## 1. Information for Prospective Investors

This prospectus ("Prospectus") is valid only if accompanied by the latest key investor information document ("Key Investor Information Document"), the latest annual report, and also the latest semi-annual report if this was published after the latest annual report. These documents shall be deemed to form part of this Prospectus. Prospective investors shall be provided with the latest version of the Key Investor Information Document in good time before their proposed subscription of units in the CS Investment Funds 14 (the "Fund").

This Prospectus does not constitute an offer or solicitation to subscribe units ("Units") in the Fund by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation.

Information which is not contained in this Prospectus, or in the documents mentioned herein which are available for inspection by the public, shall be deemed unauthorized and cannot be relied upon.

Prospective investors should inform themselves as to the possible tax consequences, the legal requirements and any foreign exchange restrictions or exchange control requirements which they might encounter under the laws of the countries of their citizenship, residence or domicile and which might be relevant to the subscription, holding, conversion, redemption or disposal of Units. Further tax considerations are set out in Chapter 9, "Expenses and Taxes".

Prospective investors who are in any doubt about the contents of this Prospectus should consult their bank, broker, solicitor, accountant or other independent financial adviser.

This Prospectus may be translated into other languages. To the extent that there is any inconsistency between the English-language Prospectus and a version in another language, the English-language Prospectus shall prevail, unless stipulated otherwise by the laws of any jurisdiction in which the Units are sold.

Investors should read and consider the risk description in Chapter 7, "Risk Factors", before investing in the Fund.

Some of the Unit Classes may be listed on the Luxembourg Stock Exchange.

**The Fund's Units have not been, and will not be, registered under the United States Securities Act of 1933 (the "1933 Act"), any of the securities laws of any of the states of the United States. The Fund has not been and will not be registered under the United States Investment Company Act of 1940, as amended, nor under any other US federal laws. Therefore, the Units in the Subfunds described in this Prospectus may not be offered or sold directly or indirectly in the United States of America, except pursuant to an exemption from the registration requirements of the 1933 Act.**

Further, the Board of Directors of the Management Company has decided that the Units shall not be offered or sold, directly or indirectly, to any ultimate beneficial owner that constitutes a U.S. Person. As such, the Units may not be directly or indirectly offered or sold to or for the benefit of a "U.S. Person", which shall be defined as and include (i) a "United States person" as described in section 7701(a)(30) of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), (ii) a "U.S. person" as such term is defined in Regulation S of the 1933 Act, as amended, (iii) a person that is "in the United States" as defined in Rule 202(a)(30)-1 under the U.S. Investment Advisers Act of 1940, as amended, or (iv) a person that does not qualify as a "Non-United States Person" as such term is defined in U.S. Commodities Futures Trading Commission Rule 4.7.

The Management Company (as described below) will not disclose any confidential information concerning investors unless it is required to do so by applicable laws or regulations.

Specific provisions may apply with respect to each subfund, as set out in Chapter 22, "Subfunds".

(1) This Summary of Unit Classes should not be relied upon as a substitute for reading the Prospectus.

(2) CG = capital growth / D = distribution

(3) The actual management fee charged shall be disclosed in the respective annual or semi-annual report.

(4) Units of Class DB and DP may only be acquired by those investors who have concluded a discretionary asset management agreement, as defined by the Management Company, with a subsidiary of Credit Suisse Group AG. Furthermore, subject to the prior consent of the Management Company, Class DB and DP Units may also be acquired by institutional investors who have concluded an advisory agreement or any similar agreement, as defined by the Management Company, with a subsidiary of Credit Suisse Group AG.

(5) Class DB Units are not subject to a management fee but only to an all-in management service fee, payable to the Management Company covering all fees and expenses excluding the fees payable to the Depositary, of at least 0.03% p.a. but not more than 0.15% p.a.

(6) Class DP Units are not subject to a management fee but only to an all-in management service fee, payable to the Management Company covering all fees and expenses excluding the fees payable to the Depositary, of at least 0.03% p.a. but not more than 0.15% p.a., and a performance fee, payable to the Management Company.

(7) The Management Company may decide on the issue of Class CAH, CBH, EAH, EBH, BH, IAH, IAH25, IBH, IBH25, MAH, MBH, UAH, UBH, XAH and XBH Units in any additional freely convertible currencies as well as on their initial offering price at any time. Unitholders have to check with

the agents mentioned in Chapter 13 "Information to Unitholders", if Units of Class CAH, CBH, EAH, EBH, BH, IAH, IAH25, IBH, IBH25, MAH, MBH, UAH, UBH, XAH or XBH have been issued in additional currencies in the meantime before submitting a purchase application.

With Unit Class CAH, CBH, EAH, EBH, BH, IAH, IAH25, IBH, IBH25, MAH, MBH, UAH, UBH, XAH and XBH, the risk of an overall depreciation of the Subfund's Reference Currency against the alternate currency of the Unit Class is reduced significantly by hedging the Net Asset Value of the respective Unit Class CAH, CBH, EAH, EBH, BH, IAH, IAH25, IBH, IBH25, MAH, MBH, UAH, UBH, XAH or XBH – calculated in the Subfund's reference currency – against the respective alternate currency to the currency of Unit Class CAH, CBH, EAH, EBH, BH, IAH, IAH25, IBH, IBH25, MAH, MBH, UAH, UBH, XAH or XBH by means of forward foreign exchange transactions. The net asset value of the Units of this Alternate Currency Class does not develop in the same way as that of the Unit Classes issued in the reference currency.

- (8) Class EA, EAH, EB, EBH, MA, MAH, MB and MBH Units may only be acquired by institutional investors.
- (9) The performance fee is set out in Chapter 22, "Subfunds".
- (10) Class UA, UAH, UB and UBH Units are exclusively reserved for investors who subscribe Units of this Class via a financial intermediary domiciled in the United Kingdom or the Netherlands, or who have concluded a written agreement with a financial intermediary which explicitly provides for the acquisition of trailer fee-free Classes.
- (11) Class CA, CAH, CB and CBH Units may be offered for distribution in Italy through certain distributors and/or financial intermediaries domiciled in Italy.
- (12) Class XA, XB, XAH and XBH Units may be offered for distribution in certain countries through certain distributors and or financial intermediaries at the discretion of the Management Company. The initial minimum investment and holding amount will be defined separately between the distributor and/or financial intermediary and the Management Company, at the sole discretion of the Management Company.

### 3. The Fund

CS Investment Funds 14 is an undertaking for collective investment in transferable securities in the form of a common fund ("fonds commun de placement") subject to Part I of the Law of December 17, 2010 on undertakings for collective investment ("Law of December 17, 2010") transposing Directive 2009/65/EC of the European Parliament and of the Council of July 13, 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities.

CS Investment Funds 14 was originally established under the name CS Bond Fund. The name CS Bond Fund was changed to Credit Suisse Bond Fund (Lux) on 1 September, 1997 and to CS Investment Funds 14 on 17 February 2015.

The Fund is managed by Credit Suisse Fund Management S.A. ("Management Company") in accordance with the management regulations of the Fund ("Management Regulations").

The Fund's assets shall be separate from the Management Company's assets and hence shall not be liable for the obligations of the Management Company. The Fund is an undivided collection of assets and investors ("Unitholders") shall have equal undivided co-ownership rights to all of the Fund's assets in proportion to the number of Units held by them and the corresponding net asset value ("Net Asset Value") of those Units. These rights shall be represented by the Units issued by the Management Company. There is no provision in the Management Regulations for any meeting of the Unitholders.

The Management Regulations of the Fund were initially issued on September 14, 1993. They may be amended by the Management Company with the approval of the depositary ("Depositary"). All amendments will be announced in accordance with Chapter 13, "Information for Unitholders" and will be deposited with the Trade and Companies Register of Luxembourg (Registre de Commerce et des Sociétés). The Management Regulations were last amended on 17 February 2015. Mention of the deposit of the consolidated Management Regulations with the Registre de Commerce et des Sociétés of the Grand Duchy of Luxembourg was published on 23 February 2015 in the Mémorial, Recueil de Sociétés et Associations ("Mémorial"). The Management Regulations are filed in their consolidated, legally binding form for public reference with the Trade and Companies Register.

The Management Regulations shall govern the relations between the Management Company, the Depositary and the Unitholders, as described in this Prospectus. The subscription or purchase of Units shall imply acceptance of the Management Regulations by the Unitholder.

The Fund has an umbrella structure and therefore consists of various subfunds (each referred to as a "Subfund"). Each Subfund represents a portfolio containing different assets and liabilities and is considered to be a separate entity in relation to the Unitholders and third parties. The rights of Unitholders and creditors concerning a Subfund or which have arisen in relation to the establishment, operation or liquidation of a Subfund are limited to the assets of that Subfund. No Subfund will be liable with its assets for the liabilities of another Subfund.

The Management Company may, at any time, establish new Subfunds with Units having similar characteristics to the Units in the existing Subfunds. The Management Company may at any time create and issue new classes ("Classes") or types of Units within any Subfund. If the Management Company establishes a new Subfund and/or creates a new Class or type of Units, the corresponding details shall be set out in this Prospectus. A new Class or type of Units may have different characteristics than the currently existing Classes.

The characteristics of each possible Unit Class are further described in this Prospectus, in particular Chapter 5, "Investment in CS Investment Funds 14", and Chapter 2, "Summary of Unit Classes".

The individual Subfunds shall be denominated as indicated in Chapter 2, "Summary of Unit Classes" and Chapter 22, "Subfunds". Information about the performance of the individual Unit Classes of the Subfunds is contained in the Key Investor Information Document.

### 4. Investment Policy

The primary objective of the Fund is to provide investors with an opportunity to invest in professionally managed portfolios. The assets of the Subfunds shall be invested, in accordance with the principle of risk diversification, in transferable securities and other assets as specified in Article 41 of the Law of December 17, 2010. The investment objective and policy of the individual Subfunds are described in Chapter 22,

"Subfunds". The assets of the individual Subfunds will be invested in accordance with the investment restrictions as stipulated by the Law of December 17, 2010 and set out in this Prospectus in Chapter 6, "Investment Restrictions".

**The investment objective for each Subfund is to maximize the appreciation of the assets invested. In order to achieve this, the Fund shall assume a fair and reasonable degree of risk. However, in consideration of market fluctuations and other risks (see Chapter 7, "Risk Factors") there can be no guarantee that the investment objective of the relevant Subfunds will be achieved. The value of investments may go down as well as up and investors may not recover the value of their initial investment.**

#### Reference Currency

The reference currency is the currency in which the performance and the Net Asset Value of the Subfunds are calculated ("Reference Currency"). The Reference Currencies of the relevant Subfunds are specified in Chapter 2, "Summary of Unit Classes".

#### Liquid Assets

The Subfunds may hold ancillary liquid assets in the form of sight and time deposits with first-class financial institutions and money market instruments which do not qualify as transferable securities and have a term to maturity not exceeding 12 months, in any convertible currency.

Moreover, each Subfund may, on an ancillary basis, hold units/shares in undertakings for collective investment in transferable securities which are subject to Directive 2009/65/EC and which in turn invest in short-term time deposits and money market instruments and whose returns are comparable with those for direct investments in time deposits and money market instruments. These investments, together with any investments in other undertakings for collective investment in transferable securities and/or other undertakings for collective investment, must not exceed 10% of the total net assets of a Subfund.

#### Securities Lending

Subject to the investment restrictions set out below, a Subfund may from time to time enter into securities lending transactions for the purpose of efficient portfolio management. Securities lending transactions consist in transactions whereby a lender transfers securities or instruments to a borrower, subject to a commitment that the borrower will return equivalent securities or instruments on a future date or when requested to do so by the lender, such transaction being considered as securities lending for the party transferring the securities or instruments and being considered as securities borrowing for the counterparty to which they are transferred. Securities lending transactions entail a transfer of ownership of the relevant securities to the borrower. As a consequence, these securities are no longer subject to safekeeping and oversight by the Depositary. Conversely, any collateral transferred under a title transfer arrangement would become subject to the usual safekeeping and oversight by the Depositary of the Fund.

The Subfunds may enter into securities lending transactions only in respect of eligible assets under the Law of December 17, 2010 which fall within their investment policies.

In respect to securities lending revenues, the income generated by the transactions is credited for 60% to the participating Subfunds and for 40% to the securities lending principal in these transactions. The legal entity acting as securities lending principal on behalf of the Subfunds is an affiliate of Credit Suisse Group, i.e. Credit Suisse (Schweiz) AG or Credit Suisse AG.

The Management Company does not receive any of the securities lending revenue.

The proportion of the assets held by a Subfund that may be subject to securities lending transactions is generally expected to range between 0% and 30% of that Subfund's Net Asset Value. Unless otherwise specified in Chapter 22, "Subfunds", this proportion may be increased up to a maximum of 100% of that Subfund's Net Asset Value, depending on market circumstances such as, among others, the type and quantity of relevant transferable securities held within a Subfund and the market demand for such securities at any given time.

The Subfunds will ensure that the volume of the securities lending transactions is kept at an appropriate level or that it is entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations. The counterparties to efficient

portfolio management techniques should be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law.

The risk exposure to the counterparty arising from securities lending transactions and OTC financial derivative instruments should be combined when calculating the counterparty risk limits foreseen under Chapter 6.4) a), "Investment Restrictions".

The counterparty risk may be disregarded provided that the value of the collateral valued at market price, taking into account appropriate haircuts, exceeds the value of the amount exposed to risk.

The Subfunds will not receive cash collateral.

The Subfunds will ensure that their counterparty delivers collateral in the form of securities compliant with the applicable Luxembourg regulations and in line with the requirements foreseen under "Collateral Policy" foreseen in Chapter 18, "Regulatory Disclosure".

Appropriate haircuts on the collateral value are applied in accordance with the Risk Management Process of the Management Company.

#### **Total Return Swaps**

A total return swap ("TRS") is an OTC derivative contract in which one counterparty (the total return payer) transfers the total economic performance, including income from interest and fees, gains and losses from price movements, and credit losses, of a reference obligation to another counterparty (the total return receiver). Total return swaps can be either funded or unfunded.

The Subfunds may from time to time enter into total return swap transactions for the purpose of efficient portfolio management and, when applicable, as part of their respective investment policies as described in Chapter 22, "Subfunds". The Subfunds will get 100 % of the net revenues generated from total return swaps after deduction of costs, including in particular transaction fees and costs for collateral paid to the swap counterparty. For unfunded total return swaps, such transaction fees are typically paid under the form of an agreed interest rate, which may be either fixed or floating. For funded total return swaps, the Subfund will make an upfront payment of the notional amount of the total return swap, typically with no further periodic transaction costs. A partially funded total return swap combines the characteristics and cost profile of both funded and unfunded total return swaps, in the relevant proportions. Costs for collateral typically take the form of a periodic fixed payment, depending on the amounts and frequency of collateral being exchanged. Information on costs and fees incurred by each Subfund in this respect, as well as the identity of the entities to which such costs and fees are paid and any affiliation they may have with the Management Company, if applicable, will be available in the semi-annual and annual reports.

The Subfunds will receive cash and non-cash collateral for total return swap transactions, in accordance with the Fund's collateral policy as further described in Chapter 18, "Regulatory Disclosure". The collateral received will be valued mark-to-market on a daily basis, as is common industry standard, and in accordance with Chapter 8 "Net Asset Value". The collateral received will be adjusted on a daily basis. The collateral received will be held in a separate collateral account and is therefore segregated from the other assets of the Subfund.

The Subfunds may only enter into TRS in respect of eligible assets under the Law of December 17, 2010 which fall within their investment policies.

The Subfunds may only enter into total return swap transactions through a regulated first class financial institution of any legal form with a minimum credit rating of investment grade quality specialised in this type of transaction which has its registered office in one of the OECD countries.

The Subfunds may use total returns swaps where further specified in Chapter 22, "Subfunds".

#### **Other Securities Financing Transactions**

Apart from securities lending transactions and TRS, the Subfunds do not intend to make use of the other securities financing transactions ("SFTs") covered by Regulation (EU) 2015/2365 of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012.

#### **Convertible and Warrant Bonds**

All Subfunds may invest up to 25% of their total assets in convertible bonds, convertible notes and warrant bonds, unless specified otherwise in their investment policy.

#### **Use of Derivatives**

In addition to direct investments, all Subfunds may conduct futures and options as well as swap transactions (interest-rate swaps, total return swaps) for the purpose of hedging, the efficient management of the portfolio and implementing its investment strategy, provided due account is taken of the investment restrictions set out in the Prospectus. Furthermore, the Subfunds may actively manage their currency exposure through the use of currency futures and swap transactions.

#### **Techniques and Instruments for Managing Credit Risk**

Subject to the investment restrictions set out below, the Management Company may use securities (credit linked notes) as well as techniques and instruments (credit default swaps) for the purpose of managing the credit risk of each Subfund.

#### **Equities**

By exercising conversion and subscription rights or options and warrants held separately from warrant bonds, up to 10% of the respective total assets of a Subfund may be invested on a temporary basis in shares, other equity interests, dividend right certificates and similar securities with equity features.

#### **Cross-investments between Subfunds of the Fund**

The Subfunds of the Fund may, subject to the conditions provided for in the Law of December 17, 2010, in particular Article 41, subscribe, acquire and/or hold securities to be issued or issued by one or more Subfunds of the Fund under the following conditions:

- the target Subfund does not, in turn, invest in the Subfund invested in this target Subfund; and
- no more than 10% of the assets of the target Subfund whose acquisition is contemplated may be invested in aggregate in units of other target Subfunds of the Fund; and
- voting rights, if any, attaching to the relevant securities are suspended for as long as they are held by the Subfund concerned and without prejudice to the appropriate processing in the accounts and the periodic reports; and
- in any event, for as long as these securities are held by the Fund, their value will not be taken into consideration for the calculation of the net assets of the Fund for the purposes of verifying the minimum threshold of the net assets imposed by the Law of December 17, 2010.

### **5. Investment in CS Investment Funds 14**

#### **i. General Information on the Units**

Each Subfund may issue Units of Classes A, B, BH, CA, CAH, CB, CBH, DB, DP, EA, EAH, EB, EBH, IA, IAH, IA25, IAH25, IB, IBH, IB25, IBH25, MA, MAH, MB, MBH, N, UA, UAH, UB, UBH, XA, XAH, XB or XBH. The Unit Classes which are issued within each Subfund, together with the related fees and sales charges as well as the Reference Currency are set out in Chapter 2, "Summary of Unit Classes". A redemption fee will not be charged.

In addition, certain other fees, charges and expenses shall be paid out of the assets of the Subfunds. For further information, see Chapter 9, "Expenses and Taxes".

Units are issued in registered or dematerialised form. The Management Company may in its discretion decide whether to issue certificates in respect of registered Units or not, unless expressly requested to issue certificates by the person registered in the register.

The Units which make up each such Class of Units will either be capital-growth Units or distribution Units.

#### **Capital-growth Units**

Class B, BH, CB, CBH, DB, DP, EB, EBH, IB, IB25, IBH, IBH25, MB, MBH, UB, UBH, XB or XBH Units are capital-growth Units. Details of the characteristics of capital-growth Units are included in Chapter 11, "Appropriation of Net Income and Capital Gains".

**Distribution Units**

Class A, CA, CAH, EA, EAH, IA, IA25, IAH, IAH25, MA, MAH, N, UA, UAH, XA or XAH Units are distribution Units. Details of the characteristics of distribution Units are included in Chapter 11, "Appropriation of Net Income and Capital Gains".

