Directors' Report

The FTSE All-Share index gained 1.25% over the 12 months to 31 March 2018. The period started positively, and global equities rose strongly, supported by global economic data and improving corporate results. Strong gains throughout 2017 were slightly eroded in February and March 2018, which saw a global sell-off – and rising volatility, following a subdued period – on fears that copious central bank stimulus could soon come to a close.

In UK political news, Prime Minister Theresa May's unexpected call in 2017 for a snap general election fuelled hopes that this would lead to an increased parliamentary majority for the Conservatives, which would strengthen the government's hand in the Brexit negotiations. In the event, June's election resulted in the Conservatives losing their overall majority; this triggered angst over the implications for Brexit. The end of 2017 saw UK and European officials conclude the first stage of the Brexit negotiations, with agreement on some key sticking points, including the so-called "divorce settlement". While investors remain anxious about the next stage of the negotiations, sentiment was buoyed in March 2018 by an agreement between the UK and EU on a post-Brexit transition deal.

The S&P 500 gained 14.0% during the period, consistently hitting record highs and climbing in every month apart from February and March 2018. The Federal Reserve raised interest rates by 25 basis points in June, maintaining its forecast for another hike in 2017 (which ultimately materialised in December) and three in 2018. US equities received further support from anticipation that Congress would approve President Trump's flagship tax-cutting bill. The bill, which was eventually passed on 20 December, features a permanent cut in corporation tax from 35% to 21% and smaller temporary reductions in income taxes. But volatility returned to equity markets in the first quarter of 2018, and equities fell sharply at the start of March, when Trump announced steep US import tariffs on steel and aluminium, and later, when he ordered levies on \$60bn of unspecified Chinese goods.

It was a positive period for European equities, with the MSCI Europe gaining 0.13%. The eurozone economy gathered momentum – 2017 was the best year for GDP growth in a decade, unemployment reached a nine-year low and the purchasing managers' index reached its highest level in almost 12 years, before cooling slightly. Corporate earnings also provided grounds for optimism. The eurozone's economy strengthened sufficiently for the European Central Bank to start scaling back bond purchases, although the duration of the financial stimulus plan has been extended until at least September 2018.

The MSCI AC Asia Pacific ex Japan index performed strongly over the reporting period, gaining 19.1% and outperforming developed markets. But Asian markets experienced a bout of volatility in early 2018, when investors were unsettled by stronger-than-expected wage growth in the US, which fuelled fears of higher inflation and a steeper trajectory for US interest-rate hikes. This volatility continued towards the end of the reporting period, led by concerns over US-China trade tensions in the wake of the Trump administration announcing 25% tariffs on as much as \$60bn of annual imports from China. China continued its strong run off the back of robust earnings, positive economic releases and GDP growth that exceeded market estimates.

The Topix performed strongly in the 12 months to 31 March, rising 15.9% in local-currency terms. Early in the period, the market weakened when Prime Minister Abe's popularity declined in the wake of the Moritomo Gakuen scandal, in which he was accused of approving a land deal at prices benefiting the nationalistic primary-school operator. However, from mid-April, concerns over the scandal eased as Abe's popularity ratings recovered and, following the landslide victory of Abe's Liberal-Democratic Party in the snap general elections in October, Japanese equities rallied.

Emerging markets (EM) equities had a very strong year, rising 22.4% during the period under review and outperforming developed markets. In Brazil, though the president, Michel Temer, was ultimately cleared of corruption allegations, his government was dogged by challenges that impeded the progress of crucial legislation in areas such as pensions. At the end of the period, Fitch downgraded Brazil to BB-, expressing disappointment over the country's lack of progress with fiscal reform. Mexico initially continued its recovery, buoyed by softening US rhetoric on trade and solid data on GDP, trade and the labour market. However, growth prospects were later revised down on worries about the course of North American Free Trade Agreement (NAFTA) negotiations. In South Africa, markets rallied later in the period as Cyril Ramaphosa defeated the scandal-hit Jacob Zuma in leadership elections for the ruling African National Congress (ANC). Mr Ramaphosa subsequently became president in February.

Core sovereigns had a difficult year as investors braced for a world with less "easy money" and favoured risk amid optimism over strong corporate earnings and economic indicators. Core bonds were also pressured by expectations that President Trump would implement his growth-friendly policies. Trump's move to repeal Obamacare failed but he achieved his goal of reforming the US tax code shortly before Christmas. Despite weakening at the end of the period, EM debt performed well over the period as a whole, with the JP Morgan EMBI Global index returning 2.2% in US dollar terms.

Within EM bonds, fundamentals were largely positive throughout the period, with risk assets supported and yields remaining attractive. Trade concerns initially abated, as the US softened its rhetoric towards Mexico, but later revived amid slow progress on the NAFTA renegotiations and the prospect of a trade war between China and the US. The external environment remained largely supportive, with the dollar trending weaker and yields in core markets remaining low for much of the period. In early 2018, however, US Treasury yields began to rise as faster wage growth fuelled fears of an increased pace of interest-rate rises. In 2018, healthy inflows into EM fixed-income should continue, driven by faster growth in EM economies than in developed markets. EM growth should be spurred by major economies that have turned or are turning the corner, and by a broader recovery across Latin America. Despite rising yields on US Treasuries, we expect spreads to remain resilient, particularly in the high yield space, where the spread cushion is more meaningful, and the fundamentals are supportive. Idiosyncratic country stories will continue to be key to overall EM performance, not least in markets such as Turkey, South Africa and Venezuela.

Directors' Report

(continued)

Key new additions to the Global Focus Fund included Indian financial Kotak Mahindra Bank and sports equipment manufacturer Adidas. We believe Kotak can continue compounding earnings, driven by fast-paced loan growth, technological innovation and economic transparency. Adidas continues to gain market share in a relatively concentrated industry, and margins should benefit as the company's direct-to-consumer model develops through its website and owned stores. The recent arrival of new, well-regarded management and personalisation-led sales growth bolsters the investment case further. Positions in Microsoft and Japanese sensor manufacturer Keyence were extended. In our view, the latter is a deep-moated, highly profitable and well-diversified beneficiary of structural automation trends. Sales included those of Visa and S&P Global; we felt their risk-reward profiles had become less compelling relative to other names.

In the American and Select funds, we built up exposure to financials over the year; the sector is well-placed to gain from a healthy US economy and rising interest rates, and from a loosening of regulations under the Trump administration. Key new financials positions included Citizens Financial Group and Bank of America in the American Fund, and JP Morgan Chase in the Select Fund. Elsewhere in the American Fund, sector allocation remained fairly steady over the year, though we did increase our holdings in technology – where new positions included quality growth names Micron Technology and MasterCard – while reducing consumer staples and real estate. Other new names in the Select Fund included UnitedHealth Group, whose diverse mix of services and benefits gives it an advantage among its peers in the move towards value-based care, and Boeing, where improved production of the B787 is helping drive significant improvements in the company's free cashflow.

