CONSTITUTION

Eurizon Capital S.A., the Management Company, was incorporated as a Limited Company under the Laws of the Grand Duchy of Luxembourg. The Management Regulations were published in the "Memorial" on 28 September 1988.

Eurizon Fund (the "Fund") was created in the Grand Duchy of Luxembourg on 27 July 1988 and is administered by Eurizon Capital S.A. (the "Management Company") by virtue of Management Regulations published on 28 September 1988 in the "Mémorial, Recueil Spécial des Sociétés et Associations" in the Grand Duchy of Luxembourg, after submission to the "Registre de Commerce et des Sociétés" in Luxembourg. Amendments were made to the Management regulations and were published in the "Mémorial, Recueil Spécial des Sociétés et Associations" in the Grand Duchy of Luxembourg on 20 January 1991, 13 November 1992, 10 September 1998, 10 June 2000, 20 September 2002, 17 October 2003, 9 September 2005 and 3 July 2006. The notification of the filing with the "Registre de Commerce et des Sociétés" in Luxembourg of the latest modifications to the Management Regulations were published in the "Mémorial, Recueil Spécial des Sociétés et Associations" on 14 May 2007, 14 December 2007, 20 March 2008, 27 February 2009, 20 October 2009, 22 March 2010, 11 June 2010, 20 June 2011, 1 February 2012, 29 June 2012, on 28 April 2014, on 8 August 2014, on 16 January 2015, on 30 March 2015, on 5 June 2015, on 19 February 2016 and on 22 July 2016. The Management Regulations in force have been filed with the "Registre de Commerce et des Sociétés" in Luxembourg, where they may be consulted and where copies may be obtained.

The name of the Fund was modified pursuant to the decision made by the Board of Directors of the Management Company on 24 August 1998 from "Sanpaolo ECU Fund" to "Sanpaolo International Fund". The Management Company has decided to modify the Fund's name from "Sanpaolo International Fund" to "Eurizon EasyFund" with effective date 26 February 2008.

The Fund was formerly known as Eurizon EasyFund. Following a decision from the Board of Directors of the Management Company on 26 July 2016, it was resolved to change the name of the Fund to Eurizon Fund. This change became effective upon issuance of the Prospectus dated 17 February 2017.

The Fund is an umbrella fund. The Sub-Funds which are active during the year are listed below:

REMUNERATION POLICY (UNAUDITED)

The Remuneration Policy of Eurizon Capital S.A. (hereinafter also referred as the "Company") is based on the principles applied in the Intesa Sanpaolo Group including:

- alignment with the interests of shareholders, customers and their assets under management, the medium and long term strategies and objectives, under a framework of reference rules aimed at avoiding conflict of interests, and at the proper control of current and future business risks and ensuring an adequate level of liquidity and capitalization;
- consistency with and promotion of sound and effective risk management and discouragement of risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the assets managed;

The Remuneration Policy has been prepared on the basis of the Intesa Sanpaolo Group's remuneration policies and, for what is not in conflict, not governed or more restrictive, in compliance with European and national regulations governing the asset management industry:

- the Law of 12 July 2013 on alternative investment fund managers (transposing the EU Directive 2011/61/EU - the AIFM Directive), and
- the Law of 17 December 2010 relating to undertakings for collective investment (transposing the EU Directive 2014/91/UE - the UCITS V Directive).

Governance Structure

All incentives and reward systems for the Company's personnel are subject to the following types of conditions:

- activation conditions for the Group and the Company, consisting of liquidity, capitalisation and financial parameters;
- financing conditions of the mechanism of bonus funding for the Group and the Company, according to a top-down approach such as to take into account the exceeding of certain liquidity, capitalisation and financial parameters, in the first place at the level of the Group and, therefore, of the Company;
- individual access condition, meaning the level of achievement of the individual performance objectives, subject to the verification of the absence of individual compliance breaches. The individual performance objectives include financial as well as non-financial criteria.