**Unit Classes dedicated to a specific type of Investor**

Class CA, CAH, CB and CBH Units may be offered for distribution in Italy through certain distributors and/or financial intermediaries domiciled in Italy. These types of Unit Classes are subject to a management fee and additional distribution fee as specified in Chapter 2, "Summary of Unit Classes", whereas no sales charge is applicable.

Units in Class DB and DP may only be acquired by investors who have concluded a discretionary asset management agreement, as defined by the Management Company, with a subsidiary of Credit Suisse Group AG. Furthermore, subject to the prior consent of the Management Company, Class DB and DP Units may also be purchased by institutional investors (as per Article 174 (2) c) of the Law of December 17, 2010) who have concluded an advisory agreement or any similar agreement, as defined by the Management Company, with a subsidiary of Credit Suisse Group AG.

Where such a discretionary asset management agreement, advisory agreement or any similar agreement, as defined by the Management Company, has been terminated, Class DB and DP Units held by the Unitholder at that time may either be compulsorily redeemed or, according to the request of the Unitholder, converted into another Unit Class in accordance with the investor's directions. Moreover, Class DB and DP Unit are not transferable without the approval of the Management Company. Class DB and DP Units shall not be subject to a management fee or a sales charge but an all-in management service fee payable to the Management Company covering all fees and expenses excluding the fees payable to the Depositary. In addition, Class DP Units are subject to a performance fee to be paid to the Management Company.

Class MA, MAH, MB and MBH Units may only be acquired by institutional investors (as per Article 174 (2) c) of the Law of December 17, 2010).

Subscriptions of Class MA, MAH, MB and MBH Units are subject to initial minimum investment and holding requirements. Class MA, MAH, MB and MBH Units benefit from a reduced management fee and sales charges as set out in Chapter 2, "Summary of Unit Classes".

Class EA, EAH, EB and EBH Units may only be acquired by institutional investors according to Article 174 (2) c) of the Law of December 17, 2010. Class EA, EAH, EB and EBH Units benefit from the reduced management fee and sales charge as specified in Chapter 2, "Summary of Unit Classes".

Class UA, UAH, UB and UBH Units are exclusively reserved for investors who subscribe Units of this Class via a financial intermediary domiciled in the United Kingdom or the Netherlands, or who have a concluded a written agreement with a financial intermediary which explicitly provides for the acquisition of trailer fee-free classes.

Class UA, UAH, UB and UBH Units are subject to a sales charge and shall benefit from a reduced management fee as specified in Chapter 2, "Summary of Unit Classes".

Units in Class N may only be acquired by fund of funds type undertakings for collective investment which are in the form of unit trusts or corporate type funds if they are distributed primarily in Japan.

Class XA, XB, XAH and XBH Units may be offered for distribution in certain countries through certain distributors and/or financial intermediaries at the discretion of the Management Company. The initial minimum investment and holding amount will be defined separately between the distributor and/or financial intermediary and the Management Company, at the sole discretion of the Management Company. These type of Unit Classes benefit from a reduced management fee and sales charge as specified in Chapter 2, "Summary of Unit Classes".

**Minimum Holding**

Class IA, IA25, IAH, IAH25, IB, IB25, IBH, IBH25, MA, MAH, MB, MBH, XA, XAH, XB and XBH Units are subject to the initial minimum investment and holding requirements and benefit from a reduced management fee and sales charge, if applicable, as set out in Chapter 2, "Summary of Unit Classes".

**Hedged Unit Classes**

Depending on the Subfund, Classes CAH, CBH, EAH, EBH, BH, IAH, IBH, MAH, MBH, UAH, UBH, XAH and XBH Units are issued in one or more alternate currencies, as set out in Chapter 2, "Summary of Unit Classes". In order to reduce the risk of an overall depreciation of the Subfund's Reference Currency against the alternate currency of the Unit Classes CAH, CBH, EAH, EBH, BH, IAH, IAH25, IBH, IBH25, MAH, MBH, UAH, and UBH the Net Asset Value of the respective Unit Classes CAH, CBH, EAH, EBH, BH, IAH, IAH25, IBH, IBH25, MAH, MBH, UAH, UBH, XAH and XBH as calculated in the Subfund's Reference Currency, will be hedged against the respective alternate currency to the currency of Unit Classes CAH, CBH, EAH, EBH, BH, IAH, IAH25, IBH, IBH25, MAH, MBH, UAH, UBH, XAH and XBH through the use of forward foreign exchange transactions. The aim of this approach is, as far as possible, to mirror the performance of the Unit Class in the Subfund's Reference Currency minus any hedge cost.

Within this approach, the currency risk of the investment currencies (except for the Reference Currency) versus the alternate currency will not be hedged or will only be partially hedged.

Investors are made aware that currency hedging is never perfect – it aims to reduce the effects of currency movements on a unit class, but it cannot eliminate them entirely.

The foreign exchange transactions in relation to Unit Class Hedging may be executed by an affiliate of Credit Suisse Group, i.e. Credit Suisse (Schweiz) AG and/or Credit Suisse AG acting as principal in this respect (the "Principal").

There is an additional cost to Hedged Unit Classes. Hedged Unit Classes are subject to mark-up fees as set out in Chapter 9, "Expenses and Taxes", section ii, "Expenses".

Class BH Units are subject to the management fee and sales charges as set out in Chapter 2, "Summary of Unit Classes".

Subscriptions to Classes IAH, IAH25, IBH, IBH25, MAH, MBH, XAH and XBH Units are subject to the minimum holding requirement as set out in Chapter 2, "Summary of Unit Classes".

EAH, EBH, UAH and UBH Units are subject to the reduced management fees and sales charge as set out in Chapter 2, "Summary of Unit Classes".

Unit Classes CAH and CBH are subject to the management fee and distribution fee as set out in Chapter 2, "Summary of Unit Classes". No sales charge is applicable.

The Net Asset Value of the Units of the alternate currency class does not develop in the same way as that of the Unit Classes issued in the Reference Currency.

**Issue Price**

Unless otherwise determined by the Management Company, the initial issue price of Unit Classes A, B, BH, CA, CAH, CB, CBH, UA, UAH, UB, UBH, XA, XAH, XB and XBH amounts to EUR 100, CHF 100, USD 100, RON 100, PLN 100, GBP 100, CZK 1000 and/or HUF 10,000, and of Unit Classes DB, DP, EA, EAH, EB, EBH, IA, IA25, IAH, IAH25, IB, IB25, IBH, IBAH25, MA, MAH, MB, MBH and N to EUR 1000, CHF 1000, USD 1000 and/or GBP 1000, depending on the currency denomination of the Unit Class in the respective Subfund and its characteristics.

After the initial offering, Units may be subscribed at the applicable Net Asset Value.

The Management Company may, at any time, decide on the issue of Unit Classes in any additional freely convertible currencies at an initial issue price to be determined by the Management Company.

Except in case of alternate currency Unit Classes, Unit Classes shall be denominated in the Reference Currency of the Subfund to which they relate (as specified in Chapter 22, "Subfunds" and Chapter 2, "Summary of Unit Classes").

Investors may, at the discretion of the Central Administration, pay the subscription monies for Units in a convertible currency other than the currency in which the relevant Unit Class is denominated. As soon as the receipt is determined by the Depositary, such subscription monies shall be automatically converted by the Depositary into the currency in which the relevant Units are denominated. Further details are set out in Chapter 5, "Subscription of Units".

The Management Company may at any time issue, within a Subfund, one or more Unit Classes which may be denominated in a currency other than the Subfund's Reference Currency ("Alternate Currency Class"). The issue of each further or Alternate Currency Class is specified in Chapter 2,

“Summary of Unit Classes”. The Management Company may enter into forward currency contracts for, and at the expense of, this Alternate Currency Class in order to limit the effect of price fluctuations in this alternate currency.

However, no assurance can be given that the hedging objective will be achieved.

The Net Asset Value of the Units of the Alternate Currency Classes does not develop in the same way as that of the Unit Classes issued in the Reference Currency.

In the case of Subfunds with Alternate Currency Classes, the currency hedging transactions for one Unit Class may, in exceptional cases, adversely affect the Net Asset Value of the other Unit Classes.

Units may be held through collective depositories. In such cases Unitholders shall receive a confirmation in relation to their Units from the depository of their choice (for example, their bank or broker), or Units may be held by Unitholders directly in a registered account kept for the Fund and its Unitholders by the Fund’s Central Administration. These Unitholders will be registered by the Central Administration. Units held by a depository may be transferred to an account of the Unitholder with the Central Administration or to an account with other depositories approved by the Management Company or, except for Class CA, CAH, CB, CBH, DB, DP, EA, EAH, EB, EBH, IA25, IAH25, IB25, IBH25, MA, MAH, MB, MBH, UA, UAH, UB, UBH, XA, XAH, XB and XBH Units, with an institution participating in the securities and fund clearing systems. Conversely, Units credited to a Unitholder’s account kept by the Central Administration may at any time be transferred to an account with a depository.

## ii. Subscription of Units

Unless stated otherwise in Chapter 22, “Subfunds”, Units may be subscribed on any day on which banks are normally open for business in Luxembourg (“Banking Day”), (except on 24 December and 31 December where the Subfunds are closed for new subscription applications), at the Net Asset Value per Unit of the relevant Unit Class of the Subfund which is calculated on the next Valuation Day (as defined in Chapter 8, “Net Asset Value”) following such Banking Day according to the calculation method described in Chapter 8, “Net Asset Value” plus the applicable sales charge and any taxes. The applicable maximum sales charge levied in connection with the Units of the Fund is indicated in Chapter 2, “Summary of Unit Classes”.

Unless stated otherwise in Chapter 22, “Subfunds”, subscription applications must be submitted in written form to the Central Administration or a distributor authorized by the Management Company to accept applications for the subscription or redemption of Units (“Distributor” or “Distributors”).

Subscription applications shall be settled on the Valuation Day following the Banking Day on which receipt of the subscription application is determined by the respective Distributor or the Central Administration before 3 p.m. (Central European Time).

Subscription applications received after 3 p.m. on a Banking Day shall be deemed to have been received prior to 3 p.m. on the following Banking Day.

Unless stated otherwise in Chapter 22, “Subfunds”, payment must be received within two Banking Days after the Valuation Day on which the issue price of such Units was determined.

Charges to be paid due to the subscription of Units shall accrue to the banks and other financial institutions engaged in the distribution of the Units. Any taxes incurred on the issue of Units shall also be charged to the investor. Subscription amounts shall be paid in the currency in which the relevant Units are denominated or, if requested by the investor and at the sole discretion of the Central Administration, in another convertible currency. Payment shall be effected by bank transfer to the bank accounts of the Depository, which are indicated in the subscription form.

The Management Company may in the interest of the Unitholders accept transferable securities and other assets permitted by Part I of the Law of December 17, 2010 as payment for subscription (“contribution in kind”), provided that the offered transferable securities and assets correspond to the investment policy and restrictions of the relevant Subfund. Each payment of Units in return for a contribution in kind is part of a valuation report issued by the auditor of the Fund. The Management Company may at its sole discretion, reject all or several offered transferable securities and assets without giving reasons. All costs caused by such

contribution in kind (including the costs for the valuation report, broker fees, expenses, commissions, etc.) shall be borne by the investor.

The Units shall be issued by the Fund upon the receipt of the issue price with the correct value date by the Depository. Notwithstanding the above, the Management Company may, at its own discretion, decide that the subscription application will only be accepted once these monies are received by the Depository.

If the payment is made in a currency other than the one in which the relevant Units are denominated, the proceeds of the conversion from the currency of payment to the currency of denomination less fees and exchange commission shall be allocated to the subscription of Units.

The minimum value or number of Units which must be held by a Unitholder within a particular Unit Class is set out in Chapter 2, “Summary of Unit Classes”, if applicable. Such minimum initial investment and holding requirement may be waived in any particular case at the sole discretion of the Management Company.

Subscriptions and redemptions of fractions of Units shall be permitted up to three decimal places. A holding of fractional Units shall entitle the Unitholder to proportional rights in relation to such Units. It might occur that clearing institutions will be unable to process holdings of fractional Units. Investors should verify whether that is the case.

The Management Company is entitled to refuse at its own discretion subscription applications and temporarily or permanently suspend or limit the sale of Units. The Central Administration is entitled to refuse any subscription, transfer or conversion in whole or in part for any reason, and may in particular prohibit or limit the sale, transfer or conversion of Units to individuals or corporate bodies in certain countries if such transactions might be detrimental to the Fund or result in the Units being held directly or indirectly by a Prohibited Person (included but not limited to any U.S. Person) or if such subscription, transfer or conversion in the relevant country is in contravention of applicable laws. The subscription, transfer or conversion for Units and any future transactions shall not be processed until the information required by the Central Administration, included but not limited to know your customer and anti-money laundering checks, is received.

## iii. Redemption of Units

Unless otherwise specified in Chapter 22, “Subfunds”, the Management Company shall in principle redeem Units on any Banking Day, (except on 24 December and 31 December where the Subfunds are closed for new redemption applications), at the Net Asset Value per Unit of the relevant Unit Class of the Subfund (based on the calculation method described in Chapter 8, “Net Asset Value”), applicable on the Valuation Day immediately following such Banking Day, less any redemption charge, if applicable. For this purpose, redemption applications must be submitted to the Central Administration or the Distributor. Redemption applications for Units held through a depository must be submitted to the depository concerned. Unless otherwise specified in Chapter 22, “Subfunds”, redemption applications must be received by the Central Administration or the Distributor before 3 p.m. (Central European Time) on a Banking Day. Redemption applications received after 3 p.m. on a Banking Day shall be dealt with on the following Banking Day.

If the execution of a redemption application would result in the relevant investor’s holding in a particular Unit Class falling below the minimum holding requirement for that Class as set out in Chapter 2, “Summary of Unit Classes”, the Management Company may, without further notice to the Unitholder, treat such redemption application as though it were an application for the redemption of all Units of that Class held by the Unitholder.

Class DB and DP Units which may only be purchased by investors who have signed a discretionary asset management, advisory agreement or any similar agreement, as defined by the Management Company, with a subsidiary of Credit Suisse Group AG. Where such a discretionary asset management agreement, advisory agreement or any similar agreement, as defined by the Management Company, has been terminated, Class DB and DP Units held by the Unitholder at that time may either be compulsorily redeemed or, according to the request of the Unitholder, converted into another Unit Class.

Unless otherwise specified in Chapter 22, “Subfunds”, Units shall be redeemed at the relevant Net Asset Value per Unit calculated on the Valuation Day following the Banking Day on which receipt of the redemption application is determined by the respective Distributor or the Central Administration before 3 p.m. (Central European Time).

Whether and to what extent the redemption price is lower or higher than the issue price paid depends on the development of the Net Asset Value of the relevant Unit Class.

Payment of the redemption price of the Units shall be made within two Banking Days following calculation of the redemption price, unless otherwise specified in Chapter 22, "Subfunds". This does not apply where specific statutory provisions such as foreign exchange or other transfer restrictions or other circumstances beyond the Depositary's control make it impossible to transfer the redemption amount.

In the case of large redemption applications, the Management Company may decide to settle redemption applications once it has sold the corresponding assets of the Fund without undue delay. Where such a measure is necessary, all redemption applications received on the same day shall be settled at the same price.

Payment shall be made by means of remittance to a bank account or, if possible, by cash in the currency that is legal tender in the country where payment is to be made, after conversion of the amount in question. If, at the sole discretion of the Depositary, payment is to be made in a currency other than the one in which the relevant Units are denominated, the amount to be paid shall be the proceeds of the conversion from the currency of denomination to the currency of payment less all fees and exchange commission.

Upon payment of the redemption price, the corresponding Unit shall cease to be valid.

The Management Company is entitled to compulsorily redeem all Units held by a Prohibited person, as set out below.

#### iv. Conversion of Units

Unless otherwise specified in Chapter 22, "Subfunds", Unitholders of a particular Unit Class of a Subfund may at any time convert all or part of their Units into Units of the same Class of another Subfund or into another Class of the same or another Subfund, provided that the requirements (see Chapter 2, "Summary of Unit Classes") for the Unit Class into which such Units are converted are complied with. The fee charged for such conversions shall not exceed half the initial sales charge of the Class into which the Units are converted.

Unless otherwise specified in Chapter 22, "Subfunds", conversion applications must be completed and submitted to the Central Administration or the Distributor before 3 p.m. (Central European Time) on a Banking Day (except on 24 December and 31 December where the Subfunds are closed for new conversion applications). Conversion applications received after 3 p.m. shall be dealt with on the following Banking Day. Conversion shall take place on the basis of the applicable Net Asset Value per Unit calculated on the Valuation Day following the Banking Day on which receipt of the conversion application is determined by the respective Distributor or the Central Administration before 3 p.m. (Central European Time). Conversions of Units will only be made on a Valuation Day, if the Net Asset Value in both relevant Unit Classes is calculated.

Where processing an application for the conversion of Units would result in the relevant Unitholder's holding in a particular Class of Units falling below the minimum holding requirement for that Class set out in Chapter 2, "Summary of Unit Classes", the Management Company may, without further notice to the Unitholder, treat such conversion application as though it were an application for the conversion of all Units held by the Unitholder in that Class of Units.

Where Units denominated in one currency are converted into Units denominated in another currency, the foreign exchange and conversion fee incurred will be taken into consideration and deducted.

#### v. Suspension of the Subscription, Redemption, Conversion of Units and the Calculation of the Net Asset Value

The Management Company may suspend the calculation of the Net Asset Value and/or the issue, redemption and conversion of Units of a Subfund where a substantial proportion of the assets of the Subfund:

- a) cannot be valued because a stock exchange or market is closed on a day other than a usual public holiday, or when trading on such stock exchange or market is restricted or suspended; or
- b) is not freely disposable because a political, economic, military, monetary or any other event beyond the control of the Management Company does not permit the disposal of the Subfund's assets, or such disposal would be detrimental to the interests of Unitholders; or

- c) cannot be valued because disruption to the communications network or any other reason makes valuation impossible; or
- d) is not available for transactions because restrictions on foreign exchange or other types of restrictions make asset transfers impracticable or it can be objectively demonstrated that transactions cannot be effected at normal foreign exchange rates.

Investors applying for, or who have already applied for, the subscription, redemption or conversion of Units in the respective Subfund shall be notified of the suspension without delay. Notice of the suspension shall also be published as described in Chapter 13, "Information for Unitholders", if, in the opinion of the board of directors of the Management Company (the "Board of Directors"), the suspension is likely to last for longer than one week.

Suspension of the calculation of the Net Asset Value of one Subfund shall not affect the calculation of the Net Asset Value of the other Subfunds if none of the above conditions apply to such other Subfunds.

#### vi. Measures to Combat Money-Laundering

The Distributors are obliged by the Management Company to ensure compliance with all current and future statutory or professional regulations in Luxembourg aimed at combating money-laundering and terrorist financing. These regulations stipulate that the Distributors are under obligation, prior to submitting any application form to the Central Administration, to verify the identity of the subscriber and beneficial owner as follows:

- a) Where the subscriber is an individual, a copy of the passport or identity card of the subscriber (and the beneficial owner/s of the Units where the subscriber is acting on behalf of another individual) which has been properly verified by a suitably qualified official of the country in which such individual is domiciled;
- b) Where the subscriber is a company, a certified copy of the company's registration documentation (e.g. articles of association or incorporation) and an excerpt from the relevant commercial register. The company's representatives and (where the shares issued by a company are not sufficiently broadly distributed among the general public) shareholders must then observe the disclosure requirements set out in point a) above.

