# Schroder European Alpha Plus Fund

an Authorised Unit Trust of Schroder Unit Trusts Limited

Class Z Accumulation GBP Hedged (GB00B91WD971)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

## Objectives and Investment Policy

### Objectives

The fund aims to provide capital growth in excess of the FTSE World Series Europe ex UK (Gross Total Return) index (after fees have been deducted) over a 3 to 5 year period by investing in equities of European companies, excluding the UK.

### Investment Policy

The fund is actively managed and invests at least 80% of its assets in a concentrated range of equities of European countries, excluding the UK. The fund typically holds 35 to 60 companies.

'Alpha' funds invest in companies in which the investment manager has a high conviction that the current share price does not reflect the future prospects for that business.

The fund may also invest directly or indirectly in other securities (including in other asset classes), countries (including the UK), regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market instruments, and hold cash.

The fund may use derivatives with the aim of reducing risk or managing the fund more efficiently.

### Benchmark

The fund's performance should be assessed against its target benchmark, being to exceed the FTSE World Series Europe ex UK (Gross Total Return) index, and compared against the Investment Association Europe ex UK sector average return. The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the benchmark.

### Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

### Distribution Policy

This unit class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the unit class.

## Risk and Reward Profile

### The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

### Risk factors

The following risks may affect fund performance.

**Concentration risk:** The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down, which may adversely impact the performance of the fund.

**Counterparty risk:** The counterparty to a derivative or other contractual agreement or synthetic financial product could

become unable to honour its commitments to the fund, potentially creating a partial or total loss for the fund.

**Currency risk:** The fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**Currency risk / hedged unit class:** Changes in exchange rates will affect the returns on your investment. The aim of this British pound hedged unit class is to reduce the effects of exchange rate fluctuations between British pound and the currencies within the fund.

**Derivatives risk:** A derivative may not perform as expected, and may create losses greater than the cost of the derivative.

**Equity risk:** Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

**Operational risk:** Failures at service providers could lead to disruptions of fund operations or losses.

**Performance risk:** Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

# Charges

## One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

## Charges taken from the fund over a year

Ongoing Charge	1.03%
----------------	-------

## Charges taken from the fund under certain specific conditions

Performance fee: None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending November 2018 and may vary from year to year.

Please see the prospectus for more details about the charges.

# Past Performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 22 September 2003.

Performance figures are only available since the launch of the respective unit class.
