This fund is managed by Andbank Asset Management Luxembourg

Objectives and investment policy

- The investment objective of this compartment is to provide long-term growth investing by an active and mixed asset allocation comprised by equity and fixed income in a diversified portfolio of world-wide securities.
- The investment strategy of the compartment is to invest in a broad range of asset classes such as but not limited to: fixed income (issued by corporations and governments without rating and duration limitations), money market instruments, equities (focused in the OECD countries plus Russia), including ETFs and other UCIs and cash and cash equivalents.
- The compartment will not invest more than 10% of its assets in UCITS or other UCIs.
- The Sub-Fund is actively managed without reference to a benchmark.
- The compartment may use financial derivative instruments for both hedging and/or investment purposes. The types of derivatives may include, but are not limited to, single stock and equity index futures and options, currency futures and forwards, OTC derivatives, single stock CFDs, basket CFDs and index CFDs.
- Investors may request redemptions of units bi-monthly, in line with the relevant section of the fund's prospectus.
- The compartment may invest exclusively its net assets in cash and cash equivalents, term deposits, debt securities and money market instruments dealt in on a regulated market and whose maturity does not exceed 12 months, monetary UCITS and UCIs.
- Income generated by the compartment is reinvested and included in the value of units.
- Please note that transaction costs may have material impact on performance.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

- Historical data used may not be a reliable indication of the future risk profile of the Sub-Fund.
- This category is not guaranteed to remain unchanged and may shift over time.
- The lowest class does not mean that the investment is risk free.
- This fund was categorised in risk class 5 because, in accordance with the investment policy, the value of the investments may fluctuate somewhat sharply. Consequently, both the expected return and the potential risk of loss may be above average. This indicator represents the annual historical volatility of the compartment over a 5-year period.

The Sub-Fund is subject to the following risks:

- **Credit risk:** the fund invests in securities which are exposed to the risk that the issuer will be unable to meet its repayment obligations. The credit rating and risks associated with such securities can change over time and therefore affect the value of the investments.

- **Liquidity risk:** Securities may become less liquid during extreme market conditions and it may be difficult for unitholders to get redemption proceeds in a timely manner.
- **Counterparty risk:** Risk that the counterparty to mutually agreed contracts does not meet its obligations.
- **Operational risk:** Risk of material loss resulting from human error, technical faults, inappropriate procedures or controlling.
- **Use of derivatives:** The Sub-Fund invests in derivatives for hedging and other investment purposes, increasing or reducing exposure to underlying assets.
- **Currency risk:** Investments in securities denominated in currencies other than the Sub-Fund's Base Currency may be subject to adverse fluctuation in currency exchange rates.
- **Duplication of certain fees and expenses:** Where investments are made in other funds, this might result in duplication of certain fees and expenses for investors. Investors are also subject to potential risks associated with such funds.
- **Market risk:** The value of assets in the portfolio is typically dictated by a number of factors, including the confidence levels of the market in which they are traded.
- **Sustainability risks:** Risk of the occurrence of an environmental, social or governance event or condition that could cause an actual or a potential material negative impact on the value of the investment.