The Central Administration of the Fund is however entitled at its own discretion to request, at any time, further identification documentation related to a subscription application or to refuse to accept subscription applications upon the submission of all documentary evidence.

The Distributors must ensure that their sales offices adhere to the above verification procedure at all times. The Central Administration and the Management Company shall at all times be entitled to request evidence of compliance from the Distributor. Furthermore, the Distributors shall comply with all current, local regulations intended to prevent money-laundering and terrorist financing.

The Central Administration is responsible for observing the above-mentioned verification procedure in the event of subscription applications submitted by Distributors which are not operators in the financial sector or which are operators in the financial sector but are not subject to an identity verification requirement equivalent to that existing under Luxembourg law. Permitted financial sector operators from member states of the EU, EEA and/or FATF (Financial Action Task Force on Money Laundering) are generally deemed to be subject to an identity verification requirement equivalent to that existing under Luxembourg law. The same applies to their branches and subsidiary companies in countries other than those mentioned above, provided that the financial sector operator is obliged to monitor compliance with the identity verification requirement on the part of its branches and subsidiary companies.

#### vii. Market Timing

The Management Company does not permit practices related to "Market Timing" (i.e. a method through which an investor systematically subscribes and redeems or converts Units of Classes within a short time period, by taking advantage of time differences and/or imperfections or deficiencies in the method of determination of the Net Asset Value). It therefore reserves the right to reject subscription and conversion applications from an investor who the Fund suspects of using such practices and to take, if appropriate, the necessary measures to protect the other investors of the Fund.

**viii. Prohibited Persons, Compulsory Redemption and Transfer of Units**

For the purpose of this section a:

- “Prohibited Person” means any person, corporation, limited liability company, trust, partnership, estate or other corporate body, if in the sole opinion of the Management Company, the holding of Units of the relevant Subfund may be detrimental to the interests of the existing Unitholders or of the relevant Subfund, if it may result in a breach of any law or regulation, whether Luxembourg or otherwise, or if as a result thereof the relevant Subfund or any subsidiary or investment structure (if any) may become exposed to tax or other legal, regulatory or administrative disadvantages, fines or penalties that it would not have otherwise incurred or, if as a result thereof the relevant Subfund or any subsidiary or investment structure (if any), the Management Company and/or the Fund, may become required to comply with any registration or filing requirements in any jurisdiction with which it would not otherwise be required to comply. The term “Prohibited Person” includes (i) any investor which does not meet the definition of Eligible Investors as defined for the respective Subfund in Chapter 5, “Investment in CS Investment Funds 14” (if any), (ii) any U.S. Person or (iii) any person who has failed to provide any information or declaration required by the Management Company or the Fund within one calendar month of being requested to do so.

If the board of directors of the Management Company discovers at any time that any beneficial owner of the Units is a Prohibited Person, either alone or in conjunction with any other person, whether directly or indirectly, the board of directors of the Management Company may at its discretion and without liability, compulsorily redeem the Units in accordance with the rules set out in the Management Regulations of the Fund and upon redemption, the Prohibited Person will cease to be the owner of those Units.

The board of directors of the Management Company may require any Unitholder of the Fund to provide it with any information that it may consider necessary for the purpose of determining whether or not such owner of Units is or will be a Prohibited Person.

Further, Unitholders shall have the obligation to immediately inform the Management Company to the extent the ultimate beneficial owner of the Units held by such Unitholders becomes or will become a Prohibited Person.

The board of directors of the Management Company has the right to refuse any transfer, assignment or sale of Units in its sole discretion if the board of directors of the Management Company reasonably determines that it would result in a Prohibited Person holding Units, either as an immediate consequence or in the future.

Any transfer of Units may be rejected by the Central Administration and the transfer shall not become effective until the transferee has provided the required information under the applicable know your customer and anti-money laundering rules.

**6. Investment Restrictions**

For the purpose of this Chapter, each Subfund shall be regarded as a separate Fund within the meaning of Article 40 of the Law of December 17, 2010.

1. Each Subfund's investments may comprise only one or more of the following:
  - a) transferable securities and money market instruments admitted to or dealt in on a regulated market; for these purposes, a regulated market is any market for financial instruments within the meaning of Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments as amended;
  - b) transferable securities and money market instruments dealt in on another market in a Member State which is regulated, operates regularly and is recognized and open to the public; for the purpose of this Chapter “Member State” means a Member State of the European Union (“EU”) or the States of the European Economic Area (“EEA”);
  - c) transferable securities and money market instruments admitted to official listing on a stock exchange in a non-Member State of the European Union or dealt in on another market in a non-Member State of the European Union which

is regulated, operates regularly and is recognized and open to the public, and is established in a country in Europe, America, Asia, Africa or Oceania;

- d) recently issued transferable securities and money market instruments, provided that the terms of issue include an undertaking that application will be made for admission to official listing on stock exchanges or markets as per paragraphs a), b) or c) above and provided such admission takes place within one year of issue;
- e) units or shares of undertakings for collective investment in transferable securities authorized according to Directive 2009/65/EC (“UCITS”) and/or other undertakings for collective investment within the meaning of Article 1, paragraph 2, points a) and b) of Directive 2009/65/EC (“UCI”), whether or not established in a Member State, provided that:
  - these other UCI are authorized under laws which provide that they are subject to supervision considered by the supervisory authority responsible for the Fund, to be equivalent to that required by EU law and that cooperation between the supervisory authorities is sufficiently ensured,
  - the level of protection for share-/unitholders of the other UCIs is equivalent to that provided for share-/unitholders in a UCITS, and in particular that the rules on asset segregation, borrowing, lending and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of Directive 2009/65/EC,
  - the business activities of the other UCIs are reported in semi-annual and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period,
  - the UCITS or other UCIs whose units/shares are to be acquired, may not, pursuant to their management regulation or instruments of incorporation, invest more than 10% of their total net assets in units/shares of other UCITS or other UCIs;
- f) deposits with a credit institution which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in a third country, provided that it is subject to prudential rules considered by the supervisory authority responsible for the Fund, as equivalent to those laid down in EU law;
- g) financial derivative instruments, including equivalent cash-settled instruments which are dealt in on the regulated markets specified under paragraphs a), b) and c) above and/or financial derivative instruments which are dealt in over-the-counter (“OTC derivatives”), provided that:
  - the underlying consists of instruments within the meaning of Article 41, paragraph (1) of the Law of December 17, 2010, financial indices, interest rates, foreign exchange rates or currencies, in which the Fund may invest according to its investment objectives,
  - the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the supervisory authority responsible for the Fund, and
  - the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Fund's initiative;
- h) money market instruments other than those dealt in on a regulated market but which are normally traded on the money market and are liquid, and whose value can be precisely determined at any time, provided the issue or issuer of such instruments is itself regulated for the purpose of protecting investors and savings, and provided that these investments are:
  - issued or guaranteed by a central, regional or local authority or by a central bank of a Member State, the European Central Bank, the European Union or the European Investment Bank, a non-Member State or, in

- case of a federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
- issued by an undertaking any securities of which are dealt in on regulated markets referred to in paragraphs a), b) or c) above, or
  - issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law, or issued or guaranteed by an establishment that is subject to and complies with supervisory rules considered by the supervisory authority responsible for the Fund, to be at least as stringent as those required by EU law, or
  - issued by other bodies belonging to the categories approved by the supervisory authority responsible for the Fund, provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent of this paragraph h) and provided that the issuer is a company whose capital and reserves amount to at least ten million euro (EUR 10,000,000) and which presents and publishes its annual financial statements in accordance with the fourth Directive 78/660/EEC or is an entity, which within a group of companies comprising one or several listed companies, is dedicated to the financing of the group, or is an entity which is dedicated to the financing of securitization vehicles which benefit from a banking liquidity line.
2. Each Subfund shall not, however, invest more than 10% of their total net assets in transferable securities or money market instruments other than those referred to in section 1). The Subfunds may hold ancillary liquid assets in different currencies.
  3. The Management Company applies a risk management process which enables it to monitor and measure at any time the risk of the investment positions and their contribution to the overall risk profile of the portfolio and a process for accurate and independent assessment of the value of OTC derivatives. Unless specified otherwise in Chapter 22, "Subfunds", each Subfund may for the purpose of (i) hedging, and/or (ii) efficient portfolio management, and/or (iii) implementing its investment strategy, and subject to the provisions set out below engage in foreign exchange transactions and/or use financial derivative instruments and/or techniques based on transferable securities, money market instruments or forward contracts on stock exchange indices within the meaning of Part I of the Law of December 17, 2010.
    - a) In this regard, each Subfund may acquire call and put options on securities, stock exchange indices and other permitted financial instruments.
    - b) Moreover, each Subfund may sell call options on stock exchange indices and other permitted financial instruments if (i) it holds either the underlying securities, matching call options or other instruments which provide sufficient hedging for the commitments arising from these contracts or (ii) such transactions are hedged by matching contracts or similar instruments or (iii) if the liquidity of the underlying instruments is such that the open positions arising therefrom can be covered at any time.
    - c) In case of sale of put options on securities, stock exchange indices or other permitted financial instruments, an equivalent value to the commitment taken must be covered for the entire duration of the contract by liquid assets, money market instruments or short-term debt securities with a residual term to maturity of maximum 12 months for the entire duration of the contract.
    - d) In order to hedge the risk of unfavourable price movements or for other purposes, each Subfund may buy and sell futures on stock exchange indices or any other types of financial instruments.
    - e) In order to manage interest rate risks, each Subfund may buy and sell interest rate futures as well as interest rate options or call and put options provided that the commitments entered into do not exceed the value of the securities held in this currency.
  - f) In addition to the aforementioned transactions, and subject to the conditions and restrictions specified in the present section 3, each Subfund may, for the purpose of efficient portfolio management, buy and sell futures and options (which may have all financial instruments as underlying) and enter into swap transactions (interest rate swaps and combined interest rate/currency swaps as well as total return swaps). The counterparty to these transactions must be a first-class financial institution which is specialized in this type of transactions. The overall risk associated with the swap transactions must not exceed the total net assets of the relevant Subfund. Furthermore, in the case of OTC transactions (e.g. total return swaps or share basket forwards), the overall risk of default in relation to the same counterparty must not exceed 10% of the assets of a Subfund. The counterparties to such transactions must have sufficient liquidity to meet their obligations at market conditions at any time. The instruments underlying the OTC transactions must comply with Art. 41 (1) of the Law of December 17, 2010.
  - g) For the purpose of managing credit risks, the Management Company may also conclude credit default swaps (CDS), provided that the counterparty is a first-class financial institution specialized in this type of transaction. In such transactions, both the contracting partner and the underlying borrower/s are at all times subject to the investment principles set out in section 4 below. CDS may also be used for purposes other than hedging. Unless stipulated otherwise in Chapter 4, "Investment Principles", and provided the total risk of the derivatives does not exceed 100% of the respective Subfund's total net assets) the Subfunds may enter into credit default swaps (CDS) not serving the purpose of hedging for up to 100% of their total net assets, though the commitments arising from the protection-buying and protection-providing positions may not in total exceed the net assets of the respective Subfunds.
  - h) For each Subfund the Management Company may also use credit linked notes ("CLN") for the purpose of managing credit risk, provided such securities are issued by first-class financial institutions and are securities within the meaning of Article 41 of the Law of December 17, 2010 and correspond at any time to the investment principles set out in section 4) below.
  - i) In order to hedge currency risks and to gear its assets to one or several other currencies that conform to the investment policy, each Subfund may sell and buy currency futures, call options on currencies, put options on currencies and currency forwards or engage in currency swap transactions with first-class financial institutions specialized in this type of transaction. In case of hedging transactions, there must be a direct link between the transactions and the assets to be hedged; i.e. the volume of the above-mentioned transactions in any particular currency may not exceed the total net assets of the Subfund denominated in that currency, nor may the duration of such transactions exceed the period for which the assets are held by a Subfund. Furthermore, the Subfund may hedge another currency (exposure currency) against the Reference Currency: in the place of the exposure currency, the Subfund may sell another currency closely connected with said currency, providing that the two currencies are highly likely to develop in the same way. Each Subfund may also sell a currency in which it has exposure and in return acquire more of another currency in which exposure can also be created, provided that such hedge transactions are an efficient instrument for achieving the desired currency and investment exposure. Unless otherwise specified in Chapter 22, "Subfunds", the forward currency exposure sold by a Subfund may not exceed the exposure of the underlying investments; this applies both to an individual currency and to the overall currency exposure.

The global exposure related to the use of financial derivatives is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions. This shall also apply to the following subparagraphs.

As part of its investment policy and within the limits laid down in section 4) paragraph e), each Subfund may invest in financial derivative instruments, provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in section 4). If a Subfund invests in index-based financial derivative instruments, these investments do not have to be combined to the limits laid down in section 4). When a transferable security or a money market instrument embeds a derivative instrument, the derivative instrument shall be taken into account when complying with the requirements of this section.

The global exposure may be calculated through the commitment approach or the Value-at-Risk (VaR) methodology as specified for each Subfund in Chapter 22, "Subfunds".

The standard commitment approach calculation converts the financial derivative position into the market value of an equivalent position in the underlying asset of that derivative. When calculating global exposure using the commitment approach, the Fund may benefit from the effects of netting and hedging arrangements.

VaR provides a measure of the potential loss that could arise over a given time interval under normal market conditions, and at a given confidence level. The Law of December 17, 2010 foresees a confidence level of 99% with a time horizon of one month.

Unless otherwise specified in Chapter 22, "Subfunds" each Subfund shall ensure that its global exposure to financial derivative instruments computed on a commitment basis does not exceed 100% of its total net assets or that the global exposure computed based on a VaR method does not exceed either (i) 200% of the reference portfolio (benchmark) or (ii) 20% of the total net assets.

The risk management of the Management Company supervises the compliance of these provision in accordance with the requirements of applicable circulars or regulation issued by the Luxembourg supervisory authority (Commission de Surveillance du Secteur Financier, "CSSF") or any other European authority authorized to issue related regulation or technical standards.

4. a) No more than 10% of the total net assets of each Subfund may be invested in transferable securities or money market instruments issued by the same issuer. In addition, the total value of all transferable securities or money market instruments of those issuers in which a Subfund has invested more than 5% of its total net assets may not exceed 40% of its net assets. No Subfund may invest more than 20% of its total net assets in deposits made with the same body. The risk exposure to a counterparty in an OTC derivative transaction and/or efficient portfolio management techniques may in aggregate not exceed the following percentages:
  - 10% of the total net assets if the counterparty is a credit institution referred to in Chapter 6, "Investment Restrictions", section 1) paragraph f), or
  - 5% of the net assets in other cases.
- b) The 40% limit specified in section 4) paragraph a) is not applicable to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision. Irrespective of the limits specified in section 4) paragraph a), each Subfund shall not combine, where this would lead to investing more than 20% of its total net assets in a single body any of the following:
  - investments in transferable securities or money market instruments issued by that body,
  - deposits made with that body or
  - exposures arising from OTC derivative transactions undertaken with that body.
- c) The limit of 10% stipulated in section 4) paragraph a) is raised to a maximum of 35% if the transferable securities or money market instruments are issued or guaranteed by a Member State, by its public local authorities, by a non-Member State or by public international bodies to which one or more Member States belong.

- d) The 10% limit stipulated in section 4) paragraph a) is raised to 25% for bonds issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of those bonds must be invested in accordance with the legal requirements in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest. If a Subfund invests more than 5% of its total net assets in bonds referred to in this paragraph which are issued by a single issuer, the total value of these investments may not exceed 80% of that Subfund's total net assets.
  - e) The transferable securities and money market instruments referred to in paragraphs c) and d) of this section 4) shall not be taken into account for the purpose of applying the limit of 40% referred to under paragraph a) of this section. The limits specified under paragraphs a), b), c) and d) shall not be combined; thus investments in transferable securities or money market instruments issued by the same issuer or in deposits or derivative instruments made with this body carried out in accordance with paragraphs a), b), c) and d) shall not exceed in total 35% of a Subfund's total net assets. Companies which belong to the same group for the purposes of the preparation of consolidated financial statements in accordance with Directive 83/349/EEC as amended or restated or in accordance with internationally recognized accounting rules, shall be regarded as a single issuer for the purpose of calculating the investment limits specified in the present section 4). Each Subfund may cumulatively invest up to a limit of 20% of its total net assets in transferable securities and money market instruments within the same group.
  - f) **The limit of 10% stipulated in section 4) paragraph a) is raised to 100% if the transferable securities and money market instruments involved are issued or guaranteed by a Member State, one or more of its local authorities, by any other state which is a member of the Organization for Economic Cooperation and Development ("OECD"), by Brazil or Singapore or by a public international body to which one or more Member States of the European Union belong. In such case, the Subfund concerned must hold securities or money market instruments from at least six different issues, and the securities or money market instruments of any single issue shall not exceed 30% of that Subfund's total assets.**
5. The Fund will not invest more than 10% of the total net assets of any Subfund in units/shares of other UCITS and/or in other UCIs ("Target Funds") pursuant to section 1) paragraph e) unless otherwise specified in the investment policy applicable to a Subfund as described in Chapter 22, "Subfunds". Where a higher limit as 10% is specified in Chapter 22, "Subfunds", the following restrictions shall apply:
    - No more than 20% of a Subfund's total net assets may be invested in units/shares of a single UCITS or other UCI. For the purpose of application of this investment limit, each compartment of a UCITS or other UCI with multiple compartments is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various compartments vis-à-vis third parties is ensured.
    - Investments made in units/shares of UCI other than UCITS may not in aggregate exceed 30% of the total net assets of a Subfund.
- Where a Subfund invests in units/shares of other UCITS and/or other UCI that are managed, directly or by delegation, by the same management company or by any other company with which the Management Company is linked by common management or control, or by a direct or indirect holding of more than 10% of the capital or votes ("Affiliated Funds"), the Management Company or the other company may not charge subscription or redemption fees on account of the Subfund's investment in the units/shares of such Affiliated Funds.

Unless specified otherwise in Chapter 22, "Subfunds", no management fee corresponding to the volume of these investments in Affiliated Funds may be charged at the level of the respective Subfund, unless the Affiliated Fund itself does not charge any management fee.

Investors should note that for investments in units/shares of other UCITS and/or other UCI the same costs may generally arise both at the Subfund level and at the level of the other UCITS and/or UCI itself.

6. a) The Fund's assets may not be invested in securities carrying voting rights which would allow the Fund to exercise significant influence on the management of an issuer.
- b) Moreover, the Fund may not acquire more than
  - 10% of the non-voting shares of the same issuer,
  - 10% of the debt instruments of the same issuer,
  - 25% of the units/shares of one and the same UCITS or other UCI,
  - 10% of the money market instruments of any single issuer.

In the last three cases, the restriction shall not apply if the gross amount of bonds or money market instruments, or the net amount of the instruments in issue cannot be calculated at the time of acquisition.

The restrictions set out under paragraphs a) and b) shall not apply to:

- transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities,
- transferable securities and money market instruments issued or guaranteed by a non-Member State of the European Union,
- transferable securities and money market instruments issued by public international bodies to which one or more Member States of the European Union belong,
- shares held by the Fund in the capital of a company which is incorporated in a non-Member State of the European Union and which invests its assets mainly in securities of issuing bodies having their registered office in that State, where under the legislation of that State, such a holding represents the only way in which the Fund can invest in the securities of issuing bodies of that State. This derogation, however, shall apply only if in its investment policy the company from the non-Member State of the European Union complies with the limits stipulated in section 4, paragraphs a) to e), section 5, and section 7 paragraphs a) and b).

