

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

TM Cavendish AIM Fund Class B

A sub Fund of the TM Cavendish Investments Funds

This Fund is managed by Tutman LLP

ISIN (Income): GB00B0JX3Z52

Objectives and Investment Policy

The objective of the Fund is to achieve long-term capital growth.

The Fund aims to invest mainly in equities on the UK Alternative Investment Market ('AIM'). This will be achieved by an actively managed diversified portfolio of shares spread across any sector of AIM. In addition the Fund may on occasion invest in fully listed shares of companies with smaller market capitalisations.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares. Investors can buy and sell shares on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 5 due to the volatility of the Fund price which sits in a range of between 10% and 15%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- More political, economic or structural challenges face emerging markets or less developed countries than developed countries which may increase volatility and uncertainty.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the fund will actually be achieved.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- Shares purchased on the AIM markets (especially those known as 'penny shares') carry a higher degree of risk of losing money than other UK shares.
- The requirements on companies that are listed on AIM market are less stringent than those for companies with a full market listing.
- There is usually a wider spread between the buying price and the selling price of these shares if they have to be sold quickly.
- There may be difficulty or delay in buying and selling shares due to a low level of trading activity on the AIM market (referred to as lack of liquidity).
- The businesses and companies are subject to higher risk of failure and so the risk of insolvency is also higher for these type of shares. This could mean that you lose all or significantly large part of the investment is shares of companies which are insolvent.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	5.00%
--------------	-------

Exit Charge	None
-------------	------

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out

Ongoing charges	0.70%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 15th May 2019. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see the section headed 'Charges and Expenses' in the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

Performance source: Morningstar Direct

- (a) The Fund launched in 2005
- (b) The bar chart shows the calendar year returns for the last 10 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance
- (c) Past performance has been calculated in pounds sterling
- (d) Performance will be calculated as Total Return, including all charges levied against the Fund
- (e) Past performance has limited value as a guide to future performance
- (f) Investments may go down as well as up
