Sale in Austria and in Spain

Units of this fund may be sold in these countries.

The sales prospectus, the KIID, management regulations, annual and semi-annual reports as well as the portfolio movements of the investment fund mentioned in this publication are available free of charge at the sales agencies and at the registered office of the Management Company.

Features of the Fund

Focused Fund (hereinafter called the "Fund") offers investors a range of different subfunds ("umbrella structure") which invest in accordance with the investment policy described in the sales prospectus. The specific details on each subfund are defined in the sales prospectus, which will be updated on the inception of each new subfund.

The Fund is subject to Part I of the Law of 2010, as amended, and was launched as an open-ended investment fund without legally independent status in the form of a collective investment fund (*fonds commun de placement*). It was established in accordance with the Management Regulations approved on 3 June 2003 by the Board of Directors of UBS Focused Fund Management Company S.A.; they entered into force on 21 June 2003. The Management Regulations were initially published by way of a notice of deposit on 21 June 2003 in Luxembourg's "Mémorial", and most recently in the "Recueil Electronique des Sociétés et Associations" (RESA) on 6 June 2017.

The activities of UBS Focused Fund Management Company S.A. in its function as Management Company of Focused Fund ended on 14 October 2010. On 15 October 2010, UBS Fund Management (Luxembourg) S.A. assumed the function of Management Company.

The Fund's Management Regulations may be amended in observance of the provisions of the law. Any amendments shall be published in the RESA by way of a notice of deposit and in the manner described in the sales prospectus in the section entitled "Regular reports and publications". The new Management Regulations enter into force on the date they are signed by the Management Company and the Depositary. The consolidated version is deposited at the Trade and Companies Register (Registre de Commerce et des Sociétés) in Luxembourg for inspection.

The Fund has no legal personality as an investment fund. The entire assets of each subfund are the undivided property of all investors who have equal rights in proportion to the number of units which they hold. These assets are separate from the assets of the Management Company. The securities and other assets of the Fund are managed by UBS Fund Management (Luxembourg) S.A. as in-house funds in the interest and for the account of the unitholders.

The Management Regulations give the Management Company the authority to establish different subfunds for the Fund as well as different unit classes with

specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional unit class is issued.

As at 31 March 2019, the following subfunds are active:

| Focused Fund | Currency |
|-----------------------------------|----------|
| - Corporate Bond USD | USD |
| - High Grade Bond (EUR) | EUR |
| - High Grade Long Term Bond (EUR) | EUR |

The Management Company may issue several unit classes for each Subfund.

The following unit classes are currently offered:

"F"

Units in classes with "F" in their name are exclusively available to UBS AG or one of its affiliated companies. The units may only be acquired by UBS AG or one of its subsidiaries for their own account or as part of discretionary asset management mandates concluded with UBS AG or one of its subsidiaries. In the latter case, the units will be returned to the Fund at the prevailing net asset value at no charge upon termination of the mandate. The smallest tradable unit of these units is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, CAD 100, CHF 100, CZK 2,000, EUR 100, GBP 100, HKD 1,000, JPY 10,000, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.

Additional characteristics:

Currency

The unit classes may be denominated in AUD, CAD, CHF, CZK, EUR, GBP, HKD, JPY, PLN, RMB, RUB, SEK, SGD, USD, NZD or ZAR. For unit classes issued in the currency of account of the respective Subfund, the respective currency will not be included in the unit class name. The currency of account features in the name of the relevant Subfund.

"hedged"

For unit classes with "hedged" in their name and with reference currencies different to the subfund's currency of account ("unit classes in foreign currencies"), the risk of fluctuations in the value of the reference currency is hedged against the subfund's currency of account. This hedging shall be between 95% and 105% of the total

net assets of the unit class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of unit classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Management Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits.

The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the Subfund's currency of account.