7. The Management Company may not borrow any money for any Subfund except for:
  - a) the purchase of foreign currency using a back-to-back loan,
  - b) an amount equivalent to not more than 10% of the Subfund's total net assets and borrowed on a temporary basis.
8. The Fund may not grant loans or act as guarantor for third parties.
9. To ensure efficient portfolio management, each Subfund may, in accordance with the applicable Luxembourg regulations, enter into securities lending transactions.
10. The Fund may not invest its assets directly in real estate, precious metals or certificates representing precious metals and goods.
11. The Fund may not carry out uncovered sales of in transferable securities, money market instruments or other financial instruments referred to in section 1) paragraphs e), g) and h).
12. a) In relation to borrowing conducted within the limitations set out in the Prospectus, the Company may pledge or assign the assets of the Subfund concerned as collateral.
- b) Furthermore, the Company may pledge or assign the assets of the Subfund concerned as collateral to counterparties of transactions involving OTC derivatives or financial derivative instruments which are dealt in on a regulated market referred to under paragraphs a), b) and c) of number 1) above in order to secure the payment and performance by such Subfund of its obligations to the relevant counterparty. To the extent counterparties require the provision of collateral exceeding the value of the risk to be covered by collateral or where the overcollateralization is caused by other circumstances (e.g.

performance of the assets posted as collateral or provisions of customary framework documentation), such (excess) collateral may – also in respect of non-cash collateral – expose the relevant Subfund to the counterparty risk of such counterparty and the Subfund may only have an unsecured claim in respect of such assets.

The restrictions set out above shall not apply to the exercise of subscription rights.

During the first six months following official authorization of a Subfund in Luxembourg, the restrictions set out in section 4) above need not to be complied with, provided that the principle of risk-spreading is observed. If the limits referred to above are exceeded for reasons beyond the control of the Management Company or as a result of the exercise of subscription rights, the Management Company shall as a matter of priority remedy that situation, taking due account of the interests of the Unitholders.

The Management Company is entitled to issue, at any time, further investment restrictions, in the interests of the Unitholders, if for example such restrictions are necessary to comply with legislation in those countries in which Units of the Fund are or will be offered for sale or for purchase.

## 7. Risk Factors

**Prospective investors should consider the following risk factors before investing in the Fund. However, the risk factors set out below do not purport to be an exhaustive list of risks related to investments in the Fund. Prospective investors should read the entire Prospectus, and where appropriate consult with their legal, tax and investment advisers, in particular regarding the tax consequences of subscribing, holding, converting, redeeming or otherwise disposing of Units under the law of their country of citizenship, residence or domicile (further details are set out in Chapter 9, "Expenses and Taxes").**

**Investors should be aware that the investments of the Fund are subject to market fluctuations and other risks associated with investments in transferable securities and other financial instruments. The value of the investments and the resulting income may go up or down and it is possible that investors will not recoup the amount originally invested in the Fund, including the risk of loss of the entire amount invested. There is no assurance that the investment objective of a particular Subfund will be achieved or that any increase in the value of the assets will occur. Past performance is not a reliable indicator of future results.**

The Net Asset Value of a Subfund may vary as a result of fluctuations in the value of the underlying assets and the resulting income. Investors are reminded that in certain circumstances their right to redeem Units may be suspended.

Depending on the currency of the investor's domicile, exchange-rate fluctuations may adversely affect the value of an investment in one or more of the Subfunds. Moreover, in the case of an Alternate Currency Class in which the currency risk is not hedged, the result of the associated foreign exchange transactions may have a negative influence on the performance of the corresponding Unit Class.

### Market Risk

Market risk is a general risk which may affect all investments to the effect that the value of a particular investment could change in a way that is detrimental to the Fund's interests. In particular, the value of investments may be affected by uncertainties such as international, political and economic developments or changes in government policies.

### Interest Rate Risk

Subfunds investing in fixed income securities may fall in value due to fluctuations in interest rates. Generally, the value of fixed income securities rises when interest rates fall. Conversely, when interest rates rise, the value of fixed income securities can generally be expected to decrease. Long term fixed income securities will normally have more price volatility than short term fixed income securities.

### Foreign Exchange Risk

The Subfunds' investments may be made in other currencies than the relevant Reference Currency and therefore be subject to currency

fluctuations, which may affect the Net Asset Value of the relevant Subfunds favourably or unfavourably.

Currencies of certain countries may be volatile and therefore affect the value of securities denominated in such currencies. If the currency in which an investment is denominated appreciates against the Reference Currency of the relevant Subfund, the value of the investment will increase. Conversely, a decline in the exchange rate of the currency would adversely affect the value of the investment.

The Subfunds may enter into hedging transactions on currencies to protect against a decline in the value of investments denominated in currencies other than the Reference Currency, and against any increase in the cost of investments denominated in currencies other than the Reference Currency. However, there is no guarantee that the hedging will be successful.

Although it is the policy of the Fund to hedge the currency exposure of Subfunds against their respective Reference Currencies, hedging transactions may not always be possible and currency risks cannot therefore be excluded.

#### **Credit Risk**

Subfunds investing in fixed income securities are subject to the risk that issuers may not make payments on such securities. An issuer suffering an adverse change in its financial condition could lower the credit quality of a security, leading to greater price volatility of the security. A lowering of the credit rating of a security may also offset the security's liquidity. Subfunds investing in lower quality debt securities are more susceptible to these problems and their value may be more volatile.

#### **Counterparty Risk**

The Fund may enter into over-the-counter transactions which will expose the Subfunds to the risk that the counterparty may default on its obligation to perform under such contracts. In the event of bankruptcy of the counterparty, the Subfunds could experience delays in liquidating the position and significant losses.

#### **EU Bank Recovery and Resolution Directive**

Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (the "BRRD") was published in the Official Journal of the European Union on June 12, 2014, and entered into force on July 2, 2014. The stated aim of the BRRD is to provide resolution authorities, including the relevant Luxembourg resolution authority, with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimize taxpayers' exposure to losses.

In accordance with the BRRD and relevant implementing laws, national prudential supervisory authorities can assert certain powers over credit institutions and certain investment firms which are failing or are likely to fail and where normal insolvency would cause financial instability. These powers comprise write-down, conversion, transfer, modification, or suspension powers existing from time to time under, and exercised in compliance with any laws, regulations, rules or requirements in effect in the relevant EU Member State relating to the implementation of BRRD (the "Bank Resolution Tools").

The use of any such Bank Resolution Tools may affect or restrain the ability of counterparties subject to BRRD to honour their obligations towards the Subfunds, thereby exposing the Subfunds to potential losses.

The exercise of Bank Resolution Tools against investors of a Subfund may also lead to the mandatory sale of part of the assets of these investors, including their shares/units in that Subfund. Accordingly, there is a risk that a Subfund may experience reduced or even insufficient liquidity because of such an unusually high volume of redemption requests. In such case the Fund may not be able to pay redemption proceeds within the time period stated in this Prospectus.

Furthermore, exercising certain Bank Resolution Tools in respect of a particular type of securities may, under certain circumstances, trigger a drying-up of liquidity in specific securities markets, thereby causing potential liquidity problems for the Subfunds.

#### **Liquidity Risk**

There is a risk that the Fund will suffer liquidity issues because of unusual market conditions, an unusually high volume of redemption requests or

other reasons. In such case the Fund may not be able to pay redemption proceeds within the time period stated in this Prospectus.

#### **Management Risk**

The Fund is actively managed and the Subfunds may therefore be subject to management risks. The Management Company will apply its investment strategy (including investment techniques and risk analysis) when making investment decisions for the Subfunds, however no assurance can be given that the investment decision will achieve the desired results. The Management Company may in certain cases decide not to use investment techniques, such as derivative instruments, or they may not be available, even under market conditions where their use could be beneficial for the relevant Subfund.

#### **Investment Risk**

##### ***Investments in Fixed Income Securities***

Investments in securities of issuers from different countries and denominated in different currencies offer potential benefits not available from investments solely in securities of issuers from a single country, but also involve certain significant risks that are not typically associated with investing in the securities of issuers located in a single country. Among the risks involved are fluctuations in interest rates as well as fluctuations in currency exchange rates (as further described above in section "Interest Rate Risk" and "Foreign Exchange Risk") and the possible imposition of exchange control regulations or other laws or restrictions applicable to such investments. A decline in the value of a particular currency in comparison with the Reference Currency of the Subfund would reduce the value of certain portfolio securities that are denominated in such a currency.

An issuer of securities may be domiciled in a country other than the country in whose currency the instrument is denominated. The values and relative yields of investments in the securities markets of different countries, and their associated risks, may fluctuate independently of each other.

As the Net Asset Value of a Subfund is calculated in its Reference Currency, the performance of investments denominated in a currency other than the Reference Currency will depend on the strength of such currency against the Reference Currency and on the interest rate environment in the country issuing the currency. In the absence of other events that could otherwise affect the value of non-Reference Currency investments (such as a change in the political climate or an issuer's credit quality), an increase in the value of the non-Reference Currency can generally be expected to increase the value of a Subfund's non-Reference Currency investments in terms of the Reference Currency. The Subfunds may invest in investment grade debt securities. Investment grade debt securities are assigned ratings within the top rating categories by rating agencies on the basis of the creditworthiness or risk of default. Rating agencies review, from time to time, such assigned ratings and debt securities may therefore be downgraded in rating if economic circumstances impact the relevant debt securities issue. Moreover, the Subfunds may invest in debt instruments in the non investment grade sector (high yield debt securities). Compared to investment grade debt securities, high yield debt securities are generally lower-rated securities and will usually offer higher yields to compensate for the reduced creditworthiness or increased risk of default attached to these debt instruments.

#### ***Risk Relating to Contingent Convertible Instruments***

##### ***Unknown risk***

The structure of the contingent convertible instruments is yet untested. In a stressed environment, when the underlying features of these instruments will be put to the test, it is uncertain how they will perform. In the event a single issuer activates a trigger or suspends coupons, it is uncertain if the market will view the issue as an idiosyncratic event or systemic. In the latter case, potential price contagion and volatility to the entire asset class is possible. This risk may in turn be reinforced depending on the level of underlying instrument arbitrage. Furthermore, in an illiquid market, price formation may be increasingly stressed.

##### ***Capital structure inversion risk***

Contrary to classic capital hierarchy, contingent convertibles instruments investors may suffer a loss of capital when equity holders do not. In certain scenarios, holders of contingent convertibles instruments will

suffer losses ahead of equity holders, e.g. when a high trigger principal write-down contingent convertibles instruments is activated. This cuts against the normal order of capital structure hierarchy where equity holders are expected to suffer the first loss.

#### *Industry concentration risk*

As the issuers of contingent convertibles instruments may be unevenly distributed across sectors of industry, contingent convertibles instruments may be prone to industry concentration risks.

#### *Use of Derivatives*

While the use of financial derivative instruments can be beneficial, financial derivative instruments also involve risks different from, and, in certain cases, greater than, the risks presented by more traditional investments.

Derivatives are highly specialized financial instruments. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself, without there being any opportunity to observe the performance of the derivative under all possible market conditions.

If a derivative transaction is particularly large or if the relevant market is illiquid, it may not be possible to initiate a transaction or liquidate a position at an advantageous price.

Since many derivatives have a leverage component, adverse changes in the value or level of the underlying asset, rate or index may result in a loss substantially greater than the amount invested in the derivative itself.

The other risks associated with the use of derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Many derivatives are complex and are often valued subjectively. Improper valuations can result in increased cash payment requirements to counterparties or a loss of value to the Fund. Consequently, the Fund's use of derivatives may not always be an effective means to achieve the Fund's investment objective and may sometimes even have the contrary effect.

Derivative instruments also carry the risk that a loss may be sustained by the Fund as a result of the failure of the counterparty to a derivative to comply with the terms of the contract (as further described under "Counterparty Risk" above). The default risk for exchange-traded derivatives is generally less than for privately negotiated derivatives, since the clearing house, which is the issuer or counterparty to each exchange-traded derivative, assume a guarantee of performance. In addition, the use of credit derivatives (credit default swaps, credit linked notes) carries the risk of a loss arising for the Fund if one of the entities underlying the credit derivative defaults.

Moreover, OTC derivatives may bear liquidity risks. The counterparties with which the Fund effects transactions might cease making markets or quoting prices in certain of the instruments. In such cases, the Fund might not be in a position to enter into a desired transaction in currencies, credit default swaps or total return swaps or to enter into an offsetting transaction with respect to an open position which might adversely affect its performance. Unlike exchange-traded derivatives, forward, spot and option contracts on currencies do not provide the Management Company with the possibility to offset the Fund's obligations through an equal and opposite transaction. Therefore, through entering into forward, spot or options contracts, the Fund may be required, and must be able, to perform its obligations under these contracts.

The use of derivative instruments may or may not achieve its intended objective.

#### *Investments in illiquid Assets*

The Fund may invest up to 10% of the total net assets of each Subfund in transferable securities or money market instruments which are not traded on stock exchanges or regulated markets. It may therefore be the case that the Fund cannot readily sell such securities. Moreover, there may be contractual restrictions on the resale of such securities. In addition, the Fund may under certain circumstances trade futures contracts or options thereon. Such instruments may also be subject to illiquidity in certain situations when, for example, market activity decreases, or when a daily fluctuation limit has been reached. Most futures exchanges restrict the fluctuations in future contract prices

during a single day by regulations referred to as "daily limits". During a single trading day no trades may be executed at prices above or below these daily limits. Once the price of a futures contract has increased or decreased to the limit, positions can neither be purchased nor compensated. Futures prices have occasionally moved outside the daily limit for several consecutive days with little or no trading. Similar occurrences could prevent the Fund from promptly liquidating unfavourable positions and therefore result in losses.

For the purpose of calculating the net asset value, certain instruments, which are not listed on an exchange, for which there is limited liquidity will be valued based upon the average price taken from at least two major primary dealers. These prices may affect the price at which Units are re-deemed or purchased. There is no guarantee that in the event of a sale of such instruments the price thus calculated can be achieved.

#### *Investments in Asset-Backed Securities and Mortgage-Backed Securities*

The Subfunds may have exposure to asset-backed securities ("ABS") and mortgage-backed securities ("MBS"). ABS and MBS are debt securities issued by a special purpose vehicle (SPV) with the aim to pass through of liabilities of third parties other than the parent company of the issuer. Such securities are secured by an asset pool (mortgages in the case of MBS and various types of assets in the case of ABS). Compared to other traditional fixed income securities such as corporate or government issued bonds, the obligations associated with these securities may be subject to greater counterparty, liquidity and interest rate risks as well as other types of risks, such as reinvestment risk (arising from included termination rights, prepayment options), credit risks on the underlying assets and advance repayments of principal resulting in a lower total return (especially, if repayment of the debt is not concurrent with redemption of the assets underlying the claims).

ABS and MBS assets may be highly illiquid and therefore prone to substantial price volatility.

#### *Hedged Unit Class Risk*

The hedging strategy applied to hedged Unit Classes may vary from one Subfund to another. Each Subfund will apply a hedging strategy which aims to reduce currency risk between the Reference Currency of the respective Subfund and the nominal currency of the hedged Unit Class while taking various practical considerations into account. The hedging strategy aims to reduce, however may not totally eliminate, currency exposure.

Investors should note that there is no segregation of liabilities between the individual Unit Classes with a Subfund. Hence, there is a risk that under certain circumstances, hedging transactions in relation to a hedged Unit Class could result in liabilities affecting the Net Asset Value of the other Unit Classes of the same Subfund. In such case assets of other Unit Classes of such Subfund may be used to cover the liabilities incurred by the hedged Unit Class.

#### *Clearing and Settlement Procedures*

Different markets also have different clearing and settlement procedures. Delays in settlement may result in a portion of the assets of a Subfund remaining temporarily uninvested and no return is earned thereon. The inability of the Management Company to make intended security purchases due to settlement problems could cause a Subfund to miss attractive investment opportunities. The inability to dispose of portfolio securities due to settlement problems could result either in losses to a Subfund due to subsequent declines in value of the portfolio security or, if a Subfund has entered into a contract to sell the security, could result in possible liability to the purchaser.

#### *Investment Countries*

The issuers of fixed income securities and the companies, the shares of which are purchased, are generally subject to different accounting, auditing and financial reporting standards in the different countries of the world. The volume of trading, volatility of prices and liquidity of issuers may vary from one market or country to another. In addition, the level of government supervision and regulation of securities exchanges, securities dealers and listed and unlisted companies is different throughout the world. The laws and regulations of some countries may restrict the Fund's ability to invest in securities of certain issuers located in those countries.

**Concentration on certain Countries/Regions**

Where a Subfund restricts itself to investing in securities of issuers located in a particular country or group of countries, such concentration will expose the Subfund to the risk of adverse social, political or economic events which may occur in that country or group of countries. The risk increases if the country in question is an emerging market. Investments in such Subfunds are exposed to the risks described below, which may be exacerbated by the special factors pertaining to this emerging market.

**Investments in Emerging Countries**

Investors should note that certain Subfunds may invest in less developed or emerging markets. Investing in emerging markets may carry a higher risk than investing in developed markets.

The securities markets of less developed or emerging markets are generally smaller, less developed, less liquid and more volatile than the securities markets of developed markets. In addition, there may be a higher than usual risk of political, economic, social and religious instability and adverse changes in government regulations and laws in less developed or emerging markets, which could affect the investments in those countries. The assets of Subfunds investing in such markets, as well as the income derived from the Subfund, may also be effected unfavourably by fluctuations in currency rates and exchange control and tax regulations and consequently the Net Asset Value of Units of these Subfunds may be subject to significant volatility. Also, there might be restrictions on the repatriation of the capital invested.

Some of these markets may not be subject to accounting, auditing and financial reporting standards and practices comparable to those of more developed countries and the securities markets of such markets may be subject to unexpected closure. In addition, there may be less government supervision, legal regulation and less well-defined tax laws and procedures than in countries with more developed securities markets.

Moreover, settlement systems in emerging markets may be less well organized than in developed markets. Thus, there may be a risk that settlement may be delayed and that cash or securities of the concerned Sub-funds may be in jeopardy because of failures or of defects in the systems. In particular, market practice may require that payment shall be made prior to receipt of the security which is being purchased or that delivery of a security must be made before payment is received. In such cases, default by a broker or bank through whom the relevant transaction is effected might result in a loss being suffered by the Subfunds investing in emerging market securities.

It must also be borne in mind that companies are selected regardless of their market capitalization, sector or geographical location. This may lead to a concentration in geographical or sector terms.

Subscriptions in the relevant Subfunds are thus only suitable for investors who are fully aware of, and able to bear, the risks related to this type of investment.

