

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

PineBridge Global Emerging Markets Focus Equity Fund (the "Sub-fund")

Unit Class A (ISIN: IE00B0JY6N72), a sub-fund of PineBridge Global Funds

Management Company: PineBridge Investments Ireland Limited ("PBIL")

Objectives and Investment Policy

The Sub-Fund aims to grow the value of your investment at a relatively high rate over the long term by investing in shares and related instruments issued by companies in global emerging markets. The Sub-Fund aims to protect your investment from the risk of a fall in the value of these shares and related instruments. The Sub-Fund will invest the majority of its assets in shares or related instruments of companies located in or exercising the predominant part of their economic activities in global emerging markets.

The Sub-Fund seeks to promote environmental and social characteristics and incorporates sustainability risk-related factors into the investment process.

The Sub-Fund is actively managed, seeking to deliver excess returns over the Sub-Fund's benchmark. The holdings may or may not be components of the benchmark and the Investment Manager has discretion to deviate entirely from the benchmark securities, weightings and risk characteristics. The degree to which the Sub-Fund resembles the composition and risk characteristics of the benchmark is not a

specifically targeted outcome and could vary over time, and the Sub-Fund's performance may be meaningfully different from the Sub-Fund's benchmark.

Distribution Policy

This Unit Class seeks to pay out stable distributions consisting of income, gains and, potentially, capital. Distributions from capital may amount to a re-payment out of your original investment. Over time this could lead to the reduction or complete exhaustion of your holdings in the Unit Class. You may elect to receive payments of or reinvest distributions from your units.

Subscription and Redemption

The Unit Class of the Sub-Fund may be redeemed on demand on any dealing day.

The price you pay or receive depends on the net asset value per unit on the dealing day when the unit is bought or sold.

Risk and Reward Profile

Lower risk Higher risk
 Potentially lower reward Potentially higher reward

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean investment is 'risk free'. This indicator is not a measure of the risk that you may lose the amount you have invested.

Why is this Sub-Fund in this Category?

The Sub-Fund is in category 6 because variations in the price of its units are typically high. The Sub-Fund invests in assets that carry higher risk and offer potentially higher rewards than other categories of assets.

Are there any other particular Risks?

Equity Investing Risks: The value of shares and securities related to shares may fall due to issuer related issues, financial market dynamics and world events including economic and political changes.

Concentration Risk: The Sub-Fund may invest in a limited number of securities compared to more diversified Sub-Funds or it may focus its investments and hold relatively large positions in, among other things, particular industries, countries, sectors, currencies or issuers. This may increase the volatility of the value of the Sub-Fund or for the sub-fund to bear losses and may also limit the liquidity of certain securities within the Sub-Fund.

Derivatives Risks: A Sub-Fund may use derivative instruments for both efficient portfolio management and for investment purposes. Derivative

transactions may be subject to significant volatility which may result in a loss greater than the principal amount invested.

Counterparty Risk: A Sub-Fund may have credit exposure (by virtue of position in swaps, repurchase agreements, FDI etc.) to its trading parties and may bear the risk of default of the counterparties.

Currency Risk – Base Currency: Securities may be denominated in currencies different from the Sub-Fund's Base currency and there is a risk that changes in exchange rates and exchange control regulations may cause the value of the assets expressed in the Base Currency to rise or fall.

Emerging Markets Risks: Emerging markets are typically smaller, less transparent, and subject to evolving, less stable political and regulatory regimes and securities from these markets may be more expensive to transact in, bear higher risk or have lower liquidity.

Counterparty Risk – Depositary: Custody services in many emerging markets remain undeveloped and there is a transaction and custody risk of dealing in emerging market investments.

Risks relating to China: Risks of investing in China arise from an uncertain taxation and political regime, restrictions on inward investment, dealing in closed currency and custody arrangements which are not to the same standard as those in developed markets and where the sub-fund invests in eligible China A-Shares via the Stock Connect, such investments are subject to risks including market, suspension and operational risks.

Liquidity Risk: The risk that the Fund may invest some of their assets in illiquid securities and other illiquid financial instruments, in respect of which they may not always be possible to execute a buy or sell order at the desired price or to liquidate the open position.

For a detailed description of risks, please refer to the prospectus.
