

Prepared on: 19/03/2013

This Product Highlights Sheet (“PHS”) is an important document.

- It highlights the key terms and risks of this investment product and complements the prospectus of the Fund registered by the MAS on 19 March 2013 (the “Prospectus”)¹.
- It is important to read the Prospectus before deciding whether to purchase units in the Fund. If you do not have a copy, please contact us to ask for one.
- You should not invest in the Fund if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the units in the Fund, you will need to make an application in the manner set out in the Prospectus. Units of the Fund can also be purchased or traded on the SGX-ST as set out in the Prospectus.

LYXOR ETF NASDAQ-100 (the “Fund”)

SGX counter name (SGX stock code)	Lyxor Nasdaq100 10 US\$ (H1Q)	SGX-ST Listing Date	12 May 2009

Traded Currency	Class D-USD: USD	Expense Ratio (as at 30 April 2012)	0.30% (Class D-USD units)

PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

- The Fund is only suitable for investors who:
 - want capital growth rather than regular income;
 - are prepared to lose some or all of their original investment;
 - seek exposure to the United States technology equity market via the Benchmark Index; and
 - have considered their personal circumstances at present and for the next five years and are able and willing to invest in a product:
 - for the minimum recommended investment period of more than three years; which has a high equity risk profile and exposure to, *inter alia*, market risks linked to movements (including declines) in the Benchmark Index;
 - **which net asset value (“NAV”) may have a high volatility due to the potential volatility of the Benchmark Index; and**
 - **which will invest in financial derivative instruments such as swap transactions for investment, hedging and/or efficient portfolio management.**

Please refer to the “Risks of Investing in the Fund”, “Investment Objectives, Focus & Approach”, “Risks” and “Other Material Information - Distributions” sections of the Prospectus for further information.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in Class D-USD units (the “Units”) of the Fund, which is an exchange traded fund constituted in France and is an Undertaking for Collective Investments in Transferable Securities (“UCITS”) Part IV scheme that aims to track the Benchmark Index by using a synthetic replication strategy (please see the “Investment Strategy” section below for further details).
- The Benchmark Index is calculated and published by Nasdaq Stock Market, Inc. and includes 100 of the largest domestic and international non-financial securities listed on the Nasdaq Stock Market based on market capitalisation. The Benchmark Index reflects companies across major industry groups including computer hardware and software, telecommunications, retail/wholesale trade and biotechnology. The Benchmark Index does not contain securities of financial companies including investment companies.
- The Manager reserves the discretion to pay out income distributions to the unitholders. There can be no assurance that the Manager will declare dividends or make distributions.

Please refer to the “Basic Information”, “Investment Objectives, Focus & Approach”, “Other Material Information – Distributions” sections and “Appendix 1: Benchmark Index” of the Prospectus for further information.

