SVM UK Opportunities Fund: B Class Shares, a sub-fund of SVM Funds ICVC (ISIN: GB0032084815)

This fund is managed by SVM Asset Management Limited

Objectives and Investment Policy

The Fund aims to achieve above average capital growth over the medium to long term (although short term investment opportunities will also be considered) and it aims to outperform the FTSE All Share Index.

The FTSE All Share Index has been selected as the target benchmark for the Fund; its constituents make it an appropriate benchmark given the securities permitted for the Fund.

The Fund will seek to invest in the full range of opportunities available to it, which will include shares on the Alternative Investment Market. The Fund also will seek to generate returns regardless of market capitalisation.

The Fund will invest principally in securities of UK companies listed on the London Stock Exchange. From time to time, when particular opportunities are identified, or the ACD considers it appropriate, this Fund may invest in other permitted transferable securities.

The Fund is actively managed within its objectives and is not constrained by a benchmark.

Shares in the Fund can be bought and sold on demand on each business day.

Only accumulation shares are in issue, any income arising from the Fund is reinvested.

Portfolio transaction costs will have an impact on performance of the Fund.

Recommendation: the fund may not be appropriate for investors who plan to withdraw their money within five years.
