## Estructura del Fondo

El Fondo es una sociedad de inversión de capital variable organizada como una “Société Anonyme”, de conformidad con las leyes del Gran Ducado de Luxemburgo. El Consejo ha designado a JPMorgan Asset Management (Europe) S.à r.l. (JPAMM) como Sociedad Gestora del Fondo. El Fondo está organizado como un fondo “paraguas”, con una serie de subfondos, cada uno de los cuales tiene su propio objetivo, políticas y restricciones de inversión.

El objetivo del Fondo es colocar el dinero del que dispone en valores mobiliarios y otros activos autorizados de cualquier tipo, de conformidad con el Folleto del Fondo, con el fin de diversificar los riesgos de inversión y conceder a los accionistas los resultados de la gestión de sus carteras.

El Fondo se clasifica como un Organismo de Inversión Colectiva en Valores Mobiliarios (OICVM) en virtud de la Directiva 2009/65/CE del 13 de julio de 2009, y está sujeto a la Ley de Luxemburgo del 17 de diciembre de 2010 relativa a los organismos de inversión colectiva. Por tanto, el Fondo puede ofrecerse para la venta en Estados miembros de la Unión Europea, con sujeción a una notificación en los países de dicha zona, salvo en el Gran Ducado de Luxemburgo. También se pueden presentar solicitudes en otros países para inscribir el Fondo y sus Subfondos.

Al cierre del ejercicio, el Fondo tenía 133 Subfondos. Todos los Subfondos y Clases de Acciones están inscritos para su oferta y distribución en el Gran Ducado de Luxemburgo, y una serie de Subfondos y Clases de Acciones están inscritos para su distribución en las siguientes jurisdicciones:

Austria, Bahréin, Bélgica, Chile, Chipre, Dinamarca, Estonia, Finlandia, Francia, Alemania, Grecia, Hong Kong, Hungría, Irlanda, Italia, Jersey, Corea, Macao, los Países Bajos, Noruega, Perú, Polonia, Portugal, Singapur, España, Suecia, Suiza, Taiwán y el Reino Unido.

## Función y responsabilidad del Consejo

La responsabilidad del Consejo se rige, de forma exclusiva, por la legislación de Luxemburgo. En lo que respecta a las cuentas anuales del Fondo, las obligaciones de los Administradores se rigen por la ley del 10 de diciembre de 2010 relativa, entre otras cosas, a la contabilidad y las cuentas anuales de los organismos de inversión colectiva, y por la ley del 17 de diciembre de 2010 relativa a los organismos de inversión colectiva.

En el contrato de gestión suscrito entre el Fondo y JPMorgan Asset Management (Europe) S.à r.l., se establecen los asuntos respecto de los cuales la Sociedad Gestora está autorizada a actuar, en virtud del Capítulo 15 de la ley del 17 de diciembre de 2010. Tales asuntos incluyen la gestión de los activos del Fondo y la prestación de servicios de administración, registro, agente de domiciliaciones y comercialización. Todos los demás asuntos se reservan para su autorización por parte del Consejo y, a fin de asegurar la claridad, el Consejo y la Sociedad Gestora han establecido un anexo en el que se describen dichos asuntos. Los asuntos que se reservan al Consejo incluyen la determinación del objetivo y de las políticas de inversión de cada Subfondo, restricciones y facultades de inversión, enmiendas a los Folletos, revisión y autorización de datos financieros e inversiones clave, incluidas las cuentas anuales, así como el nombramiento de la Sociedad Gestora, el Auditor y el depositario, y la revisión de los servicios prestados por los mismos.

Con anterioridad a cada reunión del Consejo, los Administradores reciben información en tiempo y forma oportunos, que les permite preparar los temas que se tratarán durante la reunión. Para cada reunión trimestral, el Consejo solicita, y recibe, informes de, entre otros, la Sociedad Gestora, los gestores de inversiones, los encargados de la gestión de riesgos, además de propuestas de cambios a los Subfondos existentes, o propuestas sobre el lanzamiento de nuevos Subfondos, según sea conveniente. Se invita a representantes con cargos directivos de cada una de estas funciones a que asistan a las reuniones del Consejo, a fin de permitir que los Administradores cuestionen los informes presentados ante el Consejo.

Los Administradores toman decisiones teniendo en cuenta los intereses del Fondo y de sus accionistas, como un todo, y se abstienen de participar en deliberaciones o decisiones que creen conflictos de intereses entre sus intereses personales y los intereses del Fondo y de sus accionistas. En el Folleto se documenta el tema de los conflictos de intereses, y la política de la Sociedad Gestora sobre los conflictos de intereses puede consultarse en este sitio web:

[http://www.jpmorganassetmanagement.lu/ENG/Document\\_Library](http://www.jpmorganassetmanagement.lu/ENG/Document_Library)

El Consejo puede obtener asesoramiento profesional independiente, de ser necesario, y el Fondo correrá con los costes correspondientes.

### *Composición del Consejo*

El Consejo está presidido por el Sr. Saunders, y se compone de cuatro Administradores Independientes y de dos Administradores No Independientes. El Consejo define a un Administrador No Independiente como alguien que está empleado por JPMorgan Chase & Co o por cualquiera de sus filiales. Se exige que, en todas las reuniones del Consejo, haya una mayoría de Administradores Independientes presentes y, en este sentido, el Consejo actúa de forma independiente respecto de la Sociedad Gestora. El Consejo, considerado en su totalidad, cuenta con una amplia gama de conocimiento en materia de inversiones, así como con experiencia y capacidad financiera, legal y de otro tipo, que resulta pertinente para las actividades del Fondo. Los accionistas eligen a los Administradores cada año en la Junta General Anual. El Consejo no limita el número de años que los Administradores pueden permanecer en funciones, y tiene en cuenta la naturaleza y los requisitos del sector de los fondos y de las actividades del Fondo cuando realiza las recomendaciones a los accionistas para la reelección de los Administradores. Las condiciones del nombramiento de cada uno de los Administradores se recogen en un contrato de servicios, y los mismos están disponibles para consulta en el domicilio social del Fondo.

### *Remuneración del Consejo*

El Consejo considera que la remuneración de los integrantes del Consejo debe reflejar las responsabilidades del Consejo y la experiencia del Consejo como un todo, y que debe ser justa y adecuada, teniendo en cuenta la envergadura, la complejidad y los objetivos de inversión del Fondo y de los Subfondos.

La remuneración se revisa anualmente, y en 2013 se incrementó un 2%. Actualmente, el Presidente gana 38.320 EUR anuales, y los demás Administradores 35.323,71 EUR anuales, sin contar a los Administradores No Independientes, que han aceptado renunciar a su remuneración.

### *Cambios en la composición del Consejo*

El 31 de diciembre de 2012, Robert van der Meer dimitió del Consejo. El Consejo desea aprovechar esta oportunidad para dejar constancia de su agradecimiento por su trabajo.

### *Reuniones del Consejo y de las Comisiones*

El Consejo se reúne trimestralmente, pero, de ser necesario, es posible organizar reuniones adicionales.

Teniendo en consideración la naturaleza y el alcance de las actividades del Fondo, actualmente, el Consejo no considera necesario contar con una Comisión de Remuneración o Auditoría formal, ni, de hecho, con ninguna otra comisión permanente. Sin embargo, se continuará estudiando este asunto.

Por consiguiente, todos los temas relacionados con el Consejo, actualmente, son autorizados por el Consejo o, en caso de que se trate de asuntos específicos que requieran mayor consideración, se podría crear una Subcomisión del Consejo para ese asunto específico. Estas circunstancias pueden consistir en situaciones en que el Consejo solicite ciertas enmiendas al Folleto y en las que no sea adecuado esperar hasta la siguiente reunión trimestral del Consejo para su aprobación. Tales reuniones de las Subcomisiones contarán, en general, con un mínimo de dos Administradores.

Durante el ejercicio, se celebraron cinco reuniones del Consejo, cuatro de las cuales fueron reuniones trimestrales del Consejo en las que, entre otros asuntos, los puntos del orden del día incluyeron los temas resaltados en la sección precedente denominados "Función y responsabilidad del Consejo". La quinta fue una reunión adicional del Consejo a fin de evaluar y aprobar el informe y las cuentas anuales. Durante el ejercicio, se celebró una reunión de una Subcomisión del Consejo.

Además de la reunión del Consejo en la que los Auditores presenta nel informe sobre la auditoría de las cuentas del Fondo, los Administradores Independientes también se reúnen con ellos anualmente, sin la presencia de los Administradores No Independientes.

