

Stewart Investors Asia Pacific Sustainability Fund Class B GBP

a subfund of First State Investments ICVC (the Company) – Fund Factsheet

30 April 2020

Investment objective and policy

The Fund aims to grow your investment. The Fund invests in shares of companies based in or having significant operations in the Asia Pacific region including Australia and New Zealand excluding Japan. The Fund invests in shares of companies which are positioned to benefit from, and contribute to, the sustainable development of the countries in which they operate. Investment decisions around sustainability are based on three key points: Identifying companies who manage sustainability risks and opportunities and those with a positive sustainability impact. Inclusion of environmental, social and corporate governance matters in investment research. Engaging directly with companies on identified sustainability issues. The Fund may use derivatives to reduce risk or to manage the Fund more efficiently.

* The benchmark for this Fund has been identified as a means by which investors can compare the performance of the Fund and has been chosen because its constituents most closely represent the scope of the investable assets. The benchmark is not used to limit or constrain how the portfolio is constructed nor is it part of a target set for Fund performance. Given the diverse nature of the constituent funds within the Specialist IA sector the manager does not compare performance of this Fund with its IA sector.

Risk and Reward Profile

◀ Lower Risk Higher Risk ▶
Potentially Lower Rewards Potentially Higher Rewards

The synthetic risk reward indicator (the SRRI) rating is not a measure of the risk of you losing your investment but describes how much the value of the Fund went up and down in the past.

The SRRI rating is based on historical data which may not be a reliable indication of the future risks and rewards of the Fund. We cannot guarantee that the rating of the Fund will remain the same: it may change over time.

Even the lowest rating 1 does not mean a risk free investment.

On a scale of 1 (less risky) to 7 (more risky), this Fund has a rating of 5 due to its past performance and the nature of its investments. Shares with a rating of 5 might have a higher risk, but also higher returns. Risk is taken in order to make a higher potential return; the more risk a fund takes, the higher the potential return but the greater the risk of loss.

The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may get back significantly less than the original amount invested.

The Fund may also experience the following risks:

Currency risk: The Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund.

Emerging market risk: emerging markets may not provide the same level of investor protection as a developed market; they may involve a higher risk than investing in developed markets.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within five years.

For further information on risks, please refer to the Risk Factors section in the Company prospectus.

Investment should be made on the basis of the Prospectus and Key Investor Information Document. If you are in any doubt as to the suitability of any of our funds for your investment needs, please seek independent financial advice.

Important Information

This factsheet is a financial promotion and can be used for retail clients in the UK. Distribution is limited to Professional Clients in all other countries where lawful.

◊ An initial charge of up to 4% may be levied in certain circumstances, e.g. to limit the size of the fund, including on regular savings plans and may be remitted as commission to an intermediary.

† The ongoing charge figure (OCF) is calculated on the same basis as for the Key Investor Information Document and represents the charges you will pay over a year for as long as you hold your investment and may vary from year to year. The OCF is made up of the annual management charge and additional expenses, but excludes portfolio transaction costs. For further information about charges and costs please visit <http://www.firststateinvestments.com/uk/private/Charges/>.

‡ This does not constitute an investment recommendation and is not indicative of future results. Methodology available on rating provider's website.

^ The performance ranking of funds within the IA Specialist sector is not viewed as a fair comparison given the diverse nature of the funds within the sector. Performance statistics are therefore noted versus benchmark rather than the IA sector. The Specialist sector constituents are defined by the IA as Funds that have an investment universe that is not accommodated by the other IA mainstream sectors.