"RMB hedged"

Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People's Republic of China (the "PRC"), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Units in classes with "RMB hedged" in their name are units whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

RMB convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore regulatory or governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors' investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant Subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant Subfund to make redemption payments in offshore RMB (CNH) would be subject to the Subfund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company. The risk of fluctuations is hedged as described above under "hedged".

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the reinvestment risk due to liquidation of a unit class and/or the subfund in accordance with the section "Liquidation and merger of the Fund and its subfunds or unit class" of the sales prospectus.

"acc"

For unit classes with "-acc" in their name, income is not distributed unless the Management Company decides otherwise.

"dist"

For unit classes with "-dist" in their name, income is distributed unless the Management Company decides otherwise.

"qdist"

Unit in classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("**capital**"). Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) unit classes. Investors may be taxed at a later point in time on income

and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"mdist"

Unit classes with "-mdist" in their name may make monthly distributions excluding fees and expenses. They may also make distributions out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital will result in an immediate reduction in the net asset value per unit of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -mdist) unit classes. Investors may be taxed on income and capital arising from accumulating (-acc) unit classes at a later point in time than is the case with distributing (-dist) unit classes. Investors should seek their own tax advice. The maximum issuing commission for units in classes with "-mdist" in their name is 6%.

"UKdist"

The aforementioned unit classes can be issued as those with "UKdist" in their name. In these cases, the Management Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules when the unit classes are subject to the reporting fund rules. The Management Company does not intend to make available taxable values in other countries for this unit class, as these unit classes are intended for investors whose investment in the unit class is liable to tax in the UK.

The Fund is subject to no restrictions with regard to the size of its net assets, the number of units, number of subfunds and unit classes and duration of the Fund and its subfunds.

The Fund forms an indivisible legal unit. As regards the association between unitholders, each subfund is considered to be independent of the others. The assets of a subfund are only liable for liabilities incurred by that subfund. As no division of liabilities is made between unit classes, there is a risk that, under certain conditions, currency hedging transactions for unit classes with "hedged" in their name may result in liabilities that affect the net asset value of other unit classes of the same subfund.

The acquisition of Fund units implies acceptance of the Management Regulations by the unitholder.

The Management Regulations do not provide for a general meeting of the unitholders.

The financial year of the Fund ends on the last day of September.

The issue and redemption price of units in each Subfund is made available in Luxembourg at the registered office of the Management Company and the Depositary.

Information on whether a subfund is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The issue and redemption of units of the Fund are subject to the regulations prevailing in the country concerned.

The Fund keeps all investor information confidential, unless otherwise required by statutory or regulatory provisions.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available free of charge to unitholders at the registered office of the Management Company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Focused Fund – High Grade Long Term Bond (EUR)
 Semi-Annual Report as of 31 March 2019

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the net asset value

The net asset value and the issue and redemption price per unit of any subfund or of any unit class are expressed in the currency of account of the subfund or of the unit class concerned and are calculated every business day by dividing the overall net assets of the subfund, assigned to each unit class, by the number of units in circulation in the respective unit class of this subfund. However, the net asset value of a unit may also be calculated on days on which no units are issued or redeemed in accordance with the preceding section. Such net asset value may be published but may only be used for performance calculations and statistics or fee calculations, but in no case as a basis for subscription and redemption orders.

A "business day" is a normal bank business day in Luxembourg (i.e. a day when the banks are open during normal business hours), except for 24 and 31 December, individual, non-statutory days of rest in Luxembourg and days on which stock exchanges in the main countries in which the subfund invests are closed, or on which 50% or more of the investments of the subfund cannot be adequately valued.

The percentage of the net asset value attributable to each unit class of a subfund changes each time units are issued or redeemed. It is determined by the ratio of the units in circulation in each unit class to the total number of subfund issued units, taking into account the fees charged to that unit class.