#### *Control Interno*

La Sociedad Gestora presta los servicios de gestión de inversiones y todos los servicios administrativos, mientras que J.P. Morgan Bank Luxembourg S.A. está a cargo de la custodia de los activos. El sistema de control interno del Consejo, por tanto, comprende principalmente la supervisión de los servicios prestados por la Sociedad Gestora y el Depositario, incluidos los controles operativos y de la conformidad por ellos establecidos a fin de cumplir con las obligaciones del Fondo ante los accionistas, tal y como se establece en el Folleto, los Estatutos Sociales, y en toda la normativa pertinente. Cada trimestre, la Sociedad Gestora presenta su informe formal ante el Consejo sobre las varias actividades de las que es responsable, y además, informará al Consejo sin dilación sobre cualesquier asuntos relevantes de carácter administrativo o contable.

#### *Gobierno Corporativo y Código de Conducta de ALFI*

El Consejo debe asegurarse de que se actúe con un alto nivel de responsabilidad en lo que respecta al gobierno corporativo, y considera que el Fondo ha cumplido con las mejores prácticas del sector de fondos de Luxemburgo.

En particular, el Consejo ha adoptado el Código de Conducta de ALFI (el "Código"), en el que se recogen los principios de un buen gobierno. Estos principios fueron enmendados en agosto de 2013 y se transcriben a continuación:

1. El Consejo debe asegurarse de que se cumplan las normas más estrictas de gobierno corporativo en todo momento;
2. El Consejo debe estar compuesto por personas de buena reputación profesional y de adecuada experiencia, y debe esforzarse en la máxima medida posible para asegurarse de que es competente, en su totalidad, para cumplir con sus responsabilidades;
3. El Consejo debe actuar de forma justa e independiente, y siempre debe tener como principio rector los intereses de los inversores;
4. El Consejo debe actuar con la debida diligencia en el desempeño de sus obligaciones;
5. El Consejo debe asegurarse de que se cumple con todas las leyes y normas aplicables, así como con los documentos de constitución del Fondo;
6. El Consejo debe asegurarse de que los inversores estén adecuadamente informados, de que se los trate de forma justa y equitativa, y de que reciban los beneficios y los servicios que tiene derecho a recibir;
7. El Consejo debe asegurarse de que se cuente con un proceso de gestión de riesgos efectivo y de que se pongan en práctica los controles internos adecuados;
8. El Consejo debe identificar y gestionar de forma justa y eficaz, y de la mejor forma en la medida de sus posibilidades, cualquier conflicto de intereses real, posible o aparente, y se asegurará de que sea divulgado debidamente;
9. El Consejo debe asegurarse de que los derechos de los accionistas se ejerzan de forma considerada y atendiendo a los intereses del Fondo;
10. El Consejo debe asegurarse de que la remuneración de los integrantes del Consejo sea razonable y justa, y de que se divulgue adecuadamente.

El Consejo considera que el Fondo ha cumplido con los principios del Código en todos los aspectos fundamentales a lo largo del ejercicio financiero cerrado el 30 de junio de 2013. El Consejo realiza una revisión anual para garantizar que se cumpla con los principios establecidos en el Código en todo momento.

#### *Política relativa al voto por poder*

El Consejo delega la responsabilidad relativa al voto por poder en la Sociedad Gestora.

La Sociedad Gestora gestiona los derechos de voto de las acciones que se le encomendaron de forma prudente y diligente, basándose exclusivamente en un criterio razonable de qué sería lo más adecuado para los intereses financieros de los clientes. En la medida de lo posible, la Sociedad Gestora votará en todas las reuniones convocadas por empresas en las que se invierte.

Una copia de la política de voto por poder se puede consultar en el domicilio social del Fondo, previa solicitud, o en el sitio web que figura a continuación:

<http://am.jpmorgan.co.uk/institutional/aboutus/aboutus/corporategovernance.aspx>

#### **Seguro de indemnización para Administradores y Directivos**

En los Estatutos Sociales del Fondo, se establece una indemnización para los Administradores respecto de todas las pérdidas en las que incurran de forma razonable en relación con cualquier reclamación contra ellos que surja mientras ejerzan sus obligaciones o responsabilidades, siempre que no hayan actuado de forma deshonesta o fraudulenta. A fin de proteger a los accionistas contra cualquier reclamación como la antes descrita, el Consejo ha contratado un seguro de indemnización para los Administradores y los Directivos que establece que se indemnizará a los Administradores respecto de ciertas responsabilidades que surjan mientras ejercen sus obligaciones y responsabilidades, pero que no ofrece cobertura respecto de acciones deshonestas o fraudulentas por su parte.

#### **Auditor Independiente**

PricewaterhouseCoopers, Société Coopérative, ha sido el Auditor del Fondo desde febrero de 2006. La última vez que se convocó a una licitación para la prestación de servicios de auditoría fue en 2009. El Consejo realizó un análisis de los servicios prestados por PwC durante este ejercicio y decidió que, con sujeción a cualquier otro factor que pudiera influir, deben seguir siendo propuestos ante los Accionistas para que sean nombrados como Auditor durante los próximos tres años. Una vez concluido este periodo, el Consejo evaluará nuevamente si convocará a licitación para la prestación de servicios de auditoría.

#### **Junta General Anual**

La próxima Junta General Anual de la Sociedad se celebrará el 20 de noviembre de 2013 en el domicilio social de la Sociedad a fin de evaluar asuntos relativos al cierre del ejercicio, el 30 de junio de 2013. En esta junta y entre otros asuntos, se solicitará a los accionistas que evalúen los temas que normalmente se tratan en dichas juntas, tales como:

1. la adopción de los estados financieros y la aprobación de la distribución de los resultados;
2. la aprobación de la remuneración de los Administradores;
3. la elección de los Administradores, todos los cuales desean postularse para serelectos;
4. la elección del Auditor;

El Consejo no propone ningún asunto especial.

Las otras enmiendas significativas a los Subfondos que se describen a continuación también fueron autorizadas por el Consejo durante el ejercicio:

### *a) Cambios en las estrategias de inversión, objetivos y políticas de inversión, y de las denominaciones*

Se informó a los accionistas de una serie de Subfondos sobre la decisión del Consejo de realizar las siguientes enmiendas:

Con efectos a partir del 9 de agosto de 2012:

- JPMorgan Funds - Financials Bond Fund. Se enmendó la política de inversión a fin de reflejar el hecho de que se ha realizado una revisión de la estrategia de inversión en virtud de la cual las inversiones del Subfondo dejarán de estar limitadas principalmente a títulos de deuda con calificación de grado de inversión, y, además, el Subfondo podrá tener una exposición sustancial a títulos de deuda con una calificación inferior a la de grado de inversión y a títulos de deuda sin calificación.

Con efectos a partir del 5 de diciembre de 2012:

- JPMorgan Funds - Asia Pacific Bond Fund. Se revisó la estrategia de inversión con el objetivo de dar prioridad a las inversiones en los mercados de obligaciones de Asia, en lugar de invertir activamente en la región del Pacífico. El objetivo de inversión se logrará invirtiendo principalmente en títulos de deuda asiática denominados en la moneda local, y el Subfondo también podrá utilizar obligaciones convertibles. Como consecuencia de estos cambios, el Subfondo pasó a denominarse JPMorgan Funds - Asia Local Currency Debt Fund.

- JPMorgan Funds - Europe Convergence Equity Fund. Se modificó la estrategia de inversión a fin de ofrecer a los inversores exposición, principalmente a Turquía, a diferencia de lo que ocurría anteriormente, cuando el Subfondo invertía en empresas de países que se unieron a la Unión Europea después del 1 de enero de 2004, o que estuvieran solicitando el ingreso o que fuera probable que solicitaran el ingreso a la UE. Como resultado de esta modificación, el Subfondo pasó a denominarse JPMorgan Funds - Turkey Equity Fund y su índice de referencia pasó de ser:

- Morgan Stanley Capital International (MSCI) Custom Converging Europe 10/40 Index (Rendimiento Total Neto); a ser

- Morgan Stanley Capital International (MSCI) Turkey 10/40 Index (Rendimiento Total Neto)

- JPMorgan Funds - Global Equity Fund (USD). El Subfondo fue objeto de una reestructura y pasó de seguir una estrategia básica basada en la renta variable mundial, a utilizar una estrategia de inversión más flexible a fin de reflejar que invertirá, principalmente, en una cartera de empresas gestionadas de forma agresiva, a nivel mundial. Como resultado de esta modificación, el Subfondo pasó a denominarse JPMorgan Funds - Global Unconstrained Equity Fund y su índice de referencia pasó de ser:

- Morgan Stanley Capital International (MSCI) World Index (Rendimiento Total Neto), a ser

- Morgan Stanley Capital International (MSCI) All Country World Index (Rendimiento Total Neto)

- JPMorgan Funds - High Yield Bond Portfolio Fund I. Se modificó el objetivo y la política de inversión para aclarar que el Subfondo invertirá, principalmente, en una cartera de obligaciones con una calificación inferior a la de grado de inversión.

