## UBAM - GCM Midcap US Equity Growth, a sub-fund of UBAM

**Class: IC USD (Capitalisation) LU0132666891**

This document may be representative of multiple share classes as indicated in the Practical Information section below  
UBAM is a SICAV managed by UBP Asset Management (Europe) S.A.

## Objectives and investment policy

The Fund seeks to grow your capital primarily by investing in US equities. It is an actively-managed, well-diversified portfolio of stocks with a growth bias, which means the companies issuing them are growing faster than average. For most of the securities, value is expressed in US Dollars. The Fund's value is calculated and expressed in US Dollars and does not use currency hedging for investment purposes. Depending on the share class, the currency risk may or may not be hedged. The hedged share classes include the letter "H" in their denomination.

The Fund invests in stocks that we believe will rise in value over the long term. We seek to invest in companies with the ability to generate high levels of cash. However, as an equity fund, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment. Investors in the Fund can redeem their units on any business day in Luxembourg, although we recommend a holding period of at least five years.

Any income received by the Fund is reinvested (capitalisation share class).

## Risk and reward profile

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk Category 6 reflects very high potential gain and/or loss for the portfolio. This is due to investments in equities on the American market.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

**Liquidity risk:** Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

**Counterparty risk:** As the Fund uses over-the-counter derivatives, there is a risk that the counterparty to the transactions will wholly or partially fail to honour its contractual obligations. This may result in a financial loss to the Fund.

**Currency risk:** The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

## Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	None
The percentage shown is the maximum amount that can be paid out of your investment. Your financial advisor or distributor can inform you of the associated entry and exit charges.	
Charges taken from the Fund over a year	
Ongoing charges	1.35%
Charges taken from the Fund under specific conditions	
Performance fee	None

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower.

Ongoing charges are based on the charges for the previous year, ending on 31 December 2014. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another Fund.

**For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at [www.ubp.com](http://www.ubp.com).**

## Past performance

The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund.

Fund creation date: 12 June 1991

Share class launch date: 15 April 2005

Share class currency: US Dollar.
