## Invesco Emerging Europe Equity Fund

1 March 2010

### Simplified Prospectus

This Simplified Prospectus contains key information about Invesco Emerging Europe Equity Fund (the "Fund") which is a sub-fund of Invesco Funds (the "SICAV") a "société anonyme" incorporated on 31 July 1990 for an unlimited duration, qualifying as a "société d'investissement à capital variable" and organised as an umbrella fund under part I of the Luxembourg law of 20 December 2002 on undertakings for collective investment, as amended. The other sub-funds of the SICAV are detailed in the SICAV's current full prospectus, incorporating Appendices A, B and C (the "Full Prospectus").

Potential investors are advised to consult the Full Prospectus before making an investment decision. The rights and duties of the investor as well as the legal relationship with the Fund are laid down in the Full Prospectus. Words and terms defined in the Full Prospectus have the same meaning in this Simplified Prospectus unless otherwise stated herein. The Full Prospectus and the periodical reports may be obtained free of charge from the registered office of the SICAV, the Global Distributor and from all the distributors.

The base currency of the Fund is US Dollars.

### Investment Objective and Policy

The Fund aims to achieve long-term capital growth from investment of at least 70% of its total assets (after deducting ancillary liquid assets) in equity and equity related securities (excluding convertibles or bonds with warrants attached) of companies in emerging European markets.

For the purpose of the Fund, companies in emerging European markets are considered to refer to: (i) companies having their registered office in an emerging European country, (ii) companies established or located in countries outside of emerging Europe but carrying out their business activities predominantly in emerging European countries, or (iii) holding companies the interests of which are predominantly invested in equity of companies having their registered office in an emerging European country.

Up to 30% of the total assets of the Fund may be invested in aggregate in cash and cash equivalents, money market instruments, equity and equity related securities issued by companies or other entities not meeting the above requirements or in debt securities (including convertible bonds) of issuers worldwide.

No restrictions as regards investing in particular countries apply and accordingly the assets of the Fund may be invested primarily in one or a limited number of target countries.

For the purposes of the Fund, the Investment Adviser has defined emerging European markets as including (but not limited to) the following countries Estonia, Latvia, Lithuania, Poland, Czech Republic, Slovakia, Hungary, Romania, Bulgaria, Slovenia, Israel, Turkey, Russia, Croatia and the Ukraine.

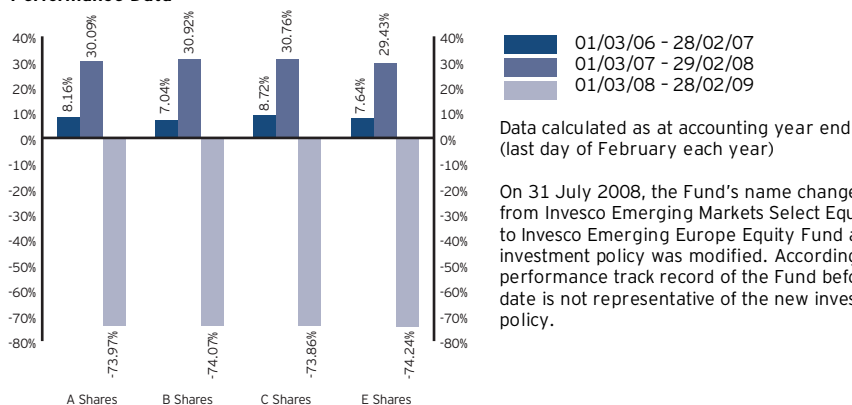

### Risk Profile

The value of investments and income from them can go down as well as up (this may partly be the result of exchange rate fluctuations in investments which have an exposure to foreign currencies) and investors may not get back the full amount invested.

The Fund's performance may be adversely affected by variations in the relative strength of emerging countries currencies or if the US Dollar strengthens against those currencies. As this is an emerging markets fund, investors should be prepared to accept a higher degree of risk than for a Fund with a broader investment mandate as difficulties in dealing, settlement and custody could arise. Only a modest proportion of investable wealth should be invested in the Fund. The Fund may invest directly in Russia, which can involve significant risks to capital.

A more detailed description of the relevant risk factors is set out under "Risk Warnings" in the Full Prospectus.

### Performance Data

### Notice

Past performance is not a guide to future performance.

Source: Morningstar's Mid to Mid, non taxpayer to 28.02.09 in Fund currency.

Fund Performance refers to A, B, C and E shares.

### Profile of a Typical Investor

This Fund is suitable for investors who are seeking capital appreciation over a 5 to 10 year timeframe and are prepared to accept risk to their capital and a higher level of volatility in the value of their investments. Invesco would classify this type of investment as being more "specialist" than a mainstream developed-market equity fund.

### Distribution Policy

No dividend will be distributed for any of A, B, C and E Shares. The policy of the Fund is geared towards capital growth and it is not expected that any dividends will arise, or that income equalisation accounts will be maintained in respect of the Fund.

## Fees and Expenses

### Shareholders Transaction Expenses

No initial charge is payable by an investor on the acquisition of B Shares in the Fund. Instead a contingent deferred sales charge ("CDSC") may be payable. Where B Shares are redeemed within 4 years of the date of purchase, the redemption proceeds thereof will be subject to a CDSC as detailed in the Full Prospectus.

The initial charge on purchases of A and C Shares (as a % of the net asset value of the Shares to be purchased) will not exceed 5.25%.

The initial charge on purchases of E Shares (as a % of the net asset value of the Shares to be purchased) will not exceed 3.0928%.

Maximum initial charge on switches into another sub-fund of the SICAV of up to 1% may apply.

There is no redemption charge payable on A, C or E Shares.

### Taxation

Subject to the provisions contained in the Full Prospectus in the section "Taxation in Luxembourg", the SICAV is not liable to any Luxembourg income tax. The SICAV is, however, liable in Luxembourg to a tax at a rate of 0.05% per annum of its net assets, except for the Reserve sub-funds and "I" Share classes where the tax rate is 0.01% per annum, such tax being payable quarterly on the basis of the net asset value of the sub-funds at the end of the relevant quarter. No stamp or other tax will be payable in Luxembourg on the issue of the Shares of the SICAV, except a once and for all tax of 1,239.47 Euro which was paid upon incorporation. No Luxembourg capital gains tax is payable on the realised capital appreciation of the assets of the SICAV. Income received by the SICAV from its investments may be subject to withholding tax at varying rates. Such withholding taxes are usually not recoverable.

On 3 June 2003 the Council of the EU adopted Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the "EU Savings Directive"). The EU Savings Directive was implemented in Luxembourg by a law of 21 June 2005 (the "EU Savings Directive Law"). Under the EU Savings Directive Law, dividend and/or redemption proceeds from shares of the Fund paid to individuals may be subject to withholding tax or give rise to exchange of information with tax authorities. Whether the EU Savings Directive Law will be applicable in any particular case and the implications arising there from depend on various factors, such as the asset class of the Fund, the location of the paying agent used and the tax residence of the shareholders concerned. Although more details on the implications of the EU Savings Directive and the EU Savings Directive Law are contained in the Full Prospectus, investors should also seek advice from their financial or tax legal adviser.

**Further details and information on taxation of certain shareholders are provided in the Full Prospectus.**
