Details about the SICAV

The Annual General Meeting of Shareholders of the SICAV is held each year at the SICAV's registered office or at any other place in Luxembourg as specified in the convening meeting notice. It shall take place within 6 months after the financial year-end.

Notices of all General Meetings are sent by mail to all registered shareholders at their address shown in the share register at least 8 days before the General Meeting in accordance with the legislation in force. These notices will state the time and place of the General Meeting and the conditions of admission, the agenda and the quorum and the requirements under Luxembourg law as regards the required quorum and majority.

These notices will also be published in the press of the countries where the shares of the SICAV are marketed, if stipulated by the legislation of these countries.

Reports to the shareholders on the previous financial year and results are available from the registered office of the SICAV.

The financial year of the SICAV ends on December 31 of each year.

The SICAV's prospectus, Key Investor Information Documents, Articles of Incorporation and its annual and semi-annual reports are available to the public, free of charge, from the registered office of the SICAV.

Note 1 - General Information

Candriam Bonds (hereafter "the SICAV" or "the Fund") is an investment company with variable capital in accordance with the part I of the law of December 17, 2010 concerning Undertakings for Collective Investment ("the Law"), as amended.

Its Articles of Incorporation were filed with the Register of Trade and Companies of Luxembourg at Luxembourg and were published in the "Mémorial, Recueil des Sociétés et Associations" dated August 24, 1989. They have been modified several times, in particular, for the last time on July 6, 2020. The corresponding modifications were published in the "Recueil Electronique des Sociétés et Associations" ("RESA").

The SICAV is entered in the Luxembourg Trade and Companies Registry under the number B-30659.

The SICAV capital is at all times equal to its total net assets and is represented by fully paid up and undesignated shares at par value.

The SICAV is a multiple sub-fund fund, meaning that it is composed of several sub-funds each of which represents a specific collection of assets and liabilities and corresponds to a separate investment policy.

The structure of multiple sub-funds offers investors not only the advantage of being able to choose between different sub-funds but also of being able to switch between these sub-funds. In each sub-fund, the SICAV may issue shares in different classes, which vary in particular by having different fees and commissions or in terms of their distribution policy. The shares are only available in registered form.

The following sub-funds are currently available to investors :

During the period, the Board of Directors has decided to proceed with the merger by absorption of the following sub-funds with effective date June 28, 2021:

- Candriam Bonds Euro Corporate ex-Financials absorbed by the sub-fund Cleome Index Euro Corporate Bonds
- Candriam Bonds Total Return Defensive absorbed by the sub-fund Candriam Bonds Total Return.

The issued share classes are the following:

- The **BF class** is reserved for Belgian-law feeder UCIs approved by the Management Company and managed by an entity of the Candriam group.
- The **Classique (C class)** is available to individuals and legal entities.
- The **I class** is reserved exclusively for institutional investors.
- The **I2 class** is not subject to performance fees and is reserved exclusively for institutional investors.
- The **LOCK class** (which may also be called "L class") is a share class which is associated with a mechanism that aims to limit the capital risk incurred. This mechanism is only offered by Belfius Banque S.A. (hereinafter "Belfius"), the sole authorised distributor of these shares. By investing in this class, investors accept that the shares are sold automatically when the net asset value reaches a set amount (activation price). Accordingly, whenever Belfius determines that the net asset value is equal to or less than the activation price, a redemption order is automatically generated and executed as soon as possible.
The sales order will be consolidated at the first cut-off (deadline for the reception of orders) following the calculation date of the net asset value that gave rise to the automatic activation of the redemption order.
- The **N class** is reserved for distributors specially approved by the Management Company.