**Investments in Russia**

Custodial and registration risk in Russia

- Although exposure to the Russian equity markets is substantially hedged through the use of GDRs and ADRs, individual Subfunds may, in accordance with their investment policy, invest in securities which require the use of local depository and/or custodial services. Currently, evidence of legal title to shares is maintained in "book-entry" form in Russia.
- The significance of the register is crucial to the custodial and registration process. Although independent registrars are subject to licensing and supervision by the Central Bank of Russia and may bear civil, as well as administrative liability for non-performance or undue performance of their obligations, it is, nevertheless, possible for the Subfund to lose its registration through fraud, negligence or mere oversight. Furthermore, although companies are required under Russian law to maintain independent registrars that meet certain statutory criteria, in practice this regulation has not been strictly enforced. Because of this lack of independence, the management of a company can potentially exert significant influence over the make-up of that company's shareholder base.
- Distortion or destruction of the register could substantially impair, or in certain cases erase, the Subfund's holdings of the relevant company's shares. Neither the Subfund, the Investment Manager,

the Depository, the Management Company, the Board of Directors of the Management Company nor any of their agents can make any representation or warranty about, or any guarantee of, the registrars' actions or performance. Such risk will be borne by the Subfund. This risk is expected to be mitigated by the amendments to the Russian Civil Code which entered into force in October 2013. These amendments impose an obligation on the person maintaining the register to (a) immediately publish information on any loss of records in the register, and (b) to file a petition with the court for the restoration of the lost information in the register. However, it is not yet clear how this mechanism for restoration of register information will apply due to the absence of accompanying procedural rules.

The abovementioned amendments to the Russian Civil Code provide for unlimited protection of the "good faith purchaser" of equities acquired in the course of exchange trades. The only exception (which seems to be non-applicable) to this rule is the acquisition of such securities without consideration.

Direct investments in the Russian market are made in principle via equities or equity-type securities traded on Closed joint-stock company "MICEX Stock Exchange" (the "Moscow Exchange"), in accordance with Chapter 6, "Investment Restrictions" and unless stipulated otherwise in Chapter 22 "Subfunds". Any other direct investments, which are not made via the Moscow Exchange will fall within the 10%-rule of Article 41 (2) a) of the Law of December 17, 2010.

**Securities Lending**

Securities lending transactions involve counterparty risk, including the risk that the lent securities may not be returned or returned in a timely manner, thereby restricting the ability of the Subfund to meet delivery obligations under security sales. Should the borrower of securities fail to return the securities lent by a Subfund, there is a risk that the collateral received may be realized at a lower value than the securities lent, whether due to inaccurate pricing of the collateral, adverse market movements, decrease in the credit rating of the issuer of the collateral or the illiquidity of the market in which the collateral is traded which could adversely impact the performance of the Subfund.

The affiliate of Credit Suisse Group which acts as securities lending principal on behalf of the Subfunds, acts as the exclusive principal borrower and counterparty for securities lending transactions. They may engage in activities that might result in conflicts of interests with adverse effect on the performance of the Subfund. In such circumstances, Credit Suisse AG and Credit Suisse (Schweiz) AG have undertaken to use their reasonable endeavours to resolve any such conflicts of interest fairly (having regard to its or his respective obligations and duties) and to ensure that the interests of the Fund and the Unitholders are not unfairly prejudiced.

**Total Return Swaps**

A TRS is an OTC derivative contract in which the total return payer transfers the total economic performance, including income from interest and fees, gains and losses from price movements, and credit losses, of a reference obligation to the total return receiver. In exchange, the total return receiver either makes an upfront payment to the total return payer, or makes periodic payments based on set rate which can be either fixed or variable. A TRS thus typically involves a combination of market risk and interest rate risk, as well as counterparty risk.

In addition, due to the periodic settlement of outstanding amounts and/or periodic margin calls under the relevant contractual agreements, a counterparty may, under unusual market circumstances, have insufficient funds available to pay the amounts due. Moreover, each TRS is a bespoke transaction among others with respect to its reference obligation, duration, and contractual terms, including frequency and conditions for settlement. Such lack of standardisation may adversely affect the price or conditions under which a TRS can be sold, liquidated or closed out. Any TRS therefore involves certain degree of liquidity risk.

Finally, as any OTC derivative, a TRS is a bilateral agreement which involves a counterparty which may, for any reason, not be in a position to fulfil its obligations under the TRS. Each party to the TRS is therefore exposed to counterparty risk and, if the agreement include the use of collaterals, to the risks related to collateral management.

Investors are invited to consider the relevant risk warnings on Market Risk, Interest Rate Risk, Liquidity Risk, Counterparty Risk and Collateral Management set out in this Chapter.

### Collateral Management

Where the Management Company on behalf of the Fund enters into OTC financial derivative and/or efficient portfolio management techniques, collateral may be used to reduce counterparty risk exposure. Collateral will be treated in accordance with the Fund's collateral policy as set out in Chapter 18, "Regulatory Disclosures".

The exchange of collateral involves certain risks, including operational risk related to the actual exchange, transfer and booking of collateral. Collateral received under a title transfer arrangement will be held by the Depositary in accordance with the usual terms and provisions of the Depositary Agreement. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral. The use of such third party custodians may involve additional operational and clearing and settlement risk, as well as counterparty risk. Collateral received will consist of either cash or transferable securities that meet the criteria set out in the Fund's collateral policy. Transferable securities received as collateral are subject to market risk. The Management Company aims to manage this risk by applying appropriate haircuts, valuing collateral on a daily basis, and accepting only high quality collateral. However, some residual market risk must be expected to remain.

Non-cash collateral must be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. However, in adverse market circumstances, the market for certain types of transferable securities may be illiquid and, in extreme cases, may cease to exist. Any non-cash collateral therefore involves a certain degree of liquidity risk.

Any collateral received will not be sold, re-invested or pledged. Accordingly, no risk is expected to arise from the reuse of collateral.

Risks linked to the management of collateral will be identified, managed and mitigated in accordance with the Management Company's risk management process concerning the Fund. Investors are invited to consider the relevant risk warnings on Market Risk, Counterparty Risk, Liquidity Risk and Clearing and Settlement Procedures set out in this Chapter.

### Legal, Regulatory, Political and Tax Risk

The Management Company and the Fund must at all times comply with applicable laws and regulations in each of the various jurisdictions where it is active, or where the Fund makes its investments or holds its assets. Legal or regulatory constraints or changes to applicable laws and regulations may affect the Management Company or the Fund, as well as the assets and liabilities of any of its Subfunds and may require a change in the investment objectives and policy of a Subfund. Substantive changes in applicable laws and regulations may make the investment objectives and policy of a Subfund more difficult or even impossible to achieve or implement, which may prompt the Management Company to take appropriate action, which may include the discontinuation of a Subfund.

The assets and liabilities of a Subfund, including but not limited to the financial derivative instruments used by the Management Company to implement that Subfund's investment objectives and policy may also be subject to change in laws or regulations and/or regulatory action which may affect their value or enforceability. In the implementation of a Subfund's investment objectives and policy, the Management Company may have to rely on complex legal agreements, including but not limited to master agreements for financial derivatives agreements, confirmations and collateral arrangements and securities lending agreements. Such agreements may be drawn up by industry bodies established outside of the Grand Duchy of Luxembourg and subject to foreign laws, which may imply an additional element of legal risk. Whilst the Management Company will ensure that it receives appropriate advice from reputable legal counsel, it cannot be excluded that such complex legal agreements, whether governed by domestic or foreign laws, may be held unenforceable by a competent court due to legal or regulatory developments or for any other reason.

Recently, the global economic environment has been characterised by an increase in political risk in both developed and developing countries. The performance of the Subfunds or an investor's possibility to purchase, sell or redeem Units may be adversely affected by changes in general economic conditions and uncertainties caused by political developments such as the results of popular votes or referenda, changes in economic policy, the rescinding of free trade agreements, adverse developments in diplomatic relations, increased military tension, changes in government agencies or policies, the imposition of restrictions on the transfer of capital and changes in the industrial and financial outlook in general. Changes in tax laws or fiscal policy in any country where the Management Company or the Fund is active, or where a Subfund is invested or holds assets, may adversely effect the performance of a Subfund or any of its Unit Classes. Investors are invited to consider the relevant risk warning on Taxation, and to consult with their professional advisers to assess their individual tax position.

### Taxation

The proceeds from the sale of securities in some markets or the receipt of any dividends and other income may be or may become subject to tax, levies, duties or other fees or charges imposed by the authorities in that market, including taxation levied by withholding at source.

It is possible that the tax law (and/or the current interpretation of the law) as well as the practice in countries, into which the Subfunds invest or may invest in the future, might change. As a result, the Fund could become subject to additional taxation in such countries that is not anticipated either at the date of this Prospectus or when investments are made, valued or disposed of.

### FATCA

The Fund may be subject to regulations imposed by foreign regulators, in particular the Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act (commonly known as "FATCA"). FATCA provisions generally impose a reporting to the U.S. Internal Revenue Service of non-U.S. financial institutions that do not comply with FATCA and U.S. persons' (within the meaning of FATCA) direct and indirect ownership of non-U.S. accounts and non-U.S. entities. Failure to provide the requested information will lead to a 30% withholding tax applying to certain U.S. source income (including dividends and interest) and gross proceeds from the sale or other disposal of property that can produce U.S. source interest or dividends.

Under the terms of FATCA, the Fund will be treated as a Foreign Financial Institution (within the meaning of FATCA). As such, the Fund may require all investors to provide documentary evidence of their tax residence and all other information deemed necessary to comply with the above mentioned regulations.

Should the Fund become subject to a withholding tax as a result of FATCA, the value of the Unit held by all Unitholders may be materially affected.

The Fund and/or its Unitholders may also be indirectly affected by the fact that a non U.S. financial entity does not comply with FATCA regulations even if the Fund satisfies with its own FATCA obligations.

Despite anything else herein contained, the Fund shall have the right to:

- withhold any taxes or similar charges that it is legally required to withhold by applicable laws and regulations in respect of any unitholding in the Fund;
- require any Unitholder or beneficial owner of the Units to promptly furnish such personal data as may be required by the Fund in its discretion in order to comply with applicable laws and regulations and/or to promptly determine the amount of withholding to be retained;
- divulge any such personal information to any tax authority, as may be required by applicable laws or regulations or requested by such authority; and
- delay payments of any dividend or redemption proceeds to a Unitholder until the Fund holds sufficient information to comply with applicable laws and regulations or determine the correct amount to be withheld.

### Common Reporting Standard

The Fund may be subject to the Standard for Automatic Exchange of Financial Account Information in Tax matters (the "Standard") and its Common Reporting Standard (the "CRS") as set out in the Luxembourg

law dated 18 December 2015 implementing Council Directive 2014/107/EU of 9 December 2014 as regards mandatory automatic exchange of information in the field of taxation (the “CRS-Law”).

Under the terms of the CRS-Law, the Fund is to be treated as a Luxembourg Reporting Financial Institution. As such, as of 30 June 2017 and without prejudice to other applicable data protection provisions, the Fund will be required to annually report to the Luxembourg tax authority personal and financial information related, inter alia, to the identification of, holdings by and payments made to (i) certain unitholders as per the CRS-Law (the “Reportable Persons”) and (ii) Controlling Persons of certain non-financial entities (“NFEs”) which are themselves Reportable Persons. This information, as exhaustively set out in Annex I of the CRS-Law (the “Information”), will include personal data related to the Reportable Persons.

The Fund’s ability to satisfy its reporting obligations under the CRS-Law will depend on each Unitholder providing the Fund with the Information, along with the required supporting documentary evidence. In this context, the Unitholders are hereby informed that, as data controller, the Fund will process the Information for the purposes as set out in the CRS-Law. The Unitholders undertake to inform their Controlling Persons, if applicable, of the processing of their Information by the Fund.

The term “Controlling Person” means in the present context any natural persons who exercise control over an entity. In the case of a trust it means the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust, and in the case of a legal arrangement other than a trust, persons in equivalent or similar positions. The term “Controlling Persons” must be interpreted in a manner consistent with the Financial Action Task Force Recommendations.

The Unitholders are further informed that the Information related to Reportable Persons within the meaning of the CRS-Law will be disclosed to the Luxembourg tax authority annually for the purposes set out in the CRS-Law. In particular, Reportable Persons are informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Luxembourg tax authority.

Similarly, the Unitholders undertake to inform the Fund within thirty (30) days of receipt of these statements should any included personal data be not accurate. The Unitholders further undertake to immediately inform the Fund of, and provide the Fund with all supporting documentary evidence of any changes related to the Information after occurrence of such changes.

Any Unitholder that fails to comply with the Fund’s Information or documentation requests may be held liable for penalties imposed on the Fund and attributable to such Unitholder’s failure to provide the Information.

## 8. Net Asset Value

Unless otherwise specified in Chapter 22, “Subfunds”, the Net Asset Value of the Units in each Subfund shall be calculated in the Reference Currency of the respective Subfund and shall be determined by the Management Company in Luxembourg on each Banking Day on which banks are normally open all day for business in Luxembourg (each such day being referred to as a “Valuation Day”).

In case the Valuation Day is not a full Banking Day in Luxembourg, the Net Asset Value of that Valuation Day will be calculated on the next following Banking Day. If a Valuation Day falls on a day which is a holiday in countries whose stock exchanges or other markets are decisive for valuing the majority of a Subfund’s assets, the Management Company may decide, by way of exception, that the Net Asset Value of the Units in this Subfund will not be determined on such days.

For this purpose, the assets and liabilities of the Fund shall be allocated to the Subfunds (and to the individual Unit Classes within each Subfund), and the calculation is carried out by dividing the Net Asset Value of the Subfund by the total number of Units outstanding for the relevant Subfund. If the Subfund in question has more than one Unit Class, that portion of the Net Asset Value of the Subfund attributable to the particular Class will be divided by the number of issued Units of that Class.

The Net Asset Value of an Alternate Currency Class shall be calculated first in the Reference Currency of the relevant Subfund. Calculation of the Net Asset Value of the Alternate Currency Class shall be carried out

through conversion at the mid-market rate between the Reference Currency and the alternate currency of the relevant Unit Class.

In particular, the costs and expenses associated with the conversion of monies in relation to the subscription, redemption and conversion of Units of an Alternate Currency Class as well as the hedging of currency exposure in relation to the Alternate Currency Class will be reflected in the Net Asset Value of that Alternate Currency Class.

Unless otherwise specified in Chapter 22, “Subfunds”, the assets of each Subfund shall be valued as follows:

- a) Securities which are listed on a stock exchange or which are regularly traded on a stock exchange shall be valued at the last available traded price. If such a price is not available for a particular trading day, but a closing mid-price (the mean of the closing bid and ask prices) or a closing bid price is available, the closing mid-price, or alternatively the closing bid price may be taken as a basis for the valuation.
- b) If a security is traded on several stock exchanges, the valuation shall be made by reference to the exchange which is the main market for this security.
- c) In the case of securities for which trading on a stock exchange is not significant but which are traded on a secondary market with regulated trading among securities dealers (with the effect that the price reflects market conditions), the valuation may be based on this secondary market.
- d) Securities traded on a regulated market shall be valued in the same way as those listed on a stock exchange.
- e) Securities that are not listed on a stock exchange and are not traded on a regulated market shall be valued at their last available market price. If no such price is available, the Management Company shall value these securities in accordance with other criteria to be established by the Management Company and on the basis of the probable sales price, the value of which shall be estimated with due care and in good faith.
- f) Derivatives shall be treated in accordance with the above.
- g) The valuation price of a money-market investment, based on the net acquisition price, shall be progressively adjusted to the redemption price whilst keeping the resulting investment return constant. In the event of a significant change in market conditions, the basis for the valuation of different investments shall be brought into line with the new market yields.
- h) However, securities with a maturity or residual maturity of less than six months may be valued as follows: the valuation price of an investment, based on the net acquisition price (or the price at the time when the term to maturity falls below six months), shall be progressively adjusted to the redemption price while keeping the resulting investment return constant. In the event of a significant change in market conditions, the basis for the valuation of individual investments shall be brought into line with the new market yields.
- i) Units or shares of UCITS or other UCIs shall be valued on the basis of their most recently calculated net asset value, where necessary by taking due account of the redemption fee. Where no net asset value and only buy and sell prices are available for units or shares of UCITS or other UCIs, the units or shares of such UCITS or other UCIs may be valued at the mean of such buy and sell prices.
- j) Fiduciary and fixed-term deposits shall be valued at their respective nominal value plus accrued interest.

The amounts resulting from such valuations shall be converted into the Reference Currency of each Subfund at the prevailing mid-market rate. Foreign exchange transactions conducted for the purpose of hedging currency risks shall be taken into consideration when carrying out this conversion.

If a valuation in accordance with the above rules is rendered impossible or incorrect due to particular or changed circumstances, the Management Company shall be entitled to use other generally recognized and auditable valuation principles in order to reach a proper valuation of the Subfund’s assets and as measure to prevent the practices relating to market timing.

The Net Asset Value of a Unit shall be rounded up or down, as the case may be, to the next smallest unit of the Reference Currency which is currently used unless otherwise specified in Chapter 22, “Subfunds”.

The Net Asset Value of one or more Subfunds may also be converted into other currencies at the mid-market rate should the Management

Company decide to effect the issue and redemption of Units in one or more other currencies. Should the Management Company determine such currencies, the Net Asset Value of the respective Units in these currencies shall be rounded up or down to the next smallest unit of currency. In exceptional circumstances, further valuations may be carried out on the same day; such valuations will be valid for any applications for subscription and/or redemption subsequently received.

The total Net Asset Value of the Fund shall be calculated in Swiss francs.

#### Adjustment of the Net Asset Value (Single Swing Pricing)

In order to protect existing Unitholders and subject to the conditions set out in Chapter 22, "Subfunds", the Net Asset Value per Unit Class of a Subfund may be adjusted upwards or downwards by a maximum percentage ("swing factor") indicated in Chapter 22, "Subfunds" in the event of a net surplus of subscription or redemption applications on a particular Valuation Day. In such case the same Net Asset Value applies to all incoming and outgoing investors on that particular Valuation Day.

The adjustment of the Net Asset Value aims to cover in particular but not exclusively transaction costs, tax charges and bid/offer spreads incurred by the respective Subfund due to subscriptions, redemptions and/or conversions in and out of the Subfund. Existing Unitholders would no longer have to indirectly bear these costs, since they are directly integrated into the calculation of the Net Asset Value and hence, are borne by incoming and outgoing Unitholders.

The Net Asset Value may be adjusted on every Valuation Day on a net deal basis. The Board of Directors can set a threshold (net capital flows that needs to be exceeded) to apply the adjustment to the Net Asset Value. Unitholders should note that the performance calculated on the basis of the adjusted Net Asset Value might not reflect the true portfolio performance as a consequence of the adjustment of the Net Asset Value.

## 9. Expenses and Taxes

### i. Taxes

The following summary is based on the laws and practices that are currently applicable in the Grand Duchy of Luxembourg, as may be amended from time to time.

Unless otherwise specified in Chapter 22, "Subfunds", the Fund's assets are subject to a subscription tax ("taxe d'abonnement") in the Grand Duchy of Luxembourg of 0.05% p.a., payable quarterly. In the case of Unit Classes that may only be acquired by institutional investors (pursuant to Article 174 (2) c) of the Law of December 17, 2010), this tax rate is 0.01% p.a. The Net Asset Value of each Subfund at the end of each quarter is taken as the basis for calculation.

The Fund's income is not taxable in Luxembourg.

Dividends, interest, income and gains received by the Fund on its investments may be subject to non-recoverable withholding tax or other taxes in the countries of origin.

According to the legislation currently in force, Unitholders are not required to pay any income, gift, inheritance or other taxes in Luxembourg, unless they are resident or domiciled in Luxembourg or maintain a permanent establishment there.