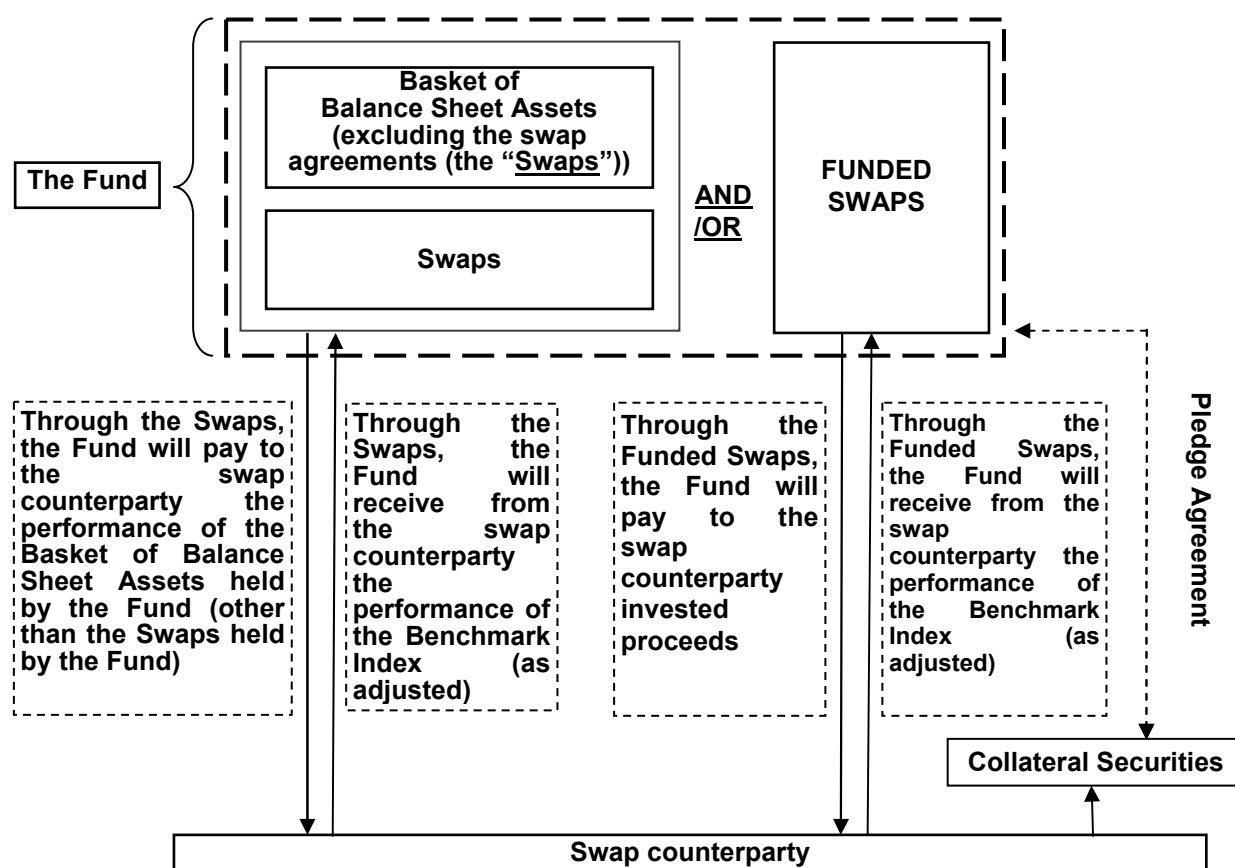

Investment Strategy

- The Fund may:

Please refer to

¹ The Prospectus is accessible at www.lyxoretf.com.sg. Investors may also obtain copy of the Prospectus from the Singapore Representative of the Fund, whose details can be found on the last page of this PHS. Unless the context otherwise requires, terms defined in the Prospectus shall have the same meaning when used in this PHS.

- (i) purchase or invest in a basket of international shares from all economic sectors and listed on any exchange including small capitalisation markets which may or may not comprise shares that make up the Benchmark Index, and where the Manager considers appropriate, one or more underlying fund(s) (collectively the “Basket of Balance Sheet Assets”) and enter into financial derivative instruments negotiated over-the-counter known as swap agreements with Société Générale as the current swap counterparty which would essentially exchange the Fund's exposure to the Basket of Balance Sheet Assets (and where applicable any other assets of the Fund) with that of the Benchmark Index (as adjusted) (the “Unfunded Swap portion”); and /or
- (ii) invest in financial derivative instruments negotiated over-the-counter known as funded swap agreements (the “Funded Swaps”) with Société Générale as the current swap counterparty. The Funded Swaps would essentially exchange the invested proceeds against the performance of the Benchmark Index (as adjusted). Suitable collateralisation arrangements in relation to the Funded Swaps will be entered into with the swap counterparty(ies) to reduce the percentage of the counterparty risk exposure to the swap counterparty(ies) (the “Funded Swap portion”).
- The investment strategy of the Fund is illustrated in the diagram below:

- The amount of the net assets of the Fund to be invested in the Unfunded Swap portion and/or the Funded Swap portion from time to time will be determined by the Manager. As at the date of the Prospectus, the net assets of the Fund are not invested in the Funded Swap portion.
- **Criteria for selection of shares:** Shares comprising the basket of international shares in the Basket of Balance Sheet Assets are chosen to optimise costs. The primary selection criteria is high liquidity and absence of extra cost. **Criteria for selection of collateral:** Collateral under the Funded Swap portion will be selected from a universe of international shares from any economic sector that are listed on an exchange including small capitalisation markets. The shares will be mainly listed shares of blue chip companies and the primary selection criteria is high liquidity. Please refer to Paragraph 7.2 of the Prospectus for further information on the collateral selection.
- The Manager may decide to adopt another investment strategy as it believes appropriate to achieve the investment objective of the Fund, subject to applicable laws and regulations.

