Semiannual Report 2022

Investment Fund Organized under Luxembourg Law

Contents

Semiannual report 2022

for the period from January 1, 2022, through June 30, 2022

General information	2
Semiannual report DWS Eurorenta	6

General information

The fund described in this report is subject to the laws of Luxembourg.

Performance

The investment return, or performance, of a mutual fund investment is measured by the change in value of the fund's units. The net asset values per unit (= redemption prices) with the addition of intervening distributions, which are, for example, reinvested free of charge within the scope of investment accounts at DWS Investment S.A., are used as the basis for calculating the value. Past performance is not a guide to future results.

The corresponding benchmark – if available – is also presented in the report. All financial data in this publication is as of June 30, 2022 (unless otherwise stated).

Sales prospectuses

Fund units are purchased on the basis of the current sales prospectus and management regulations, as well as the key investor information document, in combination with the latest audited annual report and any semiannual report that is more recent than the latest annual report.

Issue and redemption prices

The current issue and redemption prices and all other information for unitholders may be requested at any time at the registered office of the Management Company and from the paying agents. In addition, the issue and redemption prices are published in every country of distribution through appropriate media (such as the Internet, electronic information systems, newspapers, etc.).

Russia/Ukraine crisis

The conflict between Russia and Ukraine marked a dramatic turning point in Europe, which, among other things, is expected to have a lasting effect on Europe's security architecture and energy policies and to cause considerable volatility. However, the specific or possible medium-to-long-term effects of the crisis on the economy, individual markets and sectors, as well as the social implications, cannot be conclusively assessed due to the uncertainty at the time of preparing this report. The Management Company is therefore continuing its efforts, within the framework of its risk management strategy, to assess these uncertainties and their possible impact on the activities, liquidity and performance of the fund. The Management Company is taking all measures deemed appropriate to protect investor interests to the greatest possible extent.

Coronavirus crisis

The coronavirus has spread since January 2020 and has subsequently led to a serious economic crisis. The rapid proliferation of the virus was reflected in, among other things, significant price market distortions and substantially increased volatility at the same time. Restrictions on freedom of movement, repeated lockdown measures, production stoppages, as well as disrupted supply chains, are exerting major pressure on downstream economic processes, which caused global economic prospects to deteriorate considerably. In the interim, noticeable recoveries and some new highs were to be observed in the markets – due, among other factors, to monetary and fiscal policy support programs and extensive vaccination and testing campaigns. Nevertheless, the specific or possible medium-to-long-term effects of the crisis on the economy, individual markets and sectors as well as the social implications in respect of the vigorous global spread of the virus or the emergence of various mutations and the associated high level of uncertainty at the time of preparing this report cannot be reliably assessed. There may therefore still be a significant impact on the respective fund's assets. A high level of uncertainty exists in relation to the financial implications of the pandemic, as these are dependent on external factors such as the spread of the virus/emerging variants and the measures taken by individual governments and central banks, the successful stemming of the development of infection rates in connection with vaccination rates and the speedy and sustainable restart of the economy.

The Management Company is therefore continuing its efforts, within the framework of its risk management strategy, to assess these uncertainties and their possible impact on the activities, liquidity and performance of the fund. The Management Company is taking all measures deemed appropriate to protect investor interests to the greatest possible extent. In coordination with the service providers, the Management Company observed the consequences of the coronavirus crisis and adequately included its impact on the fund and the markets in which the fund invests into its decision-making processes. As of the date of this report, no significant redemption requests had been made in respect of the fund; the effects on the fund's unit certificate transactions are continuously monitored by the Management Company; the performance capability of the most important service providers did not experience any significant impairment. In this context, the Management Company of the fund satisfied itself in line with numerous national guidelines and following discussions with the most important service providers (especially the Depositary, the portfolio management and the fund administration) that the measures taken and the business continuity plans put in place (including extensive hygiene measures on the premises, restrictions on business travel and events, precautions to ensure the reliable and smooth running of business processes in the event of a suspected case of coronavirus infection, expansion of the technical options for mobile working) will curb the currently foreseeable or ongoing operational risks and will ensure that the fund's activities will not be disrupted.

At the time of preparing this report, the Management Company is of the opinion that there are no signs indicating any doubt on the ability of the respective fund to continue as a going concern, nor were there any liquidity problems for the fund.