The tax consequences will vary for each investor in accordance with the laws and practices currently in force in an investor's country of citizenship, residence or temporary domicile, and in accordance with his or her personal circumstances. Investors should therefore ensure they are fully informed in this respect and should, if necessary, consult their financial adviser.

### ii. Expenses

Apart from the above "taxe d'abonnement", the Fund shall bear the costs specified below, unless otherwise specified in Chapter 22, "Subfunds":

- a) All taxes which may be payable on the assets, income and expenses chargeable to the Fund;
- b) All costs of buying and selling securities and other assets, including inter alia standard brokerage, clearing account maintenance fees, fees charged by clearing platforms and bank charges;
- c) Mark-up fees which may be charged by the counterparty for Unit-Class Hedging. Unit Class Hedging is executed in the best interest of the Unitholders and applicable to the Unit Classes that are issued in one or more alternate currencies, as set out in Chapter 2, "CS Investment Funds 14 – Summary of Unit Classes" and Chapter 5, "Investment in CS Investment Funds 14".

- d) A monthly management fee for the Management Company, payable at the end of each month, based on the average daily Net Asset Value of the relevant Unit Class during that month. The management fee may be charged at different rates for individual Subfunds and Unit Classes within a Subfund or may be waived in full. Charges incurred by the Management Company in relation to the provision of investment advice shall be paid out of the management fee. Further details of the management fee are included in Chapter 2, "Summary of Unit Classes";
- e) Fees payable to the Depositary, which are charged at rates agreed from time to time with the Management Company on the basis of usual market rates prevailing in Luxembourg, and which are based on the net assets of the respective Subfund and/or the value of transferable securities and other assets held or determined as a fixed sum; the fees payable to the Depositary may not exceed 0.10% p.a. although in certain cases the transaction fees and the fees of the Depositary's correspondents may be charged additionally.
- f) Fees payable to the Paying Agents (in particular, a coupon payment commission), Transfer Agents and the authorized representatives in the countries of registration;
- g) All other charges incurred for sales activities and other services rendered to the Fund but not mentioned in the present section; for certain Unit Classes these fees may be borne in full or in part by the Management Company;
- h) Fees incurred for collateral management in relation to derivative transactions;
- i) Expenses, including those for legal advice, which may be incurred by the Management Company or the Depositary through measures taken on behalf of the Unitholders;
- j) The cost of preparing, depositing and publishing the Management Regulations and other documents in respect of the Fund, including notifications for registration, Key Investor Information Documents, prospectuses or memoranda for all government authorities and stock exchanges (including local securities dealers' associations) which are required in connection with the Fund or with offering the Units; the cost of printing and distributing annual and semi-annual reports for the Unitholders in all required languages, together with the cost of printing and distributing all other reports and documents which are required by the relevant legislation or regulations of the above-mentioned authorities; the cost of book-keeping and calculating the daily Net Asset Value, which may not exceed 0.10% p.a., the cost of notifications to Unitholders including the publication of prices for the Unitholders, the fees and costs of the Fund's auditors and legal advisers, and all other similar administrative expenses, and other expenses directly incurred in connection with the offer and sale of Units, including the cost of printing copies of the aforementioned documents or reports as are used in marketing the Fund Units. The cost of advertising may also be charged.

### iii. Performance Fee

In addition to the aforementioned costs, the Fund will, if applicable, also bear a performance fee ("Performance Fee") as specified for the relevant Subfund in Chapter 2, "Summary of Unit Classes" and Chapter 22, "Subfunds".

### General Information

All recurring fees shall first be deducted from investment income, then from the gains from securities transactions and then from the Fund's assets. Other non-recurring fees, such as the costs for establishing new Subfunds or Unit Classes, may be written off over a period of up to five years. The costs attributable to the individual Subfunds shall be allocated directly to them. Otherwise the costs shall be allocated among the individual Subfunds in proportion to the Net Asset Value of each Subfund.

## 10. Accounting Year

The accounting year of the Fund ends on March 31 of each year.

## 11. Appropriation of the Net Income and Capital Gains

### Capital-Growth Units

At present, no distribution is envisaged for the capital-growth Units Classes (see Chapter 5, "Investment in CS Investment Funds 14") and the income generated shall be used to increase the Net Asset Value of the Units, after deduction of general costs (capital growth). However, the Management Company may, in accordance with the income appropriation policy as determined by the Board of Directors, distribute from time to time, in whole or in part, ordinary net income and/or realized capital gains as well as all non-recurring income, after deduction of realized capital losses.

### Distribution Units

The Management Company is entitled to determine the payment of dividends and decides to what extent distributions are to be made from the net investment income attributable to each distribution Unit Class of the Subfund in question (see Chapter 5, "Investment in CS Investment Funds 14"). In addition, gains made on the sale of assets belonging to the Fund may be distributed to investors. Further distributions may be made from the Fund's assets in order to achieve an appropriate distribution ratio. Distributions may be declared on an annual basis or at any intervals to be specified by the Management Company, unless otherwise specified in Chapter 22, "Subfunds").

### General Information

Payment of income distributions shall be made in the manner described in Chapter 5, "Redemption of Units" and Chapter 22, "Subfunds", if applicable.

Claims for distributions which are not made within five years shall lapse and the assets involved shall revert to the respective Subfund.

## 12. Lifetime, Liquidation and Merger

The Fund and the Subfunds have been established for an unlimited period, unless otherwise specified in Chapter 22, "Subfunds". Unitholders, their heirs or other beneficiaries may not request the division or liquidation of the Fund or of one of the Subfunds. However, the Management Company may at any time, with the approval of the Depositary, terminate the Fund and dissolve individual Subfunds or individual Unit Classes. A decision to liquidate the Fund shall be published in the Recueil Electronique des Sociétés et Associations ("RESA") and shall also be announced in at least one newspaper as well as in the countries in which the Fund is admitted for public distribution. Any decision to dissolve a Subfund shall be published in accordance with Chapter 13, "Information for Unitholders". From the day the decision to liquidate is taken by the Management Company, no further Units shall be issued. However, Units may still be redeemed provided equal treatment of Unitholders can be ensured. At the same time, a provision shall be made for all identifiable outstanding expenses and fees.

In case of liquidation of the Fund or a Subfund, the Management Company shall dispose of the Fund's assets in the best interests of the Unitholders and shall instruct the Depositary to distribute the net liquidation proceeds (after deduction of liquidation costs) proportionately to the Unitholders. If the Management Company liquidates a Unit Class without terminating the Fund or a Subfund, it must redeem all Units of such Class at their then current Net Asset Value. Notice of redemption shall be published by the Management Company or notified to Unitholders when permitted under Luxembourg laws and regulations, and the redemption proceeds shall be paid to the former Unitholders in the respective currency by the Depositary or Paying Agents.

Any liquidation and redemption proceeds that cannot be distributed to the Unitholders at the closure of the liquidation shall be deposited with the "Caisse de Consignations" in Luxembourg until the statutory period of limitation has elapsed.

Furthermore, the Management Company may in accordance with the definitions and conditions set out in the Law of December 17, 2010 decide to merge any Subfund, either as receiving or merging Subfund, with one or more Subfunds of the Fund by converting the Unit Class or Classes of one or more Subfunds into the Unit Class or Classes of another Subfund of the Fund. In such cases, the rights attaching to the various Unit Classes shall be determined by reference to the respective Net Asset Value of the respective Unit Classes on the effective date of such merger.

Moreover, the Management Company may decide to merge the Fund or any of its Subfunds, either as merging UCITS or as a receiving UCITS on a cross-border and domestic basis in accordance with the definitions and conditions set out in the Law of December 17, 2010.

Furthermore, a Subfund may as a receiving Subfund be subject to mergers with another UCI or Subfund thereof, on a domestic or cross-border basis.

Mergers shall be announced at least thirty days in advance in order to enable Unitholders to request the redemption or conversion of their Units.

The Management Company may divide or merge the Units in the interest of the Unitholders.

## 13. Information for Unitholders

Information about the launch of new Subfunds may be obtained from the Management Company and the Distributors. The audited annual reports shall be made available to Unitholders free of charge at the registered office of the Management Company, at the Paying Agents, Information Agents and Distributors, within four months of the close of each accounting year. Unaudited semi-annual reports shall be made available in the same way within two months of the end of the accounting period to which they refer.

Other information regarding the Fund, as well as the issue and redemption prices of the Units, may be obtained on any Banking Day at the registered office of the Management Company.

The Net Asset Value is published daily on the Internet at [www.credit-suisse.com](http://www.credit-suisse.com) and may be published in various newspapers.

All announcements to Unitholders, including any information relating to a suspension of the calculation of the Net Asset Value, shall be made online at [www.credit-suisse.com](http://www.credit-suisse.com) and, if required, be published in the Recueil Electronique des Sociétés et Associations ("RESA") and/or various newspapers.

Investors may obtain the Prospectus, Key Investor Information Documents, the latest annual and semi-annual reports and copies of the Management Regulations free of charge from the registered office of the Management Company and on the Internet at [www.credit-suisse.com](http://www.credit-suisse.com). The relevant contractual agreements as well as the Management Company's articles of incorporation are available for inspection at the registered office of the Management Company during normal business hours. Also, up-to-date information regarding Chapter 16, "Depositary" shall be made available to investors upon request at the registered office of the Management Company.

## 14. Management Company

Credit Suisse Fund Management S.A. was incorporated in Luxembourg as CSAM Invest Management Company on 9 December 1999 as a joint-stock company for an indefinite period and is registered at the Luxembourg Trade and Companies Register under no. B 72 925. The Management Company has its registered office in Luxembourg, at 5, rue Jean Monnet. Its capital, on the date of this prospectus, is CHF 250.000. The share capital of the Management Company is held by Credit Suisse Asset Management & Investor Services (Schweiz) Holding AG which is an affiliate of Credit Suisse Group.

The Management Company is subject to the provisions of Chapter 15 of the Law of December 17, 2010 and also manages other undertakings for collective investment.

## 15. Investment Manager and Sub-Investment Manager

The Management Company may, in order to implement the policy of each Subfund, delegate under its permanent supervision and responsibility, the management of the assets of the Subfunds to one or more Investment Managers.

The Investment Manager/s for the respective Subfund are indicated in Chapter 22, "Subfunds". The Management Company may, at any time, appoint an Investment Manager other than the one/s named in Chapter 22, "Subfunds", or may terminate the relation with any of the Investment Manager/s.

Pursuant to the investment management agreement, the Investment Manager has discretion, on a day-to-day basis and subject to the overall control and ultimate responsibility of the Management Company, to purchase and sell securities and otherwise to manage the relevant Subfund's portfolios.

The Investment Manager may appoint in accordance with the investment management agreement entered into between the Investment Manager and the Management Company one or more Sub-Investment Managers for each Subfund to assist it in the management of the individual portfolios. The Investment Manager and Sub-Investment Manager/s for the respective Subfunds are indicated in Chapter 22, "Subfunds". The Management Company may at any time appoint an Investment Manager other than the one/s named in Chapter 22, "Subfunds", or may terminate the relation with any of the Investment Manager/s. The investors of such Subfund will be informed and the Prospectus will be modified accordingly.

## 16. Depositary

Pursuant to a depositary and paying agent services agreement (the "Depositary Agreement"), Credit Suisse (Luxembourg) S.A. has been appointed as depositary of the Fund (the "Depositary"). The Depositary will also provide paying agent services to the Fund.

Credit Suisse (Luxembourg) S.A. is a public limited company (société anonyme) under the laws of Luxembourg incorporated for an unlimited duration. Its registered and administrative offices are at 5, rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg. It is licensed to engage in all banking operations under Luxembourg law.

The Depositary has been appointed for the safe-keeping of the assets of the Fund in the form of custody of financial instruments, the record keeping and verification of ownership of other assets of the Fund as well as for the effective and proper monitoring of the Fund's cash flows in accordance with the provisions of the Law of December 17, 2010 and the Depositary Agreement.

In addition, the Depositary shall also ensure that (i) the sale, issue, repurchase, redemption and cancellation of Units are carried out in accordance with Luxembourg law and the Management Regulations; (ii) the value of the Units is calculated in accordance with Luxembourg law and the Management Regulations; (iii) the instructions of the Management Company are carried out, unless they conflict with applicable Luxembourg law and/or the Articles of Incorporation; (iv) in transactions involving the Fund's assets any consideration is remitted to the Fund within the usual time limits; and (v) the Fund's incomes are applied in accordance with Luxembourg law and the Management Regulations.

In compliance with the provisions of the Depositary Agreement and the Law of December 17, 2010, the Depositary may, subject to certain conditions and in order to effectively conduct its duties, delegate part or all of its safe-keeping duties in relation to financial instruments that can be held in custody and that are duly entrusted to the Depositary for custody purposes to one or more sub-custodian(s), and/or in relation to other assets of the Fund all or part of its duties regarding the record keeping and verification of ownership to other delegates, as they are appointed by the Depositary from time to time. The Depositary shall exercise all due skill, care and diligence as required by the Law of December 17, 2010 in the selection and the appointment of any sub-custodian and/or other delegate to whom it intends to delegate parts of its tasks and has to continue to exercise all due skill, care and diligence in the periodic review and ongoing monitoring of any sub-custodian and/or other delegate to which it has delegated parts of its tasks as well as of the arrangements of the sub-custodian and/or other delegate in respect of the matters delegated to it. In particular, any delegation of custody tasks may only occur when the sub-custodian, at all times during the performance of the tasks delegated to it, segregates the assets of the Fund from the Depositary's own assets and from assets belonging to the sub-custodian in accordance with the Law of December 17, 2010.

As a matter of principle the Depositary does not allow its sub-custodians to make use of delegates for the custody of financial instruments unless further delegation by the sub-custodian has been agreed by the Depositary. To the extent, sub-custodians are accordingly entitled to use further delegates for the purpose of holding financial instruments of the Fund or Subfunds that can be held in custody, the Depositary will require the sub-custodians to comply for the purpose of such sub-delegation with the requirements set forth by applicable laws and regulations, e.g. namely in respect of asset segregation.

Prior to the appointment and/or the use of any sub-custodian for the purposes of holding financial instruments of the Fund or Subfunds, the Depositary analyses - based on applicable laws and regulations as well as its conflict of interests policy - potential conflicts of interests that may

arise from such delegation of safekeeping functions. As part of the due diligence process applied prior to the appointment of a sub-custodian, this analysis includes the identification of corporate links between the Depositary, the sub-custodian, the Management Company and/or the Investment Manager. If a conflict of interest was identified between the sub-custodians and any of the parties mentioned before, the Depositary would – depending on the potential risk resulting on such conflict of interest – either decide not to appoint or not to use such sub-custodian for the purpose of holding financial instruments of the Fund or require changes which mitigated potential risks in an appropriate manner and disclose the managed conflict of interest to the Fund's investors. Such analysis is subsequently performed on all relevant sub-custodians on a regular basis as part of its ongoing due diligence procedure. Furthermore, the Depositary reviews, via a specific committee, each new business case for which potential conflicts of interest may arise between the Depositary, the Fund, the Management Company and the Investment Manager(s) from the delegation of the safekeeping functions. As of the date of this Prospectus, the Depositary has not identified any potential conflict of interest that could arise from the exercise of its duties and from the delegation of its safekeeping functions to sub-custodians.

As per the date of this Prospectus, the Depositary does not use any sub-custodian which is part of the Credit Suisse Group and thereby avoids conflicts of interests which might potentially result thereof.

An up-to-date list of these sub-custodians along with their delegate(s) for the purpose of holding in custody financial instruments of the Fund or Subfunds can be found on the webpage <https://www.credit-suisse.com/media/pb/docs/lu/privatebanking/services/list-of-credit-suisse-lux-sub-custodians.pdf> and will be made available to Unitholders and investors upon request.

The Depositary's liability shall not be affected by any such delegation to a sub-custodian unless otherwise stipulated in the Law of December 17, 2010 and/or the Depositary Agreement.

The Depositary is liable to the Fund or its Unitholders for the loss of a financial instrument held in custody by the Depositary and/or a sub-custodian. In case of loss of such financial instrument, the Depositary has to return a financial instrument of an identical type or the corresponding amount to the Fund without undue delay. In accordance with the provisions of the Law of December 17, 2010, the Depositary will not be liable for the loss of a financial instrument, if such loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

The Depositary shall be liable to the Fund and to the Unitholders for all other losses suffered by them as a result of the Depositary's negligence or intentional failure to properly fulfil its duties in accordance with applicable law, in particular the Law of December 17, 2010 and/or the Depositary Agreement.

The Management Company and the Depositary may terminate the Depositary Agreement at any time by giving ninety (90) days' notice in writing. In case of a voluntary withdrawal of the Depositary or of its removal by the Management Company, the Depositary must be replaced at the latest within two (2) months after the expiry of the aforementioned termination notice by a successor depositary to whom the Fund's assets are to be delivered and who will take over the functions and responsibilities of the Depositary. If the Management Company does not name such successor depositary in time, the Depositary may notify the CSSF of the situation. The Management Company will take the necessary steps, if any, to initiate the liquidation of the Fund, if no successor depositary bank has been appointed within two (2) months after the expiry of the aforementioned termination notice of ninety (90) days.

## 17. Central Administration

Credit Suisse Fund Services (Luxembourg) S.A., a service company registered in Luxembourg which belongs to Credit Suisse Group AG, has been entrusted with all administrative duties that arise in connection with the administration of the Fund, including the issue and redemption of Units, valuation of the assets, calculation of the Net Asset Value, accounting and maintenance of the register of Unitholders.

## 18. Regulatory Disclosure

### Conflicts of Interest

The Management Company, the Investment Managers, the Central Administration, the Depositary and certain Distributors are part of Credit Suisse Group AG (the "Affiliated Person").

The Affiliated Person is a worldwide, full-service private banking, investment banking, asset management and financial services organization and a major participant in the global financial markets. As such, the Affiliated Person is active in various business activities and may have other direct or indirect interests in the financial markets in which the Fund invests. The Fund will not be entitled to compensation related to such business activities.

The Management Company is not prohibited to enter into any transactions with the Affiliated Person, provided that such transactions are carried out as if effected on normal commercial terms negotiated at arm's length. In such case, in addition to the management fees the Management Company or the Investment Manager earn for managing the Fund, they may also have an arrangement with the issuer, dealer and/or distributor of any products entitling them to a share in the revenue from such products that they purchase on behalf of the Fund.

Moreover, the Management Company or the Investment Managers are not prohibited to purchase or to provide advice to purchase any products on behalf of the Fund where the issuer, dealer and/or distributor of such products is part of the Affiliated Person provided that such transactions are carried out in the best interest of the Fund as if effected on normal commercial terms negotiated at arm's length. Entities of the Affiliated Person may act as counterparty and as calculation agent in respect of financial derivative contracts entered into by the Fund. Investors should be aware that to the extent the Fund trades with the Affiliated Person as dedicated counterparty, the Affiliated Person will make a profit from the price of the financial derivative contract which may not be the best price available in the market, irrespective of the Best Execution principles, as stated further below.

Potential conflicts of interest or duties may arise because the Affiliated Person may have invested directly or indirectly in the Fund. The Affiliated Person could hold a relatively large proportion of Units in the Fund.

Employees and directors of the Affiliated Person may hold Units in the Fund. Employees of the Affiliated Person are bound by the terms of the respective policy on personal transactions and conflicts of interest applicable to them.

