18.7725
Australian dollar (AUD)	1.32566217	New Zealand dollar (NZD)	1.4199503

On 5 July 2018, Asian Total Return Bond Fund was renamed to Asia Pacific Strategic Income Fund.

**23. Non-audit services**

For the period from 01 May 2017 to 30 April 2018, the following non-audit services have been provided by the external Auditor:

- Investor tax reporting services
- Tax compliance services
- Assurance services
- Tax advice services
- Personal tax services

## Audit Report

### To the Shareholders of Fidelity Funds (SICAV)

#### Report on the audit of the financial statements

##### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Fidelity Funds (SICAV) and of each of its Sub-Funds (the "Fund") as at 30 April 2018, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

##### What we have audited

The Fund's financial statements comprise:

- the statement of net assets as at 30 April 2018;
- the schedule of investments as at 30 April 2018;
- the statement of operations and changes in net assets for the year then ended;
- the notes to the financial statements, which include a summary of significant accounting policies.

##### Basis for opinion

We conducted our audit in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under those Regulation, Law and standards are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

To the best of our knowledge and belief, we declare that we have not provided non-audit services that are prohibited under Article 5(1) of Regulation (EU) No 537/2014.

The non-audit services that we have provided to the Fund, in the period from 1 May 2017 to 30 April 2018, are disclosed in Note 23. Non audit services.

##### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period, and include the most significant assessed risks of material misstatement (whether or not due to fraud). These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
------------------	--

##### Valuation and existence of portfolio

The valuation and existence of the portfolio of investments is considered as a key audit matter due to the magnitude of potential misstatement as the portfolio of investments represents the principal element of the net asset value disclosed in the pages 632 to 654 (Statement of Net Assets).

We gained an understanding of the internal control structure and operating effectiveness of key controls surrounding valuation and existence of investments through review and assessment of the Administrative Service Agent controls report. In addition, we gained an understanding of internal controls implemented by the Management Company.

We tested the valuation of the investments by comparing the prices used in the calculation of the Fund NAV to prices obtained from independent sources.

We obtained from the depositary bank, the confirmation (through the inventory statement as required by the CSSF Circular 16/644) of ownership by the Fund of all assets (including those that are not held in custody). We agreed the positions as per depositary bank inventory statement to the Fund's accounting records and investigated any differences.

#### **Valuation of illiquid, difficult to price investments and financial instruments**

Determining the fair value of some investments and financial instruments is increasingly challenging and involves subjectivity.

We gained an understanding of the internal control structure and operating effectiveness of key controls surrounding valuation of illiquid and difficult to price investments through review and assessment of the Administrator controls report.

In addition, we gained an understanding of internal controls implemented by the Management Company including key controls over the fair valuation process for this kind of investments.

We obtained the control procedures implemented by the Fund Manager and Administrative Service Agent to ensure that the valuation of the securities impacted best reflects fair value and we reviewed the Fair Value Committee report provided to us.

We compared the valuation of illiquid and difficult to price investments to quotes obtained from independent brokers.

Where no reliable broker prices were available, we reviewed the valuation models, assumptions and data that were used to estimate the fair value of such investments.

#### **Valuation and existence of Over the Counter (OTC) derivatives and related cash collateral accounts**

We focused on this area due to the particular risks (existence, completeness and valuation) inherent to nature of derivatives transactions. OTC derivatives transactions include Contracts for Difference, Forward Foreign Exchange Contracts, Options, Futures, Credit Default Swaps, Interest Rate Swaps, Inflation Swaps as described in the "Schedule of investments" on pages 162 to 631 and note 11 on page 758.

We gained an understanding of the internal control structure and operating effectiveness of key controls surrounding valuation, existence, completeness and accuracy of OTC derivatives and related cash collateral accounts.

We compared counter valuation to the valuation used in the NAV calculation and investigated differences above our defined thresholds. We also reperformed the valuation of a sample of positions to assess the reasonableness of the amounts included in the year-end financial statements.

We obtained from the depositary bank, the confirmation (through the inventory statement as required by the CSSF Circular 16/644) of ownership by the Fund of all assets (including those that are not held in custody). We agreed the positions as per depositary bank inventory statement to the Fund's accounting records and investigated any differences.

#### **Pool/Fund allocation**

As described in Note 2 on page 733 (Co-Management of Assets), the Fund operates a complex structure with 147 Sub-Funds invested over 145 pools. An error in the allocation of the pools assets/results to the underlying related Sub-Funds could lead to either NAV pricing errors and/or errors in the financial statements.

We gained an understanding of the internal control structure and key controls surrounding the calculation of Pool/Fund allocation ratios. We tested the automated control for the calculation of Pool/Fund allocation ratios to ensure the control was operating effectively.

We also ensured completeness of ratios applied through the year under review.

#### **Swing pricing**

We focused on the swing pricing that we considered to be a key audit matter due to the magnitude of potential misstatement.

We gained an understanding of the internal control structure and key controls surrounding the calculation and application of swing pricing factors.

We ensured that swing factors were correctly applied on a sample basis.

