General information

BL FUND SELECTION (the "SICAV") is an Investment Company with Variable Capital with multiple subfunds under Luxembourg law and is subject to Part I of the law of 17th December 2010 relating to Undertakings for Collective Investments in accordance with directive 2009/65/CE such as amended (the "2010 Law").

It has been set up for an unlimited period on 9th July 2001 in the form of a mutual fund denominated FUND-MARKET FUND. On 18th October 2007, the meeting of shareholders decided to convert BL FUND SELECTION into an Investment Company with Variable Capital. Its Articles were the object of a complete revision during the Extraordinary General Meeting on 13th June 2012. This latest version of the coordinated Articles of Incorporation was published on 20th June 2012.

At the date of the present report, the SICAV offers the following sub-funds:

BL FUND SELECTION - Equities denominated in EUR BL FUND SELECTION - 50-100 denominated in EUR BL FUND SELECTION - 0-50 denominated in EUR.

The SICAV reserves the right to create new sub-funds at any time. In this case, the Prospectus shall be amended accordingly.

The SICAV is a single legal entity. The assets of a sub-fund are exclusively subject to the rights of the shareholders in this sub-fund and those of its creditors whose claims arose during the incorporation, functioning or liquidation of this sub-fund.

The following share classes may be issued for the sub-funds currently available for subscription:

- Class A shares: distribution shares denominated in the reference currency of the sub-fund, that give the holder the right to receive a dividend.
- Class B shares: accumulation shares denominated in the reference currency of the sub-fund, that do not give the holder the right to receive a dividend; the share of the amount for distribution that is not paid out to the holder is reinvested in the sub-fund.

At the date of the report, only class B share is issued.

The Net Asset Value ("NAV") per share is calculated on each entire bank business day in Luxembourg.

The NAV, the issue, redemption and conversion prices of all class of shares are available on each full bank business day in Luxembourg at the registered office of the SICAV and from the Principal Paying Agent.

Amendments to the SICAV's Articles of Incorporation shall be published in the "Mémorial, Recueil des Sociétés et Associations" in Luxembourg.

The SICAV publishes every year an annual report as at 30th September audited by its independent auditor and an unaudited semi-annual report as at 31st March. These financial reports include among others the statement of net assets of the SICAV and the number of shares outstanding at their respective date. They also include separate financial statements for each sub-fund. The combination currency of the SICAV is the euro.

The following documents are available to the public from the registered office of the SICAV and the registered office of the Management Company:

General information (continued)

- the SICAV's prospectus which comprises the Articles of Incorporation and the sub-fund factsheets.
- the SICAV's Key Investor Information ("KIID"),
- the SICAV's financial reports.

Moreover, the SICAV's shareholders may obtain information on retail portfolio of relevant sub-funds of the SICAV, upon request to the registered office of the Management Company (email: info@bli.lu).

The complaint settlement procedure foreseen by the CSSF Regulation N° 13-02 relating to the out-of-court resolution of complaints is available at the registered office of the SICAV.

The Annual General Meeting of shareholders is held each year at the registered office of the SICAV, or at any other place in Luxembourg as specified on the convening notice. The Annual General Meeting may be held abroad at the request of the Board of Directors if it deems it necessary in exceptional circumstances.

The Annual General Meeting of shareholders is held on the second Thursday of January at 15:00, or if this is a public holiday, on the next bank business day.

Immobilization of Bearer shares

Shareholders of the SICAV are informed that, in accordance with the Luxembourg law of 28th July 2014 concerning the immobilization of shares and units in bearer form (the "Law of 2014"), European Fund Administration (the "Depositary") has been appointed as depositary of the shares of the SICAV issued in bearer form ("Bearer Shares").

The Law of 2014 provides that Bearer Shares issued before 18th August 2014 should be remitted and immobilized with the Depositary and their holders be recorded in a register of Bearer Shares kept and maintained by the Depositary.

To immobilize their Bearer Shares with the Depositary, holders of Bearer Shares shall present themselves to Banque de Luxembourg, 14 boulevard Royal, L-2449 Luxembourg, acting as the Depositary's specifically appointed agent, and remit their Bearer Shares together with relevant identification documents.

