M&G North American Value Fund

a sub-fund of M&G Investment Funds (1)

Euro Class C – Accumulation shares ISIN no. GB00B0BHJJ14

Managed by M&G Securities Limited, which is part of the Prudential Group

Objective and investment policy

The fund aims to grow capital over five years or more by investing in the shares of North American companies that the fund manager deems to be undervalued.

Core investment: At least 80% of the fund is invested in the shares of companies based in North America.

Strategy in brief: The fund employs a 'value' strategy, that is, investing in cheap, out-of-favour companies whose share price, in the manager's view, does not reflect the underlying value of the business. Stocks are selected on the basis of their individual merits, through a combination of value-focused screening and qualitative assessment.

Performance measurement: The fund is actively managed. The S&P 500 Index is a point of reference against which the performance of the fund may be measured.

Other information

The fund manager has the freedom to decide which investments should be held in the fund.

You can buy and sell shares in the fund on any business day. Provided we receive your instructions before 12 noon, shares will be bought at that day's price.

Any income from the fund will be rolled up into the value of your investment.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund. These can be higher when investing outside Europe.

Risk and reward profile

• The above risk number is based on the rate at which the value of the fund has moved up and down in the past. It may not be a reliable indicator of the future risk profile of the fund.

- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

- The value of investments and the income from them will rise and fall. This will cause the fund price, as well as any income paid by the fund, to fall as well as rise. There is no guarantee the fund will achieve its objective, and you may not get back the amount you originally invested.
- Changes in currency exchange rates will affect the value of your investment.
- Where market conditions make it hard to sell the fund's investments at a fair price to meet customers' sale requests, we may temporarily suspend dealing in the fund's shares.
- Some transactions the fund makes, such as placing cash on deposit, require the use of other financial institutions (for example, banks). If one of these institutions defaults on their obligations or becomes insolvent, the fund may incur a loss.

A more detailed description of the risk factors that apply to the fund can be found in the fund's Prospectus.