If the total subscriptions or redemptions of all the unit classes of a subfund on a single trading day come to a net capital inflow or outflow, the respective subfund's net asset value may be increased or reduced accordingly (so-called single swing pricing). The maximum adjustment amounts to 2% of the net asset value. Estimated transaction costs and tax charges that may be incurred by the subfund as well as the estimated bid/offer spread of the assets in which the Fund invests may be taken into account. The adjustment leads to an increase in net asset value if the net movements result in a rise in all units of the affected subfund. It results in a reduction of net asset value if the net movements bring about a fall in the number of units. The Board of Directors can set a threshold

value for each subfund. This may consist in the net movement on a trading day in relation to the net fund assets or to an absolute amount in the currency of the subfund concerned. The net asset value would be adjusted only if this threshold were to be passed on a trading day.

This adjustment is in favour of the subfund and mentioned in the Statement of Operations as "Other income".

For Subfunds that, in accordance with their investment policy, predominantly invest in money market instruments, the net assets shall be adjusted to the date customarily specified as the value date of payment of the issue or redemption price.

b) Valuation principles

- Liquid funds – whether in the form of cash, bank deposits, bills of exchange and sight securities and receivables, prepaid expenses, cash dividends and declared or accrued interest that has not yet been received – are valued at their full value unless it is unlikely that this value will be fully paid or received, in which case their value is determined by taking into consideration a deduction that seems appropriate in order to portray their true value.
- Securities, derivatives and other investments listed on a stock exchange are valued at the last-known market prices. If these securities, derivatives or other investments are listed on several stock exchanges, the latest available price on the stock exchange that represents the major market for that security will apply.
In the case of securities, derivatives and other investments infrequently traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Management Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange but which are traded on another regulated market which operates regularly and is recognised and open to the public are valued at the latest available price on this market.
- Securities and other investments that are not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Management Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- Derivatives not listed at a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valua-

ation obtained will be verified by means of calculation methods recognised by the Management Company based on the market value of the underlying instrument from which the derivative originates.

- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCIs) are valued at their last-known net asset value.
- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. The valuation based on the curves refers to the interest rate and credit spread components. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying borrower. This credit spread is adjusted if there is a significant change in the credit rating of the borrower.
- Securities, money-market instruments, derivatives and other investments denominated in a currency other than the reference currency of the relevant subfund and not hedged by foreign-exchange transactions, are valued at the middle-market rate of exchange (midway between the bid and offer rate) known in Luxembourg or, if not available, on the most representative market for this currency.
- Fixed-term deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations (based on models and market data made available from Bloomberg), and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the applicable UBS valuation policy.

The Management Company is authorised to apply other generally recognised and verifiable valuation criteria in good faith in order to achieve an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the aforementioned regulations proves to be unfeasible or inaccurate.

These valuation criteria are determined by the Board of Directors with prudence, on the basis of market quotations resulting from transactions or from pricing models, as well as from any other source, which may include broker statements, considered as reliable and appropriate by the Board of Directors to reflect what is believed to be the "Fair Value" of those securities at the portfolio's valuation point.

The market value of the investments can differ from the above mentioned valuation principles with respect to the financial crisis and the impact to the liquidity of the markets.

In the case of extraordinary circumstances, additional valuations, which will affect the prices of the units to be subsequently issued or redeemed, may be carried out within one day.

c) Net realized gain (loss) on sales of securities

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

d) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

e) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

f) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

g) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction dates.

h) "Mortgage-Backed-Securities"

The Fund, in accordance with its investment policies, may invest in mortgage-backed securities. A mortgage-backed security is a participation in a pool of residential mortgages which is consolidated into the form of securities. The principal and interest payments on the underlying mortgages are passed through to the holders of the mortgage-backed security of which the principle reduces the cost basis of the security. The payment of principal and interest may be guaranteed by quasigovernmental agencies of the United States. A gain or loss is calculated on each paydown associated with each payment of principal.

This gain or loss has been included in "Net realized gain or loss on sales of securities without options" in the statement of operations. In addition, prepayments of the

underlying mortgages may shorten the life of the security, thereby affecting the Fund's expected yield.