Once the Bearer Shares are immobilized, holders may also, at any time, instruct the Depositary to convert their Bearer Shares into registered shares.

Rights (including voting rights and, if applicable, rights for distributions) attached to Bearer Shares that have not been immobilized with the Depositary by 18th February 2015 will be suspended until such Bearer Shares have been immobilized with the Depositary.

In addition, Bearer Shares that have not been deposited and immobilized with the Depositary or redeemed or converted into registered shares by 18th February 2016, will automatically be redeemed and cancelled, as set out in the Law of 2014. The redemption price will be deposited with the Caisse de Consignation in Luxembourg for the benefit of the person(s) that can validly establish its(their) entitlement to receive such redemption price.

The above does not aim at holders of registered shares or of uncertificated bearer shares and/or bearer shares in the form of a global certificate held in custody by a clearing and settlement system.

Report on activities

Market review

Economic momentum varied significantly during the period under review. On the one hand, economic growth in the developed world was quite robust (United States) or even increasing (Europe) while on the other hand development in much of the emerging world slowed (e.g. China, Indonesia and Mexico), and in some cases entered recession (Russia, Brazil). One of the explanatory factors for this situation is the sharp drop in oil prices. Prices per barrel for WTI oil (American) and Brent oil (North Sea) fell almost 50%, generating substantial gains in purchasing power for consumers in importing countries but also significant losses of resources for producing countries. This exceptional and brutal transfer of wealth was inevitably accompanied by adjustments to growth and inflation figures worldwide. In response in particular to the deflationary pressures caused by this, the European Central Bank (ECB) decided in early 2015 to launch a quantitative easing programme as part of its monetary policy through the acquisition of sovereign debt in the eurozone. The Federal Reserve (FED) for its part stopped buying assets but maintained its interest rates at 0%. Lastly, over the 12 months under review, the pace of growth of the Chinese economy continued to slow as a result of massive over-indebtedness and difficulties in its property and industrial sectors. This trend may be more structural than cyclical.

In this environment, the performance of financial asset classes was volatile and extremely varied overall. In the case of equities, the US stock market was down slightly, with the S&P 500 falling 2.65% (excluding dividends) between September 2014 and September 2015. The Stoxx 600 in Europe and the Japanese stock market Topix rose 1.37% (in euros) and 6.4% (in yen) respectively, seemingly reflecting investor preference for regions where central banks were most accommodating. Emerging countries were the most penalised, with the Emerging Markets MSCI falling 21.21% (in dollars). One of the key events on the equity markets was the return to volatility, with a number of correction waves occurring over the last 12 months. In August 2015, the S&P 500 in the US registered its first correction above 10% since the summer of 2011.

In the bond markets, yields on government bonds are still low. In Anglo-Saxon countries, long-term rates started to fall again, following inflation figures. Accordingly, 10-year government bond yields fell from 2.49% to 2.04% in the US and 2.42% to 1.76% in the United Kingdom. In the eurozone, bond yields also fell, additionally supported by the ECB's purchasing programme. In Germany, Italy and Spain, 10-year government bond yields declined from 0.95% to 0.59%, from 2.33% to 1.72% and from 2.13% to 1.89% respectively. As a result, the JP Morgan EMU Government Bond Index increased by 6.25% between September 2014 and September 2015. In contrast, the JP Morgan Emerging Market Bond Index Global Diversified index (the index of emerging market issues in US dollars) gave up 1.1%, suffering from investor concerns regarding the emerging class, including sovereign debt in hard currency.

In the currency markets, the euro fell against all other major currencies. It declined 11.5% against the US dollar, 5.2% against sterling, 9.8% against the Swiss franc and 3.2% against the yen. This general weakness of the euro was fuelled up to spring 2015 by the ECB's unconventional monetary policy measures. Trends tended to stabilise thereafter.

Report on activities

BL FUND SELECTION - Equities

Portfolio review

Performance from September 2014 to September 2015: BL FUND SELECTION - Equities: +5.76%

Allocation of assets:

The weighting of net equities varied between 91% and 95% throughout the financial year. This high weighting seemed justified as risk aversion was contained due to the substantial interventions of the four main central banks. In this zero interest rate environment, investors have been steered towards risky assets and thus provided support for the stock markets.

