

Invesco Funds Series 4

Invesco Global Small Cap Equity Fund

18 June 2010

Simplified Prospectus

This simplified prospectus contains key information about Invesco Global Small Cap Equity Fund (the "Fund") which is a sub-fund of Invesco Funds Series 4. This Series is an open ended umbrella fund constituted as a unit trust established by Trust Deed in Ireland dated 10 July 1992 and authorised on 5 November 1996 by the Irish Financial Services Regulatory Authority (the "Financial Regulator") as a UCITS and is regulated pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations, 2003 as amended. The following funds are all sub-funds of Invesco Funds Series 4; Invesco Continental European Small Cap Equity Fund, Invesco Global Small Cap Equity Fund and Invesco Japanese Small/Mid Cap Equity Fund.

Potential investors are advised to consult the current full prospectus, Invesco Consolidated Prospectus, incorporating Appendices A, B1 - B5 and C (the "Full Prospectus") before making an investment decision.

The rights and duties of the investor as well as the legal relationship with the Fund are laid down in the Full Prospectus. Words and terms defined in the Full Prospectus have the same meaning in this Simplified Prospectus unless otherwise stated herein.

The base currency of the Fund is US Dollar.

Investment Objective

The objective of this Fund is to achieve long-term capital growth through a portfolio of investments in international securities.

Investment Policy

The Investment Adviser intends to invest primarily in equity and equity related securities of smaller companies, which are quoted on the world's stock markets. In pursuing this objective the Investment Adviser may include other investments that are considered appropriate which may include equity and equity related securities in large companies, units in collective investment schemes, warrants and other investment permitted by the investment restrictions. No more than 10% of the net asset value of the Fund will be invested in warrants.

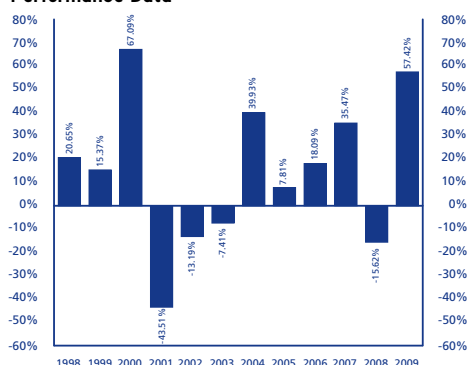

Risk Profile

The value of investments and income from them can go down as well as up (this may partly be the result of exchange rate fluctuations in investments which have an exposure to foreign currencies) and investors may not get back the full amount invested.

The Fund's performance may be adversely affected by variations in the relative strength of individual world currencies or if the US Dollar strengthens against those currencies. As this is a smaller companies fund, investors should be prepared to accept a higher degree of risk than for a fund with a broader investment mandate.

A more detailed description of risk factors that apply to the Fund is set out in the Full Prospectus.

Profile of a Typical Investor

This Fund is suitable for investors who are seeking capital appreciation over a 5 to 10 year timeframe and are prepared to accept risk to their capital and a higher level of volatility in the value of their investments. Invesco would classify this type of investment as more "specialist" than a mainstream developed-market equity fund. Examples would include funds that invest principally in emerging markets, smaller companies, theme funds or aggressively managed funds.

Distribution Policy

All of the net income of the Fund shall be distributed in order to obtain distributor status in the UK.

The distribution date for the Fund is 21 January each year. Substantially all of the Income of the Fund, after the deduction of expenses, will be distributed to Shareholders in accordance with their respective interests. In the case of any class of Shares which is subject to a lower management fee, distributions relating to the reduced management fee will be accumulated and all other distributions will be applied in the purchase of further Shares of that class, unless a shareholder elects otherwise. All distributions below US\$50 in value will be automatically applied in the purchase of further Shares of the same class.