- JPMorgan Funds - Global Developing Trends Fund. Se modificó la política de inversión para aclarar que quedará a juicio del Gestor de Inversiones que las empresas en las que se invierte deriven una porción sustancial de sus ventas o beneficios de países considerados mercados emergentes.

Con efectos a partir del 19 de diciembre de 2012:

- JPMorgan Funds - Emerging Markets Multi-Asset Fund. Se modificó la política de inversión para dejar claro que las asignaciones a diferentes clases de acciones y mercados pueden modificarse, y que esto puede lograrse mediante el uso de posiciones largas y cortas.
- JPMorgan Funds - Euro Money Market Fund. Se modificó el objetivo de inversión para permitir una exposición a inversiones con rendimiento negativo, o cero, en condiciones de mercado adversas.

JPMorgan - JF Asia Pacific Income Fund. A efectos de facilitar la inscripción del Subfondo en la República de Corea, se realizó una aclaración sobre la política de inversión a fin de dejar constancia de que las asignaciones a diferentes clases de acciones y países pueden variar en función de las condiciones de mercado y las oportunidades.

Con efectos a partir del 14 de febrero de 2013:

- JPMorgan Funds - Asia Pacific Bond Fund. Se modificó la política de inversión a fin de dar cabida a una más amplia gama de facultades de inversión, incluido el uso de instrumentos financieros derivados, títulos de deuda corporativa de Europa y títulos de deuda con una calificación inferior a la de grado de inversión, así como títulos de deuda sin calificación.

Con efectos a partir del 28 de junio de 2013:

- JPMorgan Funds - Highbridge Asia Pacific STEEP Fund, JPMorgan Funds - Highbridge Europe STEEP Fund y JPMorgan Funds - Highbridge US STEEP Fund. Se enmendó el folleto a fin de dar flexibilidad al gestor de inversiones para que lleve a cabo el proceso de inversión mediante la inversión directa en títulos de renta variable, además de swaps de renta variable.

*b) Cambios de moneda*

La moneda de cuenta del JPMorgan Funds - Emerging Markets Local Currency Debt Fund pasó de ser el EUR a ser el USD, con efectos a partir del 2 de julio de 2012.

*c) Cambios de denominación*

A fin de eliminar la confusión causada por el término "130/30", el Consejo decidió cambiar las denominaciones de los siguientes Subfondos:

i) con efectos a partir del 1 de enero de 2013:

- JPMorgan Funds - Europe 130/30 Fund pasó a denominarse JPMorgan Funds - Europe Equity Plus Fund;
- JPMorgan Funds - Europe Select 130/30 Fund pasó a denominarse JPMorgan Funds - Europe Select Equity Plus Fund;
- JPMorgan Funds - US Select 130/30 Fund pasó a denominarse JPMorgan Funds - US Select Equity Plus Fund.

ii) con efectos a partir del 31 de mayo de 2013:

- JPMorgan Funds - US Dynamic 130/30 Fund pasó a denominarse JPMorgan Funds - US Equity Plus Fund.

## **Análisis del mercado**

El periodo de 12 meses hasta el final de junio de 2013 fue testigo del abandono paulatino de la actitud cautelosa de los inversores y de su preferencia por "activos refugio", que fueron característicos de trimestres anteriores. Esto se tradujo en fuertes ganancias para la renta variable, subiendo un 16,4 % el índice MSCI Worlden euros (con reinversión de dividendos brutos). La deuda pública se comportó peor, como refleja la caída del 4,4 % del índice JP Morgan Global Government Bond en euros durante el mismo periodo.

El apetito por el riesgo volvió a escena a medida que los inversores dejaban de preocuparse por los tres problemas principales que obstaculizaban la recuperación económica mundial: el decepcionante crecimiento económico de Estados Unidos, la crisis de la deuda pública en la eurozona y las peores perspectivas del crecimiento económico chino. La promesa del Banco Central Europeo (BCE) en julio de hacer "cuanto fuera necesario" para salvar al euro y el anuncio en septiembre de un programa de compra de bonos fueron claves en opinión de muchos, mejorando el sentimiento inversor y haciendo subir el valor de las acciones.

Aunque la crisis de la deuda de la eurozona persistía y las malas noticias se hacían sentir en forma de subidas ocasionales de los intereses de la deuda pública de los países periféricos europeos, los participantes en el mercado parecían haber asumido estas subidas periódicas. Entre los acontecimientos más destacados se encuentran el rescate del sistema bancario español a principios del periodo, seguido por la ampliación de la ayuda financiera a Chipre en marzo de 2013, además de la parálisis política de Italia provocada por la dimisión del primer ministro Mario Monti.

En Estados Unidos, la Reserva Federal (Fed) siguió actuando de salvavidas para la economía y los mercados financieros en el marco de su programa de relajación monetaria cuantitativa, aumentando el ritmo de sus compras de bonos del estado y títulos con garantía hipotecaria a razón de 85.000 millones de USD mensuales, al tiempo que dejaba los tipos de interés en mínimos históricos. El sector empresarial de Estados Unidos pareció no inmutarse por la incertidumbre sobre el gasto y los impuestos federales resultantes de las disputas políticas en torno al "precipicio fiscal" y los recortes automáticos de gasto público, que no impidieron al índice S&P 500 alcanzar máximos históricos en mayo.

Las perspectivas de la economía británica se beneficiaron de las mejoras en las condiciones de los mercados laboral e inmobiliario. El Banco de Inglaterra mantuvo su programa de compras de activos al tiempo que mantenía los tipos de interés en mínimos históricos. No obstante, Japón fue el país con mejores resultados. Tras las elecciones de diciembre, el Banco de Japón hizo público un programa de relajación monetaria de mayor envergadura, proporcionalmente, que el de Estados Unidos, provocando una subida pronunciada (pero no prolongada) de las acciones japonesas. La debilidad del yen japonés benefició a los exportadores, haciendo crecer las exportaciones netas e impulsando las ganancias del extranjero.

Los inversores tuvieron que lidiar con un entorno de tipos de interés extremadamente bajos (al igual que los intereses de la deuda pública) en todos los países desarrollados. Como consecuencia de esto, el periodo analizado se caracterizó por una búsqueda generalizada de buenos rendimientos, con los inversores optando por acciones que repartían dividendos, bonos empresariales, deuda de mercados emergentes y otros activos potencialmente más rentables. Los mejores resultados del periodo analizado vinieron de los mercados de renta fija de Estados Unidos y Europa, así como la deuda de mercados emergentes en moneda local.

La renta variable de los mercados emergentes rindió peor que la media mundial, ya que muchas empresas, especialmente exportadoras, se vieron perjudicadas por la caída de la demanda de China e India. Hacia finales del periodo analizado, los inversores miraban con inquietud creciente la evolución de la segunda mayor economía del mundo, puesto que el crecimiento económico chino del 7,7 % anualizado en el primer trimestre no alcanzó las expectativas. Podría decirse que China tiene dificultades para realizar la transición desde un modelo de crecimiento basado en la inversión hasta otro modelo de crecimiento cada vez más doméstico. No obstante, el crecimiento económico chino sigue siendo sólido considerando casi todos los indicadores, aparte de la comparación con los resultados recientes de este país.

## **Perspectivas**

Considerando la gran influencia que han tenido los bancos centrales más importantes sobre la evolución de los mercados mundiales, es probable que los inversores sigan de cerca cualquier cambio en las políticas monetarias y sus posibles consecuencias. La Fed indicó hacia finales del periodo analizado que disminuiría el ritmo de sus compras de activos, lo que fue interpretado por algunos como un cambio en su política, provocando mayor volatilidad en el mercado a corto plazo. No obstante, ofreció garantías posteriormente de que los tipos de interés se mantendrían en mínimos históricos durante bastante tiempo, mientras que las condiciones económicas no parezcan lo suficientemente sólidas para empezar a reducir las compras de activos.

De cara al futuro, esperamos que la evolución de la política de la Fed siga siendo uno de los factores más importantes, si no el más importante, para los mercados. La principal preocupación, especialmente para los mercados de renta fija, vendría provocada por una reducción del programa de relajación monetaria cuantitativa antes de lo previsto como resultado de la mejora del crecimiento y el mercado laboral estadounidenses, lo cual podría conllevar una subida acentuada de los intereses de la deuda pública. En Europa, donde aún no hay indicios de una recuperación económica sostenida, las autoridades monetarias no han dado pistas sobre un posible calendario para la retirada de estímulos. Esto debería seguir respaldando a los mercados regionales en los próximos meses.

El 12 de septiembre de 2005, JPMorgan Asset Management (Europe) S.à.r.l. fue nombrada por la SICAV para que actúe como Sociedad Gestora. La Escritura de Constitución también se modificó para que la SICAV cumpla con la normativa OICVM III. ## 2. Principios de Contabilidad más Relevantes

Los presentes estados financieros han sido preparados de acuerdo con la normativa de Luxemburgo relativa a Organismos de Inversión Colectiva.