The weighting of Total Return funds varied between 4.5% and 7%. At the end of the period, it was 7% of the portfolio.

Fund selection:

Within the equity component, the weighting given to European equities remained preponderant and was even reinforced. To gain exposure, assets were mainly allocated to 2 components:

- A component consisting of opportunistic funds that may be more relevant in a 'risk-on' market environment. In fact, the added value of these funds is more significant during periods when expertise in stock picking comes to the fore in a market less focused on macro-economic data.
- Example of portfolio funds: Alken European Opportunities, MainFirst Top European Ideas, JPMorgan Euroland Dynamic (introduced in January) and the F&C European Small Cap fund which specialises in small and mid-caps.
- A second component, at the heart of the investment philosophy, which focuses on funds investing in high quality stocks and dividends such as *Fidelity FAST Europe, Schroeder European Special Situation, JPM Europe Equity Plus* and *Amundi ETF MSCI Europe Healthcare.*

The component allocated to US equities was reduced as the market seemed to have limited growth potential after rising for 6 consecutive years. The share allocated to high-conviction funds was increased at the expense of ETFs. While these opportunistic funds had difficulty beating the S&P 500 index for several years, 2015 seemed to be more favourable to this management style.

Example of portfolio funds: Vontobel US Equity, Pioneer US fundamental Growth , The Alger American Asset Growth

In the zone comprising emerging countries, which is still a long-term conviction, the manager has remained cautious, like in the previous year. Indeed, given the uncertainties around many Asian countries, the strengthening of the dollar - which undermines their financing capacity – and the slowdown in the Chinese economy, this area has remained relatively under-represented. Funds targeting quality securities or dividend yields were prioritised.

Example of portfolio funds: Schroder Asian Total Return, Vontobel Far East Equity, Fidelity FAST Emerging, Magellan.

Exposure in Japan was maintained at 7%.

Example of portfolio funds: Coupland Cardiff Japan, Julius Baer Japan Stock Amundi ETF Topix Eur hedged

Report on activities

BL FUND SELECTION - 50-100

Portfolio review

Performance from September 2014 to September 2015: BL FUND SELECTION - 50-100: +6.85%

Allocation of assets:

The allocation of equity was actively managed. Throughout the period it varied between 58% and 78%. The periods of stress, linked mainly to the Greek crisis and the Chinese slowdown, favoured increases in equity weightings in order to take advantage of the recovery, considering that investor fears were becoming excessive. Conversely, rapid and accentuated expansion phases were favourable to profit-taking. Keeping volatility at a reasonable level remains a permanent aim. The equity universe seems to be the best way to generate performance, with the quid pro quo making erratic movements possible, which managers seek to exploit so that the fund's risk/return profile remains as stable as possible.

Despite renewed and more marked volatility, the financial environment remained relatively close to the previous year, as (risk-free) government bond markets were expensive and offered little value. Consequently, the bond weighting in the portfolio remained below 5%. Total Return funds retained a key place in the portfolio, at about 23%.

Fund selection:

Within the equity component, the weighting given to European equities remained preponderant and was even reinforced. Exposure was mainly in two components:

- A component consisting of opportunistic funds that may be more relevant in a 'risk-on' market environment. In fact, the added value of these funds is more significant during periods when expertise in stock picking comes to the fore in a market less focused on macro-economic data.
- Example of portfolio funds: Alken European Opportunities, MainFirst Top European Ideas, JPMorgan Euroland Dynamic (introduced in January) and the F&C European Small Cap fund which specialises in small and mid-caps.
- A second component, at the heart of the investment philosophy, which focuses on funds investing in high quality stocks and dividends such as *Fidelity FAST Europe, Invesco Pan European Structured, JPM Europe Equity Plus* and *Amundi ETF MSCI Europe Healthcare.*

The component allocated to US equities was reduced as the market seemed to have limited growth potential after rising for 6 consecutive years. The share allocated to high-conviction funds was increased at the expense of ETFs. While these opportunistic funds had difficulty beating the S&P 500 index for several years, 2015 seemed to be more favourable to this management style. Preference was given to funds investing in high quality stocks such as *Vontobel US Equity* and *Pioneer US fundamental Growth*.

