General

CS Investment Funds 11 ("the Fund") is a Luxembourg mutual investment Fund with subfunds ("umbrella fund"). The Fund was registered in Luxembourg as an undertaking for collective investment in transferable securities under Part I of the law of 17.12.2010, as amended.

As of 30.09.2016, the Fund had 7 subfunds.

Summary of significant accounting policies

a) Presentation of the financial statements

The financial statements of the Fund are established in accordance with the Luxembourg legal and regulatory requirements concerning undertakings for collective investment.

b) Computation of the net asset value of each subfund

The net asset value of each subfund is determined each day on the basis of income/expenses accrued up to the same day, transactions in the investment portfolio accruing up to and including the preceding day and the valuation of net assets on basis of the last known stock exchange prices and foreign exchange rates.

The financial statements are presented on the basis of the latest NAV calculated during the financial period (i.e. 30.09.2016).

The Fund applies partial swing price. The net asset value calculated will be increased by up to a maximum of 2% per unit in the event of a net surplus of subscription applications or reduced by up to a maximum of 2% per unit in the event of a net surplus of redemption applications in respect of the applications received on the respective Valuation Day.

c) Valuation of investment securities of each subfund

Securities which are listed on a stock exchange or which are regularly traded on such are valued at the last known purchase price. If such a price is not available for a particular exchange session, but a closing mid-price (the mean between the listed closing bid and asked prices) or a closing bid price is available, then the closing mid-price, or alternatively the closing bid price, may be taken as a basis for the valuation.

If the security is traded on more than one exchange, valuation is made primarily by reference to the exchange on which this security was purchased, or on which it is primarily traded.

In the case of securities for which trading on a stock exchange is not significant, but which are bought and sold on a secondary market with regulated trading among security dealers with the effect that the price is set on a market basis, the Management Company may decide to base the valuation on this secondary market.

Securities traded on a regulated market are valued in the same way as securities listed on a stock exchange.

Securities that are not listed on a stock exchange and are not traded on a regulated market are valued at their latest available market price; if no such price is available, the Management Company shall carry out valuation of these securities in accordance with other criteria to be established by the Management Company and on the basis of the selling prices the value of which shall be estimated with due care and good faith.

If a valuation in accordance with the above rules is rendered impossible or incorrect owing to special or changed circumstances, the Management Company is entitled to use other generally accepted valuation principles in order to value the Fund's assets.

In exceptional circumstances further valuations may be made on the same day; such valuations are valid for any application for purchase and/or redemption subsequently received.

d) Cash at banks and at brokers

Cash at banks and at brokers includes cash in hand, margin calls and deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less and bank overdrafts.

e) Net realised gain/loss on sales of investments of each subfund

The realised gains or losses on the sales of securities are determined on basis of the average acquisition cost.

f) Foreign exchange conversion

The financial statements are kept in reference currency of each subfund and the consolidated financial statements are kept in CHF.

Cash at banks, other net assets and the value of portfolio securities in currencies other than the reference currency of each subfund are converted into the reference currency at the foreign exchange rate prevailing on the date of valuation.

Income and expenses in currencies other than the reference currency of each subfund are converted into the reference currency at the foreign exchange rate applicable at the date they accrue to the subfund.

Realised gains or losses on foreign currencies are accounted for in the statement of operations.

The acquisition cost of securities in currencies other than the reference currency of each subfund is converted into the reference currency at the foreign exchange rate valid at the date of acquisition.

g) Transactions on investments in securities of each subfund

The transactions on investments in securities are booked on a trade date basis.

h) Valuation of financial futures contracts of each subfund

Unmatured financial futures contracts are valued at valuation date at market rates prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and are shown under unrealised gain/loss on financial future contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations under "Net realised gain (loss) on financial futures contracts".

i) Valuation of forward foreign exchange contracts of each subfund

Unmatured forward foreign exchange contracts are valued at valuation date at forward exchange rates prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and are shown under unrealised gain/loss on forward foreign exchange contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations under "Net realised gain (loss) on forward foreign exchange contracts".

j) Valuation of option contracts of each subfund

Premiums received on issued options are recorded as liabilities and premiums paid on the purchase of options are recorded as assets in the statement of net assets. Option contracts outstanding on the reporting date are valued at the last settlement or close price on the stock exchanges or regulated markets. Realised and unrealised gains or losses are recorded in the statement of operations / changes in net assets.