The Board of Directors of the Company establishes and reviews annually the Remuneration Policy of the Company and ensures consistency with the overall policy of the Company in terms of risk-taking, the strategy and long-term, corporate governance structure and internal control objectives. It involves the Conducting Officers, each for their own responsibilities, in the definition and implementation of the Remuneration Policy.

The Company decided to entrust the Independent Directors Committee with the advisory and consulting functions aimed to support the Board of Directors in all activities relating to remuneration, defined in accordance with the principles set out in the ESMA Guidelines on sound remuneration policies (ESMA 232/2013 and 411/2016). The Committee is entirely composed of independent members. External persons can still participate in the meetings of the Committee in relation to specific items.

The internal process related to the governance of remuneration involves the Human Resources, the Risk Management, the Compliance and the Operations & Finance departments, each under the supervision of the respective Conducting Officer.

The Corporate Control Functions verify, for each area of competence (Risk Management, Compliance, Internal Audit), the alignment of the remuneration practices with the approved policies and the applicable regulations.

The ex-ante annual independent internal review of the remuneration system concluded its design to be appropriate.

Compensation Structure

The compensation of personnel includes:

- Fixed component, defined on the basis of the contractual category, the role held and the extent of responsibilities, reflecting the experience and skills required, as well as the quality of the contribution to corporate results;
- Variable component, linked to employee's performance and aligned with the annual results actually achieved and the risks prudentially assumed.

The criteria for the definition of the Company incentive systems, in application of the Intesa Sanpaolo Group's remuneration policy, aimed at ensuring the correlation between remuneration, performance and risks are, among others:

- the measurement of performance from multiple perspectives in order to align the management and employees behaviour to medium and long term strategic drivers, both quantitative (profitability, growth, productivity, cost of risk / sustainability) and qualitative (strategic actions or projects and managerial quality), on different perimeters (Group / Structure / Individual);
- the principle of selectivity, by differentiating the best performances and assigning higher bonuses;
- the principle of financial sustainability, by the definition of a bonus pool correlated to the performance of a Group parameter, currently identified as Income before tax from continuing operations and the use of a solidarity mechanism, according to which the amount of total bonuses paid to the employees of each Business Unit depends in part on the Group's overall performance (reflected in the size of the bonus pool) and in part on the degree of expected contribution to the Group's results;
- the definition of target bonus for roles and professional clusters to be used across all Group, in order to guarantee internal balance and the ongoing benchmarking between roles and/or professional clusters Group target bonuses and external market practices;
- the verification of the so-called individual compliance breaches as a restriction to bonus accrual (disciplinary measures, serious findings received from the Bank's control functions, sanctions by the Supervisory Authorities).

Vesting of the variable remuneration for Risk Takers is governed by specific rules in terms of:

- Deferral mechanisms;
- Payment partly in cash and partly in instruments and retention period for Units/Shares of funds;
- *Ex-post* adjustment mechanisms - *malus* or clawback.

Compensation for 2018

In accordance with the Law as of 17 December 2010 on Undertakings for Collective Investments (as subsequently amended) in conjunction with the guidelines on sound remuneration policies under UCITS published by the European Securities and Markets Authority (ESMA), the Company has identified individuals who have a material impact of the Company's risk profile (Material Risk Takers).

The regulations provide rules in relation to the variable component of the compensation of Risk Takers, indicating that:

- at least 40% of the variable component (60% for significant bonuses) must be subject to deferred payment for a period of 3 years (5 years for significant bonuses);
- a substantial portion (at least 50%) is paid out in units / shares of funds managed by the Company, or equivalent instruments; said percentage is applied, in the same proportion, to both the deferred and upfront portions of the variable component;
- there is a specific holding period (of no less than 2 years for the upfront component, and shorter for the deferred portion) for the vesting of the financial instruments referenced above.

In case the Variable Compensation is lower than EUR 80 000, the Material Risk Takers receive their entire Variable Compensation in cash without any deferral.