### a) Valoración de inversiones

Los valores mobiliarios admitidos a cotización en una bolsa oficial o que se negocian en un mercado reglamentado de otro tipo se valoran según el último precio disponible vigente en la fecha de cálculo del valor del activo neto.

En el caso de los valores que cotizan o se negocian en varias bolsas o mercados, el precio aplicable será el último del que se tenga conocimiento o, si corresponde, el precio medio en la bolsa o mercado principal.

Los valores mobiliarios no admitidos a cotización en una bolsa oficial o que no se negocian en otro mercado reglamentado se valoran según el último precio del que se tenga conocimiento. En el caso de valores cuyo precio no sea conocido o no tenga carácter representativo, el valor se determina por el precio de venta que el Consejo de Administración, actuando con prudencia y buena fe, considere racionalmente previsible.

Los títulos emitidos por fondos de inversión de capital variable se valoran por su último precio o valor de activo neto del que se tenga conocimiento según los informes o datos publicados por dichos fondos o sus representantes.

Los activos líquidos y los instrumentos del mercado monetario pueden valorarse por su valor nominal más los intereses devengados, en su caso, o por su coste amortizado.

Los estados financieros han sido presentados con arreglo al valor del activo neto calculado al 30 de junio de 2013, salvo en el caso de JPMorgan Funds - Emerging Middle East Equity Fund, cuyo valor de activo neto se calculó el 27 de junio de 2013. De acuerdo con el folleto informativo, los valores del activo neto han sido calculados utilizando los últimos tipos de cambio conocidos en el momento de efectuar el cómputo.

Al gestionar los fondos cuyos precios se fijan a diario, el Consejo procura asegurar que las carteras se valoran de forma adecuada a fin de ofrecer un tratamiento equitativo a los Accionistas, y en este contexto, la Sociedad Gestora ha puesto en práctica una Comisión de Valor Razonable (CVR) para que se ocupe de cualquier problema que pudiera surgir.

El 28 de junio de 2013, el CVR determinó Ajustes del Valor Razonable para JPMorgan Funds - ASEAN Equity Fund y JPMorgan Funds - Indonesia Equity Fund del 26,22 % y 95,98 %, respectivamente, de la cartera de títulos del Subfondo, lo cual se tradujo en un Ajuste de Precios del -0,38 % y -1,40 %, respectivamente, del Valor del Activo Neto de los Subfondos. Se decidió adoptar dichos ajustes para dar cuenta de los acontecimientos de mercado que ocurrieron entre el cierre de los mercados en cuestión y el momento de valoración del Subfondo.

### b) Ajuste de fluctuación de precios

Un Subfondo puede sufrir la dilución del Valor de Activo Neto por Acción debido a la adquisición y venta de acciones por parte de los inversores a un precio que no refleje la negociación y otros costes que se deriven de valores negociados asumidos por el Gestor de Inversiones para acomodar entradas o salidas de efectivo.

Para contrarrestar este impacto y para proteger los intereses de los Accionistas del Fondo, se podrá adoptar un mecanismo de Fluctuación de precios. Si en un Día de valoración las transacciones netas totales en Acciones de un Subfondo exceden un límite predeterminado, según lo que la Sociedad Gestora haya determinado y evaluado para cada Subfondo en una base periódica, el Valor de Activo Neto por Acción se podrá ajustar al alza o a la baja para reflejar la entrada y salida neta de capital respectivamente. La Sociedad Gestora determinará las salidas y entradas netas de capital basándose en la última información disponible en el momento en que se calcule el Valor de Activo Neto por Acción. El mecanismo de Fluctuación de precios se aplicará a todos los Subfondos con la excepción de JPMorgan Funds - Global Multi Strategy Income Fund, JPMorgan Funds - Highbridge Asia Pacific STEEP Fund, JPMorgan Funds - Highbridge Diversified Commodities Fund, JPMorgan Funds - Highbridge Europe STEEP Fund, JPMorgan Funds - Highbridge US STEEP Fund y los Subfondos del mercado monetario. La cantidad del ajuste de precio lo determinará la Sociedad Gestora para reflejar operaciones y otros costes. Dicho ajuste puede variar de Subfondo a Subfondo y no superará el 2% del Valor de Activo Neto original por Acción.

Así pues, el Valor de Activo Neto por Acción oficial al cierre del ejercicio, publicado en la sección Información Estadística del presente informe, puede incluir un ajuste de Fluctuación de precios no reconocido en el Estado consolidado del activo neto ni en el Estado consolidado de operaciones y variaciones del activo neto. Al cierre del ejercicio, se aplicó un ajuste de fluctuación de precios a los siguientes subfondos: JPMorgan Funds - ASEAN Equity Fund, JPMorgan Funds - Asia Local Currency Debt Fund, JPMorgan Funds - Corporate Bond Portfolio Fund I, JPMorgan Funds - Corporate Bond Portfolio Fund II, JPMorgan Funds - Emerging Markets Corporate Bond Portfolio Fund II, JPMorgan Funds - Emerging Markets Corporate Bond Portfolio Fund III, JPMorgan Funds - Emerging Markets Diversified Equity Fund, JPMorgan Funds - Emerging Markets Dividend Fund, JPMorgan Funds - Euro Bond Portfolio Fund I, JPMorgan Funds - Euro Government Short Duration Bond Fund, JPMorgan Funds - Euroland Equity Fund, JPMorgan Funds - Europe Dynamic Small Cap Fund, JPMorgan Funds - Global Agriculture Fund, JPMorgan Funds - Global Infrastructure Trends Fund, JPMorgan Funds - Global Mining Fund, JPMorgan Funds - Global Research Enhanced Index Equity Fund, JPMorgan Funds - Global Strategic Bond Fund, JPMorgan Funds - Global Unconstrained Equity Fund, JPMorgan Funds - Greater China Fund, JPMorgan Funds - High Yield Bond Portfolio Fund I, JPMorgan Funds - High Yield Bond Portfolio Fund II, JPMorgan Funds - Japan Equity Fund, JPMorgan Funds - Japan Small Cap Fund, JPMorgan Funds - Latin America Equity Fund, JPMorgan Funds - Pacific Technology Fund, JPMorgan Funds - Sterling Bond Fund, JPMorgan Funds - Taiwan Fund, JPMorgan Funds - Turkey Equity Fund y JPMorgan Funds - UK Equity Fund.

Los valores de los activos netos de JPMorgan Funds - Corporate Bond Portfolio Fund I, JPMorgan Funds - Corporate Bond Portfolio Fund II, JPMorgan Funds - Emerging Markets Corporate Bond Portfolio Fund II, JPMorgan Funds - Emerging Markets Corporate Bond Portfolio Fund III, JPMorgan Funds - Euro Bond Portfolio Fund I, JPMorgan Funds - High Yield Bond Portfolio Fund I y JPMorgan Funds - High Yield Bond Portfolio Fund II han sido ajustados a la baja por un factor de compensación determinado por la Sociedad gestora bajo los procedimientos establecidos, sin tener en cuenta los flujos de amortización. Esto se debe a la naturaleza específica del producto y al hecho de que después de la fase de suscripción inicial no se aceptarán más suscripciones en el Fondo.

Con efectos a partir del 6 de agosto de 2012 y 14 de enero de 2013, tras el periodo de agrupación de activos, el valor del activo neto de JPMorgan Investment Funds - High Yield Bond Portfolio Fund I y JPMorgan Investment Funds - High Yield Bond Portfolio Fund II se han ajustado a la baja respectivamente conforme a un factor compensatorio determinado por la Sociedad Gestora conforme al proceso establecido por esta, sin tener en cuenta los flujos de capital de la amortización.

*c) Ganancias y pérdidas por inversiones, realizadas o no*

Las operaciones de inversión se contabilizan en la fecha de la transacción (la fecha en que se ejecutó la orden de compra o de venta). En las negociaciones relativas a otros planes de inversión colectivos, las transacciones se contabilizan cuando se recibe confirmación de la negociación por parte de los agentes de transferencia subyacentes.

Las ganancias y pérdidas realizadas por la venta de inversiones se calculan conforme a su coste medio contable. La fluctuación del tipo de cambio correspondiente existente entre la fecha de compra y la fecha de venta de las inversiones se encuentra incluida en las ganancias y pérdidas realizadas por inversiones. Las ganancias y pérdidas no realizadas por tenencia de inversiones se calculan en base al coste contable e incluyen las ganancias y pérdidas no realizadas sobre tipos de cambio asociadas.

*d) Reconocimiento de ingresos*

Los ingresos por intereses se contabilizan diariamente e incluyen la amortización de primas y la acumulación contable de descuentos, cuando corresponda. Los ingresos por intereses bancarios se reconocen por devengos. Los ingresos por dividendos se contabilizan en la fecha ex dividendo. Este ingreso se contabiliza neto de retenciones fiscales y con los ajustes pertinentes cuando sean de aplicación devoluciones fiscales.

