## About the fund

The Fund aims to achieve a long-term return, in excess of the long-term return that is typically achieved from European equity markets, by investing at any given time at least two thirds of its net assets in:

- companies having their registered office in Europe (including the United Kingdom),
- companies that do not have their registered office in Europe but either (i) carry out a predominant proportion of their business activity from Europe (including the United Kingdom), or (ii) are holding companies which predominantly own companies with registered offices in Europe (including the United Kingdom). The return will be a combination of capital and income returns.

John Bennett has a 28-year track record of managing European equities. He joined Henderson as a Director of European Equities in April 2011, as part of the Gartmore acquisition. John manages a number of Continental and Pan European funds as well as European long/short funds. John joined Gartmore in 2010 from GAM where he spent 17 years as a fund manager. During this time he managed their flagship European long only and European equity long/short hedge fund, which was launched in June 1998. Prior to GAM, John was a fund manager at Ivory and Sime and has been a Member of the Chartered Institute of Bankers in Scotland since 1987.

Asim Rahman joined Henderson in 2011 as a Fund Manager. He previously worked with John Bennett at Gartmore and GAM where he was an Investment Analyst from 2003. Prior to joining GAM, Asim was a Financial Analyst in Goldman Sachs' Investment Banking Division. Asim holds an MA in Economics from Cambridge University and is a CFA charterholder.

## General risks

- The value of the funds and the income from them is not guaranteed and may fall as well as rise. You may get back less than you originally invested.
- Past performance is not a guide to future performance.

## Risk profile

- This fund invests in shares, which may be more volatile than other asset classes such as cash or bonds. The fund may utilise derivatives for efficient portfolio management.
- As the fund invests in Europe it may have exposure to non-Euro currencies and therefore to changes in exchange rates which may cause the value of investments to fall or rise independently of the underlying holdings.
- This fund is designed to be used only as one component in several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this fund.

## Important information

Please note: due to rounding the figures in the holdings breakdowns may not add up to 100%.