The following aggregate compensation has been paid by the Company to its Material Risk Takers and Other Staff in 2018 (in EUR) in relation to all its activities:

Number of employees on an annual average: 58,4

Total Compensation: 7 743 394

Fixed Pay: 6 387 543

Variable Compensation: 1 355 850

Total Compensation for Material Risk Takers (including Senior Management): 3 087 018

Total Compensation for Other staff: 4 656 376

In addition to the compensation paid by the Company to its Material Risk Takers and Other Staff, as reported above, the aggregate remuneration paid to their own staff by the Investment Managers delegated by the Company to manage some Sub-Funds of the Fund has been estimated at EUR 8 121 230,47 based on the latest available annual accounts of these companies.

BOARD OF DIRECTORS OF THE MANAGEMENT COMPANY'S REPORT ON THE MANAGEMENT OF THE FUND

Dear Unitholders,

2018 was a negative year for financial markets. In fact, every major asset class posted a negative return in Euro this year, with the exception of the German government bonds and bonds denominated in some foreign currencies, such as the US dollar.

The negative performance of the financial markets contrasts with economic dynamics, which are still positive and which in 2018 saw the continuation of the global expansion, without particular inflationary pressures. In fact, investors expressed uncertainties about the sustainability of the economic scenario as early as February 2018, first wondering about the risk that too strong growth could translate into an acceleration in inflation, then fearing that the trade war declared by US President Trump could damage the economic recovery. Until the autumn of 2018, only the United States had been protected from these concerns, thanks to the support coming from the fiscal stimulus approved at the end of 2017. In the fall, however, even the US stock market was plagued by the fear that a too aggressive monetary policy stance by the Federal Reserve (or "Fed", the US Central Bank), combined with the impact of the trade war, could damage the global recovery. In line with the volatility of the markets, the Trump administration changed its attitude on the trade war by agreeing a truce until spring 2019 in order to seek an agreement with China. At the same time, the Federal Reserve has made its agenda less aggressive for 2019, after the four increases in interest rates in 2018, in a reverse that was nonetheless judged by the markets as too slow and too late.

Other significant events in 2018 include Brexit turmoil and the return of uncertainty to the Eurozone following the formation of the M5s - Lega government in Italy, with the fear that one of the aims of the new Administration could be the exit from the Euro and after the initial willingness to clearly exceed the previously established public finance objectives. The fact that the Budget Law 2019 was revised in agreement with the EU Commission at the end of the year, however, avoided the infringement procedure against Italy, confirming that in the final analysis, in Europe we always opt to avoid a breakup that would be painful for everyone.

Furthermore, it should be noted that at the end of 2018 the Chinese authorities took expansive measures of a monetary and fiscal nature that could give support to the global economy in the 2019 perspective.

In this context, the global equity market recorded a 7.4% loss in local currency (MSCI World index). In terms of the main geographical areas, the US stock market posted -5.0% on 2018 (MSCI US index expressed in local currency) having maintained a bullish trend until September, and then rapidly fell back in the final months of the year. The trends of the remaining geographical areas, which were penalised by the rise in US interest rates and the trade war winds, were worse, constantly decreasing throughout 2018: -12.7% in the Euro area (MSCI Emu index), -15.1% in Japan (MSCI Japan in local currency), -10.1% in emerging countries (MSCI Emerging Markets in local currency).

The global bond market gained 1.0% over 2018 (GBI Global JPM index in local currency), but it must be considered that episodes of turbulence also characterised the bond asset class at certain times of the year.

More specifically, it can be noted that the movement of interest rates (and therefore the impact on the price of securities) has been somewhat differentiated within the government bond market. In the US, rates rose until October, in the wake of the Fed's restrictive manoeuvre, and were the main reason for concern in other markets. For example, the US 10-year rate closed at 2.7% for 2018, up from the 2.4% at which it had opened the year and reached a peak of 3.25% in October. This trend in the 10-year interest rate gave a performance of -0.10% for the US securities segment with a ten-year maturity. Overall, the US bond market closed 2018 with a local currency performance only slightly positive and equal to 0.8%.