Our main focus in managing the European Select Fund is on stock selection. We seek to identify high-quality companies with the pricing power to sustain strong returns. During the year, new positions included Adidas and ASML. Sportswear firm Adidas is under new management, is gaining market share, and has a strong position in China. Its sales strategy has hit a sweet spot, with products such as retro shoes. ASML produces semiconductor manufacturing equipment; it has a large market share and superior technology. The company is a leader in extreme ultraviolet (EUV) lithography technology, which offers exciting growth potential. We sold Roche; the pharmaceutical company is increasingly under pressure from the development of biosimilar drugs. Other sales included vehicle-safety firm Autoliv, following a period of strong returns.

In the UK portfolio, new additions included Rotork, Weir, Cobham and Whitbread. Rotork should see tailwinds from returning oil & gas capex, industry consolidation, and a management team that has invested well through the cycle to enhance the company's offering. Weir is well positioned to benefit from an uplift in capital expenditure as improving profitability develops in the commodities sector. In our view, Cobham has a resilient underlying business which offers multiple opportunities for value creation. Whitbread has a significant revenue-enhancing opportunity in its hotel franchise. Tesco was also added to the portfolio following its acquisition of Booker, which we previously held. We are positive about the acquisition, as well as Tesco's deal on its pension fund, its improved operating performance and focus on cashflow. We profitably closed our position in Bellway. Other exits included Berendsen and Amec Foster Wheeler; both companies were acquired during the review period.

In all three Asian equity funds, we maintained a strong exposure to China stocks, which anchored their performance throughout the year. The funds rode a strong market rally, which was driven by a turnaround in risk perceptions towards China after years of steady growth. Fears of a financial crisis in China, centred around the rise in its debt to GDP ratio, abated as policymakers took steps to manage risks within the financial system. Within Asia, the technology sector was a standout performer over the year; Samsung Electronics, for example, rallied more than 60% on the back of strong demand for electronic components such as memory chips. In the online sector, China heavyweights such as Alibaba and Tencent produced even stronger rallies on the back of a combination of earnings growth and a valuation re-rating. Towards the year-end, we were progressively taking profits and switching to other sectors while maintaining an overweight exposure to China. The funds remained underweight in India and Australia at the end of the year.

In the European Strategic Bond Fund, trading within government bonds dominated the fund's activity over the year. We added bonds issued by Italy, the UK and the Netherlands to the portfolio. We topped our holdings of German bunds but reduced our position in French sovereigns. Within Spanish government debt, we switched from holding a 2046 bond to one maturing in 2019. In the corporate space, new additions included DS Smith and Severn Trent. We increased our position in Akelius Residential and Grand City Properties, among others. Exits included Anglo American, Northern Ireland Electricity and Wind Acquisition Finance. The fund also increased its holdings in emerging markets, where we view the fundamental backdrop to be more attractive, relative to domestic market credits.

Dominik Kremer Director

Shariah Audit Report

The Directors
Management Company
74, Mühlenweg
L-2155 Luxembourg
Grand Duchy of Luxembourg,

Dear Sirs

As-salaamu Alaikum

In accordance with a Shariah Advisory Agreement dated 30 March 2017 between Threadneedle Management Luxembourg S.A., acting as management company of Threadneedle (Lux) (respectively the **Management Company** and the **SICAV**), and Gatehouse Bank Plc (the **Shariah Advisor**) relating to Threadneedle (Lux) – Gatehouse Shariah Global Equity (the "**Shariah Sub-Fund**"), we are required to submit this Shariah Audit Report.

Terms defined in the Shariah Advisory Agreement have the same meanings when used herein.

We have conducted Shariah audit which included examining Investments made during the period from 1 April 2017 to 30 September 2017 by the Shariah Sub-Fund (the "Shariah Audit"). We have also consulted and presented our findings to the Shariah Supervisory Board who reviewed the work of the Shariah Advisor and confirmed that the investments and the computation of the purification amount are within the agreed Shariah guidelines and parameters.

Following the Shariah Audit, the Shariah Sub Fund is advised by the Shariah Advisor to purify USD 372.2 in respect of the dividends during the above period and shall donate to charity which is to be agreed with the Shariah Supervisory Board. The Shariah Sub-Fund is not expected make any purification of the capital gains during the said period.

And Allah knows best.

Dated: 21 November 2017

Signed for and on behalf of the Shariah Supervisory Board:

Mufti Muhammad Nurullah Shikder

Shariah Compliance Certificate

The Directors
Management Company
74, Mühlenweg
L-2155 Luxembourg
Grand Duchy of Luxembourg,

Dated: 8 May 2018

Dear Sirs

As-salaamu Alaikum

In accordance with a Shariah Supervisory Board Appointment Agreement dated 30 March 2017 between Threadneedle Management Luxembourg S.A., acting as management company of Threadneedle (Lux) (respectively the **Management Company** and the **SICAV**), and us (the **Shariah Supervisory Board**) relating to Threadneedle (Lux) – Gatehouse Shariah Global Equity (the "**Shariah Sub-Fund**"), we are required to submit this Shariah Compliance Certificate.

Terms defined in the Shariah Supervisory Board Appointment Agreement have the same meanings when used herein.

We have conducted the Shariah audit which included examining Investments made during the period from 1 October 2017 to 30 March 2018 by the Shariah Sub-Fund (the "Shariah Audit"). We have also consulted with, and reviewed the work of, the Shariah Advisor. After undertaking the Shariah Audit, we have issued this Shariah Compliance Certificate.

This certificate confirms that we have found that, except as stated, the Investments were made in accordance with the Shariah Guidelines set out in the Prospectus relating to the Shariah Sub-Fund.

In view of the foregoing, it is our opinion that the Shariah Sub-Fund invested in a Shariah compliant manner, other than such amounts recommended for purification and that, therefore, the earnings of the Shariah Sub-Fund (subject to such purification) and any subsequent returns to investors may be considered lawful.

And Allah knows best.

Dated: 8 May 2018

Signed for and on behalf of the Shariah Supervisory Board to the Shariah Sub-Fund by:

Dr Sheikh Nidham Yaquby

Dr Sheikh Abdulaziz Al Qassar

Audit report

To the Shareholders of Threadneedle (Lux)

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Threadneedle (Lux) and of each of its sub-funds (the "SICAV") as at March 31, 2018, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The SICAV's financial statements comprise:

- the statement of net assets as at March 31, 2018;
- the portfolio statement as at March 31, 2018;
- the statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (Law of July 23, 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under those Law and standards are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the SICAV in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the SICAV is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the SICAV is responsible for assessing the SICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the SICAV either intends to liquidate the SICAV or to cease operations, or has no realistic alternative but to do so.

PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg T: +352 494848 1, F: +352 494848 2900, www.pwc.lu

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the SICAV's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the SICAV;
- conclude on the appropriateness of the Board of Directors of the SICAV's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the SICAV's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the SICAV to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

PricewaterhouseCoopers, Société coopérative Represented by Luxembourg, June 25, 2018

1 GENERAL

Threadneedle (Lux) (the "SICAV") is an investment company with variable capital (Société d'Investissement à Capital Variable) governed by Part I of the law of December 17, 2010, relating to Undertakings for Collective Investment as amended.