For "Mortgage-backed securities", if the factor to be applied to the nominal of the security is greater than one at the valuation date, then the nominal shown in the financial statements is adjusted to reflect this factor. In the other cases the nominal shown reflects the effect of a factor equal to one.

i) Consolidated financial statements

The consolidated financial statements of the fund are established in EUR. The various items of the consolidated statement of net assets and the consolidated statement of operations as at 31 March 2019 of the fund are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the closing exchange rates.

The following exchange rates were used for the conversion of the consolidated financial statements as of 31 March 2019:

| Exchange rates | |
|----------------|----------|
| EUR 1 = CHF | 1.118246 |
| EUR 1 = USD | 1.122850 |

j) Receivable on securities sales, Payable on securities purchases

The account "Receivable on securities sales" can also include receivables from foreign currency, Derivative Instrument and Forward Rate Agreements transactions. The account "Payable on securities purchases" can also include payables from foreign currency, Derivative Instrument and Forward Rate Agreements transactions.

k) Swaps

The Fund may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

The value of swap transactions is calculated by an external service provider and a second independent valuation is made available by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations based on models and market data available from Bloomberg and/or broker statement valuations may be used.

The valuation methods depend on the respective security and are determined pursuant to the UBS Valuation Policy. This valuation method is approved by the Board of Directors.

Changes in unrealized profits and losses are reflected in the statement of operations under "Unrealized appreciation (depreciation) on swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations. The Management Company is authorised to apply other generally recognised and auditable valuation criteria in good faith in order to achieve an appropriate valuation of the net asset value if, due to extraordinary circumstances, a determined in accordance with the aforementioned regulations proves to be unfeasible or inaccurate.

I) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

Note 2 – Flat fee

The Fund pays a monthly flat fee for each of the subfunds and share classes, calculated on the average net asset value of the subfunds and share classes.

| Focused Fund | Maximum Flat fee p.a. | Maximum flat fee for unit classes with "hedged" p.a. in their name | Effective Flat fee |
|--------------------------------------------|--------------------------|--------------------------------------------------------------------------------|-----------------------|
| - Corporate Bond USD F-acc | 2.00% | | 0.19% |
| - Corporate Bond USD (CHF hedged) F-acc | | 2.03% | 0.19% |
| - Corporate Bond USD (EUR hedged) F-acc | | 2.03% | 0.19% |
| - Corporate Bond USD (SGD hedged) F-acc | | 2.03% | 0.19% |
| - High Grade Bond (EUR) F-acc | 2.00% | | 0.14% |
| - High Grade Long Term Bond (EUR) F-acc | 2.00% | | 0.14% |

The aforementioned flat fee shall be used as follows:

1. For the management, administration, portfolio management and distribution of the Fund (if applicable), as well as for all the tasks of the Depositary, such as the safekeeping and supervision of the Fund's assets, the handling of payment transactions and all other tasks listed in the section entitled "Depositary and Main Paying Agent" of the sales prospectus, a maximum flat fee based on the net asset value of the Fund. This fee is charged to the Fund's assets on a pro rata basis upon every calculation of the net asset value and is paid on a monthly basis (maximum flat fee). The maximum flat fee for unit classes with "hedged" in their name may contain fees for hedging currency risk. The relevant maximum flat fee will not be charged until the corresponding unit classes have been launched. An overview of the maximum flat fees can be seen in the section entitled "The subfunds and their special investment policies" of the sales prospectus.