The trend of the 10-year rate for German bonds was decidedly less complicated, reaching the year's highs in February, at 0.8%, then falling steadily back in the following months and closing 2018 on a low, at 0.3%. The asset class of German government bonds with a maturity of 10 years therefore closed 2018 with a positive performance (3.3%). Overall, the market for German government bonds recorded a 2.3% gain over the year. At the level of the entire Euro area, the bond market showed a performance of +1.0% (JPM index GBI Germany).

The rise in interest rates and "spreads" (i.e., the rate differential compared to government bonds of "core" countries) negatively impacted the higher-risk bond class assets such as securities issued by companies (the so-called "corporate" securities), both Investment Grade and High Yield, and also those issued by emerging countries.

The negative performance of Italian financial assets, especially from government formation onwards, completes the picture. The Italian stock market recorded a fall of 14.7% on 2018 (FTSE Italia All Share index). The Italy - Germany spread on the ten-year maturity ended 2018 at 250 basis points (bps), having started it at 150 bps; it had scored a peak of 325 bps between October and November 2018. The 10-year rate rose from 1.95% to 2.77%, the 2-year rate from -0.10% to + 0.50%, in both cases providing capital losses to the holders of the securities.

On the foreign exchange market, the dollar appeared to be strengthening for most of the year, driven by the Fed rate hike. Over the whole year, the Euro was weakened by 4.8% against the dollar, by 7.3% against the yen and by 3.7% compared to the Swiss franc. The Euro, on the other hand, strengthened by 1.1% against the pound.

The currency dynamics impacted on the performance, converted into Euro, for markets outside the Eurozone: in the case of the global equity market, for example, the loss expressed in Euro decreased to -4.1% (compared to -7.4% in local currency) and for the global bond market the Euro gain rose to +4.3% (compared to +1.0% in local currency).

Activity of the Fund

At the end of December 2018, the mutual investment fund Eurizon Fund was composed of **58** Sub-Funds for an overall value of EUR 45 887 mio.

The net assets of the Fund showed an decrease compared with the end of 2017 (€ - 2 082 mio, in other words - 4.3%), owing to a slight positive annual balance of the net sales (equivalent to € + 200 mio, as a result of subscriptions amounting to € +50 620 mio and redemptions amounting to € -50 420 mio), combined with a negative net market effect of € - 1 882 mio.

As concerns the in and outflows, almost all the categories of Sub-Funds registered a positive balance: Equity Sub-Funds (€ + 416 mio), Flexible Sub-Funds (€ +2 748 mio) except for Bond Sub-Funds (€ -2 018 mio) and for Cash Sub-funds (€ -946 mio).

The best results in term of sales were achieved by Eurizon Fund – Azioni Strategia Flessibile (€ +2 301 mio) followed by Eurizon Fund – Bond Aggregate RMB (€ +477 mio) and Eurizon Fund – SLJ Local Emerging Markets Debt (€ +452 mio).

The most negative balances were achieved by Eurizon Fund – Cash EUR (€ -946 mio) followed by Eurizon Fund – Bond Emerging Markets in Local Currencies (€ -917 mio) and Eurizon Fund – Bond High Yield (€ - 868 mio).

The annual in-and outflows as well as the net assets as of 31 December 2018 of all the Sub-Funds are shown in the following table (in EUR), which encompasses each Class of Units:

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Report on the audit of the financial statements

Opinion

We have audited the accompanying financial statements of Eurizon Fund and each of its sub-funds ("the Fund"), which comprise the statement of net assets, the portfolio, the commitments on future contracts, the option contracts, the forward foreign exchange contracts, the swap contracts and the contracts for differences as at 31 December 2018 and the statement of changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Eurizon Fund and each of its sub-funds as at 31 December 2018, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs are further described in the « Responsibilities of "Réviseur d'Entreprises agréé" for the Audit of the Financial Statements » section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Management Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of "Réviseur d'Entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of Board of Directors of the Management Company for the financial statements