The SICAV offers investors the opportunity to invest in separate compartments (the "Portfolios"), each of which has a different investment objective and is a separate portfolio of assets represented by separate securities. Each Portfolio may have one or more classes of shares (the "Share Classes") related to it. The SICAV as a whole, including all of the existing Portfolios and all future Portfolios, is one legal entity. However, with regard to third parties and, in particular, with regard to the SICAV's creditors and as between Shareholders, each Portfolio shall be exclusively responsible for all liabilities attributable to it.

Significant events during the year:

New Prospectuses

New Prospectuses have been issued in May 2017, July 2017, December 2017 and March 2018.

Changes to the investment policy of the Portfolios and name changes

There were no changes to the investment policies of the Portfolios or name changes during the period.

Launching and closing of Portfolios

The Threadneedle (Lux) - Gatehouse Shariah Global Equity Portfolio was launched on April 26, 2017.

The Threadneedle (Lux) - European Social Bond Portfolio was launched on May 24, 2017.

The Threadneedle (Lux) - US Disciplined Core Equities Portfolio was launched on June 16, 2017.

The Threadneedle (Lux) - Global Investment Grade Credit Opportunities Portfolio was launched on March 28, 2018.

With effect from January 17, 2018, the Threadneedle (Lux) - Global Energy Equities Portfolio was put into liquidation.

Launching and closing of Share Classes

The following share classes were launched during the year ended March 31, 2018:

The Specialist Portfolio:

- Threadneedle (Lux) - Enhanced Commodities¹

The Shariah Portfolio:

- Threadneedle (Lux) - Gatehouse Shariah Global Equity

'As at March 31, 2018, these Portfolios have been authorised by the Securities and Futures Commission in Hong Kong and are available to the public of Hong Kong.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared and presented in accordance with generally accepted accounting principles applicable to UCITS (Undertakings for Collective Investments in Transferable Securities) investment funds in Luxembourg and require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

The financial statements are presented on the basis of the Net Asset Value of the Portfolios which are calculated as of March 29, 2018. The last official trading Net Asset Value of the corresponding Portfolios have been calculated as of the March 29, 2018.

(continued)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

I) Valuation of securities

Transferable securities, money market instruments and any financial assets listed or dealt in on a regulated market are valued at their last exchange price in the relevant market at the time of closure of the market. If such prices are not representative of their fair market value, such securities are stated at the fair value at which it is expected they may be resold, as determined in good faith by or under the direction of the Board of Directors.

Fixed income securities not traded on such markets are valued at the last available price or yield equivalents obtained from one or more dealers or pricing services approved by the Board of Directors, or any other price deemed appropriate by the Board of Directors.

Money Market Instruments (or other instruments in line with market convention in the jurisdiction in which the instrument is held) with a remaining maturity of 90 days or less will be valued by the amortised cost method, which approximates market value. Under this valuation method, the relevant Portfolio's investments are valued at their acquisition cost or the last market value prior to the 90 day period commencing (where an instrument at purchase date originally had more than 90 days to maturity) and adjusted for amortisation of premium or accretion of discount rather than at market value.

Units or shares of open-ended undertakings for collective investments ("UCIs") are valued at their last determined and available net asset value (the "Net Asset Value") or, if such price is not representative of the fair market value of such assets, then the price shall be determined by the SICAV, on a fair and equitable basis. Units or shares of closed-ended UCIs are valued at their last available stock market value.

The directors of the SICAV (the "Directors"), in their discretion, may permit some other method of valuation to be used if they consider that such valuation better reflects the fair value of any asset of the SICAV.

II) Forward Foreign Exchange Contracts

For the purpose of hedging against specific currency risk or investing in other currencies, the SICAV may enter into forward foreign exchange contracts. At the year-end, open forward foreign exchange contracts are valued at the forward rates applicable for the remaining period until maturity. The net movement in the unrealised gain/(loss) arising on forward foreign exchange contracts is recorded in the Statement of Operations and Changes in Net Assets. The contracts outstanding as at March 31, 2018 are disclosed in Note 9.

III) Futures Contracts

The SICAV may enter into futures exchange contracts. Open futures contracts are valued at the prices on the exchange for which the contracts are traded on. The net movement in the unrealised gain/(loss) arising on futures contracts is recorded in the Statement of Operations and Changes in Net Assets. The contracts outstanding as at March 31, 2018 are disclosed in Note 11.

IV) Swaps Transactions

The SICAV may enter into Interest Rate Swaps ("IRS"), Credit Default Swaps ("CDS") and Total Return Swaps ("TRS"). IRS are valued on the basis of their market value established by reference to the applicable interest rate curve. CDS are valued by reference to the net present value of the expected future cash flows based on the market interest rates and the markets expected default and recovery rate of the underlying asset. An upfront payment, if any, made by the SICAV is recorded as an asset in the Statement of Net Assets. An upfront payment, if any, received by the SICAV is recorded as a liability in the Statement of Net Assets. TRS are valued by reference to the mark to market value based on the market value of the underlying asset. The net movement in the unrealised gain or loss arising on swap transactions is recorded in the Statement of Operations and Changes in Net Assets. The contracts outstanding as at March 31, 2018 are disclosed in Note 10. Dividends payable on swaps short positions, if any, are recorded as a liability in the Statement of Net Assets.

V) Options trades

Options traded on a regulated market are valued at the market price on the valuation date. Such options open as at March 31, 2018 are shown in the Schedule of Investments. Over-the-counter ("OTC") options are valued based on prices received from third party pricing agents/models. Such options open as at March 31, 2018 are shown in Note 12. Unrealised gains or losses arising at the time of reporting from the valuation of options trades are taken into account in the Statement of Operations and Changes in Net Assets.

VI) Translation of currencies

The accounts of each Portfolio are kept in the currency in which its net assets are expressed. The relevant Statement of Net Assets, Statement of Operations and Changes in Net Assets and the Schedule of Investments are expressed in this currency (the "base currency").

During the year, transactions, income and expenses denominated in a currency other than the base currency are recorded on the basis of exchange rates prevailing on the date they occur or accrue to the Portfolio.

(continued)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

At the date of the Statement of Net Assets, monetary assets and liabilities denominated in a currency other than the base currency are translated into the base currency on the basis of exchange rates prevailing on that date. Exchange differences are included in the Statement of Operations and Changes in Net Assets

The aggregated Statement of Net Assets and Statement of Operations and Changes in Net Assets are presented in USD based on the exchange rates ruling at the date of the Statement of Net Assets. Exchange rates used as at March 31, 2018 are: 1 USD = 1.303696 AUD, 1 USD = 0.813107 EUR, 1 USD = 0.712860 GBP, 1 USD = 0.957600 CHF, 1 USD = 8.374789 SEK and 1 USD = 1.311300 SGD.