Other notes to the financial statements

Note 1 - General Information

- The **P1 class** is reserved for institutional investors which subscribe before the sub-fund has reached a critical size in terms of the assets under management. The minimum initial subscription is EUR 1,000,000 or the equivalent in foreign currencies for classes denominated in foreign currencies. This minimum may be changed at the discretion of the Board of Directors provided that shareholders are treated equally on the same Valuation Date. This class will remain open for subscription until one of the following events occurs: (i) the period fixed by the Board of Directors ends, (ii) the sub-fund reaches a critical size in terms of the assets under management, as defined by the Board of Directors, (iii) the Board of Directors decides to close this class to subscription on justifiable grounds. The Board of Directors may re-open this class of shares at its discretion and without the need to inform investors in advance.
- The **R class** is reserved for financial intermediaries (including distributors and platforms) which:
 - have different arrangements with their clients for the provision of investment services in connection with the sub-fund, and
 - as a result of their applicable laws and regulations or on the basis of agreements with their customers, are not entitled to accept and keep duties, fees and other monetary benefits from the Management Company in connection with the provision of the above-mentioned investment services.
- The **R2 class** is restricted to:
 - distributors and/or intermediaries approved by the Management Company who will not receive any form of remuneration for investments in this class from an entity of the Candriam group, if the final investments in the shares are made in the context of a mandate.
 - UCIs approved by the Management Company.
- The **S class** is offered to institutional investors which have been individually approved by the Management Company, with a minimum initial subscription of EUR 25,000,000 (or, by decision of the Board of Directors, the equivalent amount in any other currency) or the equivalent amount in the relevant currency for classes denominated in other currencies. The Board of Directors may adjust this minimum at its discretion provided all shareholders are treated equally on a given valuation date.
- The **S2 class** is offered to institutional investors which have been individually approved by the Management Company, with a minimum initial subscription of EUR 100,000,000 (or, by decision of the Board of Directors, the equivalent amount in any other currency) or the equivalent amount in the relevant currency for classes denominated in other currencies. The Board of Directors may adjust this minimum at its discretion provided all shareholders are treated equally on a given valuation date.
- The **S3 class** is offered to institutional investors which have been individually approved by the Management Company, with a minimum initial subscription of EUR 175,000,000 (or, by decision of the Board of Directors, the equivalent amount in any other currency) or the equivalent amount in the relevant currency for classes denominated in other currencies. The Board of Directors may adjust this minimum at its discretion provided all shareholders are treated equally on a given valuation date.
- The **S4 class** is not subject to a performance fee and is reserved exclusively for institutional/professional investors, distributors and/or intermediaries who are approved by the Management Company, who invest through Spezialfonds and whose minimum initial subscription is EUR 75,000,000 or its equivalent in foreign currencies for those classes denominated in foreign currencies (this minimum amount may be changed at the discretion of the Board of Directors provided that equal treatment of shareholders is ensured for a given valuation date)
- The **V class** is reserved solely for institutional investors with a minimum initial subscription of EUR 20,000,000 (or, by decision of the Board of Directors, the equivalent amount in any other currency) or the equivalent amount in the relevant currency for classes denominated in other currencies. The Board of Directors may adjust this minimum at its discretion provided all shareholders are treated equally on a given valuation date.
- The **V2 class** is a share class with no performance fee and is restricted to institutional/professional investors, distributors and/or intermediaries approved by the Management Company, and whose initial minimum subscription is EUR 20,000,000 or the equivalent in foreign currencies for the classes denominated in foreign currencies (this amount can be reviewed at the directors' discretion; in this case, equal treatment of shareholders must be ensured on the same valuation day).
- The **Z class** is restricted to:
 - institutional/professional investors approved by the Management Company. Since the portfolio management activity for this class is remunerated directly via the contract concluded with the investor, no portfolio management fee is payable for the assets of this class.
 - UCIs approved by the Management Company and managed by an entity of the Candriam Group.

The share in annual profit of holders of capitalisation shares is capitalized whereas distribution shares entitle their holders to receive a share in annual profit in the form of a cash dividend.