The Board of Directors of the Management Company is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Management Company is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Management Company either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’Entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of “Réviseur d’Entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Management Company.
- Conclude on the appropriateness of Board of Directors of the Management Company use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of "Réviseur d'Entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of "Réviseur d'Entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. ACTIVITY

The Investment Fund Eurizon Fund (hereafter referred to as the "Fund") was established in the Grand Duchy of Luxembourg on 27 July 1988 in accordance with the Law of 30 March 1988 regulating Undertakings for Collective Investment. The Fund is subject to part I of the Luxembourg Law of 17 December 2010 relating to Undertakings for Collective Investment.

The Fund is a joint ownership of transferable securities and other financial assets, administered for the exclusive benefit of its participants by Eurizon Capital S.A. (hereafter referred to as the "Management Company"), a limited company established on 27 July 1988 with its registered office in Luxembourg.

There is no maximum limit set on the amount of wealth or the number of Units of jointly owned property which comprise the assets of the Fund. The minimum net assets of the Fund are to be at least EUR 1 250 000,00.

In order to offer investments with different levels of risks, the Fund is subdivided into a wide range of Sub-Funds (each "the Sub-Fund" and together "the Sub-Funds").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Fund keeps the books of each Sub-Fund in its respective currency and the financial statements are prepared in EUR in accordance with the Luxembourg regulations relating to Undertakings for Collective Investment and in particular using the following valuation rules:

a) Valuation of investment securities

Investment securities, including zero-coupon bonds and money market instruments quoted on an official stock exchange or on another regulated market are valued according to the last known price at the time when the valuation is carried out, and, in the event of being quoted on several markets, according to the last known price of the principal market.

Valuation of investment securities, including zero-coupon bonds and money market instruments, not quoted on an official stock exchange or on another regulated market is fixed in a reasonable way on the basis of the sale prices anticipated cautiously and in good faith or, in the absence of a market value, according to the probable value in the reasonable estimation of the Board of Directors of the Management Company.

The value of each investment in open-ended funds, either listed or not, is based on the last known Net Asset Value on the Valuation Day.

b) Net realised profit / (loss) on sales of investments

Realised profits or losses made on the sales of investments are calculated according to the average cost.

c) Option contracts

Option contracts quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market.

Option contracts not quoted on an official stock exchange or on another regulated market are valued at their last known market value or, in the absence of a market value, according to their probable market value in the reasonable estimation of the Board of Directors of the Management Company.

Premiums received on the written option contracts are recorded as liabilities and premiums paid on purchased option contracts are recorded as assets. Unrealised profits and losses on option contracts are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on option contracts".

In the case of options on futures, no premium margin is required because here a daily profit and loss adjustment (variation margin) is made by the procedure known as "marking-to-market". The profit of one party to the contract is the loss of the other party. The resulting gains and losses are either debited or credited to the appropriate account on a daily basis via the mark-to-market process. The final valuation is made at the final settlement price of either the expiration date of the option or the day on which it was exercised.

d) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward foreign exchange rate for the remaining period to run until maturity at the date of valuation.

Unrealised profits and losses are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on forward foreign exchange contracts".

e) Future contracts

Commitments related to future contracts are recorded off balance sheet and future contracts are valued according to the last available contract price. Unrealised profits and losses on future contracts are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on future contracts". Guarantee deposits and margin calls are recorded under the Statement of Net Assets under the headings "Amounts due from brokers" and "Amounts due to brokers".

f) Swap contracts

Swaps are, in general, contracts by which two parties commit themselves during a given period to exchange two flows, one in exchange of the other, determined on the basis of a nominal value. The flows may be linked to interest rate(s), exchange rate(s), share(s), index(es) or credit event(s).

Swap contracts are valued using the difference between the values of forecasted flows the counterparty is to pay to the Sub-Fund and those owed by the Sub-Fund to its counterparties.

