Investment Objective

The Fund seeks to generate attractive returns and protect capital.

Fund Description

A portfolio of carefully selected publicly-traded high yield debt securities including notes, such as floating rate short-term and medium-term notes, and bonds which are listed and/or traded on a recognised exchange. The Fund seeks to generate attractive returns and protect capital through the careful selection of publicly traded high yield debt securities which are issued by corporate borrowers domiciled, headquartered, or whose primary business activities or principal trading markets are in the US, Europe and emerging markets.

There is no guarantee that targets will be met. Please see the Key Fund Risks on page 3.

Net performance does not reflect the deduction of individual subscription fees which can be up to 1%. The average subscription fee levied by Muzinich during the Fund's history was 0%.

Key Fund Risks

Credit Risk: Risk that issuers of bonds held in the Fund may default on their obligations or have their credit rating downgraded, possibly resulting in a temporary or permanent decrease in the value of those bonds. Most bonds in this Fund are rated below investment grade.

Liquidity Risk: Risk that the Fund may face difficulties in purchasing or selling its assets, although it endeavors to invest in liquid securities.

Interest Rate Risk: Risk that fixed-rate bonds held in the Fund may fall in price with an increase in the prevailing level of interest rates in the economy. This risk usually decreases for bonds of lower rating and shorter duration-to-worst.

Currency Risk: Risk that the Fund may invest in multiple currencies or may have investors subscribe in multiple currencies which may fluctuate in value relative to each other. Additionally, the risk that this unit class may be exposed to currencies other than the one in which the unit class is denominated. Although the Manager endeavors to protect the Fund against currency risk, such hedging, achieved through derivative instruments (see "Derivative Risk" below), is at the Manager's discretion and it may not be possible or practical to protect the Fund or individual unit classes against all currency risk.

Derivative Risk: Risk that the Fund may use derivative instruments to protect against perceived risks as described under the other headings in this section. Derivative instruments may rise or fall in price or may be subject to risk of non-payment or non-delivery by a counterparty. There is no guarantee that derivatives will provide the anticipated protection.

Operational Risk: Risk that operational processes, including those relating to the safekeeping of assets, may fail, resulting in losses.

Additional information about these and other risks may be found in the prospectus and supplement for the Fund, both of which are available at www.muzinich.com.

Glossary of Terms

Bond - A loan, usually taken out by a government or company, which normally pays a fixed rate of interest over a given time period, at the end of which the loan is repaid.

Country code - AT Austria/BE Belgium/FR France/DE Germany/IE Ireland/IT Italy/LX Luxembourg/NL Netherlands/PE Peru/PT Portugal/ES Spain/CH Switzerland/UK United Kingdom.

Coupon - The interest paid by the government or company that has raised a loan by selling bonds.

Credit - The borrowing capacity of an individual, company or government. More narrowly, the term is often used as a synonym for corporate bonds.

Credit rating - An independent assessment of a borrower's ability to repay its debts. A high rating indicates that the credit rating agency considers the issuer to be at low risk of default; likewise, a low rating indicates high risk of default. (Standard & Poors, Fitch and Moody's are the three most prominent credit rating agencies.)

Credit spread - The difference in the yield between a corporate bond and a government bond of the same maturity.

Duration - A measure of the sensitivity of a bond or bond fund to changes in interest rates. The longer a bond or bond fund's duration, the more sensitive it is to interest rate movements.

Duration to worst - Denotes how sensitive a bond is to changes in the general interest rate environment with shorter durations denoting less sensitivity. It is calculated assuming a bond will be repaid at the date most advantageous to the issuer even if that occurs before the bond's stated maturity date.

High yield bonds - Bonds with a low credit rating from a recognised credit rating agency. They are considered to be at higher risk of default than better quality, ie, higher-rated bonds, but have the potential for higher rewards.

Index - An index represents a particular market or a portion of it, serving as a performance indicator for that market.

Maturity - The date at which a loan or bond is contracted to be repaid (also known as redemption).

NAV - Net Asset Value per Unit.