2. The maximum flat fee does not include the following fees and additional expenses, which are also charged to the Fund:
- all additional expenses related to management of the Fund's assets for the sale and purchase of assets (bid/offer spread, brokerage fees in line with the market, commissions, fees, etc.). These expenses are generally calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the single swing pricing principle pursuant to the section entitled "Net asset value, issue, redemption and conversion price" of the sales prospectus;
 - fees of the supervisory authority for the establishment, modification, liquidation and merger of the Fund, as well as all fees of the supervisory authorities and any stock exchanges on which the subfunds are listed;
 - auditor's fees for the annual audit and certification in connection with the establishment, modification, liquidation and merger of the Fund, as well as any other fees paid to the auditor for the services it provides in relation to the administration of the Fund and as permissible by law;
 - fees for legal and tax advisers, as well as notaries, in connection with the establishment, registration in distribution countries, modification, liquidation and merger of the Fund, as well as for the general safeguarding of the interests of the Fund and its investors, insofar as this is not expressly prohibited by law;
 - costs for the publication of the Fund's net asset value and all costs for notices to investors, including translation costs;
 - costs for the Fund's legal documents (prospectuses, KIID, annual and semi-annual reports, as well as all other documents legally required in the countries of domiciliation and distribution);
 - costs for the Fund's registration with any foreign supervisory authorities, if applicable, including fees, translation costs and fees for the foreign representative or paying agent;
 - expenses incurred through use of voting or creditors' rights by the Fund, including fees for external advisers;
 - costs and fees related to any intellectual property registered in the Fund's name or usufructuary rights of the Fund;
 - all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary for protecting the interests of the investors;
 - if the Management Company participates in class-action suits in the interests of investors, it may charge the Fund's assets for the expenses arising in connection with third parties (e.g. legal and Depositary costs). Furthermore, the Management

Company may charge for all administrative costs, provided these are verifiable and disclosed, and taken into account in the disclosure of the Fund's total expense ratio (TER).

3. The Management Company may pay retrocessions in order to cover the distribution activities of the Fund.

Out of the management commission sales fees are paid to distributors and asset managers of the Company.

All taxes levied on the income and assets of the Fund, particularly the *taxe d'abonnement*, will also be borne by the Fund.

For purposes of general comparability with fee rules of different fund providers that do not have a flat fee, the term "maximum management fee" is set at 80% of the flat fee.

All costs which can be allocated to individual subfunds will be charged to these subfunds. Costs which can be allocated to unit classes will be charged to these unit classes.

If costs pertain to several or all subfunds/unit classes, however, these costs will be charged to the subfunds/unit classes concerned in proportion to their relative net asset values.

In the subfunds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund as well as at the level of the relevant target fund. The upper limit for management fees of target funds in which the assets of the subfunds are invested amounts to a maximum of 3%, taking into account any trail fees.

In the case of investments in units of funds managed directly or indirectly by the Management Company itself or another company related to it by common management or control, or by a substantial direct or indirect holding, the subfunds making the investment may not be charged with any of the target fund's issue commissions.

Details on the ongoing charges of the Company can be found in the KIID.

Note 3 – Taxe d'abonnement

The Fund is subject to Luxembourg legislation. In accordance with current legislation in the Grand Duchy of Luxembourg, the Fund is not subject to any Luxembourg withholding, income, capital-gains or wealth taxes. However, each subfund is subject to the Grand Duchy of Luxembourg's "taxe d'abonnement" at a reduced rate of 0.01% p.a. on total net assets, which is payable at the end of every quarter. This tax is calculated on the total net assets of each subfund at the end of every quarter.

The taxe d'abonnement is waived for that part of the net assets invested in units or shares of other undertakings for collective investment that have already paid the taxe d'abonnement in accordance with the statutory provisions of Luxembourg law.

Note 4 – Income distribution

In accordance with Article 10 of the Management Regulations, once the annual accounts are closed the Management Company will decide whether and to what extent distributions are to be paid out by each subfund. The payment of distributions must not result in the net assets of the fund falling below the minimum amount for fund assets laid down. If distributions are made, payment will be effected within four months of the end of the financial year.

The Management Company is authorized to pay interim dividends and to suspend the payment of distributions.

In principle, no distributions are planned.