Unrealised profits and losses on swap contracts are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on swap contracts".

All the Swap contracts are presented at clean price, except the equity swap contracts which are presented at dirty price.

g) Reverse repurchase agreements

Reverse repurchase agreements (reverse repos) consist in a purchase of securities with a simultaneous agreement to resell them at a specific future date and price. The sale price corresponds to the purchase price increased by an interest rate. These operations, including accrued interest, are recorded in the Statement of Net Assets under the heading "Reverse repurchase agreements".

For reverse repurchase agreements, interest returns which consist in the difference between the purchase price and the sale price of the securities are accounted for on a pro rata temporis basis over the course of the operation and recorded in the accounts in the Statement of Changes in Net Assets under the heading "Net income from investments".

h) Combined statements of the Fund

The combined statements correspond to the sum of the statements of each Sub-Fund. Cross Sub-Funds investments (where one Sub-Fund has invested in another Sub-Fund of the Fund) and related inter-Fund accounts have not been eliminated for presentation purposes of the combined statements. Cross Sub-Funds investments represent 2,95% of the Combined net assets as at 31 December 2018. Cross Sub-Funds investments are disclosed in the Portfolio as at 31 December 2018 for the respective Sub-Funds.

i) Cost of purchase of securities in portfolios

For securities in currencies other than the base currency of the Sub-Fund, the purchase price is converted in the base currency of the Sub-Fund based on the closing exchange rates of the day of purchase.

j) Income

Dividends are recognised on the date on which the shares/units concerned are quoted "ex-dividend", net of withholding tax. Interest is calculated on a pro rata temporis basis and recorded net of withholding tax.

k) Translation of items expressed in foreign currencies

Assets and liabilities in foreign currencies are converted into the base currency of the Sub-Fund at the closing exchange rates of the final day of the financial year.

Income and expenses in currencies other than the base currency of the Sub-Fund are converted into the base currency of the Sub-Fund at the closing exchange rates in force on the day of the transaction.

The resulting realised and unrealised profit or loss made on foreign exchange is included in the Statement of Changes in Net Assets; any unrealised profit or loss on cash positions, receivable on assets and payable on liabilities denominated in currencies other than the base currency of the Sub-Fund being recorded under the heading "Change in unrealised appreciation / (depreciation) on foreign currencies".

I) Presentation of the Financial Statements

The Financial Statements are presented on the basis of the last official or tradable Net Asset Value (NAV) of the financial year. In accordance with the Prospectus, the NAVs have been calculated on the basis of the last market price available at the time the calculation was performed.

The prices and the exchange rates used to value the portfolios are the following:

- Sub-Funds investing mainly in American and European securities: 31 December 2018 (last business day of the financial year 2018);
- Sub-Funds investing mainly in Asian and Pacific areas securities: 1 January 2019* if markets are opened on that day, otherwise 31 December 2018, concerning the securities of these regions.

*If the closing prices as of 31 December 2018 had been used to value the investments in Sub-Funds investing in Asian and Pacific areas securities, the Net Asset Values of these Sub-Funds (disclosed in these financial statements and calculated based on prices and exchange rates as at 1 January 2019) would not have been significantly different from those as at 31 December 2018.

m) Contingent assets

As of 31 December 2018, some of the Sub-Funds of the Fund are involved in some collective legal actions ("Class Actions"). In the context of these procedures, these Sub-Funds could receive, with no certainty, compensations related to losses occurred in the course of previous financial years. As of 31 December 2018, the following procedures are pending:

Eurizon Fund - Equity North America LTE: Facebook, Inc.

Eurizon Fund - Equity North America LTE: Keurig Green Mountain, Inc.

Eurizon Fund - Equity North America LTE: Yahoo!, Inc.

Eurizon Fund - Equity Emerging Markets Smart Volatility: Petroleo Brasileiro S.A.

Eurizon Fund - Equity World Smart Volatility: Allergan, Inc.