OCF (Ongoing Charges Figure) - It is a measure of the total cost of a fund to the investor. Total costs may include various fees (purchase, redemption, auditing) and other expenses. The OCF is calculated by dividing the total annual cost by the fund's total assets averaged over that year, and is denoted as a percentage.

Sharpe Ratio - A measurement of a fund's risk/return. The higher a fund's Sharpe ratio, the better its risk-adjusted performance has been.

Total return - The term for the gain or loss derived from an investment over a particular period. Total return includes income (in the form of interest or dividend payments) and capital gains.

Volatility - The degree to which a given security, fund, or index rapidly change. It is calculated as the degree of deviation from the norm for that type of investment over a given time period. The higher the volatility, the riskier the security tends to be.

Yield to Worst - The lowest potential yield that an investor can expect to receive from a bond. Yield to Worst may be the same as the yield to maturity but it will never be higher.

Disclaimer

Past performance is not a guide to future performance. The value of investments and the income from them may fall as well as rise and is not guaranteed and investors may not get back the full amount invested. Where references are made to portfolio guidelines or features, these may be subject to change over time and prevailing market conditions. Any research in this document has been obtained and may have been acted on by Muzinich for its own purpose. The results of such research are being made available for information purposes and no assurances are made as to their accuracy. Opinions and statements of financial market trends that are based on market conditions constitute our judgment and this judgment may prove to be wrong. The views and opinions expressed should not be construed as an offer to buy or sell or invitation to engage in any investment activity, they are for information purposes only. The prices of fixed income securities fluctuate in response to perceptions of the issuer's creditworthiness and also tend to vary inversely with market interest rates. The value of such securities is likely to decline in times of rising interest rates. Conversely, when rates fall, the value of these investments is likely to rise. Typically, the longer the time to maturity the greater are such variations. A Fund investing in fixed income securities will be subject to credit risk (i.e. the risk that an issuer of securities will be unable or unwilling to pay principal and interest when due, or that the value of a security will suffer because investors believe the issuer is less able or willing to pay).

Please note that investment is subject to documentation, including but not limited to the Prospectus and Key Investor Information Document (KIID) which contain a comprehensive disclosure of applicable risks. Investors in the UK should also access the Muzinich Supplemental Information Document ('SID'). Each of these documents is available in English at www.muzinich.com, together with the Fund's annual and semi-annual reports. KIIDs are available by share class in each language required in the countries in which the share classes are registered. A complete listing of these KIIDs and the KIIDs themselves are also available at www.muzinich.com. Investors should confer with their independent financial, legal or tax advisors. Issued in Europe by Muzinich & Co. Ltd, which is authorised and regulated by the Financial Conduct Authority. Registered in England and Wales No. 3852444. Registered address: 8 Hanover Street, London W1S 1YQ.

For Hong Kong -

This document has not been approved by the Securities and Futures Commission in Hong Kong, nor has a copy of it been registered by the Registrar of Companies in Hong Kong and, accordingly, shares may not be offered or sold in Hong Kong by means of any document other than to persons that are considered "professional investors" within the meaning of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) and any rules made thereunder; and no person may issue, or have in its possession for the purpose of issue, any invitation, advertisement or other document relating to the Units whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Units which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors". WARNING: The content of this document has not been reviewed by any regulatory authority in Hong Kong. You are advised to exercise caution in relation to the offering. If you are in any doubt about any content of this document, you should obtain independent professional advice.

For Singapore -

The fund is a restricted scheme under the Sixth Schedule to the Securities and Futures (Offers of Investments) (Collective Investment Schemes) Regulations of Singapore. No offer of the units in the fund for subscription or purchase (or invitation to subscribe for or purchase the units) may be made, and no document or other material relating to the offer of units may be circulated or distributed, whether directly or indirectly, to any person in Singapore other than to: (i) "institutional investors" pursuant to Section 304 of the Securities and Futures Act of Singapore (the "Act"), (ii) "relevant persons" pursuant to section 305(1) of the Act, (iii) persons who meet the requirements of an offer made pursuant to Section 305(2) of the Act, or (iv) pursuant to, and in accordance with the conditions of, other applicable provisions of the Act. The offer, holding and subsequent transfer of units are subject to restrictions and conditions under the Act.