Each share class may apply a specific hedging policy:

- Hedging against fluctuations in the reference currency: such hedging aims to reduce the effect of fluctuations in exchange rates between the reference currency of the sub-fund and the currency in which the share class is denominated. This type of hedging aims to achieve a reasonably comparable performance (adjusted in particular for the difference in interest rate between the two currencies) between the hedged class and the equivalent denominated in the reference currency of the sub-fund. This type of hedging is identified by the suffix **H** in the name of the class.
- Hedging against the foreign exchange exposure of the assets forming the portfolio: such hedging aims to reduce the effect of fluctuations in exchange rates between the currencies in which the sub-fund's assets are held and the currency in which the share class is denominated. This type of hedging is identified by the suffix **AH** in the name of the class.

The shares issued are described in detail in the section "Changes in the number of shares outstanding for the period" of the various sub-funds.

Candriam Bonds

Note 2 - Principal accounting policies

The financial statements of the SICAV are prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investment. Some small discrepancies might appear in some totals or sub-totals in the financial statements due to rounding rules.

The net asset values used for the purpose of the financial statements are dated June 30, 2021. The net asset value of each sub-fund has been calculated on July 1, 2021 on the basis of the last known prices at the time of the valuation.

a) Valuation of each sub-fund's portfolio

The valuation of any security admitted for trading to an official listing or any other normally operating regulated market which is recognised and open to the public is based on the last price known in Luxembourg on the valuation date or, if this stock is traded on several markets, on the last known price on the principal market on which it is traded. If the last known price is not representative, the valuation shall be based on the probable realisation value as estimated by the Board of Directors with prudence and good faith. Securities which are neither quoted nor traded on a stock market or any other normally operating regulated market which is recognised and open to the public shall be valued on the basis of the probable realisation value as estimated with due prudence and good faith. All other assets shall be valued by the directors on the basis of the probable realisation value which must be estimated in good faith and according to generally accepted principles and procedures.

b) Net realised profits or losses on sales of investments

The realised profits or losses realised on sales of investments from each sub-fund are calculated based on the average cost of the investments sold.

c) Foreign currency translation

The values expressed in a currency other than the reference currency of each sub-fund are translated into that currency at the exchange rate prevailing at closing date.

Income and expenses in a currency other than the reference currency of each sub-fund are translated into that currency at the exchange rates prevailing at the transaction date.

The acquisition cost of securities in each sub-fund expressed in a currency other than the reference currency of the sub-fund is translated into that currency at the exchange rates prevailing at the day of purchase.

d) Combined financial statements of the SICAV

The combined statement of the SICAV's net assets and the combined statement of changes in net assets which are expressed in EUR are the sum of the statement of net assets, the statement of changes in net assets of each sub-fund converted into the currency of the SICAV using exchange rates prevailing at the closing date.

The investments made by certain sub-funds of the SICAV in other sub-funds of the SICAV have not been eliminated from the combined statement of net assets as of June 30, 2021. As of June 30, 2021, the total of intra-SICAV investments amounted to EUR 124,654,935. Therefore, the combined net assets at the closing date would amount to EUR 13,401,541,947 if these intra-SICAV investments were eliminated.

e) Valuation of options and futures

The valuation of options and futures admitted to an official listing or any other organised market is based on the last known price or, if the option is traded on more than one market, on the basis of the last known price in the market on which the contract was concluded by the SICAV.

Options and futures that are not traded on a stock exchange or any other organised market will be valued at their probable market value estimated conservatively and in good faith. The market value of options is included in the statement of net assets under the heading "options (long position) / (short position) at market value".

The realised gains / (losses) and change in unrealised appreciation / depreciation on options are disclosed in the statement of changes in net assets respectively under the headings "Net realised gain / (loss) on options" and "Change in net unrealised appreciation / depreciation on options".

The unrealised appreciation / (depreciation) on future contracts is disclosed in the statement of net assets under "Net unrealised appreciation / (depreciation) on futures". Changes in the market value of open future contracts are recorded as unrealised appreciation / depreciation in the statement of changes in net assets under "Change in net unrealised appreciation / depreciation on futures".

Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of changes in net assets under "Net realised gain / (loss) on futures".

For the details of outstanding options or financial futures, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

f) Valuation of forward foreign exchange contracts

The forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised appreciation / (depreciation) on forward foreign exchange contracts is disclosed in the statement of net assets under "Net unrealised appreciation / (depreciation) on forward foreign exchange contracts".

Realised gains / (losses) and change in unrealised appreciation / depreciation resulting there from are included in the statement of changes in net assets respectively under "Net realised gain / (loss) on forward foreign exchanges contracts" and "Change in net unrealised appreciation / depreciation on forward foreign exchange contracts".

For the details of outstanding forward foreign exchange contracts, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

g) Valuation of Non-Deliverable Forwards contracts ("NDF")

Non-Deliverable Forwards are short-term forward contracts on thinly traded or non-convertible foreign currencies. Those contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised profits or losses resulting from NDF are included in the statement of net assets under the heading "Net unrealised appreciation / (depreciation) on forward foreign exchange contracts".

The NDF are normally quoted and settled in USD. Realised gains / (losses) and change in unrealised appreciation / depreciation resulting there from are included in the statement of changes in net assets respectively under "Net realised gain / (loss) on forward foreign exchanges contracts" and "Change in net unrealised appreciation / depreciation on forward foreign exchange contracts".

For the details of outstanding NDF, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

h) Valuation of Contracts for difference ("CFD")

Contracts for difference are valued at fair value based respectively on the last known spread curve, rates curve and last known closing price of the underlying asset.

The unrealised appreciation / (depreciation) on CFD is disclosed in the statement of net assets under "Net unrealised appreciation / (depreciation) on CFD". Realised gains / (losses) and change in unrealised appreciation / depreciation resulting there from are included in the statement of changes in net assets respectively under "Net realised gain / (loss) on CFD" and "Change in net unrealised appreciation / depreciation on CFD".

For the details of outstanding CFD contracts, if any, please refer to the section "Notes to the report - Schedule of derivative instruments".

i) Valuation of Credit Default Swaps contracts ("CDS")

The value of a credit default swap is determined by a comparison between the discounted future flows on the value of the annual premium paid by the protection buyer, and the current value of the expected losses on the reference asset if credit events specified in the swap contract should occur. The unrealised profits or losses resulting from credit default swaps are included in the statement of net assets under the heading "Net unrealised appreciation / (depreciation) on swaps".

Realised profits / (losses) and change in unrealised appreciation / (depreciation) resulting there from are included in the statement of changes in net assets respectively under "Net realised gain / (loss) on swaps" and "Change in net unrealised appreciation / depreciation on swaps".

For the details of outstanding credit default swaps, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

Other notes to the financial statements

Note 2 - Principal accounting policies

j) Valuation of Total Return Swaps contracts ("TRS")

Total-return swaps are valued by reference to the mark to market value based on the market value of the underlying asset. The unrealised profits or losses resulting from total-return swaps are included in the statement of net assets under the heading "Net unrealised appreciation / (depreciation) on swaps".

Realised profits / (losses) and change in unrealised appreciation / depreciation resulting there from are included in the statement of changes in net assets respectively under "Net realised gain / (loss) on swaps" and "Change in net unrealised appreciation / depreciation on swaps".

For the details of outstanding total return swaps, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

k) Valuation of Interest Rate Swaps contracts ("IRS")

Interest-rate swaps are valued at their fair value. The unrealized profits or losses resulting from interest-rate swaps are included in the statement of net assets under the heading "Net unrealised appreciation / (depreciation) on swaps".

Realised profits / (losses) and change in unrealised appreciation / depreciation resulting there from are included in the statement of changes in net assets respectively under "Net realised gain / (loss) on swaps" and "Change in net unrealised appreciation / depreciation on swaps".

