

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. This information is required by law to help you to understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Yenrenta

Sub-fund of KBC Renta

Capitalisation: LU0140479485 (ISIN-code for Capitalisation shares)

managed by KBC Asset Management S.A.

OBJECTIVES AND INVESTMENT POLICY

KBC Renta Yenrenta aims to generate a return by investing chiefly in securities denominated in Japanese yen, preferably bonds issued by companies and/or governments.

The fund invests at least 75% of its assets in bonds and debt instruments with an investment grade credit rating*, i.e. at least BBB-/Baa3 (long term), A3/F3/P3 (short term) from Standard & Poor's or an equivalent rating from Moody's or Fitch.

The fund invests at least 25% of its assets in bonds and debt instruments that have a credit rating below investment grade or that have not received a rating from the aforementioned agencies.

If an investment in securities denominated in Japanese yen seems inappropriate at a certain time, the fund can decide to invest temporarily in securities denominated in other currencies.

The fund reinvests any income received in the manner set out in the prospectus (for more details, see section 6 of the prospectus).

Orders for fund units are executed daily (for more details, see section 15.3,16,17 of the prospectus).

Investors may on request receive reimbursement of their UCITS units on any day (for more information, see section 17 of the prospectus).

RISK AND REWARD PROFILE

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This figure is based on data from the past, which is not always a reliable indication of risk and return in the future.

The risk and reward indicator is assessed regularly and can therefore go up or down.

The lowest figure does not mean that the investment is entirely free of risk. However, it does indicate that, compared with the higher figures, this product will generally provide a lower, but more predictable return. While the figure gives an indication of the return the fund might generate, it also indicates the risk involved. The higher the figure, the greater the potential return, but also the more difficult it is to predict this return. You might even sustain a loss.

The figure has been calculated from the viewpoint of an investor in Japanese yen.

Why does this fund have a risk and reward indicator of 3?

3 is typical for bond funds, which tend to have an indicator of 3 or 4. Bond funds are generally less sensitive to the markets than equity funds, which tend to have an indicator of 6 or even 7 in some cases. The value of bond funds is especially sensitive to changes in interest rates, since the interest on these bonds is fixed in advance and does not go up when market rates increase.

Moreover, an investment in this fund involves:

- A moderate level of inflation risk: there is no protection against an increase of the inflation.
- A moderate level of credit risk: the assets are primarily - but not exclusively - invested in bonds with an investment grade rating. Consequently the risk that an issuer can no longer meet its obligations is higher than in an investment that consists only of bonds with an investment grade rating. If investors are in doubt about the creditworthiness of the issuers of the bonds, the value of those bonds can fall.
- A high level of concentration risk: there is a concentration of investments in Japan.

There is no capital protection.

CHARGES

These charges are used to cover, among other things, the management costs of the fund, including marketing and distribution expenses. They reduce the investment's ability to grow. You can find additional information on the charges in sections 15.2 and 17 of the prospectus and the information for this sub-fund in the prospectus.

One-off charges taken before or after you invest

Entry charge	2.50%	This is the <i>maximum</i> that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you will pay less. For more information on the actual entry and exit charges, please contact your financial adviser or distributor.
Exit charge	1.00%	
Switching from one sub-fund to another		If you would like to exchange your units in this sub-fund* for units in another sub-fund, you will be charged a fee in certain cases (for more information, see section 16 of the prospectus).

Charges taken from the fund over a year

Ongoing charge	0.55 %	The figure for the ongoing charge is based on the charges for the year ending on 30 September 2017. This figure does not include transaction charges, except if the fund pays entry or exit charges when units in other funds are bought or sold, and may change from year to year.
----------------	--------	---

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

PAST PERFORMANCE

Past performance should not be seen as a good indicator of future performance.

The calculation of past performance includes all charges and fees, except taxes and entry and exit charges.

Start year: 2001

Currency: Japanese yen