The difference between the opening net assets stated at exchange rates ruling at the beginning of the year and their value at the end of the year is shown as a currency translation adjustment in the Aggregated Statement of Operations and Changes in Net Assets under the heading Exchange differences.

VII) Cash at bank

The cash at bank reflected in the Statements of Net Assets includes also the margins on futures and cash collateral due from brokers for swaps transactions and forward foreign exchange contracts.

Cash and margins on futures are valued at cost, which approximates the market value.

VIII) Term deposits

Term deposits are valued at cost, which approximates the market value.

IX) Investment transactions and investment income

Securities are recorded at cost, and where applicable on the basis of exchange rates prevailing on the date they are purchased.

Results on sales of securities are determined on the basis of the average cost method. Investment transactions are accounted for on the trade date. Dividends are accounted for on the ex-dividend date. Interest income is recorded on an accrual basis. Discounts/Premium on zero coupon bonds are accreted as adjustments to interest income.

Interest, dividends and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

X) Distribution policy

The policy of the SICAV in respect of all Share Classes of Portfolios, with the exception of Classes whose denomination ends in 'P' or 'C' is to make no distributions, to accumulate in such Portfolios all net earnings and to reinvest these within the same Portfolio and Class. In respect of Classes whose denomination ends in 'P' or 'C' the SICAV intends to make distributions, with a frequency, at least annually, and in an amount to be determined by the Directors. The Shareholders of these Share Classes have the option to receive the dividend or to reinvest it in the SICAV.

XI) Asset management fee rebates

Cross investments and investments in other Columbia Threadneedle funds are either made in non-fee paying share classes or any management fee paid is fully rebated. Please also refer to note 18 for details on cross investments.

3 TAXATION

Under current laws and practice, the SICAV is not liable to any Luxembourg income tax, or any Luxembourg capital gains on the realised capital appreciation of the assets of the SICAV nor are dividends paid by the SICAV liable to any Luxembourg withholding tax.

Under the prevailing law and regulations, the SICAV is subject, in the Grand Duchy of Luxembourg, to an annual subscription tax of 0.05%, payable on a quarterly basis and assessed on its Net Asset Value at the end of each quarter. No tax is due on the assets held by the SICAV in other UCITS already subject to that tax in Luxembourg.

In respect of the Institutional Share Classes, a reduced annual subscription tax of 0.01% is levied on the Net Asset Value at the last day of each calendar quarter in accordance with the law of December 17, 2010, as amended.

In addition, those portfolios whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions are also subject to a reduced tax of 0.01%. Again, no such tax is due on the portion of the assets of the SICAV invested in other Luxembourg UCITS, if any.

Although the SICAV's realised capital gains are not taxable in Luxembourg, whether short-or-long term, these realised capital gains may be subject to tax in the countries of origin.

(continued)

4 MISCELLANEOUS FEES

The miscellaneous fees are composed of foreign exchange charges, Italian taxes, compensation due to NAV error and withholding tax on derivatives income. In the Threadneedle (Lux) - Gatehouse Shariah Global Equity Portfolio the miscellaneous fees are composed of the impure income amount to be donated.

5 RELATED PARTY TRANSACTIONS

The SICAV may, on behalf of the different Portfolios, enter into borrowing arrangements (subject to the restrictions set out under "Investment Restrictions" in Appendix A of the Prospectus) with, and buy from or sell transferable securities, foreign exchange or other financial instruments through Threadneedle Asset Management Limited ("TAML"), a related entity and its affiliates, provided that such transactions are carried out at normal commercial terms and are in the best interests of the relevant Portfolio and its Shareholders.

For the year ending March 31, 2018, the SICAV did not enter into transactions with connected persons.

The SICAV has appointed Threadneedle Management Luxembourg S.A. (the "Management Company") to serve as its designated management company in accordance with Chapter 15 of the law of December 17, 2010, as amended. Under the Management Company Services Agreement, the Management Company provides investment management, administrative and marketing services to the SICAV, subject to the overall supervision and control of the Board of Directors.

Neither the Management Company nor TAML earned commissions related to brokerage transactions.

Certain officers and/or directors of the Management Company, the SICAV and other Columbia Threadneedle Group entities are also officers and/or directors of TAML.

The Management Company (on behalf of the SICAV) has delegated certain marketing and/or distribution functions to other Columbia Threadneedle Group entities. The Management Company receives a monthly fee for Asset management services at an annual rate detailed in this note, expressed as a percentage of the average daily net assets for each of the Portfolios. The Management Company is responsible for paying sub-distribution fees out of this fee. Some of the sub-advisors are related entities.

As described in Note 8, the Management Company may also receive performance fees with respect to all A, D, I and Z Shares of the Threadneedle (Lux) - American Absolute Alpha Portfolio, with respect to all J and Y Shares of the Threadneedle (Lux) - Global Investment Grade Credit Opportunities*, and with respect to all A, D, I, L and Z Shares of the Threadneedle (Lux) - Pan European Absolute Alpha Portfolio.

All expenses incurred in the operation of the SICAV and defined below (hereafter the "Other Operating Expenses", "Asset Management Fee" or "Portfolio Charges", together, the "Expenses") are fixed at the rates shown in the tables from page 165 onwards except for Share Class M, for which the Operating Expenses are 0.20% per annum. All expenses are accrued daily based on the Net Asset Value of the relevant Share Class in the relevant Portfolio.

The Operating Expenses include, among other things, taxes, expenses for legal and auditing services, costs of printing proxies, stock certificates, Shareholders' reports and notices, Prospectuses and key investor information documents and other promotional expenses, fees and charges of the custodian and its correspondents, and of the domiciliary agent, administrative agent, registrar and transfer agent and of any paying agent, expenses of the issue and redemption of shares, registration fees and expenses in various jurisdictions, listing fees, fees of unaffiliated directors of the SICAV, expenses of the Directors and officers of the SICAV and the sub-advisors relating to attendance at meetings of the Directors and of the shareholders of the SICAV, translation costs, accounting and pricing costs (including the calculation of Net Asset Value per share), insurance, litigation and other extraordinary or non-recurring expenses, and all other expenses properly payable by the SICAV. The Operating Expenses also include the service fee payable to the Management Company. In the case of Share Class M only, custody and sub-custody charges are paid by the relevant Share Classes as incurred and are not included in the Operating Expenses. The Management Company will bear the excess of any Operating Expenses above the annual rate. Conversely the Management Company will be entitled to retain any amount by which the annual rate of Operating Expenses exceeds the actual expenses incurred by the SICAV.

Furthermore, the Management Company is entitled to receive an asset management fee (the "Asset Management Fee") as more fully described in the tables from page 165 onwards which are accrued daily and paid monthly. An Asset Management Fee is not payable for X Shares. For the avoidance of doubt, Operating Expenses do not include either Asset Management Fees or performance fees which are separate and distinct.

