Important Information

International Technology Portfolio (the “Portfolio”) is a portfolio of ACMBernstein SICAV (the “Fund”), an open-ended investment company with variable capital (*société d'investissement à capital variable*) incorporated on 8 June 2006 with limited liability in the Grand Duchy of Luxembourg under the law of 10 August 1915, as amended, relating to commercial companies and is registered under Part I of the law of 17 December 2010 on undertakings for collective investment (the “Law of 2010”). Outside of Germany, Austria and Switzerland, the Fund conducts business under the name AllianceBernstein. The Fund comprises several portfolios which, together with their Share classes, are described in the Prospectus.

Investment Objective

The Portfolio's investment objective is growth of capital.

Investment Policy

In seeking to achieve this investment objective, the Investment Manager expects that at any time at least 80% of the Portfolio's total assets will be invested in securities of companies expected to benefit from technological advances and improvements (*i.e.*, companies that use technology extensively in the development of new or improved products or processes), and in no case will the amount of the Portfolio's total assets invested in such securities be less than two-thirds of the Portfolio's total assets. The Portfolio is not subject to any limitation on the portion of its total assets that may be invested in any one country or region. The Portfolio intends to spread investment risk and expects to invest in equity securities of issuers domiciled in both developed and emerging market countries. Efficient portfolio management and hedging techniques may include use of exchange-traded and OTC derivative instruments, including swaps, options, futures and currency transactions.

Risk Profile

The Portfolio is classified as a “Sophisticated” portfolio. The Portfolio shall employ the Value-at-Risk (“VaR”) approach.

Equity investments of the Portfolio are subject to higher risks inherent in equity investments. In general, the value of equity investments may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market, economic, political and natural conditions that are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. Historically, equity securities have provided greater long-term returns and have entailed greater short-term risks than other investment choices.

Because the Portfolio invests primarily in technology companies, factors affecting those types of companies could have a significant effect on the Portfolio's net asset value. In addition, the Portfolio's investments in technology stocks, especially those of smaller, less seasoned companies, tend to be more volatile than the overall market.

The Portfolio is subject to market, interest rate and currency fluctuations and to other risks inherent in investing in securities. Therefore, no assurance can be given that the investment objective will be achieved, that invested capital will be preserved, or that capital appreciation will occur. Investment results may vary substantially on a monthly,

quarterly or annual basis. An investment in the Portfolio does not represent a complete investment program.

More details on the risks related to investment in the Portfolio are included in the Prospectus. See “Risk Factors and Special Considerations” in Section II of the Prospectus.

Profile of the Typical Investor

The Portfolio will suit higher risk-tolerant investors seeking the longer-term rewards of equity investment. Investors are encouraged to consult their independent financial advisors regarding the suitability of Shares of the Portfolio for their investment needs.

The Management Company has resolved to prevent the ownership of Shares by any “United States Person,” as such term is defined in the Prospectus.

Class S and S1 Shares shall only be placed with institutional investors within the meaning of Article 174 of the Law of 2010. Transfers of class S and S1 Shares shall be restricted to transfers to such institutional investors.

Historical Performance

The following graph illustrates past performance of Class A Shares of the Portfolio for each of the Portfolio's last three fiscal years.

Past performance is no guarantee of future results. Total returns, provided by the Investment Manager, reflect the percentage change in Net Asset Value of class A shares of the Portfolio for each of the twelve-month fiscal periods ending 31 May of each year indicated. Class A share performance since 31 May 2011 may differ, perhaps significantly, from performance shown. In addition, the performance of other share classes may be higher or lower due to the different fees and charges associated with such share classes. Returns provided assume the reinvestment of distributions, if any, paid on class A shares for the period shown, but do not reflect any sales charges. Accordingly, these figures do not represent actual returns to an investor. The investment return and principal value of an investment in the Portfolio will fluctuate as the prices of the individual securities in which it invests fluctuate, so that an investor's Shares, when redeemed, may be worth more or less than their original cost.

Purchase, Redemption and Exchanges

Purchase, redemption and exchange orders for a given Trade Date may be accepted up to 4:00 p.m. U.S. Eastern time on such Trade Date. Valid and complete orders received and accepted by the Fund or its agents within this time frame are processed as of such Trade Date at the Net Asset Value determined as of the Valuation Point for such Trade Date. Orders received and accepted after 4:00 p.m. U.S. Eastern time are processed on the next Business Day at the appropriate Net Asset Value determined as of the Valuation Point on such Business Day. The Fund may limit or suspend the redemption

of Shares as provided in the Prospectus and maximum or minimum investment amounts with respect to any share class may be waived by the Fund in its sole discretion. Shareholders may exchange their Shares to the extent provided in the Prospectus. The Fund currently does not charge any administrative or other fees in connection with exchanges. However, Shareholders who hold their Shares through accounts with a dealer should contact such dealer to determine if any such fees apply in connection with exchanges. For more information, see sections “How to Purchase Shares”, “How to Redeem Shares” and “How to Exchange Shares” in Section II of the Prospectus.

Portfolio Turnover Rate

The portfolio turnover rate of the Portfolio is 83.42%, as reflected in the Fund's latest annual report dated 31 May 2011. The portfolio turnover ratio is calculated by dividing the lesser of the annual total value of purchases or sales of portfolio

securities (excluding short term transactions) by the average annual market value of the portfolio.

Taxation

Luxembourg Taxation. The Fund is not liable for any Luxembourg tax on profits or income, nor are distributions paid by the Fund subject to any Luxembourg withholding tax. The Fund is, however, liable in Luxembourg for a tax of 0.05% per annum of its Net Asset Value, such tax being payable quarterly on the basis of the value of the aggregate net assets of the Portfolio at the end of the relevant calendar quarter.

A reduced tax at an annual rate of 0.01% is applicable to classes of shares restricted to institutional investors, such as the Class S and S1 Shares, within the meaning of Article 174 of the Law of 2010.

No such tax is payable on the value of assets which consist of units or Shares of other Luxembourg funds that have already been subject to such tax.