In the conduct of its business the Management Company and the Affiliated Person's policy is to identify, manage and where necessary prohibit any action or transaction that may pose a conflict between the interests of the Affiliated Persons' various business activities and the Fund or its investors. The Affiliated Person, as well as the Management Company strive to manage any conflicts in a manner consistent with the highest standards of integrity and fair dealing. For this purpose, both have implemented procedures that shall ensure that any business activities involving a conflict which may harm the interests of the Fund or its investors, are carried out with an appropriate level of independence and that any conflicts are resolved fairly.

Such procedures include, but are not limited to the following:

- Procedure to prevent or control the exchange of information between entities of the Affiliated Person,
- Procedure to ensure that any voting rights attached to the Fund's assets are exercised in the sole interests of the Fund and its investors,
- Procedures to ensure that any investment activities on behalf of the Fund are executed in accordance with the highest ethical standards and in the interests of the Fund and its investors,
- Procedure on management of conflicts of interest.

Notwithstanding its due care and best effort, there is a risk that the organizational or administrative arrangements made by the Management Company for the management of conflicts of interest are not sufficient to ensure with reasonable confidence, that risks of damage to the interests of the Fund or its Unitholders will be prevented. In such case these non-neutralized conflicts of interest as well as the decisions taken will be reported to investors in an appropriate manner (e.g. in the notes to the financial statements of the Fund or on the internet at <http://www.credit-suisse.com>).

### Complaints Handling

Investors are entitled to file complaints free of charge with the Distributor or the Management Company in an official language of their home country.

The complaints handling procedure is available free of charge on the internet at [www.credit-suisse.com](http://www.credit-suisse.com).

### Exercise of Voting Rights

The Management Company will in principle not exercise voting rights attached to the instruments held in the Subfunds, except in certain circumstances where it believes that the exercise of voting rights is particularly important to protect the interests of Unitholders. The decision to exercise voting rights, in particular the determination of the circumstances referred to above, is in the sole discretion of the Management Company.

Details of the actions taken will be made available to Unitholders free of charge on their request.

### Best Execution

The Management Company acts in the best interests of the Fund when executing investment decisions. For that purpose it takes all reasonable steps to obtain the best possible result for the Fund, taking into account price, costs, speed, likelihood of execution and settlement, order size and nature, or any other consideration relevant to the execution of the order (best execution). Where the Investment Managers are permitted to execute transactions, they will be committed contractually to apply equivalent best execution principles, if they are not already subject to equivalent best execution laws and regulations.

The best execution policy is available for investors on the internet at [www.credit-suisse.com](http://www.credit-suisse.com).

### Investor Rights

The Management Company draws the investors' attention to the fact that any investor will only be able to fully exercise its investor rights directly against the Fund, if the investor is registered itself and in its own name in the registered account kept for the Fund and its Unitholders by the Fund's Central Administration. In cases where an investor invests in the Fund through an intermediary investing into the Fund in its own name but on behalf of the investor, it may not always be possible for the investor to exercise certain of its rights directly against the Fund. Investors are advised to take advice on their rights.

### Remuneration Policy

The Management Company has in place a remuneration policy which is consistent with, and promotes, sound and effective risk management and that neither encourages risk taking which is inconsistent with the risk profiles of the Subfunds and the Management Regulations nor impairs compliance with the Management Company's duty to act in the best interest of the Fund and its Unitholders.

The remuneration policy of the Management Company has been adopted by its board of directors and is reviewed at least annually. The remuneration policy is based on the approach that remuneration should be in line with the business strategy, objectives, values and interests of the Management Company, the Subfunds it manages and their Unitholders, and include measures to avoid conflicts of interest, such as taking into account the holding period recommended to the Unitholders when assessing the performance.

All employees of the Credit Suisse group are subject to the Group Compensation Policy, the objectives of which include:

- (a) supporting a performance culture that is based on merit and differentiates and rewards excellent performance, both in the short and long term, and recognizes Credit Suisse's company values;
- (b) balancing the mix of fixed and variable compensation to appropriately reflect the value and responsibility of the role performed day to day, and to influence appropriate behaviours and actions; and
- (c) consistency with, and promotion of, effective risk management practices and Credit Suisse's compliance and control culture.

Details of the up-to-date remuneration policy of the Management Company, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including a description of the global Credit Suisse group compensation committee

are available on [https://www.credit-suisse.com/media/assets/corporate/docs/about-us/governance/compensation/compensation\\_policy.pdf](https://www.credit-suisse.com/media/assets/corporate/docs/about-us/governance/compensation/compensation_policy.pdf), and a paper copy will be made available free of charge upon request.

### Collateral Policy

Where the Management Company on behalf of the Fund enters into OTC financial derivative and/or efficient portfolio management techniques, collateral may be used to reduce counterparty risk exposure in accordance with CSSF Circulars 08/356 and 14/592 and subject to the following principles:

- The Management Company currently accepts the following assets as eligible collateral:
  - Cash in US Dollars, Euros and Swiss Francs, and a Subfund's reference currency;
  - Government bonds, issued by OECD member countries, subject to a minimum long term rating requirement of A+/A1;
  - Bonds issued by federal states, government agencies, supranational institutions, government special banks or governmental export-import banks, municipalities or cantons of OECD member countries, subject to a minimum long term rating requirement of A+/A1;
  - Covered bonds issued by an issuer from an OECD member country, subject to a minimum long term rating of AA-/Aa3;
  - Corporate bonds issued by an issuer from an OECD member country, subject to a minimum long term rating of AA-/Aa3;
  - Shares representing common stock admitted to or dealt in on a regulated market of a Member State of the EU or on a stock exchange of a Member State of the OECD and included in a main index.

The issuer of negotiable debt obligations must have a relevant credit rating by S&P and/or Moody's.

Where the relevant ratings of S&P and Moody's differ with respect to the same issuer, the lower of the ratings shall apply.

The Management Company has the right to restrict or exclude certain OECD countries from the list of eligible countries, or more generally, to further restrict the eligible collateral.

- Any collateral received other than cash must be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received must also comply with the provisions of Article 48 of the Law of December 17, 2010.
- Bonds of any type and/or maturity are accepted, except perpetual bonds.
- The collateral received will be valued mark-to-market on a daily basis, as is common industry standard, and in accordance with Chapter 8, "Net Asset Value". The collateral received will be adjusted on a daily basis. Assets that exhibit high price volatility will not be accepted as collateral unless suitably conservative haircuts are in place.
- The collateral received by the Management Company for the account of the Fund must be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- Collateral must be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if a Subfund receives from a counterparty of OTC derivative and/or efficient portfolio management transactions a basket of collateral with a maximum exposure to a given issuer of 20% of its Net Asset Value. When a Subfund is exposed to different counterparties, the different baskets of collateral must be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation from this sub-paragraph, a Subfund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public international body to which one or more Member States belong. Such a Subfund must receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the Subfund's Net Asset Value.

- Risks linked to the management of collateral, such as operational and legal risks, will be identified, managed and mitigated in accordance with the Management Company's risk management process concerning the Fund.
- Where there is a title transfer, the collateral received must be held by the Depositary. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral.
- Collateral received must be capable of being fully enforced by the Management Company on behalf of the Fund at any time without reference to or approval from the counterparty.
- Any collateral received must not be sold, re-invested or pledged.

### Haircut Policy

The Management Company has implemented a haircut policy in respect of each class of assets received as collateral. A haircut is a discount applied to the value of a collateral asset to account for the fact that its valuation, or liquidity profile, may deteriorate over time. The haircut policy takes account of the characteristics of the relevant asset class, the type and credit quality of the issuer of the collateral, the price volatility of the collateral and the results of any stress tests which may be performed in accordance with the collateral management policy. Subject to the framework of agreements in place with the relevant counterparty, which may or may not include minimum transfer amounts, it is the intention of the Management Company that any collateral received shall have a value, adjusted in light of the haircut policy.

According to the Management Company's haircut policy, the following discounts will be made:

Type of Collateral	Discount
Cash, restricted to USD, EUR, CHF and a Subfund's reference currency	0%
Government bonds, issued by OECD member countries, subject to a minimum long term rating requirement of A+ by S&P and/or A1 by Moody's	0.5% - 5%
Bonds issued by federal states, government agencies, supranational institutions, government special banks or governmental export-import banks, municipalities or cantons of OECD member countries, subject to a minimum long term rating requirement of A+ by S&P and/or A1 by Moody's	0.5% - 5%
Covered bonds issued by an issuer from an OECD member country, subject to a minimum long term rating of AA- by S&P and/or Aa3 by Moody's	1% - 8%
Corporate bonds issued by an issuer from an OECD member country, subject to a minimum long term rating of AA- by S&P and/or Aa3 by Moody's	1% - 8%
Shares representing common stock admitted to or dealt in on a regulated market of a Member State of the EU or on a stock exchange of a Member State of the OECD and included in a main index	5% - 15%

In addition to the above haircuts, there will be an additional haircut of 1% - 8% on any collateral (cash, bonds or equity) in a different currency to that of its underlying transaction.

Moreover, in case of unusual market volatility, the Management Company reserves the right to increase the haircut it applies to collateral. As a consequence, the Management Company for the account of the Fund will receive more collateral to secure its counterparty exposure.

### 19. Data Protection Policy

Certain personal data of investors (including, but not limited to, the name, address and invested amount of each investor) may be collected, recorded, stored, adapted, transferred or otherwise processed and used by the Management Company, the Depositary, the Central Administration and the financial intermediaries of the investors. In particular, such data may be processed for the purposes of performing operational, risk management or supervision functions, complying with any threshold reporting obligations or with any applicable laws and regulations, including but not limited to any anti-money laundering and counter terrorism financing regulations, but also for the purpose of

account identification and distribution fee administration, maintaining the register of unitholders, processing subscription, redemption and conversion orders and payments of dividends to investors and to provide any other client-related services or services to the Management Company.

The Management Company may sub-contract to a service provider (the Processor), such as the Central Administration, the processing of such personal data. The Management Company, the Central Administration and the financial intermediaries may also transfer such personal data to affiliates and third parties which intervene in the process of the business relationship or where the transfer is necessary for the above mentioned purposes, being understood that those affiliates and third parties may be located within or outside of the European Union. Investors must also be aware that telephone conversations with the Management Company, the Depositary and the Central Administration may be recorded. Recordings will be conducted in compliance with applicable laws and regulations. Recordings may be produced in court or other legal proceedings with the same value in evidence as a written document. Each investor at his/her discretion may refuse to communicate Personal Data to the Management Company. In this case, however, the Management Company may reject a request to subscribe for Units.

Each investor whose personal data has been processed has a right of access to his/her/its personal data and may ask for a rectification thereof in case where such data is inaccurate or incomplete.

By subscribing to the Units, each investor consents to such processing of his/her/its personal data. This consent is formalised in writing in the application form used by the Central Administration.

## 20. Certain Regulatory and Tax Matters

### Foreign Account Tax Compliance

Capitalized terms used in this section should have the meaning as set forth in the Luxembourg amended law dated 24 July 2015 (the "**FATCA Law**"), unless provided otherwise herein.

The Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act (commonly known as "**FATCA**") generally impose a new reporting regime and potentially a 30% withholding tax with respect to (i) certain US source income (including dividends and interest) and gross proceeds from the sale or other disposal of property that can produce US source interest or dividends ("**Withholdable Payments**") and (ii) a portion of certain non-US source payments from non-US entities that have entered into FFI Agreements (as defined below) to the extent attributable to Withholdable Payments ("**Passthru Payments**"). As a general matter, the new rules are designed to require US persons' direct and indirect ownership of non-US accounts and non-US entities to be reported to the US Internal Revenue Service (the "**IRS**"). The 30% withholding tax regime applies if there is a failure to provide required information regarding US ownership.

Generally, the FATCA rules subject all Withholdable Payments and Passthru Payments received by the Fund to 30% withholding tax (including the share that is allocable to Non-US Investors) unless the Management Company on behalf of the Fund enters into an agreement (a "**FFI Agreement**") with the IRS to provide information, representations and waivers of non-US law (including any waivers relating to data protection) as may be required to comply with the provisions of the new rules, including, information regarding its direct and indirect US Unitholders, or otherwise qualifies for an exemption, including an exemption under an intergovernmental agreement (or "IGA") between the United States and a country in which the non-US entity is resident or otherwise has a relevant presence.

The governments of Luxembourg and the United States have entered into an IGA regarding FATCA, implemented by the Luxembourg law transposing the Intergovernmental Agreement concluded on 28 March 2014 between the Grand Duchy of Luxembourg and the United States of America (the "**FATCA Law**"). Provided the Management Company on behalf of the Fund adheres to any applicable terms of the FATCA Law, the Fund will not be subject to withholding or generally required to withhold amounts on payments it makes under FATCA. Additionally, the Fund will not have to enter into an FFI agreement with the IRS and instead will be required to obtain information regarding its Unitholders and to report such information to the Luxembourg tax authorities, which, in turn, will report such information to the IRS.

Any tax caused by an Investor's failure to comply with FATCA will be borne by such Investor.

Each prospective Investor and each Unitholder should consult its own tax advisors regarding the requirements under FATCA with respect to its own situation.

Each Unitholder and each transferee of a Unitholder's interest in any Subfund shall furnish (including by way of updates) to the Management Company, or any third party designated by the Management Company (a "**Designated Third Party**"), in such form and at such time as is reasonably requested by the Management Company (including by way of electronic certification) any information, representations, waivers and forms relating to the Unitholder (or the Unitholder's direct or indirect owners or account holders) as shall reasonably be requested by the Management Company or the Designated Third Party to assist it in obtaining any exemption, reduction or refund of any withholding or other taxes imposed by any taxing authority or other governmental agency (including withholding taxes imposed pursuant to the Hiring Incentives to Restore Employment Act of 2010, or any similar or successor legislation or intergovernmental agreement, or any agreement entered into pursuant to any such legislation or intergovernmental agreement) upon the Management Company or the Fund, amounts paid to the Fund, or amounts allocable or distributable by the Fund to such Unitholder or transferee. In the event that any Unitholder or transferee of a Unitholder's interest fails to furnish such information, representations, waivers or forms to the Management Company or the Designated Third Party, the Management Company or the Designated Third Party shall have full authority to take any and all of the following actions: (i) withhold any taxes required to be withheld pursuant to any applicable legislation, regulations, rules or agreements; (ii) redeem the Unitholder's or transferee's interest in any Subfund, and (iii) form and operate an investment vehicle organized in the United States that is treated as a "domestic partnership" for purposes of section 7701 of the Internal Revenue Code of 1986, as amended and transfer such Unitholder's or transferee's interest in any Subfund or interest in such Subfund assets and liabilities to such investment vehicle. If requested by the Management Company or the Designated Third Party, the Unitholder or transferee shall execute any and all documents, opinions, instruments and certificates as the Management Company or the Designated Third Party shall have reasonably requested or that are otherwise required to effectuate the foregoing. Each Unitholder hereby grants to the Management Company or the Designated Third Party a power of attorney, coupled with an interest, to execute any such documents, opinions, instruments or certificates on behalf of the Unitholder, if the Unitholder fails to do so.

### Data protection information in the context of FATCA processing

In accordance with the FATCA Law, Luxembourg Financial Institutions ("**FI**") are required to report to the Luxembourg tax authority (i.e. Administration des Contributions Directes, the "Luxembourg Tax Authority") information regarding reportable persons such as defined in the FATCA Law.

The Fund qualifies as a Reporting FI ("**Reporting FI**") as such term is defined in the FATCA Law for FATCA purposes. As such, the Fund is the data controller and processes personal data of Unitholders and Controlling Persons as reportable persons for FATCA purposes.

The Fund processes personal data concerning Unitholders or their Controlling Persons for the purpose of complying with the Fund's legal obligations under the FATCA Law. These personal data include the name, date and place of birth, address, U.S. tax identification number, the account number (or functional equivalent), the account balance or value, the total gross amount of interest, the total gross amount of dividends, the total gross amount of other income generated with respect to the assets held in the account, the total gross proceeds from the sale or redemption of property paid or credited to the account, the total gross amount of interest paid or credited to the account, the total gross amount paid or credited to the Unitholder with respect to the account, standing instructions to transfer funds to an account maintained in the United States, and any other relevant information in relation to the Unitholders or their Controlling Persons for the purposes of the FATCA Law (the "**FATCA Personal Data**").

The FATCA Personal Data will be reported by the Reporting FI to the Luxembourg Tax Authority. The Luxembourg Tax Authority, under its own responsibility, will in turn pass on the FATCA Personal Data to the IRS in application of the FATCA Law.

In particular, Unitholders and Controlling Persons are informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Luxembourg Tax Authority. FATCA Personal Data may also be processed by the Fund's data processors ("Processors") which, in the context of FATCA processing, refer to the Management Company of the Fund and the Central Administration of the Fund.

The Fund's ability to satisfy its reporting obligations under the FATCA Law will depend on each Unitholder or Controlling Person providing the Fund with the FATCA Personal Data, including information regarding direct or indirect owners of each Unitholder, along with the required supporting documentary evidence. Upon request of the Fund, each Unitholder or Controlling Person must provide the Fund with such information. Failure to do so within the prescribed timeframe may trigger a notification of the account to the Luxembourg Tax authority.

Although the Fund will attempt to satisfy any obligation imposed on it to avoid any taxes or penalties imposed by the FATCA Law, no assurance can be given that the Fund will be able to satisfy these obligations. If the Fund becomes subject to a tax or penalty as result of the FATCA Law, the value of the Units may suffer material losses.

Any Unitholder or Controlling Person that fails to comply with the Fund's documentation requests may be charged with any taxes and penalties of the FATCA law imposed on the Fund (inter alia: withholding under section 1471 of the U.S. Internal Revenue Code, a fine of up to 250.000 euros or a fine of up to 0,5 per cent of the amounts that should have been reported and which may not be less than 1.500 euros) attributable to such Unitholder's or Controlling Person's failure to provide the information and the Fund may, in its sole discretion, redeem the Units of such Unitholder.

Unitholders and Controlling Persons should consult their own tax advisor or otherwise seek professional advice regarding the impact of the FATCA Law on their investment.

Each Unitholder or Controlling Person has a right to access any data reported to the Luxembourg Tax Authority for the purpose of the FATCA Law and, as the case may be, to have these data rectified in case of error by writing to the Central Administration as defined under this Prospectus.

FATCA Personal Data will not be retained for a period longer than necessary for the purpose of the data processing, subject to applicable legal minimum retention periods and the statutory limitations.

#### Automatic Exchange of Information – Common Reporting Standard

Capitalized terms used in this section should have the meaning as set forth in the Luxembourg law dated 18 December 2015 (the "CRS Law"), unless provided otherwise herein.

On 9 December 2014, the Council of the European Union adopted the Directive 2014/107/EU amending the Directive 2011/16/EU of 15 February 2011 on administrative cooperation in the field of taxation which now provides for an automatic exchange of financial account information between EU Member States ("DAC Directive"). The adoption of the aforementioned directive implements the OECD's CRS and generalizes the automatic exchange of information within the European Union as of 1 January 2016.

In addition, Luxembourg signed the OECD's multilateral competent authority agreement ("Multilateral Agreement") to automatically exchange information between financial authorities. Under this Multilateral Agreement, Luxembourg will automatically exchange financial account information with other participating jurisdictions as of 1 January 2016. The CRS-Law implements this Multilateral Agreement, jointly with the DAC Directive introducing the CRS in Luxembourg law.