In the zone comprising emerging countries, which is still a long-term conviction, the manager has remained cautious, like in the previous year. Indeed, given the uncertainties around many Asian countries, the strengthening of the dollar - which undermines their financing capacity - and the slowdown in the Chinese economy, this area has remained relatively under-represented. Funds targeting quality securities or dividend yields were prioritised.

Example of portfolio funds: Schroder Asian Total Return, Fidelity FAST Emerging, Magellan.

Report on activities

In the Total Return funds, only funds which comply with UCITS regulations are incorporated. These are funds that employ alternative strategies. The manager notably prioritised the weighting of 'long-short equity' strategies whose risk-reward profile seemed well positioned in view of the volatile equity markets and the emphasis on stock picking.

Examples of funds: Marshall Wace TOPS Developed Europe, Schroder GAIA Sirios, Schroder GAIA Ergerton, DNCA Miura

BL FUND SELECTION - 0-50

Portfolio review

Performance from September 2014 to September 2015: BL FUND SELECTION - 0-50: +3.24%.

Allocation of assets and fund selection:

Despite renewed and more marked volatility, the financial environment remained relatively close to the previous year, as (risk-free) government bond markets were expensive and offered little value. Consequently, the bond weighting in the portfolio was kept low and the fund sought to generate performance through dynamic exposure to equity risk and a more structural exposure to absolute performance strategies.

In this context equity risk was also managed actively and moved between 4% and 37% over the period. These movements were mainly achieved through futures contracts which are both flexible and cheap to use.

Within the equity component, the weighting given to European equities remained preponderant and was even reinforced. The existing position in the opportunistic fund Memnon European and the F&C European Small Cap fund, specialised in small and mid-caps, was retained. After selling off the Oyster European Selection fund in September 2014 following the departure of its manager, we decided to follow him in his new venture and thus invested in the Eleva European Selection fund in the first quarter of 2015. To finance this purchase, we sold off the DWS Aktien Stratégie Deutschland fund to take profits on this tactical position which proved successful. We gradually built up our position in the Julius Baer Euroland Value fund in 2015 to take advantage of the recovering economic cycle in the eurozone. To do this, our positions in US equities were reduced as the market seemed to have limited growth potential after rising for 6 consecutive years. With the rise in the dollar accelerating, it seemed risky to maintain an emerging exposure and the remainder of our exposure in this segment was sold off at the end of 2014.

The bond component remains a minority holding in the portfolio and is focused on segments or strategies with little or no dependence on trends in American monetary policy. This is the case for example with the Schroder GAIA Cat Bond fund. Our position in the Gavekal China Fixed Income fund was reduced in August 2015 in order to distance ourselves from the minor devaluation in the Chinese currency. However, it is still in the portfolio because its risk/return profile remains attractive at this stage.

The weighting in long/short directional equity strategies actions continued to rise over the financial year, incorporating in particular the Liontrust European Strategic Equity and MLIS Gotham US Equity Long/Short funds. The holding in the Schroder GAIA Egerton Equity fund was stepped up when it was temporarily reopened to subscriptions whereas the Henderson Pan European Alpha fund was sold off in January 2015 following the departure of its manager.

To conclude, the arbitrage strategies had mixed fortunes, preventing an overall conclusion from being drawn. The Lutetia Patrimoine fund, which focuses on company mergers and acquisitions, had an uneven year but ended 1.7% higher. Its alter ego, Altimeo Optimum, did not have the same success due to a very unsettled summer in 2015. It lost 15.5% over 12 months. The composition of the portfolio component dedicated to long/short market neutral equity strategies changed considerably over the year, with the introduction of Exane Overdrive, JL Equity Market Neutral and JPM European Equity Absolute Alpha. The performance history of these three funds is reassuring as regards their capacity to generate consistent, decorrelated performance. In contrast, the position in GAM Star Emerging Alpha was sold off as the environment of emerging markets adds little to this type of fundamental, contrary strategy.

Report on activities

Managed futures strategies significantly sustained the portfolio's performance up to March 2015, before the reversal in the main trends in spring prompted them to give up the gains previously acquired. These strategies maintain a significant role in the portfolio due to their high level of decorrelation compared to traditional strategies.