Parties Involved

WHO ARE YOU INVESTING WITH?

Please refer to the “The

<ul style="list-style-type: none"> • The Fund is established in France as a <i>fonds commun de placement</i> (FCP) which is an open-ended collective investment fund. • The Manager of the Fund is Lyxor International Asset Management, a company incorporated in France. • The current swap counterparty, designated market maker, depository and the registrar of the Fund is Société Générale, an institution established in France. • The administrative agent of the Fund is Société Générale Securities Services Net Asset Value, an institution established in France. • The Singapore Representative of the Fund is RBC Investor Services Trust Singapore Limited, a company incorporated in Singapore. 	Manager” and “Other Parties” sections of the Prospectus for further information on the roles of these entities.
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the Units and the price of the Units (and its dividends, if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:	Please refer to the “Risks” section of the Prospectus for further information.
Market and Credit Risks	
<ul style="list-style-type: none"> • Market prices for the Units may be different from their NAV <ul style="list-style-type: none"> ◦ Units are transacted on the SGX-ST on a willing-buyer-willing-seller basis at market prices throughout the trading day of the SGX-ST. ◦ The price of any Units traded on the SGX-ST will depend, amongst other things, on market supply and demand, movements in the value of the Benchmark Index, prevailing financial market, corporate, economic and political conditions. ◦ As market prices of Units may sometimes trade above or below the NAV of the Fund, there is a risk that Holders may not be able to buy or sell at a price close to the NAV. • You are exposed to risk linked to the countries in which the Fund invests or is exposed to <ul style="list-style-type: none"> ◦ Investment of the Fund in United States or its exposure to this market means that the net asset value of the Fund and its trading prices will be affected by movements or downturns in this market. 	
Liquidity Risks	
<ul style="list-style-type: none"> • Units can be redeemed at NAV only through Participating Dealers <ul style="list-style-type: none"> ◦ Investors who wish to redeem their Units at NAV must approach a Participating Dealer to apply to the Manager to redeem the Units on their behalf. If they approach a broker or dealer who is not a Participating Dealer, that broker or dealer will have to place redemption orders through a Participating Dealer. In such a case there may be additional charges to such investor. • Redemptions in-kind are subject to a minimum amount <ul style="list-style-type: none"> ◦ The minimum amount for redemption in-kind is the USD equivalent to EUR 100,000 (in whole number of Units). • The secondary market may be illiquid <ul style="list-style-type: none"> ◦ You can sell your Units on the SGX-ST. However, you may not be able to find a buyer on the SGX-ST when you wish to sell your Units. While the Fund intends to appoint at least one market maker to assist in creating liquidity for investors, liquidity is not guaranteed and trading of Units on the SGX-ST may be suspended in various situations. ◦ If the Units are delisted from the SGX-ST or if the CDP is no longer able to act as the depository for the Units listed on the SGX-ST, the Units in the investors’ securities accounts with the CDP or held by the CDP may be repurchased (compulsorily or otherwise) by the designated Market Maker or otherwise at a price calculated by reference to the NAV of the Fund calculated as of a certain number of day(s) following the last trading day of the Fund on the SGX-ST (or such other date as may be determined by the Manager in consultation with the SGX-ST and/or the CDP). 	
Product-Specific Risks	
<ul style="list-style-type: none"> • You are exposed to counterparty risk related to the swap agreements entered into by the Fund and risks relating to swap agreements <ul style="list-style-type: none"> ◦ The Fund currently enters into swap agreements with a swap counterparty. There is a risk that the swap counterparty may default on its obligations under the swap agreements which may cause the Fund to incur significant losses. However the Fund is subject to a maximum single counterparty risk exposure of 10% of its NAV under the UCITS directive. ◦ If the swap counterparty defaults on its obligations, the NAV of the Fund may be adversely affected by fluctuations in the Basket of Balance Sheet Assets (which may not comprise shares that make up the Benchmark Index) during the period where an 	