k) Securities Lending

The Fund can practise lending of securities included in its portfolios of its subfunds. The Fund may only lend securities within a standardized system of securities lending organised by a recognised institution of securities compensation or by first class financial institutions specialised in this type of operations. The income from securities lending is showing the gross income from securities lending less the direct and indirect costs and fees retained by the counterparty acting as securities lending principal.

l) Allocation of accrued expenses

Accrued expenses which can be allocated directly to a subfund are charged to this subfund. Accrued expenses which cannot be allocated directly are divided among the subfunds in proportion to the net assets of each subfund.

m) Investment income

Dividend income is recorded at the ex-date, net of any withholding tax. Interest income is accrued on a prorata temporis basis, net of any withholding tax.

Management fee

(see detail at subfund level)

As remuneration for its services and reimbursement of its expenses, the Management Company is entitled to a monthly management fee, payable at the end of each month and calculated on basis of the average of the daily net asset value of each subfund during the relevant month, from which are deducted fees paid by the subfund for investment advice.

Transaction costs

Transactions costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the period. Transaction fees are included in the cost of securities purchased and sold.

For the period ended on 30.09.2016, the Fund incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, (including derivatives instruments or other eligible assets) as follows:

Subfund	CCY	Transaction cost
Credit Suisse (Lux) European Property Equity Fund	EUR	18,539.80
Credit Suisse (Lux) Global Value Equity Fund	EUR	53,567.90
Credit Suisse (Lux) Italy Equity Fund	EUR	104,525.15
Credit Suisse (Lux) Small and Mid Cap Europe Equity Fund	EUR	782,526.04
Credit Suisse (Lux) Small and Mid Cap Germany Equity Fund	EUR	89,742.24
Credit Suisse (Lux) USA Growth Opportunities Equity Fund	USD	888,605.24
Credit Suisse (Lux) USA Value Equity Fund	USD	12,788.86

Not all transaction costs are separately identifiable. For fixed income investments, forward foreign exchange contracts and for some other derivative contracts, transaction costs will be included in the purchase and sales price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Subfund.

Taxation

Under the prevailing laws and regulations, the Fund is subject in Luxembourg, on the basis of its investments, to a "taxe d'abonnement" at the annual rate of 0.05%, payable quarterly and calculated on the basis of the net assets of each subfund at the end of each quarter. In the case of Units that may only be acquired by institutional investors, this annual tax rate is 0.01%.

The portion of net assets, which is invested in other undertakings for collective investment in securities under Luxembourg law, is exempt from this tax.

The Fund also has to pay taxes in different emerging countries on realized gains on sales of securities. The taxes on realized gains and the change of accruals in unrealized gains are included in the statement of operations under "Net realised gain (loss) on sales of investments".

Dividends received by the Fund may be subject to a non recoverable withholding tax.

Total Expense Ratio (TER)

(see detail at subfund level)

The TER expresses the sum of all costs and commissions charged on an ongoing basis to the Fund's assets, taken retrospectively as a percentage of the average assets. The TER is calculated following the SFAMA guideline.

No TER is disclosed for unit classes launched less than 6 months before closing.

Changes in the composition of the securities portfolio

Changes in the composition of the securities portfolio during the reporting period are available to unitholders free of charge at the registered office of the Management Company or the local representatives in the countries where the Fund is registered.

Exchange Rates

The consolidated financial statements are kept in CHF. For this purpose, the financial statements of the subfunds are converted into CHF at the foreign exchange rates as of 30.09.2016:

1	EUR	=	1.08940	CHF
1	USD	=	0.96939	CHF

Fund performance

(see detail at subfund level)

The performance of the year Y is based on the net asset values as calculated on the last business day of the year Y respectively Y-1. Those net asset values reflect the market prices of the investments as of the last business day of the year Y respectively Y-1. The YTD (year-To-Date) Performance includes the period from 01.01.2016 until 30.09.2016.

Historical performance is no indicator of current or future performance.

The performance data given does not take into account commissions and costs incurred in the purchase or redemption of fund units.

For units launched more than 3 years ago no performance since inception is disclosed.

Performance of distributing units includes reinvestments of dividends.

The performances are calculated based on the swung NAV per unit.

Risk management

The global exposure of the subfunds will be calculated on the basis of the commitment approach.