For the details of outstanding Interest rate swaps, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

l) Reverse repurchase agreements

A reverse repurchase agreement is an agreement by which, in exchange for an amount of cash, the SICAV receives (purchases) transferable securities from a counterparty which agrees to repurchase them at a price and a term specified between the two parties when the agreement is concluded. A reverse repurchase agreement is similar in its effects to a loan granted by the SICAV to the counterparty, the loan being secured by transferable securities. The SICAV accounts for the repurchase agreement as if it were a loan and shows it in the Statement of net assets under the heading "Receivable on reverse repurchase agreements / Payable on reverse repurchase agreements". Any interest receivable/payable (in the event of a negative interest rate) on this transaction is accounted for under other assets/other liabilities in the Statement of net assets. A reverse repurchase agreement is generally only of short duration and is not transferable. The SICAV values this type of agreement at cost, which, when combined with accrued interest, provides an approximation of the value at which the securities will be repurchased by the counterparty. The interest received or paid (in the event of negative interest rates) is recorded in the Statement of changes in net assets under the heading "Interest on reverse repurchase agreements".

m) Transaction costs

For the period ended June 30, 2021, the SICAV incurred transaction costs and broker's charges related to the purchase and sale of transferable securities, money market instruments, other eligible assets and derivatives instruments. Those charges are disclosed in the statement of changes in net assets under the heading "Transaction costs".

Furthermore, in accordance with the practices of the bond markets, a bid-offer spread is applied to securities purchase or sale transactions. According to this principle, the selling and buying prices applied by the broker to a given transaction are not identical and the difference between them constitutes the broker's remuneration.

n) Income

Interest income is accrued pursuant to the terms of the underlying investment. Income is recorded net of respective withholding taxes, if any. Dividends are recognised on ex-date.

Note 3 - Management fees

Candriam Luxembourg, a partnership limited by shares under Luxembourg law whose registered office is located at SERENITY - Bloc B, 19-21, Route d'Arlon, L-8009 Strassen, has been appointed Management Company. An agreement to that effect was entered into for an unlimited term. Either party is entitled to terminate the agreement at any time by registered letter (with signed receipt requested) sent to the other party, subject to 90 days' notice.

Candriam Luxembourg is a subsidiary of Candriam Group, an entity of the New York Life Insurance Company group. It is authorised as a Management Company of Chapter 15 of the Law of 2010 concerning UCIs as amended, and is authorised to exercise the activities of collective portfolio management, investment portfolio management and investment consultant.

By virtue of a delegation contract, the Management Company has delegated portfolio management for certain SICAV sub-funds, under its supervision, responsibility and at its own expense, to its Belgian subsidiary Candriam Belgium, which registered office is 58, Avenue des Arts, B-1000 Brussels. This agreement may be terminated by either party subject to advance written notice of 90 days.

The portfolio management of the following sub-funds is thus delegated to Candriam Belgium:

Candriam Bonds Euro, Candriam Bonds Euro Corporate ex-Financials, Candriam Bonds Euro Diversified, Candriam Bonds Euro Government, Candriam Bonds Euro Long Term, Candriam Bonds Euro Short Term, Candriam Bonds Floating Rate Notes, Candriam Bonds Global Government, Candriam Bonds Global Inflation Short Duration, Candriam Bonds International, Candriam Bonds Total Return Defensive.

By virtue of a delegation contract, the Management Company has delegated portfolio management for certain other SICAV sub-funds, under its supervision, responsibility and at its own expense, to its French subsidiary Candriam France, a simplified joint-stock company, which registered office is 40, rue Washington, F-75408 Paris Cedex 08. This agreement may be terminated by either party subject to advance written notice of 90 days. Candriam France, a simplified joint-stock company, is a portfolio Management Company established in France in 1988 for a limited duration.

The portfolio management of the following sub-funds is thus delegated to Candriam France:

Candriam Bonds Capital Securities, Candriam Bonds Convertible Defensive, Candriam Bonds Credit Alpha, Candriam Bonds Credit Opportunities, Candriam Bonds Euro Corporate, Candriam Bonds Euro High Yield and Candriam Bonds Global High Yield.