<p>alternative swap counterparty is being sought for the Fund. Under certain circumstances, there may also be a risk that the realised value of any collateral due to the Fund under the funded swap agreements may not be sufficient to cap the loss suffered by the Fund to 10% of the Fund's NAV.</p> <ul style="list-style-type: none"> Any contractual remedies the Fund may have under the swap agreements may be subject to bankruptcy and insolvency laws which could affect the Fund's rights as a creditor. There is also a possibility that the swap transactions may be terminated under certain circumstances. <ul style="list-style-type: none"> You are exposed to foreign exchange risk and currency risk <ul style="list-style-type: none"> The Units are listed, quoted and dealt in on the SGX-ST in USD. If your functional currency is in SGD, you will be exposed to the foreign exchange risks for investing in the Fund. The Fund, Manager, Depository and the current swap counterparty are not constituted in Singapore and are governed by foreign laws. Certain investments by the Fund such as the swaps are also governed by foreign laws <ul style="list-style-type: none"> As a FCP in France registered as a UCITS IV scheme, the Fund is subject to the applicable laws and regulations in France and the relevant UCITS directives. The Manager, Depository and the current swap counterparty are established in France and governed by French laws. Any winding up of the investments of the Fund including the swap agreements which are governed by foreign laws may involve delays and legal uncertainties for Singapore investors. You are exposed to risks associated with indirect costs of the swap(s) <ul style="list-style-type: none"> Under the swap(s) entered into between the Fund and the swap counterparty, the Fund shall receive the performance of the Benchmark Index adjusted by indirect costs (such as (a) market value adjustments comprising the hedging activities of the swap counterparty and other costs and/or incidental gain; and (b) tax provisions arising from the hedging activities of the swap counterparty). Such adjustments may affect the ability of the Fund to achieve its investment objective. You are exposed to risks associated with custodians <ul style="list-style-type: none"> The Fund's assets are held in custody by the Depository and where applicable the assets pledged in favour of the Fund are held in custody by third party custodian(s) and/or sub-custodian(s). This exposes the Fund to a custody risk. You are exposed to the risk relating to a narrowly-based Benchmark Index <ul style="list-style-type: none"> Investors of the Fund are exposed to the United States technology sector, which may provide a lesser diversification of assets compared to a conventional index and, as a result, a relative concentration of holdings within this sector. 					
Potential Conflicts of Interest Risks					
<ul style="list-style-type: none"> The Manager is a subsidiary of Lyxor Asset Management, which is in turn a wholly-owned subsidiary of Société Générale (which is currently the swap counterparty, designated Market Maker, depository and the registrar of the Fund). Whilst compliance procedures require effective segregation of duties and responsibilities between the relevant divisions within the Société Générale Group, the possibility of conflicts of interest arising cannot be wholly eliminated. If such conflicts arise, the Manager will, in conjunction with the Depository, seek to ensure that Holders are treated fairly, and any such conflicts will be treated on an arm's length basis. 	Please refer to the "Conflicts of Interest" section of the Prospectus for further information.				
FEES AND CHARGES					
<p>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?</p> <p>Payable by an investor when subscribing or redeeming Units via the Participating Dealer of the Fund:</p> <table border="1"> <tr> <td>Subscription fee or preliminary charge**</td><td>Up to the higher of (i) EUR 50,000 (converted* to USD) per subscription request or (ii) 5% of the NAV per Unit multiplied by the number of Units subscribed.</td></tr> <tr> <td>Redemption or realisation charge**</td><td>Up to the higher of (i) EUR 50,000 (converted* to USD) per redemption request or (ii) 5% of the NAV per Unit multiplied by the number of Units redeemed.</td></tr> </table> <p>* Investors should note that the exchange costs and risks, if any, will be borne by the investors.</p> <p>** As of the date of the PHS, no subscription fee or redemption charge has been paid by investors since the inception of the Class D-USD of the Fund on 15 March 2007.</p> <p>Payable by an investor when buying or selling Units via the SGX-ST:</p> <p>For purchases and sales on the SGX-ST: There will be a clearing fee for trading of Units on the SGX-ST which is currently 0.04% of the transaction value, subject to a maximum of</p>	Subscription fee or preliminary charge**	Up to the higher of (i) EUR 50,000 (converted* to USD) per subscription request or (ii) 5% of the NAV per Unit multiplied by the number of Units subscribed.