*e) Conversión de moneda extranjera*

Los libros y registros contables de cada subfondo están denominados en la moneda de cuenta del subfondo correspondiente. Las cantidades denominadas en otras monedas se convierten a la moneda de cuenta del Fondo aplicando el método siguiente: (i) las valoraciones de inversiones y otros activos y pasivos expresados originalmente en otras divisas se convierten cada día laborable en la moneda de cuenta a los tipos de cambio vigentes en dicha fecha; y (ii) las adquisiciones y enajenaciones de inversiones extranjeras y los ingresos y gastos se convierten a la moneda de cuenta a los tipos cambiarios vigentes en la fecha en que se realice la operación pertinente.

Las ganancias o pérdidas netas, realizadas o no, por operaciones en moneda extranjera representan: (i) las ganancias y pérdidas por diferencias de cambio resultantes de la venta y tenencia de monedas extranjeras y equivalentes de efectivo en moneda extranjera; (ii) las ganancias y pérdidas producidas entre la fecha de ejecución y la de liquidación de operaciones de compraventa de títulos y de contratos de divisas a plazo; y (iii) las ganancias y pérdidas que resulten de la diferencia entre el importe contable de los intereses y dividendos y el importe efectivamente recibido.

Las ganancias y pérdidas por conversión que resulten de estas operaciones se recogen en "Ganancias/(Pérdidas) Netas Realizadas sobre Cambio de Divisas" en el Estado Consolidado de las Operaciones y Cambios en el Activo Neto.

La moneda de referencia de los estados consolidados es el USD.

Los principales tipos de cambio vigentes al 30 de junio de 2013 son los siguientes:

1 USD = 0,76745384 EUR

1 USD = 99,07500000 JPY

1 USD = 0,65728934 GBP

*f) Contratos de divisas a plazo*

Las ganancias o pérdidas no realizadas sobre contratos de divisas a plazo en curso se valoran conforme a los tipos de cambio vigentes en la fecha de valoración pertinente. Los cambios de esos importes se registran en la partida "Variación Neta en las Ganancias/(Pérdidas) no Realizadas sobre Contratos de Divisas a Plazo" del Estado Consolidado de las Operaciones y Cambios en el Activo Neto. Las ganancias o pérdidas no realizadas se registran en la partida "Ganancias/(Pérdidas) Netas no Realizadas sobre Contratos de Divisas a Plazo" del Estado Consolidado del Activo Neto.

*g) Contratos de futuros financieros sobre valores e índices bursátiles*

Los contratos de futuros financieros reglamentados se valoran al precio de liquidación cotizado en bolsa. Los depósitos de garantía iniciales se efectúan al celebrarse los contratos y pueden consistir en efectivo o valores. Durante el ejercicio en que están abiertos los contratos, los cambios en el valor de los mismos se reconocen como ganancias y pérdidas no realizadas mediante el ajuste al valor de mercado "marking-to-market" para reflejar el valor de mercado de los contratos al cierre de cada día hábil. Se efectúan o se reciben los pagos por variación del depósito de garantía en función de si se sufren pérdidas o se obtienen ganancias. La frecuencia de dichos pagos de garantía puede variar dependiendo del lugar donde se negocie el contrato. Al cierre de un contrato, la SICAV registra una ganancia o pérdida realizada igual a la diferencia existente entre los productos - o el coste - de la operación a su cierre y el coste inicial del contrato en la partida "Ganancias/(Pérdidas) Netas Realizadas sobre Contratos de Futuros Financieros" en el Estado Consolidado de las Operaciones y Cambios en el Activo Neto.

Las ganancias o pérdidas no realizadas se registran bajo la partida "Ganancias/(Pérdidas) Netas No Realizadas sobre Contratos de Futuros Financieros" en el Estado Consolidado del Activo Neto.

Las demandas de garantía diarias se registran en "Ganancias/(Pérdidas) Netas Realizadas sobre Contratos de Futuros Financieros" en el Estado Consolidado de las Operaciones y Cambios en el Activo Neto.

*h) Contratos de opciones*

La SICAV vende opciones sobre valores, futuros y divisas. Estas opciones se liquidan en efectivo y someten a la SICAV a un riesgo ilimitado de pérdidas. Sin embargo, la SICAV no está sujeta a riesgo de crédito alguno por las opciones vendidas, ya que la contraparte ya ha cumplido sus obligaciones al pagar la prima en el momento de la celebración del contrato. A 30 de junio de 2013, determinados Subfondos habían celebrado los contratos de opciones que figuran como pendientes en la Composición de la Cartera de Valores.

Las opciones adquiridas se registran como inversiones; las opciones vendidas o transmitidas se registran como pasivo. Cuando del ejercicio de una opción resulte una liquidación en efectivo, la diferencia entre la prima y el producto de la liquidación se refleja como ganancia o pérdida realizada. Cuando se adquieran o se libren valores al ejercer una opción, el coste de la adquisición o el producto de la venta se ajusta con la cantidad de la prima. Cuando se cierra una opción, la diferencia entre la prima y el coste de cerrar la posición se refleja como ganancia o pérdida realizada. Cuando una opción vence, la prima se refleja como ganancia realizada para opciones vendidas, o como pérdida realizada para opciones compradas.

En el caso de las opciones sobre futuros, cuando el gestor de inversiones se encuentre en el Reino Unido, los pagos de garantía variables se realizan o reciben diariamente, dependiendo de si se incurre en pérdidas o ganancias en el contrato de futuros subyacente.

*i) Swaps de rendimiento total*

La SICAV podrá celebrar contratos de swap mediante los que la SICAV y la contraparte acuerden intercambiar pagos consistentes en que una o ambas partes paguen los rendimientos generados por un valor, instrumento, cesta o índice de los mismos. Los pagos realizados por la SICAV a la contraparte y viceversa se calculan en función de un valor, cesta de valores, índice o instrumento concreto y de un importe teórico acordado. Los valores o instrumentos subyacentes deben ser valores mobiliarios y los índices deben ser índices de un mercado regulado.

Los Swap de Rendimiento Total intercambian el rendimiento total de una cesta específica de valores seleccionada por el Gestor de inversiones a cambio del pago de un tipo de interés de referencia más un diferencial. El rendimiento total incluirá intereses, dividendos, ganancias y pérdidas generados por los valores subyacentes durante el ejercicio contractual en función del tipo de subyacente. El riesgo de este tipo de instrumento radica en que no se conoce, al celebrar el contrato, la evolución que tendrá el rendimiento del subyacente. Estos valores subyacentes cotizan en mercados primarios.

### Memoria de los Estados Financieros (continuación)

A 30 de junio de 2013

El valor de los valores subyacentes debe tenerse en cuenta a la hora de calcular las facultades de inversión y préstamo aplicables a emisores individuales. Los índices pertinentes incluyen, a título meramente enunciativo, índices de divisas, de tipos de interés, de precios y de rendimiento total sobre tipos de interés, índices de renta fija e índices bursátiles.

Los valores de mercado se registran en la partida "Instrumentos derivados al valor de mercado" en el Estado Consolidado del Activo Neto. Las variaciones en dichas cantidades se registran en el Estado Consolidado de Operaciones y Cambios en el Activo Neto en la partida "Variación Neta en las Ganancias/(Pérdidas) No Realizadas sobre Instrumentos Derivados". Al cierre de un contrato, las Ganancias/(Pérdidas) Realizadas se registran en la partida "Ganancias/(Pérdidas) Netas Realizadas sobre Instrumentos Derivados" en el Estado Consolidado de Operaciones y Cambios en el Activo Neto.

JPMorgan Funds - Diversified Risk Fund, JPMorgan Funds - Europe Equity Plus Fund, JPMorgan Funds - Europe Select Equity Plus Fund, JPMorgan Funds - Global Merger Arbitrage Fund, JPMorgan Funds - Highbridge Asia Pacific STEEP Fund, JPMorgan Funds - Highbridge Europe STEEP Fund, JPMorgan Funds - JPMorgan Funds Japan Market Neutral Fund, JPMorgan Funds - Systematic Alpha Fund, JPMorgan Funds - US Equity Plus Fund, JPMorgan Funds - US Select Equity Plus Fund y JPMorgan Funds - US Select Long-Short Equity Fund han celebrado Swaps de Rendimiento Total (largos/cortos, conjuntamente denominados "los Swaps") en una cesta de valores con contrapartes seleccionadas.

#### j) Swaps de tipos de interés

Un swap de tipos de interés es un acuerdo bilateral en virtud del cual cada una de las partes acuerda intercambiar una serie de pagos de intereses por otra serie de pagos de intereses (generalmente fijos/flotantes) basado en una cantidad teórica que sirve como referencia para el cómputo y que generalmente no se intercambia.