Eurizon Fund - Equity World Smart Volatility: Intuitive Surgical, Inc.

Eurizon Fund - Equity World Smart Volatility: Keurig Green Mountain, Inc.

Eurizon Fund - Equity World Smart Volatility: Yahoo!, Inc.

Eurizon Fund - Bond Emerging Markets: Petroleo Brasileiro S.A.

Eurizon Fund - Equity Emerging Markets LTE: Petroleo Brasileiro S.A.

Eurizon Fund - Equity USA: Yahoo!, Inc.

Eurizon Fund - Flexible Beta Total Return: Lendingclub Corporation

As of 31 December 2018, some of the Sub-Funds of the Fund are involved in withholding tax reclaim procedures on the basis of the principles set forth in recent judgments by the European Court of Justice. In this context, the Sub-Funds listed hereunder could recover, with no certainty, unduly levied withholding taxes on dividends in the following jurisdictions:

SUB - FUNDS	COUNTRY
Eurizon Fund - Azioni Strategia Flessibile	Germany, Norway
Eurizon Fund - Equity Europe LTE	Germany, Norway
Eurizon Fund - Equity Small Mid Cap Europe	Germany, Norway
Eurizon Fund - Equity World Smart Volatility	Germany, Norway
Eurizon Fund - Multiasset Income	Norway

n) Net Asset Value per Unit

The Net Asset Value of each Sub-Fund is equal to the difference between the total assets and the liabilities of the Sub-Fund.

The Net Asset Value per Unit of each Class of Units is calculated by dividing the Net Asset Value by the number of Units outstanding on the day of calculation in the respective Classes of Units.

o) Contracts for difference

In a contract for difference, two parties commit to exchange payments, which replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference are valued at the closing price of the underlying instrument less the financing costs attributable to the relevant contract. When a contract for difference is concluded, the Sub-Fund may be required to deposit an amount ("initial margin") that corresponds to a pre-agreed percentage of the contract price in cash and/or other assets with the broker. The unrealised profit/loss is reported in the Statement of Net Assets. Net realised profit / (loss) and changes in unrealised appreciation / (depreciation) are presented in the Statements of Changes in Net Assets.

p) Basis of preparation

These financial statements have been prepared on a going concern basis, except for the sub-funds liquidated during the year.

3. TAXATION

The Fund is governed by Luxembourg tax laws applicable to investment funds. It is up to prospective purchasers of Units of the Fund to inquire about the laws and rules applicable to the acquisition, holding and possibly sale of Units, taking into account their residence or nationality.

As legislation now stands, the Fund is subject to a Luxembourg tax at an annual rate of 0,05% calculated and payable quarterly on the Net Asset Value of each Sub-Fund at the end of each quarter in question. The rate of the annual subscription tax is fixed at 0,01% for the Sub-Funds or Classes of Units, if the Units in these Sub-Funds or Classes are reserved for one or more Institutional Investors, as well as for Sub-Funds whose exclusive aim is the collective investment in money market instruments and/or deposits with credit institutions.

The value of the assets represented by units/shares held in other Luxembourg UCIs shall be exempt from the subscription tax, provided such UCIs have already been subject to the subscription tax.

4. OTHER CHARGES AND TAXES

The caption "Other charges and taxes" is composed of registration fees payable to the "Authority of Control" and other professional fees (administrative agent, lawyer fee, audit fee, printing, registrar and transfer agent fees, miscellaneous).

5. MANAGEMENT FEE

The Management Company, as remuneration for its services, is entitled to receive a management fee calculated according to the Net Asset Value of each Sub-Fund of the Fund. For the year ended 31 December 2018, the rates in force for each Sub-Fund are the following:

Annual management fee rate by Unit Class:

7. DEPOSITORY AND PAYING AGENT FEE

The Depositary Bank received a fee payable quarterly and calculated on the quarterly Net Asset Value.