Under the terms of the CRS Law, the Fund is likely to be treated as a Luxembourg Reporting Financial Institution. As such, as of 30 June 2017 and without prejudice to other applicable data protection provisions as set out in the Fund documentation, the Fund will be required to annually report to the Luxembourg Tax Authority personal and financial information related, inter alia, to the identification of, holdings by and payments made to (i) certain Unitholders as per the CRS Law (the "Reportable Persons") and (ii) Controlling Persons of certain non-financial entities ("NFEs") which are themselves Reportable Persons. This information, as exhaustively set out in Article 4 of the CRS Law, will include personal data related to the Reportable Persons.

Under the terms of the CRS-Law, the Fund may be required to annually report to the Luxembourg tax authority the name, address, state(s) of residence, TIN(s), as well as the date and place of birth of i) each Reportable Person that is an account holder, ii) and, in the case of a Passive NFE within the meaning of the CRS-Law, of each Controlling Person(s) that is a Reportable Person. Such information may be disclosed by the Luxembourg tax authority to foreign tax authorities.

#### Data protection information in the context of CRS processing

In accordance with the CRS-Law, Luxembourg Financial Institutions ("FI") are required to report to the Luxembourg Tax Authority information regarding Reportable Persons such as defined in the CRS-Law.

As Luxembourg Reporting FI, the Fund is the data controller and processes personal data of Unitholders and Controlling Persons as Reportable Persons for the purposes set out in the CRS-Law.

In this context, the Fund may be required to report to the Luxembourg Tax Authority the name, residence address, TIN(s), the date and place of birth, the country of tax residence(s), the phone number, the account number (or functional equivalent), standing instructions to transfer funds to an account maintained in a foreign jurisdiction, the account balance or value, the total gross amount of interest, the total gross amount of dividends, the total gross amount of other income generated with respect to the assets held in the account, the total gross proceeds from the sale or redemption of property paid or credited to the account, the total gross amount of interest paid or credited to the account, the total gross amount paid or credited to the Unitholder with respect to the account, as well as any other information required by applicable laws of i) each Reportable Person that is an account holder, ii) and, in the case of a Passive NFE within the meaning of the CRS-Law, of each Controlling Person that is a Reportable Person (the "CRS Personal Data").

CRS Personal Data regarding the Unitholders or the Controlling Persons will be reported by the Reporting FI to the Luxembourg Tax Authority. The Luxembourg Tax Authority, under its own responsibility, will in turn pass on the CRS Personal Data to the competent tax authorities of one or more Reportable Jurisdiction(s). The Fund processes the CRS Personal Data regarding the Unitholders or the Controlling Persons only for the purpose of complying with the Fund's legal obligations under the CRS Law.

In particular, Unitholders and Controlling Persons are informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Luxembourg Tax Authority.

CRS Personal Data may also be processed by the Fund's data processors ("Processors") which, in the context of CRS processing, refer to the Management Company of the Fund and the Central Administration of the Fund.

The Fund's ability to satisfy its reporting obligations under the CRS Law will depend on each Unitholder providing the Fund with the information, including information regarding direct or indirect owners of each Unitholder, along with the required supporting documentary evidence. Upon request of the Fund, each Unitholder shall agree to provide the Fund such information.

Although the Fund will attempt to satisfy any obligation imposed on it to avoid any taxes or penalties imposed by the CRS-Law, no assurance can be given that the Fund will be able to satisfy these obligations. If the Fund becomes subject to a tax or penalty as result of the CRS-Law, the value of the Units may suffer material losses.

Any Unitholder or Controlling Person that fails to comply with the Fund's documentation requests may be charged with any taxes and penalties of the CRS-Law imposed on the Fund (inter alia: a fine of up to 250.000 euros or a fine of up to 0,5 per cent of the amounts that should have been reported and which may not be less than 1.500 euros) attributable to such Unitholder's or Controlling Person's failure to provide the information and the Fund may, in its sole discretion, redeem the Units of such Unitholder.

Unitholders should consult their own tax advisor or otherwise seek professional advice regarding the impact of the CRS-Law on their investment.

Each Unitholder or Controlling Person has a right to access any data reported to the Luxembourg Tax Authority for the purpose of the CRS Law and, as the case may be, to have these data rectified in case of error

by writing to the Central Administration as defined under this Prospectus.

CRS Personal Data will not be retained for a period longer than necessary for the purpose of the data processing, subject to applicable legal minimum retention periods and the statutory limitations.

## 21. Main Parties

### Management Company

Credit Suisse Fund Management S.A., 5, rue Jean Monnet,  
L-2180 Luxembourg

### Board of Directors

- Luca Diener  
Managing Director, Credit Suisse AG, Zurich
- Rudolf Kömen  
Director, Credit Suisse Fund Management S.A., Luxembourg
- Thomas Nummer  
Independent Director, Luxembourg
- Guy Reiter  
Director, Credit Suisse Fund Management S.A., Luxembourg
- Daniel Siepmann  
Director, Credit Suisse Fund Services (Luxembourg) S.A.,  
Luxembourg

### Depositary

Credit Suisse (Luxembourg) S.A.,  
5, rue Jean Monnet, L-2180 Luxembourg

### Independent Auditor of the Fund

PricewaterhouseCoopers, Société Coopérative,  
2, rue Gerhard Mercator, L-2182 Luxembourg

### Legal Advisor

Clifford Chance,  
10, boulevard Grande-Duchesse Charlotte, L-1330 Luxembourg

### Central Administration

Credit Suisse Fund Services (Luxembourg) S.A.,  
5, rue Jean Monnet, L-2180 Luxembourg

## 22. Subfunds

### Credit Suisse (Lux) Corporate Short Duration EUR Bond Fund

### Credit Suisse (Lux) Corporate Short Duration CHF Bond Fund

### Credit Suisse (Lux) Corporate Short Duration USD Bond Fund

#### Investment Objective and Investment Policy

The currency mentioned in the name of the Subfund is merely the Reference Currency in which the performance and Net Asset Value of the Subfund are calculated, and is not the investment currency of the Subfund.

Investments may be denominated in any currency.

The objective of these Subfunds is to generate a regular income in the respective Reference Currency.

The Subfunds shall mainly invest in debt instruments, bonds, notes, similar fixed-interest or floating-rate securities (including securities issued on a discount basis) worldwide with a short to medium term.

At least two-thirds of the total net assets of each Subfund shall be invested in the fixed income securities mentioned above from the lower investment grade sector (rated at least "BBB-" by Standard & Poor's or "Baa3" by Moody's, or debt instruments deemed by the Management Company to be of similar credit quality) up to high-quality debt instruments of corporate issuers.

The Subfunds may use techniques and instruments in order to reduce the interest-risk of debt instruments with a longer maturity, subject to the investment restrictions set out in the Prospectus.

The principal amount of the Subfund's assets that can be subject to total return swaps may represent up to a maximum of 10% of the net asset value of the Subfund calculated by way of the sum of the notionals of the total return swaps. It is generally expected that the amount of such total return swap will remain within the range of 0% to 10% of the net asset value of the Subfund calculated by way of the sum of the notionals of the total return swaps. In certain circumstances this proportion may be higher.

The sum of the notionals takes into account the absolute value of the notional exposure of the total return swaps used by the Subfund. The expected amount of such total return swaps is an indicator of the intensity of the use of total return swaps within the Subfund. However, it is not necessarily an indicator of the investment risks in relation to these instruments, because it does not take into account any netting or hedging effects.

#### Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

#### Specific Risk Information

Since these Subfunds may invest in debt instruments in the lower investment grade sector, the underlying debt instruments may present a greater risk in terms of downgrading or may exhibit a greater default risk than debt instruments of first-class issuers. The higher return should be viewed as compensation for the greater degree of risk.

These are very conservative Subfunds that can be expected to exhibit slow but steady growth. A drop in price within a one-year time horizon is unlikely.

#### Profile of the Typical Investor

These Subfunds are suitable for investors who are seeking an investment which offers the same income as short-dated bond investments but without the exposure to interest-rate risks that is normally associated with such income.

#### Investment Manager

The Management Company has appointed Credit Suisse Asset Management (Schweiz) AG, Zurich, as Investment Manager to perform the management of the Subfund.

#### Adjustment of the Net Asset Value (Single Swing Pricing)

The Net Asset Value calculated in accordance with Chapter 8, "Net Asset Value" will be increased by up to a maximum of 2% per Unit in the event of a net surplus of subscription applications or reduced by up to a maximum of 2% per Unit in the event of a net surplus of redemption applications in respect of the applications received on the respective Valuation Day.

Under exceptional circumstances the Management Company may, in the interest of Unitholders, decide to increase the maximum swing factor indicated above. In such case the Management Company would inform the investors in accordance with Chapter 13, "Information for Unitholders".

## Credit Suisse (Lux) High Yield USD Bond Fund

### Investment Objective and Investment Policy

The objective of this Subfund is to generate the highest possible return. At least two-thirds of the Subfund's total assets shall be invested in debt instruments, bonds, notes, similar fixed-interest or floating-rate securities (including securities issued on a discount basis) of corporate issuers in the non-investment grade sector, denominated in the respective Reference Currency. Up to one-third of the total assets of the Subfund may be invested in currencies other than the Reference Currency.

### Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

### Specific Risk Information

Income from securities in the non-investment grade sector is higher than that earned from first-class issuers. However, the risk of losses is also greater. The higher income should be regarded as compensation for the fact that investments in this segment involve a greater risk of losses. The Subfund is more dynamic than other bond funds and has greater opportunities for growth. However, a drop in price is possible at any time.

### Profile of the Typical Investor

This Subfund is suitable for investors with a long-term, risk-tolerant outlook who would like to participate in a broadly diversified bond portfolio in order to benefit from the potential offered by the high-yield capital market, thereby achieving higher returns (in the respective Reference Currency) than would normally be generated by conventional bond investments. Though the risks are lessened by a broad investment spread across many issuers and several sectors, exposure to the high-yield segment requires a greater degree of risk capacity.

### Performance Fee

In addition to the Management Fee, the Management Company is entitled to a fee linked to the performance of the Unit Class DP of Credit Suisse (Lux) High Yield USD Bond Fund ("Performance Fee") in the Reference Currency, which is calculated on the basis of the unswung Net Asset Value of the Unit Class DP.

The Performance Fee shall be payable for each reference period ("Reference Period"). Unless otherwise agreed between the parties, the initial Reference Period shall be the first period which begins on the date on which the Unit Class DP is launched, and ends on the last day of that Accounting Year. Thereafter each subsequent Reference Period shall correspond to an Accounting Year. The Performance Fee will be payable within one month after the end of the respective Reference Period.

The Performance Fee shall be calculated and accrue daily as follows:

$$(0.20 \times (RM - RI) \times TNAV) / P$$

RM shall be equal to the percentage return on the unswung Net Asset Value per Unit DP (before Performance Fee) on the relevant day;

- (i) RI shall be equal to the percentage return on the Benchmark on the relevant day;
- (ii) TNAV shall be equal to the total Net Asset Value of the Unit Class DP;
- (iii) P shall be the number of days in the year.

On any particular day, the amount of Performance Fee accrued may be positive or negative. The amount of Performance Fee payable at the end of the relevant Reference Period shall be the sum of each daily Performance Fee calculation made during that Reference Period. In the event that this amount is negative, the negative amount shall be carried to the next Reference Period.

The amount of Performance Fee payable for the relevant Reference Period shall not exceed 0.50% of the average TNAV of the Unit Class during that Reference Period.

### Investment Manager

The Management Company has appointed Credit Suisse Asset Management, LLC, 11 Madison Avenue, New York, NY 10010, USA as Investment Manager to perform the management for the Subfunds.

### Adjustment of the Net Asset Value (Single Swing Pricing)

The Net Asset Value calculated in accordance with Chapter 8, "Net Asset Value" will be increased by up to a maximum of 2% per Unit in the event of a net surplus of subscription applications or reduced by up to a maximum of 2% per Unit in the event of a net surplus of redemption applications in respect of the applications received on the respective Valuation Day.

Under exceptional circumstances the Management Company may, in the interest of Unitholders, decide to increase the maximum swing factor indicated above. In such case the Management Company would inform the investors in accordance with Chapter 13, "Information for Unitholders".

## Credit Suisse (Lux) Inflation Linked CHF Bond Fund

### Investment Objective and Investment Policy

The currency mentioned in the name of the Subfund is merely the Reference Currency in which the performance and Net Asset Value of the Subfund are calculated, and is not the investment currency of the Subfund. Investments may be denominated in any currency. The objective of this Subfund is to generate a regular, inflation-hedged income in the respective Reference Currency.

At least two-thirds of the Subfunds' total assets are invested worldwide in inflation-indexed debt instruments, bonds, notes, similar fixed-interest or floating-rate securities (including securities issued on a discount basis) of average or high quality (rated at least "BBB-" by Standard & Poor's or "Baa3" by Moody's, or debt instruments which exhibit similar credit quality in the view of the Management Company). In order to diversify the range of borrowers, to permit more flexible management of durations and hedge inflation risks in markets without index-linked debt securities, the inflation protection may be constructed synthetically.

A synthetically constructed inflation hedge is created by hedging inflation risk through the use of inflation swaps with first-class financial institutions which specialize in this type of transaction. By combining a nominal bond and inflation swap, a synthetic inflation-indexed debt instrument is created. Inflation swaps protect the investor against inflation risk in the same way as inflation-indexed debt instruments, specifically through the substitution of the expected rate of inflation with the actual rate.

Such transactions are effected in the currency in which the assets being hedged are denominated, unless there are insufficient hedging instruments in such currency or if they are unfavourable in terms of cost. In such cases, the Fund may also use hedging instruments in other currencies, if it is likely that these currencies and those of the assets being hedged are exposed to similar fluctuations.

The principal amount of the Subfund's assets that can be subject to total return swaps may represent up to a maximum of 10% of the net asset value of the Subfund calculated by way of the sum of the notional of the total return swaps. It is generally expected that the amount of such total return swap will remain within the range of 0% to 10% of the net asset value of the Subfund calculated by way of the sum of the notional of the total return swaps. In certain circumstances this proportion may be higher.

The sum of the notional takes into account the absolute value of the notional exposure of the total return swaps used by the Subfund. The expected amount of such total return swaps is an indicator of the intensity of the use of total return swaps within the Subfund. However, it is not necessarily an indicator of the investment risks in relation to these instruments, because it does not take into account any netting or hedging effects.

### Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

### Specific Risk Information

Since these Subfunds may invest in debt instruments in the lower investment grade sector, the underlying debt instruments may present a greater risk in terms of downgrading or may exhibit a greater default risk than debt instruments of first-class issuers. The higher return should be viewed as compensation for the greater degree of risk.

The inflation hedge mechanism results in inflation-indexed debt instruments performing better than nominal bonds when inflation is higher than expected. Conversely, nominal bonds will perform better than inflation-indexed debt instruments in periods when the rate of inflation is lower than expected.

These are conservative Subfunds that can be expected to exhibit moderate but fairly steady growth. A slight drop in price over a one-year time horizon cannot be ruled out.

### Profile of the Typical Investor

These Subfunds are suitable for investors seeking a cost-effective core investment in bonds and wishing to protect themselves against inflation risk. They allow investors to entrust the time-consuming task of selecting and monitoring securities to a team of qualified experts. These Subfunds are well suited to portfolio diversification.

### Investment Manager

The Management Company has appointed Credit Suisse Asset Management (Schweiz) AG, Zurich, as Investment Manager to perform the management of the Subfunds.

### Adjustment of the Net Asset Value (Single Swing Pricing)

The Net Asset Value calculated in accordance with Chapter 8, "Net Asset Value" will be increased by up to a maximum of 2% per Unit in the event of a net surplus of subscription applications or reduced by up to a maximum of 2% per Unit in the event of a net surplus of redemption applications in respect of the applications received on the respective Valuation Day.

Under exceptional circumstances the Management Company may, in the interest of Unitholders, decide to increase the maximum swing factor indicated above. In such case the Management Company would inform the investors in accordance with Chapter 13, "Information for Unitholders".

### Net Asset Value

As an exception to Chapter 8, "Net Asset Value" lit. a), the following shall apply for the Subfund Credit Suisse (Lux) Inflation Linked CHF Bond Fund: the securities which are listed on a stock exchange or which are regularly traded on a stock exchange shall be valued at the bid price.

If such a price is not available for a particular trading day, the rules set out in Chapter 8, "Net Asset Value" lit. a), shall apply.

## Credit Suisse (Lux) Swiss Franc Bond Fund

### Investment Objective and Investment Policy

The objective of the Subfund is primarily to achieve a high regular income while preserving the value of the assets. At least two-thirds of the Subfund's total assets shall be invested in debt instruments, bonds, notes, similar fixed-interest or floating-rate securities (including securities issued on a discount basis) of public, private and semi-private issuers, denominated in the respective Reference Currency of the Subfund.

Up to one-third of the total assets of the Subfund may be invested in currencies other than the Reference Currency.

A maximum of 5% of the Subfund's total assets may be invested in contingent convertible instruments.

### Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

### Specific Risk Information

This is a conservative Subfund that can be expected to exhibit moderate but fairly steady growth. A slight drop in price over a one-year time horizon cannot be ruled out.

Contingent convertible instruments can convert from bonds to equities or could be written-down should specific events occur, (a so-called "mechanical trigger"). The conversion into equity or a write-down may lead to a substantial loss in value. In the event of a conversion, the equities received may be at a discount to the share price of that equity when the bond was purchased, resulting in an increased risk of capital loss. Contingent convertible instruments may, in addition to or next to, mechanical triggers, be subject to "point of non-viability triggers" which bear the same consequences, i.e. conversion into equity or write-down. These point of non-viability triggers are activated based on the relevant regulator's assessment of the issuers solvency prospects. Certain subordinated corporate debt securities may be callable, meaning they may be redeemed by the issuer on a specific date at a predefined price. In the event such debt securities are not redeemed on the specified call date, the issuer may extend the maturity indefinitely and defer or reduce the coupon payment. The credit worthiness of unrated debt securities is not measured by reference to an independent credit rating agency. Subordinated corporate debt securities carry a higher risk of loss than senior corporate debt securities, including those issued by the same issuer. Investors are advised to consider the risks corresponding to investments in contingent convertible instruments set out in Chapter 7, "Risk Factors".

### Profile of the Typical Investor

This Subfund is suitable for investors who are seeking a core investment in bonds in the Subfund's respective Reference Currency, but who would prefer to entrust the time-consuming task of selecting and monitoring securities to a team of expert professionals, thereby investing at low cost in a capital market that is well suited to portfolio diversification.

### Investment Manager

The Management Company has appointed Credit Suisse Asset Management (Schweiz) AG, Zurich, as Investment Manager to perform the management of the Subfund.

### Adjustment of the Net Asset Value (Single Swing Pricing)

The Net Asset Value calculated in accordance with Chapter 8, "Net Asset Value" will be increased by up to a maximum of 2% per Unit in the event of a net surplus of subscription applications or reduced by up to a maximum of 2% per Unit in the event of a net surplus of redemption applications in respect of the applications received on the respective Valuation Day.

Under exceptional circumstances the Management Company may, in the interest of Unitholders, decide to increase the maximum swing factor indicated above. In such case the Management Company would inform the investors in accordance with Chapter 13, "Information for Unitholders".

### Net Asset Value

As an exception to Chapter 8, "Net Asset Value" lit. a), the following shall apply: the securities which are listed on a stock exchange or which are regularly traded on a stock exchange shall be valued at the bid price.

If such a price is not available for a particular trading day, the rules set out in Chapter 8, "Net Asset Value" lit. a), shall apply.