Los valores de mercado se registran como "Instrumentos derivados al valor de mercado" en el Estado Consolidado del Activo Neto. Los intereses devengados en swaps de tipos de interés se contabilizan bajo "Intereses Netos sobre operaciones de swap" del Estado Consolidado de Operaciones y Cambios en el Activo Neto. Los cambios en las ganancias o pérdidas no realizadas se incluyen en el Estado Consolidado de Operaciones y Cambios en el Activo Neto, bajo "Variación neta de las ganancias/(pérdidas) no realizadas sobre instrumentos derivados". Al cerrarse un contrato, las ganancias o pérdidas realizadas se contabilizan bajo "Ganancias/(pérdidas) netas realizadas sobre instrumentos derivados" en el Estado Consolidado de Operaciones y Cambios en el Activo Neto.

#### k) Swaps de riesgo de impago ("Credit Default Swaps")

Un Swap de riesgo de impago es una transacción de derivados de crédito que permite a dos partes celebrar un acuerdo en virtud del cual una parte paga a la otra regularmente un cupón fijo durante la vigencia establecida para el acuerdo. La otra parte no efectúa ningún pago salvo que ocurra un acontecimiento crediticio, relacionado con un activo de referencia predeterminado. En caso de que tuviera lugar dicho acontecimiento, la parte efectúa un pago a la primera parte, y el swap termina. Se tendrá en cuenta el valor de los valores subyacentes para calcular las facultades de solicitud de préstamos e inversión aplicables a los emisores individuales.

Los valores de mercado se registran como "Instrumentos derivados al valor de mercado" en el Estado Consolidado del Activo Neto. Los cambios en las ganancias o pérdidas no realizadas se incluyen en el Estado Consolidado de Operaciones y Cambios en el Activo Neto, bajo "Variación neta de las ganancias/(pérdidas) no realizadas sobre instrumentos derivados". Al cerrarse un contrato, las ganancias o pérdidas realizadas se contabilizan bajo "Ganancias/(pérdidas) netas realizadas sobre instrumentos derivados" en el Estado Consolidado de Operaciones y Cambios en el Activo Neto.

#### l) Valores por anunciar ("TBA")

Los TBA están relacionados con los valores garantizados por una hipoteca emitidos por agencias con apoyo gubernamental. Estas agencias generalmente agrupan los préstamos hipotecarios y venden los intereses generados. Los TBA están relacionados con grupos de préstamos futuros de dichas agencias que se compran y venden para una liquidación futura respecto de la cual no se han fijado el tipo de interés ni la fecha de vencimiento. Los TBA figuran por separado en la Composición de la Cartera de Valores.

Los subfondos pueden celebrar transacciones del tipo "dollar roll", principalmente utilizando valores por anunciar ("TBA"), en las que los subfondos venden valores respaldados por hipotecas para su entrega en el mes en curso y contratan simultáneamente la recompra de valores similares, aunque no idénticos, a un precio acordado en una fecha fijada. Los subfondos contabilizan esas transacciones de "dollar roll" como compras y ventas y reciben una compensación como pago por la celebración del compromiso de recompra. Los subfondos deben mantener valores líquidos con un valor que no podrá ser inferior al precio de recompra (incluidos los intereses devengados) de esos dollar rolls. El valor de mercado de los valores que los subfondos están obligados a comprar puede reducirse hasta situarse por debajo del precio de recompra acordado de esos valores.

Los subfondos tenían dollar rolls sobre TBA pendientes a 30 de junio de 2013. Estas operaciones se incluyen en las partidas "Importes a Cobrar por Venta de TBA" e "Importes a Pagar por Compra de TBA" del Estado Consolidado del Activo Neto.

#### m) Swaps de índices de materias primas

Un Swap de índices de materias primas es un acuerdo bilateral mediante el cual cada una de las partes acuerdan intercambiar la rentabilidad total del índice de una materia prima específica por el tipo de interés de los mercados monetarios más comisiones.

Los valores de mercado se registran en la partida "Instrumentos Derivados al Valor de Mercado" en el Estado Consolidado del Activo Neto. Las variaciones en las ganancias o pérdidas no realizadas se registran en el Estado Consolidado de Operaciones y Cambios en el Activo Neto en la partida "Variación Neta en las Ganancias/(Pérdidas) sobre Instrumentos Derivados". Al cierre de un contrato, las ganancias o pérdidas realizadas se registran en la partida "Ganancias/(Pérdidas) Netas Realizadas sobre Instrumentos Derivados" en el Estado Consolidado de Operaciones y Cambios en el Activo Neto.

JPMorgan Funds - Diversified Risk Fund, JPMorgan Funds - Global Agriculture Fund, JPMorgan Funds - Highbridge Diversified Commodities Fund y JPMorgan Funds - Systematic Alpha Fund han suscrito Swaps de Rendimiento Total (largos/cortos, conjuntamente "los Swap") en una cesta de índices de materias primas con determinadas contrapartes.

#### n) Contratos de recompra

Las obligaciones subyacentes que sean satisfactorias a juicio del Gestor de Inversiones se transfieren a cuenta de la SICAV como garantía. Los títulos se valoran diariamente al precio del mercado y se mantienen a un valor equivalente, como mínimo, a la cantidad del principal del acuerdo de recompra (incluidos los intereses devengados). Los intereses recibidos o pagados por los contratos de recompra se registran en el apartado de intereses del Estado Consolidado de Operaciones y Cambios en el Activo Neto. El Gestor de Inversiones de los Fondos es responsable de determinar que el valor de los títulos subyacentes se mantiene conforme al requisito de valor de mercado establecido anteriormente.

#### o) Consolidación de la filial de Mauricio

Todos los ingresos, gastos, efectos a cobrar, efectos a pagar e inversiones de JPMorgan SICAV Investment Company (Mauritius) Limited (la "Filial"), filial al 100% de JPMorgan Funds se consolidan en el Estado Consolidado del Activo Neto y en el Estado Consolidado de las Operaciones y Cambios en el Activo Neto del JPMorgan Funds - India Fund. Los valores pertenecientes a la Filial se recogen individualmente en la Composición de la Cartera de Valores de JPMorgan Funds - India Fund. Los saldos entre las empresas del grupo se suprimen en la consolidación.

La utilización de la Filial de Mauricio y el tratamiento fiscal que facilita se basa en la legislación y práctica actualmente vigentes en los países pertinentes, según la interpretación del Consejo de Administración. Puede verse sometida a posibles cambios en el futuro y dichos cambios podrán tener un efecto negativo sobre la rentabilidad del Subfondo. Esto incluye cualquier circunstancia en que el Convenio de doble imposición entre la India y Mauricio no sea aplicable, o deje de serlo, como consecuencia, entre otras cosas, de cualquier resolución de las autoridades fiscales indias en el futuro. En el supuesto de que el convenio no fuese aplicable o dejase de serlo, los intereses devengados por los valores cotizados en un mercado bursátil indio estarían sujetos a un tipo impositivo máximo del 20%. Las ganancias de capital generadas al enajenar estas inversiones tributan a tipos de entre 0% al 15% a partir del 1 de abril de 2011 en relación a los valores cotizados, en función del tiempo durante el que se poseyó la inversión pertinente.

### 3. Valor de los Instrumentos Financieros y Riesgos Inherentes

La SICAV suscribió contratos de divisas a plazo, contratos de futuros financieros, opciones y swaps que en distinta medida conllevan un riesgo de mercado superior al reflejado en el Estado Consolidado del Activo Neto. El valor de los contratos representa el alcance de la participación de la SICAV en estos instrumentos financieros. Los riesgos de mercado inherentes a estos contratos surgen debido a las posibles variaciones en los tipos de cambio, índices y valor de los activos subyacentes a estos instrumentos.

La inversión en valores de renta fija está condicionada por el tipo de interés, el sector, la garantía y los riesgos crediticios. Los bonos de alto rendimiento son valores con peor calificación y normalmente ofrecen un rendimiento más elevado para compensar la menor solvencia o mayor riesgo de impago inherente a estos valores.

Otros riesgos de mercado y crediticios incluyen la posible falta de liquidez de los mercados para los contratos, la posible ausencia de una correlación directa entre las variaciones en el valor de los contratos y en el valor de las monedas, índices o valores subyacentes, y el incumplimiento por la contraparte de las obligaciones impuestas por las condiciones del contrato.