Furthermore, in accordance with the current Depositary Bank and Paying Agent convention, the Depositary Bank has received during the financial year, for all of the active Sub-Funds as at 31 December 2018, a global amount of EUR 4 824 899,74 (for transaction fees) registered in the Statement of Changes in Net Assets under the heading "Other charges and taxes" in accordance with paying agent services.

8. FORWARD FOREIGN EXCHANGE CONTRACTS, FUTURE CONTRACTS, OPTION CONTRACTS, SWAP CONTRACTS AND CONTRACTS FOR DIFFERENCE

During the financial year, certain Sub-Funds have taken out forward foreign exchange contracts, future contracts, option contracts, swap contracts and contracts for difference. Details of open positions as at 31 December 2018 are disclosed following the Portfolios of the concerned Sub-Funds.

Swaps, comprising Interest Rate Swaps, Credit Default Swaps, Total Return Swaps and Equity Basket Swaps, can be linked to any number of underlying investments and indexes, and swap terms can vary greatly. Cash flows are exchanged based on the underlying. Upfront payments, which represent a risk premium, are amortised straight-line over the contract term. Swap agreements are carried at market value and the value of the swap agreement is based on a counterparty provided price, third party pricing service or valuation model. The model considers various inputs including the market value of the underlying, the risks associated with the underlying and the specific terms of the contract.

As at 31 December 2018, Banca IMI S.p.A. is the broker for all the future contracts.

As at 31 December 2018, Morgan Stanley & Co International Plc is the broker for all the contracts for difference.

15. SECURITIES LENDING TRANSACTIONS

The Fund may lend securities but only under the conditions and procedures specified by recognised clearing systems or by another first-bank financial institution specialized in this kind of operations.

Over the course of the financial year, the Fund has entered into various securities lending agreements with a specialized financial institution, authorizing the latter to carry out lending transactions of the Fund's securities. In relation to its lending transactions, the Fund must receive security of a value which, at the conclusion of the lending agreement, must be at least equal to the value of the global valuation of the securities lent.

This collateral must be given in the form of cash and/or of securities issued or guaranteed by member states of the OECD or by their local authorities or by supranational institutions and organizations with EU, regional and worldwide scope and blocked in favor of the Fund until termination of the lending contract.

The following summarises the value of securities lent analysed by borrowing counterparty as at 31 December 2018:

Sub-Funds	Currency	Counterparty	Counterparty's country of incorporation	Market Value of Securities Lent as at 31-Dec-18 (in EUR)	% of Net Assets	% of the Sub-Fund's total lendable assets*	Market Value of the collateral received for the securities lent

Securities lending transactions are entered into by the Funds under a securities lending agreement. All collateral received by the Funds under the securities lending agreement is transferred under a title transfer arrangement. The collateral is held in custody by a sub-custodian of the depositary for the duration of the transaction.

The income earned from the securities lending is reflected net of fees in the Statement of Operations and Charges in Net Assets under the heading "Other Income". State Street Bank GmbH, London Branch receives a 30% fee for its services. As a result, the Fund receives 70% of the gross revenues generated from securities lending which was recorded by Sub-Fund as follows (in EUR):

17. SUBSEQUENT EVENT

Money Market Fund Regulation

The Money Market Fund Regulation (EU) 2017/1131 (the "Regulation") is applicable since 21 July 2018. As of this date, (i) newly launched money market Sub-Funds ("MMFs") had to be authorised as MMFs fulfilling all the requirements of the Regulation, while

(ii) existing Sub-Funds (i.e. those existing before 21 July 2018) which would fall under the scope of the Regulation had a transitional period until 21 January 2019 to submit an application to the CSSF to demonstrate their compliance.

With regards to the existing Sub-Funds, the Management Company of the Fund has performed an analysis and in that respect, the following Sub-Funds have been identified as falling under the scope of the Regulation and accordingly fulfil the requirements of the Regulation as from 21 January 2019:

Sub-Fund	Type of MMF	Impact on the pricing policy
Eurizon Fund - Cash EUR	Variable NAV	No impact