The section of the audit report labelled "Responsibility of the Board of Directors of the SICAV for the financial statements" corresponds to the International Standards on Auditing (ISA) established by the International Federation of Accountants.

Without making any judgement on such section of the audit report, the Board of Directors of the SICAV recalls that its responsibility is determined by law. The Board of Directors of the SICAV is, more particularly, responsible for the true preparation and presentation of the annual accounts in accordance with European Directives as implemented into Luxembourg law.

The Board of Directors of the SICAV considers that it has fully complied with these obligations.

Luxembourg, 11th November 2015

The Board of Directors

Note: The information in this report represents historical data and is not an indication of future results.

Independent auditor's report

To the Shareholders of **BL FUND SELECTION** Luxembourg

We have audited the accompanying financial statements of BL FUND SELECTION and of each of its sub-funds, which comprise the statement of net assets and the statement of investments and other net assets as at 30th September 2015 and the statement of operations and other changes in net assets for the year then ended, and a summary of significant accounting policies and other notes to the financial statements.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation and presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the "réviseur d'entreprises agréé"

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgement of the "réviseur d'entreprises agréé", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the "réviseur d'entreprises agréé" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

Independent auditor's report (continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of BL FUND SELECTION and of each of its sub-funds as of 30th September 2015, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Other matter

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

Notes to the financial statements

as at 30th September 2015

Note 1 - Significant accounting policies

a) Presentation of the financial statements

The financial statements of the SICAV are established in accordance with the Luxembourg legal and regulatory requirements in force in Luxembourg concerning Undertakings for Collective Investment.

b) Valuation of assets

- a) The value of cash in hand or on deposit, bills and notes payable on presentation, accounts due, prepaid expenses and dividends and interest declared and fallen due but not yet received consist of the nominal value of such assets, except, however, in the event that it seems that such value can be realised, in which event the value shall be determined by deducting a sum which the Directors of the SICAV consider appropriate to reflect the real value of such assets.
- b) Securities, money market instruments and financial derivative instruments listed on a stock exchange or traded on another regulated market that functions regularly, is recognised and is open to the public are determined according to the latest available price.
- c) In the cases which investments of the SICAV listed on a stock exchange or traded on another regulated market, which functions regularly, is recognised and is open to the public traded by market-makers outside the stock exchange on which the investments are listed or the market on which they are traded, the Board of Directors may determine the main market for the investments in question, which shall be valued according to the latest available price.
- d) The financial derivative instruments not listed on an official stock exchange or traded on another regulated market, that functions regularly and is recognised and is open to the public, will be valued in accordance with market practices.
- e) Cash and money-market instruments may be valued at their nominal price plus interest, or on the basis of the amortized cost. All other assets may, when this method is feasible, be valued on the same basis.
- f) Holdings of an open-ended undertakings for collective investment are valued at the latest official Net Asset Value per share or at the latest estimated Net Asset Value if this is more recent than the official Net Asset Value. In this case, the SICAV must provide assurance that the valuation method used for this estimation is consistent with the valuation method used to calculate the official Net Asset Value.

g) In the case of

- securities, money-market instruments and/or financial derivative instruments held in portfolio
 on the Valuation Day that are not listed or traded on an official stock exchange or other
 official regulated market, which functions regularly and is open to the public; or,
- securities, money-market instruments and/or financial derivative instruments listed and traded on a stock exchange or on another market but for which the price determined pursuant to the 2nd subparagraph, is not, in the opinion of the Board of Directors, representative of the true value of these transferable securities, money-market instruments and/or financial derivative instruments, or

Notes to the financial statements (continued)

as at 30th September 2015

 for financial derivative instruments traded over-the-counter and/or securities representing Undertakings for Collective Investment, the price determined in accordance with 4th or 6th subparagraphs, is not, in the opinion of the Board of Directors, representative of the real value of these financial derivative instruments or securities representing Undertakings for Collective Investment.

the Board of Directors estimate the probable realisation value prudently and in good faith.