En mercados emergentes y menos desarrollados, en los que algunos de los subfondos invierten, la infraestructura legal, judicial y reglamentaria todavía está en fase de desarrollo, y existe gran incertidumbre en cuestiones legales para los participantes del mercado local y sus homólogos en el extranjero. Algunos mercados pueden conllevar mayores riesgos para los inversores que, en consecuencia, deberán asegurarse, antes de invertir, de que comprenden los riesgos inherentes y que consideran que la inversión es adecuada como parte de su cartera. En algunos mercados puede que no se disponga de un método seguro de entrega contra pago que pudiese minimizar el grado de riesgo de incumplimiento por la contraparte. Puede ser necesario efectuar un pago en una compra o libramiento en una venta antes de recibir los valores o, en su caso, el producto de la venta.

Las Clases de Acciones con el sufijo "(acc)" son Clases de Acciones de acumulación y normalmente no reparten dividendos.

Las Clases de Acciones de distribución reparten normalmente dividendos según se describe a continuación.

#### Clases de Acciones con los sufijos "(dist)" e "(inc)"

Se espera que todas las Clases de Acciones con el sufijo "(dist)" cumplan los requisitos para obtener la clasificación de "sujetas a revelación de información financiera" (reporting) a los efectos de la legislación fiscal del Reino Unido en relación con los fondos offshore y que éstas repartirán dividendos, en su caso, en el porcentaje superior de rentas declarables contemplado en dicha legislación o de ganancias imponibles conforme a la Ley Tributaria de la Inversión alemana. Se espera que dichas Clases de Acciones con el sufijo "(inc)" repartán dividendos, en su caso, en un porcentaje igual o superior a las ganancias de la inversión imponibles según la Ley Tributaria de la Inversión alemana. El pago de dividendos de estas Clases de Acciones se realizará normalmente en el septiembre de cada ejercicio.

#### Clases de Acciones con el sufijo "(div)"

Las Clases de Acciones con el sufijo "(div)" repartirán normalmente dividendos trimestrales calculados por la Sociedad Gestora en base al rendimiento anual previsto de la cartera del Subfondo pertinente que sea imputable a esa Clase de Acciones. La Sociedad Gestora revisará el porcentaje de dividendos para cada Clase de Acciones con periodicidad semestral como mínimo, pero puede ajustar el porcentaje de dividendos con más frecuencia para reflejar cambios en los rendimientos previstos de la cartera.

Los inversores deben tener en cuenta que las Clases de Acciones "(div)" dan prioridad al reparto de dividendos sobre el crecimiento de capital. El rendimiento previsto para cada Clase de Acciones se calculará en términos brutos, sin deducir la Comisión de Gestión y Asesoría anual y los Gastos de Explotación y Administrativos, y dichas Clases de Acciones repartirán normalmente dividendos superiores a las rentas obtenidas. Las Clases de Acciones con el sufijo "(div)" en circulación en la fecha de registro del dividendo percibirán los dividendos correspondientes, los cuales se abonarán en la moneda de la Clase de Acciones pertinente.

*Clases de Acciones con el sufijo "(mth)"*

Las Clases de Acciones con el sufijo "(mth)" estarán disponibles para los Accionistas que suscriban, y mantengan la suscripción, a través de redes de distribución asiáticas concretas y para otros distribuidores según determine la Sociedad Gestora a su entera discreción. Las Clases de Acciones con el sufijo "(mth)" repartirán normalmente dividendos con periodicidad mensual. El porcentaje de dividendos mensuales por Acción será calculado por la Sociedad Gestora en base al rendimiento anual previsto de la cartera del Subfondo pertinente que sea imputable a esa Clase de Acciones. La Sociedad Gestora revisará el porcentaje de dividendos para cada Clase de Acciones con periodicidad semestral como mínimo, pero puede ajustar el porcentaje de dividendos con más frecuencia para reflejar cambios en los rendimientos previstos de la cartera. Los inversores deben tener en cuenta que las Clases de Acciones "(mth)" dan prioridad al reparto de dividendos sobre el crecimiento de capital. El rendimiento previsto para cada Clase de Acciones se calculará en términos brutos, sin deducir la Comisión de Gestión y Asesoría anual y los Gastos de Explotación y Administrativos, y dichas Clases de Acciones repartirán normalmente dividendos superiores a las rentas obtenidas. Los pagos de dividendos para estas Clases de Acciones se realizarán normalmente a los Accionistas cada mes en la moneda de la Clase de Acciones pertinente.

*Clase de Acciones con el sufijo "(fix)"*

La Clase de Acciones con el sufijo "(fix)" abonarán normalmente dividendos fijos trimestrales en base al importe total anual por Acción que se establece en el folleto con fecha de junio de 2013.

*Clase de Acciones con el sufijo "(irc)"*

Las Clases de Acciones con el sufijo "(irc)" repartirán normalmente dividendos con periodicidad mensual. La tasa mensual del dividendo por Acción será variable y la Sociedad Gestora calculará esta en base a: el rendimiento anual bruto previsto de la cartera del Subfondo pertinente atribuible a esa Clase de Acciones, el cual se revisará al menos cada seis meses; y la suma o resta del rendimiento generado por el tipo de interés previsto en función de si dicho rendimiento es positivo o negativo respectivamente. El acarreo (carry) relativo al tipo de interés se calcula utilizando el diferencial medio diario del tipo de cambio futuro a un mes y el tipo de cambio al contado entre estas dos monedas del mes precedente.

*Otra información*

Los Accionistas deben tener en cuenta que, cuando el porcentaje de dividendos sea superior a las rentas procedentes de inversiones de la Clase de Acciones, los dividendos se abonarán con cargo al capital imputable a la Clase de Acciones así como a las ganancias de capital realizadas y no realizadas. Es posible que esto no sea eficaz fiscalmente para inversores de ciertos países. Se recomienda a los inversores consultar a su asesor fiscal local sobre su situación particular. Las Clases de Acciones con el sufijo "(div)", "(fix)", "(irc)", y "(mth)" no distribuyen rentas declarables de conformidad con la legislación fiscal del Reino Unido en relación con fondos offshore.

**5. Régimen fiscal**

De acuerdo con las normas y los usos vigentes en el Gran Ducado de Luxemburgo, la SICAV no está sujeta al pago de un impuesto sobre la renta ni a la práctica de retenciones a cuenta del impuesto sobre los dividendos. El único impuesto al que queda sujeto la SICAV es un impuesto sobre suscripciones (Taxe d'abonnement) de hasta el 0,05% anual pagadero trimestralmente, calculado sobre el importe total del activo neto de cada uno de los subfondos al cierre del trimestre correspondiente. El tipo aplicable a las clases de acciones de la SICAV identificadas en el Apéndice es del 0,01% anual. Los tipos del 0,01% y 0,05% descritos previamente, según correspondan, no se aplican sobre la proporción de activos invertidos en otros organismos de inversión colectiva que ya están sujetas al pago de Taxe d'abonnement.

La SICAV no está sujeta al pago de derechos de timbre u otro impuesto sobre la emisión de acciones en la SICAV en el Gran Ducado de Luxemburgo. Tampoco está sujeta al pago de impuestos en dicho país sobre las plusvalías realizadas o no de su patrimonio. Aunque no se prevé la aplicación en otro país de impuestos sobre las plusvalías realizadas, tanto a corto como a largo plazo, los accionistas deben tener en cuenta que esta posibilidad no puede excluirse por completo. Es posible que se practiquen a la SICAV retenciones, a diferentes tipos, tanto sobre las rentas de determinados activos como sobre los intereses devengados en depósitos en efectivo en ciertos países, resultando imposible, en general, recuperar las cantidades retenidas.

La SICAV ha iniciado un procedimiento legal para reclamar los impuestos retenidos por algunos Estados Miembros de la Unión Europea sobre los pagos de dividendos recibidos. La decisión de entablar un procedimiento legal contra un Estado Miembro en particular fue producto de un análisis de los posibles costes y beneficios que dicho procedimiento conllevaría. La probabilidad de tener éxito con la reclamación de dichas cantidades y el tiempo estimado para la finalización del procedimiento varía según los Estados Miembros. Todos los costes relacionados con esta decisión se han asignado a los subfondos correspondientes y se han incluido dentro de los costes totales a los efectos de determinar el límite de gastos o TER pertinente. No se ha registrado ninguna cantidad en la SICAV en relación con la posibilidad de recibir algún importe como consecuencia de esta acción legal.

Ciertos subfondos de la SICAV han invertido en títulos noruegos, finlandeses y polacos, respecto a los que se ha reclamado con éxito la devolución de los impuestos aplicados. Las cantidades recuperadas se han registrado, en su caso, en forma de efectivo bajo la partida Otros ingresos.

Ciertos Subfondos de la SICAV podrán invertir en los mercados brasileños y, por consiguiente, están sujetos a tributación local sobre la compra de reales brasileños: el denominado impuesto IOF brasileño. El 5 de junio de 2013, el impuesto IOF brasileño sobre los flujos de divisas entrantes en relación con la compra de instrumentos de renta fija se redujo del 6% al 0% para las entradas con fecha de negociación del 5 de junio de 2013 o posterior. Este impuesto se ha registrado, cuando corresponde, bajo la partida Gastos Varios.

