

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Sub-fund of the SICAV. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this SICAV. You are advised to read it so you can make an informed decision about whether to invest.

ODDO BHF Euro High Yield Bond

(hereinafter the "Sub-fund")

A sub-fund of SICAV ODDO BHF (hereinafter the "SICAV"), managed by ODDO BHF Asset Management SAS

Share class: **DI-EUR - LU0115293481 - EUR - Distribution**

OBJECTIVES AND INVESTMENT POLICY

The Sub-fund seeks high returns and capital growth.

The Sub-fund invests in a portfolio, of which at least two-thirds are euro-denominated listed bonds issued by public or private companies, with no regional restriction, concentrating on lower quality issues (rated lower than investment grade).

The Sub-fund will invest at least two-thirds of its net assets in high yield bonds denominated in euro (rated lower than investment grade and with a maturity of at least one year) from international issuers rated at least B3 or B- by internationally recognised rating agencies like Moody's or S&P (or deemed equivalent by the Management Company, or using the Management Company's internal rating), and up to 10% in unrated bonds. The Management Company does not use the ratings issued by ratings agencies exclusively or automatically, as it also applies its own internal analysis. If the rating of a security is downgraded, the Management Company will take the interests of the shareholders, the market conditions and its own analysis of the relevant fixed income securities into account when respecting rating limits. If the rating of a security is downgraded to below B3 or B-, the Management Company may decide to sell the security within six months, under normal market conditions and in accordance with the best interests of the shareholders.

Investment in unrated debt securities, convertible debt securities, contingent convertible bonds (CoCos) and debt securities with warrants may not exceed 10% of the Sub-fund's total assets.

The Sub-fund may make use of derivatives in order to hedge currency risk, or to hedge or increase exposure to interest rate or credit risk (for the purpose of efficient portfolio management).

In particular, the Sub-fund may, at the sole discretion of the Management Company, make use of credit default swaps (on securities or indices) or total return swaps in the role of buyer or seller. Total return swaps on indices may be used up to a limit of 10% of the net Sub-fund assets in the role of buyer, and 20% of the net Sub-fund assets in the role of seller. It is intended that such total return swaps shall constitute 2% of the net Sub-fund assets.

The Sub-fund may invest up to 10% of its assets in units or shares of European UCITS, in AIFs from France or other EU member states, as well as in foreign investment funds. These funds may be managed by ODDO BHF Asset Management SAS and/or ODDO BHF Asset Management GmbH.

The fund's benchmark index is the BofA Merrill Lynch BB-B Euro High Yield Non-Financial Fixed & Floating rate Constrained Index. We reserve the right to deviate from the benchmark index.

Investors may ask to redeem their units on any Luxembourg business day.

Fees linked to the purchase and sale of securities (also referred to as "transaction costs") are payable by the sub-fund. They are added to the fees outlined in this document and reduce the Sub-fund's returns.

The Fund's reference currency is the euro.

All income generated by the fund will be reinvested.

Recommended investment horizon: 5 years

RISK AND REWARD PROFILE

Historical data, such as is used to calculate the synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-fund. The risk profile is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment. The capital initially invested is not guaranteed.

Why is the Sub-fund placed in category 3?

The Sub-fund has a high level of risk compared with other sub-funds composed primarily of bonds. This is a result of its investment policy, which is to invest at least two-thirds of its total assets in lower quality debt securities denominated in euro. These securities carry a higher risk of default than investment grade bonds and this fact is not fully reflected in the Sub-fund's risk category.

Material risks to the Sub-fund that are not taken into account in the indicator:

Credit risk: this is the risk of a sudden downgrading of an issuer's credit rating or the risk of an issuer's insolvency.

Liquidity risk: the Sub-fund invests in markets that may be affected by a fall in liquidity. Low volumes of market transactions may have an impact on prices at which the manager opens or closes positions.

Impact of financial techniques: taking into account the use of derivatives in particular, the Sub-fund's maximum exposure to individual asset classes may exceed its net assets. In the event of unfavourable changes in the strategies used, the net asset value may fall more significantly than the markets to which the Sub-fund is exposed.

Counterparty risk: risk of a counterparty's default, causing it to default on payment. The Sub-fund may be exposed to this risk resulting from the use of forward financial instruments or temporary purchases and sales of securities contracts negotiated over-the-counter with a credit institution if the latter is unable to honour its commitments.

If one of these risks were to materialise, the Sub-Fund's net asset value may fall.

CHARGES

Charges and fees paid are used to pay the costs of marketing and distribution; these charges reduce the potential growth of the investment.

| One-off charges taken before or after you invest | |
|--|-------|
| Entry charges | 2.00% |
| Exit charges | 0.50% |

This is the maximum that might be deducted from your capital before it is invested and/or before the proceeds of your investment are paid out. These charges are payable to the distributor. In some cases, investors may pay less.

| Charges taken by the Sub-fund over one year | |
|---|-------|
| Ongoing charges | 0.74% |

| Charges taken by the Sub-fund under specific conditions | |
|---|------|
| Performance fees | None |

Ongoing charges are based on the expenses for the last financial year ended October 2017.

Actual charges may vary from year to year. The SICAV's annual report for each financial year includes detail on the exact charges made.

These charges do not include: performance fees and intermediary fees except in the case of entry and/or exit charges paid by the Sub-fund when it buys or sells units in another collective investment vehicle.

For more details regarding fees, please refer to the "Fees and Expenses" section of the prospectus, available at am.oddo-bhf.com or from the registered office of the SICAV.

PAST PERFORMANCE

Performance varies over time and is not an indication of future results.

The annualised performances shown in this chart are calculated after deducting all charges taken by the Sub-fund.

This Sub-fund was created on 30 June 2000.

The DI-EUR share class was created on 1 July 2002.

The reference currency of the Sub-fund is the euro (EUR).

(*) Prior to 1 September 2008, the benchmark was the Merrill Lynch Euro High Yield Constrained Index.

Prior to 1 November 2009, the benchmark was the BofA ML Euro Fixed & Floating Rate HY 3% Constrained ex-Financials Index.

Since 1 November 2009, the benchmark has been the BofA ML Euro Fixed & Floating Rate HY 3% Constrained ex-Financials Index.

Since 13 September 2016, the benchmark index is the BofA Merrill Lynch BB-B Euro High Yield Non-Financial Fixed & Floating Rate Constrained Index.

PRACTICAL INFORMATION

Depository: CACEIS Bank, Luxembourg Branch
