Risk profile: defensive portfolio Exchange rate risk:

(decreases as the investment

Degree of risk (BAIFC scale):

defensive

The sub-fund invests primarily on the Belgian real estate market. The goal is to invest some 60% of the portfolio in the Belgian market (with a minimum of 50%). The portfolio is invested mainly in property bonds, but also in other listed securities relating to the real estate sector (such as shares in real estate companies or funds, for instance). The remainder of the portfolio is made up of property-related securities in other European countries. The sub-fund only issues capitalisation shares. Benchmark: 60% BREC, 40% Epra Europe ex UK Dividend + (until 31/12/2007: 70% BREC + 30% GPR 250 Netherlands). The manager may deviate from the benchmark within set limits.
