

## KEY INVESTOR INFORMATION (KIID)

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Bond JPY LTE, a Sub-Fund of Eurizon Fund

Class Unit: **R (EUR Accumulation, ISIN: LU0090978643)**

This Sub-Fund is managed by Eurizon Capital S.A., a company of Intesa Sanpaolo Group

### OBJECTIVES AND INVESTMENT POLICY

**Objectives** The objective of this Sub-Fund is to provide growth and income on the invested capital over time by achieving a return in line with the return of a portfolio of debt instruments issued by the Japanese Government represented by the benchmark.

**Benchmark** JP Morgan Japan Gov Bonds Index®. *For designing portfolio and measuring performance.*

**Investment Policy** This Sub-Fund's net assets are invested mainly in high and medium quality ("investment grade") debt and debt-related instruments issued by public authorities or private companies from any country and denominated in Japanese Yen (JPY).

In addition, the Sub-Fund is entitled to hold cash, including term deposits with credit institutions.

The duration of the portfolio will generally be comprised between 9 and 15 years.

The Sub-Fund may use derivatives financial instruments aiming at hedging risks, ensuring efficient portfolio management and/or investing according to the Investment Policy. The use of derivatives financial instruments for investment purposes may

amplify the up and down fluctuations of the Sub-Fund's Net Asset Value per Unit.

**Strategy** In actively managing the fund, the investment manager uses a limited tracking error (LTE) approach, which involves investing similarly to a benchmark while intentionally over- or underweighting certain securities as a way of seeking to add to the fund's performance. Quantitative deviation limitations underlying the investment approach will restrict the extent to which the performance of the fund may deviate from the benchmark. The fund's exposure to securities, and thus its performance, are likely to closely resemble those of the benchmark.

**Redemption** You may sell your units on demand at any time. The redemption orders are executed on the basis of the Net Asset Value per Unit of the day when the request is received in Luxembourg before the dealing deadline. The Net Asset Value per Unit is calculated daily.

**Distribution Policy** This Unit Class is not distributing dividends. Income from investments is reinvested.