Note 5 – Commitments on Financial Futures and Swaps

Commitments on Financial Futures and Swaps per subfund and respective currency as of 31 March 2019 can be summarised as follows:

a) Financial Futures

| Focused Fund | Financial Futures on bonds (bought) | Financial Futures on bonds (sold) |
|-------------------------|-------------------------------------------|-----------------------------------------|
| - Corporate Bond USD | 471 703 125.00 USD | - USD |
| - High Grade Bond (EUR) | - EUR | 266 280.00 EUR |

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts*notional contract size*market price of the futures).

b) Swaps

| Focused Fund | Credit Default Swaps (bought) | Credit Default Swaps (sold) |
|----------------------|-------------------------------------|-----------------------------------|
| - Corporate Bond USD | - USD | 30 391 014.00 USD |

Note 6 – Total Expense Ratio (TER)

This ratio was calculated in accordance with the Swiss Funds & Asset Management Association (SFAMA) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

TER for the last 12 months:

| Focused Fund | Total Expense Ratio (TER) |
|-----------------------------------------|---------------------------|
| - Corporate Bond USD F-acc | 0.20% |
| - Corporate Bond USD (CHF hedged) F-acc | 0.20% |
| - Corporate Bond USD (EUR hedged) F-acc | 0.20% |
| - Corporate Bond USD (SGD hedged) F-acc | 0.20% |
| - High Grade Bond (EUR) F-acc | 0.18% |
| - High Grade Long Term Bond (EUR) F-acc | 0.22% |

The TER for classes of units which were active less than a 12 month period are annualised.

Transaction costs and any other costs incurred in connection with currency hedging are not included in the TER.

Note 7 – Soft commission arrangements

During the period from 1 October 2018 until 31 March 2019, no "soft commission arrangements" were entered into on behalf of Focused Fund and "soft commissions" amount to nil.

Note 8 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the unitholders, the Management Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Management Company and/or the Depositary can elect to make themselves and the fund subject to the jurisdiction of the countries in which the fund units were bought and sold.

The German version of these financial statements is the authoritative version. However, in the case of units sold to investors from the other countries in which fund units can be bought and sold, the Management Company and the Depositary Bank may recognize approved translations i.e. approved by the Management Company and the Depositary Bank) into the languages concerned as binding upon themselves and the fund.

Note 9 – Securities Lending

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as Securities Lending Agent.

| Focused Fund | Counterparty Exposure from Securities Lending as of 31 March 2019 | | Collateral Breakdown (Weight in %) as of 31 March 2019 | | |
|-----------------------------------|----------------------------------------------------------------------|------------------------------------|-----------------------------------------------------------|-------|------|
| | Market value of securities lent | Collateral (UBS Switzerland AG) | Equities | Bonds | Cash |
| - Corporate Bond USD | 38 598 471.85 USD | 40 588 758.91 USD | 31.46 | 68.54 | 0.00 |
| - High Grade Bond (EUR) | 21 058 391.46 EUR | 22 144 243.87 EUR | 31.46 | 68.54 | 0.00 |
| - High Grade Long Term Bond (EUR) | 7 528 072.38 EUR | 7 916 249.02 EUR | 31.46 | 68.54 | 0.00 |

Appendix

2) Securities Financing Transaction Regulation (SFTR)

The Fund engages in Securities Financing Transactions (hereafter "SFT") (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

Global Data

The following table details the value of securities lending as a proportion of the subfund's Net Assets Value as well as a proportion of the total lendable securities, as at 31 March 2019.

| Focused Fund | Securities lent in % of Net Assets | Securities lent in % of Total Lendable Securities |
|-----------------------------------|------------------------------------|---------------------------------------------------|
| - Corporate Bond USD | 1.12% | 1.17% |
| - High Grade Bond (EUR) | 48.14% | 48.67% |
| - High Grade Long Term Bond (EUR) | 44.47% | 44.89% |

The total amount (absolute value) of the securities lent is disclosed in Note 9 – Securities Lending.

Data on collateral reused

Amount of collateral reused, compared with the maximum amount disclosed to investors: None

Cash collateral reinvestment income to the Fund: None
