KEY RISKS

Potential investors should consider the following key risks before investing in the Sub-Fund:

Equity Risk: The value of shares and securities related to shares may fall due to issuer related issues, financial market dynamics and world events including economic and political changes. **Market Volatility Risk:** All types of investments and all markets are subject to market volatility based on prevailing economic conditions. Price trends are determined mainly by financial market trends and by the economic development of the issuers, who are themselves affected by the overall situation of the global economy and by the economic and political conditions prevailing in each country. As securities may fluctuate in price, the value of your investment may go up and down. **Investment Loss Risk:** Investments may decline in value and investors should be prepared to sustain a total loss of their investment. **FDI Risk:** The prices of FDI can be highly volatile. In addition, the use of FDI also involves certain special risks depending on the type of FDI, including but not limited to correlation risk, counterparty credit risk, legal risk, settlement risk, margin risk, as well as other possible risks that may arise. **Country Selection Risk:** A portfolio's performance is often derived from its allocations to certain countries. These allocations may present greater opportunities and potential for capital appreciation, but may subject the fund to higher risks of loss. **Portfolio Concentration Risk:** Variations in the price of its units of a fund which makes a smaller number of investments may be higher than for a fund that spreads its investments more widely.

The risk factors described above should not be considered an exhaustive list of risks, which potential investors should consider before investing in the Sub-Fund. For more details on the fund's potential risks please read the Prospectus and Key Investor Information Document at pinebridge.com/funds

RISK AND REWARD PROFILE

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean investment is 'risk free'. This indicator is not a measure of the risk that you may lose the amount you have invested.

PineBridge Global Focus Equity Fund is SA Offshore Global Equity General, other categories for MDD are as follows, PineBridge Europe Research Enhanced Equity Fund is SA Offshore European Equity General, PineBridge US LC Research Enhanced Fund is SA Offshore US Equity General, PineBridge Asia ex Japan SC Equity Fund is SA Offshore Far East Equity General, PineBridge Global Dynamic Asset Allocation Fund is SA Offshore Global Multi-Asset General.

WHY IS THIS SUB-FUND IN THIS CATEGORY?

The Sub-Fund is in category 5 because variations in the price of its units are typically medium. The Sub-Fund invests in assets that typically carry medium risk and offer medium rewards compared with other categories of assets.

CHARGES

The charges you pay are used to pay the cost of running the Sub-Fund, including the costs of distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:

Entry charge None
Exit charge None

Charges taken from the unit class over a year:

Ongoing charge 1.16%

Charges taken from the unit class under certain specific conditions:

The Manager may at its discretion waive sales, switching and redemption charges or differentiate between investors as to the amount of such charge within the permitted limits.

A sales charge not exceeding 5% of the Net Asset Value per Unit may be charged for specific share classes in a Sub-Fund by the Manager or its delegate. A redemption charge and switching charge not exceeding 3% of the Net Asset Value per Unit may be charged for specific share classes in a Sub-Fund by the Manager or its delegate.

The ongoing charges figure is based on expenses for the twelve month period ending December 2016. The ongoing charges figure excludes portfolio transaction costs. The Fund's annual report for each financial year will include details on the exact charges BN 6.1 (e) made. Performance calculated for the portfolio, as well as the individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax.

DEFINITIONS

Information Ratio (IR) measures the funds returns above the benchmark returns relative to the risk (volatility) of the returns. It is a measure that identifies the consistency of the manager to outperform the benchmark.

The Sharpe Ratio is the most common measure for calculating risk-adjusted return for a fund. The Sharpe ratio is the average return earned in excess of the risk-free rate per unit of risk (volatility).

Alpha measures the fund outperformance relative to the return of the benchmark.

Tracking Error is a measure of how closely a funds returns follows the benchmark returns.

Standard Deviation is a basic measure of the fund risk (volatility).

Beta measures the risk (volatility) of a fund compared to the market as a whole.

R-Squared is a measure that represents the percentage of a fund return that can be explained by movements in the benchmark. A high R-squared (>85) indicates the fund's performance has been in line with the index. A low R-squared (<75) indicates the fund's performance has not been in line with the index.

No. of Securities is a measure of the number of instruments the fund invests in.

Weighted Average Market Capitalisation is a measure of the average market capitalisation of the company stock held in the portfolio.

P/E Ratio is a ratio of a company's current share price compare (EPS). A high PE will be considered a growth stock while a low PE will be considered a value stock. The P/E is sometimes referred to as the "multiple", because it shows how much investors are willing to pay per unit of earnings.

P/Book is a ratio used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share.

Return on Equity (ROE %) measures a company's profitability by revealing how much profit a company generates with the money shareholders have invested. It is calculated as the amount of net income as a percentage of shareholders equity.

Debt to Equity measures the proportion of debt and equity the company is using to finance assets. It is a measure of a company's financial leverage and is calculated by dividing its total liabilities by shareholders equity.

Highest & Lowest Return is the highest and lowest return for any one year over the period since inception have been shown.

Net Asset Value (NAV) is the value of an entity/fund's assets minus the value of its liabilities.

Annualised performance: Annualised performance shows longer term performance rescaled to a 1 year period. Annualised performance is the average return per year over the period. Actual annual figures are available from the manager on request.

PineBridge Global Focus Equity Fund (the "Fund") is a sub-fund of PineBridge Global Funds, an Irish domiciled UCITS umbrella fund, authorized and regulated by the Central Bank of Ireland. The Fund was formed as a successor fund to AIG Global Equity Fund plc ("the Company") following a scheme of amalgamation with the Company and was launched on 29 Jul 2005. PineBridge Investments LLC and PineBridge Investments Europe Limited are the Investment Manager to the Fund and also acted in this capacity for the Company. From 10 February 2014, the benchmark is changed from MSCI World DTR Net to MSCI ACWI Index. From 27 October 2016, the benchmark is changed to the MSCI All Country World Index (ACWI) Daily Total Return Net. Performance is representative of Class 'Y' in U.S. Dollars of the Company up to 29 Jul 2005, and of Class 'Y' of the Fund from that date. Past performance may not be a reliable guide to future performance. Fund allocations are inclusive of cash. Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year.

The Manager retains full legal responsibility for any third-party-named portfolio. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Please note that all documents, notifications of deposit, investment, redemption and switch applications must be received by PineBridge by or before 13:00 (SA), to be transacted at the net asset value price for that day. Where all required documentation is not received before the stated cut off time PineBridge shall not be obliged to transact at the net asset value price as agreed to. Funds are priced at either 3pm or 5pm depending on the nature of the Fund. Prices are published daily and are available on the PineBridge website.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request.