Share Class M may be subject to a transaction charge (for subscriptions, redemptions or exchanges) of up to 0.75% of the Net Asset Value subject to the fair and equal treatment of shareholders. For Share Class M an Asset Management Fee of up to 0.95% of the total Net Asset Value of the Share Class per annum will be accrued daily and paid monthly.

The SICAV may offer B Shares on certain Portfolios. B Shares bear no initial sales charge and are subject to an ongoing distribution fee of 1.00% of the total Net Asset Value of the Class per annum. There is a declining Contingent Deferred Sales Charges ("CDSC") as described on page 173.

B Shares of Threadneedle (Lux) Global Technology are a legacy Share Class available only for further subscription by existing Shareholders, no CDSC is applicable to this Share Class.

B SHARES – CONTINGENT DEFERRED SALES CHARGE (CDSC)

There is a declining CDSC on B Shares redeemed within 2 years of purchase. The percentage amount charged is as follows:

Years since Purchase	CDSC
Less than 1 year	2%
1 year or more but less than 2 years	1%

The amount of the CDSC is equal to the current Net Asset Value of the B Shares being redeemed, multiplied by the applicable percentage rate referenced above.

Exchange of B Shares

B Shares may be exchanged for B Shares in an alternative Portfolio where available without incurring the CDSC, but may not be switched into other Classes without incurring the CDSC. The B Shares will continue to age without regard to any exchanges. Accordingly, upon redemption of Shares acquired in an exchange for B Shares of another Portfolio, the amount of any CDSC will be applied as if the Shares redeemed were held since the date of initial purchase. Dividends paid on B Shares cannot be reinvested and will be paid to shareholders.

In order to minimise any CDSC that is payable, the SICAV assumes for each Shareholder that B Shares held the longest during the two year period are redeemed first.

Following the two year anniversary of purchase, B Shares will automatically be exchanged into A Shares of the same Portfolio on the monthly scheduled conversion date set by the Management Company and will become subject to the charging structure on the A Shares upon conversion, and the CDSC and the distribution fee will cease to be charged.

6 COMMISSION SHARING ARRANGEMENTS

The Management Company and certain Sub-Advisors may enter into commission sharing arrangements with broker-dealers under which certain business services are obtained from such broker-dealers directly or from third parties and are paid for by the broker-dealers out of the commissions they receive on transactions for the SICAV. Consistent with obtaining best execution, brokerage commissions on portfolio transactions for the SICAV may be specifically allocated by the Management Company or each relevant Sub-Advisor to broker-dealers in consideration of any research services rendered. Additional information on each Sub-Advisor's practices with respect to commission sharing arrangements is detailed in the Prospectus with the heading "Investment Advisory Arrangements".

Any commission sharing arrangement entered into by the Management company or a Sub-Advisor will operate under the following conditions: (i) the Management Company or the Sub-Advisor will act at all times in the best interest of the SICAV and of its Shareholders when entering into commission sharing arrangements; (ii) the services provided will be in direct relationship to the activities of the Management Company or Sub-Advisor; (iii) brokerage commissions on portfolio transactions for the SICAV will be allocated by the Management Company or the Sub-Advisor to broker-dealers that are entities and not to individuals; (iv) commission sharing arrangements are not a determining factor in the selection of the broker-dealers; (v) the Management Company or the Sub-Advisor will provide reports to the Directors with respect to commission sharing arrangements including the nature of the services it receives; (vi) neither the Management Company, the Sub-Advisor nor any of their connected persons may retain cash or other rebates from broker-dealers; (vii) the services received are of demonstrable benefit to the Shareholders.; and (viii) periodic disclosure will be made in the SICAV's annual report in the form of statement describing any such commission sharing arrangements, including a description of the services received. The services received under commission sharing arrangements add value to the relevant Sub-Advisor's decision-making process. These services typically include analysis and research.

As of January 3, 2018, only the Sub-Advisors Columbia and STANLIB may enter into commission sharing arrangements.

8 PERFORMANCE FEES

The Management Company shall receive a performance fee as set forth below with respect to the Share Classes of the Portfolios listed in the table below. Daily provisions shall be set up for the accrual of the performance fee in respect of the performance fee balance (as described below), whereby the amount accrued shall be paid to the Management Company at the end of each calendar year (i.e. December 31). The amount of this performance fee depends on the performance of the Net Asset Value of the relevant Share Class within the relevant Portfolio compared to the performance of the relevant performance index (the "Performance Index", as per the table below). Accruals will only be made when the performance fee balance is positive and the NAV High Water Mark (defined below) is exceeded.

Performance of Share Classes includes dividends paid.

Portfolio	Share Classes	Performance Index	Performance Rate
Threadneedle (Lux) - American Absolute Alpha	A Shares	Higher of 3 month LIBOR (US\$) or zero	20%
	D Shares		
	I Shares		
	Z Shares		
Threadneedle (Lux) - Global Investment Grade		Higher of FTSE EUR 1 Month Eurodeposit	
Credit Opportunities*	J Shares	plus 1.00% or zero plus 1.00%	10%
	Y Shares		
Threadneedle (Lux) - Pan European Absolute Alpha	A Shares	Higher of 3 month EURIBOR (EUR) or zero	20%
	D Shares		
	I Shares		
	Z Shares		
	L Shares		

The performance of the Threadneedle (Lux) - American Absolute Alpha Portfolio, the Threadneedle (Lux) - Global Investment Grade Credit Opportunities* Portfolio and the Threadneedle (Lux) - Pan European Absolute Alpha Portfolio, including the impact of all applicable fees, is compared to the Performance Index.

The performance fee balance shall be calculated on the difference between the performance of the Performance Index and the performance of the Share Class concerned (the "Daily Difference"):

- (i) in the event the Daily Difference is positive, the performance fee balance will increase by an amount in respect of the Daily Difference, at the relevant performance rate;
- (ii) if the Daily Difference is negative, the performance fee balance will be reduced by an amount in respect of the Daily Difference, at the relevant performance rate.

(continued)

8 PERFORMANCE FEES

(continued)

If the performance fee balance is positive at the end of the calendar year and the NAV High Water Mark has been exceeded, the accrued amount of the performance fee will be paid to the Management Company within the first quarter of the subsequent calendar year. A performance fee shall only be paid to the Management Company if the Net Asset Value of the relevant Share Class exceeds the NAV High Water Mark.

If at the end of the calendar year the performance fee balance is negative and the NAV High Water Mark has been exceeded, such negative amount will be reset. For the avoidance of doubt, no performance fee would be due in this scenario.

If at the end of the calendar year the performance fee balance is negative and the NAV High Water Mark has not been exceeded, such negative amount will be carried forward and the Management Company shall not receive the payment of a performance fee until the amount of the accrued performance fee is positive and the NAV High Water Mark has been exceeded, at any subsequent calendar year's end.