The Management Company has delegated partly delegated the implementation of the portfolio management function of the sub-funds Candriam Bonds Emerging Debt Local Currencies, Candriam Bonds Emerging Markets, Candriam Bonds Emerging Markets Corporate, Candriam Bonds Emerging Markets Total Return and Candriam Bonds Total Return to Candriam Belgium and has entrusted another part to its British branch, UK establishment, 200 Aldersgate, Aldersgate Street, London EC1A4HD, United Kingdom.

Note 4 - Operating and Administrative Expenses

The SICAV bears the current operating and administrative expenses incurred to cover all the overheads and variable expenses, the charges, fees and other expenses, as defined below ("Operating and Administrative Expenses").

The Operating and Administrative Expenses cover, but are not limited to, the following expenses:

- a) the expenditures incurred directly by the SICAV, including, inter alia, the Depositary Bank's fees and charges, the fees and expenses of the approved independent auditors, the cost of share class hedging, including that invoiced by the Management Company, the fees paid to the Directors and the reasonable expenses and outlays incurred by or for the Directors;
- b) a "service fee" paid to the Management Company and including the remaining sum of the Operating and Administrative Expenses after deduction of the expenses detailed in section (a) above, that is, inter alia, the fees and expenses of the Domiciliary Agent, the Administrative Agent, the Transfer Agent and Registrar Holding and the Principal Paying Agent, the costs related to registration and maintenance of the registration in all the jurisdictions (such as the fees charged by the supervisory authorities concerned, the translation expenses and the remuneration of the Representatives abroad and the local paying agents), the stock exchange registration and renewal expenses, the cost of publishing the share prices, the postal and telecommunication charges, preparation cost, printing, translating and distributing the prospectuses, key investor information documents, notices to shareholders, financial reports or of any other document intended for the shareholders, the legal fees and expenses, the charges and expenses related to the taking out of any subscription/licence or any other use of fee-paying information or data, the expenses incurred by the use of a registered trademark by the SICAV, the expenses and fees payable to the Management Company and/or its delegates and/or to any other agent appointed by the SICAV itself and/or to the independent experts, excluding Management fees.

The Operating and Administrative Expenses are expressed as an annual percentage of the average net asset value of each share class and are payable monthly.

At the end of a given period, if the actual charges and expenses were to be higher than the percentage of Operating and Administrative Expenses set for a share class, then the Management Company would pay for the difference itself. Conversely, if the actual charges and expenses were to turn out to be lower than the percentage of Operating and Administrative Expenses set for a share class, then the Management Company would retain the difference.

The Management Company shall be entitled to instruct the SICAV to proceed to settle all or part of the expenses as listed above directly from its assets. In such a case, the amount of the Operating and Administrative Expenses would be reduced accordingly.

Note 5 - Performance fees

In payment for its portfolio management activity, the Management Company also receives performance fees on certain share classes of certain sub-funds (see table below with concerned share classes and related index).

The method of calculating the performance commission is detailed in the various technical specifications attached to the Prospectus of the SICAV in force.

The reference period is the financial year and these commissions are payable at the end of the calendar year.

Two thirds of the performance fees will be carried over to the following financial year and will be either reduced by way of a provision reversal resulting from an under-performance (within the limit of the provision formed), or increased by any new provision for an outperformance fee.

Each time the class is valued, a reference asset is determined by assuming a theoretical investment corresponding to the performance of the index of all the subscriptions received during the period (book net assets at the end of the previous financial year are treated as a subscription at the beginning of the period).

In the event of redemption, the last reference asset calculated and the previous-day total of all the subscriptions received are reduced in advance proportional to the number of redeemed units. Similarly, a share of the possible provision for the performance fee on outstanding credits recorded in the accounts at the last valuation is, in proportion to the number of redeemed units, allocated definitively to a specific personal account. This share of the performance fee is retained by the Management Company as from the date of redemption.