#### **Other information**

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Directors of the Fund and those charged with governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

#### Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our audit report unless law or regulation precludes public disclosure about the matter.

#### Report on other legal and regulatory requirements

We have been appointed as "Réviseur d'entreprises agréé" of the Fund by the General Meeting of the Shareholders on 15 June 1990 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is 28 years.

PricewaterhouseCoopers, Société coopérative  
Represented by

Luxembourg, 26 July 2018

Nathalie Dogniez

## Global Market Risk Exposure

The Board of Directors of the Company has decided to adopt the commitment approach to determine the global market risk exposure for the Company, except for the below mentioned sub-funds:

The global market risk exposure information for the year ending 30 April 2018 is as follows:

Sub-Fund	Global Risk calculation Method	VaR model	Reference Portfolio	VaR limit	Lowest utilisation of VaR limit	Highest utilisation of VaR limit	Average utilisation of VaR limit	Average level of leverage reached during the year
Global Multi Asset Tactical Defensive Fund	Absolute VaR	Monte Carlo Simulation	N/A	8%	7.4%	16.0%	11.1%	163.77%
Global Multi Asset Tactical Moderate Fund	Absolute VaR	Monte Carlo Simulation	N/A	14%	6.7%	14.0%	10.0%	217.40%
Fidelity Patrimoine	Relative VaR	Monte Carlo Simulation	50% The BofA ML Euro Large Cap Index 15% MSCI AC World ex Europe Index (N) 15% MSCI EUROPE (N) 10% BBG Commodity Index TR 10% EUR 1W LIBID	200%	48.0%	59.9%	55.2%	39.74%
Smart Global Moderate Fund	Relative VaR	Monte Carlo Simulation	50% MSCI AC World (Heg) 30% CitiGroup WGBI G7 (Heg) 20% Global High Yield (Heg)	150%	65.4%	100.9%	86.3%	83.46%
Smart Global Defensive Fund	Relative VaR	Monte Carlo Simulation	50% CitiGroup WGBI G7 (Heg) 30% Global High Yield (Heg) 20% MSCI AC World (Heg)	150%	53.5%	103.9%	76.8%	84.72%
Emerging Market Total Return Debt Fund	Relative VaR	Monte Carlo Simulation	25% JP Morgan EM Bond Index Global 50% GBI-EM Global Diversified unhedged 25% JP Morgan Corporate EM Bond Index Broad Diversified.	150%	38.8%	66.2%	53.8%	122.19%

For the above mentioned sub-fund, the global exposure is calculated and monitored daily by using the Value at Risk (VaR) calculation methodology. Monte Carlo Simulation: 5000 Simulations, 99% Confidence, 20 days holding period.

## EU Securities Financing Transactions Regulations

The Securities Financing Transaction Regulations (SFT), which came into effect on the 13 January 2017, requires further transparency regarding the use of securities financing transactions.

The Company may use total return swaps or other financial derivative instruments with similar characteristics to meet the investment objective of the Company.

The Company used contracts for difference (CFD), total return swap (TRS) and securities lending for the year ended 30 April 2018.

The top 10 counterparties are disclosed in note 5 for the securities lending, in note 14 for TRS and in note 17 for CFD.

As at 30 April 2018, there was only collateral received from collateral issuers (governments and international institutions) for securities lending as is shown in note 5.

## Assets engaged in securities financing transactions as at 30 April 2018

The assets engaged, expressed in absolute value and as a proportion of the net assets, by category of securities financing transactions as at 30 April 2018 amounted to:

The assets engaged in securities lending are disclosed in note 5.

### For French residents only

For the year under review, the following sub-funds have invested in securities eligible to PEA (Plan d'Épargne en Actions), a French tax wrapping in accordance with article L 221-31 of the French monetary and financial code.

Sub-fund name	% of Net Assets
Euro Blue Chip Fund	98.83
Iberia Fund	98.63
Germany Fund	98.44
France Fund	95.81
Italy Fund	95.32
Nordic Fund	94.49
European Larger Companies Fund	91.80
United Kingdom Fund	88.87
European Smaller Companies Fund	85.01
European Dynamic Growth Fund	84.37

### For UK residents only

The affairs of the Company have been conducted to ensure as far as possible that United Kingdom Reporting Fund Status will be granted for the period of these accounts with respect to the sub-funds and share classes that are registered in the United Kingdom. With respect to UK registered sub-funds and share classes in existence prior to the introduction of the new regime the Company has applied to the UK Inland Revenue to transition into the new regime and the UK authorities have given notice that they accept this entry. Moreover, the Company has submitted an application for the new regime for UK registered sub-funds and share classes launched during the accounting period ending 30 April 2018. It also submitted or will submit an application for new share classes in existing or new UK registered sub-funds launched during the accounting period. Reportable income figures are generally available six months after the year end date. The distributing sub-funds and Share classes of the Company that were registered in the UK at the time have also been certified as "distributing funds" by the UK Inland Revenue authorities under the predecessor regime for all accounting periods up to 30 April 2010.

### Remuneration