**6. Estado de cambios en las inversiones**

Una lista, en la que se especifican para cada inversión de cada subfondo el total de compras y ventas realizadas durante el ejercicio considerado, podrá obtenerse gratuitamente solicitándola en el domicilio social de la SICAV. También estará disponible en el domicilio social de la SICAV información adicional sobre las inversiones de la cartera de cada subfondo.

**7. Comisiones y Gastos***a) Todos los subfondos - acciones de Clase A, B, C, D, I y T*

Las comisiones y los gastos cargados a estas clases de acciones se establecen como un porcentaje fijo del total de activos netos de cada clase de acciones. Este porcentaje fijo cubre la totalidad de los gastos y comisiones generados en la gestión de estas clases de acciones, con inclusión de los posibles costes y beneficios de gestión de inversiones, los cargos por servicios a accionistas y gastos operativos y administrativos diversos, que incluyen como mínimo las comisiones de depósito, de tenencia de registro y de agente de transferencias; no cubre los impuestos que gravan las inversiones, los gastos de intermediación ni la taxe d'abonnement, los intereses, los costes extraordinarios ni las comisiones por resultados, si las hubiese.

No se cobran otros costes en relación con estas clases de acciones, y la Sociedad Gestora absorbe cualquier diferencia que pudiera surgir entre los costes efectivos de las operaciones de estas clases de acciones y el porcentaje fijo. Si el nivel de los gastos operativos efectivamente soportados se sitúa por debajo del porcentaje fijo, el excedente se abonará a la Sociedad Gestora y se recogerá en el epígrafe "Comisiones de Gestión y Asesoramiento". Cuando el nivel de gastos operativos efectivamente soportados excede el porcentaje fijo, la cantidad excedente que se cargue a la Sociedad Gestora quedará indicada por separado bajo el epígrafe "Renuncia a la Comisión" en el Estado Consolidado del Activo Neto y el Estado Consolidado de las Operaciones y Cambios en el Activo Neto.

*b) Todos los subfondos - acciones de Clase I y P*

El importe máximo de los gastos y comisiones totales imputables a los titulares de estas clases de acciones de cualquier subfondo se ajustará a un límite máximo correspondiente a un porcentaje determinado del activo neto total atribuible a dicha clase. Este importe máximo de comisiones y gastos comprenderá las comisiones de gestión de inversiones y otros gastos operativos y administrativos incluyendo, entre otros, los gastos de depósito, contabilidad y fiduciarios, comisiones de agencia de transferencias e impuestos. No incluye las comisiones por resultados, si las hubiese.

Este porcentaje máximo de comisiones y gastos anual tiene carácter de Coeficiente de Gastos con Límite Máximo. En el Apéndice figuran los tipos máximos anuales de las comisiones para cada clase de acciones.

c) Todos los subfondos - acciones de Clase X y Y

La Comisión Anual de Gestión normalmente imputable a las acciones de las Clases X y Y es gravada administrativamente y recaudada por el distribuidor global directamente del accionista o a través de la entidad J.P.Morgan Chase & Co pertinente.

Los Gastos Operativos y Administrativos máximos que correrán por cuenta de los accionistas de las Clases X y Y de cualquier subfondo no sobrepasarán un porcentaje máximo del total de activos netos atribuible a dicha clase, tal como se establece en el Apéndice.

Los Subfondos pueden invertir en OICVM u otros OIC (Organismos de Inversión Colectiva) gestionados por la Sociedad Gestora, el Gestor de Inversiones o cualquier otro miembro de JPMorgan Chase & Co. Al objeto de evitar la doble imposición de la Comisión de Gestión y Asesoramiento Anual, a) se excluyen los activos del patrimonio neto en función del cual se calcula la Comisión de Gestión y Asesoramiento Anual; b) se invierte en OICVM u OIC a través de clases que no generen una Comisión de Gestión y Asesoramiento Anual ni otras comisiones equivalentes pagaderas al grupo del Gestor de Inversiones pertinente; c) la Comisión de Gestión y Asesoramiento Anual se compensa mediante un reembolso a la SICAV o Subfondo de la Comisión de Gestión y Asesoramiento Anual (o equivalente) cobrada al OICVM u OIC subyacente; o d) se cobra únicamente la diferencia entre la Comisión de Gestión y Asesoramiento Anual de la SICAV o Subfondo y la Comisión de Gestión y Asesoramiento Anual (o equivalente) cobrada al OICVM u OIC subyacente. Para proteger los intereses de los accionistas del Fondo, la Sociedad Gestora podrá reducir la comisión pagadera a ésta cuando sea oportuno.

Remítase al apartado 14g de la Memoria relativo a los cambios en la Estructura de los Gastos de Explotación y Administrativos de las Clases de Acciones.

d) Comisiones por resultados

De conformidad con el Contrato de Gestión de Inversiones, tal como se establece en el Apéndice del Folleto, el Gestor de Inversiones tiene derecho a percibir, a partir de los activos netos de determinados Subfondos o Clases, tal como se establece en el Apéndice del Folleto, una comisión de incentivo anual basada en resultados (la "Comisión por resultados") si el rendimiento del subfondo supera el rendimiento de la referencia, con sujeción a la aplicación de un mecanismo de reembolso (claw-back) o de un rendimiento límite (high water mark), tal como se define en el Apéndice V y se detalla en el Apéndice III de cada subfondo. En cada Día de valoración, se calcula, cuando corresponda, la acumulación correspondiente a la Comisión por resultados para el Día de valoración anterior, y la Comisión por resultados final se paga anualmente. De conformidad con las disposiciones del Contrato de Gestión de Inversiones pertinente, el Gestor de Inversiones podrá tener derecho a percibir la Comisión por resultados de la Sociedad Gestora.

En cada Día de valoración, el valor del activo neto de cada Clase de cada Subfondo al cual se aplica una Comisión por resultados, lo que incluye una acumulación de todas las comisiones y los gastos (incluyendo la Comisión de Asesoramiento y Gestión Anual, y los Gastos operativos y administrativos que han de ser abonados por la Clase pertinente a la tasa establecida tal como se dispone en el Apéndice del Folleto), se ajusta en función de cualesquier distribuciones de dividendos y suscripciones y rescates efectuados en dicho Día de valoración, si los hubiera, y se agregará cualquier Comisión por resultados acumulada hasta tal día respecto de tal Clase ("Valor del activo neto ajustado"). A los efectos de calcular la Comisión por resultados, el "Rendimiento por clase de acción" se calcula cada Día de valoración como la diferencia entre el Valor del activo neto (ajustado tras agregar cualesquier Comisiones por resultados acumuladas) en dicho día y el Valor del activo neto ajustado el Día de valoración previo, expresado como un rendimiento basado en el valor del activo neto ajustado en el Día de valoración previo para tal clase.

Método de Rendimiento Límite

En caso de que el Rendimiento por clase de acción supere el Rendimiento de referencia y el rendimiento por clase de acción acumulado supere el rendimiento límite (High Water Mark) (tal como se establece en el Apéndice del Folleto), la acumulación de la Comisión por resultados se aumentará con el porcentaje de comisión por resultados multiplicado por el Rendimiento excedente multiplicado por el valor del activo neto ajustado en el Día de valoración previo para tal clase. En caso de que el Rendimiento por clase de acción no supere el Rendimiento de referencia, de la acumulación de la Comisión por resultados se deducirá (pero no será menor de cero) el porcentaje de comisión por resultados multiplicado por el Rendimiento excedente negativo multiplicado por el valor del activo neto ajustado en el Día de valoración previo para tal clase. Tras un período de Rendimiento excedente negativo mediante el cual la acumulación de Comisión por resultados se hubiera reducido a cero, no se acumulará la Comisión por resultados hasta que el Rendimiento por clase de acción acumulado exceda la cifra que sea mayor entre el rendimiento de referencia acumulativo y el rendimiento límite (High Water Mark) desde el comienzo del ejercicio contable de la Sociedad. La Comisión por resultados acumulada en cualquier Día de valoración se reflejará en el valor del activo neto por acción sobre la base de qué suscripciones y rescates puedan ser aceptados.

Mecanismo de Reembolso

El propósito del mecanismo de reembolso (claw-back) es garantizar que la Sociedad Gestora solo tenga derecho a percibir una Comisión por Resultados cuando logre un rendimiento mayor a la rentabilidad acumulada de la referencia (tal como se define en el Apéndice V del Folleto) desde el último Día de Valoración del último período en que se pagó una Comisión por resultados.

A 30 de junio de 2013, el porcentaje de las Comisiones por Resultados y las referencias son las siguientes:

| Subfondo                                                     | Clases de acción aplicables                      | Porcentaje de las Comisiones por Resultados | Referencia                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