In the event that performance fees are not paid to the Management Company, these amounts are written back under the heading "Other income".

Note 6 - Subscription tax

The SICAV is governed by the Luxembourg tax laws.

By virtue of the legislation and regulations currently in force, the SICAV is subject in Luxembourg to an annual tax of 0.05% of the net asset value of the SICAV; this rate is reduced to 0.01% for the classes reserved for institutional investors. This tax is payable quarterly on the basis of the net asset value of the SICAV calculated at the end of the quarter to which the tax relates.

The Belgian government enacted a law to tax once a year the net asset value of foreign investment funds registered in Belgium. This annual tax is calculated on the net amounts defined as invested in Belgium by Belgian financial intermediaries. In the absence of a sufficient declaration relating to these figures, the tax authority will be entitled to calculate the tax on the entirety of the assets of these sub-funds. The Belgian law of June 17, 2013 comprising fiscal and financial provisions and provisions relating to sustainable development set the rate of the annual tax for Undertakings for Collective Investment at 0.0925% with effect from January 1, 2014.

As a precautionary measure, the SICAV has filed a claim with the Belgian tax authority and the Brussels Court of First Instance for the tax to be refunded. At this stage, it is not possible to prejudge the outcome of the dispute or any reimbursement in favour of the SICAV. In a similar case, the Belgian State appealed to the Court of Cassation against the Court of Appeal's rulings in favour of the plaintiff. The case is still pending.

Note 7 - Securities lending

By a delegation contract February 18, 2014, the Management Company delegated the implementation of the securities lending and borrowing transactions, under its supervision and responsibility, to Candriam France, a simplified joint-stock company, whose registered office is at 40, rue Washington, F-75408 Paris Cedex 08. This contract may be terminated by either party giving 90 days' notice in writing.

Note 10 - Swing Pricing

For all the sub-funds of the SICAV, provision has been made for the following measure:

On the valuation days on which the difference between the amount of subscriptions and the amount of redemptions in a sub-fund (that is, the net transactions) exceeds a threshold previously set by the Board of Directors (partial Swing Pricing), the Board reserves the right:

- to determine the net asset value by adding to the assets (for net subscriptions) or deducting from the assets (for net redemptions) a certain percentage of fees and costs corresponding to market practices in buying or selling securities for Candriam Bonds Credit Alpha, Candriam Bonds Credit Opportunities, Candriam Bonds Global High Yield and Candriam Bonds Euro High Yield;
- to value the securities portfolio of the sub-fund on the basis of buying or selling prices or by setting spreads at a level representative of the market in question (in the case, respectively, of net inflow or net outflow) for Candriam Bonds Capital Securities, Candriam Bonds Convertible Defensive, Candriam Bonds Emerging Debt Local Currencies, Candriam Bonds Emerging Markets, Candriam Bonds Emerging Markets Corporate, Candriam Bonds Emerging Markets Total Return, Candriam Bonds Euro, Candriam Bonds Euro Corporate, Candriam Bonds Euro Corporate Ex-Financials, Candriam Bonds Euro Diversified, Candriam Bonds Euro Government, Candriam Bonds Euro Long Term, Candriam Bonds Euro Short Term, Candriam Bonds Floating Rate Notes, Candriam Bonds Global Government, Candriam Bonds Inflation Short Duration, Candriam Bonds International, Candriam Bonds Total Return and Candriam Bonds Total Return Defensive.

During the period, the swing pricing was applied for all sub-funds, except for Candriam Bonds Convertible Defensive, Candriam Bonds Credit Alpha and Candriam Bonds Euro Diversified. As at June 30, 2021, no swing was applied.

The swing factor

The swing factor is the amount by which the NAV is swung when the swing pricing process is triggered after net subscriptions or redemptions exceed the swing threshold. The factors to consider when setting the swinging factor include:

For high yield method:

- Bid-ask spread

For fixed income method:

- Swing Pricing Policy
- linked to Bid/Ask spread