In the event that a Portfolio or a Share Class is liquidated or a Portfolio or Share Class becomes dormant, any outstanding performance fee accrual shall be realised and payable to the Management Company. Thereafter, when new Shareholders have invested in such a Portfolio or Share Class, the performance fee balance will be reset.

NAV High Water Mark: in respect of each Share Class, is the Net Asset Value of a Share of such Share Class as at the last Valuation Date of the last relevant calendar year in which any accrued performance fee was paid. If a performance fee has never been paid, the NAV High Water Mark is the inception price of the relevant Share Class.

As at March 31, 2018, performance fees amounted to USD 492 for the Threadneedle (Lux) – American Absolute Alpha and EUR 9 for Threadneedle (Lux) - Pan European Absolute Alpha.

*See note 1.

9 NET UNREALISED GAIN/(LOSS) ON FORWARD FOREIGN EXCHANGE CONTRACTS

^{*}The commitment on short call positions is unlimited.

13 POOLING

The SICAV may invest and manage all or any part of the assets established for two or more Portfolios ("Participating Portfolios") on a pooled basis. Any such asset pool shall be formed by transferring to it cash or other assets (subject to such assets being appropriate in respect of the investment policy of the pool concerned) from each of the Participating Portfolios.

The share of a Participating Portfolio in an asset pool shall be measured by reference to notional units of equal value in the asset pool.

As at March 31, 2018 the SICAV had no pooling of assets, however the Threadneedle (Lux) - Global Asset Allocation Portfolio for investment management purposes is split by asset class into multiple baskets solely held by itself.

14 CHANGES IN PORTFOLIO STATEMENTS COMPOSITION

Changes in the Portfolio Statements are available to Shareholders upon request and free of charge at the registered office of the SICAV.

15 DILUTION ADJUSTMENT

A Portfolio may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Portfolio at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Dilution Adjustment (as defined in the Prospectus) may be adopted to protect the interests of Shareholders of the SICAV. If on any Valuation Day, the aggregate net transactions in Shares of a Portfolio exceed a pre-determined threshold, as determined and reviewed for each Portfolio on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

A Dilution Adjustment may be applied across all Portfolios with the exception of Threadneedle (Lux) - Mondrian Investment Partners - Emerging Markets Equity and Threadneedle (Lux) - Enhanced Commodities. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Portfolio to Portfolio and will not exceed 2% of the original Net Asset Value per Share, except for Threadneedle (Lux) - STANLIB Africa Equity, for which it will not exceed 5% of the original Net Asset Value per Share. The official Net Asset Value per share as at period end, disclosed in the Statistical Information section of this report may therefore include a Dilution Adjustment, which would not be recognised in the Statement of Net Assets and in the Statement of Operations and Changes in Net Assets.

As at year end, a Dilution Adjustment had been applied to the following Portfolios as follows:

Portfolio	NAV before Dilution	Dilution Adjustment	NAV after Dilution
Threadneedle (Lux) - European Strategic Bond	83,714,363	(159,057)	83,555,306
Threadneedle (Lux) - Asian Equity Income	52,527,052	157,581	52,684,633
Threadneedle (Lux) - Greater China Equities	3,831,195	(8,812)	3,822,383
Threadneedle (Lux) - UK Equity Income	78,477,578	(86,325)	78,391,253

• •		

Transaction costs are included in the total cost of investment disclosed in the Portfolio Statements. The amount of transaction costs supported by the SICAV during the reporting year is included in the Statement of Operations and Changes in Net Assets under the heading "Net realised gain/(loss) on sales of investments" and "Change in net unrealised gain/(loss) on investments".

¹For fixed income securities, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.
²See note 1.

19 TOTAL EXPENSE RATIO (TER)

The Total Expense Ratio is calculated following the Swiss Funds & Asset Management Association (SFAMA) guideline.

The formula applied is the following:

The TER expresses the sum of all costs and commissions charged on an ongoing basis to each class of shares (Operating Expenses) taken retrospectively as a percentage of their net assets, and is calculated using the following formula:

Where a fund invests more than 10% in other collective investment schemes (target funds), the calculation includes the fund's share of the expenses of the target funds less any rebates received.

The Total Expense Ratios for the year ended March 31, 2018 are as follows:

Threadneedle (Lux) - Global Opportunities Bond	BNP Paribas Paris	USD	400,288
	Total	USD	400,288

²The current TER differs from the full year expected TER due to the small size of the class.

³Due to the use of the average calculation method, the current TER of share classes launched during the period slightly differs from the full year expected TER. Charges of those share classes do not exceed the expected TER.

⁴The current TER differs from the full year expected TER due to the fee reduction applied on February 1, 2018 (see note 5). As the fee reduction applied on 2 months only, the TER of some classes at year-end remains higher than expected.

Due to the use of the average calculation method and as a large redemption has been received on this share class, the current TER slightly differs from the full year expected TER. Including Performance Fee.

⁷Custody and sub custody fees are additionally charged to this share class.

The Threadneedle (Lux) - Mondrian Investment Partners - Emerging Markets Equity Portfolio is to close on June 28, 2018.

Global Risk Exposure (unaudited)

Global Exposure and Leverage

The UCITS global exposure is managed under a commitment approach, an absolute Value at Risk (absolute VaR) approach or a relative Value at Risk (relative VaR) approach.

The global market risk exposure information for the year ended March 31, 2018 is as follows:

Commitment approach

In order to monitor and measure the global exposure, all the portfolios which are not under in the VaR approach use the commitment approach.

The global exposure of the sub-funds is calculated based on the commitment approach in accordance with the methodology described in the ESMA's guidelines 10-788.

Using the period April 2017 - March 2018:

						,	1-year Rolling		
Sub Funds Using VaR Basis	Calculation Method*	VaR Model*	Reference Portfolio	VaR Limit (%)	Lowest Utilisation of VaR Limit	Highest Utilisation of VaR Limit	Average Utilisation of VaR Limit	Average Commitment Exposure	Average Sum of notionals

^{*}Calculation method. The VaR model is based on a 99% Confidence interval over a 1-month holding period. The covariance model uses the previous 3.5 years of weekly data and the historical method uses 2 years of daily data.

^{**}See note 1. Threadneedle (Lux) - Global Investment Grade Credit Opportunities was not fully invested at the year end.

Shareholders' Information (unaudited)

The SICAV is an investment company organised as a "Société d'Investissement à Capital Variable" in the Grand Duchy of Luxembourg under the Law of August 10, 1915, as amended, and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS") under Part I of the law of December 17, 2010, as amended.

The SICAV was incorporated on February 10, 1995 for an unlimited period. The SICAV's articles of incorporation were first published in the Mémorial, Recueil des Sociétés et Associations of the Grand Duchy of Luxembourg (the "Mémorial") on March 31, 1995. Amendments thereto of July 25, 1997, March 12, 1999, August 18, 2004, October 17, 2005, July 25, 2008, July 31, 2009, August 31, 2010, July 29, 2011, August 13, 2012, March 28, 2013 and August 12, 2013 were published in the Mémorial on October 30, 1997, April 22, 1999, September 15, 2004, November 3, 2005, September 10, 2008, October 21, 2010, August 22, 2011, September 18, 2012, April 22, 2013 and September 16, 2013 respectively.

