

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Sub-fund of the SICAV. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this SICAV. You are advised to read it so you can make an informed decision about whether to invest.

ODDO BHF Euro Corporate Bond

(hereinafter the "Sub-fund")

A sub-fund of SICAV ODDO BHF (hereinafter the "SICAV"), managed by ODDO BHF Asset Management SAS

Share class: CI-EUR - LU0145975065 - EUR - Accumulation

OBJECTIVES AND INVESTMENT POLICY

The aim of this Sub-fund is long-term capital growth.

The Sub-fund invests at least two-thirds of its total assets in fixed income securities issued by public or private companies across all sectors (including financial institutions), at fixed or variable interest rates. There is no regional restriction. At least 80% of the fixed income securities shall be denominated in euro; up to 20% may be denominated in other currencies. Investment grade bonds, i.e. with a rating of at least BBB- or Baa3 from an internationally recognised ratings agency such as Moody's Investor Services, Inc. ("Moody's") or Standard & Poor's Corporation ("S&P") (or deemed equivalent by the Management Company, or using the Management Company's internal rating) will form the core of the investment, making up at least 85% of the Sub-fund's total assets. The Management Company does not use the ratings issued by ratings agencies exclusively or automatically, as it also applies its own internal analysis. If the rating of a security is downgraded, the Management Company will take the interests of the shareholders, the market conditions and its own analysis of the relevant fixed income securities into account when respecting rating limits.

Investment in unrated fixed income securities, or those rated below BBB-, is limited to 15% of the Sub-fund's total assets. This 15% limit includes unrated bonds, which may account for 10% of the Sub-fund's total assets.

Investment in convertible debt securities, contingent convertible bonds (CoCos) and debt securities with warrants may not exceed 10% of the Sub-fund's total assets.

The Sub-fund may make use of derivatives in order to hedge currency risk, or to hedge or increase exposure to interest rate or credit risk (for the purpose of efficient portfolio management).

In particular, the Sub-fund may, at the sole discretion of the Management Company, make use of credit default swaps (on securities or indices) or total return swaps in the role of buyer or seller. Total return swaps on indices may be used up to a limit of 5% of the net Sub-fund assets in the role of buyer, and 10% of the net Sub-fund assets in the role of seller. It is intended that such total return swaps shall constitute 2% of the net Sub-fund assets.

The Sub-fund may invest up to 10% of its assets in units or shares of European UCITS, in AIFs from France or other EU member states, as well as in foreign investment funds. These funds may be managed by ODDO BHF Asset Management SAS and/or ODDO BHF Asset Management GmbH.

The fund's benchmark index is the iBoxx € Corporates Total Return. We reserve the right to deviate from the benchmark index.

Investors may ask to redeem their units on any Luxembourg business day.

Fees linked to the purchase and sale of securities (also referred to as "transaction costs") are payable by the sub-fund. They are added to the fees outlined in this document and reduce the sub-fund's returns.

The Fund's reference currency is the euro.

All income generated by the fund will be reinvested.

Recommended investment horizon: three to five years

RISK AND REWARD PROFILE

Historical data, such as is used to calculate the synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-fund. The risk profile is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment. The capital initially invested is not guaranteed.

Why is the Sub-fund placed in category 3?

The Sub-fund has a moderate risk level because of its investment policy, which consists in investing at least two-thirds of its total assets in debt securities primarily denominated in EUR and mainly issued by investment grade corporate issuers (rated at least BBB-).

Material risks to the Sub-fund that are not taken into account in the indicator:

Credit risk: this is the risk of a sudden downgrading of an issuer's credit rating or the risk of an issuer's insolvency.

Liquidity risk: the Sub-fund invests in markets that may be affected by a fall in liquidity. Low volumes of market transactions may have an impact on prices at which the manager opens or closes positions.

Impact of financial techniques: taking into account the use of derivatives in particular, the Sub-fund's maximum exposure to individual asset classes may exceed its net assets. In the event of unfavourable changes in the strategies used, the net asset value may fall more significantly than the markets to which the Sub-fund is exposed.

Counterparty risk: risk of a counterparty's default, causing it to default on payment. The Sub-fund may be exposed to this risk resulting from the use of forward financial instruments or temporary purchases and sales of securities contracts negotiated over-the-counter with a credit institution if the latter is unable to honour its commitments.

If one of these risks were to materialise, the Sub-Fund's net asset value may fall.

CHARGES

Charges and fees paid are used to pay the costs of marketing and distribution; these charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charges	2.00%
Exit charges	0.50%

This is the maximum that might be deducted from your capital before it is invested and/or before the proceeds of your investment are paid out. These charges are payable to the distributor. In some cases, investors may pay less.

Charges taken by the Sub-fund over one year	
Ongoing charges	0.49%

Charges taken by the Sub-fund under specific conditions	
Performance fees	None

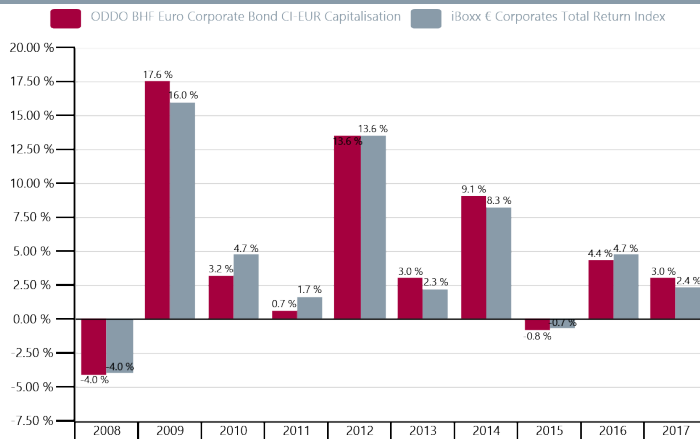

Ongoing charges are based on the expenses for the last financial year ended October 2017.

Actual charges may vary from year to year. The SICAV's annual report for each financial year includes detail on the exact charges made.

These charges do not include: performance fees and intermediary fees except in the case of entry and/or exit charges paid by the Sub-fund when it buys or sells units in another collective investment vehicle.

For more details regarding fees, please refer to the "Fees and Expenses" section of the prospectus, available at <http://am.oddo-bhf.com> or from the registered office of the SICAV.

PAST PERFORMANCE

Performance varies over time and is not an indication of future results.

The annualised performances shown in this chart are calculated after deducting all charges taken by the Sub-fund.

This Sub-fund was created on 13 March 2002.

The reference currency of the Sub-fund is the euro (EUR).