Notes on valuation

The Management Company determines the net asset values per unit and performs the valuation of the assets of the fund. The basic provision of price data and price validation are performed in accordance with the method introduced by the Management Company on the basis of the legal and regulatory requirements or the principles for valuation methods defined in the fund prospectus.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Investments reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Footnotes

- 1 Does not include positions with a negative balance, if such exist.
3 These securities are completely or partly lent as securities loans. The equivalent value of the lent securities is EUR 130 731 413.43.

Other	3 366 417.72	-	-
Quality/Qualities:			
Insofar as securities lending transactions, reverse repurchase agreements or transactions with OTC derivatives (except forward currency transactions) are concluded, collateral in one of the following forms is provided to the fund:			
<ul style="list-style-type: none"> - Liquid assets such as cash, short-term bank deposits, money market instruments according to the definition in Directive 2007/16/EC of March 19, 2007, letters of credit and first-demand guarantees that are issued by top-rated credit institutions not affiliated with the counterparty, or bonds issued by an OECD member country or its local authorities or by supranational institutions and authorities at local, regional or international level, regardless of their term to maturity - Units of a collective investment undertaking investing in money market instruments that calculates a net asset value daily and has a rating of AAA or an equivalent rating - Units of a UCITS that invests predominantly in the bonds and equities listed under the next two indents - Bonds, regardless of their term to maturity, that have a minimum rating of low investment-grade - Equities admitted to or traded in a regulated market in a member state of the European Union or on an exchange in an OECD member country, provided that these equities are included in a major index 			
The Management Company reserves the right to restrict the permissibility of the aforementioned collateral. Furthermore, the Management Company reserves the right to deviate from the aforementioned criteria in exceptional cases.			
Additional information on collateral requirements can be found in the sales prospectus for the fund/sub-fund.			

DWS Eurorenta

6. Currency/Currencies of collateral received

Currency/Currencies:	EUR; CAD; CHF; USD; GBP; JPY; SEK	-	-
----------------------	-----------------------------------	---	---

7. Collateral classified by term to maturity (absolute amounts)

Less than 1 day	-	-	-
1 day to 1 week	-	-	-
1 week to 1 month	-	-	-
1 to 3 months	-	-	-
3 months to 1 year	-	-	-
More than 1 year	-	-	-
No fixed maturity	141 480 445.42	-	-

8. Income and cost portions (before income adjustment)*

Income portion of the fund			
Absolute	67 592.00	-	-
In % of gross income	67.00	-	-
Cost portion of the fund	-	-	-
Income portion of the Management Company			
Absolute	33 291.02	-	-
In % of gross income	33.00	-	-
Cost portion of the Management Company	-	-	-
Income portion of third parties			
Absolute	-	-	-
In % of gross income	-	-	-
Cost portion of third parties	-	-	-

If the (sub-)fund has carried out securities lending and borrowing, the (sub-)fund pays 33% of the gross revenues generated from securities lending and borrowing as costs/fees to the Management Company and retains 67% of the gross revenues generated from such transactions. Out of the 33%, the Management Company retains 5% for its own coordination and oversight tasks and pays the direct costs (e.g., transaction and collateral management costs) to external service providers. The remaining amount (after deduction of the Management Company costs and the direct costs) is paid to DWS Investment GmbH for supporting the Management Company in initiating, preparing and implementing securities lending and borrowing.

For simple reverse repurchase agreement transactions (if permitted), i.e., those which are not used to reinvest cash collateral received under securities lending and borrowing or repurchase agreement transactions, the respective (sub-)fund retains 100% of the gross revenues, less the transaction costs that the (sub-)fund pays as direct costs to an external service provider.

The Management Company is a related party to DWS Investment GmbH.

If the (sub-)fund has entered into repurchase agreement transactions, these are currently simple reverse repurchase agreement transactions, and not other (reverse) repurchase agreement transactions. In case other (reverse) repurchase agreement transactions will be used, the Sales Prospectus will be updated accordingly. The (sub-)fund will then pay up to 33% of the gross revenues generated from (reverse) repurchase agreement transactions as costs/fees to the Management Company and retain at least 67% of the gross revenues generated from such transactions. Out of the maximum of 33%, the Management Company will retain 5% for its own coordination and oversight tasks and will pay the direct costs (e.g., transaction and collateral management costs) to external service providers. The remaining amount (after deduction of the Management Company costs and the direct costs) will be paid to DWS Investment GmbH for supporting the Management Company in initiating, preparing and implementing (reverse) repurchase agreement transactions.