The SICAV is registered under the Number R.C.S. Luxembourg B-50216.

The Annual General Meeting of the Shareholders of the SICAV is held at its registered office or at such other place in Luxembourg on the last Friday of the month of July in each year at 2:00 p.m. or, if any such day is not a bank business day in Luxembourg, on the next following bank business day. Notices of general meetings are given in accordance with Luxembourg law and in accordance with applicable rules in relevant countries where shares are publicly offered for sale. Notices will specify the place and time of the meeting, the conditions of admission, the agenda, the quorum and voting requirements.

The accounting year of the SICAV ends on March 31 in each year.

The annual report and audited financial statements and the unaudited semi-annual report are available at the registered office of the SICAV and at the principal office of each paying agent and distributor. The aggregated accounts of the SICAV are expressed in U.S. Dollars.

The Net Asset Value and the offer and redemption prices of the shares of the SICAV are made public at the registered office of the SICAV.

This report does not constitute an offer or a solicitation of an offer to buy shares in the SICAV. Subscriptions are accepted on the basis of the Prospectus and of the latest available annual report containing the audited financial statements as at March 31 and of the latest available semi-annual report as at September 30, if published thereafter.

Certain Portfolios and/or share classes contained within this report may not be authorised or offered for sale in every jurisdiction at this time.

Key Investor Information Document ("KIID") - Subscription requirements

The KIID is a pre-contractual document and investors will have to confirm that they have read the latest KIID before making a subscription. The Management Company has the right to reject a subscription if the investor does not confirm that he has read the latest KIID at the time of application. The latest KIID may be obtained from www.columbiathreadneedle.com.

Remuneration Disclosure

This disclosure is made in respect of the remuneration policy of Threadneedle Asset Management Sárl ("TAM Sárl" or "the Group"), as it applies to Manager ("the Manager") in respect of the Undertakings for Collective Investment in Transferable Securities ("UCITS") Directive and other applicable rules and guidance. The Remuneration Policy applies to all its subsidiary entities to which the UCITS Directives requirements apply, and was last approved by the Remuneration Committee in June 2017. The remuneration requirements under the UCITS Directive were applied from the start of the performance year on January 1, 2017.

1. The Remuneration Committee

The Remuneration Committee of TAM Sárl is a sub-committee of the TAM Sárl Board with the responsibility to establish the philosophy and objectives that will govern the Group's compensation and benefit programmes; review and approve compensation and benefit plans, policies, and practices; and oversee and approve the Group's remuneration. It has been determined to be independent of the day-to-day executive management of the Group, its Members being Directors of the Group who are nominated by Ameriprise Financial, and the Group's parent company.

Current Committee Members are Mr Walter Berman, and Mr Ted Truscott. Meetings are normally held in January, March, June, September and December. The Global Head, Reward acts as Secretary to the Committee. The Committee may invite the attendance of any Group employee or functional expert from the parent company as deemed appropriate, to allow it to fulfil its responsibilities including ensuring remuneration is consistent with effective risk management and does not encourage excessive risk taking.

2. Determining Incentive Remuneration Pools

The Manager made its annual Total Incentive Award decisions from separate pools covering the Property business, Distribution unit, Investments business and Support functions, ultimately aggregated for governance and oversight at the EMEA regional level. Those pools are determined at the final discretion of the Remuneration Committee with reference to four un-weighted factors being a 'Top-Down' assessment of market practice, legal and regulatory requirements

Shareholders' Information (unaudited)

(continued)

and any other internal or external contextual factors; a 'Bottom-Up' calculation based on business performance against Plan and Target Incentive level for the firm (see 'Pay for Performance' below); the overall financial and strategic performance of the Group; and the financial and strategic performance of Ameriprise Financial as the Group's parent company and shareholder. The Committee also receives ongoing reports through the year from the Risk function regarding risk assessments and any themes or areas of note related to risk control or risk-related behavioural concerns.

The Committee takes all of these factors into account in order to make a balanced decision on the Total Incentive pool for the year in question.

3. Determining Individual Total Incentive Awards

Individual reward decisions are wholly discretionary, although strongly informed by the annual performance appraisal and by known market remuneration levels for equivalent jobs as well as by the pool funding available. Risk and Compliance provide a critical input to final performance rating setting, ensuring that any risk and relevant behavioural concerns are reflected in performance appraisals and subsequently in remuneration recommendations. The leads in Risk and Compliance also report directly to the Remuneration Committee of the award process to ensure that the Committee receives a direct report on which to base its final risk adjustment decisions.

Base salaries are maintained at a market-competitive level in order to ensure that, if required, it is possible to award zero incentive.

Pay for Performance

The bottom-up element of the incentive pool determination process measures team and wider business performance against key business targets for each area of the Group, including longer-term investment performance for the Investments and Property divisions and a mix of gross and net sales for Distribution. Investment performance is assessed against each fund's benchmarks and its risk profile. All such assessments' impacts on the bottom-up calculation are capped so as not to incentivise managers to take excessive risk in order to deliver higher incentive pools. While the Group and parent company financial and strategic results are important factors in pool determination, the model is set up to ensure that delivery of the business' core goals, including delivering investment performance to its customers, is an explicit and significant driver in pool determination for those divisions.

Individual discretionary awards from the available pool, in context of market-competitive reward levels for the job in question, are driven strongly by each individual's ratings against Goals (objectives) and the Group's Values, each of which is separately rated on a 5-point scale to ensure the Values assessment is given due prominence. Goals focus on the key deliverables for the role that year, in particular on the delivery of investment performance for Investments employees and for the Property division: all employees are also managed against a mandatory Risk Management Goal. Investment performance, where relevant to the role, is assessed against each fund's benchmark and its risk profile.

Ratings are consistency-checked across the business with the input of the Heads of Risk and Compliance to ensure balance and due reflection of risk management. There is no pre-determined grid or formula driving awards, which are discretionary in order to be able to account for and reflect all relevant factors.

Delivery of Total Incentives

Threadneedle believes that deferred awards for higher earners are a matter of good practice and an important part of aligning key staff's interests with the long-term interests of customers and shareholders. To that end, Total Incentive awards for all employees in the Group may be delivered partly in deferred awards through the Ameriprise Financial Long-Term Incentive Award ("LTIA") programme and, for those in the Investments division, through a fund deferral programme. Deferrals, and delivery of awards in instruments, will comply with relevant regulatory requirements in force from time to time.

Staff qualifying as Identified employees and those of a comparable level of seniority are subject to a higher rate of deferral. 50% of the overall incentive award is delivered in fund link units subject to a holding period after delivery. The fund linked units are designed to reflect the performance of a cross section of products and asset classes within the region.