The products structured from the CIC range were valued by the Banque de Luxembourg (which is the market maker for these products).

c) Acquisition cost of securities in the portfolio

The acquisition cost of the securities held by each sub-fund that are denominated in currencies other than the reference currency of the sub-fund is converted into this currency at the exchange rate prevailing on the date of purchase.

d) Net realised gain (loss) on sales of securities

The realised gains and losses on sales of securities are calculated on the basis of the average acquisition cost.

e) Investment portfolio income

Dividend income is recorded at the ex-date, net of any withholding tax.

Interest income accrued and payable are recorded, net of any withholding tax.

f) Valuation of forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contracts. Unrealised gains or losses are recorded in the statement of net assets. Net Variation of unrealised gains or losses and net realised gains or losses are recorded in the statement of operations and other changes in net assets.

g) Valuation of futures contracts

Futures contracts are posted off-balance sheet and valued at the last settlement or close price on the stock exchanges or regulated markets. Unrealised gains or losses are recorded in the statement of net assets. Net Variation of unrealised gains or losses and net realised gains or losses are recorded in the statement of operations and other changes in net assets.

h) Formation expenses

Formation expenses are amortised on a straight line basis over a period of 5 years.

If the launch of the sub-fund occurs after the SICAV's launch date, the costs of formation in relation to the launch of the new sub-fund shall be charged to such sub-fund alone and may be amortized over a maximum of five years with effect from the sub-fund's launch date.

Notes to the financial statements (continued)

as at 30th September 2015

i) Conversion of foreign currencies

Cash at banks, other net assets and liabilities and the market value of the securities in portfolio expressed in currencies other than the currency of the sub-fund are converted into this currency at the exchange rate prevailing on the date of the report. Income and expenses expressed in currencies other than currency of the sub-fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains or losses are recorded in the statement of operations and other changes in net assets.

The sub-funds are denominated in the following currencies:

| BL FUND SELECTION - Equities | denominated in EUR |
|------------------------------|--------------------|
| BL FUND SELECTION - 50-100 | denominated in EUR |
| BL FUND SELECTION - 0-50 | denominated in EUR |

j) Combined financial statements

The combined financial statements of the SICAV are established in EUR and equal the sum of the corresponding captions in the financial statements of each sub-fund.

k) Transaction fees

Transaction costs disclosed under the caption "Transaction fees" in the statement of operations and other changes in net assets are mainly composed of supported fees by the SICAV included in the purchase and sale price of transactions, of liquidation fee of transactions paid to custodian bank as well as of fees relating to the transactions on financial instruments and on derivatives.

Note 2 - Management fees

The SICAV has appointed BLI - BANQUE DE LUXEMBOURG INVESTMENTS S.A. as Management Company. Its role includes the tasks of managing the assets, the administration and the distribution services of the SICAV. BLI - BANQUE DE LUXEMBOURG INVESTMENTS S.A. is subject to the provisions of Chapter 15 of the 2010 Law.

For the management of each sub-fund, BLI - BANQUE DE LUXEMBOURG INVESTMENTS S.A. receives the following commission expressed in percentage per annum and based on the net assets of each sub-fund:

| Sub-funds | Class B shares |
|--------------------------------|----------------|
| - BL FUND SELECTION - Equities | up to 1.25% |
| - BL FUND SELECTION - 50-100 | up to 1.25% |
| - BL FUND SELECTION - 0-50 | up to 0.60% |

The management fee is calculated on the basis of the average net assets of each sub-fund for the relevant quarter and is payable quarterly in arrears.

The Management Company shall only be entitled to receive management fees in conformance with assets in portfolio managed by the Management Company or by another company affiliated to the Management Company by means of a substantial direct or indirect shareholding.

Note 3 - Management fees of the target funds

The management fee of the target funds in which the SICAV invests rises to maximum 2.5% p.a., calculated on the net assets invested in the target funds.

Notes to the financial statements (continued)

as at 30th September 2015

Note 4 - Performance fees

For Class B shares of the sub-fund BL FUND SELECTION - 0-50, the Manager is entitled to a performance fee corresponding to 10% of the annual increase in the NAV multiplied by the average net assets for the relevant financial year. This annual increase (the "Performance") is defined as being the positive difference between the final NAV at the end of the financial year in question and the final NAV of the previous financial year, expressed as a percentage.

The NAV taken as the reference NAV for the first financial year is the first NAV calculated. The NAV taken as the reference NAV for subsequent financial years is that one of the previous financial year-end closing.

No performance fee is payable if the performance is negative.

The performance fee is payable on an annual basis in the month following the end of the relevant financial year.

At the date of the report, the performance fee was recorded for the following sub-fund and amounted to:

- BL FUND SELECTION - 0-50

EUR 1,147,966.85

Note 5 - Central administration costs

The item "Central administration costs" disclosed in the statement of operations and other changes in net assets is mainly composed of administrative agent fees.

Note 6 - Subscription, redemption and conversion fees

The issue price is equal to the NAV per share plus a subscription fee. The issue price may be increased by other fees or charges applicable in the respective countries in which the SICAV is marketed. When the shares are issued, the following fees shall apply:

| - BL FUND SELECTION - Equities | up to 5.00% |
|--------------------------------|-------------|
| - BL FUND SELECTION - 50-100 | up to 5.00% |
| - BL FUND SELECTION - 0-50 | up to 5.00% |

No commission on redemptions or conversions is paid for any sub-fund.

Note 7 - Management fees retrocession

Management fees retrocessions received by the SICAV and related to its investments in UCITS or other UCIs are recorded under the caption "Commissions received" in the statement of operations and other changes in net assets.

Notes to the financial statements (continued)

as at 30th September 2015

Note 8 - Subscription duty ("taxe d'abonnement")

The SICAV is governed by Luxembourg law.

Pursuant to the legislation and regulations in force, the SICAV is subject to an annual subscription duty of 0.05% which is payable quarterly and calculated on the basis of the net assets of each sub-fund on the last day of each quarter.

According to article 175 (a) of the amended law of 17th December 2010, the amount of net assets invested in undertakings for collective investment already subject to the subscription duty are exempt from this duty.

Note 9 - Belgian annual tax

The Belgian regulation (the inheritance tax code, tome II bis) imposes to Undertakings for Collective Investment which were authorised to market their shares publicly in Belgium, the payment of an annual tax. This tax amounts to 0.0925% on the total of the net sums invested in Belgium at 31st December of the previous year, starting from their registration with the "Financial Services and Markets Authority" ("FSMA").

This tax is paid at the latest on 31st March of each year.

This tax is recorded in the caption "Other taxes" of the statement of operations and other changes in net assets.

Note 10 - Risk Management

As required by Circular CSSF 11/512, the Board of Directors needs to determine the global risk exposure of the SICAV either by applying the commitment approach or the VaR approach. In terms of risk management, the Board of Directors of the SICAV decided to adopt the commitment approach as a method of determining the global exposure.

Note 11 - Changes in investments

The statement of changes in investments for the period in reference to the report is available free of charge at the registered office of the SICAV and from the Principal Paying Agent.

Note 12 - Futures contracts

As at 30th September 2015, the following sub-fund of the SICAV is committed in the following futures contracts with BANQUE DE LUXEMBOURG, Luxembourg:

BL FUND SELECTION - 50-100

| | Number of contracts | Denomination | Currency | Commitments (in EUR) | Unrealised result (in EUR) |
|----------|---------------------|--|----------|-------------------------|----------------------------------|
| Purchase | 200 | Euro Stoxx 50 EUR (Price) Index FUT 12/15 EUX | EUR | 6,052,000.00 | 96,480.00 |
| Sale | 30 | S&P 500 Index FUT 12/15 CME | USD | -12,527,288.93 | 506,237.47 |
| | | | | | 602,717.47 |

Notes to the financial statements (continued)

as at 30th September 2015

Note 13 - Income regularisation

Since its inception, the SICAV has continually applied an income-regularisation procedure using a methodology based on the "permanence" principal. Income regularisation was carried out on the basis of the net income recorded over the course of the financial year, included in the issue price and paid by the person who acquired the shares, and recovered in the redemption price by the person to whom they were redeemed. The captions included in the income account were, in accordance with investment law, recorded without the income being regularised. The regularisation of income determined by the SICAV was accounted for during the calculation of taxable amounts in accordance with the regulations currently in force.