4. Identified Staff

Identified employees are classified as Senior Management, individuals with a material impact on the risk profile of UCITS, individuals within control functions and other employees whose total remuneration takes them in to the same bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Manager or of the funds it manages. In practice, this will include the named Fund Managers of the Manager's funds.

5. Remuneration Payment Disclosure

The performance period for remuneration operate on a calendar year basis.

Total remuneration paid by the Management Company to 7 UCITS V Remuneration Code Staff Senior Managers in respect of its UCITS activities in the 2017-18 performance year was £0.24m, of which £0.07m was fixed and £0.17m was variable. Total remuneration paid to other members of the UCITS Remuneration Code Staff whose actions had a material impact on the risk profile of the Manager was £2.05m, of which £1.05m was fixed and £1.0m was variable.

Information for Investors in Switzerland (unaudited)

The annual report and audited financial statements, the unaudited semi-annual report, the report on changes in the Portfolio holdings for the year, the articles of incorporation, the Prospectus (Swiss version) and the KIID can be obtained upon simple request and free of charge at the offices of the Swiss Representative and paying agent of the SICAV, RBC Investor Services Bank S.A., Esch-sur-Alzette, Zurich Branch, Badenerstrasse 567, P.O. Box 1292, CH-8048 Zurich, Switzerland, or at the registered office of the SICAV.

Past performance is no indication of current or future performance, and the performance data do not take account of the commissions and costs incurred on the issue and redemption of shares.

Securities Financing Transaction Regulation (unaudited)

The Securities Financing Transaction Regulation ("SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps. A SFT is defined as per Article 3(11) of the SFTR as:

- · a repurchase/reverse repurchase agreement;
- · securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

As at March 31, 2018, the SICAV held total return swaps ("TRS") as type of instruments in scope of the SFTR.

Global data

		Unrealised gain and loss in the portfolio	
Name of Portfolio	Type of asset	base currency and in absolute value	% of Net Assets
Threadneedle (Lux) - American Absolute Alpha	TRS	2,572,190	1.16
Threadneedle (Lux) - Diversified Alternative Risk Premia	TRS	723,602	2.03
Threadneedle (Lux) - Pan European Absolute Alpha	TRS	271,229	0.60
Threadneedle (Lux) - Enhanced Commodities	TRS	5,174,137	0.94

Data on collateral reuse

There was no collateral reuse during the year ended March 31, 2018.

Concentration data

All collateral received in respect of TRS as of March 31, 2018 is cash collateral. The ten largest issuers disclosure is therefore not applicable.

The following table provides details of the top ten counterparties (based on gross volume of outstanding transactions) in respect of TRS held per Portfolio as at March 31, 2018.

Name of Portfolio	Type of asset	Counterparty	Unrealised gain and loss in the portfolio base currency and in absolute value
Threadneedle (Lux) - American Absolute Alpha	TRS	Bank of America Merrill Lynch	2,572,190
		Deutsche Bank	291,046
		Citigroup Global Markets	191,955
Threadneedle (Lux) - Diversified Alternative Risk Premia	TRS -	Goldman Sachs	111,314
Tilleadileedie (Lux) - Diversilled Alterilative Hisk Freilila	-	JPMorgan	90,210
		Morgan Stanley	34,158
		Barclays	4,919
Threadneedle (Lux) - Pan European Absolute Alpha	TRS	Goldman Sachs	271,229
		JPMorgan	1,945,237
	_	Goldman Sachs	1,156,525
Threadneedle (Lux) - Enhanced Commodities	TRS	Macquarie	1,029,739
		Credit Suisse	589,808
	_	Citigroup Global Markets	452,828

Safekeeping of collateral received

Cash collateral is received on each Portfolio's cash account at Citibank Europe plc, Luxembourg Branch.

The table below provides the term deposits amounts held by the SICAV as at March 31, 2018:

Name of Portfolio	Type of collateral	Counterparty	Currency of collateral	Amount of collateral
Threadneedle (Lux) - American Absolute Alpha	Cash	Bank of America Merrill Lynch	USD	2,600,000
		Total	USD	2,600,000
	Cash	JPMorgan	USD	190,000*
Threadneedle (Lux) - Diversified Alternative Risk Premia	Cash	Goldman Sachs	USD	170,000*
_	Cash	Deutsche Bank	USD	90,000*
		Total	USD	450,000
Threadneedle (Lux) - Pan European Absolute Alpha	Cash	Goldman Sachs	EUR	1,220,000
		Total	EUR	1,220,000

Securities Financing Transaction Regulation (unaudited)

(continued)

Aggregate transaction data

Name of Portfolio	Type of collateral	Maturity tenor (collateral)	Currency of collateral	Maturity tenor (SFT/TRS)	Country of establishment (counterparty)	Settlement and clearing	Quality of collateral
Threadneedle (Lux) - American Absolute Alpha	Cash	Open maturity	USD	3 months to 1 year	UK	Bilateral	N/A - Cash
Threadneedle (Lux) - Diversified Alternative Risk Premia	Cash	Open maturity	USD	3 months to 1 year	UK	Bilateral	N/A - Cash
Threadneedle (Lux) - Pan European Absolute Alpha	Cash	Open maturity	EUR	more than 1 year	UK	Bilateral	N/A - Cash
Threadneedle (Lux) - Enhanced	Cash	Open maturity	USD	less than 1 day	UK	Bilateral	N/A - Cash
Commodities	Security - US Treasury Bill	3 months to 1 year 1 month to 3 months	USD	less than 1 day	UK	Bilateral	F1+u (Fitch)

Safekeeping of collateral granted

Cash and security collateral paid to the counterparties is delivered to segregated accounts at the counterparty.

The amount of collateral granted for TRS as at March 31, 2018 is as follows:

Name of Portfolio	Type of collateral	Counterparty	Currency of collateral	Amount of collateral	% of collateral held at year-end by category
	Cash	Morgan Stanley	USD	110,000	0.31
Three decade (Lux) Disposition Alternative Diek Promis	Cash	Citigroup Global Markets	USD	110,000	0.31
Threadneedle (Lux) - Diversified Alternative Risk Premia	Cash	JPMorgan	USD	100,000*	0.28
	Cash	Barclays	USD	60,000	0.17
		Total	USD	380,000	1.07
	Security - US	Credit Suisse	USD	960,000	0.17
	Treasury Bill	Citigroup Global Markets	USD	946,000	0.17
Threadneedle (Lux) - Enhanced Commodities		JPMorgan	USD	3,640,000*	0.66
	Cash	Goldman Sachs	USD	2,420,000	0.44
		Macquarie	USD	2,090,000	0.38
		Total	USD	10,056,000	1.82

Return/Costs

Return and costs of TRS transactions as at March 31, 2018 are disclosed in the Statement of Operations and Changes in Net Assets of the relevant Portfolio under the headings "Interest expense on swaps", "Net realised gain/(loss) on swaps" and "Change in net unrealised gain/(loss) on swaps".

^{*}This collateral amount may be related to transactions other than TRS which are not covered by SFTR disclosure.
